# BULLETIN NO. 3 MONDAY, JUNE 15

## SHOES FOR EVERY MEMBER OF THE FAMILY

With every pair of Shoes we sell goes the satisfaction of knowing we have given our customers the best to be had in Shoe values, and as is shown by the repeated patronage and the increasing number of new customers each week, evidently it didn't take our customers long to get wise to the fact that D. A. Caldwell & Sons stood by every representation made in a Shoe transaction.

Now take, just for one illustration the "Snow Shoe" for Men. After we had searched the market over for months we decided and firmly believed that Snow's \$3.50 Shoes were the best on the market at that price, likewise their \$4.00 Shoes look mighty good to "muh"—now then. We put in these Shoes and decided to sell all \$3.50 Shoes at \$2.98, and all \$4.00 Shoes at \$3.48, and so on—fifty two cents off their set retail price, on each pair.

Now, after doing this we are confident that no other concern in the state of Florida offers any better proposition to the retail shoe trade.

Likewise our Women's and Children's Shoes were selected and priced with the same regard for high quality, at less than regular price.

## FURNITURE IS HIGH AT ANY PRICE

(If It Isn't Just What You Want)

Do you know that the majority of people in Sanford—both capitalist and laborer—when they think of buying new Furniture, their first thought is of D. A. Caldwell & Sons. Why? Because we carry in stock what the masses want and at a very nominal figure too. These same pieces of Furniture the capitalist takes pride in possessing and enjoys all the home comfort they afford—can be bought on easy terms by any laborer living in Seminole county.

Our prices are low—yes, exceedingly low in consistency with the high grade workmanship and finish that embraces every piece of furniture sold by us.

Our terms are so easy that it is no trouble to meet your Furniture payments each month, it matters not how small your salary is, a man with family, on nine dollars per week wages can furnish his home with all ease, by our system.

Furniture is high at any price if it doesn't stand to the wear and tear of every day use; ours will; we buy that kind.

Our prices are right. WE KNOW THAT because we buy only from the factory direct in car lots.

Our line includes every necessary article for the Parlor, Kitchen, Dining Room, Hall, Bedroom, Parlor, Library and Living Room.

We noticed several hustling live wires entered the Contest this past week and one or two of them are running like scared rabbits.

A most thrifty and rapidly growing suburb of Jacksonville, Fla., where property values are increasing over 200 per cent every year, giving the small investor the greatest opportunity to save a part of his or her earnings in a safe and sound way, as Jacksonville is going to be a large city, and those who buy Riverview lots will no doubt some day in the future net thousands of dollars on their investment. This is sold on the easy pay plan of \$10 down and \$5 per month, but the founder does not advise any one to buy here or anywhere else unless he is in a position to take care of his contract. ### COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

Office in Herald Building Telephone No. 148

All things come to those who wait and the good little Sanford boosters who have tried to get a tourist hotel here, who have persisted in having the lake front bulkheaded and who have in season and out of season boosted the city of Sanford have at least seen the result of their labors.

It is a dull week when Bob Holly isn't elected president of something. This week's honor is the bestowal of the presidency of the Florida Development Commission.

Wake up, old fellow, and hear the birds sing. You are so busy down there changing positions that you have no time to look at the cards.

The report comes from Orlando that Hugh Sparkman, former private secretary of Congressman Claude L'Engle will be the editor of the Orlando Sentinel and expects to take the office in a few weeks.

Editor Holly of the Sanford Herald does not mind printing his picture in his own paper any more than did Mr. Williamson, who thought he was running for congress, till he came last in a field of four.

There are some people that are so ancient and ugly that they are afraid to put their phiz in the paper. Other people are never in the position where it would be possible for them to have an excuse for putting their mug in the paper.

ADVERTISE FLORIDA There should be some concerted plan to advertise Florida to the world. This state has more millions of acres of fertile, untilled land than any section of America.

and capital. We need the applied energy and intelligence of a great army of producers. We could get them if they knew the truth.

THE FLORIDA HAY CROP A gentleman reports hay being shipped into Florida from Ohio, for which Floridians pay \$35 per ton.

