representatives who expressed interest in the plan.

Meanwhile, a British-Foreign Office spokesman said that thus far Denmark, Norway, Belgium, Holland and Italy had asked Britain for further details on the Marshall plan through their diplomatic representatives in London.

Other authoritative informants said Foreign Secretary Bevin had called for a report from British occupation authorities as to how Germany should be fitted into any plan of continental reconstruction.

In Berlin the official newspaper of the Soviet military administration in Germany observed today that "the people of Europe look with great hopes" to the Marshall plan conference opening Friday in Paris.

"All European people now suffering the effect of the war would welcome with joy the aid that can be given them by America, a country which, as is known, did not suffer from the war but without doubt actually became richer through the war," said the newspaper, the Tagliche Rundschau.

"But the Marshall plan must be, as Secretary Marshall said, a fight against hunger and must not bear any political strings like 'dollar diplomacy.'"

A FOUR-ENGINE Pan American clipper flying from Karachi, India, to Istanbul, Turkey, en its way to New York, crashed in a remote region of Syria, killing 15 of the 36 persons aboard. The others were injured, four of them seriously. Among those who died in the crash were crew members Arthur O. Olson, Brooklyn, N. Y.; Howard Thompson, Astoria, N. Y.; Robert S. McCoy of Flushing, N. Y. One of the survivors was third officer Eugene W. Roddenberry of River Edge, N. J. (International)

Time Buying

(Continued from Page One)

Two of these would authorize continuation of the information program and the third would authorize employment of clerks and secretaries for federal judges.

The House eliminated funds for bought on credit. It also requires that installments be paid off in 15 months at most.

With controls removed, purchasers will be able to buy at whatever terms a dealer is willing to give.

With this Congress session scheduled to run only about five weeks more, leaders are beginning to whip together a stretch program. (They aim for adjournment about July 31).

One big measure put down for action is that to put the Army and Navy under a single cabinet officer. It is part of the answer the administration framed to one of the major questions confronting Congress when it met.

What can be done to strengthen national defenses?

President Truman asked also for a universal military training law, but G.O.P. leaders have passed the word there will be no decision on that at this session. It is getting study and the House Armed Services Committee decided today to go ahead with hearings.

Also in today's developments: Foreign Broadcasts.—The Senate Appropriations Committee recommended that the State Department be allowed to continue its foreign language radio broadcasts, known as "The Voice of America." It recommended however, an appropriation of \$11,500,000 to finance that and other information programs instead of the \$34,000,000 asked for operations in the 12 months beginning July 1.

Radio.—The Senate Commerce Committee, continuing hearings on legislation to rewrite radio broadcasting laws here at home, heard Rolf Kaltenborn recommend that radio stations be required to give a "fair presentation" of differing views on important public issues. He spoke as representative for a group organized under the name, "The Committee to Insure Non-

Airlines Claim Two New Speed Records

MIAMI, Fla., June 24. (AP)—Eastern Air Lines today claimed two new speed records for commercial flights between Newark and Miami.

One Lockheed Constellation arrived here last night 3 hours 27 minutes and 30 seconds after taking off from the Newark airport, 1,100 miles away, at an average speed of about 340 miles an hour.

Partisan Radio.—Before Congress adjourns, some House republicans want to bring up legislation to outlaw the poll tax.

NLRB Funds

(Continued from Page One)

the new federal mediation agency created by the Taft-Hartley Act.

In any event, the lawmakers will have some time to act on the question of funds to administer the new labor law. The

Wagner Act revisions, such as the ban on the closed shop, do not go into effect for 60 days. (The new mediation set up will start operating in 30 days).

But another major provision of the act is in effect now. This provision authorizes the government to obtain 80-day injunctions to block or stave off national emergency strikes.

However, Taft says he still is not certain that this section will list its purpose in the event of a coal strike next month when the government turns the soft coal pits back to private owners. The Ohioan says it is open to question whether the government could force the miners to remain at work for a new employer with whom they have no contract.

Meanwhile, there has been swift and bitter reaction from organized labor to enactment of the Taft-Hartley Act. There are actual mine shutdowns in effect and there have been irate calls for widespread protest strikes across the nation.

Union leaders have been stung by the ease with which the House and Senate overrode Mr. Truman's veto. And they have threatened reprisals at the polls against legislators who favored the labor law.

Other labor leaders have promised to work for the prompt repeal of the act and still others are going to try to get quick court tests of the constitutionality of the law.

Cries of anger and protest have come from many of the nation's top labor leaders. One of these has declared privately he sees about 10 years of litigation ahead for organized labor and industry. There has been some scattered talk of a general strike by the more than 15,500,000 members of labor unions. But AFL and CIO headquarters in Washington are minimizing the possibility of any such move.

However, the San Francisco CIO council, in a telegram to CIO President Phillip Murray, has proposed a 24-hour nationwide work stoppage in protest against congressional enactment of a law labor bosses have described as a "slave" labor law.

