SEPARATE PEACE VOTED FOR INDIVIDUAL ROADS MEN WILL RETURN TODAY

PRESIDENT OF SEABOARD RAILWAY NEGOTIATES THE TERMS

WILL END STRIKE

On Some Fifty Out of Two Hundred First Class Roads

CHICAGO, Sept. 14.—Members of the shop crafts policy committee, who yesterday approved peace plans for ending the railway strike through separate agreements of individual roads, today began separate peace negotiations under the terms of agreement. Instructions to various system federation officials to sign negotiations and arrange agreements with their roads sent out from union headquarters by Bert Jewell, chief of the strike leaders.

WASHINGTON, Sept. 14.—Advices to the Labor Department today from representatives in Chicago, said railroads representing approximately 85 per cent of the country's mileage signified intention of ending the shopmen's strike on a basis of agreement accepted yesterday by the shop crafts policy committee, and the roads representing additional 30 per cent are ready to end the strike.

CHICAGO, Sept. 14.—A settlement of the shopmen's strike is certain that the railroads will sustain the transportation act and should the questions upon which the strike predicated come back to the United States Labor Board, "the fullest, fairest consideration" will be granted, Ben Hooper, chairman of the board said in a statement today.

CHICAGO, Sept. 14.—The policy committee of the striking railway shop crafts yesterday authorized B. M. Jewell, strike leader, to sign a separate peace agreement with individual roads.

This action, it was stated, would end the strike on from 30 to 52 of the 202 class one railways of the country which it entered into direct negotiations with Mr. Jewell recently at Baltimore and on any others who cared to accept the peace terms.

With the announcement that partial peace had been voted, came the first definite statement from S. Davies Warfield, president of the Seaboard Air Line and representative of a railroad securities company said to control \$13,000,000,000 of stock, which showed he was responsible for negotiations that finally ended in the agreement.

The agreement was reached before the committee of ninety adjourned about 2 o'clock yesterday afternoon.

Preparations for ordering the men back to work on the roads which are parties to the agreement, were begun last night in a meeting of the executive council, attended by the international officers of the six shopcrafts. This meeting—as those of the past—was closely guarded.

The first move in the negotiations which culminated in the agreement started in New York August 25, when all hope of ending the strike even thru the aid of the "Big Four" brotherhoods had ended. Mr. Warfield telephoned Mr. Jewell and arranged further conferences. One week later, Mr. Jewell departed secretly for Baltimore and there the basis for yesterday's settlement was laid.

In addition to Mr. Warfield, Mr. Jewell and his executive council, the meeting was attended by Daniel Willard, president of the Baltimore & Ohio and A. H. Smith, president of the New York Central. The basis for peace was agreed to by both factions. Then Mr. Jewell and his officers returned to Chicago while Mr. Warfield began active campaign to line up the eastern roads. Mr. Willard came west and opened secret conferences here with Western railroad executives.

Last Thursday, Mr. Jewell authorized a call for his policy committee to meet in Chicago September 11. Nearly all the first morning was consumed

HARDWICK IS DEFEATED FOR GOVERNOR

HAD SERVED ONE TERM AS EXECUTIVE OF THE STATE OF GEORGIA

ATLANTA, Sept. 14.—Thomas W. Hardwick, after serving one term as governor of Georgia, went down to defeat yesterday before Clifford M. Walker, whom Hardwick defeated in a similar race two years ago, according to incomplete returns from practically all counties compiled by The Constitution today.

ATLANTA, Sept. 14.—Clifford W. Walker, who was defeated two years ago by Thomas W. Hardwick for governor of Georgia, appeared to have turned the tables and won a sweeping victory in the Democratic primary for the gubernatorial nomination today, on the face of incomplete returns received up 11:30 o'clock today by the Atlanta Constitution.

The figures indicated that Walker had carried 103 counties with a county unit vote of 268, or a majority of the 410 unit votes and that Hardwick had forty-one counties, with a total vote of 108. Sixteen counties were yet to report.

