

German Police Fire Upon Crowd Of Jewish DPs

Five Are Injured When Protest Is Made To Critical Publicity

MUNICH, Germany, Aug. 11.—(AP)—German police yesterday fired into a crowd of 1,000 Jewish displaced persons they said had stoned them and defied orders to disperse. The police said five of the DPs were wounded.

The crowd, without obtaining a license for a meeting, had gathered to protest an alleged anti-Semitic letter in a Munich newspaper, police said.

Munich, in the American occupation zone, was a Nazi stronghold before the war. Hitler staged his first, unsuccessful beer hall putsch here in 1923.

The crowd of DPs gathered in front of the building housing the newspaper *Sueddeutsche Zeitung*, which had printed a letter criticizing German Jews.

City officials said the DPs' protest was an attempt to disrupt the city's order to disperse by tearing up collections from the street and burning them in the police. Hand-to-hand fighting broke out at several points.

The DPs set fire to one police car. Then they pelted a lustily summoned fire engine with stones. Four more fire engines arrived and also were stoned.

The crowd dispersed after the firing. The five wounded DPs were taken to hospitals. How seriously they were hurt could not be learned immediately.

Convict Is Freed After Serving Over 24 Years In Jail

CHICAGO, Aug. 11.—(AP)—A convict who has served more than 24 years of a life sentence was freed today. A judge ruled that the crime of which he was convicted never happened.

Ordered released from Stateville prison was James Montgomery, 54, who was convicted on a rape charge in Lake county in 1924, said court, Waukegan, on Jan. 9, 1924.

Federal Judge Michael J. Igoe held that the trial of Montgomery was "a sham" and that the conviction and sentence for an alleged crime, which never occurred.

In an 18-page opinion which traced the case "back to the beginning," Judge Igoe held that the state's attorney, Louis Kutner, produced a doctor who testified the woman had not been raped.

The physician, Dr. John E. Walter, Waukegan, identified a photostatic copy of a record of his examination which showed no mention of indications of rape. Dr. Walter said he recalled the case clearly and that a careful examination convinced him the woman had not been raped.

USE OLD RUBBER

PRAGUE, Aug. 11.—(AP)—Czechs trying to fix their present Communist rule are using an old ruse they employed on their former Nazi occupiers.

It's almost like the old gag of "Grandmother died" that Americans use to get the afternoon off to attend the first game of the baseball season. The Czech version is "Auntie has died—hurry home." During the German occupation such telegrams helped people on forced labor to get out of camp.

Now some fathers and mothers are sending such telegrams to their children who are on harvest brigades (volunteer workers) in the Prague region of the Czechoslovak Youth Union.

DIDNT CALL SHOTS

COLUMBUS, O., Aug. 11.—(AP)—The driver, police declared, was most unfortunate in his choice of victims in his automobile accident.

First, he crashed into the rear of an attorney's automobile. Then, he sideswiped a garbage truck. He wound up by crashing against a police car which had been parked at the curb.

U. S. Bonds Go Up In Value as British Government Bonds Drop

BY SAM DAWSON

New York, Aug. 11.—(AP)—United States government bonds have been going up as the treasury heads into deficit financing. British government bonds have been going down as the English exchequer's dollar deficit leads into another of its perpetual crises.

Deficit financing means you are spending more than you are taking in and finding the cash for this way of living by various means. One of them is by selling government securities, and keeping the cash.

The Federal Reserve Board has kept a close watch on U. S. bond prices all along. Recently it has stopped putting its bond holdings on the market, to let the banks bid up the price of available bonds. As bond prices rise, the yield is lower—"money is cheaper." This creates the cheap money climate the Treasury wants when it goes into the market to raise cash through offering increased quantities of short-term bills.

The board also has lowered bank reserve requirements. This means that money which banks formerly had to hold now can be used for investment. The banks, however, already have large sums on hand—loans to business dropped steadily throughout the first half of the year, and deposits and savings accounts piled up.

The life money from the three sources—free reserves, the money market, and the banks' savings—now flows into the U. S. securities market. So bond prices rise in over the counter sales as the demand for them increases.

In England, however, the tide has been running the other way.

Two Little Girls Killed When Car Stalls On Track

Mother Tries To Push Auto From Path Of Passenger Train

SENECA, S. C., Aug. 11.—(AP)—Two little girls were killed here yesterday when their mother and two other women tried desperately to push a stalled automobile from the path of an oncoming passenger train.

The girls, Tommie Lee, 8, and Mary Guy Hutson, 8, were the daughters of Sgt. and Mrs. Thomas M. Hutson of Clemson College.

Their mother, a teacher in the Fairplay schools of Oconee county, was taking them to school with her when the automobile suddenly stopped on the main line of the Southern Railway.