Murray has made no public reply. But he has summoned his 51 member executive board to meet with him Friday in Washington in an emergency session to

discuss the situation now confronting organized labor.

Enactment of the Taft-Hartley bill also is having its repercussions on the political front.

Democratic Senator Claude Pepper of Florida says he believes the Senate's action in overriding Mr. Truman's veto has given what he calls "tremendous impetus" to a fledgling Third Party movement. Says Pepper:

"Political history has been written here. Congress has done more than Henry Wallace ever did to lift a Third Party. We have seen a demonstration that neither party can muster a majority in Congress for liberal proposals. Nobody but intellectual liberals have been interested in a Third Party up to now, but if the working people feel that their rights aren't going to be protected they may make a third

party movement a vital affair."

Some Democratic Senators, including Harry Byrd of Virginia, are not in agreement with Pepper's views on the political effects of the enactment of the labor law.

And Republican colleagues are disrupting the views of Vermont's Senator George Aiken. Aiken declares that as he sees it, the Republican party as of today has lost the rank-and-file labor vote. However, says Aiken:

"If (the GOP) has a chance to recover some of it if it will act in the next Congress to amend some of the law's objectionable features before the 1948 election."

Aiken explains that on the strength of promises from GOP leaders to sponsor such amendments, he voted with his colleagues to override the President's veto.

U.S. Protests Arrests Made In Romania

Note States Action Seen As Effort To Suppress Anti-Communist Party

MOSCOW, June 25 (AP)—Pravda declared today that if future American economic aid to Europe is conditioned on the "Greek-Turkish example" then the whole idea of the Marshall proposal is doomed to fail.

"The question of the conditions which the United States will place on their economic aid is of decisive significance for European affairs," the Communist Party organ said editorially. "It is precisely the character of these terms that will reveal the real essence of the Marshall proposal and will determine its success or failure."

WASHINGTON, June 25 (AP)—The United States protested sharply to the Romanian government today against the "arbitrary arrest without warrant or charge" of "hundreds" of opposition party members and others.

A note said that the arrests appeared to represent "a deliberate effort at the suppression or terrorist intimidation of democrats opposing the present Communist-dominated regime."

The State Department made public the note which Roy H. Melbourne, acting United States Representative at Bucharest, has been instructed to deliver to the Romanian foreign minister.

The note said that the arrests appeared to violate formal assurances given by Romanian officials that public liberties would be safeguarded. It said further that "such evident deprivation of the most elemental human rights and fundamental freedoms" conflicted with terms of the Romanian peace treaty. This treaty has been signed by the Romanian government and ratified by the United States.

De Nicola Sends Resignation As Italian President

ROME, June 25 (AP)—Provisional President Enrico De Nicola sent his resignation to the Constituent Assembly today.

The resignation came after approximately 6,000,000 members of the Communist-dominated Constituent Assembly held a nationwide half hour strike at mid-morning in protest against a series of attacks on Biellian Communist headquarters Sunday.

De Nicola's message, read to a hushed assembly by speaker Umberto Terracini said his health prevented him from exercising "my functions any longer." De Nicola is 69.

"I apologize for not having been able to fulfill my duties as I should have desired," his message read.

The assembly gave De Nicola a standing cheer and adjourned until tomorrow.

The possibility remained that the assembly might ask De Nicola to serve again. Other candidates mentioned were the three old men of Italian politics, all former premiers: Franco Bonomi, Francesco Saverio Nitti and Vittorio Emanuele Orlando, last survivor of the four of the first World War.

Congressman Shows Up At May Trial

WASHINGTON, June 25 (AP)—Rep. Charles A. Buckley (D-N.Y.), angrily denied in a federal courtroom today that he had avoided "in any way" appearing as a witness in the May-Garrison war fraud trial.

Buckley showed up this morning after government prosecutor William A. Paisley had complained in court yesterday that the Justice Department had been trying to avoid a trial witness.

"The impression has been created not only in my own ally but all over the nation that I was avoiding coming here," Buckley shouted from the witness stand.

U.S. Warned Of Over-optimism About 3 Nation Paris Meeting

Marshall Plan Is Interpreted By Sec. Snyder

U. S. Not To Have Representative At Paris Conference

WASHINGTON, June 25 (AP)—Secretary of Treasury Snyder made plain today that he does not view the Marshall plan for European recovery as giving foreign countries a blank check on the United States for what they need.

Snyder told a news conference that Secretary of State Marshall has not extended an implied invitation to other countries to tell this nation "what they need or want."

"My interpretation is that he is asking them to make a self-inventory and see what they can do for themselves," Snyder told reporters.

Meanwhile, Marshall said at another news conference that he does not plan to have a representative attend the talks of British, French and Russian foreign ministers concerning the European recovery program. These discussions are scheduled to begin in Paris Friday.

