Members of the North Orlando Garden Club were recent guests of Mr. and Mrs. Leonard Toy at their nursery in Winter Park where Mrs. Toy gave a lecture on the art of flower arrangement. She displayed several arrangements prepared before the meeting and explained each. She also demonstrated tools that are needed in arranging flowers for the home and for show entries. Following the lecture, a discussion period was held during which the hostess offered her assistance to the club in future work. The meeting closed with a tour of the nursery grounds.

Lake Monroe Jottings

By MRS. H. L. JOHNSON
Happy spring to you! It is legally spring now you know. And I am so glad even if we have had some hard rains this past week. They certainly have changed the appearance in my lawn. It's lawn mowing time now. Happy Birthday Genl Wheatland. Some teenagers surprised Genl with a birthday party and gave her a pretty ring. Sister Jeri is going to sing and dance in the Easter benefit ball for the crippled children. Jeri is a really talented girl. Rena and Claude Hawkins and son, Sid, motored to Jacksonville for the weekend to visit Rena's sister Myrtle Pickett and family. Wish you could see the grapes that the Home Demonstration Club members are making. Several of the members went in to the center last week and were taught how to make the grapes and now they are teaching us. Rose Poff had the misfortune of catching her finger in the door of the car—result—a smashed finger. I know that is very painful. Hope you can attend the Good Friday Cantata at the Lake Mary Presbyterian Church. It is under the direction of Boh Mero and has the

Seats Open For Concert By Symphony Tonight

The Florida Symphony Orchestra, under the direction of Henry Mazer, will present two Pop Concerts in Sanford today.

This first rate musical presentation is being brought here under the sponsorship of the Sanford Recreation and Parks Dept. The evening concert at 8:15 p. m. has a program of selections that range over a full repertoire of contemporary and classical selections. It is designed to please listeners of varying tastes, both young and old.

Beginning with the overture from "The Roman Carnival" by Berlioz, which will be followed by a Masquerade Suite of the Walls, Nocturne, Maturin, Romance and Galop as composed by Khachaturian, these selections will be enhanced with a Rhapsody for oboe entitled, "The Winter's Past." The Overture to "Orpheus in Hades" by Offenbach, will be the fourth number. The second section of the program will include the ever-pop-

ular "Blue Danube Waltz," "The Girl I Left Behind Me" and "Bugler's Holiday" both by Leroy Anderson and winding up with selections from "My Fair Lady" and from "West Side Story," an arrangement by Leonard Bernstein.

The special free concert for Sanford school children scheduled at 3:30 p. m. varied slightly from this program.

Plenty of seats are still available for the evening concert and reservation calls will be received at the Recreation Office until 3:30 p. m. The box office will open at 7 p. m.

Recreation department officials urged county residents to attend the performance so that the symphony can continue to be booked here.

"We have had a disappointing advance ticket sale and hope that all who appreciate good music and entertainment will come out tonight and help us keep this outstanding symphony coming to Sanford," they said.

Program On Art Scheduled Sunday

Members of the Sanford Art Assn. will present another program of community education on the importance of art appreciation Sunday at the Civic Center.

Mr. and Mrs. Louis Fround of Stetson University will be guest speakers at the 2 p. m. program and there will be no admission charge.

Fround's subject will be "Art and the Human Spirit" and he will show some of his work as he did on a previous appearance here at the Sanford Tourist Club.

His art education has included study in Missouri, Princeton University, Colorado Springs and Paris, France. He also made a gallery tour of 12 foreign countries and recently spent eight months in Mexico and Central America.

Fround has had wide experience as a teacher and his works are seen in government buildings, museums and the Ford Company publications.

He has been awarded travel scholarships, a Carnegie grant and fellowships.

Mrs. Elsie Fround also has had art training in Missouri, Colorado and Kansas and, besides painting, has considerable experience in many crafts as teacher and exhibitor. She will show some of her jewelry craft at the Sunday meeting.

Group To Discuss Housing Proposal

Area building contractors and citizens will meet Monday at 8 p. m. in the Al Sabin, Inc., offices at Hwy. 17-92 and Prairie Lakes Dr. to discuss and study copies of the proposed county high-density housing code and general contractor license.

Discussion on the size of home garages and the requirements covering screening of windows and doors will be included.

The meeting is open to all contractors and general builders who operate in the county.

Road Probers To Turn Over Results To State

JACKSONVILLE (UPI) — The Legislative Roads Committee will let others decide what to do about a Jacksonville firm accused of defrauding the state and giving payola to state employees.

