

## ATTEMPT TO KILL CAFFERY STIRS HAVANA

### Cuban National Police Corps Seeks Quartet That Loosed Hail of Lead Into Embassy

HAVANA, May 28.—(A.P.)—The entire strength of the Cuban national police was thrown into a search today for the four men who made a daring attempt yesterday to assassinate Jefferson Caffery, United States Ambassador to Cuba.

The cabinet, shaken by the affair, met in special session to discuss the plot against Caffery's life.

The explosion of two bombs in the residential section shortly after midnight added to the excitement which gripped Havana.

Authorities expressed a determination to put an end to the terrorism which has harassed Havana for months.

Several shots were fired yesterday directly into the doorway of the embassy home of United States Ambassador Jefferson Caffery, presumably in an attempt to assassinate him.

Unidentified assailants, using a sawed-off shotgun, poured lead into the entrance where soldiers were standing guard waiting for the ambassador to come out. It was exactly at the time he usually leaves for the yacht club.

One of the soldiers was struck by bullets and seriously wounded. Another soldier sitting in Caffery's automobile waiting for him answered the assailants' fire and gave chase, but the men escaped.

Police revealed Saturday that a plot was afoot to assassinate Caffery and to destroy American property in Cuba, and had taken extraordinary precautions to guard the ambassador's life.

The wounded soldier, Francisco Ortega, had his right leg torn off by a bullet, apparently explosive in nature. At Columbia military hospital he was reported dying.

Caffery, who continued on his way to the yacht club after calling at the embassy for a few minutes, was reported to be recovering.

### Sammy Long Invites Friends To Fish Fry

In view of his having getting ready for his 30th annual all-day party for his friends and neighbors in many sections of central Florida, Governor Sammy Long, Commissioner S. F. "Sammy" Long of Oklawaha, asked a Herald reporter to "tell everybody in the county that I'm expecting them all to come to my place next Thursday."

Mr. Long revealed that he and his wife are preparing to serve at least 3000 persons with free fried fish, bread, pickles, and coffee. He expects that as many as possible will bring their own lunches, and that all will want to spend the entire day.

A political speaking program will start at 10 o'clock, he said, and all candidates are invited to appear during the afternoon.

There will be a band playing in the hall of the day, he said, and a dance will be held in the afternoon after the last of the candidates have been heard.

## WILCOX DENIES USING BILLS AS VOTE GETTERS

### Solon Says West Palm Beach Attorney Did Not Need Passage Of Acts To Be Elected

WASHINGTON, May 28.—(A.P.)—Having heard that the political fortunes in the Fourth Florida district had hinged on the Everglades park bill, many House members were wondering yesterday how they will fare in the impending elections if their local measures fail to pass.

In debate on the Everglades House Thursday, Representative Wilcox, who has the highest admiration for the Massachusetts member, recalled that "it was said" two years ago that Ruth Bryan Owen was defeated by Mark Wilcox because she was unable to obtain approval for this legislation.

"Let me say to the gentleman from Florida (Wilcox) for whom I have the highest admiration," said the Massachusetts member, "that of course, we realize this bill is an extremely important thing in his primary campaign."

Wilcox, who left his campaign in Florida and flew here to be present during consideration of the bill, forthwith denied the insinuation, had any bearing on his political fortunes.

Treadway countered by reading a telegram he said he received from Mrs. Owen, dated June 7, 1932, as follows:

"It would greatly assist me if you would send me a telegram whether or not you feel that the Everglades park bill has been loyally and effectively handled by me. The suggestion that the filibustering against the bill in the House had been due to the fact that the members disliked me personally and did not wish to pass any bill bearing my name will have been very damaging to me. Will appreciate your assistance in setting this straight."

The Republican said he replied to his Democratic colleague, then in the midst of her campaign with Wilcox, thus:

"While I have, personally opposed the bill, I have not done so because of any personal animosity against you. I have done so because I believe it is a bad bill and I believe it is a waste of money. (Continued on Page Two)

## Scout Meeting Called Off Until Tuesday

Because the 24 members of Boy Scout Troop No. 5 will entertain their sponsors, members of the Sanford Kiwanis Club, at a special "jambers" at the Scout camp near Silver Lake tomorrow night, the Scout meeting scheduled for tonight has been called off. Graduation exercises at Seminole High School also was given as a reason for the postponement of the meeting.

All members of the troop are requested to meet at the camp at 8:00 o'clock tomorrow afternoon. Each is expected to bring his supper, and those boys who do not have a means of transportation are expected to meet at Scout headquarters before 8:00 o'clock.

