

VOLUME III.

## 20,000 CHARGES ARE MADE IN THE FORM OF AFFIDAVITS ---CHARGE MEN VIOLENCE

### ASSAULTS SAID TO HAVE BEEN MADE BY STRIKERS AND SYMPATHIZERS

### TRYING TO SHOW

That Concerted Effort by Strikers to Cripple Nation's Transportation

(By The Associated Press)  
CHICAGO, Sept. 13.—Hearing on the government's application for a permanent injunction against striking railroad shopmen continued today before Judge Wilkerson while the shopmen's policy committee assembled again with prospects apparently favoring a vote today on the proposals for ending the strike on some roads on the basis of separate agreements.

CHICAGO, Sept. 13.—With more than 20,000 affidavits charging assaults by strikers and strike sympathizers on railroad workers in every section of the country, the government yesterday launched its endeavor to show concerted effort by the striking shop crafts to interfere with interstate traffic by driving railroad employees from their work.

Overruling the objections of attorneys for B. M. Jewell and John Scott, the strike leaders, Federal Judge Wilkerson admitted the affidavits in evidence for the tie being at least, in the hearing on the government's bill for a temporary injunction against some 240 shop crafts officials and their followers.

The court likewise deferred for the present argument on the defense motion for modification of the temporary restraining order now in force. He ruled that the government's contention that the dominant purpose of the alleged conspiracy is the destruction of interstate traffic; would be a vital factor in determining whether the unions were entitled to any modification in the order and directed the government to proceed with the evidence on which it expects to prove that claim.

The value as evidence of the affidavits of persons assaulted by the strikers and strike sympathizers, or affidavits of public or railroad officials claiming knowledge of such assaults, was vigorously opposed by Donald R. Richberg and Frank Mulholland, attorneys for Mr. Jewell and Mr. Scott. They fought their introduction and entered a general objection to all of them that the government is producing.

The affidavits, they declared, are at the best only secondary evidence, and they fail, they added, to show any connection between their clients and the perpetrators of the acts of violence complained of.

A few isolated acts of violence among 400,000 men on strike are insignificant in themselves, Mr. Richberg declared.

"They would occur even in an army under military discipline," he said, "and an army of 400,000 men would have to have courts martial to deal with such cases, yet the existence of the army could not be called a conspiracy because of those scattered affairs."

He characterized the government's evidence as being "maybe half true" and denied the inferences contained in one of the prosecution's exhibits that trains had ever been abandoned in the southwestern desert by their crews.

Blackburn Esterlin, assistant to the solicitor general, read nearly 200 of the affidavits, telling of assaults on the court yesterday, and announced he would continue the reading today.

Unless an agreement is reached to shorten the presentation, the government, he told the Associated Press, will read into the record of similar occurrences in every state and on every principal railroad line in the country.

Yesterday's exhibits ranged from an affidavit of tar and feathering of a railroad employee with photographs attached through bombings, shootings, attempts to run down workers with automobiles, beating, threats, verbal abuse, rock throwing and even intimidations of their wives and children.

The government scored again during the defense attack on the reading

## JUGO-SLAVIA AND RUMANIA WILL AID GREECE

IN THE EVENT THAT TURKEY  
CARRIES WAR TO THE  
BALKANS

(By The Associated Press)  
LONDON, Sept. 13.—Central News in a dispatch from Athens says it has been reliably informed that the Jugo-Slavian and Rumanian governments evidenced without equivocation their intention of aiding Greece in event of a Balkan conflict. Serbian troops are being mobilized and moved in the direction of Unkub (Knoplie).

## HABEAS CORPUS ASKED FOR MIAMI MURDERER SAY HE WILL DIE

(By The Associated Press)  
MIAMI, Sept. 13.—Hearing of habeas corpus proceedings brought to secure the release from jail of Edgar Frady, of Chicago, charged with the murder of his wife, Dorothy Frady, were resumed today before Commissioner Clemons. Dr. F. O. Allen, personal physician to Frady, testified that in his opinion he may die. The state concluded evidence Saturday.

## BELIEVED MINERS ALIVE, STILL DIGGING

AND WILL BE THROUGH WALL  
IN THIRTY-SIX  
HOURS

(By The Associated Press)  
JACKSONVILLE, Sept. 13.—Rescue parties resumed frantic efforts to reach forty-seven men entombed for fourteen days in the Argonaut gold mine. Officials predicted the barriers would be broken within thirty-six hours. It is believed some of the miners are still alive.

## GROUP OF SHOPMEN ORGANIZE SEPARATE UNIONS AT SAVANNAH

(By The Associated Press)  
SAVANNAH, Ga., Sept. 13.—Delegates from the Central of Georgia shops at Macon, Albany, Columbus, Goddard and Savannah met here Monday and organized two separate unions—the Central of Georgia carmen's organization and the Central of Georgia metal trades organization. The organizations which will not be affiliated with the American Federation of Labor, will take the place of the old shopmen's union which went on strike July 1, according to organizers.

of the assault affidavits when Judge Wilkerson cited the decision of the Illinois Supreme Court in the Chicago and Wilmington coal case, pointing out that the court had held it was unnecessary for the prosecution to prove any written or spoken word in furtherance of an alleged conspiracy. The mere existence, the court said, in this case, of concerted action leading to a certain chain of unlawful events was sufficient proof that a conspiracy did in fact exist.

The hearing was interrupted at the morning session when Mr. Richberg called the court's attention to an article in a Chicago newspaper, purporting to come from Attorney General Cummings' office and setting forth some of the things which the government charges against the strikers. Characterizing the article as "entirely untrue," Mr. Richberg demanded to know whether it was authorized by the attorney general.

Mr. Daugherty, who was not feeling well yesterday, was confined to his hotel, and in his absence, Mr. Esterlin and his associates said they had not seen the statement and knew nothing about it.

The court, after scanning it, cautioned both sides against making separate statements tending to influence public opinion prior to the disposition of the case.

## REPUBLICANS WON OUT IN EIGHT PRIMARY ELECTIONS ---BLEASE ALSO LOST OUT

Senator Lodge, of Massachusetts, and Senator Poindexter, Washington, in by Safe Margins

CHICAGO, Sept. 13.—Republican incumbent senators involved in Tuesday's eight state primaries overcame state opposition by apparently safe margins, according to incomplete returns available early today. Senator Lodge, of Massachusetts, rolled up forty thousand majority over Joseph Walker, Poindexter, Washington, lead his nearest opponent over three thousand; former Governor Cole Blease, of South Carolina, was defeated for the Democratic nomination by Thomas G. McLeod, in a bitter contest.

## REPUBLICAN TARIFF COMPLETED RATES—OLD LINE STUFF AND AS HIGH AS PAYNE-ALDRICH

Democrats Will Fight The Bill as Menace to the  
Low Cost of Living

(By The Associated Press)  
WASHINGTON, Sept. 13.—The administration tariff bill in the form in which it will become a law, probably before October 1, was made public today with the presentation of the conference report to the house. Many of the rates proposed by the senate were reduced by the Republican conferees but the experts estimated that the level of its duties was only slightly below the levels of those in the famous Payne Aldrich act, the last Republican protective tariff.

