JURY IS PICKED FOR NEW TRIAL OF BANK HEAD

Local Banker Will Be Tried For Making Excessive Loans, Contrary To State Law

Raymond Key To Be Star Witness

A jury to sit in the fourth trial of Forrest Lake in connection with the failure of the Seminole County Bank, of which he was president, was picked at 6 o'clock this afternoon as the last man in the special venire of 65 was put in the jury box. Taking of testimony will begin at 8 o'clock tonight when the jurors will be sworn.

The men who will sit in the case are: H. C. Douglas, an employe of the White-Highway, Inc., Chevrolet dealer;

James A. Sands, plumbing contractor, who has a plumbing fixture and radio shop on Sanford Avenue;

W. E. Betts, salesman for the Sanford Bulk Company and brother of Archie L. Betts, assistant cashier of the First National Bank;

Joseph Ludwig, colery farmer and borrower and depositor in the Seminole County Bank;

E. H. Richard, a depositor in the bank who knew Lake when he was a member of the legislature at Tallahassee. He is a fertilizer agent for this county at present and a former officer of several banks;

Leonard Kels, 70 year old orange grower who was in the City of Sanford 30 years ago. He says he knows Lake and A. R. Key, the state's star witness.

State and defense at 12:30 today had failed to agree on six men to try the new case against Forrest Lake, former president of the Seminole County Bank who yesterday was found guilty for the second time in connection with the failure of the bank. Thirty-nine veniremen have been in the jury box since this fourth trial of Lake began at 8 o'clock last night.

In this case Lake is charged with making a loan in himself of \$253,780.21, a sum in excess of the 4 per cent of the capital and surplus of the bank; the limit for loans set by state banking laws. The state claims the loan is in excess of 200 per cent of the capital and surplus which was \$125,000.

A. R. Key, former vice-president and cashier of the bank and friend of Lake's, is expected to be the state's star witness. He has already entered a plea of guilty to the charge on which Lake is being tried. The indictment was returned against them jointly and Judge De Witt T. Gray has granted a severance of the cases.

The audience in court this morning was decidedly slim compared to the crowds that packed the courtroom during the case in which Lake was found guilty late yesterday afternoon. Apparently, the hundreds who heard testimony and arguments in that case are taking a rest so they will be in shape to handle their way into the courtroom after this case really gets under way. Taking of testimony will probably start sometime this afternoon unless a jury cannot be picked from the remaining 10 men already summoned for service. If that happens there will (Continued on page 3)

Victim's Condition Is Still Unchanged

The condition of Miss Margaret Kelsey Orlando girl who suffered fractures of the skull in an automobile accident near Maitland on Monday night, was reported practically unchanged today by hospital authorities. While it was stated there may be just a slight improvement in the young woman's condition, she has not regained consciousness, having been in this state since the crash on Monday. Miss Kelsey was injured in a collision that involved three automobiles. A truck, either parked or moving slowly was said to be the cause of the smash-up.

WITNESS STATES KLAN SOUGHT TO CONTROL JUDGES

Former Grand Dragon, In Deposition Reveals That Order Tried To Bribe Legislators And Public Servants

CHICAGO, Apr. 13.—(INS)—In previous parts of his deposition, David C. Stephenson, former grand dragon of the Ku Klux Klan in Indiana, told the history of the hooded order and today he tells how the Klan sought to control judges, legislators and other executive officers. In a grand scheme of control, the Klan sought to control the judiciary, the legislature and the executive branch of government, according to Stephenson. He said that the Klan sought to control judges by offering bribes and by influencing the appointment process. He also stated that the Klan sought to control legislators by offering bribes and by influencing the election process. Stephenson's deposition is being taken in connection with the trial of the former grand dragon of the Klan in Indiana.

Q.—"Mr. Stephenson, please tell in what ways the Klan has departed from its original purposes?"

A.—"In a great many ways, one of which was its political machinations. Since the rule of Col. Simmons the Klan has been used for the purpose of dominating the courts, trial juries, and dominating the legislature of various states. For the purpose of corrupting the ballot boxes, by juggling the funds of states over which it had control through men elected to public office, by bartering in state contracts, by accepting the profits therefrom and by otherwise using means caused to be appointed its positions of trust.

'Smilin' Through' To Be Given Tonight By Chautauqua Group

This afternoon at 8 o'clock a large crowd of Chautauqua patrons were thrilled with a popular impromptu entertainment by the Fauged Entertainers. This company, three in number, directed by Clarence Faugel, who had learned all his stuff from Chicago, may have had it said of him. "He has far surpassed his master."

The quick changes from one distinctive character to another, the accomplished art of make-up, the outstanding ventriloquist act, by Gladys Faugel, were some of the highlights of the afternoon.

Tonight at 8 o'clock, comes the famous Classic of the American stage, that great emotional, romantic play, "Smilin' Through," a presentation under the direction of William Kenley of New York.

The play is one of those that makes an universal appeal. The plot hinges around the vital themes of youth, love, misunderstanding and a sadly misplaced desire for revenge. Two young people are deeply in love, a vision of the future attempts to part them. Through the efforts of a life long friend, the old man sees the error of his ways, and then the figure of his boyhood sweetheart, his Moonshine, comes "Smilin' Through" in apparition of his changed heart.

Speaker Longworth Enters Flood Control Fight On Floor Of House

WASHINGTON, Apr. 13. (INS)—Speaker Nicholas Longworth of the House today entered the Flood Control Fight in an effort to forestall a presidential veto and the adjournment of Congress without providing against new disasters in the Mississippi Valley.

Calling Republican leaders of the House and spokesmen for both elections on flood control into conference, Longworth urged consideration of amendments designed to bring about a compromise. President Coolidge, according to word transmitted to House leaders, has definitely decided to veto the Hein Jones Bill unless it is amended. Longworth condemned the measure in its present form, which is estimated to cost eventually from \$750,000,000 to \$1,000,000,000. "I feel that the bill was not given sufficient consideration in the Senate and the bill reported by the House and the Committee is too uncertain in its terms as to open the way to serious complications," said Longworth.

The administration amendments, prepared by Rep. Madden (R) of Illinois, include: Giving the President dictatorial control to prevent excessive expenditures. Requiring states or local districts to provide floodways, estimated to cost from \$50,000,000 up. Requiring railroad to assume part of cost of relocating lines benefited by the flood control works.

'IL DUCE' SPURS POLICE TO FIND BOMB CULPRIT

Stringent Efforts Are Being Made To Bring To Justice 'Those Responsible For The Attempted Assassination'

Mussolini Blames Facismo Opponents

Over One Hundred Persons Including many well known Reds Have Been Arrested

ROME, April 13.—(INS)—Stringent measures were being taken today by Premier Mussolini to bring to justice those responsible for the bomb throwing which resulted in the death of thirty persons in Milan and narrowly missed harming King Victor Emmanuel.

