### Man loses finger in explosion

From Staff Reports

**SANFORD** — A 25-year-old Sanford man lost a finger and was hospitalized Wednesday after a firecracker he lit exploded too soon.

Jason Morton of 2816 Park Avenue lit the device in his bedroom shortly after 6 p.m. Wednesday, and it exploded suddenly. The force of the explosion injured Morton's left hand and chest, said Steve Osborn, spokesman for the Seminole County Sheriff's Office.

He was taken to Orlando Regional Medical Center for treatment of his injuries. He is in stable condition.

He was conscious and talking with deputies while being transported to the hospital, according to the incident report.

Surgery was performed Thursday to repair injuries Morton suffered in the explosion. Doctors are uncertain about whether Morton's middle finger on his left hand can be reattached. He also suffered burns to the tips of his other fingers, said hospital spokesman Joe Brown.

Morton told deputies the explosive he lit had a fuse similar to an M-80. Investigators are looking into the type of explosive Morton used.

# Feds grant \$1.7 million for water project

By Bill Kerns  
Staff Writer

## Plan will ease reclaimed water restrictions during summer months

**SANFORD** — Sanford has received grant funds for a program to supplement the reclaimed water supply in north Seminole County.

The plan would reduce the severity of reclaimed water restrictions frequently experienced during the summer months. Sanford will receive \$1.74 million in grant funds from the U.S. Environmental Protection Agency and the St. Johns River Water Management District to reduce groundwater withdrawals and supplement the reclaimed water supply

in the north Seminole County area.

In addition, Sanford has received permits to withdraw water from Lake Monroe to supplement the reclaimed water supply.

The total program cost is \$4 million. The local share of the project, estimated at \$2.26 million, will be split among Sanford, Lake Mary and Seminole

County.

Sanford plans to use the first phase of grant funds to add filters and a pump station at the city's Water Reclamation facility to withdraw up to 3.65 million gallons per day of water from Lake Monroe to supplement the reclaimed water supply. Phase I of the project is expected to begin operation this summer.

In addition, Sanford proposes to the second phase of grant funds to further expand the withdrawal capacity from the lake from 3.65 MGD to a total withdrawal capacity of 7.3 MGD. The current capacity of the Water Reclamation Facility is 7.3 MGD.

"Phase one will increase the reliability of our current system," said Bill Mattoon, the project administrator for Sanford. "Phase two expands reuse water service to the area."

Water management officials said combining the current reclaimed water with the supplement of up to 7.3 MGD from

## Hillman left business world to teach

By Bill Kerns  
Staff Writer

**WINTER PARK** — Richard Hillman of Lake Howell High School was conducting a stock market exercise with his senior Economics class Thursday when school district Superintendent Paul Hagerly knocked on the classroom door.

Hagerly led a group of administrators, family and friends who surprised Hillman with the announcement that he is the Seminole County Teacher of the Year.

Hillman has taught economics and math at Lake Howell for 14 years.

The state is expected to announce finalists for the Florida Teacher of the Year in May. Hillman is the school district's nominee.

This is the third time in seven years that the school district's teacher of the year is from Lake Howell High School. Hillman said that he is

overwhelmed by the award.

"There are a lot of people at this school who also deserve this award," Hillman said.

Technology plays a significant role in Hillman's lectures. By using Power Point, he visually displays data and graphs. For example, he created a computer program that displays

how continuous investments of small increments of money can accumulate.

"I started out using the Internet in the early '90s," Hillman said. "Then, I learned to do some programming. The trick is to use it for the benefit of the students. I try to model what they are going to see in the business world."

Prior to teaching, Hillman was a marketing specialist. He became a teacher because he finds working with students to be more rewarding than working in a corporate environment.

## Red Cross looking for a few good teens

By Nick Pfeiffel  
Staff Writer

Teenagers from grades six through 12 are being sought to volunteer their services in American Red Cross projects. For those who respond and are accepted, the organization, Teen Corps will be holding its next volunteer orientation on Saturday, March 18, beginning at 10:30 a.m. at the Orange County Library in the Colonial Promenade on East Colonial Drive in Orlando.

