Mother

By REV. ROBERT E. LOY

He maketh the barren woman to keep house, and to be a joyful mother of children. Praise ye the Lord. Psalm 113.9 The name "mother" is one of the few words in our language that has a fixed meaning. By that I mean that it never changes. Webster defines mother as a "female

We owe more to mother than to any other person outside of Christ. She gave birth to us, was the first to care for us, to love us and to teach us. She was the one who molded into our lives the basic foundation of a good character. Today, let me share with you some thoughts on "being a

1. A joyful mother is a woman of faith. The Bible teaches us that "without faith it is impossible to please God." I believe one of the best memories that any mother can leave her children is the memory of her being a mother of faith.

2. A joyful mother is a woman of good works. The Bible teaches us that "Even so faith, if it hath not works is dead being alone. . ." Our faith is a springboard for our good work. It was the woman Rahab in the Bible who believed the spies sent from God's people into Jerusalem and protected them from harm. Her protection for God's men was the

3. A joyful mother is a woman of prayer. The Bible teacher us to "watch and pray that ye enter not into temptation." Who was it that taught you your first prayer? Most likely it was your mother. A mother of prayer will teach her children to pray. Most children learn this simple prayer first from their mother, "Now I lay me down to sleep, I pray the Lord my soul to keep, if I should die before I wake I pray the Lord my soul to take." How thankful we are for mothers of prayer. 4. A joyful mother is a woman who stands on God's promises. The Bible teaches us to "bring up a child in the way he should go and when he is old he will not depart" and "The rod and reproof gives wisdom but a child left to himself bringeth his mother to shame." You will never go wrong standing on God's promises.

I hope that each mother who reads this article today is, or will be, a Joyful Mother. Trust your life to the Lord Jesus Christ and yield to His spirit in all that you do and I know that you will be "joyful". Be sure to attend church somewhere this "Mother's Day."

## What Price Nixon's Interdiction?

Events are following events of such grave portent that the immediate repercussion following President Nixon's momentous broadening of the Indochina war have yet to form a pattern.

This is being written as the first hours of the arming of the minefields along the North Vietnam coast transpire. Martial law has been proclaimed in South Vietnam by the desperate

Sober debate in Congress has indicated the basic flaw in such deliberations as preceded the Nixon decree. For the cry from all sections is one

Rehearsing the old arguments is futile Today's public will just not swallow them as important enough to risk a global holocaust.

Already the anti-war ranks have been swelled and spurred into violent demonstrations against this interdiction of supplies for the North Vietnamese from the two chief suppliers Russia and China.

When placed in context with the state of affairs which were in being before the wellarmed, well-trained and determined forces of the North Vietnamese stormed over the DMZ, the import of the Nixon decision is even more surprising.

For President Nixon had based his presidential career on the pursuit of peace. His history-making visit to the Communist leaders of Mainland China had gone off quite well.

A few weeks ahead was the equally im portant and even more difficult trip to Moscow and the talks with the leaders in the Kremlin when the last vestige of the "Cold War" were to be erased.

Now all of this is in jeopardy. Thus from his own point of view the American president must have balanced this against his own commitment to the upholding of

the Thieu regime which was created under less than democratic conditions and which now appears to be failing. The most informed and responsible comment which followed the surprise announcement

from the White House, which committed the full might of the American Navy and Air Force to this interdiction, has noted that in new terms the support of Thieu, by name, was not included and that the new conditions could provide a small light of what now appears to be a very dark

Understanding between the two great nuclear powers in a "sine qua non" for this time. Without it the cloud of fear could again float out and over the world with harm which is not

## Labor Vote Slips From Democrats

By RAY MCHUCH CHIEF, WASHINGTON BUREAU COPLEY NEWS SERVICE

INDIANAPOLIS, Ind - Democratic political leaders are face to face with a major crack in the party foundations built by President Franklin D. Roosevelt 40 years ago. Regardless of who wins the presidential nomination at Miami Beach, primary election results indicate that the candidate faces enormous odds in his attempt to unseat

President Nixon. The "labor vote" is slipping away from union leaders and the Democratic Party. Organized labor still represents the financial heart of the Democratic campaign. Some estimates of union political spending this year run as high as \$70

But this spending is always predicated on the assumption that the great majority of union members will support the Democratic nominee, Primary results in Florida, Wisconsin, Indiana, Pennsylvania and Ohio raise questions. The blue-collar worker in 1972 is showing a decided con-

Last October this column lamented the fact that in five of the six cities of Seminole County charter requirements virtually denied the newly enfranchised 18, 19, and 20 year olds from holding municipal office.

