Charles D. Haines Asks Followers To Support Jennings

TAMPA, April 22.—(Special to
the Herald)—Announcement
made public here Monday
afternoon that Hon. Charles D. Haines,
of Atlanta, Georgia, who recently
announced his withdrawal from the
gubernatorial contest, has given a
strong endorsement to the candi-
dacy of Frank E. Jennings, of Jack-
sonville.
"My support of the candidacy of
Frank E. Jennings for the govern-
ment of Florida," states Mr. Haines,
"is based upon my respect for and
confidence in the man, my firm con-
viction that he would make a dis-
tinguished, honest, able execu-
tive free from corporate or other
entangling alliances, such as are
always found inimical to good gov-
ernment, that he is fully endowed
with qualified executive ability, a
diligent, energetic, progressive, one
that nothing could swerve from do-
ing his utmost to promote the wel-
fare, happiness and prosperity of
the people, the upbuilding of the
state and the development of its re-
sources."

FORD REFUSES TO APPEAR.
WASHINGTON, Apr. 22.—Henry
Ford informed the senate agricul-
tural committee Monday that he
would be impossible for him to ap-
pear in person before the commit-
tee to explain his Muscle Shoals
bid.
The committee received a letter
Monday from E. G. Leibold, Ford's
general secretary, saying W. B.
May, Ford's chief engineer, would
appear instead.

PRESIDENT IS SUPPORTER OF ARMS PARLEY

In Speech This Afternoon Be-
fore Associated Press De-
clares He Is In Favor of
Holding Second World Con-
ference to Consider More
Limitations On Arms and
Codification of Present Law

(By The Associated Press)
NEW YORK, Apr. 22.—Presi-
dent Coolidge, who will address the
Associated Press at the Penney-
sylvania Station today with Mrs.
Coolidge and a small party at
5:52 o'clock this morning and left
for the Waldorf Astoria. They
were greeted by cheering as they
drove through the police lines to
their automobile.

NEW YORK, April 22.—Presi-
dent Coolidge announced in an ad-
dress at the annual luncheon here
today of the Associated Press that
he would do his utmost to bring
about the settlement of a settle-
ment of the German reparations
question he would favor steps look-
ing toward the calling of another
world conference to consider fur-
ther limitation of armaments and
the codification of international
law.
Disclaiming any ability to an-
nounce a formula that would guar-
antee the peace of the world, the
President declared there were, how-
ever, certain definite things which
should be done to relieve the world
of the burden of military arma-
ments and diminish the probabili-
ty of military operations.
"The Washington conference did
a great deal to restore harmony
and good will among the nations,"
the President said. "Another pur-
pose of a conference of this kind
would be to bring about a further
limitation of competitive arma-
ments. Much remains to be accom-
plished in that direction.
"It would appear to be imprac-
ticable to attempt action under the
present conditions, and it is im-
possible to define a definite settle-
ment of the German reparations
question. I should favor the calling of a simi-
lar conference to achieve such
limitations of armaments and in-
ternational law, should preliminary
inquiries disclose that such a propo-
sal would meet with a sympathetic
response."

The United States, the President
said, is in a position to contribute
to such an additional move-
ment to world peace because America
holds the respect of other nations
and "our position is such that we
are trusted and our business sinu-
ations and government considered
to be worthy of confidence."
Mr. Coolidge hailed the work of
the League of Nations, and the
problem of reparations, and that
such an outcome will provide for
the restoration of Germany and the
largest possible payments to other
countries," he added.
Pointing out that the plan pro-
posed by General Dawes and his as-
sociates contemplates an immediate
loan to Germany for pressing needs
and for financing of a bank, he ex-
pressed the hope that private
American capital would be willing
to participate in the making of
such a loan.
The President devoted his ad-
dress delivered to the leading
newspaper publishers and editors
of the country, to the country's for-
eign relations in the main although
he reminded those who heard him
that "our first duty is to ourselves"
and that "American standards must
be maintained, American institu-
tions must be preserved."
The President, in alluding to the
world war caused many of the old stan-
dards to be suspended or cast aside
and asserted that although war
conditions had passed away, they left
"a trail of vicious and criminal
selfishness." Then turning to the
revelations of the senate in-
vestigations without mentioning
them specifically, he continued:
"From all of this sor didness the
affairs of government, of course,
suffered. In some of it a few pub-
lic officers were guilty participants.
But the wonder is not that this was
so much or so many, rather that it
has been so little and so few. The
encouraging thing at present is the
evidence of a well-nigh complete
return to normal methods of action,
and a sane public opinion. The
gravity of guilt in this kind is fully

THAW PREDICTS COURTS WILL SOON FREE HIM

An Court Adjoins Thaw Con-
fidently Tells Counsel "I'll
Be Free Tomorrow"
row.