Red Cross officials say the orientation is only a two-hour course, but upon learning the overall work done by Red Cross workers, volunteers may select a particular area in which they would like to be involved, and

receive additional training.

For this particular orientation, teen volunteers are wanted from Seminole, Orange and Osceola Counties, the three served by the American Red Cross of Central Florida.

The Teen Corps, actually known as the Youth in Disaster Program, trains youth to become fully qualified Red Cross volunteers, who become key persons in coordinating relief activities during large scale disasters such as hurricanes. The group also participates in various community service projects throughout the area.

Teen Corps volunteers are recognized twice a year for their outstanding community service. See Red Cross, Page 6A

**SANFORD** — Somewhere along the way, Partners in Flight, a coalition of federal and state agencies, bird clubs and organizations, called for a specific day dedicated to migratory birds.

From 7 until 9 a.m., there will be an early bird trek tour, allowing participants to discover native bird species throughout the park, led by bird keepers. Cost is \$10 for adults and \$6 for

children.

At night, beginning at 7 p.m., it's an Owl Prowl tour, with a nighttime guided tour of the area in search of owls, flying squirrels, bats and others. The event also includes a nocturnal presentation. Costs are \$10 for adults and \$6 for children.

Reservations are required for both early and nighttime tours, by March 9. Phone 407-323-4450, ext. 122.

# State, Coast Guard win case against man who faked death

From Staff Reports

**TALLAHASSEE** — The Florida Department of Insurance, the U.S. Coast Guard and the Monroe County Sheriff's Office, involved in the hunt for a Key West man missing for 18 days in 1998, will be compensated for what turned out to be a faked death.

Kerry Stephen Scheele told authorities he was in the throes of a divorce and staged his disappearance because he needed time to think. Today, Monroe County Circuit Court Judge Mark Jones gave Scheele something else to think about - more than \$55,000 in restitution to cover law enforcement's cost for the search.

Earlier this month, Scheele pleaded guilty to one count of insurance-application fraud and one count of third-degree grand theft, charges brought by the insurance department after

investigators concluded Scheele actually was trying to cash in on a \$1 million life insurance policy that named his father and a girlfriend as beneficiaries. In addition to the restitution, Scheele was sentenced to two years probation, ordered to undergo a psychiatric evaluation and pay extradition costs of more than \$1,000.

"This case sends a message that neither insurance fraud nor such blatant disregard for emergency resources will be tolerated in Florida," Insurance Commissioner Bill Nelson said today.

Scott Carr, a spokesman in the Coast Guard's Miami office, said several hours are spent investigation every distress call. Unfortunately, he said, there have been instances where the Coast Guard has responded to a hoax, diverting resources and putting lives at risk.

Scheele led his estranged wife and others to believe he drowned during a lobster diving trip off the Florida Keys on Aug. 8, 1998. When he failed to return from the trip, a friend of Scheele's notified the Coast Guard and the Florida Marine Patrol and an extensive search ensued.

Investigators later tracked Scheele through phone records to a girlfriend's house. Scheele said he swam ashore just north of Big Pine Key, discarded his rented diving gear in some mangroves and then hitchhiked and rode a bus to his girlfriend's home in Wisconsin.

In the meantime, investigators said Scheele's father initiated a claim under his son's life insurance policy with Kemper Insurance Company. There is no evidence, investigators said, that he was aware his son was still alive.

# Here we go — it's Shrub against Hedge

Bush and Gore? After 224 years, America has reached the edge — Shrub running against Hedge for the presidency. To think so many of us were worried about Y2K. The real threat is YHese21!

Bradley was the guy I liked best, but what does he do with his final shot? He throws up an air ball. Big Bill should have thrown more often. For eight years, Gore kept in position. Bradley couldn't move him out of the point. No one could. Gore just kept powering forward past the old forward.

