

Metts Crashes 1,000-Yard Mark And Scores 92 Points

Fed JVs Blast Mainland

Scottmen Win, 24-0, In PTA Sponsored Tilt; Harold Pate Scores Two TD's

By KENT CHETLAIN
One of the most powerful Seminole Junior Varsity gridiron teams in recent years rang down the curtain on the 1952 season by winning its fourth game of six played this season in blanking Mainland of Daytona Beach for the second time this year by a convincing 24-0 score in the Memorial Stadium before a fair showing of 350 football partisans.

It was a glorious ending for new coach John Scott, who signed primarily to shape the basketball destinies of the varsity basketball team. Scott in his traditional fashion cleared the bench in last night's whitewashing.

Despite the predominantly larger players on Mainland, the 24-0 score does indicate the true nature of the contest. The Seminoles had three touchdowns called back on them via penalties, one a brilliant 95-yard run by power-packed Johnny Jones.

The Junior Feels knocked four Mainliners out cold in the bruising line play before the contest closed.

However, the Panthers, once beaten, have now diverged into the next two encounters. The Panthers will be carrying an ignominious 3-game losing streak into their game with Cocoa on the Indian River resort tomorrow night.

Oscar Williams' 24 Points Lead Crooms Scorers

Panthers Travel To Cocoa For Battle Tomorrow Evening

Crooms Captain Oscar Williams maintained his position as the leading scorer on the team for the seventh straight week. The spindly dynamo has leded enemy goal lines four times to place the Panthers in that category.

G. Knight is the second ranking producer with 15 points, having tallied twice by the touchdowns and adding three more points on extra point conversions.

Eddie Elly, the hard charging flankman, is the only other Panther to record a TD this year, besides Gordon Ford.

It was Elly, if you remember, who made that vicious tackle stopping one of the touchdown-bound Eustis players two weeks ago. As a direct result of that collision, Elly had to have several teeth removed by Dr. Ringling and the flashy end will be sidelined for the Cocoa tilt this week end.

The Panthers have won three of six games this year. Carrying over a 7-0 and one-let record from last year, the Crooms eleven went on to extend their winning ways in the first three games this year stretching their victory skin to 10 straight before succumbing to Hungerford, 12-0.

Game Commission Releases Changes In Hunting Rules

TALLAHASSEE (Special) — The Game and Fresh Water Fish Commission released today the hunting regulations on one new Wildlife Management Area, and corrected the rules applying to shooting on another public hunting territory.

G. Earl Fry, Assistant Director of the Game Agency, said that sportsmen may hunt this year on the recently acquired Fishing Creek Wildlife Management Area composed of approximately 100,000 acres.

Regulations for the new area include the opening of the season on Nov. 20 and closing Dec. 28, with the first 11 days open on Mondays, Tuesdays, Fridays closed thereafter. All legal game may be taken with the First District rules applying to the Fishing Creek area.

Sportsmen wishing to hunt in this area must purchase a public hunting stamp and must obtain an identification card from the area's checking stations before being permitted to enter the shooting section.

The season for the Tomoka Wildlife Management Area starts Nov. 20 and ends Dec. 28, with the first 11 days open, and Saturdays and Sundays open thereafter. Previous rules for this area called for the same shooting period, but stated the first 11 days were open, with Wednesday, Thursday, Saturday and Sunday, open the second week, with Saturdays and Sundays open thereafter.

Fry said the acquisition of the new area brings to almost 1,500,000 the number of acres of public hunting territory that Florida sportsmen may shoot in this year through the Game Commission's program of acquiring more land for the average hunter.

3,353 See Crooms In First 4 Games To Set New Mark

By T. V. DAVIS
The first four games played by the Crooms Panthers in the Memorial Stadium have drawn a record-breaking total of 3,353 fans this season. The Panther home-court now shows the way into the Memorial stadium arena.

Out of this record 1,300 turnout, 1,122 were paid to establish another all-time mark in the school's gridiron arena.

The City of Sanford has received \$106.25 from the tax receipts in these four contests. An additional \$100.00 has been turned over to the City by the home-court now shows the way into the Memorial stadium arena.

Here are the attendance figures for each game this year.
Game Paid Total
New Smyrna 675 810
Florence Villa 393 543
Smyrna 539 708
Leesburg 1,182 1,800
Totals 2,719 3,553

Here are the lights and tax receipt totals.
Tax Lights City
New Smyrna \$49.75 \$25 \$74.75
Florence Villa 30.75 25 \$55.75
Eustis 40.00 25 \$65.00
Leesburg 75.75 25 \$100.75
Totals \$196.25 \$100 \$296.25

Last week's Leesburg clash brought to an end the regular home slate for the Panthers. However, Alpha Phi Alpha scholarship fraternity has scheduled a post-season game for Thanksgiving afternoon pitting Eustis and Crooms together for what will be an annual classic after each season in the Memorial Stadium. This series will be known as the "Celery Tilt."

A gala parade with four bands participating will precede the game next (Thu) afternoon. Dr. R. V. Moore, president of Helms-Cookman College in Daytona Beach will crown the "Celery Tilt" seven between the halves of the Eustis-Crooms battle at the Memorial Park.

The parade will commence in town at 1:30 p.m. and the game will get underway at 2:30 o'clock.

HERE'S HOW GAINESVILLE (Special)
Florida's goal has been crossed eleven times, five each on passes and running plays, the other on an intercepted pass. The Gators have scored 30 times, 23 on running plays, six on passes and one on a pass intercepted in the end zone.

Sanford Booms Lake Monroe Star For All-Southern "Dream Team"

By KENT CHETLAIN
Fond memories of Seminole High School gridiron immortals, Leon Lawson, Bill Fleming, Will Anderson and Ed Gordon, are now being rapidly forgotten in the wake of the blazing trail of one Virgil Talmadge "Junior" Metts, the Lake Monroe triple threat who is with each passing week shattering SHS football records and converging on the virtually insurmountable all-time mark.

Arizona had its Wilford "Whizzer" White, Illinois its Mike Edinger and Claude "Buddy" Young, Ohio its Frank Sinkwich, Indiana its Tommy Harmon—all great prep gridiron wonders who achieved the 1,000 yards per season mark, or better.