The Duce formally charged the opponents of Facismo with intending to assassinate the king. He ordered the Minister of Justice to roundup all known anarchists. One hundred persons have been taken into custody for questioning.

In a message to the newspaper *Podesta* at Milan, Mussolini said: "The heinous criminality of the barbarian is powerless against Facismo. Our enemies will not win."

He also asked the paper to see that flowers were provided for the funerals of the thirty men, women and children killed in the bomb explosion, which wrecked *Caesars Square* at Milan just after the royal party passed through.

To the king, Mussolini sent the following message: "The goal of the whole nation goes out to you with the utmost devotion at this moment, while discipline throughout Italy continues for the glory of the dynasty and the power of the fatherland."

A woman may have been among the terrorist plotters who exploded the bomb with the evident intention of assassinating King Victor Emmanuel, according to evidence given today at a judicial inquiry.

Just before the explosion, which killed and injured many persons, a man and woman were seen moving suspiciously in the neighborhood of the lamp post in which the infernal machine was hidden.

About one minute before the blast a man was seen running from the scene. Two minutes after the explosion a man, whose actions aroused the suspicion of the gendarmes, was arrested 600 feet from the scene.

Premier Mussolini's newspaper *Popolo D'Italia*, says that the elements of the crime "involve the plot of assassinating King Victor Emmanuel, whose misdeeds must be uncovered and punished within a few days."

The police have arrested Ferdinand Balladori, porter of the building in front of which the bomb was exploded, but so far as known he was able to throw little light upon the bombing.

A scientific investigation has established that the bomb was charged with dynamite instead of believed, powerful chemical as accompanied by tragic scenes. A soldier, named Joseph Derosa, who was on duty near the scene, rushed forward when the blast took place. He stumbled over the body of a maimed and unconscious woman. As he raised her in his arms he recognized her as his own mother. She died as he pressed her to his breast.

The city is still plunged in gloom. A public subscription is being raised for the families of the victims. More than \$20,000 already has been pledged.

A judicial investigation established that the plotters used a key to open the small compartment in the base of the lamp post some time Wednesday night. The bomb was worked with a 12 hour clock-work mechanism.

Baseball Team Will Play Game Tomorrow

Sanford's own Celery-Feds will take the field tomorrow afternoon at 3:30 against New Smyrna at the Municipal Athletic Field in the first game of baseball offered to local fans this season.

New Smyrna is reported to have a jam-up ball club and the game will give Sanford enthusiasts an opportunity to form some opinion of the strength of the Celery City's entry in the Florida State League this year.

According to club officials the field has been placed in splendid shape and playing should be at a fast pace. A small admission will be charged.

Heflin Leads Attack On Presidential Candidacy Of New York Executive

WASHINGTON, Apr. 13.—(INS)—The organization supporting the presidential candidacy of Governor Al Smith of New York, is using the "largest and most corrupt slush fund in the history of the world" to secure his nomination, by the Democrats, Senator Thomas J. Heflin (D) of Ala., charged today on the floor of the Senate.

Heflin called on Senator Borah (R) of Idaho, to reintroduce his resolution for the investigation of expenditures in presidential primary campaigns. Heflin accused the Smith organization of using a "huge slush fund" to buy the Iowa and Oklahoma delegations to the next Democratic convention. This was immediately denied by Senator Steak (D) of Iowa, but Heflin declared Steak did not know what had gone on in his state.

Heflin declared if Al Smith was nominated he would be defeated by the Republican nominee by a majority of from ten to fifteen million votes.

"I think the Al Smith organization is using the largest and most corrupt slush fund ever used in a presidential race," said Heflin. "He is giving lessons in the use of slush funds. Scandal lurks in Iowa. I hope that Senator does not infer that the Democrats of Iowa were influenced in the decision they reached at their county conventions by slush funds?" asked Steak.

"I see the signs of it," Heflin replied. "It is my opinion that money was used in Iowa secretly and insidiously by the Smith organization and I believe it was used in Oklahoma too. I believe it is used everywhere."

"As an Iowa Democrat, who is in touch with the situation there but who took no part for either side, I deny money was used in behalf of Mr. Smith or in behalf of Mr. Meredith," said Steak. "The Senator's information is not as good or as correct as mine."

"I prefer to hear from Mr. Meredith," Heflin retorted. "I don't want a Democrat to buy this nomination. I want clean politics. The way to fight corrupt politics is to fight it in your own party."

Heflin said it was evidence of corruption when "states that have slipped against Smith like Gibraltar, slip to him in the night time."

GOVERNOR SMITH ARRIVES IN SOUTH FOR HIS VACATION

Largest Throng That Has Ever Turned Out To Welcome Any Visitor In On Hand At Hillsmore To See Executive

ASHEVILLE, N. C., Apr. 13.—(INS)—Governor Al Smith of New York, outstanding candidate for the Democratic presidential nomination, came South today leaving official cars behind him. The New York executive began a two weeks vacation stay in the famous "land of the sky," nestled in the Appalachian Mountains.

Governor Smith's train arrived at Hillsmore Station, near here, a few minutes after 10 A. M. He left New York City yesterday afternoon, and stopped for a short while in Washington, where Sen. Peter Gerry, of Rhode Island, joined the party.

Others in the party included William H. Todd, shipbuilder, James J. Riordan and Wm. F. Keefe, all old friends, and the governor's personal bodyguard, Police Sergeant William Roy.

Long before the time of the scheduled arrival of the governor's train, thousands had gathered at the Hillsmore Station, and when the train pulled in it was estimated there were more than 15,000 persons in the welcoming throngs. There were many delegations from distant points in the state.

Governor Smith had announced that his Southern stay was purely for rest and a little golf sandwiched in between, but one political detail he is expected to decide while here is whether or not he will attend the Democratic Convention at Houston in June.

Governor Smith's train arrived on time at 10:10 A. M. and stepping from his private car, amid the demonstration of the thousands gathered at the little station, held back by police guards, the governor was taken to the center of Hillsmore Plaza, where he addressed a few words to the crowd.

"I am wonderfully impressed with North Carolina," Governor Smith told them. The demonstration was without parallel in the history of Western North Carolina. At no time, it was recalled, had so large a throng turned out to welcome any visitor to the resort country.

Automobiles Crash At Intersection Of 12th And Park Ave.

As the result of a collision between an Overland and Moon automobile at the corner of Park Avenue and 12th Street last night, J. Farmer, the driver of the Overland, was taken to the Fernald-Laughton Hospital where he was treated for injuries. The Moon was driven by T. E. Higgins, publisher of The Sanford Signal.