The committee, at the close of its final hearing Thursday, agreed to turn over results of its probe into activities of the Duval Engineering and Contracting Co. to state and local authorities for possible legal action, if appropriate.

The committee, headed by Sen. Scott Kelly of Lakeland, spent most of Thursday digging into reports of alleged collusion, "systematic cheating" and other charges against Duval Engineering, one of the largest road-builders in the state.

At the same time, the State Road Board in Tallahassee suspended Duval on a general charge of fraud despite the firm's contention that no specific instances of wrongdoing were pinpointed.

Two truck drivers for Duval told the legislative committee how a seven-finger secret signal was used for putting short loads of asphalt on trucks hauling to state road projects. And a retired road department worker said he was convinced the firm used a "calculated, systematic system" to cheat the state in road building materials.

At no time was it brought out specifically how much the so-called "short-changing" cost the state, but Kelly told newsmen after the session committee investigators still were working on the case.

CAPE CANAVERAL (UPI) — America today launched a Redstone rocket with a dummy Project Mercury capsule in a special test of the machine designed to hurt no man into space, possibly by May.

Mission Attacked
LIBBON, Portugal (UPI) — A mob of several hundred blacks, whites and half-castes Thursday night attacked the American evangelical mission building in Luanda, capital of Portuguese Angola, but no Americans were hurt, the Lusitania news agency said.

Christian Guideline
MIAMI BEACH (UPI) — Evangelist Billy Graham laid down a six-point guideline on "how to live the Christian life" in a talk Thursday night. Christians, said, Graham, should pray frequently, read the Bible daily, live a disciplined life, learn how to meet temptation, join a church and witness for Christ.

Stock Steady
NEW YORK (UPI) — Stocks steadied at the opening today following Thursday's general sell-off. Trading continued heavy, investors are concerned over the quality of leadership in recent sessions, the nearness of the tax payment deadline, the imminence of what may prove to be a disappointing crop of first quarter reports and the darkening Laos situation, brokers said.

Final Respects
ODESSA, Tex. (UPI) — Friends, relatives and schoolmates paid their final respect today to Elizabeth Jean Williams, 17, the melancholy girl who asked her high school chum to kill her. Police were trying to learn whether or not she was serious when she talked John Mack Herring, 17, into putting a shotgun to her head, and with a final kiss to remember her... having him pull the trigger while she held the barrel against her temple.

Work on widening a three mile stretch of Bear Lake Rd. from 28' to 36' to the Orange County line will start the week of April 1, Road Supt. J. C. Lavender said today.

Allies Back President On Strong Laos Stand

WASHINGTON (UPI) — President Kennedy's warning that Russia must stop the Soviet-backed rebellion in Laos or face possible intervention drew hearty support today from U. S. allies.

The president told a tense-packed news conference Thursday night that the future course of world affairs might hinge on the Kremlin's reply to a Western plea for a truce in Laos.

Russia promised to study "carefully and urgently" the British proposal for a ceasefire, a Foreign Office spokesman said today in London. He said there has been no other response from Russia so far.

British Prime Minister Harold Macmillan who met with his Cabinet until 1 a. m., said the United States "is the world's most powerful nation and much depends on her strength and leadership." He

noted the "vigor and confidence" shown by Kennedy in the situation.

At Bangkok, Thailand, military experts of the Southeast Asia Treaty Organization put finishing touches today on a master battle plan for us in Laos if the Communists reject the ceasefire offer.

The master plan will be presented to the foreign ministers of the eight SEATO nations who

meet here next week in one of the most critical sessions since SEATO was founded to check Communist expansion in Asia.

The ministers, including Secretary of State Dean Rusk, will decide whether to continue to press for a diplomatic settlement or put the military plan into effect.

The free nations of Asia were taking new heart from the firm position of the United States as expressed by Kennedy.

Peel Denies Murder Link

FORT PIERCE (UPI) — Dapper Joseph A. Peel Jr., took the witness stand at his murder trial today and said he had nothing to do with the 1955 slayings of Circuit Judge and Mrs. C. E. Chillingworth — not directly or indirectly.

The 37-year-old Peel, on trial as mastermind of the Chillingworth murders, took the stand at mid-morning.

He also denied in a firm strong voice that he did not run a gambling or bolita operation with Floyd (Lucky) Holzappel or George (Bobby) Lincoln, the two confessed killers of the Chillingworth couple who fingered Peel as the brains behind the deaths at sea.