Florida now has its Junior Metts, the Lake Monroe country boy who is every bit as deserving an All-Southern berth as Tampa's Rick Calkins was seven years back.

The Lake Monroe "Locomotive" crashed into the charmed 1,000-yard per season circle last week in its eighth game of the season with still two to play and a possibility that a third game will be added in the event the Celery Feels can manage to win the game on Wednesday night, thus advancing into the post-season championship play-off for the East Florida Conference.

Metts is strictly a "team man." The little power-packed bundle of muscles and sheer determination with the incomparable "white-wid" look, a back seat to his teammate Ed Lockett last week, because of the latter's brilliant run. Metts didn't let the ball rest on his hands in his easy line plays last Friday night against Seabreeze. Instead, the little 5-foot-9 senior played the blocking role for the Seabreeze Lockett who plunged over once from the one and another time from the six.

Since Metts had reached the 92-point mark for the season, he could have just as easily, as not, asked for the pigskin so he could have cracked the century figure. Both coaches, Bill Fleming, one time Seminole running great, and Fred Ganas could have sent word, on those TD set ups, to have Metts take the ball over on two or three plays for the school through Metts' feet. But they know that isn't the purpose of sports and fortunately they aren't football fanatics brand arrogance or egotism that has wrecked much stronger teams than the present day Celery Feels.

How can a scribe, fan or expert do this without being a fan of the team spirit. Actually, we don't profess to know, but the lack of this invisible quality can manifest itself in the most surprising way as typically happens when a one man star literally succumbs to the lack of co-ordinated timing from his fellow players.

This is not Junior Metts. We watch from the stands, but never hear what goes on in the huddles or the playing field. Because the old, over and over again, that the humble little competitor makes a special effort to thank each and every player who has helped him in any way in helping Junior pick up even a yard.

This is not a story on the popular field, but on the quiet, unassuming star who has yet to rise, but merely a tribute to a player who just doesn't know the word—quit. A modest fellow who all important block or assisted in any way in helping Junior pick up even a yard.

In terms of more concrete evidence, let us just scan the statistics throughout the game. He is often than not the ultimate factor determining whether a player will make it all-conference or Southern team.

Metts has amassed an amazing 1,011 yards in 106 carries for a 9.5 yard average per try. The record speaks for itself. However, in all the more phenomenal when you consider that Metts has gained over two-thirds of the team's yards on the ground while carrying the ball only one-third of the time.

Junior has scored 92 points—two-thirds of the team's point production. He has passed for 14 more of these points or an aggregate total of 106 points. Now considering aggregate totals, you cannot forget that the little senior dynamo has accounted for 17 yards of the 212 made in the air for a total of 1,184 yards gained by running and passing.

There is still another feat that this triple threat star has achieved that goes for the most part unappreciated by most fans and that is the "celery" passing record. Metts has done all the team's passing, mostly the short or quick kick variety or the even shorter out-bowling type. But none the less the 165-pound tall back has averaged a robust 27.5 average per boot, saving 35 yards that have carried 84 yards.

Now we ask, just what does a player have to do to make all-conference or even all-Southern. If Metts doesn't embody all the attributes that go with making any team, with the possible exception of physical stature, then this observer will gladly throw away his typewriter and seek a living in another field.

Blues Will Meet Tonight

Seminole Directors Study Offers As Fate Of Baseball Hangs In Balance

The fateful meeting of the directors and stockholders of the Seminole Blues will be held this evening at the Commissioners' room in the City Hall at 8:00 p.m. Hanging in the balance will be the very future of professional baseball in Sanford. The Seminole diamond brass will consider all offers for the club in an all-out effort to sell the local Florida State League entry in order that the non-profit Seminole County Baseball Association will be able to liquidate all debts incurred during the past season.

A group from Gainesville may try to lift the Sanford franchise in an effort to put the university city back in the FSL. Other feelers have been sent out from undisclosed sources for the local club.

The buyer of the club will assume the reins duty with a bus, uniforms, concession equipment and the contracts of eight baseball players including three pitchers, three infielders, a catcher and an utility player.

As Seminole Blue President John Callahan put it, "We want to sell to a person who will keep the club here next year. However, if no one can meet our price here, then we will be forced to sell it to an outsider."

According to a reliable source, a \$4,000 offer might take the club lock stock and barrel.

One fact is certain. The local owners want to sell, and if need be, they will liquidate all the club's assets to make enough money to pay off the debt. In this case, there will be no baseball team here next year. If an outside town like Gainesville or Melbourne purchases the franchise, there will be no baseball here in 1953, either.

As retiring FSL proxy John Kridler said, "This will be a very important meeting tonight. The question whether we shall have baseball in Sanford may be decided at this meeting."

There is a rumor Kridler will accept the job as general manager at Daytona Beach next year. He wouldn't deny this or admit it but he did say he is seeking a job in baseball.

One of the directors and officers of the Blues, Denver Cordell, has been elected to the City Commission since the season closed.

Seminole Play In Tangerine Bowl With Edgewater Tomorrow

Seminole High School's varsity gridiron heroes will invade the Tangerine Bowl tomorrow night in the first of a three-game home-and-home series with the Edgewater Eagles of Orlando.

This will be a non-conference "brother" for the Celery Feels who have run up 69 points to their opposition's 19 in the last two games with EFC teams, New Smyrna and Seabreeze.

As far as the favored role, Sanford can hardly be classed with Edgewater but the Eagles have had only a so-so record this year and Sanford has won five out of only one while trouncing last year's first champion.

Other players who rank high on the list of Ganas and Fleming will be Terry Cordell, last year's All-EFC center, Russell "Wop" Mann, the hard driving sandhog who fears no big man, others on the list are Howell and Joe Hutchinson, blocking backs, Joe Pickens, Sanford's All-EFC candidate for tackle.

Other players who rank high on the list of Ganas and Fleming will be Terry Cordell, last year's All-EFC center, Russell "Wop" Mann, the hard driving sandhog who fears no big man, others on the list are Howell and Joe Hutchinson, blocking backs, Joe Pickens, Sanford's All-EFC candidate for tackle.

