## THE BANK OF NATIONS WOULD BE NEW IDEA OF SENATOR HITCHCOCK

### United States Would Be The Majority Stockholder

### PLAN IS OUTLINED

#### IN ADDRESS BEFORE THE MANUFACTURERS EXPORT ASSOCIATION IN NEW YORK

(By The Associated Press)  
NEW YORK, Jan. 19.—A bank of nations, with the United States as majority stockholder, an international trade "dollar" as a substitute for gold, and conduct of world business on a credit instead of a cash basis, were advocated by United States Senator Hitchcock, of Nebraska, in an address yesterday before the American Manufacturers' Export Association here.

Senator Hitchcock discussed a bill which he has introduced in the senate providing for the establishing such a bank of nations, with \$2,400,000,000 capital. The United States, he said, would hold \$1,300,000,000 of the stock and bankers, importers and exporters of this country another \$200,000,000, leaving the remaining \$900,000,000 to be purchased by the leading nations of the world through the president.

The United States, by virtue of its stockholdings, would choose thirteen of the bank's twenty-four directors. Headquarters would be at New York. The directors would have power to issue currency to be known as the international dollar, which would eliminate the continual shipment of gold between countries, according to Senator Hitchcock's plan.

Asserting that "credit represents the difference between the vast business enterprises of civilized man and the insignificant operations of primitive man," Senator Hitchcock told the association that the practical collapse of national commerce is due to the fact that nations are "trying to do business for cash."

Nations, within their own boundaries, conduct nine-tenths of their business on credit, the senator said, adding that if the United States or any other nation suddenly was compelled to do business for cash there would be an enormous shrinkage of business. Business between this country and Europe has been slashed in half in a single year, he asserted, because America demands cash on delivery and Europe cannot pay.

Speaking of the enormous amount of gold now in United States banks, Senator Hitchcock said:

"We ought to use it as a basis for currency and seize this opportunity to make the international dollar the money of the world, the medium of exchange between countries. If we do not do this our gathering of all the gold here in the United States is worse than folly. It would be almost an international crime. We are playing the dog in the manger with it. We have drawn it here and we have very much more than we are using."

### PHILADELPHIA NATIONALS WILL TRAIN AT LEESBURG, TO PLAY EXHIBITION

## NATIONAL C. OF C. SPEAKER WILL VISIT SANFORD

### COLVIN S. BROWN OF U. S. CHAMBER, TO ADDRESS BOARD OF GOVERNORS TOMORROW

A special invitation has been sent out to all members of the Sanford Chamber of Commerce to be present at the noon-day luncheon of the Board of Governors Friday, at which time Mr. Colvin S. Brown, Chief of the Organization Service Department, of the United States Chamber of Commerce, will deliver an address that will be of special interest to those who are desirous of becoming acquainted with the fundamentals that constitute an efficient Chamber of Commerce.

There is probably no one in the United States better qualified to speak on the subject of Chambers of Commerce and their functions than Mr. Brown. During the past five years, he has addressed hundreds of commercial organizations in various states and his publication "Building and Maintaining a Local Chamber of Commerce" has been widely circulated and for its completeness is without an equal.

Mr. Brown has to date spoken at Quincy, Tallahassee, Lake City, Gainesville, Jacksonville, St. Augustine, Daytona, New Smyrna, Fort Lauderdale, West Palm Beach, Melbourne and Titusville. It is hoped that a large number of the members will be present at tomorrow's luncheon. Phone 25-W and advise the Secretary you will be there.

## DEATHS

### DEATH OF J. N. NEELEY

Word was received here today of the death of J. N. Neeley, at Ocala. Mr. Neeley's death was not unexpected as he has been hovering between life and death for many weeks having been ill here and while attending a meeting in Atlanta taking a bad spell of sickness necessitating his removal to the old home at Ocala where he has been ever since. No details of the funeral have been learned as the family are at Ocala. Mr. Neeley was well known here where he resided so many years and was in the life insurance business. He was a devout Christian and member of the Presbyterian church. He leaves a wife, two daughters and one son to mourn the loss of husband and father. The sympathy of the many friends is extended to them in their hour of sorrow.

## Brain Pressure Theory Proved Out in Chicago, Bad Man is Good Now

### Had Bullet in Brain—Bullet Removed Transforms Murderer Into Model Prisoner

(By The Associated Press)  
CHICAGO, Jan. 19.—Results of an operation performed to remove a bullet from the brain of Benjamin Buckner, serving a life term in the state prison for murder, which transformed him from a bad man to a model prisoner will be put before the state board of paroles and pardons in an effort to obtain his release, it became known here today. Buckner was sentenced to life in 1905. He began a reign of terror in the prison on his arrival. Recently he complained of severe headaches, and told the physician that years ago he was shot in the head and the bullet was not removed. An operation disclosed a bullet at the base of the brain. Its pressure, the physicians said, was the cause of his outbreaks.