(By The Associated Press)
PHILADELPHIA, Apr. 22.—Just
as the Harry K. Thaw
trial had recessed at
luncheon Thaw rushed to the
press table and burst into an
excited speech in which he
of Wm. Gray, who addressed
the jury in opposition to
Thaw's release. When called
down Thaw said he was not
excited but nervous because
of danger of losing the jury if
certain records were introduced.
PHILADELPHIA, April 22.—Thaw
is expected to be decided
in his trial and the address of
opposing counsel having been vir-
tually completed Monday before
Judge John Monaghan.
"I'll be free Tuesday," was
Thaw's confident assertion to his
counsel as adjournment was
made.
Admission by two alienists
called to the stand by counsel op-
posing his release that during
Thaw's confinement at the Penn-
sylvania hospital for mental and
nervous diseases, he had shown no
indication of insanity, was taken
by his lawyers as a strong point
in their client's favor, although both
alienists stated he was suffering
from "moral insanity."
Shows Active Interest.
During Monday's proceedings
Thaw evinced active interest, mak-
ing numerous remarks to his at-
torneys. Former Judge John M.
Patterson, chief counsel for Thaw,
in his address to the jury, attacked
the opposition for their failure to
cross-examine Thaw when he was
on the stand, asserting that had
they done so, "the result would
have thrown their case out of
court."
Neither Mrs. Mary C. Thaw, 32-
year-old mother of the slayer of
Stanford White, nor Evelyn Nesbit,
Thaw's divorced wife, appeared
on the stand.
Dr. Charles W. Burr of the Uni-
versity of Pennsylvania, a special-
ist in mental and nervous troubles,
in answer to questions by Arthur
Dickson, counsel for the trustees
of Thaw's estate, stated he believed
Thaw "morally insane" and in-
capable of administering his affairs
if released.
Judge Monaghan asked the alien-
ist a number of questions including
those which elicited the assertion
that "morally insane" meant in-
capable of administering his affairs
if released.
Theodore H. Weisenberg, con-
sulting neurologist at the state
hospital for the insane at Norristown,
was the next witness. He
said he "came to the conclusion he
(Thaw) is of unsound mind."

PLANS FINISHED FOR POLITICAL MEET APRIL 26

Large Number of Candidates
For State Offices Are Ex-
pected to Attend Political
Rally To Be Held Here
Next Saturday—Robert J.
Holly Will Act as Chairman.

Everything is in readiness for
holding the political speech-making
meeting on Saturday of this week
when the several candidates for
state offices will gather here to
speak in behalf of their candida-
cies. This fact was made public
Tuesday by R. J. Holly, secretary
of the Seminole County Democratic
Executive Committee, who will act
as chairman of the meeting.

Mr. Holly stated that there will
be a large number of candidates
present at the gathering. Among
them will be Worth W. Trammell
and Charles H. Spencer, candidates
for governor. Although Frank E.
Jennings and Sidney J. Catts will
be unable to be present, there will
be representatives here to speak in
their behalf. It was understood
that John W. Martin, the other
candidate for governor, who was
originally scheduled to be here on
Saturday, will be unable to be
present and instead will speak at
Sanford on Thursday afternoon.
Congressman W. J. Sears of Kis-
simmee, will also be a speaker, it
was announced. Mr. Sears is run-
ning for re-election as representa-
tive from the Fourth Congressional
District.

George A. DeCottes of Sanford,
J. A. Scarlett of DeLand, and Mil-
lard B. Smith of Titusville, all can-
didates for state attorney of the
Seventh Judicial District, have sig-
nified their intentions of being here
to present their views. Likewise
Senator M. O. Overstreet of Orlan-
do, and Lewis O'Bryan of this city,
candidates for state senator, will
also be present.
Mr. Holly stated that Mayor For-
rest Lake and R. J. Lyle, candidates
for county representative, are
scheduled to address the voters.
He also added that if any other
candidates for county offices desire
to speak that they may do so by
arranging with him for a place on
the program.
The speaking will begin promptly
1 o'clock in Central Park. The
speakers will use the bandstand
and there will be plenty of benches
provided for the crowd of voters. A
large number of residents from all
over the county are expected to be
here to hear the candidates.
Mr. Holly stated in connection
with the committee's work of ar-
ranging the several political meet-
ings over the county, that the all-
day picnic and barbecue at Lake
Mary which was originally sched-
uled for Thursday, May 22, has
been postponed to Saturday, May
24. This action was taken in order
not to conflict with the big Shrine
ceremonial which will be held here
on that date.