President Pleased Over Ike's Stand On Prisoners Of War

Truman Holds First Post-Election Conference With News Men This Morning

WASHINGTON (AP)—President Truman said today he is very happy over Gen. Dwight D. Eisenhower's views on the Korean prisoners of war issue, and declared "this country is a unified organization in its policy toward the rest of the world."

In his first post-election news conference—his first in fact since Sept. 25—Truman laid emphasis on unity and on the effort to make the shift of power to President-elect Eisenhower as smooth as possible.

He began with this statement which he permitted reporters to quote directly:

"I want you to understand that the election is over and that we are trying to get things in shape to make an orderly turnover of the government to the successor, and that we want to let the world know that this country is a unified organization in its policy toward the rest of the world."

"I was very happy to see that Gen. Eisenhower has said what I would like to see him say. He is very wise in the way he has said it. That was one of the main things about which we talked in the meeting the other day when we were down here."

Eisenhower and Truman met at the White House on Tuesday and later announced jointly that they had arranged for an exchange of information they expressed belief this cooperation would be to the advantage of the country and promote a favorable progress of international affairs.

Yesterday, Eisenhower had a meeting in New York with Sen. Wiley of Wisconsin, who will be the majority leader in the new Republican-controlled Congress.

Wiley said Eisenhower "is completely dedicated to the principles of the U. N. and re-emphasized his agreement with the principle of no forcible repatriation of Communist prisoners."

After Truman's reference to this, a reporter said the wording of Wiley's statement had been taken to indicate the general agreement with the principle of the United Nations stand on prisoners of war and does not necessarily endorse the specific U. N. position.

Truman replied he was not going into semantics—that is, the meaning of words. He said he was going by the headlines, which reported without elaboration that Eisenhower backed the United Nations position.

Truman said he would meet again with Eisenhower before the general takes over the White House on Jan. 20.

Grand Jury Will Be Drawn Monday At Ten O'Clock

Three cases will be brought before the grand jury which is scheduled to be drawn from a panel Monday at 10:00 a. m. in Circuit Court, Judge H. L. Miller, assistant state's attorney, said today.

All three of the cases to come up for deliberation by the grand jury deal with murder.

Hamilton Miller, southwest of Sanford, is accused of slaying Washington Johnson, West Thirteenth Street, with a knife June 7, Cleveland Neal, alias Cleveland O'Neal, Matland, is charged with murdering Curtis Lee Chatham, Winter Park, with a knife on Rept. 6, Robert Killians, 29, 1014 West Tenth Street, charged with killing Lizzie Reddick, 32, with a knife May 31. According to a police record, Killians and the deceased were common-law man and wife when the alleged murder occurred.

The first two alleged murders are county cases while the third is a city case. Murder and rape offenses only are brought before the grand jury.

Members of the jury will be chosen by lot in the court of Judge M. H. Smith, and then will need to qualify for jury duty. The panel from which the jury will be drawn contains the following names:

Otto H. Anderson, Walker M. Haynes Sr., Ernest M. Ward, James L. Fields, Henry M. Johnson, Charles E. Beard, Luther J. Prater, John B. Hodges, Robert O. Morris, William H. Pope, James Maynard Leonard, James P. Benton, H. F. Ganna, John D. Callahan, Robert L. Brown, John Oliver, Russel K. Schardin, William B. Brumley Jr.

John F. Warren, Cyril L. Butler, John A. Spalding, John O. Anderson, Robert B. Bodenbaugh, Jack H. Owen, Robert W. Dams, William J. Leffler, Charles T. Eason, Bernard D. Laha, David K. McNah, Charles H. Dika, George W. Adams, Marion L. Babson, Carl Brantley, John E. Gibbs, Bill B. Glenn and Harold B. L. Bess.

Seminole County TB Rate Is Very High, JC's Told

Tuberculosis Panel Urges Support Of Xmas Seal Effort

Seminole County has one of the highest tuberculosis rates in the state, it was revealed today in a panel discussion on the T. B. Christmas seal drive before the Junior Chamber of Commerce at the Yacht Club.

Officers of the Seminole County Tuberculosis Association, Mrs. Clara Jobe, executive secretary; Mrs. J. Denver Correll, president; and Homer L. Osborne, chairman of the 1952 Christmas seal drive, participated in the panel along with Jaycee members, Douglas Strickland, president, John Underwood, and moderator Rep.-elect Mack Cleveland, Jr.

Mr. Osborne attributed the high TB rate in this county to two factors: 1) large Negro population; 2) inability to contact and isolate persons with active TB germs.

"While it is true that most of the cases in the state are among the colored race, Mrs. Jobe stated, 'This past year there were more white patients hospitalized in the county than colored patients. In all, 10 white patients in Seminole County were admitted to the TB hospital out of the total 18 this year.'

Mr. Osborne pointed out that it is costing the taxpayer \$100 to \$150 for each patient or \$21,000 a year.

"The purpose of Christmas seals and our current drive is not to provide money for the care, but rather the more important phases of health education, case finding and rehabilitation," Mrs. Jobe explained.

"The most important of these phases is case finding through the mobile X-ray machines that visit each locality in the state each year. Mr. Osborne brought out:

"Since the Christmas seal campaign began 50 years ago, it has saved the lives of 45 million people. There is no reason why we can't wipe out TB altogether. Take cattle as an example. TB doesn't resist examination. It is not contagious and as a result TB has been cut to only one-half of one percent among cattle in the state," he stated.

"Most people have the TB germs in their system or come in contact with them, Mrs. Correll said. 'The greatest cause of TB is contact, a rundown condition and malnutrition.'

Mrs. Jobe added that crowded conditions are a contributory factor, but she said that, who keeps healthy and his resistance up will not develop TB.

"Eighty-one percent of all money collected to pay for local TB work," Mr. Osborne added. 'The rest is divided up among the state and national organizations, with the most of the 10 percent staying in Florida.'

He then gave the locations of the four tuberculosis hospitals in the state and the number of beds in each. They are in Orlando, Tallahassee and Lakeland. In all there are 1,600 beds, only nine more than the number of patients now being treated in Florida.

Mrs. Jobe cited a Negro woman in Oviedo who had a bad case of TB this year. 'When I loved her I had her treated in Florida. She died. I found that the world is a horrible place.'

Judge Blanton announced that there would be no Jaycee meetings next Thursday because of Thanksgiving.