The charters of Casselberry, Altamonte Springs, Longwood, North Orlando and Oviedo provide that those seeking public office be owners of real property. Now the provision appears to have been struck down by U.S. District Judge George Young in a decision directly ef-

fecting the City of Cape Canaveral. Since candidates for the presidency, governorship of Florida, seats in the U.S. House and Senate, Florida Legislature the school board, County Commission or indeed even tax assessor need not be land owners, Judge Young's decision appears to be very fair.

Fortunately for North Orlando, City Attorney Thomas Freeman anticipated the decision and excluded the provision from that city's new charter and by the same token Longwood's attorney S. Joseph Davis Jr. also strongly recommended the city's planned new charter also exclude So, any young person who feels he is qualified can throw his hat into the ring in the cities come this fall.

Fitts Quits

As was made public at last night's meeting of the Seminole County Democratic Executive Committee, Helen Fitts after little more than one month as head of the Demos in this county relinquished the chair and her seat on the board due to a health problem. As Helen told this columnist she will remain faithful to her

member of the local organization she will no doubt be missed Taking over the reins of the party, at least temporarily, will be Kenneth Krause, elected vice chairman also a month ago. Krause will have the option of calling an election for the

office of chairman in 90 days and seeking the post at that time

A 75 per cent drop in new construction values was recorded in Seminole County during the month of April. A decrease was not entirely unexpected with the concrete shortage and certainly few expected the super peak level reached in March to continue

if he chooses.

In any event, the total of new building in Seminole and the six municipalities for the first four months of the year is a

formidable \$54,689,4770. Totals in April were \$12,625,412 compared to \$21,026,544 in March. February saw new building valued at \$13,100,676 and another \$7,936,838 in January.

Altamonte Springs led the way in the county constructionwise in April with a total of \$5,414,905. When added to the \$7,015,031 in March, \$3,625,967 in February and \$1,297,535 in January Altamonte has a total for the year of \$17,353,438. Altamonte's April building permits included 63 single family dwellings valued at \$1,894,750; \$1,120,000 for 112 units in the second phase of the Royal Arms Apartments; \$1 million for the 68 units in the third phase of the Windmeadows condominiums; \$900,000 for the 124 units of the second phase, of Spring Lake Hills Apartments and the new city hall at

Total building permits issued in April were 89. In the unincorporated areas under the control of the Board of County Commissioners, meanwhile, some 326 permits were issued during the 30 days of April for value of \$5,197,542 including 182 single family homes valued at \$3,682,645.

#### Totals Drop From March High

The county's total value of new construction since the first of the year is \$25,929,528 including some \$9,059,176 in March; \$6,790,021 in February and \$4,882,789 in January. Sanford during April issued 186 permits for value of \$282,217 including one multi-family dwelling at \$180,000. Construction in March totaled \$3,425,905 while February saw

\$1,188,298 and January \$420,918 for value through the first four months of \$5,317,338. Casselberry's building value through the four months totaled \$1,966,138 including \$747,482 in March; \$499,870 in February and \$229,494 in January. In April, 124 building permits were issued for a value of \$489,292 including 28 single

family homes at \$402,779. North Orlando followed Casselberry close behind with \$1,912,050 in new construction for the first third of the year. Building permits valued at \$513,000 were issued in April; \$456,350 in March; \$354,000 in February and \$588,600 in

Last month Oviedo issued 18 building permits for new construction valued at \$346,000 including 13 single family homes worth \$286,000 and five duplexes valued at \$60,000. Total for the four months including \$138,600 in March; \$364,800 in February and \$361,000 in January was \$1,210,400. Construction continued active in Longwood with 14 permits issued in April for value of \$382,356 including 11 single family homes valued at \$128,656 and two professional office buildings worth \$248,000. Total for the four months was \$1,000,578. March saw building in the city valued at \$184,000 with \$277,720 in February and \$156,502 in January.