Mr. Farmer is said to have been thrown out of his car by the force of the collision and it was thought he was seriously injured but after his hurts were attended to it was not considered necessary that he remain at the hospital. Motorcycle Officer Williams said today that the car driven by Farmer was traveling West on 12th Street and Mr. Higgins was going South on Park Avenue. At Police Headquarters the desk sergeant said that the case against Higgins was pending.

COOLIDGE MAY EXERCISE VETO ON FARM BILL

McNary-Haugen Plan Which Passed Senate By Slender Majority Will Be Sent To House For Final Approval

Dawes Steers Bill Through The Senate

WASHINGTON, Apr. 13.—(INS)—The battle over the McNary-Haugen Farm Bill, the football of big time politics for several years, was headed straight for President Coolidge's desk notwithstanding the warning signals hoisted against it by the White House.

Its passage in the Senate by the surprising vote of 57 to 23 was accomplished under the able guidance of Vice President Charles G. Dawes, ably assisted by those who do not want to see Herbert Hoover nominated for President at the Kansas City Convention.

It now goes to the House, where its passage also is considered assured. Its sponsors hope to have it through the lower chamber and deposited on the White House doorstep by May 1. "I do not think it will take us long to reach a decision," said Rep. Haugen (R) of Iowa, co-author of the bill.

What a veto awaits it at the White House is universally accepted in Washington. The President vetoed the bill a year ago, denouncing it as few Presidents have ever denounced any legislation. Since that time numerous changes have been made in it to meet Presidential objections, but the equalization fee, of which Mr. Coolidge particularly disapproved, remains in it. The farm bill considers the equalization fee "the heart of the bill."

It is questionable whether the measure can be passed over a Presidential veto. The Senate vote in the full membership of the Senate indicated that it can be, but with present and voting it might be a different story. Also, while the bill is assured of passage in the House by a substantial majority, it is doubtful whether two-thirds of the full membership could be mustered for veto duty.

The Coolidge veto is calculated to be embarrassing to the Hoover candidacy.

Hoover disapproved the bill a year ago, along with Secretary of Agriculture Jardine, and Secretary of the Treasury Mellon. The assumption is that he, like Mr. Coolidge, also disapproved this year's bill for in his announcement of candidacy the Cabinet candidate pledged himself to the continuance of Coolidge policies.

On the other hand, six top chief rivals for the nomination, vice President Dawes and Frank O. Lowden, wholeheartedly approve the measure. They and their friends have nursed it through two congresses, and Lowden has spoken for it from hundreds of grain belt platforms for three years.

A Presidential veto, therefore, is not calculated to increase Hoover's standing in the vast grain belt, which already is the weakest spot in his political armor. The agricultural states stand virtually solidly for the bill.

Ingram Funeral To Be Held Tomorrow

The funeral of John Ingram, aged Confederate veteran and citizen of Sanford for 40 years will be conducted tomorrow morning at 10 o'clock at the Methodist Episcopal Church with the Reverend Buhman officiating.

Mr. Ingram, whose death occurred in West Palm Beach Wednesday evening is survived by two daughters Mrs. W. R. Guerry and Mrs. E. J. Irish who live in Sanford; and by another daughter, Mrs. C. C. Morris and a son J. L. Ingram Jr. of West Palm Beach.

The deceased, who has lived in this city for nearly a half century, leaves behind a host of friends who will mourn his passing.

Shriners Announce Dance Postponement

E. F. Lane, president of the local Shrine Club, announced today that due to the numerous attractions offered the public this week, the Shrine Social Dance has been postponed until next Friday.

Mr. Lane stated that in his opinion this postponement would meet with the approval of a number of people who want to attend but had made other plans before the dance was announced. It will also give the Shrine Club an opportunity to make more extensive preparations.

German Flyers On Trans-Atlantic Hop Fail To Reach U.S.

Unconfirmed Rumors Of Seeing Plane Have Caused Excitement To Waiting Crowd

Nothing Definite Has Been Heard

Canadian Government Fails To Confirm Report Of Ship, Arrangements

NEW YORK, Apr. 13.—(INS)—After a flurry of unconfirmed reports that the German trans-Atlantic plane Bremen had been sighted at several points in Nova Scotia, this afternoon found the plane still missing and overdue, according to calculations made by chief pilot Herman Koehl before he hopped off at Baldonnel Airdrome, Dublin, at 12:38 o'clock yesterday morning Eastern Standard Time.

Koehl had planned to reach the American coast by this morning. At 1:30 this afternoon nearly 37 hours had elapsed since the Bremen hopped off for Mitchell Field. It was reported from Kingsport, N. S. W., that Capt. Balthasar, of the Canadian steamer *Arara*, had sighted a plane he believed to be the Bremen at 9 o'clock, E. S. T., but the Canadian Government Department of Marine at Ottawa, Ont., announced this afternoon that no confirmation of the Balthasar report had been received.

Between 5,000 and 10,000 men, women and children were massed back of open at Mitchell Field, this afternoon patiently awaiting the arrival of the German monoplane.

Motorcycle police encircled the field while many in the throng stood on top of parked automobiles and on buildings. An atmosphere of suppressed excitement prevailed as reports came of a plane, possibly the Bremen, having been sighted at various places over Nova Scotia, Brockton, Mass., and later heading toward New York City. Everything was in readiness for a landing at the field.

Crowds in upper New York City filled the streets shortly before 3 P. M. when a large monoplane, flying high, was seen traveling at fast speed in a south-easterly direction. While impossible to identify the plane definitely, many who saw it believed it was the trans-Atlantic plane Bremen, because of the construction of the underwing.

When Captain Hermann Koehl, Commandant James E. Fitzsimmons and Baron Ehrenfried Von Huenefeld departed from the Baldonnel airfield at 5:28 A. M. yesterday on their daring venture, weather reports indicated that conditions were perfect as far west as the mid-Atlantic.

Wireless dispatches from a German ship in mid-Atlantic later indicated that snow and hail were falling and that a west wind of terrific velocity was blowing at the surface.

The Bremen may have avoided the particular storm area reported by the German ships or may have escaped the full strength of the wind by flying high.

However, shipping reports indicated that the fliers encountered poor visibility, clouds and headwinds averaging about 30 miles an hour.

From New Foundland came a meagre report last night that an undescribed plane had been heard passing over Trinity Bay in a southwesterly direction. This report could not be confirmed.

The fliers had stated before their start that they hoped to reach the American mainland early this morning and Mitchell Field, L. I., sometime this afternoon. The unconfirmed New Foundland report (Continued on Page Three)

Shop First In The Herald Grocery Pages; Save Time, Money And Worry

The grocery pages of The Herald today offer an exceptionally large variety of foods to select from at prices that will appeal to every thrifty housewife.