Charleston Coastal Areas Feel Tremors

CHARLESTON, S. C. (AP)—Residents of this coastal area yesterday reported earth tremors which rattled windows, made hanging pictures sway on the walls and caused houses to rattle.

The source of the tremors, accompanied by low rumblings, was not disclosed.

In 1885 Charleston was struck by one of history's major earthquakes which did damage estimated between five and six million dollars.

The series of tremors reported Wednesday occurred during the early afternoon. Reports came from the Isle of Palms, Sullivan's Island, and Myrtle Beach, lower reaches of the Charleston peninsula. Folly Beach and surrounding areas.

John F. Warren, Cyril L. Butler, John A. Spalding, John O. Anderson, Robert B. Bodenbaugh, Jack H. Owen, Robert W. Dams, William J. Leffler, Charles T. Eason, Bernard D. Laha, David K. McNah, Charles H. Dika, George W. Adams, Marion L. Babson, Carl Brantley, John E. Gibbs, Bill B. Glenn and Harold B. L. Bess.

William Henry Died At Home Of Sister

William Henry, 72, died early today at the home of his brother-in-law and sister, Mr. and Mrs. George E. Ewan at 1205 Elm Avenue following a long illness.

Born June 18, 1880 in Greenville, Ind., Mr. Henry had made his home with Mr. and Mrs. Ewan for the past 18 years. He was a member of the First Christian Church of Sanford.

Besides Mrs. Ewan another daughter, Mrs. Lorretta Ewing of Louisville, Ky.; also three nieces, Misses Ruby and Edith Colver of Louisville and Mrs. E. W. Riser of New Albany, Ind.; two nephews, Robert Sivert of New Albany and Claude Colver of Louisville.

Funeral arrangements will be announced later.

News Of Ike's Trip Will Be Blacked Out

Defense Department Issues Statement On Regulations Regarding Any News

WASHINGTON (AP)—The Defense Department announced today there will be an official news blackout during Gen. Dwight D. Eisenhower's visit to Korea.

For security reasons, it said, there will be no authorization for publication of news while he is in Korea and no schedule will be publicly announced.

Secretary of Defense Lovett said the arrangements have the approval of the President-elect.

"The President-designate of the United States promised the American people that he would go to Korea. He is going to Korea some time in the future."

"The security of the President-designate is of paramount importance to the people of the nation as well as to the peoples of the free world. In order to assure him all possible protection during his coming trip to the war zone, it is necessary to observe the following precautions:

"1. There will be no published schedule of the trip at any time, including departure date, arrival in Korea or departure from that country.

"2. No news reports of the President-designate's activities will be cleared through the Korean theatre of operation until after the President-designate's departure from Korea. News coverage will be arranged by theatre commanders, probably on a pool basis.

"I sincerely trust that the American people and the American press, radio, television and newsreels will realize the necessity for such precautionary measures, and that they will cooperate with the Department of Defense in carrying them out."

Noopy The Snitz Is Good As Gold At Mathematics

By RALPH J. THOMPSON

Noopy Fowler isn't positively a marvel of the dog world, then you, the reader must render the final verdict. You see, Noopy is a five year old obedient Snitz belonging to Mr. and Mrs. Alfred Fowler who live in their new home at Little Washington Shores, near Altamonte Crossways. Noopy is a real dog, a real step confidently upon the roof of the Fowler house. Then, as miraculously as though going for a Sunday walk, she came to earth again.

Not satisfied with that feat, Noopy floors all the neighbors with astonishment by her achievements of a more intellectual nature. Would you like to know how many feet in a yard, for instance? She will tell you with three... Noopy is a real dog, a real step confidently upon the roof of the Fowler house. Then, as miraculously as though going for a Sunday walk, she came to earth again.

Not satisfied with that feat, Noopy floors all the neighbors with astonishment by her achievements of a more intellectual nature. Would you like to know how many feet in a yard, for instance? She will tell you with three... Noopy is a real dog, a real step confidently upon the roof of the Fowler house. Then, as miraculously as though going for a Sunday walk, she came to earth again.

Mosquito County, Which Included Seminole, Was Created Dec. 29, 1824

EDITOR'S NOTE: This is the second of a series of articles by Mrs. J. M. Whitner on the history of Sanford. In this article Mrs. Whitner describes the creation of Mosquito county which once embraced most of Central Florida and of which Seminole County was a part.

By MRS. J. M. WHITNER

Indian frontiers had existed in Northern Florida since its earliest occupation by white men. In 1760 the Creek tribe of Indians in Alabama divided and many of them migrated to Florida under Chief Secoffee and were located on a reservation in the western part of the peninsula, which they called Alachua. These, uniting with the original tribes, absorbed run-away negro slaves from Georgia, became the Horse Seminoles, and before the century had closed, had overrun the peninsula.

After the British evacuation in 1763, when the Florida were exchanged with Spain for the Bahamas, we learn from Green's history that, "the narrow policy of Spain compelled the English settlers to migrate." Decay and ruin rapidly overtook the beautiful estates scattered along the coast and upon the banks of the St. Johns. The Indians became more aggressive and adventurous spirits who dared remain in the peninsula of Florida through this period, all but at the peril of their lives, and that was only possible along the coast where they could flee to the ocean in case of attack. By 1808 all white settlements in the interior of the peninsula were destroyed or abandoned.

In 1821 Florida was finally transferred by Spain to the United States. General Andrew Jackson acted as provisional governor until the present bounds of government should be arranged. During this time the names of East and West Florida, which Britain had established, (and Spain retained during her recent reign) were changed and were called St. Johns and Escambia Counties, the Suwannee River the dividing line, instead of the Anhalachua. St. Johns County included all the territory within the present bounds of the State east of the Suwannee; Escambia the west between that river and the Perdido.

This same year, 1821, a man named Marver, who through many years had retained the friendship of the Indians, established a trading post which developed into the city of Palatka. During the next few years new counties were (continued on Page Five)

Eisenhower Selects Dulles As His Secretary Of State, Wilson Defense Head, And McKay For Interior Post

Heavy Barrage Of Rockets Hits Reds' Positions

Large Air Strike On Narrow Sector Preceded Bombardment

By The Associated Press

SEOUL (AP)—Allied forces pounded Chinese positions late today with the heaviest rocket barrage and warplane strike in the 37-day-old battle for the vital Kumliu ridges on the central Korean front.