Clifford W. Walker, appeared to have 218 county unit votes, out of a total of 418, or enough to assure his nomination for governor of Georgia, on the face of returns early last night, received by the Atlanta Constitution, from yesterday's state-wide Democratic primary. Those figures indicated Walker carried eighty-eight counties, and that Gov. Hardwick had thirty-seven counties, with ninety-eight convention votes. Baylor, the other candidate appeared to carry no counties.

In the other races today, J. J. Brown appeared to be well in the lead of O. A. Blalock and O. M. Houser in the race for commissioner of agriculture on the face of the Constitution's early returns; M. L. Dugan, it was indicated was leading in the race for state superintendent of schools and R. E. Davison, incumbent, appeared to be in the lead for prison commissioner.

Unofficial and scattering returns to newspapers indicated that the incumbents were leading in the first, fifth, sixth and eighth congressional districts in their contests for re-nomination.

For chief justice of the Georgia supreme court, R. B. Russell appeared to be leading the incumbent. W. H. Fish and R. C. Bell seemed to have a comfortable lead in the race to succeed himself on the court of appeals. J. A. Perry appeared to be leading in the contest to succeed himself for railroad commissioner, while the fight for the vacancy caused by C. Murphy Candler's refusal to run for re-election appeared very much in doubt with the early vote indicating M. L. Johnson, J. E. Palmour and Walter McDonald standing in the order named.

DID YOU EVER STOP TO THINK—

THAT people who spend money want to receive courtesy as well as value for their money? They don't want to be met with a growl.

THAT your business men should not watch and wait for business, they should work to get better business for your city? They will have to WORK AND PULL TOGETHER TO DO IT.

THAT homes in your city must be at a premium, because every one wants one? WHY NOT BUY OR BUILD YOUR OWN HOME?

THAT with the right kind of co-operation of your citizens, your city can grow by leaps and bounds?

THAT you should display your public spirit and boost your city as she deserves.

THAT your city should always be energetic and that you should make her snap envied by your neighboring cities.

THAT the quickest way to sell or to buy, or to fulfill any want, is to ADVERTISE.

THAT by advertising, the desire is created in the minds of those who are able to buy.

THAT you should place your ad before those who have the desire plus the price.

THAT you should not stop too long to deliberate. DO IT NOW!

THAT opportunities are often lost by too much deliberation.

THAT IT IS THE GET TOGETHER, PULL TOGETHER AND WORK TOGETHER effort of every citizen that will make your city a GREATER CITY.—E. R. Waite, Secretary of the Shawnee, Oklahoma, Board of Commerce.

EASTERN SITUATION SERIOUS, MAY BE ANOTHER WAR INVOLVING ALL EUROPE

Powers Must Act at Once and Set the Bloody Turks Down

LONDON, Sept. 14.—The Eastern situation is causing considerable concern here, this was reflected in editorial columns of this morning's newspapers, some of which adopt distinctly alarmist tone. One says grave crisis confronts Allies, others declare situation drifting to a danger point, and that all elements are present for another flare war, that powers must act at once, and in agreement. If they fail to agree, nothing but a miracle can avert disaster.

REPUBLICAN MEMBERS REVOLT ON PUTTING THE DYE EMBARGO MEASURE BACK TO CONFERENCE

Some Leaders Surprised and Disappointed and Fearful of Result

WASHINGTON, Sept. 14.—Revolt against the action of the conference in writing back into the administration tariff bill a dye embargo licensing provision and a duty on potash the House late yesterday sent that measure back to conference. Its managers were instructed to accept the senate amendments repealing the existing dye embargo and placing potash on the free list.

Some Republican house leaders, plainly surprised and disappointed, were pessimistic as to what the ultimate result of the house action would be. Representative Mondell, of Wyoming, the floor leader, said he did not know what the outcome would be, while Chairman Fordney, said it looked doubtful whether there would be a bill at this session of congress. Chairman McCumber, of the senate managers, took a more optimistic view, however, stating that the senate would agree to another conference and that the differences would be adjusted speedily.

