NEW YORK — A surging wave of construction contracts in December helped to boost the total for 1961 to an all-time record for the United States, F. W. Dodge Corporation reported Friday.

Although December contracts at \$2,712,000,000 were just a fraction below December 1960, on a seasonally adjusted basis they reached the second highest peak ever reported for any month. The December 1961 index stood at 301; the all-time high index of 302 had been recorded in December 1960. This was the fourth successive month of increase in the index, from 261 in September to 280 in October, 293 in November, and 301 in December.

Dr. Gordon W. McKinley, Dodge vice president and chief economist, commenting on 1961 as a whole, declared that "its strength was concentrated in the residential building sector," increasing 7 per cent, they totaled \$16,123,430,000.

"Apartment building soared far above previous record levels, with contracts rising 32 per cent above 1960," he said. "Single-family houses, which began the year slowly, finished ahead of 1960 and contributed substantially to the total gain," McKinley added.

## Thurmond Blasts 'No Win Policy'

WASHINGTON (UPI) — Sen. Strom Thurmond (D-S. C.), has charged that censorship of military speeches showed the State Department "sold our leaders on the idea that we do not want to win the cold war."

Thurmond, whose charges of military "muzzling" triggered the current Senate inquiry, said Sunday night that speech changes brought out in the hearings reflected what he called "a no win policy."

The Senate armed services subcommittee is scheduled to resume the censorship hearings Tuesday with testimony from the chiefs of staff of the Army, Navy and Air Force. Gen. Lyman Lemnitzer, chairman of the Joint Chiefs of Staff, and retired officers testified last week.

## Sinatra's Bride Still To Dance

HOLLYWOOD (UPI)—Dancer Juliet Prowse says she "definitely" will continue her career after she marries Frank Sinatra.

"I have no idea of retiring," the 25-year-old performer told United Press International before leaving during the weekend to visit her family in Johannesburg, South Africa.

Nine days ago, Miss Prowse told a columnist that Sinatra, 46, "wants me to give up the business" and that she probably would. What changed her mind?

"Just thinking about it," she said. "The idea of not performing any more."

"It's been a part of my life for many years, and I don't feel I can put my feet up on the desk and never dance again."

## Moody Waives Extradition

MIAMI (UPI)—Charles Addison Moody, 35, has waived extradition to California, and was held in lieu of \$10,000 bond.

Moody, former resident of San Diego, Calif., was charged with "committing a crime on government property — embezzlement."

He was alleged to have embezzled more than \$12,000 earlier this month from the Chief Petty Officers' Club at the Naval Air Station at Miramar, Calif.

He surrendered to FBI agents here Sunday, and appeared before U. S. Commissioner Roger Edward Davis Monday.

By LARRY VERSHEL  
Leafing through the yellow, frayed copies of the Herald on July 8, 1910 we find... "One of the most important steps ever taken by the Board of County Commission was when they decided to call a bond issue to brick roads..."

What made me look through the files you may ask... Well, just trying to find out about the Palms Hotel grand opening.

State Rep. Mack Cleveland Jr. today observed that there is no need for any additional legislation on the state level for a drainage tax. Cleveland said "we have all the authority we need now."

By the way, on April 8, 1959, the Water Control and Conservation Committee presented an extensive report to the County Commission spelling out that only 20 percent of the county area would be affected by any drainage needs.

On the same subject, Ted Williams said he would never vote to tax people in Sanford to take care of a drainage problem in southeast Seminola.

Francis Roumillat Jr. wants to know what can be done about these dogs on W. First St.?

The Chamber of Commerce is planning a giant celebration next year in honor of the 50th anniversary of Seminola County. A special committee will be set up and special events will take place in every area of the county.

Florida State Bank President T. E. Tucker said today the bank will cooperate 100 percent in cleaning up the underbrush on the bank property next to the old County Jail.

Sombody called and wanted to know whether it were true that Douglas Stenstrom and C. S. Lee were being paid \$1,000 per month to serve on the Nova Regional Planning Committee. Just not so, they will receive no financial compensation at all.

County Commission Chairman J. C. Hutchison tells us that he won't make any additional appointments to the special committee studying a new franchise law. Three have declined to serve.

Unless there are some hopeful signs from property owners along Pineway the widening project will be abandoned officially next Tuesday by the County Commission, County Engineer Carlton Bliss said.

S. J. Davis is not as interested in running for the Legislature now as he was the first of the year. Pressing business.

Al Case and I are wondering how many Lake Mary residents will turn out for the Chamber of Commerce "vital" meeting at 8:30 tonight.

Nobody asked me but, if the master Water control planning grant is okayed by the HHFA, the county can thank Jim Avery for his persistence in bringing it to the attention of Sen. George Smathers.

North Orlando has been plagued by vandalism. Some model homes and the recreation center hit.

## Bryant Sees Possibility Of Tax Raise

TALLAHASSEE (UPI) — Gov. Farris Bryant said today it will be difficult to hold the line against new taxes in the 1963 Legislature unless there is an increase in the state's tax take this biennium.

## Castro Mob Demands U. S. Base Be Shut

MIAMI (UPI) — Crowds mustered by Premier Fidel Castro's official union federation surged through Havana Wednesday night, following demands for the closing of the U. S. Navy's big Guantanamo base.

Pro-Castro motorcades drove through the city after dark, honking their horns, and unionists held street-corner meetings to urge Cubans to put over the 45-senator, 104-representative reapportionment plan at the polls in November.

Bryant predicted the plan will be adopted by the people, even though he conceded it does not fully suit "the idealists or certain of the theoreticians of the editorial pages."

He told the Daytona Beach Chamber of Commerce that the proposal does not turn over control of the Legislature to the metropolitan areas. But he said it will tip the scales of battle on the side of fast-growing areas whenever the large and significant interests of the state are at issue in the Legislature.

Shell Airstrip VIENTIANE, Laos (UPI) — Pro-Communist rebels today shelled the airstrip outside the beleaguered provincial capital of Nam Tha, endangering its vital supply links to royal government bases to the rear.

Colleges Pushed TALLAHASSEE (UPI) — Gov. Farris Bryant said today the Board of Control will act this month to approve the first of a series of bond issues totaling about \$22.3 million to finance construction at state universities.

This month's session of the Control Board is scheduled for Feb. 16.

John Fitzpatrick reported today that job classification for the hiring of an administrative aide will be presented to the County Commission next Tuesday.

## Stewardesses Charged In Escape Try

MIAMI (UPI) — Charles Albert Crespo, 20, was back in his county jail cell today and three airline stewardesses were charged with aiding his escape.

Police said the stewardesses planned to dress Crespo in women's clothes, buy him a ticket for New York and put him aboard a plane. Crespo escaped from a police hospital ward Monday night and was found Tuesday at the apartment of Evelyn Steele, 27, Jacquelin A. Duplantis, 21, and Lucy Gulano, 20, all stewardesses for National Air Lines.

The women were charged with aiding a prisoner in an escape and were free under \$250 bonds.

## Bryant Talks On Reapportioning

DAYTONA BEACH (UPI) — Gov. Farris Bryant Wednesday night fired the opening shot in his promised campaign to put over the 45-senator, 104-representative reapportionment plan at the polls in November.

Bryant predicted the plan will be adopted by the people, even though he conceded it does not fully suit "the idealists or certain of the theoreticians of the editorial pages."