John McCain definitely pressed Bush. The two of them were downright wacky at times. Bush's visit to Bob Jones University was ill advised. He'd have been better off at Bike Week. Who knows what he does now — ask Jackie, or brother left to be his running mate? Or will Shrub pick Hatch? Surely, you remember Chris Hatch.

At first, Bush told us he was a "compassionate" conservative. The compassion ran out midway in the first quarter. He took more shots at McCain than the enemy. He lied about the negative ads being aired by his cam-

paign people. Bush was well bush.

Because you live in Seminole County, chances are you're going to back Bush. Conservatives, as found in Seminole County, think that the real reason the poor are impoverished is because they don't work. They say that there would be fewer of them to feed were for of government did not encourage the proliferation of the least fit among us with welfare programs.

Those who think people — both rich and poor — are basically good have no one to vote for. Bradley stood up for the little guy, the one who needed help to get on his feet. He believed that the poor were victims of an unfair system and that their circumstances are improved when someone gives them help.

Having played professional basketball and having been a star senator from New Jersey, Bradley walked different walks and talked different talks. No other man — imho — but Colin Powell — could possibly be able to enrich race relations in the United States than Bradley. For this reason, ALCDF, Gore should consider Bill Bradley to

Russ White

be his VP.

For a few brief moments, Bradley seemed to have a chance to become our next president. He began with conviction, talking to people, listening to their stories and promising the beginning of a new politics in America. He proposed what he thought would make a difference in our lives.

For most of his life, Bradley did nothing but win. He was an All-American basketball player at Princeton, a Rhodes Scholar, a champion pro player with the New York Knicks and a senator. At 56, he still has much to offer.

Although he is no longer in the race, Bradley is optimistic there will be a change in American politics. "I've always said it would take time for the change, away from the distortion and negativity that have become the accepted norm for campaigns from local supervisor to the President of the United States."

Bradley said he believes that although few will have the greatness to level history, each person can work to change a small portion of the events and in the total of all these acts will be written the history of a generation. This is good advice from a great man.

Russ White's column appears daily in the Seminole Herald.

## The sinful truth about sin is in the Bible

Russ White

.....

If you've been watching David Letterman's return to Late Night television, you have probably seen him make fun of decaffeinated coffee, which he says "tastes like water from hell."

A pastor wondered what it is about an "off" taste so good and makes people buy products. He gave a sermon about why most lives are full of pleasures and problems. We do things we seem to do for fun—things we feel guilty about but keep on doing.

The word sin appears 171 times in the New Testament alone. One of the earliest faith statements recorded in the New Testament appears in 1

Corinthians 15:3 "Christ died for our sins in accordance with the scriptures."

Strictly speaking, the word sin means a voluntary act that cuts apart one's relationship with God.

Pastor Wayne Harvey at First Baptist Church in Orlando held a story about Chuck Colson in a recent sermon.

Colson, he said, was visiting the chairman of a large publishing company. The chairman bragged to Colson that his newspaper's chairman was instrumental in the removal of the Ten

Commandments from the walls of public schools.

Colson, the ex-Nixon aide who founded the Prison Fellowship, asked the publisher why he thought the Commandments should be removed.

"They offend people of other religions," the man said. "Besides, we must separate church and state."

As the meeting went on, Colson and the publisher talked about some bad things that were happening at schools. There was no missing from the party and the publisher's head was reared by

an alarming note—in fact, a sinful rate.

"What should we do to teach the kids that stealing is wrong?" Colson asked.

The publisher answered quickly: "Maybe we could put a sign on the wall that says, 'You shall Not Steal!'"

"Good idea," Colson said. "Pastor Harvey's suggestion is to show how to avoid sin is to trust in the Bible. It's possible to have and disability. It comes from God to you. It will point you to Jesus. His message will change your life. You can trust the people."

## HOROSCOPES

**Your Birthday**  
 Saturday, March 11, 2000  
 Hidden circumstances could bring about a realization of fulfilling your ambitious goals in the year ahead. Be alert for opportunities that come from unknown sources.