## Cold Wave North, Down Below Zero, Sweeps Eastward

### Weather Bureau Says Hended for the Southwest

(By The Associated Press)  
CHICAGO, Jan. 19.—A cold wave bearing snow reached Eastward from the Rocky Mountains today, leaving the coldest weather known in Washington and Oregon since 1909 and below zero temperature in nearer western states and is expected to reach Illinois today. The Weather Bureau said lower temperatures would spread into Kentucky, Louisiana, Mississippi and Southwestern states.

## GERMAN EMBASSY SITE AT WASHINGTON IS RETURNED TO GERMANY

(By The Associated Press)  
WASHINGTON, Jan. 19.—The return by the alien property custodian to the German government of the plot of ground in Washington purchased by Germany before the war as a site for the new embassy building was announced today. The ground was seized during the war by the custodian.

## BRYAN WILL MAKE RACE FOR SENATE

### BALTIMORE SUN SAYS BRYAN WILL CONTEST WITH TRAMMELL

(By The Associated Press)  
WASHINGTON, Jan. 19.—The Baltimore Sun yesterday prints the following dispatch from Washington: "William Jennings Bryan, three times the Democratic candidate for the presidency, and secretary of state during the first Wilson administration, will be a candidate for the United States senate from Florida."

"Information to this effect has just been received in Washington from those personal and political friends in the state of Mr. Bryan's adoption to whom he has confided his purposes and his political ambitions.

"It is asserted positively here that Mr. Bryan will enter the Florida Democratic primary in June against United States Senator Trammell and there is utmost confidence on the part of the Bryan supporters in the state that he will win.

"Already, it is said, there is a well organized movement in Florida, back of Mr. Bryan, a movement participated in by some of the leading Democrats of Jacksonville and North Florida as well as by party leaders of the far southern end of the state.

"Even so, Mr. Bryan will rely primarily upon his personal campaign not upon any friendly organization in his behalf or upon such organized opposition to Mr. Trammell as might already exist in the state. He expects to take the stump, probably late in the spring, and to go into every county from Pensacola to Miami. He will make an energetic campaign—cavassing every cross-road in the state."

## LOWER RATES APPLIED COAL SAYS HEADS

### MINE OPERATORS ARE SO INFORMED AT MEETING TODAY

(By The Associated Press)  
WASHINGTON, Jan. 19.—Should the Interstate Commerce Commission decide as the result of its present inquiry that rate schedules may properly be lowered, lower rates should be applied first to coal, the commission today was told by J. D. Morrow, vice-president of the organization representing two thousand mine-operators producing approximately sixty per cent of the country's bituminous coal.

## POPE BENEDICT ILL HAD CASE OF GRIPPE SYMPTOMS NOT SERIOUS

(By The Associated Press)  
ROME, Jan. 19.—Reports from the bedside of Pope Benedict who has gripe stated today condition unchanged. Had relatively high temperature yesterday but so far as known serious symptoms not appeared. Bulletin issued later by physicians said his bronchitis catarrh had not spread and that temperature diminished.

LONDON, Jan. 19.—Pope's fever somewhat diminished but absolute rest and quiet is still necessary for him says Central News Rome dispatch quoting Dr. Ettore Marchalava, in attendance. The pope is troubled by persistent coughing, pains in head and chest and by weakness but continues in high spirits, the statement added.

## U. S. TROOPS USE FRENCH GUNS IN ALL UNITS

### AMERICAN MODELS OF SEVEN- TY-FIVES DISPLACED BY REAL GUNS

(By The Associated Press)  
WASHINGTON, Jan. 19.—Training of regular army troops with American modeled seventy-five millimeter guns will be discontinued and training with French seventy-fives will be extended to artillery units of the regular establishment, National Guard and officers of organized reserves. Orders already issued by the chief of field artillery directing the regular army organizations equipped with American models to turn them in for French type replacement.

### BOYS HAVE THEIR SAXOPHONES

The show window of the Brady jewelry store was the center of attraction yesterday having on display some of the new saxophones for the new Legior-Sax Band organized here by Bandmaster Ball. Through the kind offices of Joe Reitzenstein, the boys were enabled to get these fine Buescher instruments on the easy payment plan and they will be organized into a saxophone band of thirty members that will advertise Sanford as nothing else will do. Sanford will now resound with the wailing of the saxophones and every neighborhood will be operating under the jazz strains.