Report Carcano Forced To Quit BUENOS AIRES (UPI) — Argentine military leaders, angered by the government's "soft stance" at Punta del Este, today were reported to have forced the resignation of Foreign Minister Miguel Angel Carcano.

Carcano was reported in diplomatic circles to have resigned after army leaders demanded the government break relations with Cuba and dismiss Carcano, the Argentine chief delegate to the inter-American conference which ended Wednesday night in Uruguay.

Reds Charge 'Spy Tunnel System' Built By West Berlin 'Bandits'

BERLIN (UPI) — East German news agency ADN said today a "spy tunnel system" has been discovered running from West to East Berlin and demanded French occupation authorities punish its builders. Communist Deputy Foreign Affairs Minister Otto Winterstein said today the tunnel was an "injury to the territorial integrity of the German Democratic Republic and against the search for a solution of international incidents."

The secret passages the Communists claimed to have discovered had no connection with a home-made 90-foot tunnel through which 28 East Germans escaped to West Berlin last week. Its location was several miles away.

East German Transport Minister Erwin Kramer told a news conference "West Berlin bandits, with the connivance of the West Berlin city senate and its police" built the tunnel system under the elevated and long-distance railway lines at Wollankstrasse in the French sector.

He said the tunnel was discovered when part of a station platform collapsed.

"You can picture for yourself," he said "what a terrible catastrophe it would be if a fully-loaded train suddenly crashed through the weakened lines."

MIAMI (UPI) — Miami named its millionth resident today—a transplanted Californian.

## Sanford Polio Victim Knows Meaning Of March Of Dimes

WHERE DOES THE MONEY GO? Right here in the community lives Mrs. Florence Starnes, a victim of polio, who has been freed from this wheelchair for a part of each day, as a result of the therapy made possible by the March of Dimes. The mothers will march again Friday and Saturday Sanford teenagers will walk in a Walk-A-Thon on First St. for the New March of Dimes. (Herald Photo)

By Dotie Higginbotham

"If it had not been for the help of the local March of Dimes organization, I would not have been able to walk again," says Mrs. Florence Starnes, a cheerful smiling gray-haired lady who lives on the Grapeville Rd.

"They sent me to Warm Springs, Ga., for three months of therapy that made it possible for me to use my good leg again. If it hadn't been for them I would just have to stay in the wheelchair the rest of my life."

Mrs. Starnes bears her affliction cheerfully and matter-of-factly, going along with a quite normal life and is much more active and busy than many people with two good legs.

Stricken with polio when she was seven years old, she was a victim of ignorance as much as disease for back in 1908 almost nothing was known about the causes and cures of polio, and none of the therapy which is available today was even dreamed of then.

Consequently, she lost all use of one leg, and the other was very weak. For months she lay in a hospital for

crippled children until, in her teens, she was able to get about with crutches.

Later, determined to find some kind of work to do to earn a living, she learned to be a telephone operator. She worked at this for a number of years, until on a trip to Florida one winter from her home in New Jersey, she met her future husband, Bill Starnes.

In 1927 she moved to Florida and married. A daughter, Avis was born and is now a grown young woman.

Mrs. Starnes was used to her infirmities and lived with them very well for many years. But the good leg began to weaken and the hands which held the crutches faltered and she began to stumble sometimes.

One day in 1938 she took a bad fall and broke her knee. Taken to the hospital here a doctor operated and repaired the knee-cap, but when she later tried to stand, it was found that she could not support her weight on this leg.

A future confined to the wheelchair stretched ahead of her.

with prolonged therapy, it might be possible to restore the weakened muscles. He contacted the local polio foundation head, John Sauls, and a case history was prepared.

Soon Mrs. Starnes was on her way to Warm Springs, to bathe in the same waters where polio-crippled Franklin D. Roosevelt had bathed.

Every day, the therapist gently moved the weak legs, slowly building up the muscle strength. All kinds of therapy was used, every known means discovered by research and experiment, paid for with the dime given by the people of the United States to the National Polio Foundation.

Now Mrs. Starnes wears new braces and shoes, specially constructed and fitted for her. She can be out of the wheelchair a part of each day, doing her household chores and caring for her African violets.

She also works in her yard, caring for her flowers from her wheelchair. A ramp from her front porch permits her to roll in and out at will.

"No words can tell how much I appreciate what the

Foundation did for me, and indirectly all the people who contribute their dimes, and dollars to the March of Dimes," said Mrs. Starnes.

## Police Uncover Plot To Blow Up Tower

PARIS (UPI) — Philippe Castille, arrested as a leading right-wing terrorist, had planned to blow up the television antenna on top of the Eiffel Tower during President Charles de Gaulle's speech to the nation next Monday, police said today.

Police said they discovered the plan among Secret Army Organization (OAS) documents in Castille's Montmartre apartment. The search followed Castille's arrest Monday night in the Pam Pam, a restaurant frequented by tourists across the square from the Paris Opera.

Authorities labeled Castille, 36, "the chief of OAS plastic bombers in metropolitan France."

In another move against the outlawed OAS, police said five men charged with trying to assassinate De Gaulle last Sept. 8 will be tried by a military tribunal next month.

Reports said all five went on a hunger strike to win better prison conditions by being designated political prisoners. It was learned that De Gaulle and the Ministry of Justice have refused their plea.

Police said they found 50 pounds of plastic explosives and plans for a number of bombings in Castille's apartment.

## Woman Lawyer Kidnaped By 'Extremists'

ALGIERS (UPI)—Police searched today for an attractive young woman lawyer kidnaped by European extremists while she was on her way to defend three Moslems accused of terrorist attacks.

The kidnapping was the latest in a series of attacks by Moslems and Europeans which has undermined government authorities in Algiers, Oran and other Algerian cities.

The stepped-up violence has in turn resulted in a wave of strikes by workers demanding better police protection.

By unofficial count, 11 persons were killed and 18 more wounded in attacks Wednesday, bringing to 871 dead and 900 injured the number of victims in Algeria since the first of the year.

The French lawyer, Naomi Glayman, 37, was hijacked from an airport limousine by five armed Europeans who flagged it down in a suburb here. She had been on her way to catch a plane for Constantine, where the Moslems are on trial.

The Europeans plied out Mrs. Glayman from among the limousine's other passengers and ordered her out at gunpoint. They forced her into one of two waiting cars and then drove away.

Earlier in the day, gunmen staged seven separate armed robberies and got away with \$12,500. They were believed members of the outlawed Secret Army Organization seeking to finance the organization's activities.

## City To Set Annexation In Longwood

The Longwood City Council at its 8 p. m. meeting today is expected to set an election date for the annexation of Longwood Plaza. Property owners in the Plaza area already have indicated that they are in favor of the move according to Longwood Mayor A. R. Lormann.

Only other items expected on tonight's agenda are routine business matters, Lormann said.

## U.S. Plans Massive Probe On Stockpiling

WASHINGTON (UPI)—The Kennedy administration aimed today for a possibly explosive, wide-open investigation of whether "unconscionable profits" were reaped from the government's towering stockpile of strategic materials.

The government since 1939 has been piling up supplies, largely raw materials, that would be needed badly in event of war. World War II cut the stockpiles down, but the build-up began again after the war.

Since the late 1940s, the government steadily has acquired larger amounts of

more than 70 critical materials ranging from aluminum and nickel to duck down and opium.