This might be true, of some sections of Florida but here in the Sanford section where there is no drouth or deluge the farmer is never compelled to buy either hay or corn. On the sub-irrigated farms of this famous section the hay crop is a volunteer coming up after the spring crops have been harvested.

A DEFEATED CANDIDATE A Florida editor who was a candidate for the legislature in the recent primary election and failed to get enough votes to insure him a seat in that august body when it assembles next year in Tallahassee.

The question regarding the possibilities of editing a newspaper and running for office, which latter proposition is no doubt meant by his mention of a "politician" remains unanswered in the editorial referred to.

DON'T BELIEVE IN EDITORS

There is no class of people in Florida doing more for the people generally than the editorial fraternity—but when it comes to giving them some office the voters have univally given every member of the craft the cold shoulder.

From the time of the birth of the child, up through the long years of school, past the graduation, when the first business move is made along to the marriage ceremony.

And then when it comes to asking that some trivial office be granted as a sort of a return for the services which have so constantly been donated without expense to the resident there is a result that is most painful.

Over in Putnam there was Editor Russell, who has ever done valiant service for the community and for the state. He was elected and he was sent to the state senate; and he was turned down with a solid vote.

Truly there is an odd feeling in the state as regards the editorial contingent. The fraternity is as a class square, honest and well versed in the needs of the people of their respective localities.

A lawyer contributes the following: The following has just leaked out. Last year there was an upheaval here and Seminole county broke off from Orange and of course there was a brand new set of county officers in Seminole county.

## FAVORS BOOSTING THE STATE

PROMINENT BOOSTER OF ORLANDO AND A FORMER EDITOR WRITES ABOUT RECENT ORGANIZATION

FLORIDA SHOULD BACK THE DEVELOPMENT COMMISSION TO THE LIMIT

Orlando, Fla., June 9, '14.  
Bro. Holly:  
I notice with extreme gratification the recent organization in your city of a Florida Development Association. I regard this as one of the most important movements that has ever been launched in the state. If pushed to its legitimate purposes what it may accomplish for Florida is almost beyond comprehension. It should be backed by the state and fostered by the state treasury.  
Our constitution specifically provides that the Commission of Agriculture shall keep a bureau of immigration. This provision has been part of the organic law since 1886. In all that time has any person, either in or out of the state ever been able to find such a bureau? Is there not a progressive element now in the state strong enough to demand recognition and insist that the law be complied with? An efficient bureau established and maintained, and the development of the state encouraged for the good of every resident and tax payer within her borders.  
A plan suggests itself, and I will pass it on to the developers, who have taken the initial step:  
A monthly publication, possibly magazine in its make-up, conducted under the direction of a managing

board, and, until able to walk alone, financed by the state. Its pages devoted to the resources of the state and the accomplishments of our citizens. Its principal department made up of ten live items gleaned from the state press, giving in short, crisp terms what Florida cultivators are doing in all parts of the state. For instance, Sanford raises and ships celery, lettuce, tomatoes, etc., Hastings for Irish potatoes, Plant City and Lakeland strawberries, the East Coast pineapples, and a hundred and fifty other localities, each producing some specialty and all producing thousands of car loads which go into the northern markets and bring back hundreds of thousands of dollars to the producers.  
Other departments should inform the outsiders concerning stock and poultry raising, the possibilities of oyster production, the fish business and many other lines of industry now awaiting development. Of course citrus fruits would figure conspicuously. Let nothing be overlooked by the argus-eyed editor. Let the publication tell the truth, tell it with emphasis, frequently and with such force that it would appeal to every reader, homeseeker and possible immigrant in the United States.  
Make the subscription price low,

and send out sample copies ad lib. Let the bureau of immigration foster the publication until subscriptions and advertising patronage would cover the cost of publication; and see to it that no unworthy schemes could find a place in the advertising columns, no matter what price per column or inch might be offered. It should be the duty of the board of directors to censor everything offered and reject everything not sure.

I believe such a publication would be of immense value to the state and in time would become a money maker.

MAHLON GORE.