DISCUSSION ON RATES IS HELD BY COMMITTEE

Chamber of Commerce Is Active
In Matter Affecting
Proposed New Class Rates
Which Were Recently
Adopted Pending Further
Hearing In Matter Shortly.

An important meeting of the
Traffic and Transportation Com-
mittee of the Chamber of Com-
merce was held last night during
which time the impending changes
in class rates affecting this section,
and in some other parts of the
state, came up for much discussion.
It was felt by the committee that
action looking toward the forma-
tion of an organization having a
state-wide support should be im-
mediately taken to best protect the
interests of the State.

This class rates case started in
the summer of 1922 and involves
every class rate from all territory,
roughly speaking, east of a line
drawn from Chicago to New Or-
leans and every point in Florida
and other southern states. Hear-
ings on this case were held
throughout the summer of 1923,
and a proposed report has been
issued by the Inter-State Commerce
Commission, suggesting a basis to be
employed in arriving at rates.
Class rates apply to traffic mov-
ing in cars than car load quantities
such as dry goods, shoes, clothing,
groceries, hardware, machinery,
etc. Commodity rates apply to
heavy materials, such as cement,
lime, lumber, plaster, naval stores,
fruits and vegetables, etc.

The most important feature in
connection with this whole matter
is the basis employed in arriving at
the class rates suggested. It is in
mind that such basis and such
rate finally adopted will be the
yard-stick, so to speak, for all fu-
ture class rates and in some in-
stances will control the measure of
the commodity rates that are to
be revised during the coming
months.
The Florida ports most adversely
affected by the proposed report
are Jacksonville, Palatka, DeLand,
Sanford, Tampa, Miami, Pensacola,
St. Myers and St. Petersburg. The
reporting report from the Inter-
State Commerce Commission sug-
gested rates which these ports
have heretofore enjoyed. No at-
tempt has yet been made by the
water carriers to increase their
rates correspondingly. If it is a
foregone conclusion that these
ports will use every effort to main-
tain their present rates, it is
possible to secure action more
favorable to the southern part of
Florida.
Immediately following the final
decision in this case, it will be
necessary to revise all commodity
rates to and from Florida to con-
form to the basis adopted in the
class rates. It will also be neces-
sary to make such changes in the
classification. Public hearings on
these matters will be held from
time to time at convenient places
and it is very essential that this
State have a competent representa-
tion, supported by the entire
state, and who will have one policy.

GATOR TRACK STARS AGAIN WIN OPEN FIELD CHAMPIONSHIP BY PILING UP BIG SCORE SATURDAY

"Ark" Newton is Easily Winner of Southeastern Pentathlon Championship Retaining His Wonderful Prestige Gained in Meet Held Last Year—Sena is High Point Man Winning 3 First Places

GAINESVILLE, Apr. 21.—Two champions—conscious and respectful of their treasure—gambled with their prize booty Saturday, dished the dice fairly and won. Two champions Saturday were re-created, were recrowned with glory.

The University of Florida, with a burst of the same spirit and ability that carried them 12 months ago to a supreme victory, unfurled their proud banner on Murphy Field Saturday before a miserable sized gallery of fans and swept to another big and decisive victory in the Second Annual Florida Open Track and Field Championships. A margin of 29 points separated Florida and her nearest rival, the Atlanta Athletic Club, while the other entry trailed gamely but slowly for behind. That victor, the "Runnin' Gators" of Florida University, was the first champion Saturday.

"Ark" Newton, virtually without opposition, easily but ably championed the Southeastern Pentathlon title to another deserving triumph. Champion number two today retains the colorful prestige that he won in 1923, but his victory Saturday was obtained at a very cheap cost.

Under a blistering sun, and on a fast track, a half hundred scantly garbed athletes answered the opening gun report Saturday at 1:30, before a very small crowd of spectators. A tremendously fast piece of machinery, Berryman Kern Centre College, came down the home stretch in the 100 yard dash like a Kentucky wildfire. The meet was under way. Lacking interest because of the small field of entries, the general hul-a-ba-hoo was not to be found, though with in the close group of runners a spirit of intense rivalry existed—each man endeavoring to win by a goodly margin. That is the reason why eight records went a-

sprawling off the boards. Little Berryman, a mite of a lad, duplicated his sprint superiority in the 220 dash. As in the century race, Blitch of Florida, and Anderson from Atlanta, sped into the tape in second and third places, respectively. Three Gator men went to the post in the mile run, and the boys raced a hard four laps, Casals finishing with a burst of speed that proved him a track man with real stuff about his belt line.

