Mrs. Forhand Dies After Long Illness
Bula Mae Forhand, 60, died at

8:45 p.m. Tuesday at her home on South Sanford Avenue after an illness of approximately two years. She was born Oct. 12, 1891, in Goodlettsville, Tenn., and moved to Sanford 2 1/2 years ago. She was a member of the Baptist Church in Nashville, Tenn.

She is survived by her husband, W. A. Forhand, Sanford, one daughter, Mrs. M. O. Roggins, Jr., Nashville, Tenn., two grandchildren, Sarah Gale and Tommy Roggins of Nashville, and one sister, Mrs. Alma Arra, New York City.

Funeral services will be held at 10:30 a.m. Thursday at Bula Mae Forhand. Burial will be in the Evergreen Cemetery.

Korean War
The request for names of 80,000 ROKs, whom the Reds say "do not exist," was based on Communist radio boasts of the number of prisoners they had captured. The Allies insist the Reds impressed most of them into the North Korean army.

Lee repeated today: "We released at the front the majority of prisoners of war whom we captured."
The Reds have said this many times in support of their claim that any ROKs in the North Korean army joined voluntarily and were not impressed prisoners.

Blues In The News
By BOB ANTHONY

Last night's English Literature class aboard the station was a very unusual one. Mrs. Dean brought some recordings of famous Shakespeare passages and sonnets and the entire class period was devoted to listening to these works of art. Even more unusual, however, was the fact that Mrs. Dean had a slight touch of laryngitis. This problem was cleverly dealt with as soon as we discovered that the phonograph, which Aviation Training's Chief Harlan Day had generously lent us for the night, contained a small public address system. The microphone was immediately connected and Mrs. Dean conveyed her messages to the class by speaking into the mike in-between recordings.

Ken Jones took top honors in the examinations for advancement to the rank of either Seaman or Airman which were held yesterday aboard the station. Ken took the Seaman exam and made the highest grade of any of the 22 men taking the three different tests. Of the 15 men that passed their examinations, effective dates for the rates will be Mar. 16 for most and Apr. 1 for the remainder. All of these men are eligible to compete in the service-wide competitive examinations for petty officer third class which will be held sometime in July.

George Lawless returned aboard the station recently after a leave which was spent as a honeymoon. George was married on Feb. 22 in Kingston, N. J. to Miss Sally Rhoads. Sally accompanied her husband to Florida and Mr. and Mrs. Lawless are now residing at 332 North San Souel Street in Deland. Welcome to the Land of Sunshine, Sally, and congratulations to you both on your recent marriage.

Little D. Player received the orders today that he has long awaited. In January Little received notice that he had been accepted in the Naval Cadet program and that he would be put on the waiting list. Yesterday his orders arrived that will send him to Pensacola, Mar. 27. Little is presently an Airman working in the Maintenance Division of the Operations Department but when he successfully completes his pre-flight and flight training under the Naval Cadet program he will become a naval aviator and an ensign in the naval service. Good luck Little, may your flying days be smooth ones.

Gene Arnold returned to duty with FASRON 821 recently after a stay at the naval hospital in Jacksonville. We're happy to have you back with us "Arnie" and it's nice to see the twinkle in Rosemary's eyes once again.

The group of men aboard the station known as the "Vagabonds" have a number of plans for another dance to be held Mar. 21. The enthusiasm with which their dance last month was met has encouraged the "Vagabonds" to make the coming affair bigger and better than ever. The Sanford Yacht Club has been chosen for the occasion and dancing will be from 8:30 p.m. 'til 1:30 a.m. A gala floor show is being planned and fun will be the keynote so draw a circle around the 21st on your calendar and be on hand two weeks from this Friday for an evening of dancing at the Sanford Yacht Club.

RED CROSS MEET
Gordon Frederick, fund campaign chairman for the Red Cross, announced today a progress meeting of fund campaign workers to be held Thursday at 10:30 a.m. at the City Hall in the city commissioners room.

Emil Lewis, assistant regional director of the southeastern area of the American Red Cross will be there to speak.

