

### HANSON TELLS HOW HE HANDLED SEATTLE STRIKE

#### Pioneers Say General Strike Can't Exist If Law, Order Rule

(The Herald Staff Writer, who was in Seattle during the strike, writes for the Herald from Seattle, Wash., July 13.)

By OLE HANSON  
(Special Writer for The Associated Press)

LOS ANGELES, July 13.—If San Francisco wants to see its industries decline and its anxious to increase the prestige of its rival California city, Los Angeles, all it has to do is to allow agitators and communists to run its affairs.

No general strike has a chance to reach first-class law and order is maintained.

A general strike began in Seattle while I was mayor. It started Feb. 6, 1919, and ended in complete defeat for the strikers in a few days. Seattle was a staunch union town. When the shipyard called many thousands of its itinerant workers, including draft dodgers and a large number of radical forgers, the Central Labor Council, which up to that time had played the game fairly and squarely, changed first to a pink and then to a deep red.

The American flag was torn down from the Labor Temple, revolutionary speeches were made, anti-American resolutions were passed, and a conspiracy was hatched whereby under the guise of the shipyard workers' grievance, a general strike was called in the belief trouble would spread and overthrow eventually our government.

Votes of the workers were taken at night after the home owners had gone home, and finally a general strike was declared.

As a member of the Boiler Makers' Union, I worked in the shipyard from 4 P. M. until 12 P. M. after my day's work as mayor was done. I had assisted in passing in Washington nearly every labor law on the statute books for 20 years, but when the general strike was called, punishing 800,000 people innocent of wrongdoing, and labor leaders printed permission placards, stating that unless persons obtained such cards they could not buy bread or even bury their dead, I saw at once it was a revolutionary attempt and nothing else.

Sixty-five thousand men walked out; elevators were left at the floor when the hour struck, street cars stopped, restaurants closed, and the strike committee went into a prolonged session which I attended. They wanted to turn off the water and electricity and tie everything up tight.

I told them to go to hell, that I

### 15 OUTSTANDING FINDS MADE AT STATES STATION

#### Advance Copy Of 1933 Agriculture Report Gives Plant Credit

GAINESVILLE, July 13.—With attention over the country turned to the Florida Experiment Station for its recent discovery of the cause of leukemia in chickens, Dr. Wilmon Newell, director of the station, has received an advance copy of last year's annual report of J. T. Jardine, chief of agricultural experiment stations over the country, and it contained fifteen mentions of outstanding discoveries made by the Florida station during the fiscal year.

This report shows an unusual contribution toward solving the state and nation's farm problems, considering the small number of research workers in Florida compared with other states.

Among Jardine's mentions were discoveries that touched citrus growers, truckers, live stockmen, and about every other type of farmers in the state. He gave liberal space to the discovery of a method for storing orange juice in milk bottles for a week or longer, making regular delivery feasible. He told how research with grasses has allowed Florida's cattlemen to pasture from two to ten times as many cattle per acre.

Solving of salt sick, the state's most costly cattle trouble, received no little praise. An earlier study of citrus freight rates, Jardine said, "was believed to have played an important part in reductions that saved Florida growers a million dollars the first six months of 1932 and large amounts since."

Money saved for Florida was again shown in Jardine's comment about the station's working out of a spray for a deadly tomato disease in the lower peninsula. Sprayed tomatoes, he said, have given 50 percent better yields and 40 percent more of the shipped tomatoes have reached market without rotting. The station also showed how poor grading and packing of vegetables is costing the state millions, and putting it at a disadvantage with other sections.

In finding the cause of stiffs orweeney in cattle the station has solved another mineral deficiency in feeds, the report showed. It also made mention of finding a citrus fruit wrapper that checks loss of juice, of citrus and tobacco insect control experiments, of pecan fertilizers, of a study of the diet and health of Florida families, and of other vital findings made during the year.

# Ten Million People HELPED BUILD THIS TIRE!

THE NEW **Firestone** CENTURY PROGRESS TIRE

## THE TIRE SENSATION OF '34 Sells on Sight!

TO SEE it is to buy it! That's the way extra value stands out in the new Firestone Century Progress Tire. We found out what car owners wanted most in a tire—then we gave it to them. Out of more than ten million visitors to the Firestone Factory at the World's Fair last year, we obtained this opinion: "Give us Blower Protection, Non-Skid Safety, and Long Wear, at a Moderate Price."

So we built the greatest tire ever made by sell at these low prices. Then the wave of buying started—car owners from Coast to Coast bought—not just one at a time—but complete sets!

Go to the Firestone Service Dealer or Service Station in your community TODAY! See the new Firestone Century Progress Tire—just look at the broad, heavy shoulder, massive flat tread, deep-cut non-skid and non-slippery cords. Did you ever see so much tire for so little money? No wonder it's the Tire Sensation of '34 and Sells on Sight! Why not equip your car with a standard non-skid tire today? Why not equip your car with a standard non-skid tire today? Why not equip your car with a standard non-skid tire today?

## DARING RAID ON ARMY POST IS SUCCESS

### Unidentified Civilian Cows Several Men On Governor's Isle, Escapes With Friend

NEW YORK, July 20.—(AP.)—Bolder cowing army soldiers, an unidentified civilian "attacked" the Governor's island post of the United States Army and executed a daring delivery of an Army prisoner today.

The prisoner was Melvin Blanton of Camden, Ohio, an inmate of the disciplinary barracks.

Blanton, who had twice escaped previously from Fort Thomas in Kentucky and once from Fort Benjamin Harrison in Indiana, was working with other prisoners at the southernmost end of the island.

A sentry, Stephen Gressgorok, stood guard armed with an automatic shotgun when a civilian approached.

He drew a pistol and told the guard "Drop that gun or you'll get hurt."

The sentry dropped the gun and the man picked it up.

Just then an Army truck with two soldiers and a chauffeur arrived.

The bold invader forced them to get off the truck and stand with the sentry and the two other prisoners.

Next a passenger automobile came along with an island detachment of the Civilian Corps. Corps members took their place in the line.

Warning the group not to pursue Blanton and his deliverer ran to a road and left. As the sentry started to approach, the chauffeur turned to the Brooklyn side of the bay.