Lee Sena won the 120 yard high hurdles. Bun Monroe, perhaps the south's greatest college hurdler, was unable to cope with Sena's steady stride, experience and natural ability. Monroe waxed a bitter fight, and made his Atlanta rival go the limit in obtaining a verdict. The 220 yard low hurdles were a replica, Sena winning first. Monroe seemed to have tough books on one or two occasions, but his over eagerness to win cost him to some degree.

In the 440 yard dash, Crown had the event won, but when he noticed that his team mate, Case, was faltering apparently, he leaned over and placed his arm on Case's shoulder. This act disqualified Crown and the former Auburn track star checked in with first place. Roberts of A. A. C. had things to himself in the two mile run, the feature of which was the recovery of Entz to finish strong and in second place ahead of Gilroy, the flashy Florida long distance man.

"Ark" Newton ran the 200 meters flat, pentathlon event in wonderful time. His 21.7 second dash is said to be the second best time in which this race has ever been run under pentathlon competition. Newton found Erwin and Smith hard to whip in the half mile, though the A. A. C. youth ran and triumphed in a race that was pretty to see.

Poe of the A. A. C. clipped four minutes off the record in the five mile established last April when he jogged the 20 lap number in a few seconds above the 30 minute mark. Sena lowered the time in the 440 yard low hurdles when he nosed out Monroe on the last obstacles of the race.

AT THE CHURCHES

UNITED CROSS CHURCH
Father Peck at Easter to the Knights Templar and Order of de Molay.

"But God Raised Him from the Dead" Acts 13:30.

In these simple words, the great message of Easter has been proclaimed again and again to the world. By such a theme, S. Peter preached at Pentecost so that the men were pricked at the heart, and the Power by which E. John performed the miracle at the Gate Beautiful upon the lame man was declared to be that same Power; and S. Paul, that zealous bishop and saint, standing before Annas and Caiaphas, who implicated in the crucifixion of Jesus, preached the resurrection from the dead by the Power of God.

The Resurrection is the glory of our religion. To often in religion are excuses, weaknesses, failures; but Easter brings the triumph in strength, in power, in victory, in glory.

Men will argue religion and holy church in weakness and in impotence, but why not in glory!

During this Christian season of Lent, we have beheld our Blessed Lord in temptation; and on Good Friday we saw Jesus lifted midway betwixt earth and Heaven on gibbet of the cross on the crest of Calvary's Hill. Whence? Easter is the answer: Strength and Power and Majesty, Jesus, gloriously strong.

To the westward, a nation in destruction, earthquake, and in part, starvation? Yes. But God would have strong; strengthened in the facing the tests of nature. By the very way that was the sun-burnt shores of our own loved Florida, eastward and westward, the seas take their daily toll of lives. God today has the same power as of yore, to speak to the lashing waves and say: "Peace; be still."

We do see the wicked flourishing; their bread, even have we beheld when the Son of God die on the shameful Cross. But excuses are weak; and none are needed. You have left out the keys of the earth. Of course, if you leave that out, all will crumble. Fall. The Son of the Apostles still stands: God raises Him from the dead.

No service like this Easter Service at Holy Cross; the well-spring of exultation. The foes did their worst; the enemies tried their hardest; God triumphed. The Resurrection is our glory.

The old song is still wanted: We praise Thee; we worship Thee; we bless Thee; we glorify Thee.

The Resurrection is our comfort.

The world needs comfort. Too often we meet a funeral procession in life, as Jesus met one at Nain. What is your answer to sorrows in Sanford?

The scars of the world are the scars of sin; for only by sin came death into the world; but now is our comfort; God raised Him from

the dead. As in Adam all die, so in Christ shall all be made alive. He that believeth in Me, though he were dead, yet shall he live.

III—The Resurrection is our Hope.

Easter is hope. Never a man so vile, but that he shall be cleansed; never a man so sorrowful, but that he shall be comforted; never a world so full of graves, but that the graves shall be opened and that those that sleep shall live.

Let no one attempt to write a new Gospel; the old one is our glory, our comfort and our hope. Jesus was born of the Blessed Virgin Mary; Jesus died on the cross—Jesus rose from the dead. Alleluia!

The structure is of stucco with the colored glass dash with white walls inside and trimmed with dark red. It is also equipped with a Delco lighting plant and with running water which makes it complete in the smallest detail. On Saturday the room was decorated with ferns and cut flowers and the signs of "Come in and fill up" challenged the passerby beyond resistance. The arrangements were in charge of Mrs. A. D. Sauer.

AT THE CHURCHES

CATHOLIC CHURCH.