**Awful Conflagration!**  
Fire! Fire! Fire! The terrible cry ran out upon the still sultry air beneath the blazing sun of a hot June day. The apron brigade immediately formed in life upon the sidewalk, a volunteer fire department was instantly organized by the youngsters of the neighborhood with Turner's delivery man as chief and Jack Peters Jr., dashing back and forth across the street screaming unintelligible orders after the usual style of fire chiefs and excitement ran rife at Elm avenue and Second street Tuesday morning for there the palmetto fibre was ablaze to the east of Mr. Deane Turner's residence. Fond mothers urged and applauded the efforts of the brave young fire fighters, for does not every one in the neighborhood know that palmetto fibre has been the joy of Deane Turner's life since he acquired an automobile? It was a harrowing experience for Deane, for there was no insurance on the fibre and very probably there was ten feet of it reduced to charred and smoking ruins. Ten minutes of excitement and all was over. The apron brigade returned to their domestic duties rejoicing in the bravery of their offspring, the delivery man went on delivering groceries, the young volunteer department disbanded proud of their achievement and wishing they had a real fire hose, and Deane? Well, just cheer up, Deane and we will persuade council to give us some more fibre.

## Depressed Spirits

EVERY ONE HAS IT WITHIN HIM POWER TO BE HAPPY

A celebrated French physician has said that "a man's liver is the barometer of his disposition."

Every man and every woman knows that the cheerful smile is a big factor in one's success.

Every one should know that the disordered liver is cause of ninety per cent of human ills. Lazy, overworked livers are the prime causes of headaches, indigestion, constipation and dozens of other ills.

But the inactive liver always warns by coated tongue, sour stomach, dull eyes and even laziness. Heed your warning and you insure happiness to yourself and reflect it upon your associates. Calomel used to do. Modern day science has found a better way in Carewell's Liver-Aid, which is a pure vegetable remedy on sale under guarantee of money refund at 50 cents for large bottle. Ask R. C. Bowers, druggist, about it.

Going Away Party The Renfro home, over on the West Side is one of the prettiest in that section of the town. With its wide, well kept lawn bordered with flowering plants and shrubs, at the back of which is a clump of beautiful trees whose overhanging branches afford a delightful shade for the many social functions of the neighborhood, for Mrs. Renfro is not only a charming hostess herself but a generous neighbor to other hostesses who frequently use the lawn for their affairs.

Last Tuesday afternoon Mrs. Geo. Armstrong was the gracious hostess at a going away party complimentary to Mrs. G. B. Waldron, who leaves shortly for Tampa, where she will make her future home. Beneath the trees a charming scene was presented, with its comfortable chairs and benches, gaily colored cushions and the tables with their snowy white covers filled with cut glass and dainty china holding vases with masses of vari-colored flowers.

The ladies had been invited to a ten-ten social but herein was a surprise for the honoree of the afternoon, for a very lovely gift of a cut-glass lemon dish and fork was a tangible souvenir of the esteem and affection in which Mrs. Waldron is held by her friends and associates in the Congregational church. Mrs. Henry Wight in one of her usual happy, pleasing talks made the presentation in behalf of the ladies. Mrs. Waldron responded gracefully in accepting the gift. Delicious refreshments were served during the afternoon. Mrs. F. P. Strong and Miss Flora Walker presided at the punch bowls, while Mrs. Renfro, assisted Mrs. Armstrong in serving. Mrs. Armstrong's guests were Mesdames C. E. Walker, Henry Wight, Moughton, Henry Witte, Charlotte Smith, Annie Walker, Massey, Will Hand, C. R. Walker, Findlay Munson, F. P. Strong, Harvey Renfro, Walter Hand, Wright, E. T. Woodruff, W. D. Peters, R. A. Terhoun, Misses Eva and Flora Walker, Dr. C. E. Walker and Mr. Fraser Armstrong.

Sulphur Is Advised For Powdery Scab

On account of the possibility of infection with powdery scab, the department is now recommending all potato growers to treat their seed potatoes with sulphur. This is made expedient by the fact that infected seed potatoes have been shipped out of Maine, where powdery scab now exists. Recent tests justify the department's scientists in recommending a thorough dusting with flowers of sulphur after the potatoes have been cut as a precaution against the disease, but the treatment is by no means intended to take the place of formaldehyde as a general disinfectant. The department advises the use of both formaldehyde and sulphur.

