British Tanker Torpedoed By Unknown Sub

England Indignant At Attacks On Shipping, Destroyers In Mediterranean Sea

Cabinet Orders Re-Inforcements

Fleet Of Destroyers Searches For Sub With Guns Bared

LONDON, Sept. 2.—(AP)—Great Britain, roused to indignant action by the mysterious sinking of a merchantman and the close escape of a destroyer, ordered its fleet reinforced today in the western Mediterranean.

The tanker Woodford, flying the British flag, went down off the east coast of Spain, torpedoed yesterday by an undersea craft near where the British destroyer Havock dodged a torpedo Tuesday night. The Woodford's second engineer was killed and six of her crew were wounded.

The order for reinforcements was announced after tense cabinet members had attempted at two long sessions to shape the Empire's policy against attacks.

Eight Ships In Hunt At least eight swift destroyers were rushed into the search and each commander was told explicitly that he was free to use his own judgment.

Pet Raccoon Causes Consteration At Zoo

A pet raccoon owned by E. W. Holmes, a negro, caused consternation in the Florida zoo sector of the Sanford Municipal Zoo this morning.

The little black and white animal, held securely by a long chain leash, seemed to be very interested in the cage containing his furrier brothers.

Apparently curious as to how one so nearly like themselves should be on the outside, they seemed determined to pick a fight with him.

BISHOP INSTALLED

SYRACUSE, N. Y.—(AP)—The Most Rev. Walter A. Peery, former Bishop of Rochester, was installed today as the fifth bishop of Syracuse.

TALLULAH BANKHEAD A BRIDE

Far from the glamour of the stage on which she won international fame, Tallulah Bankhead was married to John Emory, Broadway actor, in the home of her father, Speaker William B. Bankhead, at Jasper, Ala. "I married for love," says Tallulah—and this picture seems to prove it as the newlyweds gaze into each other's eyes just after the ceremony.

J. Thomas Allen, County To Adopt 78, Is Dead After Neutral Position Lengthy Illness In J.M. Lee Case

Retired Eight Years, Had Worked For ACL For 50 Years

Joseph Thomas Allen, 78, died at his home last night after having been in ill health for the past three or four years. He had lived in Sanford for the past 43 years.

Mr. Allen was born in Bladen county, N. C. in 1859 and had been employed by the Atlantic Coast Line Railroad for 50 years prior to his retirement eight years ago.

Wrecking Master for the ACL headquarters in this city, he was a member of the local camp of the Woodmen of the World.

Woodman's Play To Be Tomorrow

Ticket sales are mounting rapidly for the forthcoming production, "Dat Gal From Birming'ham," which will be presented tomorrow night at the Woman's Club, according to reports today from C. C. Collins, past head camp of the Sanford Camp of the Woodmen of the World.

Many features have been promised for the play which should give the presentation a wide appeal, it was stated. Probably the finest offering will be a local rendition of "The Big Apple," the unusual dance which is spreading rapidly throughout the South.

500 Are Known Dead In Blow At Hongkong

Worst Typhoon Since 1927 Strikes British Colony Devastating Ships And Houses

HONGKONG, Sept. 2.—(AP)—More than 500 persons believed today to have perished as the most devastating typhoon in 10 years lashed the British Crown colony. Officials expressed the fear that deaths might mount into the thousands.

At least 20 vessels were sunk by the fury of the wind. Ship after ship was torn from its storm mooring in the crowded harbor and sent careening helplessly in the maelstrom.

The business section of Hongkong was a veritable shambles. Scores of buildings were unroofed and their floors smashed in as if they were tinder.

School Principals, Superintendent Discuss Problems

County Nurse Urges Dental Inspection For School Children

The principals of all the white schools of Seminole County met in the office of the Superintendent T. W. Lawton yesterday to discuss various matters relative to the coming year.

At the session Mrs. Dorothy Lamb, county school nurse, outlined her health program for the coming year. In it she advocated dental inspection and immunization of all students of Seminole County Schools.

The fact was also brought out that the regulation requiring students to be in the state for two weeks prior to entering school or presenting a health certificate from an authority in the vicinity visited stating that there were no epidemics of communicable diseases in that locality, would be more rigidly enforced this year than ever before because of the spread of infantile paralysis throughout the nation.

Fire Losses Amount To \$1,979 Since Jan. 1

As a result of the thorough work of the Sanford Fire Department and the cooperation of the citizens of Sanford in the prevention of fires, Sanford has suffered on losses amounting to only \$1,979 since Jan. 1. It was learned today.