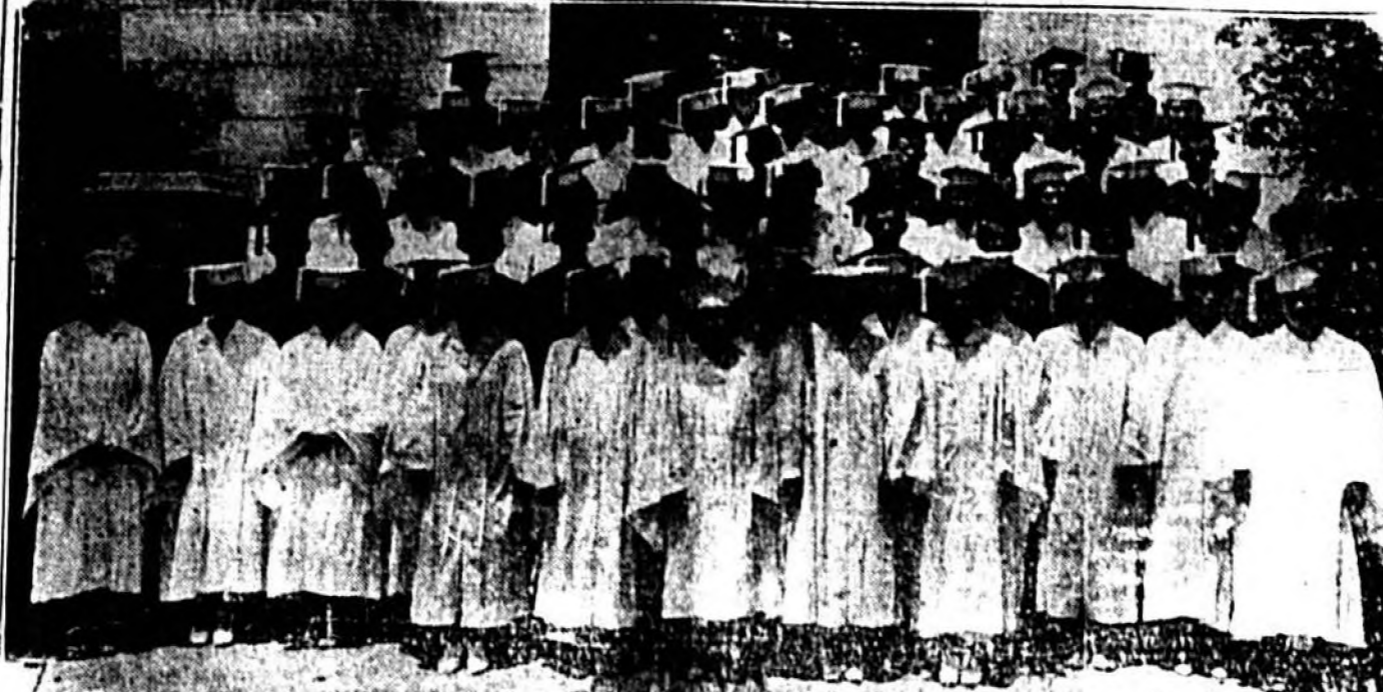

The 49 members of the Sanford Kiwanis Club are expected to attend this special party, Scoutmaster Herman Morris stated today.

## Citrus Growers Urged To Attend Meeting

All citrus growers in Seminole County have been invited to attend a special meeting of growers, to be held in the Geneva School at 8:00 o'clock on June 7. It was stated today by C. R. Dawson, newly appointed County Agent.

Prof. E. C. DeBuss of the Extension Department at Gainesville will be at Geneva to speak on "Rust-Mite Control," while an announced speaker is to speak on "Cover Crops" and "Organic Matter in Citrus Production."

## REVISION OF ROSSI, CODOS NRA RULING LAND SAFELY AUTHORIZED IN NEW YORK

### Service Groups Will Be Permitted To Set Up Local Codes Of Fair Practices

WASHINGTON, May 28.—(A.P.)—By executive order, President Roosevelt has tonight modified an NRA provision to allow some of the so-called service industries to adopt local codes of fair practice.

The desirability for this, he said, in a statement accompanying the executive order, was shown in a final report which disclosed that while most industries could operate under national codes, there were others in which a greater degree of government control would be required.

The major point involved in the order is the inclusion of the local groups adopting these codes under the 60 percent rule, to agree on prices and other trade practices.

All such local agreements would be subject to approval by the Administration.