Mrs. Hutson, her sister, Miss Nell Stroud of Taylorville, Mass., and Mrs. Jimmy Simpson, a Seneca teacher, jumped out the car and began pushing. Sheriff Eddie Weatherly said witnesses told him a southbound passenger train plunged into the car and demolished it. The three women were not injured.

Sergeant Hutson is a Clemson College military instructor and is a native of McComb, Miss. Mrs. Hutson is the former Eva Guyzell Stroud of Taylorville, Miss.

Escaped Convict Is Back In Jail After 20 Years

Checkered Career Includes Burglaries And Murder Charge

FRANKLIN, ME., Aug. 11.—(AP)—A landscape painter's art career ended today when he was taken back to a jail from which he escaped more than 20 years ago while awaiting trial on a murder charge.

Ralph Lee, 51 years old, with a record of 17 years, was arrested as he ate supper with his wife Miss Jessie Edwards Lee, at their home south of here in Bowdoin county.

Indiana state police and Indiana police officers arrested Lee on a charge of escaping from the Indian county jail here on May 2, 1926. He was being held at that time on a charge of murder in the holding killing of Albert Peak, speedway city guard.

Lee's record, as related by officials, started with a burglary sentence and a escape from the Indiana boys school in 1911, when he was 15 years old.

In 1916, he had three months' escape from the Wellfleet, Mass., jail. He was arrested in 1919, and served a year in the state prison at Andover, Mass. He was again arrested in 1921, and served a year in the state prison at Andover, Mass. He was again arrested in 1923, and served a year in the state prison at Andover, Mass.

American Fliers In England Adopt Voluntary Code For Good Conduct

LONDON, Aug. 11.—(AP)—U. S. airmen in England made public today a voluntary good conduct code whose theme is "Don't let 'em be badly to the British."

It advises the fliers to swear off griping about British food, talking too much about the black market and buying about America.

The code was published in the "United King, Low, Eigh, and Ireland" newspaper, "The Daily Express."

Government Once Had More Money Than It Needed

WASHINGTON, Aug. 11.—(AP)—The federal government has more money than it needs, according to a report published by the Treasury Department today.

The report says that the government has more money than it needs because of the large amount of money that has been borrowed by the government since the war.

The report also says that the government has more money than it needs because of the large amount of money that has been borrowed by the government since the war.

Canton Expected To Fall To Reds Within 6 Weeks

Nationalist Government Hooping Its Aid, To Chungking

LONDON, Aug. 11.—(AP)—Best hopes are held here that the Nationalist government in China will be able to hold Canton for at least six weeks before the tide of Communist forces sweeps the city over the border.

The Nationalist government is being helped by the British, the Americans, and the Chinese. The British are helping the Nationalist government by providing it with arms and ammunition. The Americans are helping the Nationalist government by providing it with money. The Chinese are helping the Nationalist government by providing it with food and supplies.

The Nationalist government is also being helped by the Chinese people. The Chinese people are helping the Nationalist government by providing it with information and intelligence. The Chinese people are also helping the Nationalist government by providing it with food and supplies.

Southern College Prexy Writes Of Conditions As Seen In Europe

By LUDD M. SPIVEY

Editor's note: The following is one of a series of articles by Dr. Ludd M. Spivey, president of Florida Southern College, Lakeland, who is spending the summer touring Europe. It is his fourth trip abroad.

PARIS.—Unfortunately people of small means, such as school teachers, and other professional men, never see Paris at its best. July and August are vacation months for French people. Business slows down, the best places of amusement are closed, and the people in general are psychologically in a state of indifference to anything that is not directly related to their own lives.

In the meantime, however, life is plentiful. The only thing lacking is money. The French are looking for a way to get the money they need to buy and there is little doubt for French goods elsewhere. This is beginning to be the common complaint of all Europe as the present time.

I went with some friends last night to visit the oldest section of Paris. From this section one can see the entire city. Here the streets live. From what I saw they are merry.

When you go to Paris you must for it is all that you imagine. Paris for it is all that you imagine. Paris for it is all that you imagine. Paris for it is all that you imagine.

Marshall Tito Aims New Blast At Reds And Charges Lying

BEGRAD, Yugoslavia, Aug. 11.—(AP)—Marshal Tito Yugoslav leader today issued a new salvo at Russia and the Soviet satellites yesterday, with charges ranging from betrayal of the great rebel cause to lack of planning.

The attitude of the government, as reflected by the tone of the official press, emphasizes the steadily increasing bitterness between Yugoslavia and her one-time Communist comrades. At the same time, it underscores the government's confidence in itself.

Yugoslav newspapers upbraided the foreign office's formal charge that Russia is holding and mistreating 73 Yugoslav youngsters, most of them under ten years of age, sent to the Soviet Union for schooling after the war's end.