The vote in the house was 177 to 180, with 102 Republicans, 74 Democrats and the one Socialist voting in support of the motion by Representative Garner, Democrat, Texas, to recommit, and 120 Republicans and 4 Democrats voting against it. The vote followed a day of parliamentary wrangling and sharp debate and announcement of the result by Speaker Gillett was greeted by applause on both sides of the chamber and with loud cheers from many of the Democrats.

Republicans supporting the Garner motion included Scott and Taylor, both of Tennessee.

Democrats voting against the Garner motion were Campbell, of Pennsylvania, and Fabrot, Lazaro and Martin, all of Louisiana.

Most of the Republicans voting for the Garner motion are from the western agricultural states, and New York with a majority of them opposing both the dye embargo provision and the duty on potash. Other sections of the bill, however, came in for sharp criticism from the Republican side and some leaders regarded present sentiment in the house as so divided as to make doubtful the fate of the measure.

Apparently the move by Representative Garner, who is the ranking Democrat on the committee, which framed the original tariff, to include potash in his motion to recommit took the managers of the bill by surprise. In announcing that he would offer the motion Mr. Garner declared the potash duty was a "scandal" and charged that it had been placed in the bill "in order that certain interests in the state of Utah may have an opportunity to rob the farmers at the rate of \$30 a ton for potash they hold. He added that Republicans from farming sections might successfully defend their vote for the bill with the dye embargo provision in it, but they could not defend a vote for duty on potash. Chairman Fordney, in reply, declared the potash duty was necessary to protect the industry built up in Utah, California, Nebraska and other states during the war.

WAS STEPPING TO DOOR OF NEGRO HOUSE WHEN FIRED UPON

KILLED INSTANTLY

Negro Was Captured and Taken to Orlando It is Supposed for Safe Keeping.

(From Thursday's Daily)
A tragedy that stirred the city to its very depths occurred this morning about 9:00 o'clock just off of Park avenue near the A. C. L. railroad crossing when Deputy Sheriff Cleveland Jacobs in the performance of his duty was shot and killed by a strange negro.

This negro, who no one seems to know, had stolen another negro's pants and the negro giving chase had seen the thief go into the old Humphreys house that sits in the low swampy place on Park avenue. Telephoning the sheriff's office Deputy Sheriff Cleveland Jacobs responded and with Chas. Lord and the negro whose pants were stolen started to enter the house, Jacobs at the front and Lord at the back. The negro in the house had evidently prepared meantime by picking up a shot gun in the corner of the house and as Jacobs stepped in the front door he fired at close range the entire charge going into Jacobs chest and coming out on the left side of his body. Jacobs was immediately rushed to the Fernald-Laughton Hospital but died as they placed him on the operating table.

After being shot to death Jacobs fired two shots from his pistol at the negro and then told the negro, whose pants were stolen, to take the pistol and get him.

The negro meantime was surrounded near the Hart place and surrendered and was placed under arrest by Sheriff Hand, who spirited him away, it is said to Orlando for safe keeping. The feeling is very high against the negro and if he is found he will get no trial in the courts.

The dead deputy sheriff was a Seminole county boy and was about twenty-two years of age, well liked by everyone with whom he came into contact and as an officer was fearless in his duty at all times.

He was the son of Mr. and Mrs. Noah Jacobs, of Chuluota, where he was born and raised and had spent his early manhood. He leaves a wife and one brother and one sister and many other relatives to mourn his loss. The sympathy of the community goes out to the wife and the parents and relatives of this fine young man who was stricken down in the performance of his duty.

The funeral will occur at Chuluota Friday afternoon at 4:30.