Sizzling Heat Wave Brings Death To 50 All Over Country

(By The Associated Press) Sizzling midsummer heat left death and devastation today from Texas to New York and Georgia to Nebraska.

The death list numbered more than half a hundred.

More crops are wilted. Some sections had acute water shortages.

Kansas City where the mercury shot yesterday to 108 the highest ever registered there, reported two deaths.

Temperatures topped the hundred degree mark at numerous other spots over the country.

Normal, Oklahoma was the hottest with 118. St. Louis reported 116. St. Joseph, Mo., 115. Oklahoma City, 114. Dallas, 113. Jefferson City, Mo., 112. Alhambra, 111. Houston, 110. New York three, and numerous cities, one each.

Nebraska listed ten deaths in the last few days. No immediate relief was in sight in the weatherman's forecast for the torrid week.

## Al Smith Returns To Give Advice To James Dooling, Tammany Hall's Chieftain

NEW YORK, July 20.—Al Smith, "Happy Warrior" of other days, made his peace yesterday at the Tammany wigwam.

The former governor, estranged from Tammany Hall in the turbulent reign of John F. Curry, returned to give his advice and counsel to the new leader, youthful but cautious James L. Dooling.

The action was a surprise to the Tammany crowd. Dooling's return to Tammany means you'll once more be active and give your counsel in shaping its policies?

"Yes," he replied. "I suppose that's right."

"I am anxious to help the young man all I can. I like him and I think he's going to do a fine job."

The hearing showdown in the (Continued On Page Two)

## AVIATION BOARD OPPOSES IDEA OF UNIFIED FORCE

Committee Holds That It Would Be Folly To Make Any Change

WASHINGTON, July 20.—Creation of a unified air force—one of the most hotly-contested questions in American aeronautical policy—is opposed in the report just made to Secretary Dorn by the special aviation committee headed by Newton D. Baker.

The committee, headed by the war-time secretary of war, based its recommendation on the contention that its three-months' study of American aviation problems showed conclusively the United States was second to no other nation in aeronautics.

The committee's findings are that since the United States military and naval aviation have developed by their present status through separate Army and Navy air corps, it would be folly to make a radical change in the organization.

The report, which contains comprehensive conclusions, data and opinions secured through a study of aeronautical development in other nations as well as in the United States, and expert testimony from 118 civilian and military aeronautical authorities, will be made public on Monday.

The printed report of 75 pages was delivered to Acting Secretary of War Woodring Thursday by the government printing office and arrangements made for its general distribution next week.

In addition to opposing the creation of a unified air force, the report said the Army Air Corps lacked sufficient fighting planes for the highest war-time efficiency, and recommended the immediate construction of more combat and attack planes. The Army Air Corps has between 1,300 and 1,400 serviceable planes.

The Baker committee found the (Continued on Page Six)

## Sheriff McClelland Resolves Never To "Work" Without His Gun Again

Sheriff J. P. McClelland did something this morning which he swears he'll never do again.

He went unarmed in search of a man who later was identified as the man who held up and shot Little Evans, negro, at the end of West 20th Street in Plantation at about 9:30 o'clock this morning.

When he made the situation one which Sheriff McClelland claims he'll avoid from now on is that he did not "work" the negro in question until fully half an hour after he was arrested, and when he did "work" him he found a pistol, a blood-stained knife, and \$125 said to have been taken from the man.

The negro, Charlie Robinson, is in the County Jail charged with highway robbery and assault with intent to commit murder.

## CITY, COUNTY GROWERS ARE BLAMED FOR BOND RETURNS TO OLD LEVELS

### Many Issues Undergo Impressive Price Recovery In State During Past Weeks

NEW YORK, July 20.—(AP)—Bonds of towns and counties in the State of Florida have undergone an impressive price recovery in the last six months, extending the improvement which started a year ago.

Many issues now in default have enjoyed steep price gains, amounting in some cases to as much as 100 percent. Higher priced bonds, on which service has been maintained, have moved up sharply in the direction of parity, and a few are quoted at premiums.

Wall Street quarters attribute this wide recovery to several factors. One is the excellent tourist season last winter which aided materially in restoring funds to the depleted treasuries of many of the state's governing subdivisions.

Of prime importance to many municipalities was the passage of a bill permitting them to purchase their own obligations in the open market. This enabled towns and counties to gather up their own bonds at extremely low prices and apply them to retirement of their indebtedness, in line with the universal goal of reducing fixed charges.

Furthermore, some of the political units have passed local legislation allowing taxpayers to meet their levies through presentation of bonds. In a number of cases, the bonds are accepted at par value; in others, at prices far above market quotations.

Wall Street houses interested in Florida obligations say that such of the business in defaulted issues comes from this source. Sometimes, it is said, enterprising Florida inhabitants conduct a flourishing trade in buying up tax bills from individuals and paying them off by the batch with \$1,000 bonds bought in Wall Street at levels far below par.

Still another factor aiding Florida issues has been the action of a number of municipalities, notably Miami and St. Petersburg, in undertaking plans for clearing their defaults. Interest burdens have been lightened without too great an imposition on bondholders, interested quarters point out.

In the background of this price recovery has been, of course, the general improvement this year in all bond values of any merit. Banks have been forced more and more to use their idle funds in the bond market. This has had a specially salutary effect on state and municipal issues, in view of the paucity of new corporate financing.

A few representative quotations will serve to illustrate the extent of the general price improvement in Florida issues. Quotations are approximate bid prices in the over-the-counter market of the past few days. Offered prices are generally 2 to 3 points higher. Bonds in default are quoted "flat," that is, without interest, while other prices include interest.

The town of Bradenton's obligations are quoted about 26 bid (flat), compared with 25 early in January and 20 at the end of July, 1933. Charlotte county issues have risen to 31 (flat) from 25 in January and 16 a year ago. Fort Lauderdale bonds have recovered to 15 (flat) from 9 six months ago, Miami to 50 (flat) from 29, St. Petersburg to 40 (flat) from 27, Sarasota to 16 (flat) from 6 1/2, and Key West to 13 (flat) from 7.

Among higher-priced issues, Palm Beach has gone to 98 bid (with interest) from 60 in January, Tampa to 85 from 50, Orange county to 23 from 10, Orlando to 28 from 10, Duval county to 102 from 84 and Miami Beach to 96 1/2 from 58.