Fire Chief Mack Cleveland reported today that the department had made only one run thus far this year and only one during August with practically no damage reported for the month.

Although the local department does not have as modern equipment as numerous other cities in the state, local firemen, time after time, have proved their efficiency in emergencies and have prevented serious conflagrations in this city.

JAPANESE FORTIFIED IN SHANGHAI STREETS

Japanese troops are tightening their grip on Shanghai, as this picture shows, by fortifying themselves behind sandbag barricades in the streets of the Hongkew area within the International Settlement. Some of the most desperate fighting of the Shanghai invasion has occurred in that district, much of which has been destroyed by fires and bombing. The chain behind the soldier in the center indicates he believes in comfort, even under fire. (Associated Press Photo)

Freighter Sinks With 25 Aboard Near Pensacola

Sailor Swims Ashore Bringing News Of Disaster In Gulf

PANAMA CITY, Fla., Sept. 2.—(AP)—The Gulf Coast freighter Tarpon with about 25 aboard went down several miles off East Pass, Florida, at 8:45 A. M. Contral time yesterday.

One seaman, Addley Baker of Mobile, Ala., swam ashore and gave the first news of the tragedy. He said he had been in the water from 8:45 A. M. yesterday until 10 A. M. today.

He said he knew one negro sailor went down with the freighter but expressed the belief many others among the crew would reach shore as he did or be picked up in the Gulf.

He said when he started swimming for shore he saw Capt. W. G. Harrow of Pensacola and "most of the crew" on the surface clinging to the wreckage. Baker said the boat encountered rough weather off of Pensacola.

Lions Club Plans Annual Picnic At SanLando Springs

Plans for a picnic to be held Sept. 9 at SanLando Springs were laid last night at the regular monthly meeting of the Sanford Lions Club, according to John Galloway.

A committee appointed to take charge of the arrangements of the affair includes John Levy, chairman, and Joe Meisch, and James Rowland.

Slum Clearance Bill Signed By President

HYDE PARK, New York, Sept. 2.—(AP)—President Roosevelt announced today his approval of the Wagner-Stengall Bill launching a \$250,000,000 experiment in Federal-local slum clearance and low-rent housing construction.

He also signed a Senate bill authorizing a government monopoly in the production of helium and the changing of export rules to permit its sale to foreign countries in restricted quantities for commercial or medical purposes.

Chinese Hold Japs At Paoshan

Severe Bombardment Seen By Observers As Waste Of Shells

SHANGHAI, Sept. 2.—(AP)—Japanese air squadrons dumped bombs on the northern borders of the International Settlement in a sunset air raid today just missing the sand bagged sectors defended by American Marines.

The bombs played havoc with life and property but apparently achieved no military objective. Shrapnel fell about the United States Marine posts.

The American lines were directly in the range of fire. The steel-helmeted Marines were in imminent danger of serious casualties in case the Japanese air bombers or naval gunners over-rot their marks—the Chinese government mint and other administration buildings.

Favorable Action Is Promised On Road '44

Favorable action relative to the reconstruction of State Road 44 from Sanford to the Titusville Bridge has been assured by the State Road Department as soon as the necessary right-of-way can be secured, County Attorney E. F. Housholder reported today.

After receiving this information from the Road Department the County Commissioners instructed their attorney to proceed with all necessary legal matters pertaining to acquisition of the road right-of-way so that the project might be offered for approval to the State Road Department in time to secure an allocation in the budget for the coming year.

It probably hasn't occurred to anyone that one reason the Chinese bombed the President Hoover was because he brought on the world depression.

The CIO maritime union is demanding bonuses of \$250 for its seamen who have to sail into the war zone. We don't blame them. And these American Marines, on their way over there should demand a bonus, too.

Building permits in Miami for the first eight months of 1937 have amounted to \$10,000,000, a figure which is some \$3,000,000 higher than the permits issued for the same period last year. This may not be a building boom, but it certainly is no depression.

General Smalley Butler, the fighting ex-Marine, wants to know why soldiers and sailors stationed in the Orient aren't withdrawn before they get into trouble. "We've spent too much money and lost too many good men already fighting other people's battles for them," he says. "And not another American soldier ought to be sent out to fight on foreign soil."