Basing their calculations on the present volume of import trade, treasury experts figured that the bill would yield an annual government revenue of \$400,000,000. This would be \$24,000,000 more than was received during the last fiscal year through the combined operation of the Democratic Underwood law and the Republican emergency tariff act, both of which will be supplanted by this bill immediately after it is signed by the president.

Final action on the measure by the house tomorrow was the plan of leaders under an agreement made today for only four hours of general debate with a vote to follow immediately. The bill will then go to the senate where debate of a week or more is expected to proceed the final vote. Discussion in both the house and senate, but more particularly in the latter will be the fore runner of that to be heard over the country before the November elections as the bill is certain to become one of the chief issues in the congressional and senatorial campaigns. Democrats will continue their attacks on the measure as one certain to increase the cost of living by several billions of dollars a year and as encouraging the continuation of war prices.

Republican proponents of the tariff have defended it and plan to continue to do so as the first to accord agriculture a proper measure of protection and as necessary to protect both industry and labor in the present abnormal world economic situation and more particularly from disastrous competition from the low cost production countries in Central Europe and the Orient.

## LADIES ORGANIZE "INVISIBLE EYE" THRASH ONE

LOOKS LIKE LADIES DEPARTMENT OF THE KU KLUX KLAN

(By The Associated Press)  
ROBT. WORTH, Texas, Sept. 13.—Mrs. J. C. Tatum, 44, is reported in a serious condition today as the result of a flagging administered last night by four women, one masked, who described themselves as a committee of "Ladies of the Invisible Eye." Mrs. Tatum received 100 lashes it was said and was accused of "ruining her daughter."

## HOMINY PLANT DESTROYED BY FIRE OH! YOU GRITTY

(By The Associated Press)  
TERREHAUTE, Indiana, Sept. 13.—Damage estimated at a million believed to have been caused by fire which this morning practically destroyed plant American Hominy Company. First report claimed that two lost their lives but check of employees showed the erroneous.

The tariff apparently protects everything except prosperity. The man of the hour in Ireland is lucky if he lasts that long.

## RIGID INVESTIGATION WILL BE MADE BY SHERIFF INTO THE DYNAMITING AFFAIR

MICHAEL COLLINS  
Who before his assassination was the most potent factor in the rise to freedom of the Irish Free State. He is shown in his uniform of Commander-in-chief of the National forces.

## MRS. HARDING IS IMPROVED, OUT OF DANGER

CONTINUES SOME FAVORABLE  
PROGRESS TOWARD  
RECOVERY

(By The Associated Press)  
WASHINGTON, Sept. 13.—Indications at the White House early today was that Mrs. Harding was continuing to show the same favorable progress toward recovery which brought expressions of confidence from attending physicians yesterday that the crisis of her illness had been passed. The question of an operation was no longer under consideration today.

WASHINGTON, Sept. 13.—The condition of Mrs. Harding was such last night that the official bulletin issued at 7:30 o'clock stated that "unless unforeseen exacerbations arise all consultants feel that the immediate crisis of the case has been passed." This statement was made after confidence had been expressed during the day by attending physicians as her condition continued to improve that the crisis had passed. Definite announcement was made late in the day for the first time that no operation would be necessary at present.

Dr. Charles Mayo, of Rochester, Minn., who arrived in Washington Sunday to consult with Brigadier General Sawyer, White House physician, and others on the surgery aspect of the case, left for home yesterday afternoon, and Dr. Carl W. Sawyer also left Washington last night. Dr. John M. T. Flaney, John Hopkins University specialist, who participated in consultation, already had returned to Baltimore, leaving Dr. C. E. Sawyer, Dr. George Harding, Jr., of Columbus, the president's brother, and Dr. Joel T. Boon, medical officer on the Mayflower, the presidential yacht, in attendance at the patient's bedside.

## NEW ENGLAND COTTON MILLS RAISE WAGES

PROVIDENCE, R. I., Sept. 13.—Wage increases which it is understood will erase the 20 per cent cut of last January were announced today by some of the largest cotton manufacturing industries in Rhode Island, including Goddard Brothers, B. B. and R. K. Knight, Inc., Interlaken company and Drompton company. Cotton manufacturers, while declaring that conditions in the cotton goods market did not justify an increase in the pay of operatives, said that the strike of mills in Massachusetts and northern New England in restoring the old wage scale had forced their hands.

## CONFERENCE REPORT ON SOLDIER BONUS

PRESENTED TO HOUSE TODAY  
BY CHAIRMAN  
FORDNEY

(By The Associated Press)  
WASHINGTON, Sept. 13.—A conference report on the soldiers' bonus bill presented in the house today by Chairman Fordney of the House managers. Leaders plan to call it up tomorrow with hope of final action during the day.

## BODIES ARE FOUND FROM OVERTURNED BOAT CAPSIZED LAST NIGHT

(By The Associated Press)  
NORFOLK, Va., Sept. 13.—The bodies of F. T. Ayers and a man believed to be W. W. Forrest, were recovered last night in the cabin of an after launch fouled tow line Elizabeth river here. Third man, Alexander Turner, engineer of launch, believed lost.

MIAMIANS VOTE BOND  
ISSUE OF \$1,690,000

MIAMI, Sept. 13.—One million six hundred and ninety thousand dollars worth of public improvement bonds carried at yesterday's special election, \$200,000 worth were defeated. The school bond project was carried by a vote of 1,212 to 369. It involved a sum of \$890,000. The million dollar road bond issue went over 1,822 to 692. The \$200,000 fair ground proposition was beaten, 1,147 to 1,021. This was the second election on the three projects, all having been passed at a special election last June 27, but refused validation in litigation which followed on the ground that the primary books instead of the general election books were used and many persons were kept from voting them.

Man who dropped dead on Wall street may have been a farmer learning the price of wheat.

**LOCALS**

Caroline Stanford of Tampa is the attractive house guest of Martha Fitts at her home on Union Ave.

Mr. and Mrs. A. W. Fitts and son, Billie, motored to Gainesville yesterday, where Billie will attend the University.

William Mallem left yesterday for Gainesville where he will enter the University of Florida.

Mr. and Mrs. S. O. Chase and son, Frank, returned home yesterday from an extended trip west, going as far as California.

R. H. Rennick of Jacksonville. Is spending two weeks here with his wife, at the home of Mr. and Mrs. Arthur Marshall.

Mr. Herman Steele will leave Wednesday for West Palm Beach, where he will join his wife and family and motor back to Sanford Sunday.

Gray Rush and Kendrick Guernsey of Orlando were in the city today coming up to visit the Rotary Club. They also inspected the country club and golf links while here and pronounced them perfect.

Mr. and Mrs. J. H. Wendler and little daughter of Orlando were in the city yesterday on a business trip. Mr. Wendler is publishing the Feathered Warrior, a magazine for the interests of game chickens and is having it printed at the Herald Printing Co. plant.

Louis Shipp has been appointed circulation manager of The Daily Herald and will have full charge of the department in the future. If you fail to get your paper phone 148 up to 6 o'clock, after that call Lewis on phone 329-W and tell him about it and he will see that you receive your paper at once.

A postcard from H. P. Smith of the Peoples Bank who is sojourning in New York shows one of the big lake steamers which presages that he and Dr. Puleston and Robert Deane are probably contemplating a trip from Buffalo to Cleveland or Detroit or some other seaport. Luckily for him he did not invite us up or tell what a fine time he was having.