### Plan of America Only Accepted in Part by Arms Conference

## DISCUSSION CLOSED

### AS FAR AS OPEN DOOR POLICY IS CONCERNED—WHOLE PRO- POSAL FINALLY THROWN OUT ENTIRELY.

(By The Associated Press)  
WASHINGTON, Jan. 19.—The American open door program was accepted in part today by the Far Eastern committee of the arms conference, but approval was given only after elimination of the provision which would have specifically authorized an inquiry into existing concessions on China.

The French, renewing their objection to reopening the whole field of concessions granted in the past, were seconded by the Japanese, and the proposal finally was thrown out entirely at the suggestion of the British. The Chinese reserved the right to call it up again later, but the general impression among the delegates tonight was that it had been permanently sidetracked so far as the Washington conference is concerned.

Viewed by many delegates as the most sweeping provision of the American plan, the existing concession article was the center of debate in the committee from the moment of its presentation yesterday by Secretary Hughes until it finally was stricken out today, various delegates opposing it on the ground that it might lead to an almost endless inquiry into the validity of the maze of economic arrangements now in force throughout China. For the American delegation, however, it was said tonight that the eliminated article was not considered of vital importance since remaining provisions of the plan would permit examination of existing concessions where both parties agreed to it.

As adopted, the open door resolution contains a mutual pledge not to seek spheres of influence or monopolies in China in the future, and authorizes creation of an international board of reference with power to investigate and report on any case which seems to involve violation of the principle of equal and economic and commercial opportunity.

Turning to the problem of railway control in China, the committee laid the ground work for tomorrow's discussions by hearing two resolutions proposed for promoting equitable development of Chinese rail facilities. The first introduction by Sir Auckland Geddes of the British delegation, would pledge the powers against discriminatory practices on roads under their control. The other, presented by Secretary Hughes, would express a hope that the transportation lines in China might be welded eventually into a unified system under Chinese control.

## FLORIDA ALIGATOR GOES BACK HOME

(By The Associated Press)  
CLEARWATER, Jan. 18.—There is an alligator in Stevenson's Creek here that probably is the happiest nurlin in Florida. After two years of captivity in Kentucky, during which he suffered intensely through the winter, the 'gator has returned to his native climate and is spending his days now basking in the sunshine and wondering whether the visit to the Blue Grass state was a dream or a reality.

Mr. and Mrs. D. T. Matlack took with them to their home in Winchester, two years ago, two small alligators captured on the gulf course here. One died after a few months but the other refused to give up. Mr. and Mrs. Matlack returned to Clearwater last week for the winter brought the homesick 'gator with them. The first thing they did on their arrival was to take the reptile to the golf course and liberate it, and the first move the 'gator made was toward Stevenson's Creek, its former home.

Nearly everything has improved in the last four thousand years except methods of taxation.

**ORLANDO BUYS COURTHOUSE**

ORLANDO, Jan. 11.—As the result of two days' negotiations, the Orange county courthouse and jail was sold to the city or Orlando this afternoon for \$137,500, splitting the difference in the figures asked and offered at the conclusion of yesterday's joint sessions of the city commission with the board of house to cost \$300,000 and shifts county commissioners. This transaction is the untangling of a complex situation and results in the acquisition by the city for city hall purposes of a building of unique fitness and beauty; makes possible the erection of a new Orange county courthouse to cost \$30,000 and shifts the erection of the new \$30,000 high school building from the west shore of Lake Eola to the north shore to make room for the new courthouse, both locations being ideally suited for their individual purposes.

**RUNAWAY BOYS CAUGHT HERE**

Rufael Farless, Henry Hinson and Etel Hinson aged 12 and nine respectively were picked up on the street by Officer Powell here this morning early after they had rolled out of a box car from Orlando. The parents of the farless boys had been searching for him in Orlando yesterday and could not find him. They will be held here probably wanted tonight et al di shr pending the arrival of their folks from Orlando today. The boys probably wanted to see the world and therefore came to Sanford.

The Evidence is at Your Door.

Sanford proof is what you want and the statement of this highly respected resident will banish all doubt:

W. A. Stafford, prop. plumbing establishment, 408 Holly Ave., Sanford, says: "Kidney complaint had annoyed me for some little while. I had backache so bad I couldn't stoop to pick up anything when working. I was pretty well handicapped. I was also afflicted with a kind of dizzy feeling and there were times when I could see dark specks in front of me. I felt generally run down. I doctored, but didn't get much benefit, so I sent for a box of Donn's Kidney Pills at Aldridge's Drug Store. I wasn't long in finding it soon cured me and I have remained free from kidney trouble for some years now."

