BUSINESS IS RELYING ON NEWSPAPER ADVERTISING TO KEEP SALES CLIMBING

In 1955's first half, newspaper advertising has made its biggest contribution on record to the continued growth of American business.

In the first six months, business invested more dollars in newspaper advertising than in any half-year in history.

Manufacturers' advertising set a new

record. So did retailers' advertising-including the department stores, chain stores and all the rest.

So did classified advertising-mainstay of real estate, used cars and many another business.

Manufacturers and retailers alike are profiting from the salespower of newspapers—the salespower that stems from the fact that newspapers are the shopping medium - where consumers look eagerly for advertising - and from the fact that nowhere else can manufacturers' ads and retailers' ada work together so effectively to increase the productivity of both.

Let's Keep Shoppers Facilities **Parking** Offering

The Sanford City Commission has been presented a minor moving operation on several occasions, but due to the possible expense, postponed the event.

With another year's budget under consideration, there seems to be a way to take care of a necessary move to provide parking space for hundreds of automobiles coming to Sanford daily bringing thousands of anoppers to local merchants.

The softball diamond has been located. for a long time, on a very important piece of property that is logically the ideal place for a public parking lot.

The diamond can be moved without too much cost, to Ft. Mellon Park. And with the moving of the softball diamond, tennis courts can be lighted to provide another area. for recreation that has been needed for so

With the new, larger, and centrally located parking lot, parallel parking can be installed throughout the city for the faster movement of traffic, and for safer driving for our motorists.

Shoppers, with the new parking facilities, can stay longer in Sanford stores, without fear of traffic tickets. They will think twice, too, of the excellent and convenient freedom from parking worries, before going to other centers to shop.

Nickel parking is wonderful for the control of the misuse of main street space, We have reached the point of saturation though, and need additional space for more cars.

Let's awap a few parking spaces on First Street for hundreds in a modern park-

TODAY'S SIELE VERSE

We came unto the land whither thou sentest us, and surely it flowed with milk and honey-Num. 18:27.-But the weelth of Canaan was nothing compared with the herire of the democracies. Inere the problem in how to dispose of the bewildering surplus of hutter and cotton and grain. God has indeed led us into lands of great prosperity. Hunger is endemic in atheletic lands.

Atlantic Coast Line Leads

It hesn't been too long ago that the Atlantic Coast Line made a dramatic announcement in its overall improvement program with the opening of its new air conditioned building at Sanford. Guests from all over the south witnessed the formal ceremonies putting the "first-in-the-south" facilities into pperation.

Progress hasn't stopped. Today, with a mere few months behind it in a Sanford building program, the Atlantic Coast Line has modernized its communications facilities with radios from its Rands Yard office to the General Yardmaster's automobile and to a x diesel engines working in and around Sanford. A direct telephone system enables offices to communicate with one another at momentuous speed. Automatic signals have been installed between Sanford and Tampa making accidents "next to impossible"." Rands Yard has been rebuilt and enlarged to more efficiently serve Sanford and all areas south of it. The icing of refrigerator cars has been speeded up with only seconds involved in the handling of one car. A large sign advertising the availability of induscrial property has been erected on its French Avenue property, the site of the former Atlantic Coast Line Shops. Another sign is being prepared for another location. And now, again the Atlantic Coast Line battle. Hundreds more were dying spondent on the scene.

And now, again the Atlantic Coast Line by the day, Gettysburg — a peace is leading the way in the transportation ful bustling town today — was a field. A few months ago an announcement charnel house in 1863. was made of the operation of a brand new freight train southbound from Richmond, was started. And a consecration Va. to Jecksonville. Now, this service has teremony was decided upon. That been extended south through Sanford to erett was the silver-tongued choice the church exercises. His Tampa. Trying to see California in ten

Friends drove us from San private. Francisco to Los Angeles and back, traveling the coastal route south through such inviting and colorful communities as Palo Aling their everyday jobs, was shot in a major exchange of the Pacific of the way, we marveled at the Telephone Co. ted a thhrilling view of the blue Pacific with the white surf dashing against rocky crags that made up the scenic shoreline. Our understanding hosts were

kind enough to pamper us by stopping whenever we wished for picture taking or just looking. When we reached the valley, fruit stands offering such tasty luscious meions were a constant temptation, and during our trip we were never without a good assortment to munch on. Los Angeles, like San Francis co, has developed into a vast in-

yourself" crase finally has hit moviemaking.

The reason is Andrew and Virginia Stone, a husband and wife team who have made a real suspense thriller for \$71,000. By Holly.

San Francisco with its Gold-dustrial area, so gigantic in scope that it takes your breath away. Communities that I knew as independent municipalities as a boy with the part of the Mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy with the part of the mark will never be a boy.

les area. From the standpoint of handling a difficult traffic problem. Leaving Oregon, we rode the Southern Pacific's famed "Shasta Daylight" arriving late in the evening to watch the glow of a denced here. With millions of that stretched as far as the eye ment of traffic at speeds from 35 to 50 miles an hour with safety.

Another outstanding thing I noted was the protection afforded cross without question. Next week I'll tell you of our visit to fabulous Farm, two attractions that are 'musts' in every tourist's book.

Although private colleges and unlversities in the United States outnumber public institutions 1,000 to 350, the public institutions have slightly more students than the

'The Hurricaners' Through Jax Area

A special allianation Navy re cruit company, to be called "The Hurricaners," is being formed in the state of Florida through the Jacksonville Recruiting District, This will be the fourth all-Florida company to be recruited in re-

cent months. This company will be composed of some (70) men from Florida wood section, Blue clutch hand and Southern Georgia, and they hag, Containing drivers license will be enlisted primarily for disty in Naval Aviation. The Airsome Early Warning Squadron FOUR (VW-t), U. S. Naval Air. Station, Jacksonville, Fla., will sponsor this unit, VW-t is an ele-

Young men interested in aviation are urged to take advantage of this special enlistment program which will enable them to pursue a trade in many of the fields of modern aviation.

In the past, as in the future, men entering the U. S. Navy under similiar programs do not leave home in unfamiliar surroundings, but go through their basic training with neighbors and friends. Precent plans are that the special "Hurricaners" Company will be flown from Jacksonville, Fla., to Chicago, Ill., on August 31, Recruil training will be given at the U. S. Naval Training Cen-

ter, Great Lakes, Ill. Additional information about this program may be obtained from the U. S. Navy Recruiting Station, 211 Monroe St., Jacksonville.