RESCUED THREE TIMES

BELMONT, Mass., July 20.—Neither the first, second, or third time failed for Mrs. Isabel Keough Perry Haug, a neighbor, rescued her three in a fire at her home. She ran back into the dwelling twice to get money and valuables.

SAVED BY WIRES

SOMERVILLE, Mass., July 20.—Alexander St. Cyr, a painter, became dizzy and tumbled from a roof-top. Electric wires strung a few feet below the roof level caught him, keeping by a son, he is expected to survive from burns.

## Supreme Court Instructs Counties To Decide Upon Use Of Thier Bond Funds

TALLAHASSEE, Fla., July 20.—(AP)—Florida counties have been told by the supreme court that they must make up their minds and keep them that way—on what disposition is to be made of bond funds accruing to their credit with the state board of administration.

If a county wants to buy bonds with the money, that's all right, the court said, so long as the county specifically says so and then sticks to it. The same is true if the county wants to pay interest and principal on bonds with the money in lieu of raising the necessary funds with ad valorem tax levies.

But, said the court, there can be no such thing as adopting a budget providing for payment of interest and principal, and then forgetting about this and directing the board of administration to buy bonds instead.

The court laid down its instructions in a case brought against Pinellas county and the state board of administration by the Florida National Bank at St. Petersburg. The bank won a peremptory writ of mandamus requiring the state board to use funds credited to Pinellas county in payment of bond interest and principal.

In this case, said the court, this situation prevailed: Pinellas county put into its road and bridge district bonds for bond interest and principal the gasoline tax funds accruing to its credit with the state board of administration. The gasoline tax funds were sufficient to pay the interest and principal requirements, and there was no ad valorem tax levy made for this purpose.

Later, however, when the Florida (Continued On Page Six)

## MRS. MORSE SENT TO DAYTONA TO DIRECT RELIEF

Swope Transfers Mrs. Saunders Of DeLand To Sanford Office

Regional Relief Administrator O. P. Swope of Orlando announced from Jacksonville headquarters today that he had appointed Mrs. Helen T. Morse of Sanford as director of relief for Volusia county, succeeding Mrs. Emma Cochran. The change is effective as of next Monday.

Mrs. Cochran, target for considerable criticism which also is directed at many other FERA officials in Volusia county, will take charge of the relief division in Bradford county while the director (Mrs. Morse) on a vacation, Mr. Swope announced.

Mrs. Morse is to be succeeded by Mrs. Madeline Saunders of DeLand who will arrive here Monday to assume her new charge.

While no reason was given for the changes authorized by Mr. Swope, it was learned at the Court House that Mr. Swope may make numerous changes of this kind in an effort to alleviate conditions in several adjoining counties where all officials are under fire.

While we have every sympathy with the problems of men who are not getting enough money to support their families," he was quoted as saying, "they are getting all that we get from the state government to give. We have been harassed by the local strike situation, and so impeded in the administration of our work that we are considering whether it might serve all interests best to remove the regional officers to another location."

A similar situation is said to prevail at Daytona Beach, and Court House attaches say that (Continued on Page Three)

## Mayor Williams Thanks Sanford, Oviedo Persons Who Donated Cash For Pool

Expressing appreciation to Sanford and Oviedo residents whose contributions to the fund to build a swimming pool at Oviedo had netted \$700 in two days, Mayor Wm. B. Williams of Oviedo stated this morning that "This splendid co-operation assures us of the project at an early date."

Nearly \$200 was subscribed by local residents, Mayor Williams revealed, while the remainder was raised in cash donations or promises of materials from Oviedoans.

The committee of 12, each delegated to raise \$100, expects to contribute its drive until all of the funds are raised. The workers were in Oviedo and Winter Park today where they expected the same kind of co-operation from merchants and professional persons.

Mayor Williams reminded local persons that Oviedo will get a swimming pool at Sweetwater Park if its citizens are able to raise \$1800 to buy the materials needed in its construction. The FERA has virtually promised to supply the labor, he said.

## FRISCO BACK TO NORMAL AS STRIKE ENDS

### Seattle Is Scene Of Clash Between Police And Pickets; Portland Disturbed

(By The Associated Press) San Francisco regained its normal routine today following the termination of the general strike, but in Seattle police and pickets clashed.

Shooting long range tear gas guns, police led by Mayor Charles Smith drove long shore pickets from two piers. Several persons were injured by the gas which proved somewhat of a boomerang. Police did not wear gas masks.

Ten miles out of Portland National Guardsmen are camped prepared to advance upon the city with bowiters and machine guns if pickets interfere with shipping plans to open the port.

Labor has threatened a general strike if troops invade Portland's waterfront.

The mass strike of San Francisco union labor was called off yesterday as its very structure was being smashed by public opinion.

The labor steering committee which engineered the mass walk-out voted 191 to 174 recommending the immediate return to work of all unions that went on strike in sympathy with longshoremen and marine workers.

As soon as the word of the committee's action was flashed, the truck back to work, out of almost the proportions of a stampede of the metropolitan area of 1,400,000 persons.

Even before the strike was called off, both union and non-union men had been returning to work.

Industry that had been paralyzed for a time for the mass walk-out last Monday of nearly 100,000 workers was revolting against the degrees set up by the strike organization for the emergency conduct of its affairs.

Statements from the persons who figured largely in the general strike follow:

General Hugh Johnson, NRA administrator, spokesman for the national longshoremen's board said: "Since the general strike has been called off and the threat of martial law dispelled, I will use all my influence to bring this controversy to immediate arbitration."

Mayor Rossi of San Francisco congratulated the real leaders of organized labor on their decision. "We will tolerate no tyranny either of communism or any other interference with constitutionally established authority. The crushing of this general strike must not be countenanced or we will tolerate any attempt to destroy union labor or invade its rights."

Ralph Malin, publicly chairman of the international longshoremen's association: "We can take it. We are still on strike and will carry on. We would have been a lot better off if the general strike never had been called. Now we are a lot worse off than ever. But we will prove that we can take it."

Harry Bridges, leftist leader of the longshoremen: "We are not going back to work. We are carrying on our own fight. The joint marine strike committee met this morning. There would have been no sympathy for this meeting if we were returning to work."