MCCARTY'S MOTHER ILL
FORT PIERCE — Mrs. Frances M. Tylander, 70, mother of Dan McCarty, a Democratic candidate for governor, was still in very serious condition today at Fort Pierce Memorial Hospital.

She entered the hospital last week following a heart attack.

Call out the Reserves with a touch of your toe!

Most cars lead a double life.
A good part of the time, they're running errands, taking children to school, taking women to stores, taking men to work, taking family and friends to clubs and social functions.

It doesn't call for a very great output of horsepower for duties like these.

But there are times when you want a car that can do vastly more, and these are the times when you'll want what this year's ROADMASTER has to offer.

Beneath its proud hood, there's a Fireball 8 Engine—a valve-in-head that can let loose 170 lively horsepower when needed.

And—alongside this engine—there's also an Airpower carburetor which thrifflily feeds fuel and air through two smaller-than-usual barrels for normal driving—which means that you now use less gas at 40 than you'd formerly use at 30.

But there are two barrels in reserve—waiting for you to call them into action—and they let loose a soaring rush of power that slings your shoulders back into the seat cushion, sweeps you past a truck—out of a tight spot—up a hill—sets your speedometer needle registering

added miles more than twice as fast as your watch can tick off the seconds.

This is an experience you certainly should know firsthand.

You should also know how Buick's Power Steering* provides a helping hand in slow-motion maneuvers—lets you keep the "feel" of the car in straightaway driving.

And just for good measure, this '53 ROADMASTER also has the biggest trunk space of any postwar Buick—the greatest trunk space since spare tires moved off the front fenders—a warning light that glows when the parking brake is set—and to top it all, the superior interior fabrics that Buick has ever offered.

When are you coming in to look this distinguished performer over? We urge you to make it soon.

*Optional. Accessories, tires, and fluids are subject to change without notice. *Optional on some cars or for extra cost.

South Dominates AP's All-College Basketball Team

Workman, Hagan And Groat Are Named By Sport Writers

By TED MEIKER

NEW YORK (AP)—The South dominated the 1952 Associated Press All-America collegiate basketball team announced today. Two players from the Southern Conference and one from the Southeastern were named together with one each from the Big Ten and the Big Seven.

Picked as the best all-around players of the season by a vote of 229 sports writers and broadcasters were Dick Groat of Duke, Clyde Lovellette of Kansas, Cliff Hagan of Kentucky, Chuck Darling of Iowa, and Mark Workman of West Virginia.

All have broken school and conference scoring records.

Two more players from the Southeastern Conference—Frank Ramsey of Kentucky and Bob Pettit of Louisiana State—were named on the second team with Bob Zawoluk of St. John's of Brooklyn, Don Meineke of Dayton, and Rod Fletcher of Illinois.

Little Johnny O'Brien of Seattle who scored more than 1,000 points this season, Larry Hennessy of Villanova, Bob Houbregs of Washington, Ray Steiner of St. Louis and Dick Knostman of Kansas State comprise the third team.

Jim Tucker of Duquesne, Bob Watson of Kentucky, Walter Dukes Temple and Ernie Beck of Pennsylvania headed a list of 19 additional players who received honorable mention.

Lovellette, a 6-foot-9, rangy 210-pounder named on the first team for the second straight year, and Groat, the smallest at a mere 56 feet, were the two top vote getters. The Kansas star from Terre Haute, Ind., received the most first place votes, 143, but was edged by Groat in total points, 703 to 759.

John Galloway

(Continued From Page One)

Guard in 1917, he was sent overseas as a first lieutenant of Co. K, 52nd Infantry, Sixth Division. He was promoted to rank of captain in the Infantry Reserve Corps, and later retired without pay. He re-entered the railroad service in August, 1919.

During World War II he commanded Co. C, 4th Battalion of the Florida State Guard until the unit was disbanded in 1940, at which time he received the rank of major in recognition of fine service.

He lives at 1718 Magnolia Avenue, is married and has a daughter, Mary Anne Galloway, a student at the University of Florida.