President Kennedy told his news conference Wednesday he was astonished to find that the total stockpile now includes materials worth \$7.7 billion—more than the agri-

cultural surplus held by the government. According to the Chief Executive, this exceeds emergency requirements under the present concept of war by about \$3.4 billion.

Kennedy called "this excessive storage of costly materials" a "questionable burden on public funds, and in addition, a potential source of excessive and unconscionable profits."

"The sold facts on this matter must be open to the public," he said in announcing steps to correct the situation without disrupting commodity prices.

If there has been mismanagement, profiteering and skulduggery in the stockpile program, Kennedy made it clear he was aiming not at his but at previous administrations. While this was implied, it took some Republicans in Congress virtually no time to come to a similar conclusion.

Rep. Walter Rishman, R-N.Y., member of a House sub-

committee that looked into stockpiling earlier, said he thought Kennedy wanted to pin something on the GOP.

Sen. Francis Case, R-S.D., put it another way. He said stockpiling had been going on for a long time and the president also did not necessarily reflect activities of the Eisenhower administration.

The President announced he had talked over the situation with Sen. Stuart W. Symington, D-Mo., chairman of the Senate stockpiling subcommittee. He said Symington had agreed that the stockpile program should be "completely explored and without delay."

The President in turn promised fullest executive branch cooperation with the Senate investigation.

"The cloak of secrecy which has surrounded this program may have been justified originally to conceal our shortages," the President said, "but this is no longer the case, and secrecy now is only an invitation to mismanagement."

### U. S. Economy Threatened By Vehicle Attack

PALM SPRINGS, Calif. (Special)—The growing efforts to restrict use of motor vehicles in urban areas—if permitted to go unchallenged—could seriously affect the national economy, delegates to the 21st annual convention of the Truck-Trailer Manufacturers Association at the Riviera Hotel here were told this morning.

What is more, said Arthur C. Butler, director of the National Highway Users Conference, Washington, D. C., this campaign could deprive millions of highway users of the freedom to choose the kind of transportation they prefer—and are paying billions of dollars in taxes annually to have.

Butler declared that the proponents of the anti-automobile attack "want to 'liberate' our cities from the motor vehicles that people want. They also would like to 'liberate' highway funds to subsidize fixed transit."

The speaker warned the TTMA delegates that "the opposition has a lot of wind. And there is imminent danger that the fires will catch hold and spread if we do not all work together and work fast."

He added: "There can be no denying that highway transportation needs to band together and—if not meet fire with fire—at least meet fire with water and chemicals."

"In other words, we need to meet propaganda with facts and put out the fire that threatens the freedom of highway transportation—and I mean just that, the freedom of highway transportation."

"It is another case where we must stand up for freedom if we want to preserve it."

### Supper Set For Community In Enterprise

A community covered dish supper for residents of the Enterprise area has been scheduled for Feb. 6 at the school.

There will be no admission charges but a free will offering will be taken to help pay for services of an exterminator who treated the church building recently.

# It Must Succeed

Over 100 volunteer workers will be knocking on doors all over Seminole County Friday to collect donations for the National Foundation, the organization leading the fight against polio, birth defects and arthritis in children. The annual event tugs strongly at the heart strings of local residents because the large majority of the volunteers are mothers working for a cause helping all children.

Appropriately the solicitation is called the Mothers March. This year's Mothers March is especially important to both the county and the local chapter of the National Foundation. Bad weather on the night of the march hampered last year's effort. Every citizen should try to make up this year for

last year's loss. This is the major effort of the March of Dimes campaign. It's success or failure determines the county's record of support for the overall project.

This campaign must succeed. If all the fund raising drives, only the March of Dimes can count a remarkable achievement that affects the lives of every citizen in the nation. That feat, of course, was its assistance in the research that developed a polio vaccine.

This campaign will succeed if for no other reason than the instinct, which has brought so many mothers to participate in it. When mothers lead the fight against a crippling disease... the public is bound to respond.

## Dr. Crane's

### Worry Clinic

Mark was a Doubting Thomas. He didn't believe the IBM machine at our non-profit, Interfaith Scientific Marriage Foundation could produce a congenial second mate to fulfill his high qualifications. But scrapbook this case. And try to imagine the joy of half-orphaned youngsters at getting into a normal home life.

CASE L-428: Mark Z., aged 46, is an insurance executive. "Dr. Crane," he began, "I lost my wife two years ago because of cancer."

"We had been very happy all throughout our 20 years of marriage. So it was a severe blow to me to be left alone."

"At the outset, I felt disconsolate and vowed I could never marry again."

"But as time passed, I gradually lost that depressed outlook. Now I am willing to be shown."

"But I am still a Doubting Thomas about your Scientific Marriage Foundation and that famous IBM machine."

"How could it pick out a cultured, Christian woman who would even remotely compare with my former wife?"

Doubting Thomas: We welcome such a Doubting Thomas for he often makes our best applicant.

This Scientific Marriage Foundation is a non-profit, interfaith foundation, operating nationwide, with over 2,000

priests, rabbis and ministers as the local Counselors.

Thanks to the progressive newspapers that run this column and to such magazines as Reader's Digest, Cosmopolitan, Look and others, we have had splendid backing.

At present we are introducing between 1,500 and 2,000 congenial, certified Applicants Every Month.

Alas, up to age of 35, men outnumber women, but after 40, the women soon exceed the men and finally reach a 3 to 1 majority, so it is obvious that many will not meet compatible mates.

In Mark's case, we had several beautiful women, cultured and refined, who seemed exactly suited to him.

So we selected the 48-year-old widow of a clergyman who was a lovely college graduate, mutually inclined and very popular.

We always make our introductions by mail, informing each Applicant of the other's address, and urging them to correspond for a few weeks, with the man taking the initiative.

We never mention looks or wealth or anything else except that our IBM machine has decided they are congenial.

For we find it better to let both Applicants tell about themselves in their early exchange of letters.

This offers them something

to write about and also adds enough of that "mysteriousness" to whet their interest.

Mark's Reaction: Mark wrote to this charming widow and in 6 weeks they met in person.

He was completely smitten by her charm, as almost any cultured male in the 40's should have been.

For she was actually a super duper, as most of our registrants are.

And in 6 months they were married. Mark is wonderfully happy and so is she, for if you can find a congenial partner, you will soon realize that marriage far exceeds a bachelor or spinster existence.

Many of our Applicants, widows or widowers with children, later write us not only of their own supreme joy in the new marriage, but tell us how happy their children now are in finally having a "normal" type of home, with both mother and daddy under the same roof.

It is really touching to see the comments of a lot of these children who have lacked one parent but now enjoy a complete home life.

(Always write to Dr. Crane in care of this newspaper, enclosing a long 4 cent stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

## Nikita May Be In Trouble

(UPI) — In Geneva, chief British delegate Sir Michael Wright sagely surveyed the wreckage of the East-West nuclear test ban talks and remarked:

"The world has lost two great chances of achieving nuclear disarmament since the war."

He was pronouncing the regimen of efforts undertaken by the United States, Britain and Russia in October 1958 to find some enforceable means of banning nuclear weapons tests.

In 588 separate meetings, the conferees had gotten exactly nowhere, and, after a final blast at the West-Soviet delegate Samyon K. Tsaraphin announced he was going home.

The end came on the issue which had taken the conference to the edge of disaster so many times before—Soviet refusal to permit adequate inspection of suspected nuclear facilities in Soviet territory.

The world had had an earlier chance at nuclear weapons control in 1954.