One of the first questions was whether Peel had anything to do with hiring or ordering Holzappel or Lincoln — or either of them — "to kill and murder Judge Curtis E. Chillingworth."

"I did not. Not directly or indirectly," Peel said.

Peel followed society jewel thief Ted Rinehart to the stand.

Rinehart testified a star prosecution witness, P. O. (Jim) Wilber, proposed framing Peel. He

also said that Wilber had asked him to get him a gun from out-of-state in May 1955.

Rinehart's testimony about the proposed frameup was almost the same as what he said Thursday with the jury out of the room. The jury heard his testimony today.

Rinehart, 33, who is now serving a term at Raiford state prison, said that Wilber tried on several occasions "to talk me into helping him frame Peel and also Floyd Holzappel," — who has confessed the murders.

The youthful-looking Rinehart, clad in a sports shirt, said Wilber had taken a picture of him "in a compromising sort of situation" and tried to blackmail him with the picture into framing Peel. He said Wilber told him "if you will help me frame Joe Peel, I won't turn this picture over to the FBI."

Garden Clubs To Honor Services

The Florida Federation of Garden Clubs will place a Blue Star Memorial Marker honoring all members of the armed forces at the second landscaped island on Hwy. 17-92 in special ceremonies Tuesday at 10:30 a. m.

Mrs. C. R. Mays Jr., federation president, will deliver the dedicating address.

An announcement released by Mrs. C. M. Flowers, publicity chairman of the Sanford Club, reads:

"Designed to honor those who have served, are serving and will serve in the nation's armed forces, the Blue Star Highway project embraces the total program of National Council. Because it is a living memorial, it is roadside development in its broadest scope. State federations and clubs interested in 'building in the present, on the past, for the future' are making an obligation. Roadside beautification is a requisite to placing a marker... the roadside chairman first secures approval of the selected site from the road department or city officials.

"Markers and plantings are examples of good public relations with people of the community, the road department and the armed services."

All Sanford Garden Club members and interested persons are invited to attend the ceremony.

Entertainment Assn. Drive Set

The Sanford-DeBary Entertainment Assn. will open its new membership drive with a dinner May 15, President Chester Rerrick said today.

The directors of the association met Wednesday night and agreed to sponsor three attractions next season.

Rerrick said that memberships are available at the Chamber of Commerce.

The president reminded all members that though the season is over by reciprocal agreement with Mt. Dora, they can hear Nello Rankin, famed Metropolitan Opera Star, there at 8 p. m. April 8.

Bill Deadline

State Rep. Mack Cleveland Jr. today urged all municipalities in the county to have their local bills in the chief clerk's office of the House of Representatives by next Tuesday.

All bills in their introductory form must be in the clerk's office at that time if they are to be presented to the legislature this year, Cleveland added.

Special Charter Group Sought For Altamonte

Altamonte Springs Attorney B. J. Davis will ask the council at its next meeting to appoint a special charter committee to make amendments to the present charter.

Davis said that a new charter will not be ready in time to be presented to the 1961 Legislature. Davis had been authorized to revise the present 40-year-old charter and bring it up-to-date with other municipalities.

Davis had hoped to have the charter ready to present to the legislative delegation but "more study" is needed on it, he said.

Davis emphasized that the people of Altamonte need to be advised of the charter changes and that a special committee would inform the citizens of any new amendments.

Davis reported also that he is preparing a resolution to present to the County Commission next week requesting an answer on why classification of SR 437 within the town was changed from a municipal road designation to a county road designation.

Davis said that a special meeting of the council was held Wednesday night to protect the classification.

Kennedy Signs Benefits Bill

WASHINGTON (UPI) — President Kennedy signed into law today the first of his major anti-recession bills passed by Congress, setting in motion a billion dollar program for extending jobless pay benefits to the unemployed.

An estimated 700,000 unemployed workers were expected to begin receiving the extra help within two weeks.

Labor Secretary Arthur J. Goldberg planned to put the new program into operation immediately by signing agreements with representatives of from 30 to 25 states.

No Instructions
GENEVA (UPI) — Lack of instructions from Moscow appeared today to be holding up progress on a nuclear test ban treaty. While U. S. delegate Arthur Dean has been unfolding details of new proposals that would make a test agreement possible, Soviet delegate Semyon Tsarapkin has sat in stony silence.