After the president's Roosevelt speech, a lot of people are still wondering whether Lord Macaulay was the first white child born in America or if President of the Liberty League, Tallahassee Democrat, we don't know about that, but we'll bet if he'd heard the president's speech, his face would have felt like a redskin.

J. Edgar Hoover, Director of the Federal Bureau of Investigation, learned in a recent survey of 50 American cities that scores of police and high-crime rates go hand in hand. The murder rate in cities which employ one or fewer policemen per 1,000 inhabitants was shown to be twice as high as that of cities which have at least two policemen per 1,000.

Foreclosing Tax Liens

The old story that there is nothing so sure as death and taxes was re-emphasized yesterday when the City started foreclosure proceedings against some 65 parcels of land in the Bel Air subdivision on which City taxes and street paving assessments had become delinquent to the extent in some cases of more than \$2,400. Just what the total is on all of these taxes and assessments forming the basis of this foreclosure action, we do not know, but it must be tremendous.

On many of these lots the taxes have not been paid for ten or twelve years. In most cases there is no good reason for not paying the taxes. The owners may not have had the money, he may have moved away from Sanford and no longer be interested in the property, or he may have been assessed for taxes more than the value of the property. In any event he avoided payment of taxes legally assessed against him while other property owners in the City were paying theirs and paying a larger share because of other delinquencies.

These lots in Bel Air are not the only property in the City on which taxes have become delinquent in the past few years. There are lots in other sections, some houses, and a number of downtown business properties which have been escaping taxation by the simple expedient of merely not paying. Until recently there was virtually nothing the City could do about it because bondholders could take the property away from the City as fast as the City got possession of it.

The apparent unfairness of allowing certain property owners to retain possession of their property while not paying their proportionate share of taxes was felt by everyone. Because some didn't pay and the City was deprived of this revenue, the taxes which others had to pay were necessarily higher than they would have been if everyone had paid alike. And because some property owners did not pay taxes, they could afford to rent stores and offices for less money than the others could who were still trying to pay their taxes. Consequently the honest taxpayer was doubly penalized.

The refunding of the City's bond indebtedness has changed all this and has made it possible for the City to foreclose on all delinquent properties. Just what the City will do with the property once it acquires it is not quite certain, but undoubtedly it will take steps to get it back on the tax rolls. When this is accomplished, and all the property in the City is paying a fair share of taxes, the tax load should be considerably lighter for everyone.

Unemployment Census

Pointing out that unskilled workers are estimated to make up about 25 percent of the unemployed, that semi-skilled workers constitute about 23 percent, and skilled workers about 15 percent, the United States News explains why Congress thought it necessary at this time to appropriate \$4,000,000 for the purpose of conducting a census of America's jobless hordes.

With taxes rising, and deficits of the federal government still increasing in spite of increased revenues, and with the public debt of the country already billions higher than the previous all-time peak, business and professional men and others who realize that they pay taxes are beginning to ask, "Who are the unemployed?" "How many are there?" "Where are they located?" "What are their liabilities?"

The results of the federally conducted census will be used to supplement similar information already amassed by such agencies as the United States Employment Service which has listed the name, address, skills, family history, age, sex, and education of some 4,938,998 individuals as of August 1st this year who at that time were looking for jobs. This number is said to include about 1,500,000 who have jobs on WPA projects.

At the same time the Social Security Board is gathering information concerning millions of individuals who either are or soon will be drawing pensions from the federal government.

"As a result, the Government is ready to begin its study of unemployment with detailed information concerning the bulk of those out of work," says the News. "From that point on, according to plans taking shape, it intends to strive to induce the remainder of the unemployed to register. In this endeavor it intends to open a large number of places of registration utilizing the post offices and other Government offices. Relatively few of those actually out of work, and really desirous of working will be missed. In the opinion of the experts handling the matter, they expect to get more pertinent information than a general census would provide."

Already, the studies of Employment Service registrations reveal that: the number of registrants has run consistently at about two-thirds of the best estimates of total employment, suggesting that the total now is around 7,000,000.

WASHINGTON DAYBOOK

WASHINGTON—One of the things that can happen to an Indian in this day of enlightened treatment of the redman is to be left off the tribal roll. Offhand that would sound like being expelled from the D. A. R. or the Elks but to an Indian it is a snub proposition, not sentimental. The Indians on the tribal roll receive dividends from tribal property. In many tribes the community life runs into millions and the Indians buy much gasoline and many necessities. In other tribes the property has already been divided among the members, but those off the roll would like to get on because it would give them at least a semblance of a claim against the government.