Asked whether he plans to have an observer there, Marshall said he does not. He flatly declined to give out any more information now about these proposals. When a questioner referred to the program as "your proposal" Marshall interrupted quickly to say the reporter meant the American government proposal.

Snyder said he gave this interpretation to the Marshall plan proposal. "He invited them to sit down and see what their problem is. He didn't say anything about letting the United States know how much is wanted. He said they should get together and make up their own minds as to what they ought to do in their own countries."

Snyder's comments were made not only as treasury chief but as chairman of the Government's National Advisory Council on International Finance. This was set up by Congress to supervise government financial dealings with other countries. Marshall is a member of that council.

Trade Bodies Back Soaring Meet Entry

In order to advertise Sanford and Seminole County as the National Soaring Meet at Wichita Falls, Texas, in which Mrs. Stiva Bennis, national woman soaring champion, will participate on July 4, the Junior and Senior Chambers of Commerce have agreed to sponsor her entry. It was announced this morning by Edward Higgins, manager of the Seminole County Chamber of Commerce.

The Junior Chamber has agreed to furnish \$100 and the Senior Chamber \$200 toward the project, he said. Walter Krohn and Guy Storier, nraents in the meet, left Monday by automobile with their gliders for Wichita Falls. Mr. and Mrs. Bennis and Fred Brittain of Miami are expected to leave Sunday with their gliders.

A meeting of the Publicity Committee of the Chamber of Commerce was held yesterday afternoon with the object of getting a consensus of opinion on what is to be done during the coming year by the Chamber of Commerce and the probable cost in order to present these figures to the Budget Committee, said Mr. Higgins.

Present at the meeting were Frank Shames, Publicity Committee chairman, Lind Weber and Mr. Higgins. The budget is due to be made up in September, said Mr. Higgins.

Army Bans Sending Tobacco To 2 Nations

FRANKFURT, Germany, June 25 (AP)—The U. S. Army today banned the shipment of American cigarettes to military personnel in Austria and France, effective July 1.

Mailing of tobacco goods to Germany was prohibited May 26. The Army said it hoped the order would "cut black market trading in cigarettes, tobacco and cigars."

Under the new ruling, relatives and trading companies in the United States will no longer be allowed to mail cigarettes to the following army post offices in France or Austria—APO M, 761, 174, 241, and 777.

District Commander

John I. Sauls, new Fifth District VFW Commander, was officially installed in office at Sarasota at the State Encampment of the Veterans of Foreign Wars last week. He is adjutant of the local Seminole County VFW Post No. 3282, and is largely responsible for building it up to its present strength. He has been active in this meeting there, having examined the situation, and is in position to adopt any one of three courses—as a diplomatic quarter in the western democracies see it—namely:

(1) Full-hearted participation in the Marshall project with determination to make it work; (2) participation with the idea of scuttling the ship; (3) outright rejection of the proposal with a knowledge that this would further solidify the division of Europe into eastern and western camps.

That's not being cynical but a merely employing horse-sense in these dangerous days when caution is necessary. It's recognizing facts instead of indulging in wishful thinking.

There's a difference, though between wishful thinking and hope. It is legitimate for us to hope that this reconstruction proposal may break the ice and in at long last permit of cooperation between the Russian bloc and the Western Allies. Such cooperation may not be possible at this time, but it is possible.

Mind you, I don't believe Russia has completed her maneuvering for positions of advantage in Europe. The signs are that she intends to consolidate her hold on Hungary, to bring Austria within the Red fold, and to establish her influence over Germany. There is every indication, too, that Moscow hasn't the slightest intention of abandoning its campaign for communication of the world.

However, it is possible the Soviet has extended its influence sufficiently so that it now would be willing to cooperate with the Western Allies—provided it fits against it.

Russia is deeply suspicious of her former allies. She has charged America and Britain with attempting to encircle her. And the Western Allies on their part have been suspicious of her.

Cargo Ship Guttled By Fire In 2 Holds

JERSEY CITY, N. J., June 25 (AP)—Fire spread through two holds of the U. S. President Lines' 10,782-ton cargo ship, the S. S. Marine Flor, today as longshoremen loaded the vessel for sailing Friday to the Far East.

A heavy pall of blue-gray smoke rose from the ship and drifted across the Hudson River over downtown Manhattan. Two Coast Guard boats including the fireboat, the New York City Fireboat John Harvey, 10 rail-road tugboats, and 13 fire companies joined in subduing the blaze that broke out at 11:10 A. M. (EDT) and was not under control until an hour and a half later.

Three days ago a group of young Jews unsuccessfully tried to kidnap an assistant superintendent of police in a downtown bookshop.

Missouri River Sets New Record Level

OMAHA, June 25 (AP)—The turbulent Missouri River set a new record level in southeast Nebraska today as residents of Nebraska, Iowa and Missouri braced for new floods expected to follow widespread rains.

