## Effects Expected Here Today

# David Weakening, Veering North

PALM BEACH, Fla. (UPI) - Hurricane David, which left The hurricane center said steering currents shifted during the hundreds dead in the Caribbean including 400 in a Dominican night to push David on a northerly track up Florida's east coast at Republic church, spared south Florida's famed "Gold Coast" today, then churned north menacing Palm Beach and Daytona

At mid-morning, the National Hurricane Center in Miami issued tornado warnings as far north as Daytona Beach, where thousands of high school and college students frolic each spring. A hurricane watch remained in effect as far north as Jacksonville. Neil Frank, center director, said David "probably will parallel the Florida coast and continue northward and be a threat, maybe to North Carolina, within the next 48 hours."

Earlier, hurricane warnings were lowered from Fort Lauderdale south through the Florida Keys, allowing thousands of people a return to their beachfront homes and condominiums from e acuation centers where they had huddled during the night.

12 mph. Winds were 90 mph. At 10 a.m. EDT, the storm that has claimed over 600 lives was

located at Latitude 26.5 north and Longitude 79.6 West, about 40

miles southeast of Palm Beach. Four-hundred people were killed when floods generated by Hurricane David swept through a church where they had taken refuge, a Dominican official said.

But some Floridians apparently were not heeding storm warnings. On Singer Island, just north of Palm Beach, an unidentified elderly man said he planned to mow his lawn today and refused to evacuate. A woman nearby said she would also ride out the storm to take care of her Persian rug.

To the south at Pompano Beach, J. Maxim Ryder, 77, a retired radio newsman from New England, and his wife, Martha, also

"We're all boarded up, drinking coffee and everything has been

According to U.S. Weather Bureau spokesman John Newton in Orlando, gale force winds (39-45 m.p.h.) were expected to hit as far north as Daytona Beach if the storm stays on the skirt of Florida's coastline.

"Right now, that's what it looks like," he said at mid-morning. Newton added that the force of the storm would affect an area for eight to 12 hours, traveling at the present rate of speed, 10

The center said there was a threat that David might still move inland later in the day. "While some weakening has occured, David is still a dangerous

spread northward through the remainder of the warning area. Hurricane conditions continue to affect the northwest Bahamas. the hurricane center said.

In Washington, President Carter today declared Puerto Rico a The action will enable an estimated 1,500 homeless families to get financial aid in recovering from the effects of Hurricane

Wind gusts of up to 62 mph were recorded at Palm Beach International Airport and tides along the coast were running 2 to 3 feet higher than normal. Tides of up to 8 feet higher than normal were expected as the storm approached Palm Beach. Highest winds in the Miami area were 70 mph in the predawn hours as David swept past to the north 50 miles off the coast.

Order To Clear Out

Was Phony

The first evacuations in Seminole County started Sunday night — prematurely. County public safety director Gary Kaiser said 30 elderly persons from the Sanlando Mobile Home Park near Longwood were told to evacuate their homes and seek shelter at Lyman High School. Kaiser said the person making the alert was an unauthorized civilian acting without direction. He said the man drove through the trailer park with a

According to Kaiser, the 30 residents arrived at Lyman and were let into the building by a surprised school district em-ployee. The residents were provided with cots and remained through the night. their homes until they are told to leave," Kaiser said. He said that in the event certain areas are determined to be in immediate danger, a policeman,

fireman or sheriff's deputy will conduct a door-to-door alert Seminole County Sheriff's Department spokesman John Spoiski said that as of 10 a.m. today there were 25 persons

#### American Warship Rescues

#### 154 Vietnamese Boat People

MANILA, Philippines (UPI) - An American warship fished 154 Vietnamese refugees from the South China Sea today in the single largest rescue by the U.S. 7th Fleet since it began searching for the "boat people" 45 days

A Navy spokesman said the refugees, 20 of whom were ill, were packed into two small junks, one towing the other, when a Navy P-3 Orion patrol plane first sighted them Sunday afternoon. The U.S.S. Whiteplains, a combat supply ship, conducted the rescue early today. The Whiteplains sank both junks after the rescue since it was impractical to tow them and they could have become navigational hazards, the Navy said.

#### U.S. Dollar Down Slightly

LONDON (UPI) - The U.S. dollar opened slightly lower on most European exchanges today, primarily in reaction to the strength of gold, dealers said. "The dollar eased mainly on the strength of gold, despite higher prime rates in the United States last week," a trader for Barclays Bank said. A Citibank dealer confirmed this view, adding, "No heavy selling was evident."