Take Mr. Fix, Now. A sample is the case of Robert Fix, who claims to be a descendant of Choctaw Indians. He said his family were left off the rolls and he is quite frank in stating that he wants to be on so as to share the tribal bounty. Fix was a lad of about high school age when, in 1897, a government commissioner held a hearing to determine who were Choctaw Indians and so entitled to a division of the tribal property. The Fix family was left off for failure to prove Choctaw connections. Since becoming old enough to realize what had happened to him, Fix has been an almost constant witness before congressional committees. He has a stack of documents and Indian affidavits that tell a story weird almost as an "Arabian Nights" tale. He tells it before the senate Indian affairs committee in about this fashion: His great grandmother, marched overland from Mississippi to Oklahoma in the enforced migration of that tribe. She had several children. One of the daughters married a civil war soldier out in Kansas, had three children by him and then was murdered. The children were abandoned. They made their way back to Oklahoma and lived with relatives among the Choctaws. One of the children, Fix says, was his mother.

Other Cases, Too. The commission in 1907 was dissatisfied with the story and the Fix family got no land. The senate committee has not acted on his case yet, either. The Choctaws still have home coal land as tribal property and Fix predicts someday he will get his share of it. Not only does the government oppose him, since it made the original finding, but members of the tribe in good standing on the rolls don't want him in on the tribal pool. There are hundreds of other Indians in like condition. The Klans in Washington have valuable timber holdings and pay comfortable fees to a firm of attorneys in Washington, D. C. merely to draw up timber sale contracts. Several hundred Indians were left off the Klamath rolls also, and thereby hangs another case before congress.

It is all very complex, because the Indians did not keep especially good birth records. Among themselves they knew who was who, but it is a tough assignment for a lone Indian at odds with his tribe to prove his ancestry. The only witnesses are other Indians—who would rather have fewer in on the split-up anyway.

FOOTSTEPS of his father are being followed by young Robert F. Wagner, Jr. who is a candidate for 10th district assemblyman.

MAN ABOUT MANHATTAN

NEW YORK, Sept. 2.—Breaking a straw with those who bemoan the death of fine entertainment in the cabarets of New York, this observer would like to point out a few items which are far from inferior to anything of their kind that can be found anywhere. These are essentially high grade acts and are, in our opinion, the high points in the nocturnal side of New York's art. They form the All-America for Broadway this season. Most rhapsodic—Meymo Holt. She is the diminutive 33-round dancer in the Hawaiian room at the Lexington. Her interpretation of the folk lore of the islands is more graceful than the frolics of a palm tree swaying in a gentle breeze. Best Comedy dance—the Apache number at the French Casino. Here is something neat from the Rue de la Soie. After M. Apache tosses his hat around, she turns and pounds him "like the dirty linen on the washboard." Most exciting—Ed—the Russian skaters at the Paradise. Two thoroughly superb skaters and a lovely girl pull off a thriller that compares with the best. Most graceful—Florence Shaw—the ice carnival at the New Yorker. Lovely girls, European champions, all on the ice skating and showing you what the poetry of motion really means. Prettiest dancer—Mona Montes. Maybe we've told you about her before. She is so exciting we'll probably tell you about her lots of times. This is the little Spanish dancer at El Chico who epitomizes the heart beat that editors see on their magazine covers. Most unpredictable in costume—Eddie Davis at Leon's and Eddie's. He used to wait on tables and drive a hack. Now he is the wandering minstrel of 52nd street. Interpreting Somerset Maugham's South Sea Island romances through the medium of tattered hula and slightly well sometimes more than that risqué songs. If you don't know Eddie Davis you don't know 52nd street. And if you don't know Meymo Holt, Mona Montes, the Apaches, the Russians, and the New Yorker's ice skaters you should get acquainted at once.

Shells And Bombs Destroy Lives, Property On Edge Of International Area

Chinese declaring their lines were holding firm. The Japanese admitted their earlier claim to the capture of Paoshan was a mistake.

Liuho in this area was pounded fiercely by great Japanese naval shells and air bombs about the Chinese troops stayed. About the Chinese troops stayed. About the Chinese troops stayed.

The new Japanese drive designed to clear Chinese forces out of the Yangtze River Valley followed a warning from the Japanese navy it was extending its operations to all China.

A spokesman said the navy intended to launch air attacks against all Chinese airdromes and bases of military operations.