Many housewives do their shopping among The Herald grocery ads first because they save time and money and find a variety of tasty foods that will make tempting menus.

The following firms have a message for Sanford housewives in today's market section:

- A. B. C. Bread.
- Premiere Salad Dressing.
- R & S Grocery.
- Blue Bonnet Market.
- W. H. Long Market.
- Sanford Fruit & Produce Co.
- R. W. Lawton.
- The Economic Grocery.
- Red Star Grocery & Feed Co.
- McCall's Cash Grocery.
- Arcade Delicatessen.
- Piggly Wiggly Store.
- A & P Tea Co.
- Sanford Avenue Bakery.

Lloyd Hahn Is Determined To Win 2 Races In Coming Olympics At Amsterdam

BOSTON, Apr. 6.—(INS)—Lloyd Hahn is determined to win both the 800 and the 1,600 metre runs at the Olympic games at Amsterdam next summer, says Jack Ryder, Boston Athletic Association and Olympic team coach. "It doesn't matter to Hahn if the Olympic team thinks that it is better to send all the men across in a body, rather than to have a few of them to be eliminated and get into condition before the games.

"Of course, Hahn will be disappointed, if the Committee finally does refuse to allow several of our athletes to go across in June. That is natural. But it won't deter Lloyd in the least from doing his best in games."

"I am confident that Hahn will return to the United States as an Olympic victor. So is he. Right after the Olympics Hahn will hang up his spiked shoes for good."

"Track meets from then on will find him only as a spectator and not as a competitor."

Lost One Race
Hahn, he it known, has lost but one race in two years of campaigning all over the country. In that time, he has competed in some forty races against the best that America and Europe have had to offer. The one demerit came in that much discussed Conner-Hahn race, where the Illinois star was accused of having fouled Hahn. Hahn did not finish the race.

In his running career, Hahn has made many sectional, national and world records. At the present time, he is still the custodian of five marks that are recognized the world over.

These marks, the date and place of making are:

1320 yard run, 3m 32.5 s., New York City, March 5, 1925.

1500 metre run, 3m 55.4-5 s., Washington, D. C., Feb. 21, 1925.

1000 metre run, 2m 26.2-2 s., New York City, March 26, 1927.

1000 yard run, 2m 12.4-5 s., New York City, February 28, 1927.

(Repeated the time at a school exhibition race in Boston, Feb. 29, 1925.)

800 yard run, 1m 51.2-3 s., New York City, March 3, 1928.

Lloyd is a Nebraskan by birth, a Brown University student by education and a Boston Athletic Association runner by choice. He came East from his home state to enroll at Brown but left shortly after. Hahn returned to the East later and was developed in a few short years from a fair high school sprinter into a world record holding middle distance runner.

Back To Farm
The Nebraskan is a farmer and wants to return to the soil of his native Nebraska. Possessed of a sufficient amount of the earth's riches, he intends to wind up his athletic career at the Olympic games and then go back home to Fall City, Neb.

Hahn is a firm believer in the plan to send a certain number of American athletes to the Olympic games ahead of time. The trials will not be held until July and there will remain but ten days at the most to recover from an ocean trip. Inland Dutch climate and get back into condition.

The Bostonian believes that several of the American hopes would be in better shape for their races against the best of other nations if they were sent across in June and given a month or so to get into real racing condition.

Jack Dempsey Looking Fit, Re-affirms His Statement That He Is Thru With Ring

BY DAVID J. WALSH
International News Service Sports Editor
NEW YORK, April 12.—(INS)—Jack Dempsey, the former world champion, today re-affirmed his statement that he is through with boxing. He said he was looking fit and was in the best of health. He said he was not interested in boxing any more and was looking forward to a quiet life. He said he was not interested in boxing any more and was looking forward to a quiet life.

"All I need for a quiet life is a good bed and a good breakfast," Dempsey said. "I am not interested in boxing any more and am looking forward to a quiet life. I am not interested in boxing any more and am looking forward to a quiet life."

Star Of Georgia Tech Will Join Senators

ATLANTA, Ga., Apr. 12.—(INS)—Ed Grawley, member of Georgia Tech's Golden Tornado, has quit school, married and plans to join the Washington Senators.

This announcement blasted hopes of Georgia Tech's baseball team for a year, as Grawley was one of its best infielders in Southern conference circles. He was alternating captain of the team. Grawley captained the famous Georgia Tech team which wrecked Georgia Tech's of a national championship in 1927, and played on the coast member of the All-South team which defeated the All-West Gregation last year. He was an

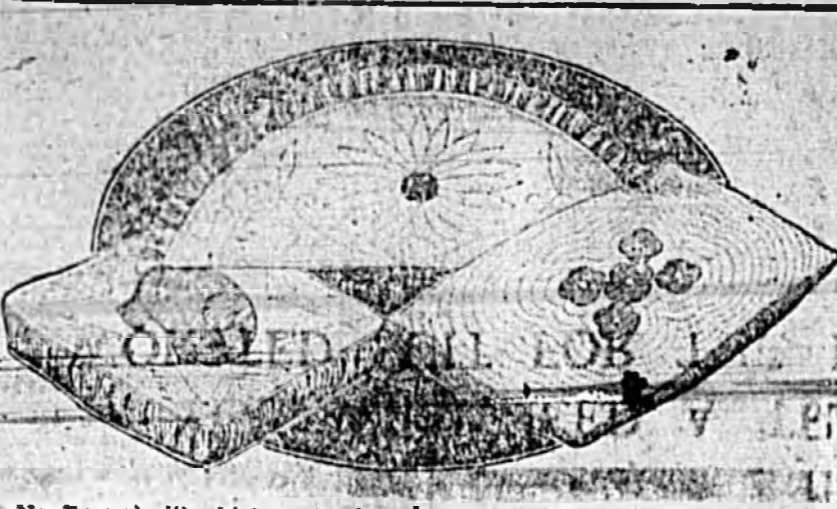

Illis Lucille Whitbread, of this town, teamed up with Dan Cupid from the battery which Crowley and unhittable.

MENTAL DISEASE MAY BE AVOIDED SAYS PHYSICIAN

SACRAMENTO, Apr. 12.—(INS)—Mental disease may be avoided just as surely as physical illness, according to a physician.

Dr. A. M. Muhl, director of the state department of special education and noted psychiatrist, today declared that mental disease is not inevitable. He said that mental disease can be avoided by proper care and attention.

Parents should make a distinction between self-control and repression. Self-control should be taught to young children, but the child's emotions should be understood and not repressed, Dr. Muhl insists.