Before cutting the potatoes should be soaked in a solution of 1 pint of formaldehyde to 30 gallons of water. They should then be allowed to dry quickly either in the open or while spread out on a clean floor. This is known to be effective against a common scab and black leg, and should therefore be employed in all cases. Whether it is equally effective against powdery scab is doubtful, and for this reason the use of sulphur is strongly advised in addition. The potatoes should be cut first and then dusted thoroughly with flowers of sulphur. A general use of this treatment is advised for Maine.

Primary Law—Good and Bad

The Bryan Primary Law is by no means perfect. It is hardly within the scope of human effort to make a perfect law, until it has been "tried out" and its weak points shown by experience. But it is going to be mighty hard to prove it hasn't sufficient redeeming traits to make it appeal to the people after proper amendment. It is very probable that nearly every candidate who was defeated will attribute that result to the Bryan Primary Law, and walk around with a knife up his sleeve to emasculate it when the legislature assembles. But there is no getting around some proposition: A gentleman who is disappointed but philosophical still, writes me, "There is no telling where luck and a half broken steer are going to run." Defeated candidates ought to take the same cheerful view and look at the law impartially. One thing to be devoutly thankful for is that we do not have a second primary within the next thirty days.

A review of the statement filed by the various candidates also reveals the fact that under the present Primary Law it is at least possible for a poor man to run for office in Florida and retain his self respect and honesty. There is another thing which greatly commends it. It is true that there was less mudslinging and acrimony in the primary just held than any Florida has ever gone through with. As a result there are fewer wounds to heal after the conflict, and the number of downs and outs has not been increased. The provision for registration every two years is doubtless an expensive luxury as well as a useless waste of time and a great annoyance for the average voter, and will likely be given short shrift when the legislative body assembles, but it is very likely that those who favor a fair expression of the voter at the polls will be loth to part with the new law entirely.

Users of Tobacco Take Notice

I don't know whether the Annual Synod of the "Reformed Presbyterian church of the United States and Canada" in session this week in Bloomington, Ind., represents the good old Presbyterians I have known all my life or not. The prefix to the name, and some of the acts indicate to an outsider that possibly the organization is an assembly of Smart Alecks who have detached themselves from the parent body. I hope this is so, for the observations and experiences of many years have taught me the profoundest respect

and admiration for Presbyterians, and I would be genuinely grieved to see them swallowed up by the latest vortex of folly, which was thrashed out and discarded by Methodists and Baptists years ago.

Listen to the grandiloquent expression of superlative folly by the aforesaid Synod "The use of tobacco is an acquired, undesirable and sinful habit and its effect is hurtful to the body and mind." This being the conclusion of these wise men, they have desired to take the Lord's affairs in their own hands. According to the associated press reports, "the church now refuses to license a minister, elder or deacon, or to appoint a Sunday school teacher who uses tobacco, and it is proposed to bring the membership up to the same standard." All this on the recommendation of the so-called temperance committee.

For a long time I have been telling my readers the prohibition idea would not be content without prescribing what men should drink. Tyranny, under whatever guise it appears, recognizes no limitations save an impregnable wall of human intelligence, and its boundless arrogance permits it to make frequent assaults upon that.

McKINNON WINS

Judge Perkins Refuses To Order Signing of Warrants

Dr. J. F. McKinnon, superintendent of public instruction, won the first round in the mandamus proceeding brought in the name of the grammar school teachers to compel him to sign the teachers' salary warrants.

The hearing of the alternative writ came up in Sanford Saturday before Judge James W. Perkins, who is engaged in holding circuit court for Seminole county at that place.

Judge Perkins had issued the alternative writ ordering Supt. McKinnon to show cause why he should not sign the warrants and it was in response to this mandate that Dr. McKinnon made answer yesterday, being represented by Mr. Jos. H. Jones.

The action originated in the refusal of the superintendent to sign the warrants of the school teachers at the beginning of the school year in October. His refusal was based upon the double daily sessions of the Orlando grammar school, the claim being that it was impossible for the teachers to make a full day of five hours each as required by law.