The Japanese navy yesterday steered clear of Japanese naval concentrations in the Whangpoo River estuary, the avenue of escape for evacuating refugees, and announced future developments may compel more stringent action in dealing with shipments of arms and munitions to China.

United States and British authorities immediately discussed the inauguration of naval convoys to force a safe passage down the rivers for mercy ships.

American shipping, except warships, has been banned from calling at Shanghai and Summer White House officials at Hyde Park, N. Y., said the U. S. Government would rely on existing naval vessels in the Far East to evacuate Americans still in danger zones.

Officials in Washington indicated American merchant vessels will be allowed to resume calls at Shanghai.

Consular officials reported to the State Department that no foreigners in Shanghai's International Settlement had contracted cholera of which there was an outbreak among Chinese reported Tuesday in the French International Settlement.

Japanese reinforcements landed in Yangtzepoo, at the eastern end of the International Settlement, and northwest of there at Liuho, up the Yangtze River from Woonung.

Four-inch and six-inch guns mounted on caterpillar trucks were landed in Yangtzepoo as well as extensive war supplies from three steamers.

Exhausted Bluejackets in the Hongkong sector were replaced by regular Japanese army units.

Mrs. Strickland Is Guest Of Honor

Honoring Mrs. M. R. Strickland and her young daughter, Mary Anne, was a breakfast and surprise miscellaneous show given recently by Mrs. E. H. Laney.

Breakfast was served in the dining room which was decorated with pleasing arrangements of garden flowers. The tables were overlaid with linen covers and each centered with a bowl of flowers.

At the conclusion of the breakfast the guests went into the living room where Mrs. Strickland was presented with gifts which were placed in an attractively decorated baby carriage. The carriage was rolled in by little Jean Caswell.

Mrs. W. G. Fleming sang two numbers appropriate for the occasion after which several games and contests were enjoyed. The honoree also received a baby book in which each of the guests had written some advice.

Those enjoying this delightful occasion were: Mrs. M. R. Strickland and daughter, Mary Anne, honor guests, Mrs. W. S. Thornton, Mrs. Clark Leonard, Mrs. H. Rumbley, Mrs. E. L. Hoy, Mrs. J. O. Laney, Mrs. W. G. Fleming, Mrs. F. D. Scott, Mrs. Harry Woodruff, Mrs. B. D. Caswell, Mrs. Maude Scott, Mrs. George Meriwether, Mrs. Earl Jeter, Mrs. H. H. McCall, Jr., Mrs. Claude Horn, Mrs. T. R. CARDUI

In this modern time something wonderfully worth while can be done for practically every woman who suffers from functional pains of menstruation. Certain cases can be relieved by taking CARDUI. Others may need a physician's treatment.

CARDUI has two widely demonstrated uses: (1) To ease the immediate pain and nervousness of the monthly period; and (2) to aid in building up the whole system by helping women to get more strength from their food.

Miss LeZette Honored By Philathea Class

The Philathea Class of the Presbyterian Sunday School honored Miss Olive Laszette, bride elect, with a miscellaneous shower given recently at the home of Mrs. V. M. Greene on Jewette Lane.

Pink, white and green were the colors chosen for decorations and appointments. The living room was adorned with vases containing pink roses, white jasmine and fern, while in the dining room the table was centered with a large white cake bearing a miniature bride and groom. Around the cake was placed pink vine and fern.

During the evening contests were enjoyed. Mrs. L. G. Hunter and Mrs. F. M. Russell received bouquets for winning the Ring contest and the Flowery Romance Contest. Mrs. Greene presented the honoree with a recipe cabinet containing favorite recipes from each of the guests.

Later in the evening the gifts were brought in the living room on a miniature train by Misses Greene, Alfred Greene, and Audrey Bach and presented to Miss Laszette.

Asturian Miners Blast Mountain In Franco's Path

Loyalists Refuse To Surrender Port Of Gijon To Rebels

HENDAYE, Sept. 2.—(AP)—Asturian dynamiters blew up the mountain of Cuera Range today... a mass of rock, dirt, and debris in the path of Spanish insurgent forces advancing against Gijon.

Despite border reports of negotiations for the surrender of Gijon to insurgents, the Asturian miners fought bitterly against insurgent Generalissimo Francisco Franco's army which is steadily pressing them back to the borders of their own province.

Border advisers said the commander of the insurgent brigade marching westward toward the Biscayan port, had entered conversations with the parliamentary deputies of the government provinces.