THE FOLLOWING TRAINS WILL BE DISCONTINUED EFFECTIVE LANT TRIP - APRIL 12, 1928.
Trains 89 and 90 between Tampa and Jacksonville. Trains 27 and 28 between Sanford and Lakeland. Following Schedules Are In Effect at 12:01 A. M. Friday April 13, 1928:

College President Sees Art Awakening

SHAPEL HILL, N. C., Apr. 11.—(INS)—Dr. Harry W. Chase, president of the University of North Carolina, visions a remarkable awakening of the South in the development of arts. He declared here this week is one of the best indications of increasing interest.

"The fact that ten years ago such a conference would not have been possible here, indicates that the South's development has been its awakening in the field of creative arts," he declared when asked for his opinion on the first Eastern Regional Conference on the Drama.

Training Camp Briefs

By International News Service
Nashville's Vols, in their home city, again failed to show any respect for Atlanta's "murders row" and the crackers went down 6-0. Ernie Allen held the Crackers to a total of three hits.

A pitchers duel participated in by Kelly, of Memphis, and Turpen, of Little Rock, in the latter's home city, ended in the eighth when the chicks scored two runs to win 2-0.

Scoring in the sixth and ninth, New Orleans beat Mobile in the latter's home park 3-1 in a game postponed from Tuesday. Karr pitched fine ball in the pinches for New Orleans and Morton worked five innings without allowing a hit.

Birmingham's bold Barons, touted as possibly the strongest pennant contender, did not have the chance to play before Chattanooga fans because of rain.

SIGN FOR BOUT
NEW YORK, Apr. 12.—(INS)—Tod Morgan, junior lightweight champion and Eddie (Cannonball) Martin, former bantam champion, have agreed for a fifteen-round fight on June 4. Matchmaker, William S. Sullivan, is to close for an early date, but today, Corporal, Ray S. Swartz and Frankie Green, local champion, for the flyweight championship, Schwartz is the title holder in New York and Green is the champion elsewhere.

IS BEST PITCHER
NEW YORK, Apr. 12.—(INS)—George Fainfrank, southpaw pitcher of the New York University nine, was hailed today as the best college twirler in the East. He pitched a no-hit, no-run game against Lehigh here, retiring the first twenty-five batters. His mates pitched errorless ball and Manfredi fanned thirteen batters, but he issued one pass in the ninth.

PERAL GABLES—Building permits representing \$100,000 of new housing are being issued here during last week of February.

Opening Day Of Baseball Season Finds Many Rookies Taking Share Of Spotlight

NEW YORK, April 12.—(INS)—As the excitement of opening day wore off, the two pennant races simmered down today to the prosaic level of routine business. Rookies grabbed a large share of the spotlight in the various inaugurations.

Andy Green stepped into Rogers Hornsby's shoes on the New York Giants and found them too small for his three hits over the giants a 5 to 2 victory over Hornsby and his fellow Braves.

Arthur Whitney, rookie third baseman from New Orleans, knocked in two runs as the Phillies downed Brooklyn, 4 to 3. Other recruits who performed brilliantly were Chalmers Cissell, White Sox shortstop; Freddy Maguire, Cubs' second baseman, who hit a home run; Purdy of the Reds; Hitcog of the Cardinals and Morgan of Cleveland.

Cohen's admirers carried him off the field after his triumph. The world's champion New York Yankees, determined to stay in first place every day of the season for the second year in succession, routed Lefty Grove and beat the Athletics, 8 to 3. Ruth hit a triple and Penneck twirled effectively.

Thirty-one base hits rent the ocean as the Cardinals took a 14 to 7 slugfest from the Pirates. Frisch and Bottomley each got three hits, including a homer.

Adolfo Luque, Cincinnati mound ace, lamed the Cubs' 6 to 1. Hartnett walked through let in two runs. George Miller, the Cleveland pitcher who makes a good record every other season, apparently is in for a winning campaign. He beat the White Sox, 8 to 2, and helped to win his own game with three hits.

George Moriarty, Detroit manager, spent the afternoon wondering why he traded Heinie Manush to the St. Louis Browns. The former batting king scored two runs as the reconstructed Browns knocked the Tigers 4 to 1. Sam Gray, who twirled for St. Louis, displayed the form which once made him the ace of the Philadelphia staff.

The season of the Boston Red Sox in first place in the American League standing was sweet but short. Four Sox pitchers issued ten passes and the Back Bay boys lost to Washington 8 to 4. Ken Williams got three hits including a home run.

Philadelphia's victory over Brooklyn marked the Robins' first defeat on the opening day in eight years.

GRACEVILLE—Clayton portion of 1th Avenue from Brown Street to city limits joining Campbellton highway progressing rapidly.

professional wrestling. Miller was captain of Yale's 1926 wrestling team, his annual two facts here, clearing up rumors concerning his career. Miller, who graduated here is considered the greatest wrestler yet produced, never been thrown in all his of college grappling, and has been defeated by time and again. The next Yale wrestling team to have Burwell Dodd, of York, as its captain.

MILLER WONT WRESTLE

NEW HAVEN, Conn., April 10.—(INS)—Burr Churchill Miller, of Wilkesbarre, Pa. is not to try for the Olympic wrestling title, and he is not planning to turn to professional wrestling.

A HORSE AND A THIRD FOR AN HOUR

Picture to yourself one and one third horsepower working for one hour. That is approximately a kilowatt hour, the unit of energy by which electric power is measured.

Now - Figure what one and a third horsepower would cost you if horses were used instead of electricity. The cost would be prohibitive to say the least.

Electric horsepower springs instantly into action. A mighty money saver in the home, office and shop. Use Electricity, your cheapest servant.

Why buy performance that CHRYSLER "72" has obsoleted?

CHRYSLER "72" performance obsoletes all other performance at its price or even for \$1000 more. The first Chrysler, four years ago, put in the discard the cumbersome, bulky vehicles of its day.

That is why the "72" today gives you performance that sets the pace for the entire industry for years to come. 75 brake horsepower. 72 miles per hour per hour. Vibrationless smoothness that only a Chrysler counterweighted 7-bearing crankshaft can give. Flashing acceleration in traffic. There are no hills to the "72."

Longer chassis with no sidesway—spring ends mounted in rubber shock insulators give consummate ease of riding.

Why pay a premium for the out-of-date performance others give? See and ride in the Chrysler "72." You will realize then how Chrysler "72" is a real money-maker—makes a dead letter of all other performance in its field today.

FOREIGN MOVIES GAIN POPULARITY STATES OFFICIAL

Due To The Perfection Of Our Picture Plays, Industry Is Gaining Ground Among The Leading Nations Of Europe

WASHINGTON, Apr. 13.—(INS)—Due probably to the rapidly increasing perfection of American motion picture plays, the movies are gaining steadily greater popularity in Europe, according to Trade Commissioner George R. Canty, of the Commerce Department.

