WASHINGTON (AP) — Here at a glance is how the military draft will operate under plans announced by President Johnson today.

Age of induction: 19-year-olds first with sharply decreased chance of being drafted for any one who gets past that year.

That.

For draft-eligible men, the big news was that months may pass before they'll find out exactly where they stand.

Once the new format takes effect, however, draftees will be mostly 19-year-olds selected by lot. Young men will be most vulnerable to the draft for only one who gets past that year.