Franco's drive to dominate the north coast started a year ago with the fall of Irun and San Sebastian.

SECRETS OF GOOD COFFEE

To serve a good cup of sparkling, fragrant and delicious coffee certain definite rules must be followed, whichever way you choose to brew it. Coffee must be used soon after roasting, while still fresh. Therefore, it should never be bought in large quantities. The plan of dating it is one way of protecting the purchaser. Always use fresh boiling water and measure the water and coffee carefully to be sure of good results.

Foreign sales of farm equipment from the United States have reached their highest peak since the early part of 1931, government statistics show.

Streamlined Planes Warm-Up For Bendix Speed Trophy Race

LOS ANGELES Sept. 2.—(AP)—A half dozen streamlined racing planes which their makers believe can roar through the air at 300 miles an hour or better, last night were warmed up in scattered parts of the country for Friday's International Bendix trophy race from Los Angeles to Cleveland.

Four of the planes—three supercharged "lightning" and a bullet-shaped Keith-Rider—have been leased privately and their backers claim they can make 350 miles an hour, which is fitting with the world record for land planes held by Howard Hughes at 355 miles.

A fifth racer, which will be piloted by Ronoco Turner, blue-jacketed former king of the airways and twice winner of the Bendix classic, is credited with a top speed of better than 400 miles an hour.

Turner's tiny racing job, built when the little gold Wedell-Williams plane was cranked up in New Mexico a year ago is regarded by air experts as potentially the fastest racing plane ever built.

"The Star Spangled Banner" was not designated as the national anthem by act of Congress until 1931.

STILL CHAMPION—BY DECISION!

Champion Joe Louis appears tired and somewhat battered as he raises his hand in victory at the end of his 15-round fight with Tommy Farr which he won by decision. A crowd estimated at 30,000 saw the battle in the Yankee Stadium at New York.

Washington Daybook
By PHESTON GROVER

WASHINGTON, Sept. 2.—Shock troops of the court opposition do not take seriously Postmaster General Farley's assurance of "no reprisals" against defaming Democrats.

They expect the administration to try to take the political breeches off those Democratic senators—and house members—who had a part in defeating the court bill. They believe that when wheelhorse Senator Guffey of Pennsylvania singled out Senators Wheeler of Montana, Burke of Nebraska, O'Mahoney of Wyoming and Holt of West Virginia as possible subjects of a "purge," he was speaking with administration knowledge, if not endorsement. Farley flatly denied such was the case, telling a press conference that Guffey was speaking only for himself.

These anti-court shock troops, including progressive Republicans among their number, expect to come to the rescue of beleaguered Democratic Senators under administration fire. But there is a hitch.

The principal opportunity of administration forces to damage Democratic senators or representatives comes during the primary or convention. Then is when charges of disloyalty to the President can be used against them. The anti-court Democratic members cannot look for support from independents and progressive Republicans then. These will be voting the other primaries, if at all, or sharing in conventions of other parties.

And in this most trying hour, the support of progressive Republicans, for instance, might be well nigh fatal. Nothing can hurt a candidate in a primary more than to have support of a rival political party.

For instance, if Republican progressives who opposed the court bill should announce that they were going to work for the nomination of Senator Van Nuys of Indiana, a Democrat, it could just about be the end of all things political for Van Nuys, a court bill opponent. And already the wolves are after Van Nuys. Governor Townsend of Indiana came from a conference with the President a few days back and said the people of Indiana would not support the senator.

Farley Left A Joker

The result is that these Republican progressives who might like to support such men as Van Nuys must lie low during the toughest battle. Of course, after the nominating primaries and conventions, they might offer help where needed.

When former President Hoover said public support should be given to Democratic opposition as well as Republican members of congress who had opposed the court bill, it sent shivers of dismay down the backs of Democratic court-foes. It was an "experiment noble in purpose" which promised to do them no good at all. Fervently they hoped Hoover would continue silently fishing in the Pacific northwest, or silently doing something else.

Of course at this point it must be recorded that Postmaster General Farley said the administration would take no part in the Democratic primaries. Yes, indeed, he said that.

Marriages in England must be solemnized between 8 A. M. and 5 P. M.

John Cabot discovered Newfoundland, the oldest English colony, in 1497.