It was the proposal suggested by U. S. elder statesman Bernard M. Baruch, and endorsed by the United Nations, that the United States place its virtual monopoly in nuclear weapons under international control.

That, too, was vetoed by the Soviets.

Events leading to final breakdown of the Geneva negotiations had involved a remarkable double switch by the Russians.

The United States and Britain finally admitting deadlock, offered to accept a previous Soviet demand that the nuclear talks be switched over to the general disarmament conference scheduled to open next month.

Without explanation, the Soviets vetoed what had been their own idea.

Speculation over the Russian action took two courses.

One was that they wanted no agreement under any conditions because they planned a new series of nuclear tests.

The other linked it to a series of other events within the Kremlin which have puzzled the West.

One was Khrushchev's strange silence on international affairs almost since the November end of the 22nd party congress.

In the ensuing weeks he has travelled extensively through the Soviet Union's agricultural areas and most of his recorded speeches have dealt almost exclusively with farming.

Another has been Moscow's sudden and seeming lack of interest in an early settlement of the Berlin question.

There are suggestions that temporarily, Kremlin foreign policy is on dead-center and that Khrushchev may be involved in some sort of personal crisis involving leadership.

The Communist party central committee meets in Moscow next month. An answer may be forthcoming then.

### Pork And Junket

WASHINGTON (UPI) — Sen. Allen J. Ellender recently returned from his seventh trip around the world and, as is his custom, has filed a lengthy report on his journey.

I always look forward to reading these travelogues, for Ellender, an intrepid adventurer, has a way of making them entertaining as well as informative.

As a taxpayer, I cheerfully bear my part of both his travel expenses and the cost of printing the diary of his odyssey. Being able to share his experiences vicariously in the next best thing to going on a junket myself.

Last year, his report, published by the Senate Appropriation Committee, attracted considerable attention because of its emphasis on geographical details.

Some readers felt that he did not need to point out that Japan was a group of islands off the coast of China, or that the canals in Holland were filled with water.

To me, however, the little things in Ellender's reports are the essence of their charm. I was pleased to note that he did not stint himself in this regard in the report just published.

For instance, the average senator wouldn't have bothered to let us know that his departure from New York was delayed 30 minutes because one of the airplane doors wouldn't close.

Nor would a less gifted observer, in describing a flight in a Russian airliner, have included the fact that "there was much chatter going on that I could not understand."

Ellender's account of his sojourn in the Soviet Union, one of the eight countries he visited, makes particularly intriguing reading.

### Political Notebook

WASHINGTON (NEA) — In the face of all the gloomy predictions that President Kennedy won't get this or that item of his program approved by Congress, it is well to remember how long it takes to get any idea written into law.

The old rule of thumb has been that, "It takes a generation to get a reform through Congress."

It took 50 years to get permanent income tax legislation. First approved as a temporary, emergency measure in the Civil War, an income tax law was re-enacted in 1894, only to be declared unconstitutional by the Supreme Court.

Only by ratification of the 16th amendment in 1913 was Congress given authority to lay and collect taxes on income, "from whatever source derived."

Women's suffrage, advocated in 1850, did not become law in America until the 19th amendment to the Constitution was ratified in 1920—70 years later.

Many of the other reform movements of Woodrow Wilson's "new freedoms" era lay dormant from 1921 to 1933 in what Dr. George Galloway, author of the new "History of the House of Representatives" calls "the age of acquiescence and enjoyment," the great period of prohibition.

But the country was left in the depths of a depression when the New Deal came along. That made passage for Franklin D. Roosevelt's reform programs a simple, hurry-up matter in the first 100 days of his administration.

Since that time the legislative wheels have ground a little faster. But it took from 1940 to 1946 to get the LaFollette-Monroe program adopted for reorganization of Congress.

The Atomic Energy Act and the Full Employment Act were also passed in 1946 to meet needs arising from the war. And the next year saw passage of the Marshall Plan, Truman Doctrine and reorganization of the United States armed services into a single Department of Defense.

Creation of the National Aeronautic and Space Administration in 1958 is another example of Congress acting rapidly to meet some new situation. But under normal peacetime conditions there is no such urgency.

Domestic erteles that necessitate immediate passage of President Kennedy's new programs, outlined in his messages to the new Congress, are not so apparent.

The high priority items on this list include:

An increase in postage rates to make the Post Office

Department pay its own way. Authority to reduce income tax rates temporarily as an offset to recession. Complete reorganization of Department of Agriculture price support, conservation and land use laws to bring supply and demand in better balance. A new foreign trade plan with authority to negotiate tariff cuts across the board instead of on an item-by-item basis.

But none of those things are really new. Postage rate increases offer the simplest case in point. Ever since the war and probably before, both Republican and Democratic presidents have recommended that the postal deficit be eliminated.

Until the recent House vote which sent a revenue bill worth about \$700 million to Senate, Congress refused to buy any attempted solution to the postal deficit.

A flexible tax rate system has been proposed for years—among others, by Dr. Galloway in a 1941 book, "Planning for America." That the farm programs have been in need of overhaul has been obvious since the end of the Korean war, while surplus prices have piled up to the \$9 billion level.

The Reciprocal Trade Agreements legislation has been fought over when it has come up for renewal every

third year since original passage in 1934.

Creation of an International Trade Organization was first proposed along with the United Nations Charter in 1945, and again by President Truman in 1948. Congress would have none of it either time.

But now, faced by the challenge of the European Common Market, the idea of greater international trade cooperation comes up for another round.

Times may have helped make all these ideas more acceptable.

## Press Boss To Visit Russia

WASHINGTON (UPI) — Pierre Salinger, 36, reporter, political worker, congressional investigator and now press secretary to President Kennedy; tough-minded at times, visionary at others.

This is the man whom President Kennedy has given a turn at bat in the toughest diplomatic league of the 20th century.

Salinger accepted an invitation Tuesday to make an "informal" visit to the Soviet Union in the spring, probably in late April or early May. Aside from usual American diplomatic personnel, he will be the first high administration official to go to Russia.

His objective: exploration of possibilities for improving understanding between the two chief adversaries in the cold war.

The Volga is the longest river in Russia. It is 2,290 miles in length and drains an area of 563,300 square miles.

We have glorified the New Deal, the Fair Deal, the middle of the road and now, the New Frontier. And always the state grows larger and men grow smaller.

—Rear Adm. Ben Moreel (ret.), chairman of Americans for Constitutional Action.

We should help feed people that are hungry; wherever they are or wherever they are, despite the political beliefs of the country.

## State Jobholders Take Big Jump

TALLAHASSEE (UPI) — Gov. Farris Bryant reported Wednesday that the number of state jobholders jumped from 40,848 on Jan. 1, 1961, to 42,980 on Nov. 30, 1961—the last month from which complete figures were available.

But he is not to blame, the governor said.

In the 16 state agencies

over which he exercises sole control, he said, the number of jobholders fell from 12,761 to 12,748.

"At a time when government services are expanding, this is a pretty good showing," he said.

At least partially responsible for the reduction in jobs Bryant controls, however, is

the wholesale transfer of road prison camps and their personnel from the Road Department, which is under the governor, to the Division of Corrections, run by the Cabinet.

Due principally to the transfer, the Road Department was able to report a 194-man drop-off in its personnel.

Employment in most of the agencies under the governor remained fairly stable during the 11-month period he cited, with the exception of a 331-man increase in the Industrial Commission staff and a 72-man increase in the personnel of the board of Health, and a 164-man drop in employees of the Racing Commission.