ORLANDO, Sept. 14.—At 11 o'clock Sheriff C. M. Hand, of Seminole county, with a party of county and city officials brought the negro who this morning killed Deputy Jacobs to Orlando and lodged him in the county jail. He was allowed to remain here, however, not longer than fifteen minutes when he was put in a car by two Orange county deputies and hustled to parts unknown. The negro's name was Perry Bailey, 24, who it is said had been in Sanford but two days, coming from Louisiana. Those in the party that brought him here included in addition to Sheriff Hand, C. J. Ryan, city manager of Sanford; J. A. Killebrew, chief of police; J. H. Powell, of the police force who arrested Bailey; R. G. Williams, of the police force. At Winter Park the party was joined by D. V. Overstreet, chief of police of that city. The officers here lost no time in spiriting the murderer from Orlando county precincts. When he emerged from the jail here to make the further

COLORING PROCESS NOT TO BE USED ON UNRIPE FRUIT

Exchange men have been considerably exercised over the recent bulletin on the subject of coloring citrus fruits issued from the office of Captain R. E. Rose, state chemist at Tallahassee. After quoting at length concerning the installation of coloring rooms by Exchange packing houses the bulletin gives a caution against possible use of these facilities on any immature fruit. It is stated that a casual reading of this bulletin by persons not properly posted would give the impression that there was danger of the market being flooded with immature fruit which has been colored by this process; and thus create an undue alarm which may work against the reception of such colored fruit in the markets.

The opinion has been expressed by a number that the state chemist's office might have done better to have issued a caution on the subject after there had been some signs of violation of the regulations governing the shipment of immature fruit, instead of issuing a bulletin such as this before any violation had occurred, or there was any sign of intended violation.

It is pointed out by several that the development of this coloring process in Florida by the Exchange has been in close cooperation with the United States Department of Agriculture, whose experts were in the Florida field last season to assist in this work; and that the process has the full consent of the Bureau of Chemistry of the Department of Agriculture, which most emphatically would be the case if it was felt there was any intention to use the process on immature and unripe fruit.

It is also pointed out that as a matter of fact the process is not successful on fruit which fails to pass the regular acid tests. The process does not coat the fruit with coloring matter. On the contrary, it dissipates the green chlorophyll in the skin, allowing the true orange color to show naturally. Thus, it is only possible to use it on fruit where the orange color has developed, even though obscured to the eye by the green, as in the case of Parson Brown oranges, and on Valencia oranges which have taken on a greenish tinge at the stem ends while hanging on the trees after having once been fully colored.

Apparently the state chemist's office is not familiar with the actual tests as they have been made in the field, or it would know that the very pale sickly lemon color, which appears upon unripe seedlings or other immature oranges when treated by this process absolutely advertises the immaturity of the fruit. This cannot be mistaken for the color which the mature fruit puts on. Therefore, it is generally felt there is little or no danger in fruit which will not pass the acid tests being foisted on the markets by means of this process.

The Montverde-Ferndale Growers' Association, which is the cooperative organization of farmers and growers in this progressive and growing section of Lake county, elected officers for the second year of their work at their meeting in Montverde last week. Karl Lehmann, who has been secretary and sales manager of the association, resigned because of the heavy press of work in his new relation as secretary of the Orange County Chamber of Commerce, which position he assumed Sept. 1.

MAINE GIVES DEMOCRATS A BIG INCREASE

PORTLAND, Maine, Sept. 12.—The city of Saco, which returned a republican majority of 780 for governor two years ago, gave Baxter, republican, a margin of only one vote over Pattangall, democrat today.

A sharp cutting down of the republican vote from that cast in 1920 was shown from returns from more than one third of the state in yesterday's election. The democratic vote was holding close to that cast in the elections two years ago.

Senator Frederick Hale, republican, was leading Oakley C. Curtis, democrat, by 11,000 votes in the returns from 253 election precincts out of 635 in the state, representing 230 cities, and towns out of 520. These precincts gave Hale 30,370, Curtis 19,372.

Governor Percival P. Baxter, republican, was leading William R. Pottangall, democrat, by a slightly large margin in the same precincts, the vote being: Baxter 31,009; Pottangall 19,713. The same precincts in 1920 gave for governor: Parkhurst, republican, 45,821; McIntyre, democrat, 10,007.

Congressman Carroll L. Bandy, Wallace H. White, Jr., John E. Nelson and Ira C. Hoxsey, all republicans, were leading in the early returns but a close contest was indicated in the second district. In this district, Congressman White had a lead of 1,154 over Bertrand G. McIntyre, democrat.