New theatres of the American type are being built with the most improved equipment and increased seating capacity in many sections of Europe. During the past year there were 733 theatres either newly built or reconstructed in Great Britain and the continental countries, having an aggregate seating capacity of nearly 400,000.

In the matter of new construction, according to Canty, Germany had a long lead with 280 theatres with a seating capacity of 130,000. Great Britain followed with 100 theatres, capable of seating 95,000 while France built 68 theatres with a total seating capacity of 50,000.

Better Features—These countries are all producing more and better feature films than ever before. At the same time many of the smaller countries are native motion picture industry, exerting every effort to establish Canty estimated that in 1927 the feature pictures produced in Europe numbered 460, involving an expenditure of about \$16,000,000.

Most of these pictures came from Germany, British and French studios, Germany produced 241, and France 74 and Great Britain 44 features. In Poland 17 features were produced, Austria 16 Czechoslovakia 11, Sweden 10, Denmark 6 and Italy 5.

"The European market," Canty said, "accounts for considerably more than half of the total revenue obtained by American exporters of motion picture films."

Last year we sent to this area about 70,000,000 feet of film which was an increase of 7,000,000 over 1926. American features distributed in Great Britain numbered 723, an increase of 100 over the preceding year.

Buying Declines—At the same time, however, our relative share of the British buying declined slightly. Germany took 102 American films in 1927, a drop of 37 from the year before, while France took 308 as compared to 444 for 1926. In both Germany and France the ratio of American films to the total number exhibited declined in 1927.

According to Canty while the increased production of motion pictures in the chief European markets will unquestionably have a tendency to lower the production of American plays shown, this decline will be more than offset by the steadily growing number of new theatres being built and the resulting increase in film rentals.

"In the long run," he concluded, "it is probable that the next few years will witness an increase in revenue from our exports of feature films to European markets."

EUSTIS—\$35,000 new two-story brick business block to be built on Frank Seaman property opposite Fountain Inn on Magnolia Avenue.

JACKSONVILLE—E. J. Smith Caddy Company to erect \$6,000 addition to its factory on Silver between Southern Railway and 14th.

Health HINTS

By Dr. J. C. HOWELL

COLIC, CONSTIPATION AND HEMORRHOIDS
A gentleman from Apopka came in about a week ago complaining of colic, constipation and hemorrhoids. He was very tense and had a great deal of gas. He would often wake up about twelve o'clock at night and be awake for hours. The constipation was severe and of long standing, and his blood pressure was very high.

He was given our ambulant method for hemorrhoids and constipation and reported back two days or that he was beginning to improve. There had been no bleeding. The bowels were better. As a result he was sleeping well and having no trouble with the hemorrhoids. He was sleeping well and having two or three normal movements a day. He is well pleased with treatment and has gotten two neighbors in Apopka interested and says they will be over next day for treatment.

Dr. J. C. Howell, 10 years practice in Orlando specializing in non-surgical treatment of stomach, bowels and blood pressure. 200 W. Gore Ave. Telephone 1235.

JURY IS PICKED FOR NEW TRIAL OF BANK HEAD

(Continued from page 1)
probably be a recess while additional veniremen are called.

The six men sitting temporarily in the jury box when court recessed this morning were Perry Weinstberg, local jeweler and a depositor in the bank; H. C. Douglass, an employe of White-Highleyman, Inc., Chevrolet dealers; J. A. Sardo, a plumbing contractor; B. L. Perkins, clothing store proprietor; Joseph Ludwig, a celery farmer, who seems to have read the newspapers thoroughly concerning the cases tried before, and Leonard Kelz, who is an orange grower 73 years old and who says he's "kinda deaf."

Three of the men who were locked up last night were discharged this morning. They were John F. Pearson, challenged by the state; R. R. Murphy, challenged by the defense, and H. H. Pattishall, challenged by the defense.

The defense attorneys have used three of its five preemptory challenges and the state two of its five. The two men challenged by the state were Mr. Pearson and E. C. Echols, who is foreman in a mattress factory. The defense challenges removed T. A. Brotherson, an employe of the Bond-Hill Lumber Co., H. H. Pattishall, Geneva citrus grower, and R. R. Murphy, Orleto garceman.

The defense found several occasions for objections during the proceedings last night and this morning. At the opening of the trial they objected to the jury called on the grounds that the jury list contained names from two jury lists, one placed in October and the other this January. This morning they took several exceptions during the examination of jurors.

Last night the state uncovered the fact that J. A. Rumbley, one of the tentative jurors in the box who had satisfactorily answered all preliminary questions was one of the men on Lake's bond or which he is now at liberty. Rumbley was immediately excused by the judge.

Wealthy Britishers Seek Speed Records

Minneapolis, April 13.—(INS)—Gene Shank, Twin city flier, today captured the world's record for sustained flight for light airplane. Shank took off from the local airport at 6:50 P. M. Thursday and descended at 9:19 A. M. today. His time, officially recognized, exceeds the previous record of 12 1/2 hours, by more than two hours.

German Flyers On Trans-Atlantic Hop Fail To Reach U. S.

(Continued from page 1)
stated that the unidentified plane was heard at 8 o'clock last night.

Another report that the Bremen had been sighted about 800 miles west of Ireland late yesterday was branded as false by officials at the Baldonnel airfield, who declared that at the time of the report they estimated the ship was at least 1500 miles out.

The British Air Ministry and Lloyds in London have received no news of the plane, they informed International News Service today.

Wireless messages received at London from the United States

liners America and George Washington stated they had been sweeping the skies with their searchlights since nightfall but had not seen the Bremen.

The distance over the ocean from the West Coast of Ireland to New Foundland is approximately 1800 miles. The plane's cruising speed is 97 miles an hour. Even if this were cut down to 70 miles an hour by headwinds, the plane should have reached the American mainland by 3 A. M. (Eastern Standard Time). If it had kept to its course, the fact that the plane has not been definitely sighted at New Foundland is causing much conjecture.

It is believed possible that the fliers may have encountered storms and changed their course to the southern route instead of continuing on the "great circle." In that case they would not pass over land

until reaching Long Island. Weather conditions at New Foundland are almost perfect. The sky was clear all night and whatever winds there were, came from the east and were favorable for the fliers. It is not considered likely that the fliers have passed the peninsula without having been sighted.

The Bremen carried sufficient fuel to remain aloft about 45 hours. That deadline will expire at nine o'clock tonight. If the ship is forced down, it will be unable to stay afloat longer than any other type of land plane. As it has air-tanks in the wings and an air-tight fuselage of steel.

Three previous attempts to span the Atlantic from east to west have ended tragically within the last year with a loss of seven lives.