J. S. Wilson has opened a salesroom in the Smith building at the foot of First street and will handle the Reo cars and Speedwagons exclusively. "Pop" is an enthusiast on the Reo cars, having been a Reo owner for many years, and says that he has an attractive proposition to make anyone wanting a car or a speedwagon. He will start an advertising campaign in a few days and let the world know about his plans for selling Reos.

B. T. Corey is in the city for a few days, coming from California to dispose of his Sanford property, country and city. Mr. Corey was a resident of Sanford for many years but has left us for the seductive wiles of California where he is connected with the Pacific Electric Systems—a branch of the Southern Pacific Railway. Mr. Corey is a guest of the Montezuma Hotel, where he will be glad to see his many friends and anyone interested in real estate.

A Dollar Day sale in Sanford will clean up a lot of stock that should be moved in every store in the city and the Daily Herald wishes to impress this fact upon the minds of the business men of this city. Our advertising solicitor will call upon the merchants in a few days with a plan that will get the business and stimulate business along every channel. Get the dollars started to rolling your way.

In this issue of the Herald is a big advertisement for Polo cigarettes—a new brand that is bound to please the smokers of real cigarettes. The Polo cigarettes have contracted for a large space in the Daily Herald for the season and we want to call the attention of the smokers to this advertisement and hope they will call for Polos when they want a fine grade of cigarettes at a very reasonable price. Look for the advertisement and smoke Polos.

**FOUND**

FOUND—Violon and case in Winter Park railroad station. Owner can have same on description and paying for this ad. Address Geo. Vihlen, R. F. D. No. A, Sanford, Fla. 142-4tp

 Calm and clear.

J. C. Hutchinson, manager of the Sanford Truck Growers, Inc., left today for a month's visit to the northern markets and will take in New York, Boston, Philadelphia, Pittsburg, Cincinnati, Chicago and others enroute.

J. G. Michels has returned to Sanford after spending the summer in Jacksonville in the offices of the Porter-Judy-Dutton Co., and will be with the same firm here in Sanford. His many friends are glad to see Mike back home again.

Mr. H. A. Sacks from New York, was in the city last week. He represents nine wall paper factories and sold to Sanford Paint and Wall Paper Co. 7,000 rolls of wall paper for immediate shipment. He says Mr. Halverson is the hardest man to sell wall paper to in the state of Florida, owing to the fact that he is a decorator and selects nothing but the best coloring from the cheapest to the highest price paper. He understands the wall paper business from A to Z. Mr. Sacks was very much impressed with our city and said it would not be many years before it would be a second Jacksonville.

The Ladies of the Presbyterian church will hold their annual bazaar Friday and Saturday, December 1st and 2nd, 1922. 144-2tc

See E. Stafford and get your town lots in Lake Monroe and build houses that will rent the year round. 119-tfc

**METHODIST NEWS**

Mr. and Mrs. W. A. Tillis and children are spending several weeks at Coronado Beach.

Mr. and Mrs. Kelly, Alice, Margaret and Charles Kelly, of Tampa, are visiting Mrs. J. M. Moye this week.

C. S. Bragg, of Mascott, Fla., formerly a resident of Sanford and assistant superintendent of our Sunday School and an active and faithful worker in the church, is visiting his son Charles. We are glad to welcome him.

Mrs. J. M. Moye and family have returned from Daytona Beach.

Our folks are returning now every day, making us glad for we are anxious for our members in Sunday school to increase.

Mrs. Sam W. Bradford, who was operated on at Orlando some days ago returned to Sanford Monday. Her many friends rejoice in her speedy recovery.

Prayer meeting Wednesday night at 8 o'clock. The women are vying with the men as to whom can have the largest number in attendance. Dr. Walker has requested us to have 400 present. Let us not fall short of that. It means much to our church.

Sunday School Workers' Council is called to meet Thursday night at the home of Mrs. Jno. D. Jenkins, 300 French avenue. If you are a teacher or officer, reserve that date. Matters of great importance to come before this meeting.

Dr. Walker's "Scrap Iron" class is growing steadily, in fact is the largest men's class in the state of Florida at present. Last Sunday there was 117 present and only two Sundays this summer has the attendance been below the 70 mark and those two Sundays were when Dr. Walker was away on his vacation. Let the good work go on.

Big time Friday night, Miss Ruth Hand, president of the Epworth League will entertain the League at her home, West Sanford, Friday night at 8 o'clock in the way of a "Kid Party" only kids up to the age of 80 in-

**PIPE ORGAN CLUB**

The Pipe Organ Club held a most interesting meeting on Monday afternoon at the home of Mrs. Estridge on Park ave. Many matters of interest were taken care of, and plans made for a most profitable club year. This being the day for election of officers, the following were elected: President, Mrs. Schelle Mains. Vice-President, Mrs. Eastredge. Secretary, Mrs. Forest Gatchel. Treasurer, Mrs. Hall. After the close of the business session, the hostess served a most delicious salad course.

Club members present were: Madames Schelle Mains, A. M. Phillips, Ray, Methvine, Volie Williams, Orrin Farrel, Forest Gatchel, Estridge, Hall, Ryan and Miss Martha Fox. All members are urged to attend the next meeting, Monday, Sept. 18, which will be in the nature of a "Barr Shower," at the home of Mrs. Leslie Bryan in Osteen.

The Girls say that the long skirt will not come back.

And the Frenchmen who makes the styles says that the long skirt shall come back.

And no doubt the people who make the goods for the long skirts want them to come back and so we shall see who is the mistress and who is the master of styles.

Item in Tampa Times say that the city commission 'fixed' the sum for charity. There you are in a nutshell. The city commission fixes the sum, the sum is placed in the hands of a charity association, the business men are never bothered any more. When will other cities learn that this is the way to do business.

A new order had been organized in Texas by the women and is called "the ladies of the Invisible Eye." They took a lady out yesterday and thrashed her for "ruining her daughter." Might be a good plan after all to leave the troubles of the women to the women. Wonder how long before this order spreads to Sanford.

With 600 enrolled at the Woman's College at Tallahassee and the University of Florida at Gainesville with over 1,000 students enrolled the first day it begins to look as though our state colleges would justify the money that has been spent and all the money that can be spent on them in the future. The editor of the Herald believed in the schools when they were instituted, we believed then that they would be among the best and the largest in the south and we still believe it and every year they are growing stronger and better.

The Herald wishes to state that the budget system for the expenses that we are called upon to pay every year is the way to raise this public money. The Herald for one is heartily in favor of all the business men of Sanford combining and refusing to have anything to do with any more drives for money. Every bit of this money should come from the city treasury levied on the tax payers alike and not put upon the shoulders of the business men of Sanford—already stooped down and humped over bearing the burden of years of constant "driving."