In the course of his sermon in the Catholic church Sunday, Father Hennessy mentioned the following: "The church could not help but call the day on which Christ died 'Good Friday' for an undercurrent of joy lay beneath her lamentation. His side was pierced with a lance and His hands and feet dug with nails, but the blood which gushed forth was to regenerate a fallen world. The cross was a tree of ignominy but from it Christ was to reign over the hearts of men. The human intellect is a faculty to conjure with. Man has forced many a secret from the bosom of Nature. By learning their laws he has harnessed the lightning and leaped the full strength of the waterfall. The inherent power of steam is his servant, and he has built vehicles to surpass the bird in its flying. He has made instruments to talk, and sends his voice over many a mile of mountain and ocean by means of a contrivance which a child can carry. Yet there is one thing that man can never do. Once the icy chill of death has stilled his beating heart he cannot raise his pulseless hand to a single inch above the grave other than to show him. Only Omnipotence can do this. And that is what Jesus did. By His divine power he raised Himself from the tomb wherein he lay buried for three days.

CONGREGATIONAL CHURCH.

The Easter services at the Congregational church were attended by the largest congregation in several years. There was special music enjoyed by all. There were a number baptized and received into membership. Mr. Burhan's subject was "Hope's place in the Christian Life." He spoke somewhat as follows:

The Apostle Paul in his splendid essay on love concludes his writings with these words, "And now abideth faith, hope and love." It appears to me that he has brought into a single phrase the three greatest words in human language. Faith, hope and love are the names of God's three great gifts which would mold human life into its best and most beautiful form. Every outstanding character, representative of the world's best is the product of faith, hope and love. Much has been said of faith and its value to life. Much more has been uttered about love and its value to and in mankind.

But hope stands between these two great words, while often mentioned in scripture, has not been emphasized as the others.

Its association with faith and love surely leads us to believe that in God's great plan it is equally important in the making of manhood. Faith is the element that brings man into touch with moral and spiritual power, which flows through man to accomplish results. Love is the element which transforms this power into deeds of kindness and service unto others.

Hope is the element which steadies the flow of power and so fills the man that his optimistic outlook on life becomes a reserve force ready for every emergency or extra demand made upon him.

The thoughtful man is never defeated. Man's greatest hope is found in the resurrection of the Christ. Man shall live again. He shall realize the ideal. When we awake we shall be like the Master man. Every man that hath this hope purifieth himself. How? By humbly confessing his sin, by turning away from evil, by opening his heart to life and permitting the Savior to rule therein.

TON, D. C.—All jazz will be shattered and nations of bedlam out when the night of the "Yankee" convention at the "favorite son" for the nomination.

But suggestions get nowhere. Eight hours is the period planned and eight hours it will be unless they decide to make it 10!

SINCE his recent showing of strength in Wisconsin and elsewhere, lackers of Smith are declaring that now is the time to settle for once and all two mucous questions.

FIRST. Can an avowed "wet" be elected president?

SECOND. Can a Roman Catholic be elected president?

But why the Smith opposition waits, make the Democratic party the goat in such a test.

Why, particularly, saddle both issues on the party in one campaign?

With a wet Tammany Catholic heading the Democratic ticket, all the advantage that has been gained through recent disclosures affecting the Republican rule would be nullified, say the objectors.

As a result of this viewpoint, Smith's nomination undoubtedly will be blocked.

But nothing short of death and disaster will prevent him getting the greatest ovation, measured by volume and duration of sound, ever accorded any "favorite son."

WHY was it, politicians inquire, that five of the eight "presidential possibilities" slated to attend the Jefferson Day dinner at New York failed to show up?

Smith, Halsey, Cleveland, Underwood and Joe Robinson were absent. John W. Davis, and Governors Silzer and Ritchie attended.

Some suggest they feared the comparative applause they might get.

BOYS FIND FIRST AID TRAINING OF BIG ASSISTANCE

Ray Falls and Breaks Arm and Fricard Relieves Suffering With First Aid Treatment.

One of the most interesting incidents came to light a few days ago showing the real value in Scout training, as reported by one of the Scoutmasters within the jurisdiction of the central Florida Council.

Recently, two boys were playing when one of them fell, injuring his arm; to render first aid to the injured, the other boy made splints and with his handkerchief bound them to the injured arm. All the way home he kept up a rapid fire of conversation, detracting the other boy's mind from his hurt.

Arriving at his home, the family physician was called and found that the boy had broken his arm. Wishington knew the history of the case, the doctor asked who had tied the splints on the arm, and when told it was done by the boy's companion, the parent of the injured boy was much surprised to learn that in applying the splints, the bone had actually been set properly.

The most remarkable and interesting part of the accident was the fact that neither boy was old enough to become a Scout, but they had been permitted to attend the Scout meetings and had learned "First Aid" as it had been explained by the Scoutmaster to the Scouts in the troop. Needless to say, both boys will become registered Scouts as soon as their age will permit, and the parents of both boys are glad that "First Aid" had been so promptly applied.