The governor's office itself listed three less employees.

The universities were responsible for a major part of the increased state payroll.

The State Patrol and State Mental institutions, also supervised jointly by the governor and the Cabinet, also showed a substantial increase in employees. But Bryant said these reflected only a growing population over which the state government has no control.

Snowbound cities have the sort of headaches that aren't cured by ice packs.

By Hal Cochran  
An executive is one who can decide quickly and get someone else to do the work.

Usually about the only thing an argument proves is that two people are wasting their time.

Too many people do so much rushing through life that they don't have time to really live.

Maybe we're lucky that everybody else doesn't know us like we do.

A Tennessee detective is looking for his handcuffs. He wants the man who escaped with them.

Scoutmaster Tyre was assisted by George Mills, chairman of the troop committee and by Dr. John Morgan and Hubert Tilson, troop committee members.

The play concerned two youngsters and their first day in a school to which they had just moved. Normal class procedures, including the devotions, arithmetic, word games, and recess were shown in the program which was given twice.

Leads were taken by Bucky Benson, Karen Williams, Ethel Todd, Pam Pigott, Bobby Halback, and Leslie Hartwig, with Cindy Green acting as interpreter.

Dear Abby: By Abigail Van Buren

DEAR ABBY: I live across the street from a high school girl. She is a quiet girl, but I understand that's the type you have to watch. I see her coming home from school every afternoon. The same boy walks her home. I notice that they walk down the street holding hands. Then they stand in front of her house and talk. She looks up at him like a sick calf. They have stood there and talked for as long as an hour. I can see trouble starting. Don't you think somebody ought to tell her mother? I was not spying. I was cleaning my Venetian blinds.

DEAR LADY: You must have the cleanest Venetian blinds in town. Now go to work on your mind!

DEAR ABBY: What is your definition of maturity? STUDENT

DEAR STUDENT: This is maturity: To be able to stick with a job until it's finished; to be able to bear an injustice without wanting to get even; to be able to carry money without spending it; and to do one's duty without being supervised.

DEAR ABBY: There is a relative of ours who is giving us all a pain in

the neck with birthday parties "honoring" her husband every year. This woman is no kid. She's in her early forties. Her husband has just celebrated his 44th birthday. We can understand giving a fortieth or fiftieth birthday party, but what's all this nonsense of giving a 42nd, 43rd and 44th birthday party for a grown man? She makes a big deal out of it, inviting the family and all their friends, and it means a present every year. Don't you think she should grow up and leave the birthday parties to the children?

DEAR NAUSEATED: An invitation to a party is not a command. You are free to decline if you wish. If such parties "nauseate" you—stay home and preserve your health.

CONFIDENTIAL TO L. B.: You haven't a leg to stand on, so don't kick!

How is the world treating you? Unload your problems on Abby, care of this paper.

For Abby's booklet, "How To Have a Lovely Wedding," send 50 cents to Abby, Box 3866, Beverly Hills, Calif.

Highlights

TV Time Previews

7:30-8:30 p. m. NBC. The Outlaws. "A Bit Of Glory." A posse and politics are the main features in tonight's western. Aging sheriff Ned Danvers, played by guest star Eli Wallach, is up for re-election when Spangler, an outlaw, breaks out of jail. Danvers' political opponent, Lou Milroy, throws politics into the search, and the posse had better bring back their man or the sheriff will suffer. Regulars Don Collier and Bruce Yarnell join Wallach in the posse so you know all will work out well.

8-9:00 p. m. CBS. Frontier Circus. "Quick Shuffle." Ben Travis sits down to a poker game to try to get the circus out of the red and stands up losing a tidy \$10,000. The gambler who beats him is the real star of the show, Gilbert Roland, with his twisted grin of a smile and beady, squinting eyes. When he tries to take over the circus in payment, Ben stalls and is thrown into jail and threatened with hanging.

8:30-9:00 p. m. ABC. The Real McCoy. "The Gambler." Grandpa is "agitated" when the family watches enthusiastic over a continually rising stock. (Garibaldi Industries, on the stock market.) Neighbor George MacMichael, Kate and Luke decide to take the plunge, but Grandpa stubbornly refuses to go along.

8:30-9:30 p. m. NBC. Dr. Kildare. "The Search." Entertaining and exciting in this episode, which guest-stars Jeremy Slate, late of the "Malibu Run" series. Dr. Kildare and Gillespie (Dick Chamberlain and Raymond Massey) have their hands full with a food-poisoning epidemic, but the real plot key is whether Slate will continue medical work at the hospital or take on a public health career. You just know he'll choose the latter when we tell that is the basis of a proposed new series to star Slate. Pay particular attention to Pippa Scott as Slate's romantic interest.

9-9:30 p. m. CBS. Tell It To Groucho. If you are among those who would like to see the "Twist" die a quick death as America's current craze, watch Groucho try it on tonight's show. He absolutely murders it. Between demonstrations of his supple spine and hip hips, Groucho gets a heated discussion going on the vagaries of modern art between a photographer and an Avant-Garde Coffee-House proprietor. An added attraction is the very attractive Daphne Ward.

The Town Pump took four points and slipped past Davis Builders into third place, 5 1/2 games behind the leaders. Davis stopped at fourth with Smith's American and Sanford Electric rounding out the first division.

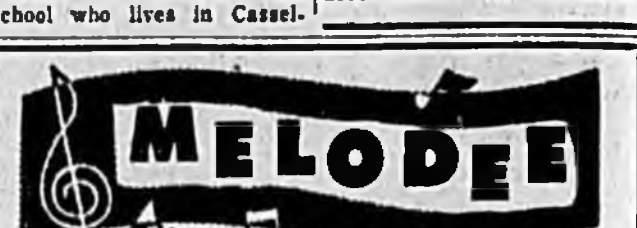

Charles (Curley) Barrentine led the way as many of the kieglers showed signs of recovering their form. Curley wound up the evening with a 238-213/607 to head the single game and series highs for the week.

Double feature bowlers included Gerald Behrens 223/548, Herb Earle 223/530, Joe Carlsley 221/513, Harry Meehan 206/518, C. Wallis 213/543, Al Moretz 206/534, Dan Hillis 200/514, Ed Parsons 210/537 and Ed Michalek 201/552.

Plan To Attend The Heart Fund Benefit Feb. 25th

Jacoby On Bridge By Oswald Jacoby

South had a sub-minimum one-spade response to his partner's opening club bid. North had a sub-minimum for his jump to four spades. So, when South looked at the dummy he saw little chance for his contract because it was almost a certainty that East was marked with the queen of spades by West's opening lead.

NORTH (D) ♠K43 ♣J752 ♢A10 ♣AKQJ WEST ♠A85 ♣QJ63 ♢K10 ♣A10 EAST ♠Q6 ♣A43 ♢K75 ♣1076 SOUTH ♠J1075 ♣A10 ♢983 ♣883

South took the second alternative and went after the hand.

His first play was the king of spades from dummy. He might

pluck a singleton queen, but he did not hope for that much good luck. All he really wanted was to find queen and one in the East hand. When the king of spades held he promptly played dummy's ace and ten of diamonds. East won with the king and led a heart. South took the trick, ruffed his last diamond in dummy, ran dummy's four top clubs and discarded his ten of hearts. It did not matter which opponent ruffed. South had lost one diamond and would only lose two other tricks. Lucky, but South had made his own good luck.