**PISCES (Feb. 20-March 20)** Rather than continuing to hit a brick wall, consider taking a different route to achieving your objectives today. Although it may be a bit more involved, it'll be easier in the long run. Trying to patch up a broken romance? The Auto-Graph Matchmaker can help you understand what to do to make the relationship work. Mail \$2.75 to Matchmaker, c/o this newspaper, P.O. Box 1798, Murray Hill Station, New York, NY 10156.

**ARIES (March 21-April 19)** If argumentative individuals turn you off today, the solution is simple. Involve yourself only with companions you know have easy-going dispositions.

**TAURUS (April 20-May 20)** Playing things too loose in financial situations today might cause you to think you have a deal tied down when, in reality, it may be hanging by a thread. Be prepared to work things out.

**GEMINI (May 21-June 20)** Making some concessions is what it might take to get along with a person important to your immediate plans. Standing on principle and failing to compromise could bring things to a halt.

**CANCER (June 21-July 22)** When it comes to working in close proximity with co-workers today, it could become paramount that each person has his or her own space and a job to do, and is prepared to stay put.

**LEO (July 23-Aug. 22)** It's quite possible today that a friend who promised to do something for you will be unable to fulfill his or her pledge. Rather than get upset, opt for your own.

**VIRGO (Aug. 23-Sept. 22)** Be a good sport today and turn the other cheek should you be in the company of someone who loses his or her cool. You'll help this person far more by consoling, not chastising.

**LIBRA (Sept. 23-Oct. 23)** Just because someone disagrees with you today does not make this individual a bad person; it merely makes him or her someone who thinks differently than you. Give all people the right to differ.

**SCORPIO (Oct. 24-Nov. 22)** Just when your goal is within reach today, you could do an about-face and shift your direction. Needless to say, this will not serve your best interests. Stay the course.

**SAGITTARIUS (Nov. 23-Dec. 21)** If you find your ideas aren't working out today, before discarding them, check out your methods of implementation. Chances are this will be what's really at fault.

**CAPRICORN (Dec. 22-Jan. 19)** The very things that could trip you up today may be small obstacles you forget to take care of. Be sure you first tie your shoelaces and clear the paths you intend to take.

**AQUARIUS (Jan. 20-Feb. 19)** If it falls to you to get the pals together for a fun activity, be sure to call only those who you know get along well. Don't include someone who makes waves.

## Win at Bridge: Even looking at all four hands

**By Phillip Aider**  
 The expression double dummy means with all 52 cards on view. You are allowed to base your line of play on an exact knowledge of where every card is located. If your opponents hold their cards back, it rarely happens in the real world. But today, you may look at all 52 cards to see if you can find a way to get home in six spades after West leads the club king. Over two no-trump, South bid what he hoped he could make, appreciating that his hand, despite containing only 13 high-card points, had great slam potential. South discarded a diamond under dummy's club ace, then cashed the spade ace. West's discard was a bad blow. Now declarer hoped for a 3-3 diamond split, playing a diamond to his ace, a diamond to dummy's king, and a low diamond ruffed in hand. Yet he was out of luck there too, so he lost two major-suit tricks. If spades are 4-0, South should aim at these 12 tricks: seven spades, two hearts, two diamonds and one club. So, declarer should ruff in hand at trick one, then play a trump to dummy's ace. When the break is revealed, South discards a diamond on the club ace, ruffs a club in hand, cashes the diamond ace, plays a diamond to dummy's king, and ruffs the final club in hand. Now come the heart ace, a heart to the king, and the diamond eight. East has the J-10-9 of spades and the heart queen left. South retains the K-Q-8 of spades and the heart six. If East discards, South ruffs with the spade eight; if East ruffs, South throws his heart loser away. Either way, he is home.

## How long should women get Pap test?

**DEAR DR. GOTT:** In a recent column, you stated that Pap smears should be performed on all pre-menopausal women. The implication was that this testing can be stopped after menopause. My understanding is that all women with uteruses, regardless of age, are at risk of cervical cancer and should have annual Pap tests. In addition, even women after hysterectomy should have annual pelvic exams to detect ovarian cancer. I hope that you will retract your statement.