**DOC SMITH AND HIS PRESCRIPTION**

All over Europe roams an Englishman named Smith, toting a padlock and a hefty idea. The idea is to form a "world league" of the sealed lips. Upon the padlock candidates for the society vow to try to their utmost never to say an unkind thing true or untrue, about anyone else, and to endeavor to stop "thoughtless, harmful chatter." There are no forms to fill out, and the Padlock Society has no dues; new members join up by taking the pledge on an open padlock and sending their names and addresses to Dr. Armstrong Smith, of Maryland, Letchworth, England, for registration. Nothing more—and tny padlock anywhere will do. We must confess frankly, that we've never heard of Doc Smith before. We don't know whether he is a physician, a preacher, or a philosopher. But anyone who is out to stop "thoughtless, harmful chatter" might qualify in any of the professions, or all. As a diagnostician of what we believe is one of mankind's malignant maladies, Doc Smith is all to the mustard—even though it be "unkind" to say so.—Colliers.

**MUST WORK TOGETHER**

The paramount fact of modern life is that people are necessarily dependent upon each other and must somehow manage to live together and work together. The farmer, the coal miner, the railroad worker, the shoe-

maker, the textile worker, the physician, the school teacher, and all the rest in the circle of occupations together form an organization which supplies the wants of each one far more effectively than he alone could supply himself. It is a great mutual system for the common advantage. The matter of supreme importance is to keep this organization in effective operation and adjust the relations between the members upon a fair basis. Organized society carries all the values that come down from the past and that we hope to pass on to our children.

Nobody suffers wrong by having the authority of the government maintained, for everybody is more than compensated by any curtailment of his own freedom by the protection he receives from the aggressions of others and by the blessings of peace and order in the community.

In a democracy nobody has any exclusive rights. Whatever one has a right to do all have a right to do under similar conditions. Every trade and profession is open to all alike.—National City Bank of New York.

**LAKE COUNTY'S BOOKLET.**

Lake County leads in most things and Lake has taken the lead in publishing a new booklet descriptive of the county. In a letter Secretary Powell says:

"I am handing you the new book—a home product—photos by Herbert C. McKay (now in Egypt taking pictures for some Bible concern); cuts by the Times-Union of Jacksonville; printing by Lake Region, Eustis and text by most everybody in the county. The edition is 30,000 copies.

"It is the largest and most comprehensive book ever issued by any commercial body in the South.

"It is breaking away from the railroad folder book.

"The size of pages are 11x14 inches. In my opinion we need volume and numbers instead of beauty. I believe that 30,000 books of 50 pages is better than 5,000 copies of a 16-page railroad folder style on highly enamelled cover paper, and the price for the 30,000 books of my making are less than the 5,000 books that are generally used by commercial clubs.

And in looking over the new book we believe that Willis is right. We do not believe that everybody had a big hand in the making of the book and Willis Powell no doubt had both of his large hands in it. The book is filled with good matter, descriptive matter and figures and facts that have no comeback because they are all true. The new book was printed at the Eustis Lake Region office and is something that plant can be proud of along with all the balance of the county. It is just something that will catch the eye of the real investor and bring him to Lake county. Congratulations to Willis Powell and all concerned.

**REBELLION AT TALLAHASSEE**

Paris has decreed that skirts shall be long. Tallahassee may now decree that they shall not. Now 'tis—now 'tain't. What would men fashion-makers and men law-makers do did they not have women's follies to steal their peace of mind!

An eminent Parisian creator of feminine fashions arriving in New York proceeds straightway to formulate the course of women's styles for the immediate future. Skirts and sleeves are to be long, corsets are to be dispensed with and shoes are to be of colored Russian leather draped over the ankle. "These are already being seen in Paris; in three years they will be generally worn here." "Is New York three years behind Paris?" the master was asked: "Exactly," was the reply "it takes that long for you to resign yourselves to our ideas."

It is something for a French arbiter of fashion to concede that American women are developing a spirit of independence in clothes. Time was when the laws of Paris on the subject were as the laws of the Medes and Persians. Since the war they appear to be more honored in the breach than in the observance. Fifth Avenue nowadays has a voice in the matter such as it never had before, an equal voice with that of the Rue de la Paix.

But no doubt the great trial of conclusions is to come in the contest over the short skirt, now in the skirmish stage. Paris having decreed that skirts should be short, has now decreed that they shall be long.

But instead of blind obedience in this country, there is rebellion at Tallahassee, ay, rebellion even at Washington. Leagues are being organized here, there, everywhere to protest against the return of the long skirt. Men are up in arms. Congress may be petitioned to legislate them out of existence. Long skirts are unhealthy, unsafe, un-beautiful. Women shall not be bound by fashion. Women shall be free.

**FROM OTHER SANCTUMS**

**FASHION VS. HEALTH**

Dr. Royal S. Copeland, health commissioner of New York, may be too liberal in his views to be taken as representative of the medical profession, but he is a leader in the science of health engineering, preventive as distinguished from curative medical practice, and therefore is entitled to a hearing on all things visible and invisible.

"Woman's dress should be so planned that she has perfect freedom of movement," he says, "when a skirt is made so long it drags the ground, it must carry into the home dirt from the street and some of the germs of disease."

Paul Poiret, self-styled creator of fashions and one who gets away with it, will resent this invasion of his province. He has decreed that long skirts shall be worn. Health, he may say, has nothing to do with fashion. Styles are dictated by artists from models that have been used in every age since woman first killed a peacock to obtain feathers for her hat. Women have pierced their ears, bound their feet, put rings through their noses, clipped their eyebrows and shayed their heads according to the caprice of style-makers. Why should they fear a few germs so small they cannot be seen?

Perhaps former Supreme Court Justice Clarke could be induced to become a Judge Landis to arbitrate these conflicting views. Something must be done. Otherwise women are likely to decide for themselves what they will wear while these two great men, Dr. Copeland and M. Poiret are arguing.

Men, be it remarked, are properly the champions of a movement to free woman from the thralldom of fashion. Men are historically the challengers of convention. Aside from binding their throats to the point of strangulation, binding their heads in unbendable hats to the point of semi-consciousness, and binding their waists with a thong of unstretchable rawhide—and aside from a few other little details too insignificant to mention—men are traditionally free, unconventional and gloriously defiant.—Tampa Tribune.

**THE MAN ABOUT TOWN**

After a Week's Silence Bursts Forth

What George Phillips, the amusement king of Lake Mary said about advertising brings to my mind a little verse which adorned the street cars, years ago when car card advertising first started. It went like this:

"The constant drop of water wears away the mighty stone,  
The constant gnaws of Towser devours the toughest bone,  
The constant wooing, lover wins the blushing maid,  
And the constant advertiser—he always gets the trade."

Auto suggestion is the very latest wrinkle. Man in England tied a handkerchief around his neck, believed he was being hung and died with "auto suggestion." We know a woman who had auto suggestion in Sanford. She suggested to her husband that he buy a Cadillac because her neighbor had one and he only had a Ford income and the man is now thinking about tying a handkerchief around his neck and taking a drink of Sanford's "Cemetery Cheer." Same result.

There are a lot of fellows here who can't do it but they always know how it ought to be done.

Paul Biggers has a hard job and he says it is a hard life with his wife gone away to the country. Paul has to come down town to get his meals and then go back home and cook meals for his dogs. Sort of a dog cafeteria that Paul is operating.

Charlie Henry was late with the milk the other night and a lady asked him what was the matter. "Well, you see," says Charlie, "the law allows us 25,000 bacteria to the gallon and you don't know how long it takes to count the little beggars."