Water covered low-lying crop lands as far as the eye could see at Rulo, Neb., where the Missouri climbed to a new all-time record of 21.02 feet at 8 A. M. (CST) today. The previous record, 20.98, was set last June 16.

BYRD WEDDING

BOSTON, June 25 (AP)—Miss E. Bolling Byrd, daughter of Rear Admiral and Mrs. Richard E. Byrd, and William Anderson Clark, Jr., of Wallingford, Pa., were married this afternoon in the Lindbergh Memorial Chapel of Emmanuel (Episcopal) Church here.

STOCK MARKET

NEW YORK, June 25 (AP)—Short covering on Tuesday's collapse brought substantial recoveries for individual favorites in today's Stock Market although many leaders still were restrained by the cloudy labor situation. Prices steadied after an active and volatile opening.

Steel Hit As More Miners Join Walkout

200,000 Bituminous Workers Said Idle: U. S. Steel Losing 70,000 Tons Daily

PITTSBURGH, June 25 (AP)—Thousands more of the nation's coal miners joined pre-emption walkouts today and the fifth steel industry curtailments because of the two-day old fuel stoppage were announced.

Field reports indicated nearly half of the 400,000 bituminous miners were idle. Some miners said they walked out protesting adoption of the Taft-Hartley union-curbing bill, while others said the stoppage was merely a "head start" on vacations which start in the coal-pit Friday midnight.

An attempt by United Mine Workers leaders to start a return to work in West Virginia mines was outdone by new mine closings there. Against 2,000 men returning in Monongahalia county, more than 11,500 joined the walkout, raising the state's total of idle to 41,000.

Reports from the coal mines administration and operators listed another 10,000 men idle in western Pennsylvania, raising the total to 51,000 or more than 50 percent of the soft coal diggers there. In eastern Pennsylvania, the first walkouts occurred in anthracite mines, with more than 3,200 quitting work in the Panther Valley area.

The Carnegie-Illinois Steel Corporation announced the shutting down of the equivalent of 4 1/2 blast furnaces in the Pittsburgh district. A two-thirds curtailment of its bessemer department at Youngstown, O., was also effected, cutting off production of 1,500 tons of steel daily.

The corporation's parent firm, U. S. Steel Corp., reported all its coal mines in Pennsylvania and Kentucky were closed, causing the loss of about 70,000 tons of coal daily. Other steel firms were similarly hit.

Carmony Testifies On Shipyard Deal

WASHINGTON, June 25 (AP)—John M. Carmony, former member of the Maritime Commission, denied today there were any irregularities in the sale of the St. Johns Shipyard at Jacksonville, Fla., to the Tampa Shipbuilding Co.

Carmony said he asked the company if it would change its installment-plan bid of \$1,927,500 to a cash offer "because the Commission was anxious to get rid of all surplus yards as quickly as possible."

He testified before a House subcommittee on surplus property, which is investigating the sale, that maintenance costs for surplus yards were running above \$1,000,000 a month in February, 1946, when the Florida property was sold.

Inquiry Begins Into Tanker Explosion

WILMINGTON, Calif., June 25 (AP)—A special Coast Guard board of inquiry convened today to determine if possible, what caused the tanker Markav, loaded with nearly 3,000,000 gallons of fuel oil, to explode Sunday, killing at least five men and leaving eight still missing.

Capt. John Trebes, chief of staff of the district Coast Guard headquarters, was named senior member of the investigating board. Assisting him is Comdr. P. A. Orenden of the Washington Bureau of Marine Inspection and Navigation.

William Anderson, division superintendent of the Keystone Shipping Company, which operated the Markav, denied that the vessel, at the time of the explosion, was filled with butane.

RESERVE BANKS

WASHINGTON, June 25 (AP)—Federal Reserve Chairman Marriner B. Eccles told Senators today it may be necessary to shift the location of several Federal Reserve branches unless Congress alters a 24-year-old limitation on cost of their buildings. Eccles said that in 1923 Congress put a limit of \$250,000 on banks, but this does not apply to main banks, land, furnishings, vaults and other costs. He asked that the overall ceiling on cost of bank buildings, land and furnishings be placed at \$10,000,000.

Taft-Hartley Labor Bill Signed

A FEW MINUTES AFTER the Senate had overridden President Truman's veto of the Taft-Hartley labor bill, Senate Secretary Carl Leichter (center) is shown signing the measure which now becomes a law. Standing behind him are the co-authors, Sen. Robert A. Taft and Sen. Hartley.

Eisenhower Urges National Economy Pan-American Plan Blueprinted Armament Pact By Industrialist

Area Of Great Lakes Said Vulnerable Spot In New War

WASHINGTON, June 25 (AP)—Gen. Dwight D. Eisenhower, chief of staff, said today that "an initial step" by the enemy in any new war would be a probable air strike against the industrial area near the Great Lakes.

He appeared before the House Foreign Affairs Committee to urge speedy approval of legislation authorizing United States aid to standardize arms of all American nations. He emphasized that it is needed particularly between the United States and Canada.