**The "Yin-Yang" Theory**

Countless men throughout the world are racking their brains to find a way to solve the vexing problems which are and have been plaguing the universe. The multitudinous difficulties which man seems to be struggling against run the whole gamut of unfortunate dilemmas.

But all of these difficult issues, as momentous as they might appear, are as nothing compared to the perennial problem of women's styles. Here is the one big complexity which holds the glued attention of at least half of the world's population. Nothing is more important, nothing quite so essential to universal contentment as the solution of the big question: "What will mid-lady wear this year?"

**Trials And Tribulations**

Everybody knows the story about the man, the boy, and the donkey. He was damned if he did, and he was damned if he didn't. That is the way it is with newspaper editing.

**SANFORD TWENTY YEARS AGO**

Henry Patsky, while on his monthly rounds to Daytona Beach last Sunday, called with a dog near Deland and was thrown by a horse from the street.

**TRAVEL NOTES**

The pleasure of a summer of motoring implies that there are good roads, the last word in automobile construction, and even more than perfect companionship and beautiful scenery.

**THE QUALITY OF SINCERITY**

Rudolf Valentino died as a young man at the very height of popularity. He had the advantage of youth, a fine figure, a kind of fame, grace and romance. It is hard to find a young man of today who has had any of these things.

**GROWERS ARE BLAME FOR CITRUS ILLS**

Change and the clearing hours from doing anything for citrus growers are in control of it, Mr. Martin continued. "In this organization, we will have the other hand of the 'Yin-Yang' should wear a dress 'dramatic strength, a dress having solid lines, striking or dark colors and heavy textures'."

# WACHADO TELLS HOW HE MADE HIS ESCAPE

**Former President Fled To San Domingo In 36 Foot Boat**

MIAMI, Fla., July 23.—(AP)—How former President Gerardo Machado of Cuba fled from this country to San Domingo under the alias of "Colon" to escape arrest and extradition to Havana was related today by the Associated Press Monday night by Captain A. W. Scott of the 36 foot auxiliary motor launch.

Scott, exhibiting an army rifle and an automatic pistol he said had been given him by the former president (Scott described the means of escape under full power from the Delaware breakwater to the northern coast of the Dominican republic.

"The boat was built from Looeas, Bill on Cape Henlopen, on May 18, 1924, and was used by Machado and ten other men in the escape from Cuba in a small boat on the opposite side of the Caribbean Island from Santo Domingo city.

Two other Cubans who, Scott said, identified themselves as Fred Villapol, secretary to Machado, and a pilot named Andre, also made the trip, leaving the vessel with the former Cuban president.

Scott said Machado promised to make me independently rich for his transportation to Santo Domingo, but that after landing the party at Monte Cristi he never saw Machado again. Villapol, however, returned to the United States with the vessel.

Upon reaching Monte Cristi, Scott said a Dominican coast guard boat intercepted the vessel and took the Machado party to Manzanillo bay, from which they departed with friends who were located strategically in the mountains.

The boat captain said this vessel was captured by a revenue cutter of the United States and the crew and passengers were taken to a fishing pier. When they were taken to the pier, Scott said he learned that "Colon" was Gerardo Machado, and that "Andre" was Villapol.

# 3 BILLIONS PAID IN DEATH CLAIMS IN U. S., CANADA

**Report For 1935 Shows Number Of Rich Beneficiaries Of Insurance**

CHICAGO, July 23.—(AP)—At least three and a half billion dollars were paid to policy holders and beneficiaries in 1935 by life insurance companies in the United States and Canada, it was disclosed yesterday.

Deaths claims of more than \$1,500,000 each were paid on the lives of three American business men, The National Underwriter, weekly insurance paper, reported. Their estates were the largest individual beneficiaries of the \$5,882,248.77 paid out by the life insurance companies.

Of the insurance money death claims, missed-payments, annuities and additional accidental death benefits totaled \$1,411,187,914. This was slightly under the \$1,469,831,238 for 1932. Payments for premium savings and cash surrender values amounted to \$5,064,036,578.

The largest individual claim in 1935 was on the life of John G. Bullock, Los Angeles merchant, who left \$1,000,000 insurance. The second largest amount, \$1,000,000 was left by Joseph W. Bettendorf, railway car manufacturer of Davenport, Iowa.

John D. Ryan, New York copper magnate and head of the War Department's Aircraft Division during the World War, left insurance of \$1,810,000.

Nine men left claims of from \$500,000 to \$1,000,000. In this division were Harry E. Fense, Dayton, Ohio, and Minneapolis capitalist, \$941,007; George Lytton, Chicago, merchant, \$918,000; George W. aluminum manufacturer and Republican National committee man of Manitowoc, Wis., \$819,000; A. M. Chishelm, Duluth, iron ore man, \$815,000; Alvin C. Huber, Muncie, Ind., physician, \$178,838; Herbert N. Struan, New York merchant, \$88,000; John P. Kolla, Holland Mich., \$85,000; and Harry McLaughlin, Danbury, Conn., \$60,000.

Texas Guinan, New York night club operator, had the outstanding woman policy holder, leaving \$280,000. Ring Lardner, newspaper man and author, left the same amount.

Claims ranging from \$250,000 to \$500,000 were left by 31 persons. There were 107 from \$100,000 to \$250,000 and 186 from \$50,000 to \$100,000.

New York received \$641,000, 000 of the life payments, more than any other state. It was an increase of 2 percent over the 1932 figure. Pennsylvania was second with \$381,000,000, Illinois in third place with \$365,500,000, was followed by Ohio with \$123,000,000; California, \$112,000,000; Massachusetts, \$108,400,000; New Jersey, \$118,000,000; Michigan, \$118,000,000; Missouri, \$111,100,000; and Indiana, \$81,400,000.

# Pulp, Paper Makers Protest Over Plant

WASHINGTON, July 23.—(AP)—Pulp and paper manufacturers joined in a protest yesterday against expansion of the pulp industry in the South through a government PWA grant.

The objections rose at a public hearing on an application for \$5,500,000 to build a pulp plant at Fernandina, Fla.