A CITY'S OPPORTUNITIES

Frank Mulholland, a prominent business man of Toledo, Ohio, former president of the International Rotary Club and winter citizen of Lake County and one of Florida's greatest boosters addressed the Jacksonville Chamber of Commerce last week. He said in part:

To become a worth-while citizen, Mr. Mulholland pointed out, the individual must first sink selfish interests. This, is the real test of citizenship, and Jacksonville will become a great city only in the ratio that its citizens bury their personal, selfish ideals and work harmoniously for the advancement of the public cause.

"Whenever you find a leader you will find an optimist," he declared. "The optimist is a person who is leading a crowd. And when you find a knocker you will find a person who is being chased by a crowd. No community is large enough to harbor a knocker. They have no place in civic life, and their presence is always detrimental. Get rid of them. Convert them, if possible, but get rid of them by all means."

Life is simply a problem in banking. "You can receive just in the ratio that you give," he said. "You must put your best into life in order to take the best out of life. You must do your best for your community in order that it may become and remain the kind of community you want it to be."

"Jacksonville's opportunities are myriad. But they must be capitalized through faith and hard work. Your city can never be greater than your men and women. It can never grow greater than you individually are great in your community. The building of a city is not a work of nature, but is a task delegated to men and women, and it is a task of gigantic proportions."

"Service is the keynote," he continued, "of every success. The axiom applies to the development of cities as well as to the growth of individuals. You must serve your city faithfully and well, and it will reward you. Become laggard in your duty, and your city reflects your condition of enthusiasm. Be active, be enthusiastic and be constantly on the alert to advance your city's interests, and it will be the kind of place it should be. Your opportunities are here, but you must make the most of them through personal effort, through hard work and through whatever sacrifice may be necessary for the common good. When you resolve to do that and when you do it, you will build and will maintain a great city."

COLLECTS BUILDING FEES

(By The Associated Press) ST. PETERSBURG, Jan. 17.—The city building department here collected \$12,930 in fees during 1921 according to the annual report of Building Inspector J. P. McDevitt. Of the total the electrical inspector contributed \$3,626 and the plumbing inspector \$3,606. Mr. McDevitt's office accounting for the balance. The report showed inspection of 1,836 plumbing installations and 1,280 electrical jobs.

JACKSONVILLE LIGHT PLANT EARNS HALF A MILLION IN A YEAR

JACKSONVILLE, Jan. 16.—Gross earnings totaling \$1,078,891.27, and net earnings close to \$500,000 by the municipal electric light plant of Jacksonville during 1921 were disclosed in the statement just made public by City Auditor John E. Pace.

Total operating expense of the plant for the year amounted to approximately \$580,564, making the net earnings \$497,727.27. City Commissioner W. A. Evans is in direct supervision of the plant which is free from debt, except for outstanding bonds amounting to \$202,500 against the old electric plant.

The new plant is the city's greatest revenue producer and was constructed at a cost of \$635,000 from the earnings of the old plant. The earnings for 1921, according to Auditor Pace, went over the estimate by about \$53,000. O. S. Tyler is the active superintendent.

THE SANFORD BAND AT LAKE EOLA SUNDAY

In response to the invitation of the Orlando Chamber of Commerce the Sanford band, thirty strong, came over in busses and gave a fine concert at Lake Eola, for which a particular well selected program was given. The band has all the best instruments with them and they are very well trained, the director and leader being Mr. Atholhurst Ball, of Sanford, who wields the baton very gracefully.

The solo vocalist was Mr. Charles Brady, who used the megaphone to carry his voice to a greater distance, which was appreciated by those at the edge of the big crowd that had assembled for the music. His numbers were all well given, especially "The Holy City" which was a splendid rendition. His selections comprised "Oh, What a Pal Was Mary," "The Holy City" and "On the Trail of Home, Sweet Home."

Of special interest was the cornet playing of Master Johnny Schirard, a boy of 12 or 13 years, who has so much talent that he will certainly win a high place for himself in the musical world. He gave "Little Crumbs of Happiness" with the cornets in the band playing an obligato and the rest of the band in a soft accompaniment.

There was a big crowd present, showing how much band music means to the people here, especially the tourists, who were out in great numbers. —Reporter-Star.

ENFORCING TRAFFIC LAWS

(By The Associated Press) JACKSONVILLE, Jan. 17.—A recent spurt by local officials in the enforcement of the traffic ordinances resulted in the arrest of 61 persons in seven days. Twenty of this number forfeited bonds ranging from \$5 to \$50. The weeks activities are reported as having netted the city some \$800 in fines and forfeited bonds.