David Wester Celebrates Tenth Birthday

The tenth birthday of David Wester, son of Mr. and Mrs. Birger Wester of Lake Mary, was celebrated by his fourth grade class members at the Lake Mary school at the Wester Ten Acres, Monday afternoon. The children arrived in a group and were allowed at first to run rampant over the grounds expelling energy all over the place. Then pictures were taken, speed mobilis rides enjoyed, and games were played. A long table in the yard was loaded with assorted candies, cookies, and nuts. A variety of cold drinks were iced. The boys gathered wood and made a fire while the girls helped prepare the following food: oven baked beans, potato chips and french fries, dill and sweet pickles, buns and home made cup cakes frosted in pink and blue. Everyone roasted their own wieners over the fire. Ice cream cones were served after the meal. Before returning home the children watched David open his many gifts. Assisting his parents with the party were his sisters, Joy and Sonja, and his uncle, Harry Wester. Signing the birthday guest register were Lynn Smith, Sue Brooklyn, Charlene Ryan, Pat Rowell, Patti Parsons, Karen Weber, Diane Bridges, Betty Lou Kuykendall. Nadine Johnson, Lynette Schooler, Patti Mar Riley, Dwight Bowes, Charles Dunn, Mike Morris, Stephen Hudson, Franz Beard, George Ruby, Mark Heath, and David Mohr.

Belts And Gloves Brighten Spring Costumes

Belts are in for a fashion boost as Spring's new wigs and organza coat-dresses call for the finishing touches of a wide soft leather sash belt. Bright leather string belts, in one color hue or in a combination of colors are used to pick up a print motif. These hand-some belts are weighted with coins, or beads for daytime, and often are jeweled with colored stones or brilliants for evening. For more casual wear, the "dog leash" type of string belts are most popular. The long and short of gloves is just that this Spring, as new leather gloves appear in shorty versions, mid-length and long-pull-ons. The Musketeer style—the 12-16 button length glove—is returning to new popularity. Gloves have a slim look, and detailing is understated to complement fashion's slim silhouette. Shortie gloves with leather lacings and discrete bows offer added fashion appeal.

Kingswood Builders Offer Homes In Sunland Area

A new home building organization, Kingswood Builders, Inc., is offering new homes for sale in Sunland Estates, with some already completed and others near completion.

Homes are being constructed on choice lots in the Sunland area, where 400 families already enjoy the many conveniences of this completely organized community.

The organization has completed and sold nine homes in Kingswood Manor, Orlando, is completing five in Sunland and scheduled starts on 10 more there today.

Kingswood Builders advertises "Homes Fit for a King" and stress that their houses offer more property conveniences per dollar than

the average home buyer can imagine.

The new organization is headed by three former Odham and Tudor staff members, Art Harris, Byron Leach and William S. Brumley Jr. Harris is president of the corporation, Brumley is vice president and Leach secretary-treasurer.

Harris was general manager of construction and subdivision development for Odham and Tudor since 1953, with a record of experience in construction work dating back to 1940, except for three years service in the Marine Corps. His work included being a foreman on the Naval Underwater Sound Laboratory at Orlando, construction inspector for the Navy during construction of the Sanford Naval Air Station and foreman on the Seminole Memorial Hospital.

Brumley, a native of Florida who received his education in Sanford schools and University of Florida, also was with Odham and Tudor for five years. He served as field superintendent in foundation work and home construction, and as supervisor of workmen. He supervised construction of Valencia Villas in DeLand and later became purchasing agent for the firm during three years when 800 homes were built.

Leach began in the construction business in Louisiana in 1949 while attending college in business administration and accounting. He was active in accounting, bidding and management before joining Odham and Tudor in 1953 as internal auditor on a quarterly basis. He became a full time accounting and general administrative member of the staff in 1959.

Kingswood Builders, Inc., carries the recommendation of J. Bralley Odham, president of Odham and Tudor, into their construction program in Sunland Estates. He said "I am sure that anyone purchasing a home or doing business with this firm will receive just value and fair treatment."

Kingswood Builders is offering three-bedroom, two bath homes, with built-in General Electric kitchens. They are constructing homes in the \$13,800 to \$16,000 price range, with VA, FHA and conventional mortgage financing. The Kingswood Builders office is located on the property and may be found by following the signs after turning off Hwy. 17-92 into Sunland Estates.

The officers of the new firm have issued an invitation to home seekers to try Sunland, "tested by Donna" and complete with street lights, drainage system, playground and park and other features.