In the air U. S. Sabre jets destroyed five Communist MIG-15s. The Fifth Air Force announced it brought to 502 the list of jet fighters destroyed since the war began—exclusive of those downed by Navy fighters.

AP correspondent John Randolph reported from the central front that a total of 370 rockets were launched within a few seconds at Communist lines in the north of Allied-held Sniper Ridge.

The dusk rocket barrage came after an intensive fighter bomber strike against Chinese positions along a narrow, two-mile sector.

Handolph's dispatch on the night of launching was timed at 9 p. m. (7 a. m., EST). An hour later he filed a report that two Chinese infantry companies attacked South Koreans dug in on Sniper Ridge. His censored dispatch indicated the attack was continuing.

"Whether tonight's action was just another probe or a heavy blow remains to be seen," he reported.

The Air Force reported that Capt. Paul E. Jones of Arlington, Va., bagged one of the five MIGs. The Sabre pilots said they damaged two other Communist jets.

June 31, flying with the 51st Fighter Wing, the five MIGs flew along the 49th and 50th MIGs. The Air Force made a special announcement of the 50th as the U. S. Air Forces boss, Gen. Hoyt S. Vandenberg, was touring the battlefield.

The Sabres were shedding their rocket fighters' bombs which (continued on Page Five)

National Jaycee President Visits Here

Horace H. Henderson (right foreground in dark suit), Williamsburg, Va. president of the national Jaycee Chamber of Commerce, shakes hands with County Judge Douglas Strickland, president of the local Jaycees, at the steps of the Court House. Others in the picture, all local residents, are (left to right) Sheriff P. A. Mero, Rep. Mack Cleveland, Garland W. Spencer, president of the senior Chamber, Carl P. J. Jacee, vice president, Dr. Branley Henderson, father of the national president, and second row, left to right) Gordon Swanson, Jaycee director, William C. Hochstetler, Jaycee City Commissioner John L. Kuder, past president, and last row, left to right) Cliff M. Able, vice president, City Manager Tom Lemon, Mayor William Stepper and Police Chief Roy Williams. The national president remained, "It's like old home week," and related he was with his father on the McShara Road in 1916 when he was working in Ireland. He was presented an honorary lifetime membership in the local Jaycee by County Judge Strickland in a ceremony which was held before a Jaycee luncheon, attended by representatives of Jaycee organizations throughout Central Florida.

Prospect Of \$3 Fruit Fails To Move Growers

Group Delays Approval Of Price Support For Further Study

LAKELAND (AP)—Much colder weather for Northern Florida today morning was forecast today by the Federal State Frost Warning Service.

The morning bulletin for Peninsular Florida for tonight and Friday morning—clearing and much colder northern districts with lowest temperature 20 to 40 degrees north portion of Gainesville District. Clearing and much colder Central and West Coast Districts, showers followed by steady clearing and much cooler weather. Indian River, Everglades and Lower East Coast Districts.

Forecast for Friday—Fair, continued cloudy in northern and southern coastal South and Central Districts.

Future temperature outlook—Continued cold Friday night with temperatures near the upper portion of the forecast for Saturday morning. Colder but no frost danger south and central Districts Saturday morning.

City To Discuss Right Of Way For Sun Oil Property

Further discussion of the problem which has arisen over securing a right of way parcel at the Sun Oil Company site for the widening of French Avenue is expected to come up at the City Commission meeting Monday night, Tom Lemon, City Manager, said today.

Other matters include a request from the local Disabled American Veterans Post No. 30 for a site for constructing a chapter home on City property on East Second Street, behind Cadillac's garage. Also bids will be opened on bids for a store for the Tourist Building, a request will be made for Christmas lights on Sanford Avenue and a hearing will be held with the local American Legion post's fair committee.

Plans for the French Avenue project call for shortening of a strip of Sun Oil property, 25 by 116 feet, in constructing a six-lane thoroughfare from Seminole Boulevard to Park Avenue.

A figure of \$45,781 was set up by the County City appointed appraisal board as payment to the company for the land and for necessary rearranging of plant facilities. A sum of \$45,781 was designated for payment for the strip of property.

However, representatives of the company pointed out that the project would knock out one of two stalls at their loading platform. Under the law, property disturbed in the acquisition of rights-of-way must be returned to its original condition, or, in other words, must be considered from the highest and best use to which the land can be put.

Sitting on the work, which would be involved in moving plant facilities to regain the lost loading stall for trucks would be considerably more than the offered price, company representatives declared for a piece of City-owned property, measuring 16 by 35 feet, adjoining company property. This property could be used in replacing the lost stall at a much lower price than would be involved.

New Speed Mark Is Established By Jet At 699.9 MPH

World Record Made By Fighter Plane In Unofficial Effort

THERMAL City, Va. (AP)—A jet plane piloted by Capt. J. Slade Nash of Edwards Air Force Base has established a new unofficial world speed record 699.9 miles per hour.

Capt. Nash, whose home is in Mobile, Ala., made four level passes yesterday over a measured three-kilometer course at the edge of the Salton Sea, 235 feet below sea level. His performance was made under rules of the Fédération Aéronautique Internationale and the National Aviation Association, which must verify it before it becomes official.

In shattering the record for open aircraft in the North American air race, Capt. Nash's jet plane set a new world record of 699.9 miles per hour.

Most hunting lodges in the area reported that hunters and their families prepared for the opening (to be in going to camps and lodges in the woods for big-sport dinners last night).

Duck hunting actually began last Monday at noon. Shooting hours for migratory waterfowl—duck, geese and coot are from one-half hour before sunrise until one hour before sunset. For all other game mentioned above, the shooting hours are from one-half hour before sunrise until sunset.

New Department Head Has Had Outstanding Career In Diplomatic Field

NEW YORK (AP)—President-elect Dwight D. Eisenhower today made three top Cabinet appointments—John Foster Dulles as secretary of state, Charles F. Wilson of Detroit as secretary of defense, and Gov. Douglas McKay of Oregon as secretary of the interior.

They were the first announced appointments of the new Republican administration which will take office Jan. 20.