Heard at the club:  
"I had a wonderful poker hand last night."

"Clean up anything on it?"  
"No, we were playing rummy."

The Sitting Sons of Rest have decided that the whole city administration is a bum outfit without the soul of poetry or art and that unless those benches are forthcoming immediately if not sooner there will be an entirely new deal in city politics ere the end of January.

**A RUSH FOR LAND WHEN NORMALCY RETURNS**

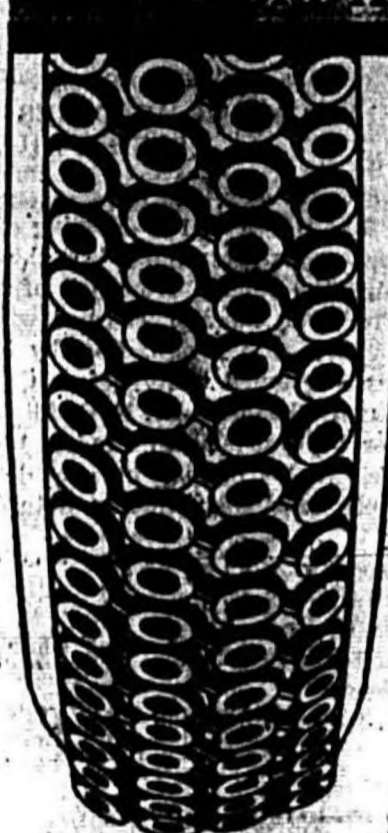

The National Farmer and Stock Grower, of St. Louis, says: "Some of these days some of us will be knocked down with a land boom. Markets have no sense and booms have no limit. Although the day of the land boom is not here yet, it will come directly when all normalcy has returned. Normalcy is a time when foreign countries have money to buy the surplus products of our farms. Normalcy is a time when the strikes which afflict the country are few and far between. Normalcy is the time when the government only governs and business interests attend to their own business. Normalcy is the time when there is no disturbance. We know the time when the population of this country was 50,000,000 of people. Then we had land booms. We knew the time when the population could not eat half the farmers could raise. Then we had land booms. We knew the time when the farm products did not bring half the money they do now. We knew the time when every year brought in ten millions of acres of new land. And then, occasionally, there were land booms. But now normalcy means 120,000,000 people. It means very few acres of new land to come in. It means a daily progression to the time when, even with abundant crops available the farm crops will all sell for a profit. And then the crazy boom will begin. Right now wise men are buying land; fools are selling it. When the boom comes land will sell for more than it will ever be worth. People who flocked to the non-productive cities will go back to the soil and they will add to the land boom. We are not there yet for many disturbances are in front of us, but gradually and surely the increase in population in this country will cause the rush for country homes on which people can make a living and insure to themselves their daily bread."

TREATED

CAROLINA

RUN-OFF PRIMARY

S. C., Sept. 13.—The Thomas G. McLeod for South Carolina over for Cole L. Bleas in yesterday run-off primary was won by a total of 155, 1,000, as indicated by the Columbia McLeod leading Bleas...

the state. McLeod took the lead when the first returns were received and increased his advantage steadily as the votes were reported. Indications were that McLeod would carry 38 of the 46 counties.

It was estimated that probably not more than 40,000 votes are to be reported when these totals were made.

The only other state office to be filled in the primary was that of state superintendent of education in which the incumbent, John E. Swearingen, has been defeated by Jams H. Hope.

The state's tabulation showed Hope leading Swearingen by more than 25,000, the vote being: Hope, 89,371; Swearingen, 63,609.

PALATKA WANTS THE ENGINEERS

Sanford should be proud of the fact that we have three military units of the National Guard here. Other cities have one or two and some have none and all of them are anxious to have one. Palatka has a chance to get the engineers and is very anxious to have it as the following from the Palatka News would indicate:

Efforts are being made to organize a company of national guards here, to be known as Company A of the First Florida Regiment. It is the only vacancy in the state's allotted military organizations to receive government and state aid, and unless Palatka succeeds in enlisting the required number of men some other community will grasp the opportunity.

The company to be organized here will be an engineering unit. The name engineer presents the picture of a man of action, a man capable of performing the many technical works that are necessary to the successful conduct of a campaign, the making of maps, fortifications, roads, bridges, railroads, water supplies, sewers, lighting, wharves, warehouses, shops, saw mills, quarries, for our army, and the destruction and demolition of those which tend to aid the enemy. The engineer is a man of skill as well as a man trained and equipped to take his full share in the actual fighting when occasion demands, a soldier through it all.

He has always taken a most important part in warfare, and as mechanical development has progressed, his ability to apply the more and more complex machinery of civilization and of peace to the purposes of war has been in greater and greater demand. In all the six wars in which this country has been engaged, he has made an enviable name for himself and his comrades, not by force of numbers—for the engineers have always been relatively few—but the application of his technical skill, enabling him to effect a vast and important increase in the fighting power of the entire army.

And so, as his war-time work demands that he be a man possessed of both technical skill and fighting ability, his peace-time training is devoted to developing him along both these lines. He acquires, in his training as an engineer soldier, habits of mind and strength of body that make for success in any walk of life.

In time of war the skilled worker is taken from his shop, his office, his survey, his mine or his railroad, and given that place in the army where his knowledge and skill will be of greatest value.

In time of peace, this process is reversed. The untrained man enlists and after becoming an engineer soldier, he can return to civil life fully prepared to engage in any one of many callings.

Drapery Sale Friday and Saturday. Yowell Co. 145-1tc

PRELIMINARY RESOLUTION REQUIRING THE GRADING AND PAVING OF FIRST STREET FROM MILL CREEK WEST TO CITY LIMITS; FRENCH AVENUE FROM FIRST STREET, SOUTH TO TENTH STREET; SANFORD AVENUE FROM FIFTH STREET, SOUTH TO TENTH STREET; PALMETTO AVENUE FROM SECOND STREET, SOUTH TO FIFTEENTH STREET.

BE IT RESOLVED, That the City Commission of the City of Sanford, Florida, deem it advisable to improve, grade and pave with vitrified brick or other hard surface material, the following streets in the City of Sanford, Florida, to-wit:

FIRST STREET, From Mill Creek west to the City Limits; FRENCH AVENUE, from First Street South to Ninth Street; SANFORD AVENUE, from Fifth Street, South to Tenth Street; PALMETTO AVENUE, from Second Street South to Fifteenth Street.

All of said improving, grading and paving shall be done in compliance with the estimates for said work on each of said streets as indicated by complete plans, specifications, profiles and estimates of said proposed improvements now on file in the office

of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said work; and this Commission hereby declares the necessity for doing said work on each of said streets and that this resolution is an emergency measure, providing for the usual daily operation of a municipal department.

The City Commission is hereby authorized to expend for said work on each of said streets, the following sums of money payable out of any moneys available therefor, to-wit:

FIRST STREET: From Mill Creek West to City Limits \$41,000.00 which said sum is the total estimated cost of the improvement of said portion of First Street.

FRENCH AVENUE: From First Street South to Ninth Street \$23,000.00 which said sum is the total estimated cost of the improvement of said portion of French Avenue.

SANFORD AVENUE: From Fifth Street South to Tenth Street \$18,520.00 which said sum of the total estimated cost of the improvement of said portion of Sanford Avenue.