#### **Express Rams Train**

SAN SEBASTIAN, Spain (UPI) - A Madrid-bound express train sped through a red signal light and smashed into a local passenger train halted at a station today, injuring at least 38 people.

The Iberia Express, bound from Irun to Madrid, rammed the San Sebastian-Irun train, at the Gros station in San Sebastian near the French border. There was no immediate explanation of why the express failed to halt at the red light.

Titan has a potential for life because it has an atmosphere of ammonium and carbon necessary for development of living organisms, NASA scientist said.

#### Measle Cases Decline

ATLANTA (UPI) — A dramatic decline in the number of measles cases reported so far this year has federal health officials predicting a record-low for 1979. In its weekly morbidity and mortality report, the Atlantabased Center for Disease Control said if known cases of measles "continue to decline at the current rate, the projected 1979 total will be between 13,000 and 14,000 reported cases, an all-time low for the United States." The big drop apparently was the result of a national effort announced last year to try to eliminate the disease in America, except for imported cases. The CDC said 12,000 cases of measles had been reported between Jan. 1 and Aug. 25.

#### Rationing Accord Expected

WASHINGTON (UPI) — The House and Senate are soon expected to reach a compromise agreement on an emergency gas rationing plan — one of the key ingredients of President Carter's energy package.

Congressional sources predicted the two bodies would wind up work on the rationing legislation soon after returning Tuesday from a month-long recess. Both the House and Senate have approved rationing bills, but negotiators have to reconcile differences bet-

### America Still Is A Working Nation

The role of sanitation workers is as important, in its way, to the nation's health as that of doctors. Many a white-collar executive has called a blue-collar plumber late one night to ask him to repair a sudden leak.

And would we who write editorials ever see them in print if many skilled men did not turn their hands to the equipment that creates the printed

So on this Labor Day, when the nation ends its summer respite and begins to gear up for : the fall and winter months, Americans of all professions and all skills look at their brothers in office and factory to acknowledge that we all need each other to make our world go around.

Even those who cop out of the "rat race" to do for a time what they think is their thing must eventually admit that not only does man not live by bread alone, he soon finds himself needing it.

America is a workingman's nation, a nation welded and hammered and dug and planted and bolted together in the sweat of many brows and the intellect of many brains.

On this Labor Day, we can take note of the defects in our free enterprise system — flaws which have permitted too many Americans to live a subpar existence: flaws which exclude too many Americans, through no fault of their own, from meaningful employment within that system. We can resolve that we will remedy those

But even as we note our shortcomings, we can justifiably praise the total achievement of America's workers, and we can vow that what Americans have labored hard to achieve will be

### A Cheap Shot

When the Iranians began running out of heating and cooking oil last winter, shipments from the United States helped tide them over. In spite of their generous resources of crude oil, damage to their refining facilities during the revolution has left them short as another winter approaches. So the Carter administration is authorizing the shipment to Iran of another two million barrels of kerosene and diesel fuel.

Why the big flap over this rather simple exercise in foreign policy? The people putting up a howl are overestimating the importance of the amount of fuel involved, and underestimating the importance of maintaining the right U.S. relationship with Iran.

Those two million barrels of distillates represent one-tenth of one percent of our own annual consumption. Its absence from the U.S. inventory will have a negligible impact on our supplies for the coming winter.

To turn down the appeal from the Iranians could have a bad impact on our relations with a country that is a major supplier of crude oil for our own refineries. The gasoline lines last spring showed us what can happen when Iranian oil is cut off. Most Americans have no sympathy for what they have seen so far of the new Iranian government, but since oil began to arrive again from Iran and our gasoline lines cleared up, we have heard no motorists objecting about where the supplies are

President Carter has approved a quid pro quo with an oil supplier we depend on, and it will have the ultimate effect of keeping Iranians warm this winter. To criticize him for it is a cheap shot.

#### BERRY'S WORLD

State Sen. John Vogt, D-Cocoa Beach, has requested Gov. Bob Graham to include a psychological practice act in his call for one of the two special sessions of the Legislature this fall. Around The first special session is to begin Oct. 22 or 29

> and the second during early December. Vogt in asking for the inclusion of the additional item reminded the governor the law regulating the profession of psychology expired during the regular session and the Legislature failed to re-enact the laws due to differences of opinion regarding

"In the absence of state regulation a county occupational license is all that is needed to practice psychology, he said. "Requests for these licenses have poured into county offices all over the state. Unless a county individually adopts ordinances spelling out minimal qualifications we could have people with no qualifications practicing psychology in Florida," Sen. Vogt said.