Dulles, long the Republican voice in the State Department and architect of the Japanese peace treaty, wrote the Republican foreign policy plank in the 1952 platform. During the Chicago convention he was selected acceptable as secretary of state by both Eisenhower and his chief contestant for the nomination—Sen. Robert A. Taft of Ohio.

Wilson, president of General Motors, was mentioned by Eisenhower last September in suggesting the need of "business brains in a billion dollar business" as a reference to the operation of the federal government.

McKay, 59, began his career as a new-shay later he was an office boy for the Union Pacific Railroad and then an auto sales manager.

He began his political career when he was elected mayor of Salem, Ore., in 1933. After that, he served as a state senator and became governor in 1943. He is a veteran of both world wars.

Concerning the need of business brains in government, said he proposed to cut military expenses without cutting military strength.

In that speech referring to Wilson Eisenhower declared:

"Until we get business brains in a billion dollar business—and I mean business brains that will be respected by Congress—we are not going to save the money that we can save without losing one gun, one soldier, one sailor."

The 61-year old Wilson has headed the vast automobile manufacturing concern since 1941.

A native of America, Wilson was educated at the Carnegie Institute of Technology, and worked as an electrical engineer for the Westinghouse Manufacturing Company from 1919 until 1929. He later was successively chief engineer, manager and president of the DeLoe Realty Co., before joining General Motors as vice president in 1929.

He is married and has three sons and three daughters.

The cabinet appointments were announced by press secretary James C. Hagerty while Eisenhower was luncheon with British Foreign Secretary Anthony Eden. Earlier in the day he conferred with Dulles for two hours. When he emerged from the conference Dulles (continued on Page Five)

State C O F C Meet Termed Successful By Breckenridge

Prospects look good for cooperation from the State Chamber of Commerce for various projects throughout Central Florida. For example, Breckenridge, manager of the Seminole County C. O. F. C. stated today, as he commented upon the election of Earl Brown, DeLand, as the state president.

Mr. Breckenridge returned yesterday from the annual meeting of the state group at Jacksonville. "We have a man almost in our own back yard," he said, pointing out that Mr. Brown also is the president of the St. John's-Indian River canal development.

The new head of the State C. O. F. C. is a resident of the Earl Brown Exhibit Builders, Inc., and the Hill-andale growers and packers concern.

Alex Smith, Sanford inventor of the Shopp's Turtle Bait mover, accepted the state C. O. F. C. invitation, given through the local organization, to attend the "Salute to Industry" luncheon Tuesday at the meeting. Governor-elect Dan Mcarty was the principal speaker at the luncheon. Several local industries were extended invitations. Mr. Breckenridge said, but only Mr. Smith attended from here.

Mr. Breckenridge was accompanied to Jacksonville by Henry Simpson.

Successful And Unhappy

Senator David I. Walsh of Massachusetts received public honor after public honor until he must have assumed that they would continue for the rest of his days. Then after a quarter of a century in the Senate he was beaten over the head by a group of young men who were known as the "Young Turks" and who were known as the "Young Turks" and who were known as the "Young Turks".

Faulty Prophets

The United States cannot boast of its political prophets, as 1948 showed. While no swallow does not make a summer, two swallows do. The 1942 election proved that none of our political observers could see a landslide ahead, or if they could, they were too cautious to say so.

First And Always

Every year there are many needless deaths as the result of hunting accidents. The accidents are not the same, but the results are always tragic and the cause is usually the same — someone was careless.

Helicopters Called Solution In Future

ST. PETERSBURG (AP)—Wich Pogue, former chairman of the Civil Aeronautics Board, predicted the future will be small helicopters. Pogue made his forecast in an address prepared for delivery at a convention of the National Association of State Aeronautics.

Apparently there will be some changes made in a favorite American pastime—wolf calling and ogling—come this winter and next summer, if swim suit designers like Nanina have their way.

HOLLYWOOD

By BOB THOMAS

HOLLYWOOD — "The actor's life is a crap game. It's all a matter of chance whether you make a mint or end up broke." This realistic statement comes from the distinguished character actor, Leon Ames.

Ames is the envy of his fellow actors. He has protected himself against a highly unstable profession by a series of wise investments. The most notable of these is an auto dealership in Studio City, in the San Fernando Valley a few miles from Hollywood.

"My brother-in-law, Wayne Gossett, is the brains of the organization," the actor remarked modestly. "He handles most of the business details. But I help out when ever I can. I attend budget meetings and so forth. I also sell a lot of cars to friends."

When Ames first started the auto agency five years ago, he was the most popular man on the MGM lot. That was at a time when new cars were scarce, and many of his fellow workers badgered him for a sale. He reports selling 102 cars to MGM employes.

How did he land the agency? "Seven years at MGM," he explained. "I admit it: I never could have gotten into business unless I had been earning that nice salary for seven years. I'm grateful to the studio for that, but I wasn't sorry when they didn't want to sign me again. I don't want any more long-term studio contracts."

Aside from his present dealership, Ames is angling another and is involved in a cash balance factory and other enterprises. So far, he hasn't been forced to rely on these interests as his sole income. "I figured out the other day that I have had only five weeks vacation in the past 12 years," he lamented. "I've been working almost continuously since I opened out here in the play, 'The Male Animal,' in 1940."

Ames went on to the lengthy New York run of the show and then signed up for his service at MGM. After leaving the studio, he freelanced successfully and then decided to take a floor at the stage.

He signed up to star in the Chicago company of "The Moon Is Blue," expecting to last a few months. "The show played 56 weeks in the Windy City, grossing \$1,100,000 during the run. Even though he had a percentage of the profits, Ames was just as glad to see the play close."

He has returned to Hollywood and continues working at his steady pace. His current flicker is "Love Songs" with Jane Wyman and Ray Milland.

Surveying his financial independence, he reflects: "I'm glad I didn't make the big money when I was a kid. I probably would have thrown it away because I didn't have enough sense. But maturity has made me realize the value of this crap game—the life of an actor."

"For five years, I was a member of the board of the Motion Picture Relief Fund in New York and other famous names on the roll. That made me stop and think."

George Murphy discusses clues with F.B.I. agents in this scene from Columbia's "Walk East on Beacon", showing on the Ritz Theater screen today and Friday.