The standardization is vital to the security of the North American continent.

Suspension Of Curley Sentence Is Asked

WASHINGTON, June 25 (AP)—Attorneys for Mayor Joseph P. Curley of Boston, sentenced to 10 years of 18 months in jail on mail fraud charges, asked federal court today to suspend sentence because of his "past serious and previous physical condition."

The 72 year old political leader who came here last night from a hospital where he had been undergoing treatment for diabetes and high blood pressure, is scheduled to appear in court tomorrow morning for committal to jail.

Laney Drug Installs Air Condition System

The Laney Drug Store has installed a Carrier air conditioning system which uses a water circulating system as a cooling base. Fresh air is brought from the rear of the building through aluminum ventilators. The cabinet with the mechanism is in the prescription room and draws in and recirculates air in the store.

J. O. Laney, proprietor, pointed out that a temperature 10 degrees cooler than outside, proves most satisfactory. The store recently installed a new soda fountain with stainless steel sinks and fittings.

AIKEN ON BROADCAST

Dick Aiken, who on July 4, will broadcast over the Columbia network from New York on the Arthur Godfrey program, will be a guest singer on the WDBO program with Dorothy Park and Walter Kimble, Friday evening at 8:00 o'clock in Orlando.

Legislation On Housing Seen By Taft

23 States Are Represented In "Fight For Homes" Rally In Senate Offices

WASHINGTON, June 25 (AP)—Senator Taft (R-Ohio) told a "Fight for Housing" rally here today that he believes long-range housing legislation can be put through the Senate before Congress adjourns next month.

He said that when House and Senate leaders meet next week to lay out a program for the remainder of the session he is "hopeful" of an agreement that will mean enactment of "some sort of a housing program."

He implied, however, that the program he is backing, embodied in the so-called Wagner-Ellender-Taft bill, might have to be modified considerably to win House acceptance. A similar bill passed the Senate in the 79th Congress but was bottled up in the House.

Some 400 housing advocates from 23 states attended the rally in the Senate office building.

Both Taft and Senator Ellender (D-La.), another co-author of the bill now pending before the Senate, told the crowd they knew of hardly any other legislation in recent years which had been so misrepresented.

Palestine Makes Report To U. N. Inquiry Group

JERUSALEM, June 25 (AP)—The Palestine government told the United Nations today its administration was based on the principle that the Holy Land "should neither be a Jew State nor an Arab state, but one in which the two peoples in Palestine should share authority in the government in such a way that the essential interests of each are secured."

In a 14-page memorandum submitted to the UN special committee on Palestine (UNSCOP), the Palestine government outlined Britain's 27-year mandate administration.

"Community of interests even more than material resources is fundamental to any large scale planning," the memorandum declared. "Creation of that community of interests has hitherto been blocked by a predominance of political influences."

"It may be that at any given time a few more battalions or airplanes or tanks would, as has sometimes been represented, have produced a different frame of mind in one or the other of the local communities."

"It may be that it would not, but in any event what frame of mind it would have produced in the other community?"

"It has seemed to the Palestine government that only through free recognition by both Arabs and Jews of the position, needs and rights of the other community, through free recognition of the other community."

Chinese Reds Near Fushun Coal Mines

NANKING, June 25 (AP)—Chinese Communists have seized virtually all of the key Manchurian rail town of Szepingkai and are within 18 miles of the big Fushun coal mines east of Mukden, press dispatches said today.

Szepingkai's garrison was reported holding grimly to a single stronghold in the Japanese-built walled section of the town. Nationalists were reported to have recaptured Chongtshien, 60 miles southwest of Szepingkai, and the old walled city of Kaiyuan, about 42 miles southwest of Szepingkai.

The Sanford Herald... Published daily except on Sundays and holidays... 111 Main Street Sanford, Florida

The New Labor Law

The tremendous margins by which both the House and Senate overrode the President's veto of the Hartley labor bill should serve to convince even the most self-satisfied labor leader that there is something at hand which needs to be done if organized labor is to command the continued support of the American people.

Patriotism Of French Proves Block To Reds

By J. M. ROBERTS, JR.
AP Foreign Affairs Analyst

France may turn out to be one of the first imperial powers in history to let events internally through unrest and rebellion in her colonies.

With metropolitan France just barely staggering along, natives of Indo-China, Malagascar and North Africa have availed themselves of the opportunity to rise. Paris has taken stern restraining measures, promising reforms but backing her administrators with increasing numbers of bayonets.

Taking the side of the underdog (as usual, pending their ability to regiment him to their own purposes), the Communists have sought to appear liberal by trying to hamstring this colonial policy. By doing so, they have run up against something in the French National character which has definitely weakened the Communist position. A whole few months ago, the Communists seemed about to take over France. Today, even with their purported control of the Labor unions, they have been unable to sway the government from an increasingly rightist program for financial reorganization.