Training Camp News BY ASSOCIATED PRESS

PHOENIX, Ariz. (AP)—Whitney Lockman, the new No. 1 hitter on the New York Giants, is perfectly happy being assigned to the top of the batting order.

"I think my hitting No. 1 is going to improve my average," Lockman said. "I've never hit the first base man. Most of the time I'm going to be up there on my own and won't be required to push anyone around."

Lockman hit .282 last year and drove in 73 runs.

VERO BEACH, Fla. (AP)—Newest of the phenoms in the Brooklyn Dodgers camp is Johnny Podres, a teen-age pitcher.

Johnny, who has had only Class D experience, has hurled six scoreless innings in intra squad games, and has not given up a walk.

ST. PETERSBURG (AP)—"Junk man" Bob Hogue, the only one scored on pitcher in the majors last year, is going to hunt at least once in every game for us," said Holmes. "I think he's learned he must do it more often to make himself a better ball player."

Hogue's batting mark in 1951 was .280.

LAKELAND, Fla. (AP)—Pitcher Dizzy Trout cut the palm of his pitching hand Wednesday while trying to load the Detroit Tigers' pitching machine while it was in motion. Trainer Jack Homel said the injury was not serious.

TUCSON, Ariz. (AP)—In the highly competitive contest for Cleveland's right field position, Bob Kennedy is far in front at this point.

"Harry Simpson hasn't looked good at all," said Indian Manager Al Lopez. "But Kennedy has if I had to pick the right fielder right now it would be Kennedy."

ST. PETERSBURG (AP)—Red Schoendienst worked out at second base for the first time Wednesday since joining the St. Louis Cardinals at their spring training quarters.

Schoendienst, the Cards' veteran second baseman, had played first base thus far in practice with Manager Eddie Stanky doing the work at second.

Stanky, who hopes to be a playing manager, indicated, however, that the change isn't permanent.

Dub Pagan Wins In Golf Tourney

PALM BEACH, Fla. (AP)—Four former champions started play in the South Florida Golf Championship Monday but only one was left when the semi-finals came up today.

W. A. (Dub) Pagan, West Palm Beach, from whom the tourney is named in 1941 and 1947, scored a 1 and 4 victory over George Bas musen, Palm Beach, to reach the semi-finals and will play Robert E. Jones, Baltimore, today.

Jones won over W. L. Merry, West Palm Beach, 4 and 3 Wednesday. Merry won the tourney in 1945.

J. Walcott Brown, Manassas, N. J., defeated Harry McCready, Virginia Beach, Va., 1 up, and will play John Peil, Palm Beach, in the other semi-final match.

Peil, former U. S. Amateur, Rockville Center, N. Y., and Holland was co-medalist with a 10

NEW COACH

TAMPA (AP)—The University of Tampa's new head coach is Marcelino Huerta, line coach under Frank Sinkwich here the past two years.

Sinkwich, former Georgia All-America halfback, resigned March 1 to go into business.

Dr. E. C. Nance, president of the university, announced Huerta's appointment. Huerta was a football player at Hillsborough High School here and at the University of Florida playing guard.

RIFLE MATCH

ST. PETERSBURG (AP)—Ken Becker, Winter Haven, outshot the nation's best to win the Bandle Trophy Match in the annual Mid Winter Rifle Match at the University of Florida today.

Becker shot 100 by 28X, getting all of them in the bull's eye and 3 of them in the little "X" circle. The first shot of the bull's eye in the match hit the center of the target 100 yards with any sight.

LaMotta Won't Quit Ring After Winning

DETROIT (AP)—Juke LaMotta, the former middleweight champion won't have to hang up his boxing gloves.

The 30-year-old fighter, showing the strain of 12 years earning the strain of the professional ring, won a 10-round draw with up-and-coming Eugene Hairston Wednesday night. Some thought the Bronx trail was pretty lucky at the time.

On the eve of the bout, LaMotta said he would retire if the 23-year-old Hairston beat him decisively.

Now LaMotta says he is going to keep on fighting. He wants a shot at Joe Maxim's light heavy-weight title.