Any increase in the installed pulp production capacity, opponents told the PWA board of review, would tend to energize competition and demoralize the markets to the detriment of the whole industry.

David G. Coyle, presiding at the hearing, observed that "regardless of what the federal government does," the pulp industry was making headway.

# Longer Mileage On Tires Is Explained By Sanford Dealer

Triple Tempered Rubber, the longest lasting tire ever built, has again lengthened tire mileage. This announcement was made today by E. S. Pope, local U. S. tire dealer.

In the many features which distinguish the 1934 U. S. Royal as the best tire we have ever built, the outstanding one, undoubtedly, is the improved Tempered Rubber tread. Cooler running and tougher than the original Tempered Rubber, it assures many extra thousand miles of trouble-free travel.

In 1932 field engineers began reporting that something was happening to all tire mileage. It was steadily decreasing due to higher speeds, greater power, quicker starting and quicker stopping.

W. Temple, research engineer of the U. S. tire development division

INFESTATION OF CREW WORMS AID INCREASING

Cows, Cattle in North Florida Counties Are Badly Infested

GAINESVILLE, Fla., July 20.—Heavy worm infestation of cattle and hogs in northern Florida has increased about 400 percent during the last 30 days, it was found in a survey made during the last week by the Agricultural Extension Service.

In these counties there are about 100,000 head of cattle, and the cattlemen said that about 5 percent of those over one year old were infested.

The owners say that of the infested cases about 10 percent of the hogs die, and about five percent of the cattle. Considerable infestation was found among other types of livestock, and a number of deaths were reported.

The first infestation was noticed in most of the counties last August, but in Madison county an infestation was reported on Mar. 10, 1933.

Sheriff McClelland Resolves Never To Be Without Gun

(Continued From Page One) "Although I had no reason to believe that he was the man I was looking for, but when I talked with him and told him that I thought he was the man I wanted, he pulled a pistol out of my grip and said that he hadn't done anything. I told him that I was the sheriff, and all the time I was backing him up as my own man. I got my pistol. When I did, he was quiet down, got in the car, and we went to the hospital. I never laid my eyes on him.

Oregon Governor Calls Out National Guards

PORTLAND, Ore., July 20.—(AP)—Gov. Julius L. Meier yesterday ordered the Oregon National Guard to mobilize to protect life and property in event of strike or riot.

Identity of Fatal To Man

July 20.—The identity of the man who was killed in the explosion at the plant of the American Cyanamid Co. in Sanford, Fla., was announced today by the coroner.

AWARDED SCHOLARSHIP

HAZEL GOZA

MARGARET L. DODD

TALLAHASSEE, July 19.—Miss Hazel Goza, of Clearwater, and Miss Margaret L. Dodd, of Keystone Heights, members of the 1934-35 senior class at Florida State College for Women here, have just been awarded the Gilchrist scholarships for the coming term.

The Gilchrist scholarships, which are awarded every year to two juniors or seniors who have shown outstanding ability and achievement throughout their college years, were provided for in the will of the late ex-Governor Albert W. Gilchrist and are the only gift scholarships under college supervision.

For the past three years Miss Goza and Miss Dodd have made scholastic averages which were among the highest in the college, and in addition have participated in a number of the college extra-curricula activities.

Florida Priests Back Drive For Clean Films

### MURDER WAVE IS SAID SWEEPING OVER GERMANY

#### Nazi Opponent Gives Graphic Account Of Present Conditions

NEW YORK, July 20.—(AP)—Johannes Steel, former German official who fled from the reich because of his opposition to the Nazi program, said in a copyright story in the New York Post yesterday that "a quiet wave of murder is sweeping the concentration camps of Germany."

The writer said that inmates of the camps "have, according to a secret order of General Goering (premier of Prussia), been cut off completely from the outside world."

"Their relatives," writes Steel, "have been without news from these prisoners for three weeks. It seems that most of the prisoners place which are beyond human imagination."

"The toll of deaths has been put by absolutely reliable sources at no less than 2000 men and women."

The writer said, "a life and death race between communism and conservatism has begun," and added "The odds are 6 to 4 for the conservative solution."

Steel says: "The army, during the last week, has been able to consolidate its position and the military dictatorship is complete."

(Vice Chancellor Franz) von Papen at this moment is the man who seems everything. He has come out on top."

Steel says Hitler "is the absolute master of the reichswahr (army) which was once every move he makes and it is waiting for the moment when Hitler's prestige has evaporated to such an extent that he can be put away easily."

### Supreme Court Asks Counties To Decide Use Of Bond Funds

(continued from page one)

National Bank at St. Petersburg presented its bond coupons for payment, the board of administration contended it could not pay them. It claimed Pinellas county had adopted a later resolution directing the gasoline tax funds should be used for purchase of outstanding bonds at the current price, thereby withdrawing the funds from payment of interest and principal.

The supreme court said, however, that once budgeted in lieu of ad valorem taxation, the gasoline tax funds could not then be switched to some other use, without making suitable and adequate provision for payment of the items to which the gasoline tax funds originally were pledged.

Then, explaining the Kanner bill which set up the gasoline tax funds, the supreme court said it said:

"The Kanner bill does not permit the state board of administration to use for the purchase of bonds, gasoline moneys which are already budgeted and appropriated to an interest or sinking fund account in order to provide for road and bridge indebtedness of a county or town or road and bridge district of the state."

"On the contrary, the purpose of the act is to permit the state board of administration, by and with the approval of the county commissioners of an affected county, to use any or all unappropriated moneys derived from the gasoline tax, as credited to the account of the county or road and bridge district for the purpose of purchasing a price below the par value thereof, and at the lowest bid offered, any bond or bonds of such road district, or road and bridge district, or county road bond issue to which the moneys have been credited in the hands of the state

board of administration. This they may do to the extent that such gasoline moneys have not been appropriated as a substitute for the levy of ordinary debt service taxes to take care of the interest and sinking fund requirements of the outstanding bonds in the county."

"The Kanner bill merely gives the county commissioners the option of making their ordinary ad valorem levies for bond requirements in 'due course' if they so choose, in order to become entitled by resolution addressed to the state board of administration to direct that the county's share of apportioned gasoline revenues be used for the purpose of purchasing depreciated bonds so as to reduce the county and district debt, leaving the ordinary debt requirements to be provided for from time to time by the usual ad valorem tax levies for debt service as the law requires."