The French colonial situation would have seemed ready-made for the Communists. New impartial observers have ever had anything good to say about it.

When the late President Roosevelt met the Sultan of Morocco at his Casablanca, trip he appeared to take slight delight in discussing Winston Churchill, who was present, with references to French oppression of the natives, to Anglo-French syndicates which drained the riches of colonies and to the possibility of self-development of Morocco's resources with American help merely hired for the purpose. The Sultan, says Elliott Roosevelt, assured the President that something would be done after the war. That something has developed into an independence movement.

That's why the French are so nervous over the presence of the old riff leader, Abd-El-Krim, in Egypt. Krim, at the head of the wildest, most atrocious bunch of bandits in modern history, practically threw the Spaniards out of North Africa, in 1921, and the French had to stage a pretty good four-year war to subdue him. If Krim goes back to Morocco, as some observers fully expect, the French are in for real trouble.

So what possible good can France get out of such trouble abroad?

Just this. That French National trait over which the Communists have stumbled is patriotism. The average Frenchman is French before he is anything else. With a Communist, the Moscow line comes first. A lot of Frenchmen lean to Socialism, and a lot of frustrated European Socialists have been willing to team up with the Communists who are better trained for direct action.

But French Communists, by putting the policies of Russia ahead of those of France, and by giving comfort to the rebels within the empire, which they are doing merely to please the Communist parent, may find that they have overreached themselves in the

OUSTED FROM MINISTRY POST by recent pro-Communist coup in Hungary, Laszlo Jekely and his wife are pictured on their arrival at La Guardia Field, N. Y., from Switzerland. The exiled Minister left for Washington to confer with former Premier Nagy. (International)

U. S. Protest

(Continued from Page One)

Investigation Commission's report holding Yugoslavia primarily to blame for support of guerrilla warfare inside Greece was made public today.

The commission's findings and recommendations, already made known in dispatches from Geneva, were expected to precipitate a showdown between Russian and the Western powers in the Security Council on the perennial Balkan problem.

Covering a three-months inquiry into the Balkan situation, the 230,000-word document was formally submitted to members of the Security Council last Saturday.

The council was expected to begin a discussion of the report either Friday or early next week. There was speculation that the United States might inject into the debate the Communist assumption of power in Hungary and Communist moves in Bulgaria.

With Russia and Poland dissenting and France abstaining, the Balkan Commission fixed upon Yugoslavia the primary blame for support of Greek guerrilla warfare, and held Albania and Bulgaria blame-worthy to a lesser degree.

Disturbed political and economic conditions and the persecution of minorities inside Greece were cited in the commission's report as contributing factors to the turbulent Balkan situation.

As a means toward alleviating this situation, the commission recommended that the Security Council establish a commission of investigation on the troubled frontier area of Greece for at least two years to observe incidents and settle disputes.

Such a commission or commissioner should, if established, report to the council every three months, and should have access to Albania, Greece, Yugoslavia and Bulgaria, the report said.

With Russia and Poland also that support of frontier-violating bands should be considered a menace to world peace and subject to U. N. action.

To the majority report, that Yugoslavia was the chief offender, the Russian and Polish delegations affixed a minority report asserting that the Greek government was primarily to blame.

The majority held that exploitation of the Macedonian question by venturing claims to this territory outside the United Nations is "a positive threat to the tranquility of the Balkans and can only add to existing tension and suspicion and increase national passions."

A Greek representative appearing before the commission during the on-the-spot inquiry charged that Bulgarian and Yugoslav interference in Greek internal affairs was aimed at incorporating Greek Macedonia into the federal Yugoslav state of Macedonia. Both Yugoslavia and Bulgaria denied this charge.

France, which abstained from voting the blame for Greek guerrilla warfare, said in a statement contained in the report that "it is to be feared that in reaching conclusions with insufficient legal foundation we might only aggravate an already critical situation and do unnecessary harm to perfectly honest nationalities."

"Moreover," the French statement added, "the United Nations are faced not only with a critical but with a chronic situation, not with a flagrant aggression which requires a prompt and immediate intervention, but with a tension which, owing to a multiplicity of

Pan-American Pact

(Continued from Page One)

can continent," Eisenhower said.

He said the major requirements of a comprehensive military collaboration must be three-fold, listing them as:

1. "We must continue to send military missions to other American countries when requested by them to assist in reorganizing and training their military establishments."
2. "We must provide quotas for attendance at our service schools and institutions by military personnel from these countries in order to afford them the opportunity of studying at first-hand our methods of reorganization and training."
3. "We must be able to make available to them the equipment necessary for their peacetime establishments, since all the training and indoctrination of personnel will be largely ineffective unless all of the armed forces of the hemisphere are identical in terms of organization and equipment."

Eisenhower expressed conviction that the legislation is in accord with "our national interest," will "assist materially the maintenance of peace and security throughout the American continent," and will be "a distinct contribution to world security."