In the National Recovery Administration's report, Hugh S. Johnson, director, said that the task of deciding which of the service industries they in which such concerns as hotels, restaurants, barber shops, laundries, and cleaning and dyeing plants, should be allowed to set up local codes of fair trade practices.

Although the local groups are to determine their own codes of fair trade practices, they will remain bound by the general regulations in the act, as well as the minimum child labor and hours and wages laws.

"Most industries," Roosevelt said, "have a national community, and economic interdependence, the operation of some of them is local. There are others, however, which, notwithstanding their being national trade associations, do not actually integrate themselves nationally."

A final period of some months has been set while most of the trade associations are being organized for the work and a little experience with their own uniform national codes. There are others in which a greater degree of government control will be desirable.

Among these are some, but not all, of the so-called service industries in which the government is engaged in a policy of "buy American" goods.

The executive order would give the government the right to establish a code of fair trade practices and to enforce it, and to take such other action as may be necessary to carry out the act.

The executive order also would give the government the right to establish a code of fair trade practices and to enforce it, and to take such other action as may be necessary to carry out the act.

## Minor Trouble Forces Them To Alight At Floyd Bennett Field After 38 Hour Jump

BROOKLYN, N. Y., May 28.—(A.P.)—The French fliers, Rossi and Codon, brought their trans-Atlantic plane, "Joseph Le Brix," to a safe landing at Floyd Bennett Field at 1:38 o'clock, Eastern Standard Time today.

Their elapsed time since taking off from Le Bourget Field at Paris was thirty eight and one-half hours.

They dumped gasoline in order to make a landing which messages had said was to require some minor trouble to their engine.

Lieutenants Paul Codos and Maurice Rossi, noted North American fliers, last night on the trans-Atlantic attempt to fly from Paris to New York, but they were headed into one of the most dangerous parts of their 6,000 mile voyage—the fog banks of Newfoundland.

Frequent misadventure, stemming from the weather, set in their plane, the Joseph Le Brix, told of a successful flight over the North Atlantic in excellent weather.

The aircraft, whose crewing to break their own distance flight record, reported at 6:30 P. M., Eastern Standard Time, they were 400 miles east of Cape Race, Newfoundland.

The message, picked up by the S. S. Washington and relayed to the Mackay radio station here, and the fliers were trying to get in touch with the Cape Race wireless station.

The course of the Joseph Le Brix indicated the plane might land in a little south of Newfoundland and avoid some of the hazardous weather, frequently referred to as the graveyard of trans-Atlantic flights.

The plane was in wireless contact several times during the afternoon with the Washington.

"All well on board," read a message from the plane picked up by Radio marine corporation at 5:04 P. M.

By the fliers' own calculations, they expected to reach Newfoundland at 11:00 P. M., but their rapid progress gave rise to the belief they might reach North America somewhat earlier.

Down the coast of New Brunswick, Nova Scotia and New England, the weather was good.

"Perfect weather since departure," the fliers reported in mid-afternoon.

In frequent messages, he had continued on Page Two.

## DURABLE GOODS GROUP RELEASES Second Annual Cracker Day Fete Ended Early Sunday With 3500 Visitors In City

Second annual Cracker Day celebration which began Saturday morning and drew a crowd conservatively estimated at 2500 persons, did not end until 8 o'clock Sunday when the last session of music provided by the 120 bands that participated in the fete were over.

Officers, banquet messages, and other details of the celebration will be continued on Page Three.

## PRESBYTERIANS CHANGE RULING ON RETIREMENTS

Action Postponed On Plan To Reduce Size Of Annual Assembly

HOSPITAL, S. C., May 28.—(A.P.)—The Presbyterian church of the First Presbyterian church in the United States has tonight approved a resolution postponing the annual assembly of the denomination to 1935.

The resolution, which was adopted by a vote of 100 to 50, was the result of a long and heated discussion of the subject of retirement benefits.

The resolution also provides for a reduction in the size of the annual assembly to 1000 members.

## BUSINESS WORLD PESSIMISM OVER STILL GRIPPED GENEVA MEETING BY UNCERTAINTY GROWING DAILY

Feeling Has Been Reflected In Security, Commodity Markets

Disarmament Conference Admittedly In Grave Condition

NEW YORK, May 28.—(A.P.)—A pronounced feeling of uncertainty still pervades the business community even though the level of trade has been reasonably well maintained in recent weeks.

This feeling of uncertainty, the experts point out, has been reflected in the commodity and security markets. Even vague apprehensions should not be trifled with as far as the stock market is concerned.

"Business has never thrived on uncertainty," the experts say.