Hairston lost no prestige in the bout which he hoped would earn him a chance at the middleweight title.

LaMotta's tactic of putting on a dazzling flurry at the end of each round paid off. Both judges scored it as even 60 points for each boxer. Referee Morris Sherman gave the verdict to Hairston by a 2-40 margin. Under Michigan boxing rules the majority decision made it a draw.

Protesting the decision, Hairston's manager Mike Miele bel-lowed:

"I think the fight at the end of the round was fair. There's no justice to the way they score here."

LaMotta weighed 168 1/2, a 7 1/2 pound advantage over Hairston. A crowd of 10,939 paid a gross gate of \$31,467.30.

Communists Hold Tight Control Over All Labor Unions In Italy

(Editor's note: Italy is a key point in the Kremlin's efforts to fashion a fifth-column base around Western Europe. How the Communists are moving there, using trade unions where they can, is described here by William L. Ryan, Russian-speaking analyst of the Associated Press foreign staff. On a tour of Europe, Ryan gave the overall picture in two dispatches from Vienna, printed earlier this week. Today he shows how the transmission belt reaches into an individual country.)

By WILLIAM L. RYAN
ROME (AP)—The Communist evildoers are organizing furiously in Italy to build their Trojan horse, Moscow's 1952 version of the so-called steel that broke the defenses of ancient Troy.

The Communist, in control of the biggest labor federation, the General Confederation of Italian Labor (CGIL), have imposed a high level, hard core command over the unions, and the command is organized down to the factory level.

Giuseppe di Vittorio, a Moscow-trained Communist, has installed in each factory what he calls a "peace committee." This committee is the cell through which the Communists will exercise their control when and if the chips are down.

Foreign observers in Rome have little doubt these committees are the "action committees" of the future, ready to react swiftly in the event of a crisis.

The CGIL is one of three major labor organizations in Italy, and by far the strongest. It claims more than five million members, although a more accurate figure probably would be 2 1/2 million.

But the Communists already have shown they can paralyze Italy with this organization. They did so in 1948, after the attempt on the life of Communist boss Palmiro Togliatti.

But the Communists already have shown they can paralyze Italy with this organization. They did so in 1948, after the attempt on the life of Communist boss Palmiro Togliatti.

New Mexico Seeks Monument As Site Of First A-Blast

ALBUQUERQUE (AP)—New Mexico officials hope to preserve as a state or national monument the place where the Atomic Age exploded from a dream to reality.

Gov. Edwin Mechem already has wired the AEC in Washington, asking reconsideration of the action.

Mayor Walter B. Mullanix also is in the desert site, expressed opposition and said same form of protest is planned.

Every day people stop to ask about the test site and we think it should be preserved.

Gov. Mechem said that "this site, located historically as one of the century's most talked-of places" and making it a state or national monument should be seriously considered.

The \$23,000 contract for filling in the area was awarded D. H. Skousen, Albuquerque. The AEC said its scientific interest in the site is satisfied.

Planning secretary of the New Mexico Cattle Growers Association, commented that the approximately 20 acres involved is worth only an estimated 25 cents as range land, for which it was used before the test.

Mechem explained that the site is strictly desert land with an extremely low market value. In the general area, he said, a section of land—640 acres—is needed to support 12 head of cattle.

The contract calls for breaking up the 1/2-inch layer of trinitite, a glass-like material formed when the blast melted the surrounding area, filling in the crater, demolishing a shed and destroying a road circling the area.

The third annual Southeastern Beauty Queen contest in conjunction with the Southeastern Festival and Fat Stock Show in Ocala will be staged Sunday afternoon during the final performance of the rodeo.

During a U. S. Marine Corps demonstration of its new nylon bullet-resistant body armor, Lt. Col. W. R. Walsh, of Union City, N. J., (top), opens up with a Thompson submachine gun on a dummy wearing one of the vests.

The jackets, now worn by Leathernecks on patrol in Korea, can stop 30-caliber bullets and are used as a protection against fragmentation shells. At bottom, Sgt. Steven Marcus, of Aloha, Wash., shows how a tommygun, fired at close range, deformed but failed to penetrate the plastic plates. The vests were made in Washington, D. C.