He emphasized that the War Department has "no intention of initiating or encouraging an armament race among the other American countries."

He said that the United States would conclude with each participating country "a definite agreement" as to the size of the armed forces for which this country will make available arms and equipment.

He said, too, that it is not intended to increase the quantity of arms possessed by any other American country, but rather to better the quality of their defensive armament.

LOSERS IN THE FIGHT against the Taft-Hartley labor bill, leaders in the historic filibusters are shown in a sort of "see-saw-then-a-tough-battle" attitude. Left to right are: Glen H. Taylor (D-Idaho); Claude Pepper, Florida; James E. Murray of Montana and Sen. Wayne Morse (R-Oregon). (International)

FOLLOWING SWEARING-IN CEREMONIES at the State Department in Washington, former governor of Nebraska Dwight Griswold (left) and Richard F. Allen are shown discussing their new posts. Griswold heads the \$300,000,000 Greek relief mission and Allen is in charge of the \$350,000,000 foreign relief program. (International Soundphoto)

CALLING UPON CONGRESS to override President Truman's veto of the tax reduction bill, ranking G.O.P. leaders are shown giving vent to explosive criticism as they go over the veto message. "Cold blooded politics" and "flagrant abuse of power" were among the expressions voiced by Rep. Harold Knutson (R-Minn.), who championed the measure; Rep. Charles A. Halleck (R-Ind.), House majority leader, and House Speaker Joseph Martin Jr. (R-Mass.). (International)

Kiwanis Meet

(Continued from Page One)

was in command, had an area 200 miles wide and 300 miles long to patrol, and except on the beaches there were no roads in repair, he said. Due to the lack of communication, Jap prisoners were late in coming in, and it was Oct. 21 when a Japanese officer and 600 men, who at first thought the Jap Navy had come to rescue them, appeared and surrendered.

The first intimation that hostilities had ceased came on Aug. 14, in the evening. On the following day definite news to this effect was received. On Aug. 1 the American troops celebrated a "victory program" over a radio hookup, he said. He told of the praise of Japanese medical officers for American facilities for treating the wounded during the time our forces aided in finding and treating some 2,000 enemy wounded in the hills.

Kiwanians stood in silent prayer in memory of the late Sherman M. Lloyd, former club president (1928) and the first secretary the club ever had.

Palestine Report

(Continued from Page One)

tion by them of their mutual responsibility and interdependence and by a willingness of each to contribute according to his means and the need of the other, not only in material things but morally, that the well being of the people of Palestine as a whole can be ensured and a national home established.

"Courage, imagination and the will to compromise required to achieve these ends cannot be imposed, but must be sought from the two peoples primarily concerned."

Earlier, Irgun Zvai Leumi, unfurled banners in the all-Jewish city of Tel Aviv proclaiming to the visiting United Nations investigators that "this is our homeland; without the British invaders, we will not compromise required to achieve these ends cannot be imposed, but must be sought from the two peoples primarily concerned."

The Irgunists, who have claimed responsibility for numerous killings, bombings, kidnappings and the wholesale prison delivery at Acre in May, apparently were in Tel Aviv in force.

Masked youths lined the route of the committee to the municipal building and tried to interfere with reporters and photographers.

Taft-Hartley law—will push for speedy enactment of a 50 percent minimum wage boost.

Hearings on bills to raise the current pay floor from 40 cents an hour will be started Friday by a House labor subcommittee, with indications that a 60-cent minimum will be recommended.

The tip-off that such a bill would be put on the "must" list for this session was given by House Republican Leader Halleck of Indiana at a GOP political rally in Wisconsin last week when he said:

"We are turning our attention to legislation dealing with protection of our workers in the minimum wage brackets."

"I understand the leadership will accept 60 cents," Rep. Landis (R-Ind.) told reporters today as the labor committee announced its hearings. "We are going to pass a bill this year."

Landis, author of one of the many pending bills dealing with minimum wages, is second man on the labor committee.

"We will put this thing through within the next few weeks," one of Halleck's aides said.

Housing Seen

(Continued from Page One)

party colleagues are going to do everything they can to defeat the measure which would make House Speaker Martin (R-Mass) next in line for the presidency.

The Senate has agreed to vote on the bill at 1:00 P. M., tomorrow and Senator Wherry (R-Neb.), its author, conceded that if reports he hears are true, the Democrats might sink the proposal, with some Republican help.

Rep. Cooley (D-NC) called at the White House today to recommend a veto of the wool price support bill and reported afterward that President Truman did not "frown" at this advice. Cooley told reporters he urged a veto "because of the bill's import duty provisions."

The measure, which Congress sent to the White House last week, continues present government supports for wool prices and authorizes tariff boosts, or restrictions on imports, in event imports of foreign wool tend to depress prices.

Presidential Press Secretary Charles G. Ross told reporters Mr. Truman will act on the bill tomorrow or Friday.