He told the governor his request was not on behalf of psychologists of the state, but on "behalf of individuals who in an insecure or even fragile state of mind, seek the aid of those professionals." Sen. Vogt said the governor's office has indicated a decision on the request will be made as

soon as possible.

Terry Lamond, the former "red hot mama" of Rosie O'Grady's will be giving a performance honoring Altamonte Springs City Commissioner Dolores Vickers in her campaign for re-election

The party is to be held from 3 to 6 p.m., Sept. 9 at the Log Cabins of the South, adjacent to the 701 Building, SR 436, Altamonte Springs. The candidate qualifying period in Altamonte Springs for the Nov. 6 city elections opens Sept. 7 and closes Sept. 24.

to the east of Hurricane David. Despite an abundance of downed trees and scattered debris, there were no reports of serious injury. Most of the area retained power throughout the storm, but phone service today remained

> An assessment team consisting of civil defense and public safety personnel began touring Seminole County about 11 a.m. to determine the over-all structural damage from the hurricane. The team is compiling a list of reported damage estimates on all commercial and residential buildings in Seminole County to turn over to Florida Gov. Bob Graham.

Persons who wish to report damages are asked to call 323-4330, extensions 261,263, or 264. Sanford Public Works Director A.R. Kelly said he was "surprised" by the lack of damage from the storm.

"There was hardly any damage at all," Kelly said. He said there were a number of trees down and a canopy at the Wareco Service Station on French Avenue was damaged. But the

steady rain has not occurred, he said. As of 6:30 a.m. today, Kelly said all streets were open. Two incidents resulting from Hurricane David's fury did cause

more than \$10,000 in damages to Seminole County residents. according to law enforcement officials. An Austrailian pine was blamed for an estimated \$9,800 in damages to a car and a mobile home in Sanford, according to

The pine plowed into the property about 3:15 p.m. Monday at 2545 Park Drive, Trailer 73 lot in Sanford, police said. Gerdine Walker, 48, told police the pine fell on the top of her 1977 off, but even that was less than previous occasions during local Oldsmobile striking a 20-foot trailer belonging to Herbert Dyk-storms.' man, 53, of the same address.

Damage to a 1975 Dodge Van resulting from the gusting winds was reported Monday to the Seminole County deputies. Thomas W. Farmer, 19, of 346 Coble Drive, Wekiva Hunt Club, near Longwood, told deputies the tree in his front yard fell on top of his van sometime Monday. Damage to the 1975 Dodge Van was estimated at \$300, he said. John Spolski, spokesman for the Seminole County Sheriff's

flooding that had been predicted to accompany the high winds and Department, said he was "pleased" the public generally had placed emergency-related calls with the department Monday and not tied up the lines with minor complaints.

> "We were most pleased we were not inundated with people calling in petty-type calls," Spolski said. "We wanted to make sure we would be able to accept legitimate emergency calls for The sheriff's department's 11 incoming telephone lines at no

time were tied up to inhibit personnel from accepting and calling out for assistance, he said. He added, "We did have calls involving burglary alarms going

Tom Hunt, manager of Southern Bell for Seminole County, said his office has been flooded by reports of inoperative phones.

"We now have all of our employees on the job repairing storm damage. We've taken the entire installation forces and put them with the repair people," Hunt said.

"We'll be doing no installation work today and this situation may even extend through Friday. "In Sanford we have four cables out, affecting 275 customers.

"In DeBary alone, we have three cables out of service and also damaged by water. "We had four telephone poles down in the Sanford-Lake Mary

area and we've had 35 to 40 reports of wires being down. "We have three of four days of hard work ahead of us and once more I'm asking our customers to bear with us. And you might remember, unless you have an urgent call, please hold off for awhile. Under the circumstances, we don't want the lines

Lake Mary City Manager Phil Kulbes termed the storm damage "minimal." He said there were a number of downed trees, but that all city roads had been cleared and were now open There was a brief power outage early today when a tree fell across a power line, but service was restored at 2 a.m. Kulbes

A similar outage occurred in Longwood, where residents were without power for about four hours. Officials in Altamonte Springs said damage from excess debris and downed trees will require about \$10,000 worth of repairs to