There was Catherine and Rose and Peggy she was the chorus girl and Goldie and Anne and Rose and Ned and Nellie and Louise and Frances.

El PASO, Tex. (AP)—El Paso's marrying plumber, 72-year-old Bruce Steele, has a new wife—his 17th, he says.

Steele is Mrs. Estell Lloyd, El Paso. They were married last month in Deming, N. M.

Steele said proudly "I've been married 17 times in 14 women. I wanted to set a record and I guess I have."

The gray-haired plumber said his matrimonial merry-go-round began in 1911.

"I was a boxer traveling with a show and I met a girl named Mary," he said. "Yes, Mary was the first. I moved on and she got a divorce. After that, I wooed and won girls in other towns but I had to keep moving so the marriages didn't last. I believe Ruth—she was a platinum blonde—was next. Then

New British Drug Is Proving Helpful In Leukemia Cases

By AUTON L. BEAKESFEE
Associated Press Science Writer
LONDON (AP)—A new British drug is helping some people with one form of chronic leukemia, the blood cancer.

It came from a 20-year search into the cause of cancer, and that hunt promises far better cancer killers to come.

The drug and research were described today at the second National Cancer conference by Dr. Alexander Haddow, director of the Chester Beatty Research Institute, Royal Cancer Hospital in London.

The drug is G. E. 1, a code name in honor of George Eliot—the chemist who created it. It is a butane derivative of a new family of anti-leukemia drugs.

In early tests on small numbers of humans in Britain and the United States, G. E. 1 brought temporary remissions in 10 to 25 percent of patients with chronic leukemia.

Dr. Haddow learned to like "as good as with any" other drug used for leukemia.

The work of Dr. Haddow and associates centered on the urethane and nitrogen mustard, in tablet form for use against leukemia.

All were based upon clues turned up in their main research of learning just how a normal, healthy cell grows, and exactly what happens to turn the healthy cell into a cancer cell.

By learning that mechanism, science then can build more of better drugs that could prevent the cancer process.

"If we find the main principle, we will have a line of drug research that will be really fruitful," Dr. Haddow said.

In 10 to 20 years, all these drugs now being used may be obsolete. Better things will come from the fundamental knowledge.

WALIA WALIA, Wash. (AP)—A milk truck ended a tunnel escape attempt of State Penitentiary inmates in just short of freedom Friday night two weeks after the prisoners were honored at a luncheon for digging no tunnels during the past 12 months.

The men are believed to have worked 14 months on the project. The 10-foot-long tunnel was discovered by prison officers when the truck caved in a spot while traveling along the north wall roadway.

The prisoners were honored at a luncheon for digging no tunnels during the past 12 months. The men are believed to have worked 14 months on the project.

Simple Formula For Getting Rich Explained By Vacuum Cleaner Man

By HAL BOYLE
NEW YORK—Some people complain millionaires are dull. To me they are more glamorous than movie stars or generals for the business success story is a millionaires' favorite Cinderella tale.

The most interesting millionaire American's favorite Cinderella tale is a 44-year-old bachelor who has I have met recently, Alex Lewyt.

"I was vice president of the broom in my father's small wire picture frame factory," he recalled. He took over the business at 18, and completed his education by studying business administration and engineering at night school.

"My plant was in a basement on Lower Broadway, near the Daily Worker," the Communist newspaper he used to read to get in a cafeteria where these long hairs gathered. I would listen to them talk about how to make a perfect world, then go back to my little plant and try to figure some way to meet my weekly payroll.

While his long-haired neighbors went on dreaming of the millennium to be, Lewyt drifted away at the task of modernizing and expanding his business. He became a major subcontractor manufacturing equipment for some of America's largest electrical firms.

During the last World War one of the items he made was a gadget to clean Navy gun turrets. One day a girl in his factory told him "You know this thing is so small and handy it would make a wonderful vacuum cleaner."

Later he remembered her remark when the arrival of peace faced him with the problem of converting his plant.