## World's Fair Opens With Record Crowd

CHICAGO, May 28.—(A.P.)—Facing a record-breaking opening day attendance the Chicago 1934 World's Fair was in full swing yesterday with leaders viewing it as a harbinger of better business days.

Official attendance Saturday was 154,661, exceeding by almost 100,000 the opening day of a Century of Progress last year.

Railroads, airlines, bus companies, lake carriers, hotels and restaurants had given indication it would pop up many lines of commerce as did its 1933 predecessor.

The Herald regrets that because of a typographical error in a news story of last Saturday, the manager of the Valdes Hotel was subjected to good-natured criticism in a story in which it was stated that Father Michael Fox of Jacksonville had sent a telegram of felicitations to H. M. Papworth and F. P. Forster last Thursday.

The telegram was not delivered to Mr. Forster until Saturday because it was held at the Valdes Hotel. The story also said that it was addressed "Frank Forster care Valdes Hotel." This portion of the story should have read "Frank Foster care Valdes Hotel." Because an occasional Valdes guest is F. S. Foster, a clerk believed the telegram to be for him, and it was held for that reason.

## Roosevelt's Low Priced Electrical Appliances Placed On Sale In Tupelo

TUPULO, Miss., May 28.—With the aid of President Roosevelt's "buy American" campaign, the first refrigerator going on sale yesterday, this Southern town center became the focal point of an experiment expected to affect nearly every household in America.

Refrigerators stripped of chrome-plated trim, simplified electric controls, and ultra-efficient electric motors were offered to the residents at prices substantially below those charged elsewhere on credit terms more generous than ever available before.

The electric home and farm authority, subsidiary of the Tennessee valley authority, selected Tupelo for the first sales because it signed the South's initial contract for cheap federal power.

Opening of the display room was a gala event. President Roosevelt congratulated the citizens, through a letter to the mayor. Principal speaker was David E. Lilienthal, one of the three members of the TVA and EHEA boards.

## DRIVER HELD IN ACCIDENT

TALLAHASSEE, May 28.—(A.P.)—Gilbert Jones, negro driver of the car which caused the deaths of Mrs. W. C. Vason, Jr., and three negroes in a highway accident near here last Monday, was under indictment yesterday on charges of manslaughter. Jones' trial is set for Friday. He and another negro occupant of the car he was driving are in a hospital here.

REVISION OF NRA RULING AUTHORIZED

(Continued from page one) (imum hours of labor and, of course, under the law, we cannot give up collective bargaining and the right of the President to cancel or modify codes, orders and agreements.

"I am signing an order today which carries these principles into effect as to some of the so-called service industries.

"To put it simply: No matter where he is located, no member of any such service industry, as shall have previously been designated by the administrator, may fly the blue eagle, unless he is living up to the percent of the members there have child labor, maximum hours, minimum wages and collective bargaining.

"But these practices shall be required as a condition of flying the blue eagle in those designated service industries, only in particular localities in which at least 85 percent of the members there have proposed as a local code of fair trade practice, a schedule of such practices in respect of which they all seek to agree with me to comply with their own proposal."

"The display of the blue eagle by any employer is notice to the people of the United States that he is dealing fairly with his workers in accordance with the letter and spirit of the recovery program."

"The absence of a blue eagle indicates that the employer has omitted or refused to adopt some of these standards and to co-operate with the government and his economic and actual neighbors in trying to bring about a better day."

Recovery Administration aides said last night the Administration was not prepared to announce the industries to come under the new order.

Virtually the only service industry now operating under a national price schedule is the cleaning and dyeing group. An order was expected suspending the price schedule for this industry.

The hotel code once promulgated, has been suspended for protection by the code authority. The restaurant group is operating under a national code based mainly on wage and hour provisions.

The laundry and barber shop groups are operating under codes with fair trade practice provisions.

Florida's SUGAR INDUSTRY Promises WEALTH A TEMPERATE sub-tropical climate, vast areas of rich fertile land, proximity to great population centers and facilities for rail and water shipment are factors that insure the development of a great sugar industry in Florida. Under the proper impetus, Florida is capable of producing all the sugar consumed in the United States. Already the sugar industry in this State... Florida has millions of fertile, available rich land in various sections of the State. We could easily plant 100,000 acres, employ 20,000 workers and produce a \$70,000,000 crop each year. It is not exaggerating to say that the major sugar industry of the world could be established here. The world must be informed of the opportunity to develop our resources we must have population... increased demand for our product... An All Florida advertising program, properly planned and projected through the great publicity medium of the nation, will spotlight Florida before the eyes of the world... ADVANCING PROSPERITY