**DEAR READER:** Well, I won't. All pre-menopausal women should have periodic Pap smears. That's all I said, and it's true.

Now, with respect to your other points, I disagree. Many authoritative gynecologists now believe that routine Pap tests in post-menopausal women are unnecessary, provided the women have had at least three consecutive normal smears during preceding exams, and provided they have no symptoms, such as vaginal spotting. This recommendation is not universal, of course, and individual decisions should be made between a woman and her physician.

Second point: During a hysterectomy, the cervix (uterine opening) is customarily removed. Therefore, there's nothing left "to Pap." Furthermore, a routine pelvic exam is unlikely to reveal an ovarian cancer, which is exceedingly difficult to diagnose in its early stages before symptoms develop, without special tests (such as ultrasound) that are not appropriate for mere screening.

I acknowledge that there is disagreement about these issues and I am not a gynecologist. I am simply reporting the facts as they have been published. As I mentioned, each woman should discuss this with her physician. To give you related information, I am sending a copy of my Health Report "Menopause." Other readers who would like a copy, should send \$2 plus a long, self-addressed, stamped envelope to P.O. Box 2017, Murray Hill Station, New York, NY 10156. Be sure to mention the title.

**DEAR DR. GOTT:** We believe our house is infested with dust mites, even though we have had several extensive treatments by exterminators. My wife is particularly bothered by mites. Will this affect her diabetes or her daily home dialysis?

**DEAR READER:** I am certain that your house IS infested with dust mites, everyone's is. These tiny creatures are as ubiquitous as the air we breathe. Actually, it's not the mites themselves that cause coughing and congestion, it's their excrement.

Mites are virtually impossible to eradicate. They happily survive and reproduce in dust, furniture, rugs and so forth. Therefore, most of us have to develop methods of living with them, rather than without them. Of course, this means we have to keep our homes as clean as possible, without becoming over-concerned to the point of obsession.

For those individuals who truly have uncontrollable dust-mite allergies, a visit to an allergist may be helpful. Desensitization injections may be necessary, in conjunction with the judicious use of antihistamine medication. Whether or not your wife chooses to see a specialist is a matter of personal preference. The mites will not influence her diabetes or dialysis.

## Easy credit: The truth about advance-fee loan scams

"The Company guaranteed I would get the loan if I paid an up-front fee. I never got the loan and now they won't refund the \$150 I paid in advance."

**Barbara Hughes**

Advance-fee loan scams "guarantee" or represent a "high likelihood of success" that an advertiser will be able to get or arrange a loan or other form of credit for a consumer, regardless of the consumer's credit history. These scams differ from legitimate, guaranteed offers of credit in one critical way: they require payments up-front, before the lender is identified and the application is completed. The fee may range from \$100 to several hundred dollars. Legitimate lenders may require consumers to pay application, appraisal, or credit report fees, but these fees never are required before the lender is identified and the application is completed. In addition, the fees generally are made payable to the lender, not the broker or arranger of the supposed

"guaranteed" loan or extension of credit. Legitimate lenders rarely guarantee a loan or extension of credit before evaluating a consumer's creditworthiness. However, there are legitimate guaranteed offers of credit. For example, guaranteed offers of credit cards or other extensions of credit do not require any payments up-front for a consumer to accept the offer. These are firm offers of credit that require a consumer to accept the offer; they are advance-fee loans only if they offer the consumer the "opportunity to apply" for credit. Advertisements that promise loans

generally appear in the classified section of newspapers and magazines. Often, the ads feature "900" telephone numbers, which result in charges on your phone bill. Advance-fee loan scams also are promoted through direct mail and radio and cable TV spots. The appearance of an ad in recognized media outlets — such as your local paper or radio station — does not guarantee the legitimacy of the company behind the ad.