Course Offered By Summer School Will Be Very Extensive

FLORIDA STATE COLLEGE FOR WOMEN, Apr. 22—The course of study to be offered at the Summer School of the Florida State College which begins on June 10, includes not only the subjects required for teachers' certificates, but a large number of regular college subjects. Courses for elementary teachers are to be especially adapted for meeting the new certification law.

Teachers in science who attend the summer school should register with three things in view; those in charge suggest: the extension of their certificates, raising the grade or kind of certificate; and obtaining college or high school credit.

All three of these aims may be attained in one summer by a judicious selection of studies.

Holder of third grade certificates may change them into second grade under the new law by study of agriculture, civil government, algebra to quadratics, and the constitution of the United States.

Primary certificate holders may arrange to change for higher grade by preparing themselves on subjects which differentiate the primary certificate from higher certificate for which they apply.

Holder of second grade certificates under the former law may be taking algebra to quadratics prepare to change them to second grade certificates under the present law. Those holding second grade certificates under the present law may convert them into first grade under the present law by taking four of the subjects, biology, general history, rhetoric, psychology and algebra (complete).

Tallahassee Will Observe the 100th Anniversary of City

TALLAHASSEE, Fla., April 21—Definite steps are expected to be taken in the near future towards plans for the centennial celebration that is to be staged here late in the year, depicting the stages of development and the history of Florida's capital city. The matter has been under consideration here in an unofficial way for several months.

The celebration to commemorate the founding of Tallahassee 100 years ago, probably will take on a state-wide aspect, for this place was chosen as the capital of both East and West Florida early in 1824, and the first legislative council sat here in November of that year.

If the state-wide plan is adopted this state probably will be asked to take the leading role, with the governor in the lead, and commemorative features of a local character in charge of the citizens of Tallahassee.

Tentative plans that have been suggested at various times by those interested in the project contemplate a celebration more elaborate than anything of its kind yet staged in Florida. Parents depicting the various stages of history of the state and city probably will feature the program.

Large Crowd Hears George S. Kendall At Milane Sunday

A large crowd heard George S. Kendall at the Milane Theatre Sunday night when he delivered a lecture on the "Earth's New Government." Mr. Kendall, who represents the New York City Lecture Bureau of bible students, took his text from Revelation 16:16.

He said in part:

The greatest crisis of the ages is upon the nations of earth. Sensing the coming explosion, statesmen of the world express themselves on this wise:

"1923 is worse than 1914."

A new chapter opens in the history of Europe and the world, with a climax of horror such as mankind has never yet witnessed.

"We have come to the crossroads and no one knows the way out."

Fear has laid hold upon the peoples in all walks of life. And why? Because the old world has ended, at which time Jesus declared there would be distress of nations with perplexity, men's hearts failing them for fear of what they see coming on the world. According to the Bible the world or order of things under Gentile dominion legally ended August 1, 1914. Jesus foretold that the nations at that time would become angry; that a nation would rise against a nation, followed by famine, pestilence and revolution. These things have been fulfilled since 1914. Many futile attempts have been made to settle the world trouble. God foretold their failure and added: "Gird your loins, and ye shall be brown. Take counsel together, and it shall come to nought."

BRIDGE PARTY AT WOMAN'S CLUB

Several weeks have passed since a script bridge has been given but a most interesting one was held Monday evening at the Woman's Club building fund with Mrs. Roomillat acting as hostess, assisted by Mesdames Mobley and McCaskill.

A rainbow color motif was artistically carried out in the decorations, tallies and refreshments. All colors of spring flowers combined with fern were seen everywhere, and the club room were brilliant at 8 o'clock when guests began to arrive and thirteen tables were arranged for the players with their pretty bridge covers.

After several interesting rounds of bridge were played the hostess awarded as prizes, hot mats in Dutch silver, one to each table. A cut prize was awarded to Mrs. Ludwick, which was a beautiful bunch of roses.

Delicate refreshments were served, consisting of cakes and punch.

PLANS COMPLETE FOR THE AQUATIC MEET SATURDAY

Largest Crowd That Has Ever Attended the Meet Is Expected to Be Present This Week-End When Nineteen Boys' Teams Will Compete and Thirteen Girls' Teams.

WINTER PARK, April 22.—The largest crowd that ever attended a meet of like nature in the South is expected at the state interscholastic aquatic meet which is to be held on the Rollins College official swimming course in Winter Park Saturday. The boys' events are to be run in the morning with the girls' competition the feature of the afternoon's program.