STATE CHRISTIAN ENDEAVOR NOTES

Nearly three-fourths of the Christian Endeavor Societies of the state are actively working the plans of the special summer campaign directed by vice-president Robert A. Greene of Sanford and Miss Lucy Belle Railway of Miami. Meanwhile the All-South Extension Committee has issued the Dixie Goals and Banner Points for the year. The phases of society work upon which the Banner Points are determined include: Increase in number of Junior, Intermediate and Senior societies and Alumni Councils; Comrades of the Quiet Hour, Tenth Legioners and Leadership Training Courses; Honor Societies, Unions and Churches; Subscriptions to The Dixie Endeavor World; gifts to denominational missions.

Carl J. Matthews, Jacksonville, new Christian Endeavor field secretary for Georgia and Florida, is doing field work in Georgia during September, October 5 he takes up work in Florida. Besides numerous rallies to be held, of which further notice will be given later, Mr. Matthews will assist in three district conventions, Central District, Ocala, Oct. 7, 8; Lake City District, Branford, Oct. 14, 15; and Pensacola District, Pensacola, Oct. 20-22. Besides Mr. Matthews the Pensacola convention will have on the program E. P. Gates, Boston, General Secretary for the United Society of Christian Endeavor. The unions visited by Secretary Gates during his Florida trip last winter congratulate Pensacola upon securing the help of this splendid Christian Endeavor leader.

The Senior Society of the Miami Christian Church is the first to submit an Honor Roll (of 21 members) to the Alumni Department of the State Union. This membership represents beginnings of Christian Endeavor training in eleven different towns and five different states. Not all the Miami societies can show as large a membership for an Alumni Council but when it comes to preparations for the State Convention next June in Miami the entire membership of every society in the city will be hustling for Miami, Florida, as actively as if none of them ever could grow old in service living in the "Miami atmosphere."

The Florida Christian Endeavor Union extends congratulations to the newly organized Orange County Chamber of Commerce upon their selection of Karl Lehmann as secretary of that organization. It must be confessed, though, that if Mr. Lehmann's acceptance of his new office meant severing his connections with the Christian Endeavor Union, there would be several hundred or thousand

thoroughly sorrowful Endeavors in the state, but his co-workers in the union feel that no association of mortals or combination of organizations could pry him off from Christian Endeavor. Mr. Lehmann's Endeavor friends unite heartily in extending congratulations to both parties to the transaction, and, incidentally, accept the compliment to Christian Endeavor.

So well known has the Christian Endeavor monogram become and so universally is it being recognized as a title of usage, that the Underwood Typewriter Company has made a special monogram type bar for use on their machine. Chas. F. Evans, Chattanooga, Southern States Secretary, has for some time been using the monogram type instead of the "C. E." commonly used by Endeavors in the word "Sinc. E. rely" and the plan is being considered by Endeavors for adoption as the special "Dixie Way" of signing letters.

LIGHTING THE WAY

The Federal and state and county agricultural and home demonstration organizations constitute a mighty force which moves with time to administer to the multiple needs of humanity. A high official of our Florida organization has likened this organized force to a huge automobile, and he said the head light of that automobile is made up of our county and home demonstration agents.

Powerful as that force may be, it cannot move and serve the people unless it can see whether it goes. The agents constitute the light and the machine moves and serves, the Nation prospering and leading the world.

For the eleventh successive year the county and home demonstration agents of Florida are assembled at the University of Florida for a week of conference and school, assembled in an honest endeavor to gather information and knowledge on subjects pertaining to their business.

And their business and their value thru doing that business must not be considered too lightly. Thru them the people of the greatest industry in the world are served. The farm is the spring from which come our purest streams of citizenship, and from which arise the master minds of the world. Here, indeed, is supplied the best physical and moral stamina of our civilization.

SANFORD IS GROWING

"SPURLING'S SUBDIVISION" is attracting attention—lots are being sold right along and building in this section is such as to gladden the heart of those who have the good of Sanford at heart.