## Daughter with Down syndrome is more than just one of 'them'

**DEAR ABBY:** My daughter has Down syndrome. While I was still grieving over this fact, the kindest people were the ones who commented on her beautiful eyes. I didn't know if they knew she had Down's, and I didn't care. She has beautiful eyes, and I was grateful for the compliment. Now when we go out in public, we are often approached by people who just have to show us how smart they are because they recognize Down syndrome. This is not a kindness! Don't tell me my daughter's wonderful personality is because "they" are "all so sweet." My daughter is a wonderful individual, not part of the great "they." She is also not deaf! If people want to be kind, they should be kind. But don't tell us about their experiences with individuals who have Down syndrome. I don't tell them my experiences with insensitive jerks.

Abby, if you could print this, and if some people become aware of the hurt they cause, my daughter, other people with disabilities and I might all have less trouble navigating the stream of well-meaning, but hurtful, people. Thank you.

**HURT IN PENNSYLVANIA**

**DEAR HURT:** You have said it very well. Thank you for a great letter.

.....

**DEAR ABBY:** I have been seeing a terrific woman for about a year. She's a musician, divorced and the mother of three. We're dance partners. She and I have had an up-and-down relationship, with occasional breakups over our age difference. I am 29 and she is 15 years older. She wants me to get to know her family. I want the freedom to see other women.

Each time we have gotten back together, it has been because I want to dance only with her. However, one thing usually leads to another, and after a month of dancing, we are lovers again. She's taught me more about love and life than all the women I had dated before put together. She's after me again to spend some time with her children. This is one of the issues that led us to break up before. After our last breakup, I have never come to grips with the age and lifestyle difference.

Abby, the bond I feel with her is very strong, but I feel that a more traditional relationship with another woman would be better for me in the long run. We can never have a family of our own, and although I don't want one right now, it still bothers me.

Am I right to continue exploring this relationship knowing that there may be someone younger out there for me?

**DOING THE TEXAS TWO-STEP**

**DEAR DOING THE TWO-STEP:** Since you do not see a future with this woman, do her a favor and level with her. Feeling as you do, it's time to change partners and move on before you waste any more of her time — or yours.

.....

**DEAR ABBY:** I, too, am of the old-fashioned mind-set when it comes to manners. However, it is not easy to remain so. Just the other day I opened a door for a woman about to enter. With a caustic look, she remarked, "Are you opening the door just

because I'm a woman?" Taken somewhat aback, I was compelled to say, "No — it was because of your age!" She didn't say another word.

**STILL OPENING DOORS, 29 PALMS, CALIF.**

**DEAR STILL OPENING DOORS:** Funny — but naughty. I hope you don't leave ALL women speechless.

## Another Aussie on Daytona 200 pole

Special to the Herald

DAYTONA BEACH - Troy Bayliss put his Vance & Hines Ducati 986 on the pole for Sunday's 59th running of the Daytona 200 by Arat. It marks the third time in the last five years that an Australian rider has won the pole for the 200.

Bayliss turned a lap of one minute, 49.075 seconds at 117.497 mph on the 3.56-mile road course. He follows in the footsteps of Troy Corser in 1996 and last year's polewinner Anthony Gobert, an Australian racer to win the prestigious Rolex Award for winning the pole for the 200. All three Aussies rode the Italian-made Ducatis.

The fact that the 30-year-old Bayliss had never even seen Daytona International Speedway before tire testing sessions this winter makes his accomplishment even more impressive.

Joining Bayliss on the front row, which was locked in Thursday, is defending AMA Superbike champion Mat Mladin, also of Australia, who clocked a lap at 1:49.083 on his Yoshimura Suzuki; 18-year-old Honda rider Nick Hayden from Owensboro, Ky., who turned a lap of 1:49.500; and Baltimore, Ohio's Larry Pegrum who rode a Competition Accessories Ducati to a time of 1:49.887.

Defending Daytona 200 winner Miguel Duhamel qualified seventh on a Honda despite suffering from a serious neck strain, which he sustained in practice Wednesday.

Kurtis Roberts, son of legendary former world champion motorcyclist Kenny Roberts, earned the pole for Friday's 600 SuperSport International Challenge riding a Honda.