Convention Plans Of Growers Elaborate

TAMPA, (FNS) — Plans for the convention of the Vegetable Growers Association of America being held in Tampa Dec. 2-6 outstrip anything previously done by the organization headed by Walter F. Pretzer, Cleveland grower.

The Hillsboro Hotel, headquarters for the 44th annual V.G.A. convention, has been booked solid for months and rooms have been reserved in other hotels to accommodate the more than 2500 growers who will be on hand.

Keynote speaker will be the Honorable James K. Knudson, Defense Transportation Administrator, who will discuss "Food Transport and Survival."

All the major segments of vegetable production and marketing will discuss problems, procedures and future plans for vegetable production and marketing.

A special panel aimed at improving National Vegetable Week

will include, among others, Dr. Rogers B. Corbett, Agricultural Counselor, National Association of Food Chains.

The big show will center around the American Vegetable Queen, Miss Janet Wilkens of Homer, New York, and the nine members of her court who were the 1952 state queens. The Tampa convention bureau and the Chamber of Commerce are going all out to give the Queens a busy and exciting week. Included will be a luncheon at the famous Columbia Restaurant in New York City as well as the Rotary Club, a tea, a yacht party, and tours.

Mustache Raisers Given The Works By Columnist Boyle

By HAL BOYLE
NEW YORK.—Many women have married a man because of his mustache. But did any woman ever marry a fellow solely because of his mustache? Did she ever, crumpling shyly, "I'm only bosom, mister, but—"

What is the actual social impact of the mustache? The question arises because it appears that this form of male facial landscaping is getting more popular. It seems to me I see more and more mustaches around. I would like to believe this is only because there are more people in the world, as I like to look at the bright side of things.

1. They have an inferiority complex.
2. To pay an election bet.
3. Curiosity.
The first of these reasons is the most widespread. And the average mustache carrier will admit it, if pressed.

It is his hairy brow of excess in the battle every man fights with himself, his flag against the world. Behind every mustache carrier a mouse that has been tormented by this symbol in a lion.

Ever watch a man with a mustache? Notice how he toys with it, reaching up now and then to comb it properly. Then he looks at you and does a curtsy and a bow. He comes a snob about it. Often he will take more trouble in disciplining his mustache than he does in disciplining his hair. He would not let a cup of coffee, but to him it is a patch of real estate more valuable than all the forests of Canada.

In his case children don't make the man, but his mustache does. That is, he believes in what waves up with his mustache. He is up with them must be vague, by the way, but it makes my man feel taller. I'll go along.

How do you cure an inferiority complex arising from the discovery you can't grow a really, piddling, worthless, unimpressive, out-of-date, impractical thing like a mustache that nobody really wants anyway?

Railroaders Have Worries Trying To Find Enough Cars

By E. J. APPELBY
For San Francisco
NEW YORK.—The railroaders are worried. They are worried because they are not getting enough cars to haul the coal that is needed for the winter. The coal is needed for the power plants and for the homes. The railroaders are worried because they are not getting enough cars to haul the coal that is needed for the winter. The coal is needed for the power plants and for the homes.

William Green Dies Of Heart Attack At 81

President Of American Federation Of Labor Had Lengthy Career As Unionist

WASHINGTON, Nov. 20.—William Green, president of the AFL, died of a heart attack today at his home in Coshocton, O. The AFL announced Green was 81.

It was the second death of a major labor leader within a month. Philip Murray, head of the rival CIO, collapsed and died at San Francisco Nov. 17.

Green was born in Coshocton March 3, 1871, the son of a coal miner. He was working in the Ohio mines before he was out of grade school and was a full-fledged miner by the time he was 18.

Green first turned to politics and served a term in the Ohio Senate. Then he went into union activity, pioneering in the field of national organization.

At 33, he had become president of the Ohio district mine workers union.

He advanced to secretary-treasurer of the American Federation of Labor in 1912, and became president of the union when Samuel Gompers died in 1924.

The AFL chairman had been in failing health for years, and his widow, Jennie, 82, has had ill health for five years. They had five daughters and one son.

Thanksgiving For Sailors Is Project Of USO Committee

The local United Service Organization is asking local residents to extend the hospitality of their homes on Thanksgiving Day to personnel of the Sanford Naval Air Station, according to an announcement by Jack Hatigan, head of the group.

Citizens Group Tells Choice For Hospital Board

The Citizens Hospital Committee, which successfully sponsored the passage of the County Hospital bond issue at the polls on Nov. 19, today announced the names of five prominent men in Seminole County it has recommended for the five-man board of hospital trustees to be appointed by Governor Fuller Warren.

Blood Drive Nets Armed Forces 19 Pints At Clinic

The Armed Forces mobile blood bank received 19 bottles of blood at the Episcopal Parish House yesterday. It was reported today by Mrs. Vernon Gonzalez, executive secretary of the Seminole County Chapter of the American Red Cross.

Fourkre Attends Road Group Meet

Eric F. Fourkre, county commissioner from Longwood, yesterday attended a session of the State Road Department board at Tallahassee in an attempt to have the Longwood-Sanford-Springs road graded in December. Senator Lloyd P. Boyle, county attorney, said today.