At that time the county treasurer, Mr. J. H. Tucker, refused to pay the warrants without the signature of the superintendent, and the court ordered him to pay them. Matters went along thus and the teachers received their money until April, when the supreme court handed down an opinion in an analogous case taken up from Marion county, wherein the court held that the warrants were not valid. To be on the safe side the treasurer refused to pay any more warrants without the superintendent's signature, and the mandamus proceeding was brought against Dr. McKinnon to compel him to fix his signature.

As stated above, Judge Perkins refused, after hearing the case argued, to issue an order requiring the superintendent to sign—Orlando Sentinel.

NEW TOURIST HOTEL WILL BE BUILT HERE AT AN EARLY DATE

CAPITALISTS HAVE TAKEN HOLD OF THE PROPOSITION—LOUISVILLE PAPERS CONTAIN GOOD ARTICLE

THE PROMOTERS ARE BUSY ON THE HOTEL AND A NUMBER OF OTHER PROJECTS OF LARGE PROPORTIONS

Our Sanford Development Corporation seems to have closed its deal in a firm and decisive manner forever silencing the "doubting Thomas" who have seemed to discourage it and amply rewarding its warmer partisans.

The following article is copied from the Times of Louisville, Ky., Saturday evening, June 13th:

Walter S. Adams of Louisville and eastern Kentucky capitalists are interested and the Falls City Construction Company of Louisville, will likely land a \$200,000 building construction contract as a consequence of the launching of a Florida land development project this week involving the expenditure of more than half a million dollars.

It was Mrs. Adams who outlined the organization of the plan. The two, it may be said, are in no way related. Mr. Adams became vice president of the now \$300,000 Sanford Development Corporation and will divide his time between Louisville and Sanford, Fla., having offices in both cities.

Judge M. J. Moss, of Pinville, becomes secretary and treasurer of the new corporation. He represents

capitalists of the eastern Kentucky coal fields, including interests in Chattanooga, Tenn. Mrs. Adams, who promoted the deal is a sister of Charles and Rudy Ellison of Louisville.

The Louisville and Kentucky interests united with Tennessee and New York interests in taking over from the Holden estate in Florida 1,295 city lots in Sanford, a little city of 8,000 inhabitants at the head of deep water navigation in Central Florida; 525 acres in Robinson Springs near Sanford; an interest in the 8,000 acres of the Astor land grant on Lake Monroe, Fla., an interest in 4,000 acres on the St. Johns river, 40 miles from Sanford; twenty-seven celery farms of 5 and 10 acres, and a 400-room hotel near Sanford.

This hotel is a frame structure and will be replaced by a \$200,000 brick hotel of 200 rooms, for the construction of which the new corporation is now negotiating with the Falls City Construction Company of Louisville. The hotel company will be separately incorporated at \$200,000.

The property of the corporation in Florida was purchased of the Holden estate, the owner of which was killed some time ago in an automobile accident. It lies around the little city of Sanford, which Mr. Adams states has grown 2,000 population since the taking of the last census. Sanford is building a \$150,000 sea wall and making ambitious plans for the future. G. E. Montgomery of New York, becomes president of the new corporation, which has already started to consummate its development plans.

Negro and Horse Die

The funeral of William C. Stewart, colored, last Sunday recalls the strange coincident of master and horse dying within a few minutes of each other. When Stewart was taken sick Friday night with acute indigestion, a messenger was sent on Stewart's horse for a physician. The boy had gone not more than three blocks when the horse dropped dead, presumably from heart disease. The boy continued his search for a physician on foot, but before the boy and doctor reached the sick man he had expired. Stewart is the largest property owner in Georgetown, the section of Sanford where the colored population resides, his holdings amounting to probably \$10,000. He has resided in this community for the past forty years, and was one of the most respected of colored citizens.