Ray Greene, who is directing the affair, said yesterday that everything is getting set for the big day. He conservatively expects that 3,000 enthusiasts will be on hand to witness the battles between the pride and pick of state high school mermen and mermaids.

Nineteen boys' teams, including Cedar Key, Daytona, Duval, Fort Myers, George Washington (Junior Tampa), Hillsborough, Kissimmee, Lakeland, Leesburg, Miami, Orlando, Senior Orlando Junior, St. Augustine, St. Cloud, St. Petersburg Tallahassee Winter Garden, Winter Park and Woodrow Wilson, (Junior, Tampa), and thirteen girls' teams, representing Cedar Key, Fort Myers George Washington, Hillsborough Kissimmee, Lake Wales, Miami, Orlando Junior, Orlando Senior, St. Cloud, St. Petersburg Winter Garden, Winter Park and Apopka have qualified to compete in the contests.

The keenest competition ever witnessed on a swimming course in Florida is slated in the Saturday events. Orlando boys' team, the contingent which has won the Kart cup for the past two years, despite the fact that it has been handicapped by the loss of the major number of the championship men, is again out for the honors and will make the other teams, according to their coach, Bobby Howard, run for the decision in the morning event. The local girls' contingent will, it is thought, prove to be somewhat of a "dark horse" in the contest in the afternoon.

Due to the fact that Billy Cavoy, star Tampa swimmer, has been declared ineligible for the meet, predictors believe that the morning's race will be between Orlando and St. Petersburg. Tampa and St. Petersburg loom as the most promising of the girls' teams entered in the meet.

Orange county in general and Winter Park in particular, will be the particular state aquatics Saturday and the day's contest should be a very interesting one.

The Orlando teams, according to Ray Greene, are:

Senior high boys: Fifty yard dash, Charles Hoefler; 75 yard dash, Alfred Ricker; 100 free style, Chas. Hoefler; 100 breast stroke, Ludolf Ehsen; 100 back stroke, Ludolf Ehsen; 200 free style, Richard Geier; 400 free style, Richard Geier; 800 free style, Arthur Barber; relay, 440, Richard Geier, Alfred Ricker, Charles Hoefler and Julian Howard.

Girls: Twenty-five yard dash, Julia Lawrence; 50 breast stroke, Estelle Rowe; 75 dash, Dorothy Richards; 100 free style, Dorothy Richards; 100 free style, Hazel Flower; 200 free style, Hazel Flower; 400 back stroke, Estelle Rowe; fancy diving, Vivian Horn; plunger for distance, Julia Lawrence; relay 440, Flowers, Richards, Lawrence and Rowe.

Junior high boys: Fifty yard dash, Walter Randa; 75 dash, Walter Randa; 100 dash, Raymond Standberry; 200 free style, Max Wettstein; 400 free style, Max Wettstein; plunger for distance, David Allanson; 100 breast stroke, David Allanson; 100 back stroke, David Allanson; relay 440, Walter Randa; Max Wettstein and Clifford Caldwell.

Girls: Twenty-five yard dash, Betty Geier; 50 dash, Betty Geier; 75 dash, Virginia Lawrence; 100 dash, Virginia Lawrence; 100 breast stroke, Virginia Lawrence; 100 back stroke, Vilma Ehsen; 75 back stroke, Alice James; fancy diving, Betty Geier; plunger for distance, Eunice Turner; 440 relay, Eunice Turner, Jewell Leuter, Betty Geier and Virginia Lawrence.

HIGHLANDERS EASY WINNERS IN ONE-SIDED GAME

Win Easily Over Orlando Bulldogs by Score of 11-5—St. Petersburg Won Close Decision Over Tampa Smokers—Daytona Is Loser in Game With Bradenton.

LAKELAND, April 22.—Lakeland romped away with the first game of the Orlando series Monday afternoon, 11 to 3, in a fast contest despite the large score, featured by everything possible in a baseball game. Adamson, who twirls for the Bulldogs, was wild and ineffective in the "big" inning, but settled down after the first round and pitched a nice game although accorided ragged support. Ery, for the Highlanders, was never in danger after the first inning when his own wild throw let in the first two Bulldog tallies and contributed his share in the next victory, with four safeties out of four attempts. Score by innings: Orlando 200 100 000—3 Lakeland 603 101 000—11 Summary: Left on bases, Lakeland 5; Orlando 6. Two base hit, Brazier. Three base hits, Kowalsen. Hit by pitcher, by Ery 1; Adamson 5. After piling up a two-run lead by the fifth inning, the Smokers weakened here Monday afternoon, under the single faulty inning of Saddler and lost to the St. Petersburg nine 3 to 2. Score by innings: St. Petersburg 000 003 000—3 Tampa 000 110 000—2 Summary: Two base hits, Wheeler, Bigelow, Lujan, Philip, Sacrifices, Dean, Maltby, Martin, Vallarino, Lujan, Bigelow, Phipps. Cambridge University, of England, with a crack squad of runners, will supply the chief international flavor this year, although unusual interest also will attach to the presence of Erik Lidholm, star Edinburgh sprinter, and the entry of several Canadian teams in relay features.

