## NOVEMBER OPPORTUNITY DAYS

One more day—just one more day—and that is Tuesday—to take advantage of the offerings that prevail

Many people will attend this great month-end event today and Tuesday many more will attend. This event has become known as the "month end value giving event of Central Florida." It is rightfully named, for it gives you the opportunity to purchase many needed and wanted things at prices that are unusually low. The November Opportunity Days assume added importance for they come just one short month before Christmas. And thus they enable you to purchase many gifts at unusual prices.

All charge purchases made Tuesday will be placed on your December bill which is not payable until the first

accept the reasoning that "competition" was the stimunder Act of ulus that makes a business grow and prosper, but nobody gets anywhere in this day and time unless he advertises his wares persistently and intelligently.

So great has been the effect of advertising upon business there is abundant "explanations" of the way advertising does the big things that are credited to its power, but here are seven or eight reasons why advertising pays, compiled by The Urbana Democrat that are especially well put. The Ohio paper says:

Newspaper advertising is the life blood of local trade because it touches all consumer sources in every community. It gives the national advertiser the same opportunity for complete consumer appeal in any locality.

Newspaper advertising cuts selling costs because it entails no waste in locality of circulation. Manufacturers use it to cover markets where it is profitable to do business.

Newspaper advertising insures quick, thorough and economical dealer distribution and dealer goodwill, because retailers are willing to sell products advertised direct to their own consumers.

Newspaper advertising enables manufacturers to tell where their products may be bought.

Newspaper advertising can be started or stopped over night, can be prepared between days to meet certain developments and to obtain immediate re-

Newspaper advertising enables manufacturers to check advertising results and costs in every market which they enter,

Newspaper advertising costs less than any other kind.

The merchant or other Business man who is not taking advantage of the opportunities offered by newspaper advertising to boost his business now will still be facing re-adjustment problems when his competitor is back on a normal business plane.

Every successful business man could add other good reasons for advertising to that list. Unless a man in business uses some method of telling the world what he has to sell or what he can do in the way of service for his community, he will be a sorry failure. Advertising is the door