Missionary Student To Give Service

Longo Settlement Hopes Raised

LEOPOLDVILLE. The Congo (UPI) — President Joseph Kasavubu's efforts to woo the leftist leaders of Oriental and Kivu Provinces raised hopes today for a possible conciliation between the Congo's rival political factions. Leopoldville Premier Cleophas Kamitatu was preparing to fly Saturday to the Stanleyville stronghold of Antoine Gizenga as the personal representative of Prime Minister Joseph Ileo.

At the same time, other feelers were going out to Gen. Victor Lundula, the Stanleyville army commander. Lundula was reported to have told Leopoldville authorities in a radio exchange that he wanted talks started between the two regimes.

Both Ileo and Kasavubu hope the double approach will lead to negotiations on a possible deal between the recently established Congo Confederation and the Lumumbist-held Kivu and Oriental provinces.

Kamitatu belonged to Gizenga's African Solidarity Party and both come from the same tribal region — the Kivu territory in the Leopoldville Province.

Holy Cross Episcopal members and friends who wish to make the trip to Lake Wales Sunday to see the Passion Play should make reservations at the church office immediately.

A picnic supper will be eaten at Lake Wales before attending the 8 p. m. performance.

Navy Encouraged By Polaris Tests

CAPE CANAVERAL (UPI) — The new nuclear submarine USS Theodore Roosevelt fired three Polaris missiles from 100 feet beneath the ocean surface Thursday, the first time a sub has fired that many rockets in a day.

Two of the missiles had to be destroyed in the air because of malfunctions, but the third sailed majestically on course.

Despite the miscues, the Navy seemed encouraged by the tests, particularly about the ability of the 360-foot submarine to launch the 28-foot missiles.

In a combat situation, Navy experts contend, a Polaris sub could fire its 16 nuclear-tipped rockets one minute apart, or a full load within 15 minutes.

The three bottle-shaped rockets were launched at intervals of about two hours as the slender, black sub — fourth to join the Navy's growing Polaris fleet — cruised about 200 miles southeast of Cape Canaveral.

Koufax Still Frustrating To Bums

United Press International — They're asking the same old question in the Los Angeles Dodgers' camp today and the frustration of it is that nobody has the answer.

That's because the answer lies in the phenomenal but untamed arm of Sandy Koufax, the 25-year-old Brooklyn-born fireballer who can throw baseballs through barn doors when he has enough control to hit them.

It's been that way ever since the Dodgers signed Koufax in 1955. The greatness is there and sometimes it bursts out in awesome brilliance. But over six years it's been a case of isolated brilliant performances like his record-equaling 18-strikeout performance in 1959 followed by long periods of in-and-out performances.

Koufax turned in another of his breath-taking performances Thursday when he blazed through seven no-hit innings against the Minnesota Twins. The 210-pound left-hander walked five batters and struck out eight and his performance looked better than ever when the Twins rallied against his successors for five runs in the ninth inning and a 5-4 victory over Los Angeles.

First-baseman Willie McCovey, eager to recapture his rookie form of 1959, hammered out a homer, triple and single to drive in four runs and lead the San Francisco Giants to a 13-4 victory over the

Los Angeles Angels. Orlando Cepeda, John Oraino and Don Blasingame had three hits for the Giants.

Joe Christopher's four hits paced the Pittsburgh Pirates to a 15-9 win over the Philadelphia Phillies but manager Danny Murtaugh was concerned because 20 game winner Vern Law was tagged for four homers during his seven innings on the mound. The homers were hit by Jim Coker two, Bob Malkmus and Hob Sadowaki.

The Chicago White Sox shaded the Milwaukee Braves, 3-2, on the strength of Al Smith's homer, the first by a Chicago player this spring.

Two homers by Vada Pinson

and one by Leo Cardenas powered the Cincinnati Reds to a 4-3 victory over the Kansas City Athletics.

Two unearned runs scored when center-fielder Billy Bruton dropped his third fly of the spring and enabled the St. Louis Cardinals to gain a 6-3 decision. Bob Nieman's two-run double and a two-run homer by Carl Sawatski were the big blows of the Cardinal attack.

The Baltimore Orioles scored a 4-3 victory and swept their three-game series with the New York Yankees when right-fielder Whitey Herzog's strong throw cut down the potential tying run at the plate in the eighth inning.

Barbour Leads Seminoles To Win In Track Meet

Bobby Barbour set a new Seminole High School track record for the high hurdles and led the Seminoles Thursday to victory in a four team track meet at Leesburg.