PALMETTO AVENUE: From Second Street South to Fifteenth Street \$47,600.00 which said sum is the total estimated cost of the improvement of said portion of Palmetto Avenue.

That one-third of the total cost of the improvement of the streets aforesaid shall be borne by the City of Sanford, Florida, and shall be paid from the General Improvement Fund of the City of Sanford, Florida, out of any moneys available therefor, and the remaining two-thirds of such cost shall be distributed among the several lots fronting or abutting on each of said streets per front foot, in proportion to the frontage thereon, and the cost to be so distributed on each of said streets is as follows, to-wit:

FIRST STREET: From Mill Creek West to the City Limits \$27,333.33

FRENCH AVENUE: From First Street South to Ninth Street \$15,333.33

SANFORD AVENUE: From Fifth Street South to Tenth Street \$11,013.33

PALMETTO AVENUE: From Second Street South to Fifteenth Street \$31,733.33

That two-thirds of the expense of the improvements aforesaid, shall be paid by special assessments made and levied upon all lots and lands bounding and abutting upon such improvements between and including the termini of the improvements upon the streets aforesaid.

That the method of making such special assessments shall be based upon the foot frontage of the property bounding or abutting upon the improvement as provided by Par. C., of Sec. 155 of Chapter 8361, Laws of Florida, of 1919, the same being the City Charter of the City of Sanford, Florida. That is to say, two-thirds of the cost of such improvements shall be distributed among the several lots fronting or abutting on each of said streets per front foot in proportion to the frontage thereon.

That said special assessment shall be payable at the option of the property owners as follows: either in full within thirty days after the completion of the work, or in ten equal annual installments with interest at the rate of eight per cent. per annum from the date of the completion of said improvements.

BE IT FURTHER RESOLVED, That this resolution is hereby declared to be an emergency measure, providing for the usual daily operation of a municipal department of the City of Sanford, Florida, and shall become effective immediately upon its passage and adoption. Adopted this 11th day of September, A. D. 1922.

C. E. HENRY, S. O. CHASE, FORREST LAKE, City Commission of Sanford, Fla.

Attest: L. R. PHILLIPS (SEAL), City Clerk. The above and foregoing resolution was placed upon a second reading and read this 11th day of September, A. D. 1922, whereupon Commissioner Forrest Lake moved its adoption. This motion was seconded by Commissioner S. O. Chase, and upon vote the same was passed upon its second reading as follows:

FORREST LAKE, S. O. CHASE, C. E. HENRY, The City Commission of Sanford, Florida.

Attest: L. R. PHILLIPS (SEAL), City Clerk. 145-1tc

NOTICE OF PUBLIC IMPROVEMENTS

Notice is hereby given that on the 11th day of September, A. D. 1922, the City Commission of Sanford, Florida, adopted a certain resolution requiring the improving, grading and paving with vitrified brick or other hard surface material, the following streets in the City of Sanford, Florida, to-wit:

FIRST STREET from Mill Creek West to City Limits, FRENCH AVENUE from First Street South to Ninth Street, SANFORD AVENUE from Fifth Street South to Tenth Street.

PALMETTO AVENUE from Second Street South to Fifteenth Street. All of said grading and paving to be done in compliance with complete plans, specifications, profiles and estimates of said proposed improvements now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore submitted to and approved by the City Commission of the City of Sanford, Florida.

Said resolution provides that one-third of the cost of the improving, grading and paving of said streets shall be borne by the City of Sanford, Florida, and shall be paid from the General Improvement Fund out of any moneys available therefor.

Said resolution further provides that two-thirds of the expense of the improvements aforesaid shall be paid by special assessments made and levied upon all lots and land bounding and abutting on such improvements between and including the termini of the improvements upon the streets aforesaid.

WITNESS my hand as City Clerk and the seal of the City of Sanford, Florida, on this the 11th day of September, A. D. 1922.

(SEAL) L. R. PHILLIPS, City Clerk of Sanford, Fla. Sept. 13-20-2tc

Building Permits Reach Good Figure For the Month

The following report submitted by City Manager Ryan last night to the City Commissioners is interesting: Sanford, Fla., Sept. 11, 1922. To The Honorable City Commission City of Sanford, Florida: Gentlemen: I beg to submit the following report for the month of August: Police Department

Table with 2 columns: Category and Number. Includes: Disorderly conduct (17), Drunkenness (5), Traffic Violations (3), Vagrancy (7), Violation Liquor Laws (1), Concealed Weapon (1), Animals running at large (1), Doing business without license (1).

Of these 10 cases were dismissed. Building permits issued 20, estimated cost \$54,875. Electrical permits issued, 11. Plumbing permits issued, 11 (5 sewer connections).

Small-town Bands Praised by Davis

Harding Once Played in Band at Marion, Secretary of Labor Reveals

BY HARRY WAID (International News Service Staff Correspondent.)

Secretary of Labor Davis, who played the clarinet in the town band in Sharon, Penn., many years ago, is advocating the creation of a Federal Bureau of Instrumental and Vocal Music, the Drama, the Theater and Athletics throughout the United States.

"To my mind," the labor secretary said, "there is no greater influence for community and social good in the American small town of today than the town band. Some of the pleasantest recollections of my life carry me back to the days when I played the clarinet in the Sharon band.

It is Secretary Davis' idea to have the proposed bureau of recreation co-operative with the states and the individual communities in developing home and community music.

"As to music, I would adapt the Eisteddfod idea of Wales to America," he said. "That means the organization nationally of instrumental and vocal music, the theater and all other recreations. This national organization must begin in the individual community. I believe that all municipalities should have recreational leaders. I would have every form of recreation, so that the humblest citizen could really take part and enjoy it. I would have community competitions, from which the winners would go to county and state competitions and finally to a great national gathering."

"The power of music," Secretary Davis added, "is the most universal of arts and has been recognized from the dawn of civilization. Down the long centuries from the dim ages to today humanity has marched or danced, plodded or gambled its way of progress under the inspiration of music. From the Psalms of David to the syncopation of modern jazz, music has always been the one art that entered intimately the lives of most of the world's peoples. Existence without music is a drear, drear thing for an individual or a people. There, is, no

greater force for peace and happiness than music."

Davis believes that America could take no single step that would advance the nation along the road to happiness further than the establishment of a national means of exercising the power of music.

He said that America can be organized musically, because most American workmen receive a saving wage, pointing out that there are 40,000,000 people gainfully employed in this country.

"I am the friend of every effort to give music its rightful place in our national life," Warren G. Harding.

"FRENCH TIGER" SAYS HE WILL PLEAD FOR AMERICA'S GOOD WILL

PARIS, Sept. 12.—Georges Clemenceau, "Tiger of France," is going to the United States, primarily to plead the cause of France, he told a correspondent of The Petit Parisien, who went to his summer home at Jard to question him concerning his contemplated trip.

"I ought not to talk to you," he said. "It is to the Americans I want to speak, but if I told you what I expect to tell them, then it would not be worth while taking the boat."

"No one speaks for France—no one, and the time has indeed come. I will not say anything about conferences; that is not my business—but this is the time to tell the United States that they are making a mistake—that we are neither militarist nor imperialists, and that the French people deserve the enthusiastic confidence of its friends.