Roberts, of Modesto, Calif., will try to avenge last year's narrow loss in the 600 final to Duhamel. Shawn Higbee, Waterford, Wis., dominated qualifying for the Pro Thunder event. Higbee's time of 1:58.594 on his Tilley Buell 1200 was almost a second faster than defending series champ Shawn Conrad.

Yet another Australian, Damon Buckmaster, won the pole for Friday's 750 SuperSport final. Buckmaster turned in a lap of 1:53.914 on his Chaparral/Mazda Suzuki GSXR750.

Two-wheeled racing action continues Friday at Daytona International Speedway with second round qualifying for the Daytona 200 by Arat, the Lockhart Phillips 750 SuperSport Final and the Pro Honda Oils 600 SuperSport International Challenge.

The AMA Grand National Short Track series also kicks off at Daytona Municipal Stadium starting at 8:30 p.m.

Tickets for Daytona 200 Week events at the Speedway are available online at [www.daytonaintl Speedway.com](http://www.daytonaintl Speedway.com) or by calling the Speedway Ticket Office at (904) 253-7223.

In a battle of Seminole Athletic Conference powers Thursday, The Rams (10-2) carried a 3-0 lead into the top of the fourth inning when the Bears (6-4) rallied to tie the game.

But the hosts answered right back with the five runs in the bottom of the fourth inning and Winter Springs could only plate single runs in the fifth and seventh innings.

## Unbeaten Metalade wraps up Industrial

By Dean Smith  
SPORTS EDITOR

SANFORD - They will be playing for pride and tuning up for next week's End of the Season Tournament when the City of Sanford Recreation and Parks Department Polar Bear Industrial Slow Pitch Softball League closes out its regular season schedule tonight at Pinehurst Park.

Metalade rallied for eight runs in the bottom of the sixth inning to erase a 7-6 deficit and held on for a 14-10 victory over Bundy Corporation/TI Auto, keeping its perfect record intact and thereby clinching the regular season championship on February 25th.

Metalade then improved to 8-0 on the season the easy way last Friday as Briar/BBM Corporation failed to show up for its scheduled contest.

In the other game from February 25th, Kemco scored seven runs in the top of the second inning to take the lead for good and took a two-game lead in its battle with Bundy Corporation/TI Auto for the No. 2 seed in the tournament with a 17-6 triumph over Briar/BBM Corporation.

Last Friday, however, Kemco missed an opportunity to clinch second place as Bundy Corporation/TI Auto scored 11 runs in the top of the first inning and went on to crush Kemco, 25-9.

Tonight at Pinehurst Park, Metalade battles Kemco at 7 p.m. and Briar/BBM Corporation tackles Bundy Corporation/TI Auto at 8 p.m.

Next week's tournament schedule is already set with Metalade taking on Briar/BBM Corporation at 6:30 p.m.; Kemco facing Bundy Corporation/TI Auto at 7:30 p.m.; and the two winners returning to play for the tournament championship at 8:30 p.m.