WAFFLE-CAKES FOR SUMMERTIME SERVING

A novel yet simple summer dessert is the waffle cake which, in this instance, features peaches. Any fruit, of course, may be used in this way. The peaches, combined with sweetened whip cream and the crisp waffle base are particularly pleasing. Eliminating oven baking, the waffle cake commands itself as an attractive emergency dessert which may be quickly and conveniently prepared for unexpected guests on a warm summer evening.

PEACH WAFFLE CAKE
2 eggs
1-1/2 cups milk
1 tablespoon sugar
2 cups soft wheat flour
3 teaspoons baking powder
1-2 tablespoon melted butter
1 cup whipping cream
8 tablespoons confectioners' sugar
or
1-2 teaspoon vanilla
1/2 dozen peaches (canned or fresh)
Beat yolks of eggs and add milk, sift flour, baking powder, salt and sugar together. Add to liquids. Add butter. Fold in stiffly beaten egg whites. Bake in hot waffle iron. Provide two waffles. Place one on serving plate and cover with whipped cream to which the confectioners' sugar and vanilla has been added. Arrange peaches on top of cream and cover with second waffle. Top with whipped cream and peaches.

McLucas Training Program Calls For Two Practice Sessions Daily

Fifty Candidates Endure An Extensive Drill Yesterday On Field And In Big Gym

About Fifty Youths Reported For First Morning Session This Morning And Equipment Was Issued To Many

The Seminole High School Celery Feds starting today, according to an announcement made this morning by Head Coach Leonard McLucas, will hold practice sessions twice daily in the rear of the high school with the drills set at 9:00 o'clock in the morning and at 3:00 o'clock in the afternoon.

The twice daily drills started this morning and uniforms were issued to the best looking candidates and the usual practice sessions continued at a fast pace due to the fact that there are only 15 days left for practice before meeting the Landon Lions of the Big Ten in Jacksonville on Sept. 24.

Yesterday afternoon Head Coach McLucas and assistant Coaches Woody Riser and Russ McCracken put about 50 youths through their paces which included passing and kicking, exercises, shifting, stance of linemen, and the running of several plays.

The youths underwent a portion of the session inside of the large gym while part of the time they were out on the practice field due to the rain which fell in intervals yesterday afternoon.

The Celery Fed mentor, McLucas, took the backs and put them through an extensive drill during the latter part of the session of shifting and spinning and also the faking of the ball carriers.

About 50 of the youths reported for the morning session this morning and both the linemen and the backfield men went through the same paces in their hard training program as yesterday and it is expected that some time during the early part of the next week the mentor will start his men in scrimmages.

YOUTH'S DEATH IS CHARGED TO HIM

H. E. Barnett, 41-year-old tenant farmer of near Belton, Miss., maintained a stoical calm in circuit court while a special venire of 500 tulesmen and two regular jury panels were exhausted in an effort to secure a jury to try him on a charge of slaying his 11-year-old son, Jordan.

Housholder Expresses Views In Sanford-Gray Case

Attorney Favors Opposition From Local Officials

Writes In Defense Of Cullum And His State-Wide Story

E. F. Housholder, county attorney and fervent baseball fan, today made a lengthy statement in defense of E. H. Cullum, official scorer here, who was highly criticized on his article regarding the recent ruling of the State League President relative to the Sanford-Leesburg game in which Davis of Leesburg and Catcher Holbrook of Sanford engaged in a static dual.

Mr. Housholder's statement relative to the matter is as follows: "I have read with interest the various views expressed relative to the difficulty between Sanford and Leesburg baseball teams that occurred some weeks ago, and the President's action relative thereto. "I must say, that as a fan of more than twenty-five years in Sanford and one who has paid to see the games played here this season, that it is rather startling to have the President of the State League is so Exalted and Supreme than an official of a league club dare not quote correct facts for fear of having the President forever obliterate Sanford from the map of baseball.

"I could not imagine why our league officials would sit by and say and do nothing in defense of the Sanford Baseball Team and the Sanford fans, when the President of the League stated that it was because of the Sanford fans and the lack of police protection that caused him to render his famous decision, until I read the article of the Vice-President, concerning Mr. Cullum for having written his article because he was an employee of the Sanford Baseball Association as official scorer. Mr. Cullum did not write his article as the official scorer, but as a citizen, and if he should be muzzled and cannot speak because he is an official, then I gladly assume the article written by Mr. Cullum. His article was fair and complete and stated facts as could be established by the many hundreds of us who attended this game. Mr. Cullum should be commended for giving to the people of this State the true facts rather than be censored.