NEGRO DEFIED THE LAW And Was Shot to Death by Officers in Defense of Their Lives

Several months ago a city ditch in Goldboro was stopped up endangering the health of that part of the city and the sanitary inspector A. D. Smith and several members of the street committee going out to investigate found that a negro named Williams or "Typewriter Tom" as he was called was responsible for the stopping of the drain ditch. Upon being questioned he said that the ditch went through his land and he would not permit it any longer. The officers expostulated with him and finally left with the understanding that he would not molest the ditch again. The negro seemed to brood over the trouble and wrote several threatening letters to Mayor Thrasher about what he intended to do and last week dared the mayor to send out there to open the ditch or to arrest him. Mayor Thrasher immediately sent Marshal Tills after him, but the negro who was employed in the country did not show up that week and learning that he was in town last Saturday afternoon Marshal Tills, Inspector Smith and Policeman Vickery went out to the negro's house. Getting near the place the man was seen sitting on the steps and as soon as he saw the officers he ran into the house and barred the doors and windows. This looked ominous to the officers and upon getting closer the marshal called to the negro to open the door and come out as they intended to arrest him. He replied that he would not come out and dared them to come and get him. Vickery and Smith were at the windows by this time and peering through Smith could see the negro on his knees with a shot gun at his shoulder about to shoot either Vickery or Tills and making a break for the front door pushed his way into the house closely followed by Marshal Tills. The negro turned at once and fired at the officers as they came in, the load of buckshot passing between the two and knocked the skin from Smith's knuckles and passed through his coat sleeve ripping a hole all the way up his coat. The officers fired at the negro, almost as soon as the discharge of his gun awoke the echoes and knowing that they were in defense of their lives they shot to kill and in a few minutes Williams had passed to the place where ditches will not bother him.

The officers regret that they were forced to take human life but they also feel that under the circumstances there was nothing else to do, as they tried every means possible to get Williams to come out and surrender peacefully. Had he submitted to arrest the mayor would have let him off lightly and probably with a lecture. As it was he considered himself wronged by the whole world and had made ready to resist arrest and kill any one who dared to oppose him. He had plenty of shells in the house and several in the pockets of his clothes, showing that he was prepared to stand a siege if necessary. The quick work of the officers saved trouble for had he killed any of them trouble would have started.

The remains were brought to the city and Judge Herring presided at the inquest, the jury bringing in a verdict of justifiable homicide at the hands of officers in performance of their duty.

Government Gets Slog

C. H. Slog, president of the New South Farm and Home Company, now of Palatka, Fla., and formerly of Chicago, was indicted by the Federal grand jury at Jacksonville on three counts of conspiracy and using the mails to defraud. He was taken into custody a few minutes after the indictment was returned and released on a bond of \$5,000.

Four associates, who composed the directors of the concern, were indicted on the same counts. They are Fred Turner, of Palatka, and Ben Levin, Benjamin F. Starns and Charles Greve of Chicago.

The indictment follows two years work on the part of the government officials.

BIG BUSINESS BLUFF BY THE TRUSTS HAS BEEN CALLED BY PRESIDENT WILSON

TRUSTS TRY HARD TO PUT A SPOKE IN THE WHEEL

WILSON STANDS PAT ON TRUST LEGISLATION

TO PUSH LEGISLATION THROUGH THE SENATE AGAINST THE MONEY POWERS

Washington, D. C., June 16.—President Wilson made the direct charge today that sentiment in favor of postponement of the administration's trust legislative program was the result of a campaign by certain interests and intimated that it was the cause of the "psychological business depression" of which he recently spoke.

In support of the President's view the White House made public copies of letters and telegrams circulated among business men calling for adjournment of congress without completion of the trust bill, praying for the freight rate increase asked by the railroads of the Interstate Commerce Commission, and calling for a halt of the "attacks on business."

President Wilson made it clear to his callers that the campaign, if such it might be called, would not influence him and that it was his plan to push the trust program through the senate with the aid of all the means at his command. He expressed the view that business was as good if not better now than a short while ago and that it would be less harmful to business interests to have the trust legislation program completed than to be confronted with a period of uncertainty which would accompany delay.

One of the letters which came into possession of the White House but was not given out with the others today, was circulated by the Simmons Hardware Company of St. Louis. E. C. Simmons, head of the company, had been selected for membership in the federal reserve board and his nomination was to have gone to the senate today. The morning it was announced at the White House that Mr. Simmons had declined the place. White House officials emphatically denied, however, that the circular letter had any connection with this development.