Barbour rolled up 11 points as Sanford scored 66½ points to Leesburg's 62; DeLand, 55 and Lake Weir, 25.

Barbour ran the high hurdles in record time of 16.8, even though he finished third in that event.

Sanford piled up firsts in the mile relay with the team of Chip Crawford, Vic Welch, Richard Walker and Mike Champion.

They grabbed a first in the discus thanks to Tony Sulzpio and John Emerson took a first in the broad jump.

The locals also dominated the other events by placing either second or third.

The next meet for Sanford will be against Florida Military School of DeLand Monday.

NORMAN COUCH had to come all the way from New Preston, Conn., to latch on to a fish this size. He caught the fish out of the Lemon Bluff Camp using live shiners as bait. The fish weighed in at 14 pounds, two ounces.

Fouk Takes 3rd Flight Play In Women's Meet

The final round is all that remains in the tournament for the championship of the Women's Golf Assn., being played off at the Mayfair Country Club. The tournament is sponsored by the Atlantic National Bank.

In the third round championship flight, Jeannie Fouk won out over Fanchon McRoberts and Augie Russell out pointed Doogie de-Ganahl.

In other play, first flight winners were Russell over Pierce and Carraway over Heard.

Championship consolation has Phillips vs. Mahan and Ivey over Snydes.

Second flight, Williams over Smith and Herron over Crawford. Second flight consolation, O'Hearn over Dickey and Adams over G. Brown.

Third-flight, J. J. Ingston over Marsh and Nicely over Park. Third flight consolation, Higginbotham over Woodruff and McKibbin over Fruit.

Fourth flight finals, Thomson over Spencer and Fourth flight consolation finals, Schlrard over Mero.

Qualifying Heats For Derby Tonight

Sixteen of the best distance runners at the Sanford-Orlando Kennel Club have been lined up for two qualifying heats tonight to determine the runners in the 26th annual Central Florida Derby slated for March 29.

The first four finishers in each of the 10th and 11th races will make up the Derby field. The losing dogs will run in the Derby Consolation on March 28.

Early favorites in the two elimination heats appear to be Andale and A. R. Kwabka in the 10th and O. R.'s Mortgage, Turnaround and Mae Tray in the 11th.

Any of the swift field, however, could sweep to victory. Racing Secretary R. C. Williamson has picked a well-matched field for the competition and either dog could win.

Other dogs in the 10th race are Go Speaker, Discoverer, Suez Gay, O. R.'s Medium, Easter Token and Chino Harjo. Rounding out the field in the 11th are Jim Brown, Faith Hope, Uppity, Gesto and Punky Girl.

The nominating committee will present their slate of officers to serve for the coming year at this business meeting.

Virginia 500
The "Virginia 500" will be run in Martinsville, Va. April 9 with some of the top racing drivers competing.

Individual Efforts Highlight T Loop

Good individual efforts highlighted the T League at Jet Lanes during the week's competition.

Yogi Hudson bowled a triple, Mary Ann Denson got a turkey and Clara Tinlin the 4-5-7 split, James Penderly the 5-6 and Bernice Smith the 3-7 split.

Mary Jane Gorton of Wieboldt's had the high game and series with 180-454. Harriet Cowley, also of Wieboldt's had 168-425, Dot Button of Smith Amoco had 161-423.

Country Club Manorettes had high team game and series with 546-1601; Wieboldt's had 535-1521; Smith Amoco had high game-time series with 524, and Karns Insurance was third high in series with 1510.

Wieboldt's still has the league lead with 83½ wins, followed by Country Club Manorettes with 50; Karns Insurance, 40½; Nationwide Insurance, 38½; Smith Amoco, 31½, and Jean's Spaghetti House, 29.

Ernest Paces Friars In NIT

NEW YORK (UPI) — Providence College owed its berth in the final round of the National Invitation Basketball Tournament today to a five-foot, eight-inch "dumb" who looks like Mickey Rooney in short pants.

Vince Ernest would have made an ideal "Andy Hardy" in those old Rooney movies but he was born 20 years too late. So the blond-haired court midget from Jersey City, N. J., is tossing baskets instead of apt balls—provident thing for Providence College.

Ernest scored eight points in an overtime session to carry the Friars to a thrilling 90-83 victory over Holy Cross Thursday night in the semifinals of the NIT at Madison Square Garden.