We The Women: By Ruth Millet

You hear a lot about the advantages of marriage but there are times when an unmarried man is glad he doesn't have a wife and times when a single woman is glad she doesn't have a husband.

—When he loses a nice chunk of money at poker. —When he realizes he made a fool of himself at last night's party. —When he splurges on some luxury for himself—like a new gun when he already has a rack full of guns.

# Mays Gets \$90,000

United Press International  
Say hey, that ain't hay they're paying Willie Mays, that's \$90,000, a sum that not only makes him the top salaried player in the land but also the fourth highest in baseball history.

Casual-like, the same way he does most everything, Willie dropped into the San Francisco Giants' office Wednesday and personally delivered his signed contract to vice president Chub Feeney.

Not that he mistrusts the malls, but well, you know how it is when you get one of those \$90,000 contracts. Feeney said Mays was given "a slight increase" and another club spokesman revealed that the figure was "about right" when it was generally estimated at \$90,000.

That being the case, the 30-year-old center-fielder will earn \$8,000 more than Mickey Mantle of the Yankees this year. Mantle is the highest paid player in the American League.

The only three ball players in history to have received more than \$100,000 were Joe DiMaggio, Ted Williams and Stan Musial, all of whom reached the \$100,000 bracket during their careers.

Naturally, Willie was happy. And he was in his usual fine physical shape, too. "I've been working out in gymnasiums most of this winter and hope to be close to my playing weight when I reach training camp," he said.

Mays, who drew \$8,000 the first year he was with the Giants in 1951, played in every game last year. Although his average dropped to .308—his lowest since he hit .296 in 1956—he hit 40 home runs, drove in 123 runs and scored 120 times. Four of his homers came in a single game at Milwaukee.

There was considerable signing activity elsewhere also. Daryl Spencer, Lee Walls and rookie outfielder Roy Gleason agreed to terms with the Los Angeles Dodgers. Spencer, who came to the Dodgers last year in a trade with the Cardinals, received about \$25,000 and Walls, recently obtained from the New York Mets was given \$10,000.

The Washington Senators announced the signings of outfielder Willie Tasby and Pete Burnside, both of whom received raises, and outfielder Lee Maye became the 22nd member of the Milwaukee Braves to agree to terms.

Cleveland corralled four pitchers—Dick Stigman, Bill Dalley, Steve Hamilton and Floyd Weaver—and the Houston Colts signed 18-year-old outfielder Charles Murray, then assigned him to their Class C Fresno, Calif., farm club.

Left-hander Bud Daley was the 13th member of the New York Yankees to come to terms.

DELAND (UPI)—Stock car drivers Tim Flock of Atlanta and Curtis Turner of Roanoke, Va., remained barred today from National Association for Stock Car Auto Racing competition.

Circuit Judge Robert H. Wingfield refused Wednesday to lift a ban which NASCAR President Bill France had placed against the two drivers.

France banned the two from NASCAR-sanctioned races after they tried to enlist stock car drivers to join the Federation of Professional Athletes, a Teamsters Union affiliate.

DOSSIE DEGANAH is first place winner and Mrs. Robert Ware takes second prize in the Seminole Loan Company 54 Hole Handicap Tournament which took place at the Mayfair Country Club Golf Course last week. Bob Mahan, manager, awards the prizes at the luncheon held Wednesday. Mrs. deGannahl received a Nadeo golf cart and Mrs. Ware a set of wood covers. (Herald Photo)

night's featured ninth race. Fred Whitehead's speedy red brindle recently won a race in 31.02 seconds. In six starts here he has been a quinella factor four times, three times with wins.

The former low timing for the season was a 31.09 seconds made by Charles Lovely's Hurray Now when he won his maiden race here on opening night. In this top attraction tonight Hurray Now will be shooting for his seventh victory.

Also running in tonight's ninth will be Lashes, Sure Fit, Barnacle Hob, Upstager, James Leon and Blotched. Blotched has moved rapidly through the grades since winning his maiden race Dec. 30. He seeks his sixth first tonight. Barnacle Hob won the Sapling Derby at Multnomah in Oregon last August and then created a sensation on Massachusetts tracks last fall.

Interest this weekend centers on the final event in the Racing Queen Stakes to be run Saturday night. Preliminaries in the Racing King Stakes are scheduled for next Wednesday.

Leonard, Baxter Hold Lead In Palm Springs Classic

PALM SPRINGS, Calif. (UPI) — Par-shattering professionals, led by aging Stan Leonard and young Rex Baxter, head into the second round of the Palm Springs Golf Classic today in the world's richest and biggest tournament.

Leonard, the Vancouver, B.C., veteran who will be 47 Friday, and Baxter, a 25-year-old from Amarillo, Tex., both had 63 in the first round Wednesday to tie for the lead. They played the par 36-35-71 Thunderbird Country Club course, rated the easiest of the five to be used in this marathon tourney which runs through Sunday.

A total of 49 pros broke par in the first round—16 at Thunderbird, 14 at Tamarisk, 10 at Eldorado, and 9 at Indian Wells.

The 128 pros entered in this unique tournament play with a different set of three amateur partners for four days. Then on Sunday, the final day, the low 10 pros shook the amateurs and shoot for the big money.

There's a total of \$35,000 to be given away in the pro division.

Reds Condemned U. S. Action On Hockey Team

MOSCOW (UPI) — Moscow Radio condemned the United States' refusal to grant visas to East Germany's hockey team today as "not sporting" but gave no indication whether the Soviet Union would boycott the international championships.

"This discrimination directed against the hockey federation of the German democratic republic—full member of the International Hockey Federation—causes great harm to development of this sport," Moscow Radio said.

"Soviet hockey players decidedly condemn this un sporting act of the adherents of cold war," the broadcast continued.

## Tumbling Anyone?

By Ronnie Broadway  
Seminole High School's Tumbling Team is now getting into full swing with hard practice and perfection as their goal.

The club was formed only last year under the direction of Don Reynolds. They are now learning the fundamentals of tumbling and have high hopes of later becoming a good gymnastic troupe.

There are 15 members of the team, all of which show up several afternoons each week for a few hours of practice. There are 10 boys and five girls on the team at present with hopes of more to come.

Jack Ivey heads the team as captain with Alex Carmen assisting as co-captain. Other members include: Betsy Schuenemann, Gwen Champion, Bat Bruce, Susie Halback, Paula Brooks, Chip Crawford, Ed Hamilton, Huetin Grier, Charlie Scrum, Robert Richards, Steve Wilson, Chris Hausch and Gary Bishop.

There are many varied acts that the team performs and the members can be found hard at practice every day in an attempt to improve and perfect each move and their all-important timing.

Reynolds stated that the team will perform at the half-time intermission of the Varsity basketball game Saturday night and are planning various other shows throughout the county at later dates. An interest is trying to be stimulated in other schools in order to have interscholastic contests.

The team has shown to be in good shape thus far and if enough enthusiasm is shown, a really great team might be formed.

## History Of Bowling Discussed At Meet

The sport of bowling is 7,000 years old, according to evidence found in ancient Egyptian tombs, John Spolski told members of the Kiwanis Club Wednesday.

Besides the games that were played with marble bars, pins and balls in the ancient days before 3500 B.C. it has been found that South Sea Islanders also had a game they played which closely resembled the same sport.