"I feel sure that I express the views of many of those who pay their way to the game the same as I do, that we desire clean sport. I feel that Sanford baseball boys should not be condemned for what has happened, and regardless of what might be the result, I for one, am glad that they have shown some spirit of manhood. "It is true that we have received 'raw deals' from the Umpires' decisions and the decisions of the

THE FOLLY OF IT is that the ball is not put to use in the Follies, but in the hands of the Kerecheval, best boomer of the Brooklyn team, which has already opened...

President of the league, and the continual threats of the Umpires and the league-President towards the Sanford team and players, without effective opposition from our officials, has resulted in a severe handicap to our boys on the field. They should not have to fight for their rights. We should fight for them!

"It is hard to understand how the baseball fans of Sanford and the public officials of Sanford should receive the public accusation of the State President, that we in Sanford, have an unlawful bunch of citizens attending baseball games and that our city fails to furnish competent police protection, and not able to open our mouths or say a word in defense because we might be subjected to some great penalty within the power of this President. When did it come to pass that the right of freedom of speech and press has been taken away from those who believe in good sportsmanship. If it is true that the action of the President of this league cannot be approved, then he occupies a more secure position than the President of our United States and it would be well that the entire league be abolished to eliminate such conditions.

"I, therefore, for one, desire to approve the statement of Mr. Cullum and add that the accusations made against the baseball fans of Sanford and the Police Department of Sanford, are without foundation and are a direct insult to our citizenship. "Now, if this be treason to our Baseball Association or to the State President, then I am ready to assume this responsibility and pay any penalty that the law requires for this privilege of free speech."

Stan Charkut Achieves An 8 To 1 Victory Over Sanford As Daytona Out Of Loop Running

Longtime Go To Daytona Beach Today For Their Final Tilt Of The Season At The City Island Grounds

Figuring perhaps that it is better late than never, the players of Daytona Beach last night whipped Sanford by 8-1.

The victory was achieved behind left-handed Stan Charkut's eight-run pitching. The win did not buoy the hope for a first division position before the season closes Saturday.

China Starts Hot Offensive Near Shanghai

Japanese Surprised By Vigor Of Chinese Attack And Changes Strategy

Shells Land In Foreign Section

Marine Barracks Are Hit But Shell Falls To Do Any Damage

SHANGHAI, Sept. 3.—(AP)—A new onslaught of shell-fire and shrapnel engulfed international Shanghai early today leading French authorities to give blunt notice they expected both sides to curb hostilities during the evacuation of 650 French and American refugees.

SHANGHAI, Sept. 3.—(AP)—China's armies surprised the Japanese tonight with a smashing counter-offensive which shifted the Shanghai warfare back to the city proper and placed in new jeopardy the lives of Americans and other foreigners. The Chinese attack stalled Japan's long-promised "big push" and forced a revision of Japanese strategy.

The Chinese big guns and machine gun nests sprayed shells and bullets on Japanese warships and troop transports. Eight Japanese transports fled downstream. Shells crashed into the International Settlement and French Concession. Shrapnel burst over the foreign communities.

One projectile struck the roof of the second United States marine national barracks but failed to explode. Marine officers said it was a one-pound anti-aircraft projectile. A heavy artillery shell burst at the junction of the Peking Road and Shanghai's Bund in the International Settlement.

Report Deadline Tentative Budget For Job Insurance For Seminole Is Moved To Sept. 15

TALLAHASSEE, Sept. 3.—(AP)—The deadline for employer liability reports under the employment compensation law has been moved up to Sept. 15, Harold C. Wall, director of the unemployment compensation division of the Florida industrial commission announced today.

This deadline was moved up because of the fact that many people over the State are on vacations and because many employers did not receive the reports in the first mailing. Also many have not seen in this report due to misunderstanding. Wall explained.

Loyalists And Rebels Claim Win At Aragon

Both Armies Report Victory As Battle In Dried Lake Beds Continues To Rage

HENDAYE, Sept. 3.—(AP)—Both the Spanish government and the insurgent forces laid claim to victory today in a major battle as they struggled for domination of the Aragon front.

Together the contradictory reports filled a graphic picture of a combat centered on a huge circular battlefield in the region of Dried Lakes about 12 miles south of Zaragoza or midway between that insurgent stronghold and government-beleaguered Belchite.

Insurgent reports reaching the French border said a co-ordinated counter-offensive had smashed the government lines in the Belchite section and that the Madrid Valencia forces had been put to disordered flight.