The board of administration said it did not know how many counties might be effected by the court's decision. Seventeen counties now are operating under terms of the Kanner bill, which was passed in the 1933 session of the Legislature.

Florida counties receive revenue from three cents of the gasoline tax money collected by the state. It is apportioned on the basis of one cent for population, one cent for area, and one cent for indebtedness incurred in construction of roads later made a part of the state highway system. A number of smaller counties receive from the fund more than they pay into it, while the larger counties receive less.

### Stunt Man Eats Razor Blade, Drinking Glass

BRIDGEVILLE, Pa., July 20.—Jack Kraus, who performs stunts on the side, walked into a local store and purchased some of the boys' and girls' toys which he could do and what he couldn't do.

So he sat down and showed "em. One of the dooblers was asked to buy two razor blades. Kraus placed them between his teeth, showed them into bits and swallowed them.

For dessert, Kraus picked up a drinking glass, bit off pieces, masticated and swallowed until only the bottom and a small portion of the sides remained.

**LITTLE AMERICA AVIATION and EXPLORATION CLUB**  
With Byrd at the South Pole  
by C. H. Mackay, President

Moving our radio equipment across the ice to Little America. Fourth from left is Charles V. J. Murphy, our radio and news writer.

**LITTLE AMERICA, ANTARCTIC**  
CA. July 3 (via Mackay Radio)—Big things done here this week. We had the tunnels under the snow where we keep the dogs. Last week we had 119 dogs. Now we have 121. Another batch of puppies arrived a couple of days ago. Only four this time. A few weeks ago we found seven canine newcomers in Log town and they are now lively little balls of fur, fat and mischief, always getting under foot in the dark tunnels.

My muscles are aching and so is every joint in my body. Reason? Skiing! It is pronounced "sheeing." Some of the weather lately has allowed us to go out skiing near the houses after our day's work is over, for much needed exercise and variety. I'm not so hot as a skier. Last night I went with a big crowd of them and today most of us can ski down so frequently and so violently on the hard snow last night. In the party were Francis Dane, of Lexington, Mass.; Edward L. Moody, of Danvers, N. H.; and Rich and N. Russell, of Boston, who are dog drivers, are pretty good on skis. Harold Lane, of Boston; Stuart D. Payne, of Durham; N. H.; Carl Peterson, of Merrick Long Island, N. Y.; and Quinn A. Blackburn, of Seattle, Wash., who are in my class and are eating off of shovels today, and Finn Honne, of Pittsburgh, and Albert M. Hill, of London, Norway. These are two of our experts and some of the things they can do on skis are wonderful. As yet, all but one member of the club has received a number of medals and trophies in recognition of their work in the field of my interest. Hold on!

Orlando's Idle Want O.P. Swope Fired From Job

(Continued from page one)

Mr. Tolson made this quotation in explaining that several cases of intimidation of strikers had been reported to the committee. The strikers said they were told that they could not get any emergency relief food unless they returned to work.

Mrs. V. F. McCall read a long list of names of heads of families that had been given scarcely enough food for one person at the Special Service office on South Hughey Street. She gave the names of persons she had questioned as they left service office and listed what they were given.

She said that milk had been refused for the baby of Mrs. H. D. Cleveland and for the baby of Mrs. C. D. Jones and that Mattie Singleton, who is said to have eight dependents in her family, was refused aid. Help was refused to G. R. Gentry because he is now on a strike protesting the local management.

Severe criticism was made against these men that are still working for the FERA and the city workers present were urged by speakers to visit every FERA project and to ask the workers to quit.

George B. Jackson, vice-president of the Central Labor Council, urged the men to stick to their jobs for the good of all. He said that there should positively be no violence but to tenaciously seek the objective of a fair wage and high job position.

A. S. Middleton, also from the Central Labor Council, spoke on cooperation and not losing faith in the long hard job.

D. C. Jones, of the association executive committee, urged all to sign the petition for the ousting of Swope and Shearer.

Joe Warren was elected to membership on the executive committee to succeed Jim Bird, who has moved to New York.

The association will meet again Sunday afternoon at 3 o'clock in the city auditorium.

### Aviation Board Opposes Idea Of Unified Force

(Continued From Page One)

rate of training, observation, transport and other non-fighting types was so high as to drastically reduce the air corps' fighting efficiency.

At the present time it is estimated that, despite the United States has more planes, this country ranked below Japan in fighting planes and on an approximate equality with Great Britain.

The world air powers are estimated to rank: Russia and France, 3,000 planes each; United States (including Army and Navy), 2,800; Japan, 2,500; and Great Britain, 1,400. The announcement in London Thursday that Great Britain would construct 41 additional squadrons of approximately 500 planes would bring that nation ahead of the United States in air fighting forces.

The Baker committee report presents a comprehensive survey of the organization, personnel, training and procurement program of the Army Air Corps and recommends several changes in administration.

It deals extensively with the Army's transportation of the air mails during the recent emergency caused by cancellation of commercial air mail contracts.

The commendation against creation of a unified air force, along the same general line as Great Britain's Royal Air Force, will bring up anew one of the most controversial issues in American aviation.

The Army general staff has strenuously opposed such a move as has Secretary Dern.

will be paid at the City Hall at 2:30 P. M.

All white men living in Sanford will be paid at the City Hall at 3:00 P. M.

All colored women and men will be paid at the Fire Station at 3:45 P. M.

### TO PAINT 'EM GREEN

TARPON SPRINGS, July 20.—Tarpon Springs is going to have "green benches." The city commissioners have voted to repaint the 85 benches in and about the city park green instead of aluminum. In the past years the benches have been battle-ship gray. Residents complained when the aluminum paint was applied and now the commissioners have voted for green.

### LEGAL NOTICE

NOTICE OF APPLICATION FOR TAX DEED UNDER SECTION 216 OF THE CONSTITUTION AND STATUTES OF THE STATE OF FLORIDA.

Notice is hereby given that FRANCIS INGRAM, purchaser of Tax Certificate No. 182, dated the 1st day of August, A. D. 1931, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate shall be deemed according to law tax deed will issue thereon on the 15th day of August, A. D. 1934.