Martin Denounces Trammell In Talk To Orlando Crowd

ORLANDO, Apr. 13.—Denouncing the inactivity of Senator Park Trammell as an injustice to Fla. Gov. John W. Martin in a speech here last night declared himself ready for any kind of a political fight his opponent may advance in comparing public records.

Two thousand people heard the Governor in the municipal auditorium while thousands more were served by station WDBO which broadcast the speech. Most of the local county candidates had places on the platform.

After recounting the improvements this administration has made in building Florida's high-

way system, financing the schools and reducing state taxes, Gov. Martin turned to the attack made in recent speeches of his opponent.

"The State of Florida for the past twelve years has been 'trammelled' by a placid easy-going man in Washington who was content to draw one hundred and twenty thousand dollars in salary, make

his office his living quarters and maintain the pleasant fiction that he is advised of the birth of all the babies in Florida and can remember their names, given names," the executive said. "Now he is rested sufficiently to make a tour of this state condemning the public roads, refinancing schools and other improvements of this administration."

"Doomsday" Will Be Seen By Local Fans At Milane Theatre

An ideal love story set against the picturesque background of rural England. That describes "Doomsday," Paramount's picturization of Warwick Deering's novel which opens at the Milane Theatre today. Florence Vidor is the star of this picture and Gary Cooper has the leading male role.

"Doomsday" is more than just a love story. It is a story of life and life's vital problems. It depicts in vivid fashion a girl's struggle between her desire for love and her dread of work with the intense longing she has for the luxuries that have always been denied her. There are surprises in this powerful picture. The story cuts completely away from the beaten paths and follows the current of actual life.

Florence Vidor, as the tall-waisted girl who hesitates between accepting love and more work with it or wealth with no love, gives a great performance. It is something new, and something never to be forgotten, to see Miss Vidor as the rebellious slave of drudgery instead of the polished woman of the world. Gary Cooper's role is also outstanding. This brilliant young actor has an even better part than he had in such great pictures as "Deau Sabre" and "The Legion of the Condemned" as Captain Arnold Furze in "Doomsday."

Glistening gowns, gorgeous jewelry and scenery of the kind found only in pastoral England add color and beauty to the picture. But after all it is the story and the play of human emotions that makes "Doomsday" outstanding.

Mrs. Frank Gonzalez Is Hostess To Club

Reflecting the graciousness and cordial hospitality of the hostess, every detail was the bridge party given Thursday afternoon when Mrs. Frank J. Gonzalez entertained the members of the Duplicate Bridge Club at her home on Palm Avenue.

This cozy home was converted into a veritable haven with quantities of gorgeous Spring flowers of every hue, forming a lovely setting for the occasion.
When the games had been concluded it was found that Mrs. Samuel Paleston and Mrs. Robert A. Newman had scored the most points among the club members, while Mrs. G. D. Bishop and Mrs. Harry Lewis made highest scores among the substitutes receiving prizes of hand painted powder boxes.

At the tea hour Mrs. Gonzalez assisted by her daughters, Mrs. Densil Stafford and Mrs. Joe Gonzalez served tasty refreshments of a salad course followed by an ice course. The guests were the members of the club.

GIRLS HOLD MEETING

The Marie Ruffo Girls held their regular monthly meeting at the home of Miss Ethel Tills. The program was in charge of Miss Ethel Thornley and was very interesting. Mrs. Shoemaker was elected a delegate to attend Congress at Tallahassee next week. It was also decided to give a social tea Saturday afternoon at the home of Miss Edith Varn. The hostess served delicious refreshments.

Those present were, Misses Maude Caraway, Alice Gooding, McKim, Elizabeth Clark, Rebecca Clark, Edith Varn, Emma Rena Hazzard, Helen Chorpensing, Alice Thorpeing, Lila Thornley, Lillian Thornley, Ethel Tills, Mrs. C. H. Smith, Mrs. A. K. Shoemaker, and Mrs. O. W. Gilbert.

Each Program To Be Given

An unusually rare treat is in store for music lovers, next week, when at the regular meeting of the Music Department of the Woman's Club, Mr. Andrews of Rollins College assisted by members of the faculty will present a most delightful program of Bach (John Sebastian Bach) at 4:00 o'clock at the club house. Mr. Andrews is director of music at Rollins and those taking part on the program are of Chautauqua fame. The numbers will include piano and violin numbers. In addition to this organ chorals and also a double number. In addition to this Mr. Andrews will give a short lecture on Bach, with remarks about the classics and the numbers of the program.

The members of the department are asked to meet at 3:00 o'clock for rehearsal of the Club song, and Mrs. W. S. Leak has announced that the regular business meeting will be called at 3:20 o'clock.

The many friends of Mrs. Julius Takach will be pleased to learn that she is getting along nicely following an operation. Thursday morning at the Fernald-Laughton Hospital.

Mrs. Wiggins Gives Luncheon At Hotel

Among the many unusually delightful social affairs of the season was that of Thursday when Mrs. M. S. Wiggins entertained the members of the Every Other Week Bridge Club at luncheon and bridge at the Hotel Forrest Lake.

Luncheon was served at one o'clock, the table was attractively adorned with its central decoration of a large bowl of blue lace flowers, daisies, carnations, roses, white and lavender larkspurs and lavender verbena. Adding an artistic touch were the tall green cathedral tapers in silver holders which burned during the luncheon. A Spring time note was added by the place cards were done in baskets of var-colored Spring flowers.

The games of bridge played during the afternoon were most enjoyable and at the conclusion of the usual number of rounds scores were compared and prizes awarded.

Covers were laid for Mrs. Braxton L. Perkins, Mrs. Walter S. Coleman, Mrs. J. E. Brouse, Mrs. Charles L. Britt, Mrs. David D. Caldwell, Mrs. Hal Wright, Mrs. W. A. Pitts Jr., and Mrs. Wiggins.

Mrs. De Cottes Gives Thursday Luncheon

Mrs. George A. De Cottes entertained the members of the Educational committee of the N. S. de V. Howard Chapter U. D. C. at luncheon at the Hotel Forrest Lake. During the serving of the courses, plans were discussed and perfected for the benefit bridge party to be given Friday, April 20 at three o'clock at the Woman's Club for the benefit of the scholarship fund. Committees were named and other matters pertaining to their affairs were attended to. It was decided to have six prizes and the one having the highest score will have the privilege of choosing her prize, the second highest score having second choice and so on. The prizes are exceptionally beautiful and the affair is expected to be one of the happiest as well as most enjoyable of the season.

Members of the Educational committee include, Mrs. George A. De Cottes, chairman, Mrs. George D. Bishop, Mrs. James G. Sharon, Mrs. Frank J. Gonzalez, Mrs. Robert J. Holly Sr., and Mrs. W. J. Thigpen.

