Reported Made labor is met with the regulation of Of Work Office first preference on any work opfide residents. There are approxi mately 2,016 persons registered as seeking employment through the local office. Their qualifications cover practically every classification of work that might be done in Seminole County and with an active application list of this nature, help, either skilled or un-skilled, can be furnished for any job on short notice.

No step is more important, according to Mr. Dodge, than that of assisting men and women to find permanent employment and anything that facilitates the joining up of an unemployed person with private employment naturalfor public relief.

The aim and purpose of the Naional Reempley: ETT AT YES Dodge stated, is the placing of unemployed men and women in private employment and the employens of Seminole County are ged to make full and free use of its services.

We see by the papers that a petition in bankruptcy has been filed agninat Carl G. Fisher, pioneer Miami developer, and once the richest man in that section. No need for re-distribution" of his wealth. That's already been accomplished.

According to the campaign prop-aganda, Claude Pepper had a "alush fund" of \$600,000; and acrding to his sworn statement of gn expenditures, he spent 1 114.822.72. That would make ce little profit for somehody.

A Harvard professor says thinkis caused the depression. Strikes a it was a lack of thinking which be us into the World War, which pired cities, and counties, . to float huge bond issues, which they hich encouraged private citizens o borrow stupendous sums, and to uy things on credit which they ouldn't afford to pay for, and to signge in a wild orgy of specula-ion on the Wall Street archange,

What Chance Key West?

With regard to the rehabilitation of Key West, the question which has been before Dr. Fera has been whether question which has been before Dr. Fera has been whether to operate, or to try to cure without an operation. It appears that the latter course has been decided upon. The attempt will be made to restore industrial health to the city by making a resort out of it. The island might have been abandoned altogether, and its ten or twelve thousand people moved to some other spot with greater economic possibilities.

"Criticism of this from other tourist cities in Florida may be hastily judged as professional jealousy," admits the St. retersourg meependent, "but that will have to be risked in the interest of common sense, Key West admitted in the interest of common sense, Key West admitted in the interest of common sense, Key West admitted in the interest of common sense, Key West admitted in the city had reases any special attractions for the control of Representatives whole House of Representatives without their consent.

hanks resolution, and notices of the St. Petersourg Independent, "but that will have to be of risked in the interest of common sense. Key West admit-If the city had possessed any special attractions for tourists would they not have developed long ago? Speculators who ran pell-mell over the state in the boom period surely would not have overlooked them. They built islands in the gulf, penetrated swamps, laid out subdivisions wherever land was accessible, literally scouring the state for possi the left Key West along and

"In the ten-year period between 1920 and 1930 other South Florida cities increased in size, some of them doubling and trebling but Key West shrank from 18,000 law and drop N. R. A. The issue anti-trust law and N. R. MONDAY, JULY 9, 1934 to 12,000 population. In that period St, Petersburg grew and the time are well chosen befrom 14,000 to 40,000; Tampa from 51,000 to 101,000; cause either the Congress to be elected this fall must renew N. R. Miami from 29,000 to 110,000; Jacksonville from 91,000 to Miami from 29,000 to 110,000; Jacksonville from 91,000 to A. or else N. R. A. will cease 129,000. In fact, from 1890, when the population of Key to exist. The statute creating N. West was 18,000, that figure remained practically station-

"If the government insists on resisting natural trends and trying to make a tourist city out of a place where he can bring about the election tourists do not choose to go if must be prepared to provide of a Congress which will not retourists do not choose to go, it must be prepared to provide the tourists, too. Just offhand, it would seem more practical to revive one of the city's dead industries-the cigar, ainst me. What time I am afraid sponge or shipping business-or to get behind the turtle of N. R. A. and the soup business, for Key West does have turtles big enough for adults to ride."

Birth Rates

"How long will it be before the population of the Roosevelt Gets Warm Welcome United States becomes stationary or begins to decrease?"

> This question has been put by many thoughtful ob servers. It acquires added emphasis from the startling fact disclosed by the Bureau of the Census, July 5, that the birth rate for continental United States reached in 1933 the lowest ever recorded. These records go back to the establishment of the Federal birth registration area in 1915.

While 2,064,944 infants, a number exceeding the population of Philadelphia, were added to the population of the United States in the year, this represents only 16.4 births for each thousand of the country's inhabitants, It is a decrease of nearly 6 percent from the rate of 17.4 in the previous year.

The seven states with the highest birth rates are all largely rural. They are, in order, New Mexico, North Carolina and Utah, South Carolina, Mississippi, Alabama, and Virginia.

The birth rate in New Mexico, 'the State heading the list, is about 63 percent higher than the national average. With the exception of Utah, all the States in this list are

The lowest bigh rates are shown by two Pacific States, Oregon and California. That of Oregon, 12.2 per

thousand, is 25 percent below the average for the Nation. The low birth rate in the Pacific States is usually attributed to the fact that the populations of those States atill an NRA or not. It's like that include a relatively large number of older people.

LOOK AT BODIES_

NOW THAT PRICES ARE ALL THE SAME

TODAY, MOST PEOPLE KNOW that the prices of "All Three" low-priced cars are pretty much alike. Models may differ a few dollars ... but it's safe to say that a Plymouth Special Six, delivered at your door, costs about the same as the comparable model

of either of Plymouth's two competitors. So when you look at "All Three" today... there's only one thing to think about ... WHICH IS THE BEST CAR-WHICH GIVES YOU THE MOST FOR YOUR MONEY? We'll admit "All Three" are good automobiles. But before you buy any, consider these things:

When you step on the brake, will that car stop dead in its tracks? When your wife and children drive away, will you know they are safe, in a body of steel reinforced with steel?

Even if Plymouth COST MORE, which it probably doesn't, it would be worth it. The Special Six has Hydraulic Brakes, Safety-Steel Body, and the same Individual Wheel Springing that is used on the most expensive cars for a more comfortable back-seat ride. It has Floating Power to end vibration.

It has the luxuries that make you proud to own a eer. Yet its price is right in line with comparable models of its two biggest competitors.

Look at the prices on the right. See the car at p Dodge, De Soto or Chrysler dealer, Then decide.
