Stricken Japan Is Planning to Build Enormous Stadium

TOKIO, May 3.—The wave of addium building, which has swept niversity centers of the United states since the war, has reached span. A stadium with a capacity \$50,000, which can be expanded 80,000, is to be built this spring summer about half way beween Kobe and Osaka, on the line the Hanshin Electric Railway, which is constructing the park.

A baseball diamond, in which the latest ideas in use in big league parks in the United States will be introduced, will be ready for use first, but the stadium will have also running track, facilities for field events, and a swimming pa-vilion. The last is made possible by the stadium's location on the

The stadium will be the largest the Orient, and one of the largst in the world. The tremendous popularity of baseball in Japan is considered a guarantee that the seating capacity of the park will be fully needed

May First Dedicated To Children In Nation-Wide Festival Planned To Stimulate Health Activities

Traditional customs of the Day

a purpose which its sponsors anticipate will have an instant apall America is that planned for May Day of this year by the officials of the American Child Health

The day, always associated with childhood in its happiest mood, has been dedicated by the Association as the one most fitting on which to carry on a program devised to awaken the interest of grown-ups in the health and happiness of the nation's boys and girls. · President Calvin Coolidge, all the governors, municipal authorities, prominent educators and ministers are united with millions of parents in this great effort to carry before the public the gospel of child health.

completely the present methods of

long-distance transmission. The gist

of the new invention, according to

Mr. Marconi's announcement at a re-

cent meeting in London, over which

he presided, is that the radio waves

are concentrated in the form of beams

that can be projected in any desired

direction. In this way all the power

can be sent in one direction, thus in-

quired for such directional transmis-

sion is much less than the amount

In a single sentence the Associaion's president sums up just what he organization seeks to accompish by the May Day observance. "This," he says, "Is a problem of maintaining health rather than of uring disease."

Just a year ago, President Hoover published the American Child's Bill of Rights, and it still s the platform on which the Association is carrying on its work. He then declared that there should be no child in America

"I never got to go to school regularly. If I had had an education I could have made a big success of my life." How often you hear that excuse offered for failure, and how seldom you think it worth while to remind the speaker that he doesn't need to be without an education, if he really wants one. Any person who desires an education can have it. Those who wish to grow in mentality can do so if they are willing to work for it—willing to pay the price.

Take, for example, the reading courses available to every person intelligent enough to be noticing his own lack of education. For a few dollars it is possible to buy literature especially arranged for busy people. There are even directions for study accompanying this reading matter; and a half hour a day faithfully devoted to the outlined lessons will give in a THOUSAND MIREION MILES, few years the equivalent of a college course.

Correspondence schools are also available, and numbers of colleges offer resident courses to persons of advanced flies through space. years. What About That Tourist Camp?

About six weeks ago The Sanford Herald urged that something be done toward providing this city with an up-todate tourist camp, equipped to handle automobile tourists as they come south next Winter. As far as is known nothing has been done about the matter and unless some action is taken before long, next winter will come finding this city still unprepared to accommodate those autoists who wish to stop over in Sanford for awhile.

Approximately ten million auto campers hit the trails weak, the disease germs kill you, the country during last year, according to the Chicago Mohich he found locked and guarded tor Club. The Tampa Times has an editorial about the "Awful Responsibility of the City Commissiners" in regard to finding a water supply for Tampa and otherwise looking after the peoples business. The City Commissioners of any city have an awful responsibility all right. They are spending thousands of dollars on improvements-sometimes millions-and being human beings are liable to mistakes but are doing the best they can and should receive some commendation instead of condemnation.

I do not think the City Commissioners should pay any attention to rumors-I do not think private citizens should pay any attention to rumors-I do not think that rumors mean anything unless backed up by facts-and I also think that much of this sensational stuff that is going out of Sanford is hurting the city in many ways. It might be good reading for some folks but as an advertisement-nit.

-AND FRIENDS WARNED HIM TO PUT HIS MONEY INTO A SAVINGS BANK

THE slick-locking salesman of a Wildent Stock Promotion Company per-suaded this guilible victim that a "fortune" could be made out of their "amazing" new stock offering.

The other day this stock took another tumble; in fact, it started tumbling almost as soon as the victim had purchased the stock despite the urgent protests of his friends. Now he is "amazed" to realize that the promised "fortune" has vanished like thin smoke, together with the savings of a life.

Next time a slick salesman offers to sell you some "amazing" atock bargain, just say: "Nix mister—my money's in the Sanford Loan and Savings Bank and it's going to stay there!"

BREWER WINS DECISION OVER YOUNG WALLACE IN TEN-ROUND **BOUT AT ARMORY FRIDAY NIGHT**

Two Welterweight Scrappers How They Stand Semi-Final Scrap Between Sweeney and Taylor Ends In Draw - Preliminaries Are Enjoyed by Fans As Was The Battle Royal.

Fast and furious fighting marked the 10-round headline attraction at the armory last night when Ben Brewer, the South American champion obtained the judge's decision over Young Wallace, th New Orleans fighting Italian.

It was a slugging affair from th very first with Brewer carrying the fight for the first few rounds He weakened considerably as the scrap progressed due to the heavy punches sent to his stomach his Wallace. He, however, came back strong in the last round. Although he received the decision, there were many in the audience that thought the scrap should have been a draw.

Both boys appeared to be in excellent trim with Wallace appear ing to have much better wind Brewer's gameness and libility to stand under punishment was me with hearty applauce time after time. Both lads waded in at the opening gong. Toward the latter part of the light, it appeared that an Brewer began to show signs of Mobile weakening that Wallace was look- Nashville ing for an opening to land a Chattanooga knockout punch,