#### Chairs Add Color Note

The walls in the large meeting room of the new Altamonte Springs civic center are to be mint green and folding chairs, some 300 of them, will be evenly divided in sets of 100 each in shades of orange, blue and tan, the Council decided this

Councilman Helen Keyser, to make certain she orders for

the new facility exactly what the City Council desires, brought four different types of chairs to the meeting with her. Of course, one of the more economical types was chosen. They are to cost \$6.27 each. All of the friends of Councilman Dan Dorfman's better half, Joyce, will be happy to learn that she is recuperating at home

When is a gasoline pumping facility not a gas station? Well, we will all find out after a public hearing is held in Altamonte Springs on May 30 to determine if a variance should be given to Days Inn for gas pumps in front of the new motel facing Wymore Road. The property is not zoned C4 which permits

gasoline station construction, but some are of the opinion a

variance can be granted in this particular case. The Council there was put in somewhat an embarrassing position Tuesday night. While Councilmen Keyser and Tom Radioff were giving reasons why the pumping facility should not be allowed. Bruce Kessler representing Days Inn displayed a letter, said to carry the signature of the city's former building inspector, pledging a building permit would be issued for the gas pumps.

#### So Watch It! Longwood dog owners take note: Police Chief R.E. Sweat

has come to the end of his patience as far as stray dogs are concerned. He reminds that the city's dog ordinance requires that animals be under control of owners at all times. It should also be pointed out that even though police officers are public servants, they are due courtesy and respect. One can file a complaint in a mannerly way. Rudeness and crudeness are

### Sources of 'experience' need not be divulged

By Abigail Van Buren

DEAR ABBY: How much should a girl tell a fellow about her past? I have been dating a very wonderful man for the past five months and he is getting serious, talking about marriage, etc.

He knows I am not lily white, but he doesn't know how many and who, and he would be shocked and disappointed if he knew, I am 24, and I have thought I was in love about ten times in my life.

I am not too proud of my conduct, but I've grown up a lot since then and I'm really not a tramp; I've just had a let of experience for my age. What is your advice?

DEAR LIBFA: I see no reason to provide anyone with the names and numbers of all the players. Let sleeping

DEAR ABBY: We are loyal Abby fans and have patiently gone through the problems of smokers, non-smokers, knitters, non-knitters, swingers, non-swingers, and so on. Now, we are asking you to please give us a short listen. This is on behalf of all METER MAIDS who would like to answer nationwide, a few questions we are asked every

day by at least a dozen people. 1. No. We do not have a "quota" of tickets that we have

to meet every day. 2. No. We do not work on commission. [I wish we did.] And while we are writing to you, Abby, will you please tell the public that we don't appreciate those cute little "oink" noises some people make behind our backs. Ours is

a job just like anybody else's. MISUNDERSTOOD METER MAIDS

DEAR Ms. M. M .: Will do. But every meter maid I've ever seen looked well able to defend herself.

DEAR ABBY: I saw a letter in your column not long ago which reminded me of my own situation. My in-laws are also continually giving us financial help, and to tell you the truth, I despise going over there anymore. It's gotten to the point where there is just no hope for us to ever pay them back but they keep on giving.

Maybe I am too independent, but I feel that once you are married you are on your own. My husband doesn't see anything wrong with accepting a lot of things we can't afford. This situation has caused a lot of quarrels between

riage to split up. It certainly is working on ours.

DEAR ABBY: I play the trumpet in the high school band. I also play with a bra : band for dances. The other day I saw an article in the local newspaper which stated that trumpets and brass instruments cause heart trouble. What I want to know is, do I have anything to worry about?