"Why this rise to national favor?" "Four reasons," said Spolski. "Women bowlers are the biggest reason. The sport has been cleaned up because of them. Alleys are now called lanes and gutters are now called channels." "The number two reason is automatic pinsetters. No. Three is advertising and prizes and No. Four is wonderful, weather-proof, all-year-round air-conditioning," he concluded.

# Lake Monroe Jottings

Mrs. H. J. Johnson  
I have to mention it but I haven't liked the weather these past few days. Those few Spring days last week sure did spoil me. And you know that I noticed some of my flowers have new leaves on them. And now up comes frost and even ice again. Tomorrow the groundhog will come out. Wonder what he will do? Little Beth and Pat Bethea are ill. Those two kids love to go horseback riding and being ill and having to stay in I bet is hurting them more than being ill. Theresa Warren is home from the hospital but is having to take it easy before returning to school. Mack Hudson who has been visiting son and daughter-in-law Don and Shirley Hudson has returned to Fredericktown, Mo. He told me he would be back in a few weeks with his wife to live here. Well Vonnelle and Tolar Rabun have another boy. The little lad checked in at nine pounds and two ounces. Congratulations to the proud parents. So sorry to hear that Christine Gibbons is ill at her home in DelRay. She is former Monroe resident. A speedy recovery to you. Also on the sick list is Marilyn Krejcar who has been ill all with the flu, but is much improved at this writing. Nineteen members of the R. A.'s and Brotherhood of the Monroe Baptist Church, including their pastor, attended a chicken supper at Stetson in Deland on Monday evening. Jim Carroll said he ate five pieces of chicken because it was so good. There's nothing better than fried chicken any time is there Jim? The fashion show that the Monroe Home Demonstration Club sponsored last week was really nice. All the models looked beautiful in their outfits, made from the newest in Bates prints. And the high school boys quartet sang four numbers. They are really good. I could listen to them sing all night long. Those attending the Red Cross First Aid Course at the Monroe School on Tuesday night

learned to apply artificial respiration this week. The Monroe Home Demonstration Club meets tonight at White Hall of the Upsala Presbyterian Church. Gordon Brisson will speak to us on Family Crisis. I know that this will prove very interesting so sure hope to see you there. Remember the time is 7:30 p. m. Overheard the other day. Dog girl: "Our neighbors got killed last night." Second girl: "Well what do you want me to do about it?" Dog girl: "Well I did!" The other day I had to quiet some of the boys and girls on the bus. I explained that they were so loud and, that they would have to get quieter. When one little girl prepared to get off at her stop she came up to me and patted me on the shoulder and said "Mrs. Johnson I sure don't want to be a bus driver when I grow up." Claude and Rena Hawkins attended the funeral in Deland Tuesday of Major Heuston Jomet. Major Jones, was retired from the Army. His wife, Margaret, has been a frequent visitor in Monroe. Glad to see Lu Belle Ballinger out to church Sunday. She is another one of those ladies you can't keep down. She is over 80 years young and likes to be doing something all the time. Did you see the rocket go up Monday evening? I did. I happened to be standing in the front yard. It was so pretty up there in the sky. My granddaughter especially thought it was just wonderful. For our thought this week, I found this quote made by Queen Juliana of the Netherlands. "Everyone should try to find a spot to be alone, to have a proper opportunity to concentrate and to think. We have too little space and too little time, and therefore the tensions on our nerves become too great." What do you think of that?

## Florida Laws Explained To Newcomers

By Jane Casselberry  
Attorney Kenneth McIntosh, Sanford City Judge, spoke at last Thursday's meeting of the Welcome Wagon Newcomers Club of South Seminole County at the Mid-Florida Country Club on the subject, "Laws of Florida Pertaining to Women."

McIntosh told the newcomers that he is referred to still as a "converted Yankee" even though he has lived in Florida for 25 years and is aware of the difficulties often encountered by newcomers who are not aware of Florida laws which may differ from those of their home state.

He offered helpful advice on what to do in case one should become involved in an automobile accident and reminded of Florida's Financial Responsibility Law. He cautioned not to leave the scene of an accident until arrangements are made to protect the scene of the accident leaving the cars involved as they are if at all possible; procure assistance for the injured; contact a law enforcement official immediately; if damage is in excess of \$50 you are required to fill out an accident report (failure to do so may result in the loss of your driver's license and car registration); look for potential wit-

nesses and jot down their names or license numbers; show the investigating officer your license and give him your name, address, and car registration number and assist him in determining the facts of the case.

McIntosh warned his audience to be careful not to make extemporaneous remarks to others as to who is to blame for the accident or as to their physical condition and not to discuss a money settlement or sign any papers. Inform the insurance company of the accident at once, procure the advice of a physician

if there is the slightest suspicion of injury, and if the accident is serious obtain the services of a lawyer.

Failure to appear in court not only means the forfeiture of bond, but is an admission of guilt and in many cases results in the voiding of insurance policies.

He next discussed the rights and obligations in relation to real property, commenting that women own the majority of stocks, bonds, and real estate in this state.

He pointed out that women may hold title or purchase property but must have their

husband's signature in order to sell unless they become a "free dealer" by petitioning the court of chancery.

He urged the ladies to discuss with their husbands such things as the whereabouts of important papers, what property is owned, and what obligations have been incurred.

He also stressed the importance of having property in both the husband and wife's name, such as automobile titles and advised having a joint bank account to avoid complications in the event of the husband's death.

McIntosh reminded the group that to legally execute documents they must be signed before two witnesses and a notary public. Women have a one-third dower interest in property owned by their husbands and her signature on the deed is necessary if he wishes to sell.

"Homesteads" or property held by the head of a household is inherited by the wife as a "life estate," which she is not allowed to sell. Upon her death it goes to the surviving children.

In conclusion, he stressed the importance of making a will as all estates which exceed \$3,000 must be probated, often a lengthy process leaving the widow without funds until it is settled. It is also important for a woman to make a will in order to protect the interest of her minor children or make provision for specific gifts. It is well to name a competent individual or banking institution to act as guardian of person and guardian of property of minor children in the event of a "common disaster" which takes the lives of both parents.

A will must be witnessed by two individuals who have heard the declaration and witnessed the signing. It may be changed by destroying the document or adding an amendment.

Following his talk McIntosh answered the numerous questions addressed to him by ladies in the audience who reported they found the speech extremely enlightening.

## Casselberry Utilities Gets Water Reports

The State Board of Health has recommended that Casselberry Utilities Co. obtain the services of a consulting engineer on its water problems.

A report from Gordon Folke, regional engineer, advised that sulphur in the company's number one well, which supplies the major portion of water used, is not being adequately removed and is responsible for the dirty water encountered in the distribution system.

Folke suggested that additional aeration and ground storage facilities be made to the number one plant at the earliest possible time.

The recommendations were made from water samples picked up from Casselberry Utilities' three wells on Nov. 8 although the company did not receive an analysis report until about the middle of January.

Hilbard Casselberry, president, who says that estimated costs of the suggested improvements will run more than \$20,000, last week advised all customers that the engineer has been contacted to prepare plans and specifications which must be approved by the State Board before actual construction can get underway.

Use of the number one well has been discontinued and the company already has begun sandblasting and painting the interior of the 50,000 gallon elevated tank, Casselberry said.

He asked cooperation of residents during the limited supply period, especially in the north and west sections of town, in eliminating use of lawn sprinklers during the afternoon and early evening hours when other patrons are doing housework and preparing supper.