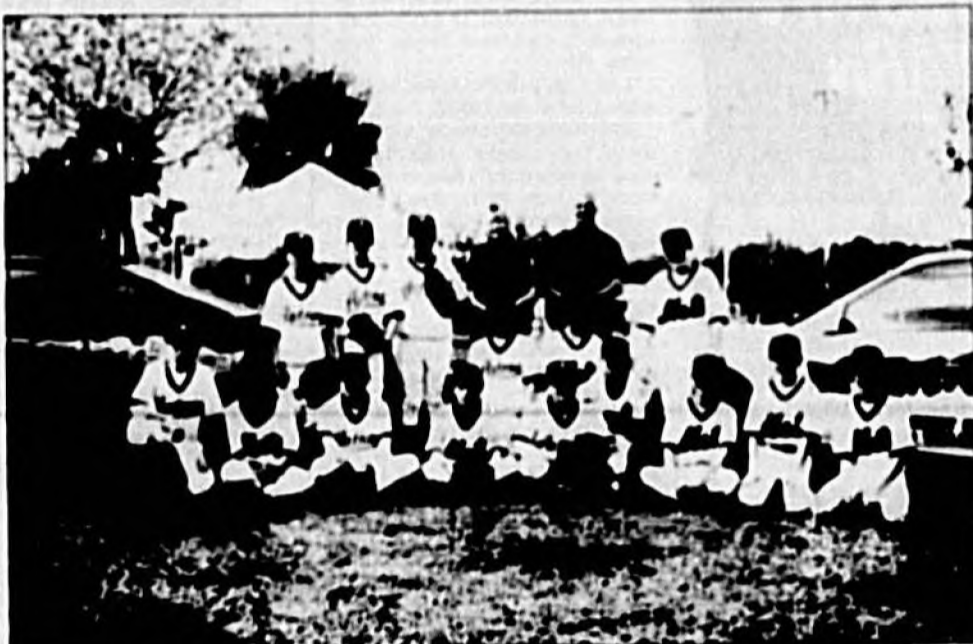

Providing the offense were:

LAKE MARY - Fairway Jeep continued to run roughshod over the competition, Nice 'N Easy extended its hold on second place and Hills Gang won a battle for third place as the City of Lake Mary Department of Parks and Recreation Men's Friday Night Polar Bear Slow Pitch Softball League ended the second round of play last week at the Lake Mary Sports Complex.

Blue Haven Pools took a 2-0 lead in the top of the first inning and held that lead until Fairway Jeep got its offense in gear and scored five runs in the bottom of the

second inning on the way to a 17-2, five-inning thrashing.

Nice 'N Easy never trailed in its game with M.T. Muggs, but it too got off to a slow start, only scoring two runs in the bottom of the first inning.

But Nice 'N Easy also came to life in the second inning, scoring 18 runs before

closing out a 21-1 laughter with a run in the bottom of the third inning.

The final game of the evening was a barn-burner as Hill's Gang took a 3-0 lead in the top of the first inning, but by the time they scored again in the fifth inning Lunch Box Bagels had assumed an 8-3 lead.

Hill's Gang then took the lead for good by scoring 12 runs in the top of the fifth inning, but had to withstand a furious Lunch Box Bagels rally before surviving 17-14.

Fairway Jeep is now 7-0 and holds a two-game lead over Nice 'N Easy (5-2). See Lake Mary, Page 25

## Scots scald Raiders in baseball

By Dean Smith  
SPORTS EDITOR

DAYTONA BEACH - The road has proved to be very unkind to the Seminole Community College baseball team this week.

Home-standing Daytona Beach Community College scored 10 runs in each of the second and third innings and ripped 19 hits in whipping the Raiders 25-5 in a Mid-Florida Conference game Thursday.

This humbling loss came on the heels of an 18-5 setback at the hands of Lake-Sumter Community College in Leesburg on Tuesday.

"This was the worst game we've ever played since I have been the coach here," said SCC head coach Jack Pantelias. "It is probably good that this is my last year as a coach at SCC."

Pantelias announced last fall that this would be his final year as coach at the local junior college after 27 years at the helm of the Raiders.

Starting pitcher Mathew Baker (1-4) was touched for 20 runs over two-plus innings, but only six of the runs were earned. In fact, only eight of the 25 runs allowed by SCC were earned.

The Raiders actually led Thursday's game, scoring four runs in the top of the first inning, but the game quickly slipped away as DBCC answered with three runs in the bottom of the first inning and then exploded for the two 10-run frames.

SCC, which fell to 6-19 overall and 1-5 in the Mid-Florida Conference, will return home for a conference doubleheader against Florida Community College at Jacksonville on Saturday starting at 1 p.m. and a 2 p.m. contest with Dade County Community College from Maryland on Sunday. All home games at Raider Field are free of charge.

Leading the way for the Scots (17-4 overall, 4-2 in the conference) were Gabe Tilley (3-for-6, home run, double, two runs, five RBI), Bo Hall (3-for-6, double, two runs, two RBI), Adam Miller (2-for-6, home run, two runs, four RBI), Tommy