Rotary Meeting

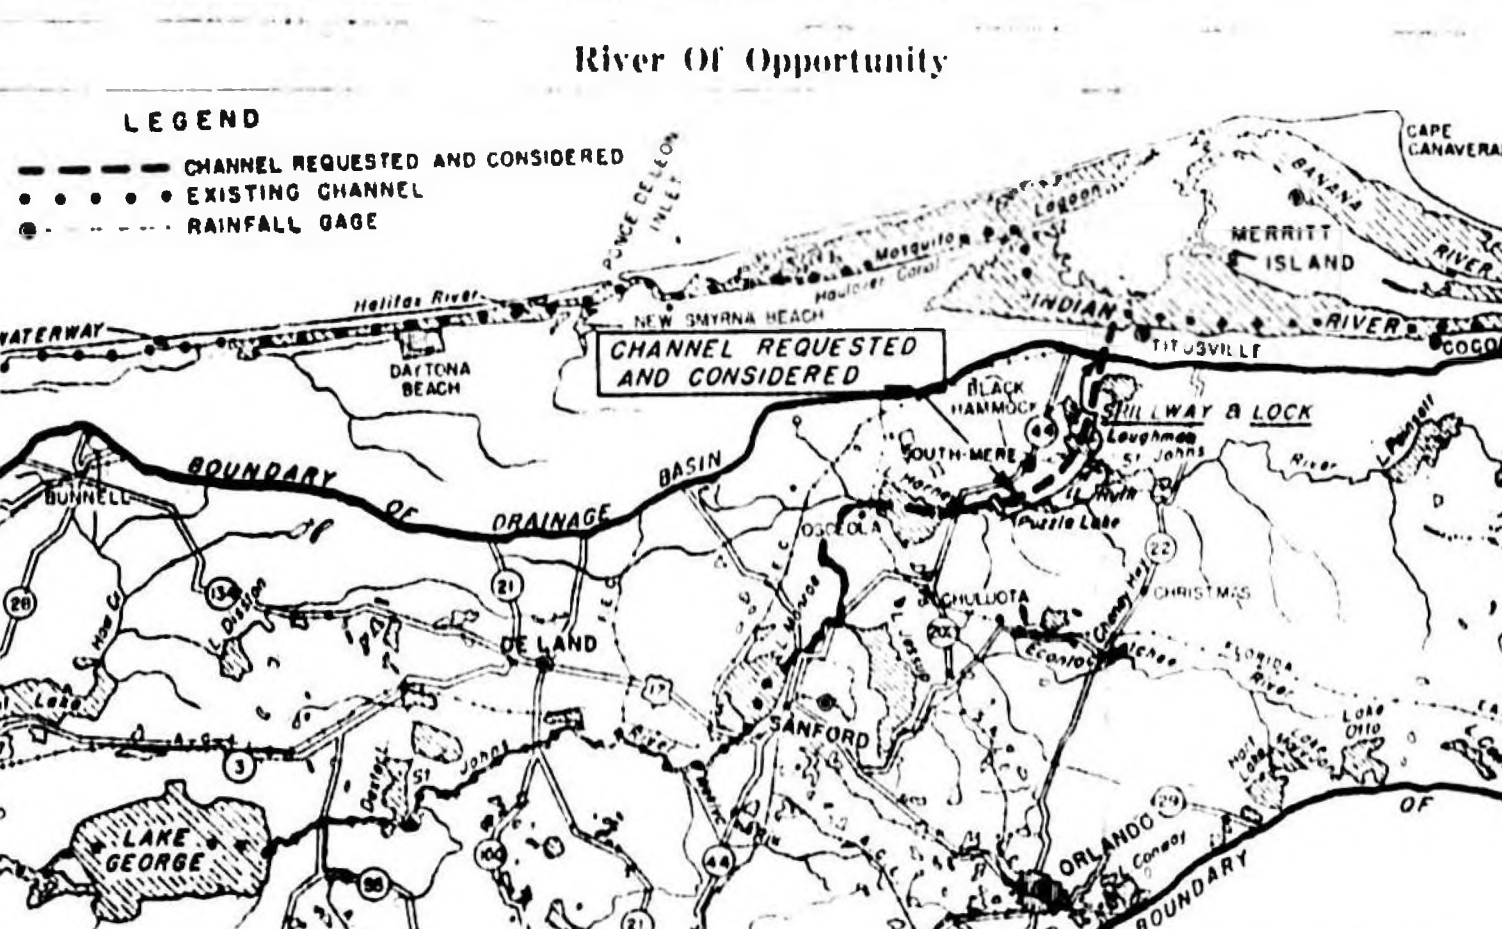

The Rotary luncheon Monday will be featured by a talk on the growth of telephone service with the growth of Sanford by John P. Evans, District Manager of the Southern Bell Telephone and Telegraph Company, with headquarters in Orlando. Also on the program will be a demonstration of a Micro-wave Unit used in the relay of telephone calls and television programs in radio relay units by Phillip Dellerard of Jacksonville, Information Supervisor for Southern Bell.

Laborer In Drowned

MIAMI.—Charles B. Hines, 22, Negro laborer, drowned Thursday when a truck overturned in a canal, trapping him in three feet of water.

WE WILL BE GLAD TO ENTERTAIN A PAIR OF SERVICE MEN FOR THANKSGIVING DINNER

TIME WE WILL SERVE DINNER _____
TIME WE WISH SERVICE MEN TO ARRIVE _____
MAIL THIS CARD TO MRS. J. L. COMLEY, RT. 1, BOX 966, SANFORD, BY MONDAY A. M.

Map shows proposed route of the St. Johns-Indian River canal from Sanford to the Indian River south of Titusville. Sanford is in the center. To the north, the canal would turn south along the St. Johns River. To the south, it would turn east along the Indian River. The canal would be 11 feet deep and 100 feet wide. The proposed canal would be 11 miles long.

Citizens Group Tells Choice For Hospital Board

The Citizens Hospital Committee, which successfully sponsored the passage of the County Hospital bond issue at the polls on Nov. 19, today announced the names of five prominent men in Seminole County it has recommended for the five-man board of hospital trustees to be appointed by Governor Fuller Warren.

Progress Of St. Johns-Indian River Canal Project Is Related

The Corps of Engineers has directed its studies of the canal project along the lines of a multi-purpose waterway serving the needs of navigation, recreational boating, flood control and water stabilization. Complexity of the problem has been largely responsible for the tortuous delays in the studies.

WHAT WILL THE CANAL DO?

The Corps of Engineers has directed its studies of the canal project along the lines of a multi-purpose waterway serving the needs of navigation, recreational boating, flood control and water stabilization. Complexity of the problem has been largely responsible for the tortuous delays in the studies.

Navigation A Few Years Prior To World War II, The Jacksonville District engineer estimated savings in cost of moving freight between Sanford and the Indian River via the proposed canal at \$25,000 annually. This was at a time when Central Florida was largely an agricultural land. Industries have since begun to move into the territory. Rail transportation costs have virtually doubled during the intervening years and the savings to be effected by water transportation have increased proportionately. It can be assumed that still greater use will be made of water transportation in the future.

Recreational Boating: Prior to World War II, the district engineer estimated the value of the