"America asks me my opinion and I will give it. To plead our cause I need neither preparation nor documentation. Arguments are not lacking and it is not a question of a triumphal voyage, but a useful one.

"I expect to give four lectures and will leave about the first of November. But it is understood that I have no mission and that I will accept no banquets or anything like that. I speak my name. America asks my views and I give them, that's all."

WASHINGTON, Sept. 13.—Expressions from cotton growers and others interested in the cotton industry on plans for fighting the cotton boll weevil by abandoning cotton acreage in prescribed areas were asked today by Senator Smith (D., S. C.) following his receipt from Dr. E. D. Ball, chief of the scientific work of the department of agriculture, of a memorandum on the subject.

Declaring that it would not be feasible to stop all cotton production for a time to drive out the weevil, Dr. Ball's report stated that success might be achieved through abandoning production in certain districts throughout the cotton belt. This is the plan favored by Senator Smith, and he proposes to bring the question before the senate.

Legislation to ratify agreements between the cotton-growing states for limiting a certain amount of cotton acreage in each state was suggested by Dr. Ball.

KOJIMA ISLAND FOR SALE

(By The Associated Press) TOKIO, Sept. 13.—The island of Kojima, belonging to the Hachijo group between Vries Island and the Bonjins, is for sale. It has a circumference of between seven and eight miles and boasts of two villages of inhabitants who are mostly farmers and fishers and live chiefly on sweet potatoes. The resources of the island being limited, they are too poor to meet the taxes which are troubling the village assembly. As a way out of the difficulty the assembly has decided to sell the island at price of 120,000 yen, together with 3,600 yen for the fishing rights. It is reported that the inhabitants of Bishima, a neighboring island with a population of 305 persons also are desirous of selling their island.

RIVERS AND HARBORS BILL PASSES SENATE; GOES TO CONFERENCE

WASHINGTON, Sept. 12.—The river and harbor development bill specifying projects upon which government funds may be spent, was passed today by the senate after amendments providing the federal acquisition of Cape Cod, Mass., and Dismal Swamp, Va., N. C. canal, had been adopted. The bill now goes to conference.

Another new provision placed in the house bill today by the senate, upon motion of Senator Shields, dem., was for a government survey of the Tennessee and its tributaries in Tennessee, Kentucky and North Carolina.

No appropriations has been carried in the bill which primarily is to stipulate how funds of the annual river and harbor budgets shall be expended. It

WET ISSUE COMPLETELY ABSENT IN KANSAS

(By The Associated Press) KANSAS CITY, Mo., Sept. 13.—Complete absence of the wet and dry issue marks the coming election in Kansas, not one candidate having injected the question into the contests in the dry's stronghold.

Statements from a number of congressional and state candidates indicated they were ignoring the issue in their campaigns because they did not consider it existed in any of the state or district contests.

BIRDS FLY 3,000 MILES FOR SEASONAL RESIDENCE

(By The Associated Press) WASHINGTON, Sept. 13.—How far will a migratory bird travel in its fall and spring flights? The Biological Survey has determined that they make flights of at least 3,000 miles.

An investigation has been conducted for several years by the Survey by trapping ducks and other strong winged fowl in northern sections, and marking them with light bands bearing a serial number and the legend, "Biol. Surv., Wash. D. C."

The numbers on the fowl are recorded and from time to time, hunters bagging some of those marked, report where and when the bird was brought down.

More than two hundred such birds were loosed with the bands from Lake Seugog, in Ontario, about 20 miles north of Toronto, and many reports have been received. So far, the record flight is that of a blue winged teal, banded September 24, 1920, and killed two months and seven days later in a swamp near Port of Spain, on the island of Trinidad. The shortest possible flight the bird could have taken to reach this point, which is off the coast of Venezuela, is 3,000 miles.

In tracing their routes it seemed apparent that the mallards and black duck travelled together and their course from Lake Seugog was southward along the shores of Lake Erie by way of the St. Clair flats. Here the route divided, the majority continuing southwest, crossing the Ohio, and then to the Mississippi Valley where the majority wintered.

The others took a southerly route, crossing the Allegheny and reaching the Atlantic coast by way of Chesapeake and Delaware Bays. None of the banded birds were taken.

SOME ILLINOIS CANDIDATES DECLARE WET

(By The Associated Press) CHICAGO, Sept. 13.—About one third of the candidates in Illinois for Congress have announced their attitude toward prohibition. Of these, fourteen declared themselves wet, seven dry, and five said that prohibition was not an issue in their districts. None of the other candidates have announced their position—thus far.

Of the candidates declaring themselves wet, three were Republicans, four Democrats, four Socialists, and three represented the Farmer-Labor party. Of the dries, two were Republicans, two Democrats, one a Socialist, and two Farmer-Labor men. Three Republicans and two Democrats said there was no liquor issue in their districts.

Of the thirty seven candidates in the Chicago districts and the four Chicago candidates for representative at large, twelve have announced their position, eleven declaring themselves wet. The twelfth, James M. Cahill, Farmer-Laborite in the Eighth district, declared for enforcement of the Eighteenth amendment but suggested that the amendment might be modified to some extent "to remove the feeling that it is an infringement upon personal liberty."

OSAKA MOST EXPENSIVE CITY

(By The Associated Press) OSAKA, Japan, Sept. 13.—Osaka, the industrial capital of Japan, has the reputation of being the most expensive city of the empire in which to live. The prices of commodities in Osaka in June averaged 8.7 percent over the same month last year, Tokyo the next expensive city, averaged 6.8 percent. The general advance in prices in ten years has been 150.89 percent in Osaka and 130.34 percent in Tokyo, according to official figures.

Believing that the high prices are due to profiteering the government recently ordered the department stores to make a reduction of 15 percent in necessities. The stores replied with bargain sales, at which they got rid of their surplus stock. This did not satisfy the government so an order has gone out to all retailers to reduce the prices if "soya" a sort of macaroni and "tofu" bean paste, staple foods of the people. If present weather conditions continue a good crop is expected in bringing down the price of rice.

DON'T WANT BELLED CATS IN ST. PETERSBURG

(By The Associated Press) ST. PETERSBURG, Fla., Sept. 13.—Citizens declare that sleep in St. Petersburg would not be a howling success if a proposed ordinance, now buried somewhere in the archives of the City Commission, were resurrected and enacted into law, as is proposed by a member of that body. The measure, sponsored by the Audubon Society five or six years ago, and buried because none of the commissioners at that time felt equal to the responsibility of passing or killing it, would compel the owner of every cat in the city to hang a bell about the neck of the animal.

The Audubon Society in its efforts to protect song birds hit upon the idea to bell cats, among other steps. It was argued against the measure, however, that cats were wide awake when most folks are asleep and the commission was asked how a citizen could snatch his forty winks with bell totin' cats adding ting-a-lings to their usual concerts of yowls and howls. They had trained themselves to sleep through the cat concerts of ordinary calibre, said the objectors, but the ringing of bells all night would be a disturbing element from which there would be no escape.

While the argument for and against the measure continued, the commission marked time, then when the excitement had subsided somewhat it was buried in the files and forgotten.

