Now It's Neckties Made of Milk!

Fellow in Andy Botkin's Tavern was boasting about a trick necktie he was wearing made out of a byproduct of milk, "Took 33 pounds of milk to make this tie," he says.

Bill Webster was unimpressed. "Personally," he says, "I'd rather have the milk to drink. Just as I wouldn't change one glass of good American beer for a necktie made from thirty barrels of it!"

Yes, modern science being what It is - seems like you can make "anything out of anything" these days. But in the case of milk, well

I guess drinking it is still a whole lot better than just wearing it.

Of course there are lots of other ways of abusing goods and beverages - like a fellow who doesn't appreciate good beer enough to drink it slowly and in moderation,

But from where I sit, most people who enjoy a wholesome beverage like beer or ale are moderate -because beer itself is a beverage of moderation.

Looks as if the political honeymoon is over as far as Eisenhower is concerned,

Speaking in Tampa the other night Dan McCarty said that Florida's "only road to continuing prospenty is to stabilize the citrus market." One thing is certain. Florida cannot look forward to much more prosperity with a few more citrus seasons such as the last two have been. And we be-lieve Dan McCarty, by virtue of his lifelong connection with the citrus industry, is the best qualified man in the race to solve this problem.

The lieutenant governor of Massachusetts wails that the South is stealing New England's woolen industry. "All through the Suwanness River Region," he laments, "newspapers, public utilities, community projects and government units are trying to attract industry." Well. now, ain't that too bad? Not only that, they're doing it. They're taking so many people and industries away from the North, there won't be much left up there before long except the Republicans.

Harold Stassen emerges from the Nebraska elections as the No. 1 contender for the Republican presidential nomination. He not only demonstrated his leadership in the Middle West, but has shown con-siderable strength in New England. He might not carry New York against Governor Dewey, but he will not have to. When he runs in that state, he will be running against President Truman, or some other Democratic nominee. Stassen is a former governor of Minnesota where he made an outstanding record. The Jaycee Drive

Beginning today and continuing throughout the re-mainder of this month, the Junior Chamber of Commerce will conduct its annual membership drive. During the past year the Jaycees raised \$5,000 for its tourist promotional program, contributed \$500 to the glider meet, \$300 to the Fernald-Laughton Memorial Hospital, \$250 for the Christmas parade for children, and assisted in many other worthwhile activities.

Other significant projects of the Jaycees have been the 'Get Out the Vote" campaign in the municipal election which brought out the largest number of voters in many years, its Youth Government Program in which school children were given an opportunity at first hand to study the inner workings of city and county government, the resur-

facing of French Avenue, and a study of the City budget. The Junior Chamber of Commerce is a young man's organization with active participation restricted to those between the ages of 21 and 35, but limited memberships are welcome from older men, as well as contributions from leading business and professional firms. By means of these donations and contributions do the Jaycees raise the funds with which they carry on their numerous activities.