Weekend work sessions are being held by the Lake Mary Volunteer Fire Dept. to build the Fire Hall's new addition which will provide a separate meeting room and storage area for the trucks.

Department officials report that although volunteer turnouts have been well attended more workers would be of great benefit. Many of the men are devoting all of their spare time to the project in order that the building will be ready for the Annual Chicken Barbecue on Feb. 10.

Residents of the areas served by the department are asked to lend their support by offering their services. Interested volunteers, who need not be members of the department, may contact Ralph Schweickert, building committee chairman, or report to the Hall on Saturday.

## Fire Chief Issues Warning In Casselberry

By Jane Casselberry  
Six grass and wood fires in five days prompted Fire Chief Paul Bates of the Casselberry Volunteer Fire Dept. to issue a warning to residents to avoid burning trash on windy days and to use extreme caution at other times due to the long dry spell which the area is experiencing.

He asked that residents notify the fire department when they are planning to burn off lots so that surrounding properties can be protected. Most of the recent rash of fires have been in the North Raceway Area causing Bates to comment that the North Orlando and Casselberry Fire Depts. are getting well acquainted in their cooperative efforts to extinguish the flames.

ROBERT N. MCGEE, baritone-bass, will be the featured soloist at Friday night's program by the DeBary Concert Orchestra at the Community Center. Arthur F. Bell of Winter Park will direct and musicians from Winter Park, Daytona and Orlando will play with the DeBary group. The annual concert is given for benefit of the DeBary Orchestra. (Cox Photo)

By LARRY VERSHEL  
Congressman Syd Herlong told us Thursday that he has called for competitive civil service examinations to fill the post of Sanford postmaster.

How about this for a classic double feature show? Hugh Prince told us that next Saturday these two pictures will play at the Drive-In: "Bachelor In Paradise" and "One Foot In Hell." Himmmmmm!

Two of Senator George Smathers' aides were in town Thursday to see whether there were any complaints. We gave them Jim Avery's telephone number.

Supt. of Schools R. T. Milwee today promised no "whitewash" of the accident at the Lake Mary School last week. "It will all come out in the open next Thursday at the board meeting."

Milwee also mentioned that the state survey team has completed its survey of projected enrollment based on the Nova impact which will also be discussed on Thursday.

Two young Republican Clubs have been organized in South Seminole. One in Prairie Lake and one in Bear Lake.

City Manager W. E. Knowles reported this morning that the building inspector has "looked over" two blocks on W. Ninth St. and will present his case for condemnation to the City Commission Feb. 12.

Ever notice that vacant lot on Sanford Avenue between Third and Fourth Streets on the east side? Always filled with trash and garbage. Well, the City has ordered the lot cleaned up or, else . . . That's the word from Pete Knowles.

The work on the first Seminole County road connected with the Nova area will start next week. It's Snow Hill Rd., south of Geneva. It will be a mile and a half project and cost some \$80,000, according to County Engineer Carlton Bliss.

Deadline for filing for homestead exemption is Mar. 31.

Look for a great deal to be accomplished by the newly formed Commercial and Industrial Committee of the Chamber of Commerce. Tom McDonald is heading up the committee. Serving along with McDonald are A. K. Shoemaker Jr., Bob Crumley, John Fitzpatrick, T. E. Tucker, John Alexander and Dr. Tom Largent. McDonald said the committee will assist landlords and property owners to "better utilize their property and encourage expansion and modernization."

By the way, McDonald emphasized that the committee won't be tied down to Sanford but, will work throughout the entire county.

Speaking about modernization, First St. has a new bright look with "Surplus City" firmly entrenched across from the Herald Building.

Overheard the publisher of The Herald giving the okay for an upcoming contest that will be a lot of fun for readers. It probably won't reach the TV prize spectacular dimensions, but will be guaranteed to tickle your funnybone.

A standard Red Cross First Aid course will be offered to the public beginning Thursday from 7:30 to 9:30 p.m. in the Parish House of Holy Cross Episcopal Church at Fourth and Magnolia. The instructor, Jack Horner, asks that anyone interested may register by calling the church office, Mrs. Betty Halback said today.

### Drainage Necessary To Get Industry, Avery Declares

Seminole County will never get any real giant industries without a master drainage plan, County Commission Chairman James P. Avery said today. Avery also took issue with House and Home Finance Agency Regional Director Walker Keys who said the County's application for a \$30,000 planning grant will only be reconsidered if the county shows it can pay for the \$9 million project. Avery said that "we have the authority, now to extend our road and bridge fund for drainage purposes." Keys Thursday said that evidence must be given to the administration that the county would pay back the grant in a reasonable length of time. Avery was also optimistic that the HIFA would reconsider the application because of Sen. George Smathers' efforts.

A tentative March 20 date was set by the Longwood City Council Thursday night for a routine annexation election which will see the city get its first 11½, 17.92 property.

The annexation ordinance is expected to be ready for the council's approval at its meeting on Feb. 8 when it also hopes to have the dog ordinance ready for discussion.

In other business Thursday night the council and numerous businessmen of the town heard M. L. Rarre of the Winter Park Telephone Co. explain the company's problems regarding service in the area.

He advised that the rates were not out of line with those of other communities of similar size and cited numerous difficulties encountered by his company in providing lines in the "sparsely settled area."

Rarre said that every effort had been made in the past 10 days to group business together but that he "couldn't guarantee it would stay that way." He suggested that the business owners subscribe to the better class service of two party lines

### South Seminole Muckland Afire

A muck fire covering several hundred acres in South Seminole county in back of Tanglewood will continue to burn until it is put out by heavy rains, said Fire Chief W. H. Mayo of Goldenrod today.

The muck in the area is some 10 feet deep and covers such a wide area that it is useless to pour water on it," Mayo explained. "It will continue until it burns down to the water level or until we get sufficient rain to soak the area."

Mayo warned that it is dangerous for anyone to go near the fire as the area is crusted over and the ground may cave in. He said that last year someone was burned when this happened.

The Winter Park Fire Department has been keeping an eye on the area which is adjacent to Winter Park and Chief R. S. Blair said "There is absolutely nothing we can do about it. It's up to the Master to bring some rain to put it out."

The White House took pains to say there was no relation between Ellis' selection for a judgeship and the stockpile investigation.

### Lake Mary C Of C Elects At Dinner

It was pointed out that the errors have temporarily halted construction of several new business offices.

### Italy Acts To Isolate Reds

ROME (UPI) — Premier Amintore Fanfani called a cabinet meeting today to take action that could isolate the Italian Communist party—the largest in the West—for the first time since World War II.

Fanfani was expected to hand his resignation to President Giovanni Gronchi after the meeting.

This will pave the way, political observers said, to the formation within a few days of a new "center-left" coalition headed by the present premier.

Fanfani's Christian Democratic party voted Thursday to join forces with Pietro Nenni's Socialist party, a large portion of which still maintain links with Italy's estimated 1.6 million Communist members.

### Reds Fire Across Berlin Border

BERLIN (UPI) — Communist police fired a barrage of bullets near the East-West city border today, apparently to halt an escape attempt.

West Berlin police said the mid-morning fusillade occurred about 150 yards behind the Communist wall near an isolated house.

The voeos (peoples police) fired 20 or 30 shots and sent up a yellow alarm flare.

East Berlin workmen Thursday night completed a 330-yard long wooden screen, 18 feet high, along a border sector where East and West Berliners had been accustomed to gather and wave at each other.