This is no idle talk—I have weighed the statement and to say just what is my candid convictions would put it most too strong for the careful, conservative person—that person whose eyes are turned backward—The fellow who has VISION will agree with me now—the other later.

called three per cent. loan contracts (in some cases four per cent.) is based upon the contract holder or purchaser paying into the company a stated amount each month—usually ten dollars per month on each one thousand dollars of loan applied for—continuing these payments until his contract is reached in order or until the "loan is ready."

A number of these companies have applied for a permit to operate in Florida under our "Blue Sky Law," and in each case their application has been denied by the board, which is composed of comptroller and attorney general. However, some of these promoters and schemers have undertaken to slip under the fence and have either organized local corporations or have set up business by way of the famous plan of declaration of trust.

The price of Cole has gone down in South Carolina since Tuesday. "Bonus Question will Follow Tariff Settlement" says headline in the paper. Which may mean anything or nothing. Charlie Chaplin, alleged comedian, will get married again this time to Lila Lee. Things move fast in the movies. Why do the Christian nations allow Turkey to run rampant and keep right on cutting up the Christians. We thought the war was fought to kick the Turk in the slats.

Late despatches say that the Greek army has all but been defeated by the Turks and is retreating. We believe it. They have already retreated as far as Sanford.

They say that the famine in Russia is over and there will be no more Near East or Far West begging for them this winter.

Ma Ruhl has quit the Sebring White Way and will go back to the farm as she and Pete have decided to go back to the old home place at Micantopy. We will miss them but the chicken pie looms nearer on the farm.

The strike will end on many of the roads today or tomorrow and when it does end it will be the end of all strikes for all time to come. The public will never allow another one to happen and if it does happen it will be the end of unionism on the public carriers and coal mines.

Jacksonville will get a new reserve bank. We don't know that this will add anything to what we have already said. The reserve banks are so-called because all the money is reserved for special purposes and poor people can't get any of it.

TOUCH NOT, TASTE NOT THE LIQUOR OF TODAY

It seems useless to point out to the fools of yesterday and today that they risk their lives if they buy what is called whiskey and drink it; the fools of yesterday are either dead or blind. The ones of today go on in their folly drinking wood alcohol. For months the Tribune and other newspapers have told men and women who crave liquor that the stuff that now is sold is poison; that it means death or total blindness.

One might as well get a rattlesnake in August or take a bobcat home for the children to play with as to drink the liquor now sold by bootleggers. We have some sympathy for those whose appetites demand strong drink; but they should conquer that appetite. It is against the law to sell liquor; it is against the law to buy it. Both the bootlegger and the purchaser are guilty, and yet both go on in the business, and the undertakers are busier than ever. It is a waste of time to keep on telling the unwise that they will die if they drink that which is being offered for sale. Miami liquor is no better than the Tampa product. Better stop your liquor habits right now.—Tampa Tribune.

THREE PER CENT LOAN CONTRACTS

The Florida State Banker, published at Tallahassee, contains the following notice, which should be read and digested by those seeking loans on home-building contracts:

It has been evident from information received by the state comptroller during the past several months that the state of Florida has been invaded by a class of promoters and "fly-by-night" salesmen who are offering and, strange to say, are having some success in selling to some of the public, a form of so-called loan or home-building contract. It is quite apparent that the words "home-building" were used as nothing more than to make the bait more attractive for the sucker. Of course, any form of legitimate building and loan association or financial plan which is sound in principle and carried out under proper guarantee of faithful and honest administration, is to be commended rather than condemned, but the contracts under consideration are not of this class. The general plan of all these so-

Inactive Liver
"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 4412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a light, dizzy feeling in my head. To get up in the morning with a lightness in the head and a trembly feeling is often a sign that the stomach is out of order. For this I took Theford's Black-Draught, and without a doubt can say I have never found its equal in any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have used it a long time, when food does not seem to set well, or the stomach is a little sour."

He understands the wall pa-