Hebert Leads Sunshine Play

MIAMI BEACH (UPI) — Jay Hebert, the lean ex-Marine from Lafayette, La., carried a shaky one-stroke lead into the second round of the \$25,000 Sunshine Open golf tournament today with a herd of more than 50 professionals within firing range.

The 28-year-old defending PGA champion rode radar-accurate irons to a six-under-par 31-35-66 Thursday as a bulky field of 156 shotmakers reduced par to a shambles.

New City Playground Opens

Ronald W. Perry, director of the City Recreation and Parks Department announced today the opening of another new park-playground area within the City. The site as yet unnamed lies between Bay and Willow Aves., north of 25th St.

Being developed as part of a master plan designed by the Department, the site now has a junior baseball-softball field laid out, open area for other athletic activities, and the beginnings of a playground apparatus area. Installed this week were two swing sets, one for tots and one for older children. Future plans for this area include continued additions of playground equipment such as slides, merry-go-rounds, see-saws, sand boxes and a spray pool.

Twenty oak trees have been planted for future shade. Extensive landscaping will be done to follow the development already achieved at Lake Gem Park. A picnic area, rest room facilities and two tennis courts round out the area's development program. This brings five as the total number of areas now having playground equipment, exclusive of school sites, in the City Recreation and Parks system. The next area that is planned for development is the 24th St. landfill area west of French Ave.

This 10 acre site will be one of the most extensive in the City with ball diamonds, play areas, archery range and tennis facilities.

Reporter Describes New Found Censorship Freedom In Russia

EDITORS NOTE: Henry Shapira, who has been in the Soviet Union since 1954, is the dean of foreign correspondents in Moscow. In the following dispatch, he describes his new-found freedom to file an uncensored story from the Russian capital.

MOSCOW (UPI) — This dispatch was written at midnight from the comfort of my apartment, home of United Press correspondents for almost three decades.

I am free to pick up the receiver and phone my story to London or New York without an invisible censor looking over my shoulder. Or I can send it down to the Central Telegraph Office where a friendly, cheerful girl receptionist inserts it into a pneumatic tube to an upper-floor operator for immediate transmission.

By force of habit, my worried wife — who because of the peculiarities of local working conditions has not known normal existence for more than 20 years — asks if I will disappear for a night-long vigil to the "sweet shop," as the foreign correspondents call the Central Telegraph.

It seems too good to be true that what comes out of this typewriter will reach the outside world almost as fast as I punch the keys — and without a single detention.

UPI headquarters, one of the few foreign residences outside the so-called diplomatic ghetto, is no longer a graveyard of untold stories.

First Aid Course Set For Ministers

C. W. Beach, pastor of Sanford's Seventh-Day Adventist Church, will attend a four-day concentrated first aid training course in Orlando next week.

All of Florida's Seventh-Day Adventist ministers are enrolled for the sessions which will be in charge of a Red Cross instructor from the Atlanta headquarters.

To some extent we still shall be compelled to make bricks without straw unless the Soviet authorities relax their monopoly of the sources of information. But henceforth, we are free to report the sounds, sights, smells, facts and views subject only to standards of objectivity, accuracy, good taste and judgment.

This is a far cry from the exasperating years of frustration of love's labor lost, of wasteful, brain-racking trying to outguess the censor's caprices or of futile waiting for his arbitrary, unappealable decisions.

One night, during the fateful days of March, 1953, when I had set up a make-shift bedroom at the "sweet-shop," a friend telephoned a report that Stalin had suffered a stroke.

When I handed my first urgent dispatch to the normally polite young receptionist, she angrily tore it up and tossed the fragments in my face. The dedicated Communist girl, who had known no other leader but Stalin and was convinced of his immortality, refused to hand my dispatch to the censor hiding behind the green curtain.

This was unreportable until hours later when Tass issued an official communique.

There followed a three-day death watch when a handful of Western correspondents camped at the "sweet-shop" — unable to report on developments before official releases.

I happened to learn of Stalin's death four hours before the official government announcement. Exasperating efforts to reach New York, London, Paris or Helsinki all proved unsuccessful. The telephone line broke down at each mention of Stalin.

I finally was able to report the death when I reached our London correspondent, Bob Muesel, and asked him: "You know what happened?" Muesel replied promptly: "Stalin died."

The phone line became as dead as the Soviet premier, but we had the first Moscow-dated story of the end of the Stalin era.

Easter Lily Ball Scheduled Saturday

The Easter Lily Ball, scheduled Saturday in the ballroom of the Mayfair Inn, will be the last big social event of the current season.