Frosting
Some people seem to eat cake because of the frosting. While good frosting will not make up for poor cake, the combination of a smooth creamy frosting with a light and delicate cake makes about as good a dessert as can be found.

Perhaps the frosting which is liked better than any other is what is known as "Boiled Frosting". I am going to give you the recipe for such a frosting which will not "run". Any woman who has struggled with "runny frosting" will appreciate this.

BOILED FROSTING

2 cups sugar, 3/4 cups water, 3 egg whites.
Boil the sugar and water until, when tested, it will hang from the spoon by a long thread (238 deg. F.). Pour it over the beaten whites. Beat well at 1 place the bowl in hot water. Beat until fluffy.

I am also going to give you the recipe for a good uncooked Mocha Frosting which, however, must be put on the cake a short time before it is to be served.

CHOCOLATE BUTTER ICING

1-2 tablespoons butter, 1-2 squares chocolate, 2 cups sugar, 4-5 tablespoons hot coffee.
Cream the butter, add sugar slowly, add chocolate, melted, and enough milk to make right consistency to spread thickly.

A well-liked frosting for white cake is chocolate fudge frosting which is so easy to make that it is one of the favorite cooked frostings.

FUDGE FROSTING

2 squares chocolate, 2/3 cup milk, 1-2 cups cold water, 3 tablespoons butter, 2 cups sugar, 1 teaspoon vanilla.
Cut chocolate into five or six pieces and cook with the water over a low fire until chocolate is melted. Remove from fire and stir in sugar. Add milk and stir over the fire until sugar is dissolved. Cook without stirring until a very soft ball will form when a teaspoon is dropped in cold water (228 deg. F.). Add butter and vanilla and set in a pan of cold water and cook two minutes. Beat, add egg and cream, and spread on cake.

The very easiest frosting of them all is, of course, a confectioner's icing made with confectioner's sugar and hot milk or cream. Be sure to use hot milk or cream with this.

CONFECTIONER'S FROSTING

2 cups confectioner's sugar, 1 teaspoon melted butter, 1-2-2 tablespoons hot milk or cream, Flavoring.
Sift the sugar, add 1-2 tablespoons hot milk or cream at a time and beat until smooth, adding more liquid, if necessary, to make the frosting thin enough to spread. Add the butter and flavoring and spread on the cake or cookies. One square of chocolate may be melted and added.

LEEBURG—Arme's Spring 4 miles east of here on shore of Lake Griffin to be beautified and road will be built leading to it.

Commerce Division Will Aid Merchants To Avoid Failures

WASHINGTON, Apr. 13.—(INS)—

Opening up a correspondence school for the "little fellows" of the retail business, the Commerce Department has launched a movement to help the small merchant make profits and to steer him clear of the reefs of bankruptcy.

A special section of the Domestic Commerce division was established for the purpose of cooperating with "merchants in helping them to help themselves," according to an announcement by Dr. Frank M. Surface, assistant director.

Needs Help Most

The "little fellow" is the vulnerable spot in America's business picture—true in the cases of trading establishments, manufacturing, and banking. Most of the losses from business failures arise from these classes and according to Dr. Surface it is "the so-called little fellow in business who can often profit to greater advantage from governmental assistance."

Business failures for 1927 reported by the Federal Reserve Board showed that 16,082 trading concerns "went to the wall," with average liabilities of \$14,262. Total failures including 5,682 manufacturing establishments and 1,382 brokers and agents, had aggregate year, as compared with \$409,232.

Daily Fashion Hint

REMARKABLY SMART
There is much about this ensemble to interest the woman of fashion. The dress is of rather boldly striped silk, while the coat is of fine cashmere knitted with bands of the silk used for the frock. The coat is loose-fitting and may be made in either of two lengths. Whether the length selected is three-quarters or seven eighths, the coat is sure to be 100 per cent stylish. Medium size requires, for the dress, 4 1/2 yards 36-inch material, and for the coat, 2 1/2 yards 54-inch cashmere. Pictorial Printed Pattern No. 4237. Sizes, 14 to 18 years and 34 to 42 bust, 50 cents. Dress No. 4248. Sizes, 14 to 18 years and 34 to 44 bust.

Wealthy Britishers Seek Speed Records

LONDON, April 13.—(INS)—

In the hope of winning back some of Britain's lost speed record on land and sea, three wealthy Englishmen have subscribed between them \$100,000 to be administered as a fund for this purpose.

The men putting up the money are Henry S. Horns and Oliver J. Piper, wealthy directors of a large cement distributing company, and Sir Charles Wakefield, who already has helped to finance innumerable land and sea record attempts.

The money will be used in building racing automobiles either to defend Captain Campbell's recent record established at Daytona or to beat any new records established by foreigners, and the construction of a motor-boat which shall have a speed far in advance of anything yet attempted.

Major H. O. D. Segrave, the famous British speedster, will drive both the motor-boat and the racing cars.

GALLOWAY—17 cars strawberries shipped from here during recent week.

PENSACOLA—Work completed on road running northward from Muscogee-Cantonment highway.

Liabilities of \$520,105,000 for the year in 1926.
January failures numbered 2,643 of all classes, an increase of nearly 200 over the same month last year. Considerably over half of the failures were trading concerns.

Information collected by the Commerce Department showed that 79 per cent of all retailers operating in United States may be termed "small business establishments."

Complete Information
Information collected by the Commerce Department with a wide range of retail store problems, such as location and planning, education of retail sales force, inventory control, etc., is available to merchants on application. Surface said.

"As the department's work develops a much greater range of information will be available to the business man to assist him in avoiding the mistakes which have wrecked so many small firms."

the Seventh District, subject to the
action of the Democratic primary
to be held on June 5, 1928. I
pledge myself to the people of
Seminole County. The
election of the people of Semi-
nole County. This, in my
opinion, can be effected by
equitable distribution of the
present five cent poll tax
and by the election of a
representative to the State
Legislature. I promise to devote all my energy
and experience that I possess to
accomplish this end.
R. W. FEARMAN, Jr.

**FOR THE VOTERS OF SEMINOLE
COUNTY**
I wish to announce that I am a
candidate for re-election to the
office of State Senator from the
Seventh District, subject to the
action of the Democratic primary
to be held on June 5, 1928.
I will appreciate your support.
JOHN MERRICK.

FOR STATE SENATOR
I hereby announce as a candidate
to succeed myself as Senator from
the Seventh District, subject to the
action of the Democratic primary
to be held on June 5, 1928. I
pledge myself to the people of
Seminole County. The
election of the people of Semi-
nole County. This, in my
opinion, can be effected by
equitable distribution of the
present five cent poll tax
and by the election of a
representative to the State
Legislature. I promise to devote all my energy
and experience that I possess to
accomplish this end.
R. W. FEARMAN, Jr.