Bullet Joe Bush Hurls Team Mates To a 4-2 Victory

WASHINGTON, April 22.—Bush proved effective in the pinches today in his first game of the season, and New York defeated Washington 4 to 2. Three runs off Mogridge in the first inning settled the game. Score by innings: New York 2 0 0 1 0 0 1 0—4 Washington 0 0 0 1 0 0 0—2 Summary: Two base hits, Meusel, Rice, Judge, Ruel. DRAKE STADIUM ROLLINS READY NOW READY FOR TO TAKE CARE BIG TRACK MEET OF BIG CROWD

All in Readiness For Holding Monster Track and Field Meet This Week When 1,500 Athletes Compete.

DES MOINES, Ia., April 22.—The Drake Relay Carnival, established 15 years ago with only a handful of athletes in competition, has had such growth that the occasion this year promises to attract a record-breaking list of 1,500 track and field stars, representing more than 100 leading universities and colleges in the west and mid-west. The relays will be staged in the Drake Stadium April 25-26, the same time the Penn Relays are held in Philadelphia. Performances will be watched with interest by many of the athletes are out to represent America in the Olympic Games. Charles Paddock will headline the Friday program, when he will match his speed against a field of star sprinters in a special 100-yard dash. Paddock is the joint holder of the world's record of 49.6-10 in the century, with E. J. Kelly and Howard D. Drew. He also holds the world's record for the 220 and 300 yard events, besides marks for 100, 200 and 300 meters. Every individual in the Western Conference, most of the Missouri Valley members and teams from the east and west will be entered. The college section has attracted a formidable entry list. Other individual stars of world's record fame will compete in the special events. These include Dean Brownell of Illinois, who holds the world's indoor record of 13 feet 3/4 inch in the pole vault, and the American collegiate outdoor record of 13 feet 2 inches; and Milton Angier, Illinois, who established an American record of 203 feet, 9 inches in the javelin throw at the Drake meet a year ago.

Harold Osborne, Illinois A. C. will attempt to shatter the world's high jump record of 6 feet, 7-1/16 inches; Delart Hubbard, Michigan's negro star, will be a contestant in the hurdles and broad jump, while Danny Kinsey, who tied the world's record of 39-2-5 in the 75-yard high hurdles in the Illinois relay carnival, also will be among the starters in the hurdles event. Charles Brookins, of Iowa, world's champion low hurdler, also is entered.

The keenest competition ever witnessed on a swimming course in Florida will be seen when those high school teams meet this year. Miami boasts of two crack teams, while Duval, St. Petersburg and Tampa look forward with much hope of carrying away high honors. Reports have come into the office of the director of the meet stating that here and there individuals are swimming and plunging, beating last year's records. So many members of last year's teams have graduated and gone off to college, it is difficult to predict which team will top high honors. Sport lovers will note how this particular sport is developing throughout the state. Tallahassee, Jacksonville, Cedar Key, Miami, Fort Myers, St. Petersburg and many points between denote that interest in swimming is growing constantly. Organizations and business men in Winter Park and Orlando have replaced thirteen of the twenty-four sterling silver trophies won permanently last year. Trophies, Henry Kart and Margaret Hamilton Kart trophies, will be presented to championship swimmers. Two "individual trophies" will be presented to the boy and girl, retaining the greatest number of points in the meet. Jack Greier of Orlando, and Gretchen Allan of Tampa were high point individuals last year. A trophy will be presented to the school winning first place in the event in each class. Gold, silver and bronze medals will be presented to the winner of first, second and third places.

Wheat is the Fuel of Life You can get the most food value out of wheat by eating bakings that are made from good plain flour. A dependable baking powder must be employed or you do not get the full nutritious value of the wheat—nor will your bakings be as palatable and easily digested. The same results cannot be had if you use Self Rising Flours, which are improperly packed in porous cotton sacks or bags, thus allowing absorption of moisture from the air. Food authorities and physicians agree that bakings that do not raise properly are bad for health. Such foods are hard to digest and in time cause stomach trouble. Mothers who are interested in the proper growth and health of their children (and all mothers are) should never use anything but a good brand of plain flour and a time-tested leavener such as Calumet—the economy Baking Powder.