Witness my official signature and seal this 23rd day of July, A. D. 1934.

## COURT REFUSES BILL TO UNITE COUNTY POSTS

### Supreme Court Rules That It Cannot Be Handed Voters In November Election

TALLAHASSEE, July 21.—(AP)—The Supreme Court today affirmed a circuit court injunction restraining the publication of a proposed constitutional amendment for the consolidation of the county offices of tax assessor and collector.

The court said the resolution submitting the amendment had not passed the Legislature properly.

Robert Pleuss, assistant attorney-general who represented the state in seeking a reversal of the lower court decision, said there had been no decision as to whether a rehearing would be sought in the Supreme Court.

The court's opinion was unanimous. It means the proposed amendment cannot be voted upon by the people in November because the Constitution requires publication in a newspaper of each county before the amendment is printed on the general election ballot.

## Farley Called Down For Going Hatless

WILLIAMS, Ariz., July 21.—(AP)—While Postmaster James A. Farley was shaking hands with members of a crowd, a motherly old lay approached, shaking a reproving finger: "Now Mr. Farley, I saw you coming in without a hat on. You're bald headed, just like my boy Elmer, and whenever he goes out in the sun without a hat, he gets the most terrible headaches. You'll promise me you won't run around in the hot Arizona sun without a hat, won't you?" Farley promised.

## Farmer's Whiskers Foretell Weather

HANCOCK, N. H., July 21.—(AP)—Ephraim Weston's whiskers are so doggone dry they're curling up—a sure sign of a prolonged dry spell. Ephraim is Hancock's weather prophet and the townfolk say that his predictions are just about 99 percent correct. He bases his weather forecasts on his full growth of alfalfa beard, which dries and curls up prior to and during spells of drought, and dampens up a bit and straightens out during the rainy seasons.

## Swope Will Not Be Removed From Job

JACKSONVILLE, July 21.—(AP)—Jerome A. Connor, assistant Florida Emergency Relief administrator, said yesterday "the Administration had complete confidence" in O. P. Swope, administrator of the Orlando region, and would keep him on the post. His statement was made in a letter to Frank L. Ferguson, of Orlando, who wrote that he represented FERA clients of Orange county in demanding the dismissal of Swope and Robert M. Shear-

## SCHOOL BUDGET FOR 1934-35 SET AT \$19,415,032

### State Board Figures Revenues Will Be Only \$13,400 More

TALLAHASSEE, July 21.—The state department of education yesterday announced Florida's public school budget for 1934-35 is \$19,415,032, with estimated revenues of \$19,428,432. The budget covers next term's public school operations in every county in the state except DeSoto, which has not yet submitted its report, and will be considered at the next meeting of the board.

Estimated revenues include \$2,293,358 cash on hand, \$109,440 in textbooks and equipment, \$4,967,078 anticipated from the state school fund and \$12,058,557 from the county and district tax sources. Assessed valuation of property for school taxes was put at \$497,978,469. Most of the counties have a 10-mill county-wide school tax levy, while the average levy in the districts ranges from four to 10 mills.

## Power Plant Near Benson Springs Is Again In Operation

The Florida Public Service Company plant at Benson Springs directly across Lake Monroe from Sanford began operations this week after having been idle for several seasons.

## Volusia County Youth Bitten By Moccasin

DELAND, July 21.—L. M. Evans, white youth residing in the Lake Talmadge section, was reported resting well today but still suffering from the bite of a moccasin which he sustained late yesterday while bathing at a point near his home.

## Postal Department's Surplus Is 5 Million

WASHINGTON, July 21.—(AP)—Postmaster General Farley yesterday reported a \$5,000,000 Postoffice Department surplus to President Roosevelt, the first since 1919.

## SLAIN BY OWN RIFLE

WASHINGTON, July 21.—(AP)—Miss Louise Dudley Brackinridge, 17-year-old daughter of Col. Henry Brackinridge, assistant secretary of war under President Wilson, was killed accidentally yesterday by a shot through the heart from her .23 caliber rifle.

## NRA DOOMED, SAYS DARROW BOARD MEMBER

### Russell Says There Is No Such Thing As 'Fair Competition' In Any Industry

NEW YORK CITY, July 21.—Charles Edward Russell, secretary of the Darrow board which conducted a survey of the National Recovery Administration and author of the board reports which criticized N. R. A. methods, sailed for Ireland on the United States liner Manhattan yesterday, saying he hoped to enjoy a good vacation and to meet his old friend Eamon de Valera, President of the Irish Free State.

"I'll study their economic methods, too, for I understand Ireland has made some good strides toward recovery," Mr. Russell said, "and maybe I can pick up some improvements on our lapsed, lame, halt and blind N. R. A. A small nation sometimes may serve as a laboratory test tube for methods which can be applied to larger countries.

## 2 Escaped Murderers Caught After Break

THOMASTON, Maine, July 21.—(AP)—Two of three convicted murderers who escaped from the Thomaston state prison last night were captured today at Waldoboro by a posse of state police and prison officers. The captured pair are Allen Twitchell and Arthur L'Helien.

## Orlando's Idle Tell Swope Not To Move Office To Sanford; To Resign Instead

ORLANDO, July 21.—Workers of the FERA who are on a strike in Orange county, Friday afternoon issued a statement through the Orange County Workers Square Deal Association in which they made reply to a statement previously issued by O. P. Swope, regional director of the FERA.

## 5 Men Drowned When Boat Hits Stump

PROVIDENCE, N. Y., July 21.—(AP)—Five men, four of them World War veterans from a CIC camp at Speculator, were drowned in a pond near here today when a boat capsized. Three men were rescued.

## NEWTON IS OUT

WASHINGTON, July 21.—(AP)—President Roosevelt has definitely decided not to reappoint Walter Newton, former secretary to former President Hoover as a member of the Home Loan Bank board. It has left in official quarters today that the post is to be left vacant until the President returns from his Pacific cruise.

## Business Has Had Upward Trend In 10 Of 16 Months Of Roosevelt's Direction

WASHINGTON, July 21.—American business has been on the up grade ten out of the sixteen months that President Roosevelt has been in office and has shown a net gain of 44 percent since Mar. 4, 1933, Federal Reserve figures showed yesterday.