"I wanted to put out a product under my own name," he said. "I was tired of being just a ghost producer for bigger industries."

But everyone warned him to stay out of the vacuum cleaner field. "It's a lousy business," you got to ring doorbells, to sell them. It was told.

But why? Why shouldn't they be sold as widely in appliance stores as refrigerators and washing machines?

"I figured the American housewife is a natural engineer, so I

set out to find out just what kind of a vacuum cleaner she really wanted," Lewyt said.

He polled 318 housewives himself had survey experts poll 2,000 more. He took their suggestions and he and his engineers turned out 22 models before they felt they had what they wanted.

"I knew it would work because I tested it myself for two months in my own home," said Lewyt. He then launched a tremendous national advertising campaign. When he went into mass production six months later, he found his market ready and waiting. His sales have increased every year, and they are made through stores rather than by door-to-door salesmen.

Today Lewyt has a luxurious 5-story home in mid-Manhattan, a 10-story factory in Brooklyn, and more than 1,600 employees. He has found his better world, likes to recall his basement days when he struggled to meet a payroll for six weeks.

"I often wonder what would have happened if I had just kept on sitting in that cafeteria listening to the long hairs," he mused.

I asked him what advice he could give an ambitious young man starting his career now.

"None," he said, "except maybe to tell him that nothing happens by itself."

Costs Money To Fire Government Worker

WASHINGTON (AP)—Firing one government worker is so complicated, says Sen. Olin D. Johnston (D-S.C.), it costs the taxpayers \$500 in paper work.

He told the Senate Tuesday his Civil Service Committee found many other peculiarities in the complicated Civil Service layoff system.

The unidentified agency, he said, can pay a bill of \$10,000 in attorney fees to get a layoff.

Johnston related some of these details of the cost. "The agency spends 15 months in an attempt to discharge 164 workers," he said.

This entailed 1,533 "paper work" items.

Only 25 employees of the 164 actually were dropped.

The re-huffing involved was so damaging to morale of at least 200 employees quit.

The agency found itself in the "red" position of having to recruit new employees.

Hints To Housewives

By ALICE L. CHERRY

Many Florida housewives are freezing and canning Florida citrus fruit for winter use. The best time to do so is when the fruit is in its prime.

When you have put up citrus fruit by one of these methods, you should try your hand at it.

Produce orange and grapefruit sections for freezing fresh fruit ready to serve when wanted.

Section fruit by slicing off both ends, placing fruit on a board and slicing downward, following natural curve of fruit.

Remove orange and grapefruit juice by cutting on both sides of membrane with a sharp knife and lifting out. Then use a dull knife to remove remaining sections.

Insert knife under membrane near center of core and gently move knife upward. Then slice knife at core and slide section. Lift out and re-slice when needed.

When enough sections are obtained to pack one container at a time, do so to prevent loss of vitamin C. Use a dry pack by sprinkling sections with 1/2 cup sugar per pint. Pack in airtight containers, seal and freeze at once. May be held one year at zero Fahrenheit.

Canine Citrus Because it has light and prevents destruction of vitamin C, color and flavor. Canned as juice or segments, grapefruit is better than any other canned citrus fruit.

So, in canning orange sections, it is preferable to can in combination with grapefruit—using equal parts of each. Grapefruit juice can be canned well, but satisfactory method has been devised for keeping orange juice or orange segments canned for any extended period without loss of flavor. Addition of sugar to juice when canning and freezing improves the flavor. When citrus is handled quickly, flavor and nutritive value are retained.

For canned grapefruit and orange fruit, cut a slice from fruit, cut up ends of sections. Place cut end on board and slice downward in wide slices to remove peel rag from fruit. Wash sections are exposed, and wash cans in simmering water bath 1 1/2 hours from top of can and drain 10 minutes or until cool. Center of can should be 180 degrees Fahrenheit. Seal immediately and process in a simmering water bath 180 degrees Fahrenheit for 10 minutes. Water bath should contain 1 quart water for every No. 2 tin used. At end of processing time, plunge cans into cold water. Label and store in cool dry place.