DEAR LIPS: Not if you have a healthy heart to start

DEAR POLLY-Judy's problem with a cowboy hat that is too large and blows off is very simple to solve. Buy two long leather shoe or boot laces. Put a very small hole in each side of the hat where the crown meets the brim and install eyelets, using a metal eyelet kit or work around the holes with the buttonhole stitch. Polly's Problem DEAR POLLY-We are considering a two-week camping trip to Canada early in the summer but our big concern is whether or not such a trip is a bit foolhardy as we have a 15-month-old baby. We would be carrying a tent in the trunk of the car rather than pulling a trailer so space would be limited. I would be interested in knowing if any readers have attempted such a trip with a baby and whether or not they would do it again. Should we forget the idea? If it seems practical, I would appreciate hearing any hints for such traveling and camping from others who have done it -JEAN

## Teen Is Arrested On Rape Charge

Ronald Jay Wilcox, 18, Winter Park, has been charged with assault with intent to commit rape of an 18-year-old Altamonte Springs woman, when she picked the bicycle riding, knife-carrying man from a line up held by Maitland police, shortly after the suspect was arrested on a breaking and entering charge.

> Det. Sgt. Tony Calangelo said Wilcox was charged after the woman reported she was forced at knife point Thursday to drive to a Longwood cemetery and submit to his sexual advances.

The investigator reported Wilcox was charged with the rape of a second victim, an Orange County woman, which occurred Wednesday, the day before the alleged Seminole County assault. A "hold" and a Seminole County warrant has been

placed on Wilcox, the detective advised. Wilcox was arrested Friday hiding in a closet of a Maitland house by police, who were summoned by

the resident of the house after she saw the suspect's bicycle hidden in the bushes nearby. The detective stated Wilcox had his knife in his hands when police opened the closet.

Barbara Pietrzak, 32, of 840 Lake Katherine Drive, Maitland reported Wilcox came to her home and asked for directions earlier but she was leaving at the time. When she returned home, she found the suspect's bicycle nearby and, becoming suspicious, she called police who entered the house and flushed

Maitland Police Chief Ralph Jones noted the assured" of getting the bid to be alert he had just received from Seminole County advising the assault and called Calangelo, who arranged for the Altamonte woman to view the suspect in a lineup, where identification was made, the detective added.

### Summer Crush To Come

## Million A Month To Disney

ORLANDO,Fla.(AP)-America's No. 1 mouse is hosting a million visitors a month at his new Florida home and hotel owners are dusting off their "No Vacancy" signs for the June-

July-August crush. Mickey Mouse is braced to welcome up to 70,000 kids of all ages at Walt Disney World near Orlando as "Disneyland East" roars into its first summer. Although lodging space is ex-

pected to get super scarce in the central Florida boom country, an Associated Press survey remake reservations this month. "May's always been dead around here and 1972 is no different," said Jim Ritter, assistant manager of the Parliament house Motel in Orlando. "But,

we expect to be booked full two weeks ahead all summer." Rates at the Parliament House have gone from \$15 to \$20 for a double since Disney World came to fown, but Ritter quickly added, "We're still a great deal behind the prices in Miami during the winter." Miami Beach, once a seasonup for the long, sizzling summer, still runs on a schedule of greatly varying rates, but the occupancy rate appears much

higher than in past surnmers. "Disney World is certainly helping us," said a clerk at Hollywood's Diplomat Hotel "People don't drive to Florida just to see a big, overgrown amusement park. They want some sun, surf and outdoor sports. For that, many of them come on south."

The Miami area is 225 miles south of Disney World, a three

Florida Turnpike.

Spot checks at hotels and motels in coastal areas to the east and west of Orlando showed a heavier-than-usual reservation rate, but nothing near capacity

for the summer months ahead. "When people find themselves getting turned away by Orlando area motels, then we'll start catching the spillover traffic," said a spokesman for a Tampa motel. "We look for calls to begin pouring in come June." (Cont'd On Pg. 2A Col 8)

OUTSTANDING IN THE STATE

Mrs Camilla Bruce, Seminole County supervisor of elections, was honored as the most outstanding of the 67 in her position in Florida at the annual banquet of the Florida State Association of Supervisors of Election at Tallahassee. She received the Hodson Drew Memorial Award (inset) for having "contributed the most to the association during the year."