This third annual benefit is staged jointly by the Society for Crippled Children and Adults and the Sanford Pilot Club. The Society is an affiliate of the National Easter Seal Society, and 75 percent of the proceeds from the ball will remain in Seminole County to care for crippled children and adults here.

The dance will begin at 9 p. m. to the music of the Pete Bukur Orchestra, and good entertainment is promised in the talented dancing and singing of Miss Jari Wheatland and the magical tricks of the famous "Mr. Magic."

Some lucky guests of the ball will win the door prizes that have been donated by Sanford merchants, with the first prize being a handsome hooked rug made and donated by an Altamonte Springs lady, Mrs. Robert Bradford.

Mrs. O. A. Payne is the president of the Pilot Club and Dr. Vann Parker is the president of the Society for Crippled Children and Adults. Reservations may be made by phoning them, or by calling the ticket chairman, Mrs. Shirley Schilke.

Music Vesper Service Sunday

An all music vesper service titled "Choruses from Great Oratorios" will be held at the First Presbyterian church Sunday at 5 p.m.

The Chancel choir will sing the service, Mrs. George Touhy directing. The annual Easter season hour of worship is open to all who wish to attend, said the Rev. Grover C. Sewall, Jr., minister.

The order of service is: Prelude-Cantabile in B (Cesar Franck) Mrs. Touhy; And Then Shall Yqr Light Break Forth; He Watching Over Israel (The Elijah-Mendelssohn); How Lovely Is Thy Dwelling Place (Requiem-Brahms).

Offertory — Lord Hear My Voice (Bach) Crucifixus (Mass in B Minor—Bach); Behold The Lamb Of God; Surely He Hath Borne Our Griefs; The Hallelujah Chorus (these three choruses from The Messiah—Handel).

It is requested by church officials that those attending the service be seated prior to the 5 p.m. starting time, thus avoiding distracting interruptions.

Better Watch What You Write In Magazines

By DICK WEST
WASHINGTON (UPI) — If I were in the business of giving advice to college professors, I would feel constrained to offer the following admonition:

Be careful what you say when writing magazine articles. An alumnus of your college may become president some day and your words could come back to haunt you.

A situation such as this developed this week in the case of a Harvard law professor named Stanley S. Surrey, whom President Kennedy has appointed assistant Treasury Secretary for tax policy.

Surrey went before the Senate Finance Committee for his "confirmation hearing," a function that sounds like a religious ritual but is somewhat similar to a packing house operation.

Appointees are herded on the hoof, into a committee room and, if found to be free of contamination, are stamped "U. S. Senate inspected." Now and then, one of them may get butchered.

Surrey spent two days before the Finance Committee and he must have felt like he was being carved into pieces about the size of a 49-cent lamb chop.

His troubles stemmed from some magazine articles he wrote several years ago suggesting that Congress, in enacting tax laws, had sometimes given favored treatment to certain groups of taxpayers.

Several of the committee members were offended by this. They took Surrey into "line" over his "history related."

The History of Royal Ambassadors was given by Alan Boman at the meeting of the RA's of the First Baptist Church of Lake Mary. Others on the program were Robert Boman, Wayne Boman, Russell Avery, Westley Anderson and Bobby Shelton.

published opinions and demanded to know whether he still felt that way.

The professor, who probably was wishing he had never seen a typewriter, assured the senators that he would keep an "open mind." But that may not have been the right thing to say.

Some senators seem to think that an open mind means the same thing as a hole in the head.

At one point, Sen. Clinton P. Anderson, (D-N.M.), asked Surrey something about fringe benefits in labor contracts. Sen. Wallace F. Bennett, (R-Utah) thanked Anderson for bringing this up.

Bennett said he had been trying throughout the hearing to think of some way to work "surety" and "fringe" into the same sentence.

As senatorial puns go, Bennett's wasn't bad, and it got a big laugh. It was particularly appreciated by Sen. Robert S. Kerr, who lives in Oklahoma.

I thought, however, that the finest utterance was Sen. Carl T. Curtis' definition of a tax loophole.

"A loophole," the Nebraska Republican said, "is a provision that someone else can use and you can't."

After two days of this sort of thing, the committee still was not clear about Surrey's views. So Chairman Harry F. Byrd, (D-Va.), told him to summarize his tax philosophy in writing.

Most likely the written statement will get the committee's seal of approval. If not, perhaps Surrey can sell it to a magazine.