## STRIKERS REFUSE CHANCE TO RUN PLANT 'ON OWN'

MANORVILLE, Pa., July 21.—(AP)—The 50 striking workers of the National Mirror Specialty Company are in a quandary.

## Over 200 Drowned In Poland As Big River Overflows

WARSAW, Poland, July 21.—(AP)—More than 200 persons were dead and damage estimated at about \$200,000,000 were reported at today by the Polish capital.

## Heat Fatalities In Current Hot Spell Now Over Hundred

MISSOURI, July 21.—Heat fatalities in the current hot spell exceeded 100 today.

## Georgian Exonerated Of Killing Employer

FORT VALLEY, Ga., July 21.—(AP)—A coroner's jury yesterday found the death of George Slappey, 65, once Georgiana's big game peach grower, was "justifiable homicide" after his over-zealous planter because of intentions to Mrs. Fagan.

## HUGH JOHNSON TELLS 'INSIDE' STRIKE STORY

### NRA Chief Says Fiasco Was Most Critical Moment In Recent History Of Nation

LOS ANGELES, July 21.—(AP)—With the declaration that the general strike in San Francisco was "the most critical moment in recent history" and that it was "a catastrophe to any country," General Hugh S. Johnson, NRA administrator, disclosed yesterday what he said was the "inside story" of the widespread walkout of union workers.

## 20,000 Acres of Land Near Titusville Sold

TITUSVILLE, July 21.—Indian River Cattle Ranches, Inc., which here announced the purchase of 20,000 acres of land lying about 2 1/2 miles north of Cocoa on Lake Donnell, the company has extensive operations in the beef cattle business using both native Florida stock and later-developing Herefords.

## Sheriff Turns In Report For Past 6 Months

MISSOURI, July 21.—(AP)—Sheriff J. F. McClelland for the first six months of 1934 were nearly \$200 greater than they were for the first six months of 1933. It is revealed in the semi-annual report filed at the Court House today.

## Georgian Exonerated Of Killing Employer

FORT VALLEY, Ga., July 21.—(AP)—A coroner's jury yesterday found the death of George Slappey, 65, once Georgiana's big game peach grower, was "justifiable homicide" after his over-zealous planter because of intentions to Mrs. Fagan.

## Minneapolis Is Quiet After Riots Which Bring Death To Man

MINNEAPOLIS, July 21.—(AP)—Quiet ruled at Minneapolis today where yesterday shot-guns roared and 68 persons suffered injuries from buck-shot or beatings in a truck drivers' strike.

## Leader Of Union Of Drivers Pleads For General Walk-Out; 68 Suffer Injury

MINNEAPOLIS, July 21.—(AP)—Miles Dunne, leader of a union of drivers, pleaded with two other unions for a general walkout.

## Minneapolis Is Quiet After Riots Which Bring Death To Man

### City News Briefs

"Yesterday was the hottest day of the year," said Inspector G. P. Paxton this morning when he reported a high reading of 98 for the day. The low mark, recorded early this morning, was 77.

Fishermen and other pleasure seekers may be interested to learn that the tide at Daytona and New Smyrna beaches tomorrow are as follows: High tides at 9:25 A. M. and 4:20 P. M.; low tides at 9:40 A. M. and 10:44 P. M.

Two negro baseball teams will meet at Municipal Park tomorrow afternoon at 4:00 o'clock in a play-off of the 11 inning, 2 to 2 tie which they played yesterday afternoon. The teams are representative of the best negro baseball talent in Sanford and Palm Bay.

The Board of County Commissioners will meet at the Court House as an Equalizing Board next Monday morning, starting at 10:00 o'clock. At 2:30 o'clock Monday night, the City Commissioners are scheduled to gather in their second meeting of the month.

Gordon Dean, business manager of the Sanford Herald, underwent an operation for appendicitis at Orange General Hospital at about noon today. His condition was reported as "satisfactory" shortly after the operation. Mr. Dean was seized with an illness early this morning. Later, it was diagnosed as appendicitis.

H. H. Coleman, local manager of the Florida Power and Light Co., left early this morning by motor with Mrs. Coleman for Portland, Maine to spend a two weeks' vacation. The Coleman's plan to spend five days on the road going and coming. During Mr. Coleman's absence, E. L. Lanny will be in charge of local operations.

While members of the City Commission were waiting a reply from Headenton and Palm Beach persons interested in the lease in purchase of the Mosler Hotel, Chamber of Commerce Secretary Karl Lehmann late yesterday escorted another group through the property. The new prospects are members of the City Council, interested in this area for many years.

## Net Profits Of RFC For Year \$21,784,386

WASHINGTON, July 21.—The Reconstruction Finance Corporation today reported a net profit of \$21,784,386 during the fiscal year ended June 30, a survey of its activities revealed last night.

"I am taking no sides as between the striking longshoremen and the waterfront employees. As acting head of the police department, I found a strong hand was necessary to remove a large crowd of men gathered at the docks for the purpose of unlawfully preventing trains from moving so these men were removed."

During the fiscal year, the report showed the RFC disbursed \$2,062,802,864.15, of which \$288,229,816.55 was repaid.

## Leader Of Union Of Drivers Pleads For General Walk-Out; 68 Suffer Injury

MINNEAPOLIS, July 21.—(AP)—Quiet ruled at Minneapolis today where yesterday shot-guns roared and 68 persons suffered injuries from buck-shot or beatings in a truck drivers' strike.

Miles Dunne, leader of a union of drivers, pleaded with two other unions for a general walkout.

Portland's gasoline famine ended when heavy police guards escorted tank trucks from the strike-chicken waterfront to filling stations whose tanks were dry.

The Pacific coast maritime strike will continue, leaders announced.

An ominous teneseness pervaded Minneapolis last night as an aftermath of a stubborn battle between striking truck drivers and police conveying a truckload of merchandise in which one man was killed in a half hundred wounded.

A military censorship immediately clamped down over the identity of the dead man and his affliction as well.

"Seattle's casualty list since the start of the strike May 1, stands at two dead, 20 seriously injured, 300 slightly hurt (mostly bruises and cuts from clubs and rocks, and burns from gas bombs) and something over 2,000 gassed.

## LOCAL WEATHER