Richard W. Hubbell, New York engineer, suggested to Congress today that radio stations be licensed for 17 years and predicted there will be a "mushrooming" of television service if this is done.

Hubbell testified before a Senate Commerce Subcommittee which is considering legislation to revise the broadcasting laws. He is head of a consulting company for television, radio and motion picture construction and operation.

WASHINGTON, June 25, (AP)—Senator Taft disclosed the possibility that Congress may take further action on tax-cutting legislation before it adjourns next month.

Taft told reporters he has not changed his opinion, the tax measure is dead for this session, despite the fact Rep. Knutson (R-Minn.) has re-introduced his bill to slice \$4,000,000,000 from personal income taxes.

Republican congressional leaders—under sharp attack from organized labor because of the new

WATCH THIS SPACE ?

Economy Plan

(Continued from Page One)

Hoffman said "another collapse of that magnitude might cost us our free economy."

Hoffman is chairman of the board of the Committee for Economic Development, a group of businessmen organized to study the problem of maintaining a high level of productive employment.

He expressed his views in a statement prepared for the joint congressional committee on the economic report. This group is considering ways and means of preventing depressions so that substantially full employment may be continuously maintained.

Hoffman, in laying down a blueprint for government and business to follow toward this objective, told the committee:

"If through wise action we can make our economy operate more effectively, the real income of most of our people can be doubled within 25 years. We can largely realize the age old dream of abolishing poverty."

The key to achieving this goal, Hoffman said, is the creation and maintenance of what he called an economic program of "dynamic stability" which rejects the notion that "violent booms or busts" are inevitable.

Hoffman said that for the immediate future in the fight against inflation, there should be restraint on the part of all "in raising prices, wages and salaries, in recognition of the common interest in avoiding a further wage-cost-price spiral."

The "most vital function" of the government in the long-range economy Hoffman envisaged "is to establish conditions under which private enterprise can operate most effectively." To this end, Hoffman said, the government should:

1. Stamp out practices that create an artificial barrier to the free flow of goods and services.
2. Break down barriers to creation and growth of small business, particularly by removing the bias in the tax structure against risk taking.
3. Repudiate federal spending

China Hits Reds on Control of Seaports

(Continued from Page One)

NANKING, June 25, (AP)—The Chinese foreign office, in a lengthy "white paper" covering relations with Russia, today accused the Soviet Union of obstructing the Chinese control of Dairen and Port Arthur.

The statement called "serious attention" to Moscow's Soviet failure to observe terms of the 1945 Sino-Soviet Treaty providing for Chinese administration of the two Russian-held Manchurian seaports.

Meanwhile, Nanking newspapers carried reports that the foreign office had sent a second protest to the Russians over the recent border clash between Chinese and pro-Soviet Outer Manchurian in Sinkiang province. There was no immediate confirmation. Russia rejected the first protest.

U. S. Warned

(Continued from Page One)

been watching Soviet expansion with suspicion and dismay.

"I believe we must arrive at the conclusion that the forthcoming conference of the three European powers in Paris will have to do more than put on paper the ways and means of implementing General Marshall's program for setting Europe on its feet economically. The three disunited statesmen will be faced with the monumental task of establishing a far greater degree of confidence between East and West than now exists. Unless that is achieved, the Marshall idea cannot be carried out in its fullness."

Beer Garden Front Damaged By Auto

The window pane and front of the Victory Beer Garden on Sanford Street, was demolished late yesterday afternoon when a Chrysler sedan over the driver, Mary Leonis, 17, of 214 West Fourth Street, had apparently lost control, jumped the curb, knocked over a parking meter and smashed into the beer garden.

Miss Leonis, who was not reported as injured, was charged with reckless driving and driving without a driver's license, according to police. The front fenders of the automobile, were bent and the front bumpers were damaged. It was reported that Miss Leonis, driving east on Third Street, had unsuccessfully attempted the turn south on Sanford Avenue.

ROBSON'S WINS

The Robson Sporting Goods Store in the City Softball League tripped the Mather aggregation by a 18 to 11 margin last night. It was announced today by Harry Robson.

A pro-war Japanese government monopoly controlled the growing of tobacco.

Come in! Come in!

"Right Where We've Been For 38 Years"

W. A. HARRIMAN
Secretary of Commerce Says

Keep Turning In Your Used Fats

Used cooking fats have represented a substantial part of our total industrial fat supply. The more than 600 million pounds of used fats that American home-makers have saved and turned in since 1942 has been of vital importance. It is a record of which every woman who contributed may well be very proud.

The United States still lacks adequate supplies of fats and oils. And we are particularly short of industrial fats. Many, if not most, of the things we all use and wear require industrial fats, or the products of industrial fats, such as soaps and glycerine, in their manufacture.

So won't you keep up your good work and continue to save and turn in every possible pound of used fat?

W. A. Harriman
Secretary U. S. Department of Commerce