Bozha, the official Yugoslav Communist newspaper, gave long passages these columns promising to issue a letter from parents of the children, complaining of the Soviet action was comparable to the conspiring Turks.

In a daily column which ran under the heading "Lies and Misinformation," Bozha said that the youth they are glad there is the night in which distributed "lies" in the "Red" press.

Publishers Sometimes Get Strange Orders

NEW YORK, Aug. 11.—(AP)—Publishers sometimes get strange orders.

University Press, a publisher of "Behavior Development in Infants," has received a letter from a parent of a child who has been reading the book.

The parent has written to the publisher asking for a copy of the book for the child.

The publisher has replied that the book is not available for sale.

Western Union's Deficit Is Increasing

NEW YORK, Aug. 11.—(AP)—Western Union Telegraph Co. today reported gross revenues of \$80,580,000 and an operating deficit of \$3,672,211 for the first six months of 1949.

Gross revenues were down 8.9 percent from the total of \$86,240,000 in the same period last year and the operating deficit compared with a loss of \$220,418 in the first half of 1948.

In a letter to stockholders, W. P. Marshall, president, said the larger deficit reflected the decline in gross revenues "and additional costs of about \$100,000 arising from increased wage rates effective April 1, 1948." These two factors were offset to some extent, he added, "by vigorous expense control" and "economies resulting from mechanization."

Revenues from telegrams sent by the general public amounted to \$44,654,107 for the first six months this year against \$70,727,733 in the like period last year.

TRUMAN TO MIAMI

WASHINGTON, Aug. 11.—(AP)—President Truman indicated today he will address the annual convention of Veterans of Foreign Wars at Miami Aug. 22. The President also is expected to address other veterans organizations, the American Legion at Philadelphia Aug. 29 and the Amvets at Des Moines, Iowa, Labor Day, Sept. 5.

LETTERS TO EDITORS

MOSCOW, Aug. 11.—(AP)—"Culture and Life" reported that the Central Committee has published a decree on shortening the work of the editors of the newspaper Soviet Siberia with letters from the working people.

Many writers, it was brought out, receive no royalties and certain ill-considered replies from the editors repel the writers from participation in the newspaper.

The Central Committee said "Culture and Life" has directed the editors to clear their attitudes.

Attempt To Clean Up Draft Is Short Lived

BANGKOK, Aug. 11.—(AP)—The attempt to clean up the draft in Thailand developed into a commotion was brief, indeed.

The anti-draft law had been completely investigated by 34 alleged corruption cases presented to it when the Ministry of Communications advised the cabinet council the committee should be disbanded.

No official explanation was given for the report that the anti-draft probe, but it was reported that expenses of the committee were running much higher than the money that could be saved.

Specs And I See Eye To Eye

Asked Specs Allen to go hunting last week. Known him all my life so I wasn't surprised when he showed up with no gun. Specs doesn't like to kill anything.

Couldn't ask for a better hunting companion, though. We tramp around the woods, and whenever the dogs flush a bird, I blaze away while Specs just watches.

Told him once I was surprised he went along... feeling the way he does about shooting anything. "Well, Joe," he says, "you do what you think is right and I'll stick to what I think is right. I've no call to dislike you for not seeing things the way I see it."

From where I sit, open-mindedness is a wonderful quality. There are plenty of things Specs admires that I don't care for. Like his fondness for buttermilk. I'd rather have a glass of beer anytime... but Specs Allen and I don't let little differences get in the way of something big like friendship.

Here's another big reason why THERE IS NO FINER CIGARETTE IN THE WORLD TODAY THAN LUCKY STRIKE

America's finest cigarette laboratory assures you that—

- Lucky Strike always means fine tobacco!**
- Lucky Strike is always a finer cigarette!**

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye.

As you read this, a constant stream of tobacco... samples from every tobacco-growing area... is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is your assurance that there is no finer cigarette in the world today than Lucky Strike!

Everything's under control! Lucky Strike scientists supervise intricate tests daily to guarantee that the weight, size, density and firmness of your Lucky Strike are always right. Such details are rigidly controlled to guarantee you a truly fine cigarette.

Luckies stay fresh! After Lucky Strike cigarettes have been made and then packaged, they must be tightly sealed to remain fresh. Here you see the colophons seal being tested for air-tightness. Such instruments are in use at every plant.

Testing tobacco. Samples from every tobacco-growing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is fine.

We know: LUCKIES PAY MORE for fine tobacco (millions of dollars more than official party prices)

We are convinced: LUCKIES PAY MORE for the ultimate in smoking enjoyment

So, for your own real deep-down smoking enjoyment Smoke a Lucky!

Lucky's fine tobacco and constant research give you a fine cigarette every time you smoke! BY A. GARDNER THOMAS