A member of the present commission who has served several consecutive terms but who is about to retire, started that august body a few days ago, declaring that he would not be satisfied to leave the commission if it had been acted upon.

TURN ON THE LIGHT

A knowledge of the conditions which obtain in and around the institution which supplies entertainment for our children and ourselves should be a part of the education of every man. To encourage the good and fight the bad in the show business is the duty of every citizen.

"The Billboard" is one medium with which wide circulation from which a complete knowledge of the show business may be gained.

"The Billboard" is a fighter for the clean and wholesome in the show business.

NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT

The undersigned will apply to the Governor of the State of Florida, at Tallahassee, for Letters Patent incorporating the B. & O. MOTOR COMPANY, under the following proviso: That the original of which is now on file in the office of the Secretary of State of the said State of Florida, witness our hands this 8th day of August, A. D. 1922.

D. JERNIGAN, H. BAGGETT, W. M. CATHRAE, PROPOSED CHARTER OF THE B. & O. MOTOR COMPANY

The undersigned incorporators hereby associate themselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws of the State of Florida, and under the following proposed charter:

Section 1.—The name of this corporation shall be THE B. & O. MOTOR COMPANY and its principal place of business shall be in the city of Sanford, County of Seminole and its office shall be at such other places as may be designated by the Board of Directors.

The general nature of the business to be transacted shall be as follows: The buying and selling of automobiles, trucks, and other motor vehicles, the purchase, sale or exchange and rental of real estate; to own, operate, maintain, hire, rent, build or erect garages, warehouses and office buildings; to sell, mortgage, sublet, pledge, hire, lease or convey the property of said corporation or any part thereof, at the discretion of the Board of Directors; to borrow money, issue bonds or other obligations, and to secure the same by mortgages, pledges or any other kind of instrument; to make contracts of any kind whatsoever for the furtherance of the business of the Company.

To deal in merchandise and to do all things and acts which the Board of Directors may deem advisable or expedient to be done in the transaction of its said business, and generally to have exercise and enjoy all the rights, powers and privileges incident to corporations for profit under the laws of the State of Florida.

Section 2.—Common Stock. The Capital Stock of this corporation shall be Fifty Thousand (\$50,000.00) Dollars, which shall be divided into Five Hundred Shares at a par value of One Hundred (\$100.00) Dollars per share. The terms and conditions upon which the capital stock shall be paid in shall be as follows: Such stock shall be issued only when paid for in full and lawful money of the United States of America, or in gold, silver, merchandise, labor, services or other property to be taken at its valuation as may be fixed by the Board of Directors, as provided by law.

Section 3.—Officers. The officers of this corporation shall hold office for the period of term of one year from the date of their election, and shall be elected at an election to be held on the third Monday in September, A. D. 1922.

The Ladies' Union of the national church will have a sale Saturday, Sept. 16. See E. Stafford and get your town lots in Lake Monroe and build houses that will rent the year round.

PLAYING INTO HANDS OF PROFITEERS BY REGULATING CARS

(By The Associated Press)  
DETROIT, Sept. 13.—Charges that the Interstate Commerce Commission through its control of empty cars "is playing into the hands of coal profiteers under the guise of regulation for public good" were made in a statement issued by Henry Ford from his offices in Dearborn, a suburb.

**GEORGIA VOTERS AT POLLS TODAY FOR NOMINATIONS**

STATE AND COUNTY OFFICERS AND CONGRESSMEN

(By The Associated Press)  
ATLANTA, Sept. 13.—Georgia voters went to the polls in the primary today to nominate state, county officers, congressional representatives and with participation of women voting, an unusually large vote is expected to be cast. Chief interest in the contest is for the nomination of governor between Thomas W. Hardwick, incumbent, and Clifford Walker, the unsuccessful candidate two years ago. Both candidates waged a determined fight. Hardwick injected Ku Klux Klan in fight, and declared Mr. Walker was a candidate of the Klan and supported by "radical union element." Walker has criticized present administration's taxation policy.

**ZEPHYRHILLS VOTES PUBLIC WORKS BONDS**

ZEPHYRHILLS, Sept. 13.—The election to determine whether or not this city should be bonded in the sum of \$37,500 for the erection of a water plant and the paving of certain streets, carried by a wide margin here today.  
The vote stood eighty-five for and twenty-five against bonds.

The plant of the Non-Acid Phosphate Company, located near Lakeland, is rapidly approaching completion. It is believed it will be ready to supply potassium phosphate in time to the coming fertilizer season. The entire phosphate world is watching the development of the process to be used by the Non-Acid Phosphate Company because it is believed it will revolutionize the phosphate branch of the fertilizer industry.

DRINK GRADE A COFFEE.—A SANFORD PRODUCT. 145-5tc; w-1tc

**FARMERS ARE MANUFACTURERS**

The Herald has oft repeated that Sanford farmers especially were in the manufacturing game and like a big factory the farmer had to have so much money, experience and ability to operate a big enterprise. And yet different from a manufacturer of other products who had his out put sold before he made it, the Florida growers never knew when they planted their crop what they would get and half the time did not know what they should get for a profit. The Times Union has something of the same in the following:

"They don't farm in Florida—they manufacture." This is an arresting sentence in the very informative and interesting booklet which has been issued by the Lake County Chamber of Commerce.

Did you ever stop to think that farmers do manufacture, that they are manufacturers of food supplies in great variety. Manufacturing ability implies skill intensified, made more practical, by human intelligence. Haven't Florida farmers that ability to a marked degree? Are they not studying all the time to improve their

methods, as well as the fertility of the soil, as well as their breeds of cattle and live stock, in order that the products of their thousands of manufacturing plants, their farms, may command attention in the markets of the country, there to find buyers, of what is best who pay therefore the best of prices?

Florida farmers are manufacturers, when you come to think of it. There are in the state, or were in 1920, when the last U. S. census was taken, 54,006 farms. There are more now. But they are not all manufacturing plants, since some of the operators are not modern farmers, in every sense of the word. The great majority of them are, and they are a very great credit to the state.

These slightly more than 54,000 farms were valued, in 1920, by the same census, at \$330,801,717. Ten years previously Florida farms, then 50,016 of them, were valued at only \$143,183,183. Within the ensuing decade all farm property in Florida increased in value 130.7 per cent. The average value of all farm property in Florida in 1910 was as given by the census reports, as \$2,863 per farm; ten years later the value per farm had jumped to \$6,116, sustaining our contention that better farming, better tillage of the soil, better marketing—all contributed to this enormous value increase.

In 1909 the total value of all Florida crops was given as \$33,217,656. In 1919 the value of Florida's sub-tropical fruits alone had reached a total of \$22,663,840, practically two-thirds of the total value of all the crops produced in the state ten years previously.

These few figures prove conclusively the importance as well as the worth of Florida farms and their manufactured products, mostly of food. They indicate an immense industry within the state, one that needs to be fostered in every possible way and manner. Skill and intelli-

gence have done very much for Florida's agricultural advancement; they will do very much in the decade which will be completed in 1930, only eight years hence, or less. How much the advancement will be depends on individual exertion and enterprise and on cooperation.

Knowledge, without practical application to the affairs of life, is of but comparatively little value. As it is

secured and utilized by Florida farm owners so will be the state's agricultural advancement in the years immediately at hand.