AUCTIONEERS MUST HAVE LICENSE

(By The Associated Press) ST. PETERSBURG, Jan. 17.—The controversy as to whether the city can require a license fee of \$250 from an auctioneer for a permit to ply his trade is again to be aired in the courts here.

Charles Powell, refused to pay the amount, claiming to be excessive. He was haled before Municipal Judge Spear who designated Judge W. C. KKing to settle the issue. Judge Spear having served as an attorney in previous litigation regarding the constitutionality of the ordinance.

CONCRETE BRIDGE FOR PALATKA

(By The Associated Press) PALATKA, Jan. 17.—The building of a concrete bridge across the St. Johns river is being discussed by members of the Rotary club, which at a recent luncheon was told by an engineer that a structure, of reinforced concrete and with a jack-knife draw could be erected for \$300,000. Such a bridge would be free from maintenance cost except for the slight expense of operating the draw. A wooden highway bridge, in addition to the Florida East Coast Railroad now spans the river here.

BUILDING NEW BALL PARK

(By The Associated Press) ST. PETERSBURG, Jan. 17.—The board of governors of the Chamber of Commerce has loaned the St. Petersburg Athletic Association \$2,500 to be used in completing the work on the waterfront baseball grounds. The ball park is to be used by the Boston Braves as a spring training ground and also by the local team of the Florida State League.

B. S. A. JUNIORS VS. DE-LAND GRAMMAR SCHOOL

A fast and exciting basket ball game was pulled off Saturday night in the Parish House between the Junior team of the Brotherhood of St. Andrew and DeLand Grammar School Boys. The following lineup represented the Brotherhood, George Wilson, Alby Speer, Joe Meisch, Bill Gillen, Frank Chase, Leonard McLucas acted as referee. After some smart play in which the B. S. A. threatened DeLand goal the visitors secured the ball and scored the first goal. However we soon equalized and the home boys showing better skill in team work. Alby Speer and Frank Chase piled up the score and when time was called the Brotherhood had 18 to 4 in their favor. Score ended at first half, Sanford 6 DeLand 2. The defensive work of the entire Brotherhood team was the outstanding feature of the game. Alby Speer dropped three or four beautiful shots through the hoop. A return will be played in the near future, Chris Matthews of the Senior B. S. A. whipped our lads into trim, devoting one night each week coaching and training the Juniors.

DEATH OF MRS. PHOEBE MC-DOUGALL

WEEDS BREED THIRPS

As the time approaches for the blooming of citrus trees, it is important that the grower free his grove of weeds which are harboring thrips, if he has not already done so. Such weeds are mostly those with large blossoms attractive to thrips.

groves of the southern part of the state, is one of the most important winter hosts of thrips. This often grows along the banks of ditches and other out-of-the-way places not usually reached by the cultivator. Such places should be mown. Professor J. R. Watson, entomologist of the Florida Experiment Station, says that the blossoms of this plant will harbor as many thrips as will orange blossoms and, if allowed to blossom all winter, will breed innumerable thrips to spread to the citrus blossoms as soon as they open.

The presence of these weeds in a grove always leads to a heavy infestation of thrips. Indeed, experience during the past season has shown that it is useless to spray for thrips as long as these weeds remain in the grove. Mowing them is a much cheaper and effective method of dealing with thrips than in spraying. Destroying them will not necessarily prevent an infestation of thrips. They often invade a grove in which there are no weeds. But the presence of weeds with attractive blossoms is almost sure to result in a heavy infestation. The weeds should be destroyed now, so that the infestation of thrips will have time to die out before the blossoms open.

The winged adults will fly away as soon as the blossoms wilt but the wingless young cannot fly and will remain on whatever vegetation they can find until they grow wings, a period of three or four weeks. Therefore, it is important that the weeds be cut at least a month before citrus trees blossom.

MAGNITUDE THAT ALMOST APPALS

The magnitude of D. W. Griffith's feat in staging "The Birth of a Nation" is almost appalling—at least to the devotees of the older theatre. Where now are the little groups of actors, the pinch-beck scenery and the petty properties of the so-called "legitimate" drama. By comparison with the new art, the "legitimate" is infinitesimal. For Griffith in staging "The Birth of a Nation" used nature for his background, 150 years of American history as his subject, 18,000 people as his actors, and no less than 3,000 mounts of cavalry in the celebrated "rides" of the Ku Klux Klan. After it was all completed he had an operatic score prepared and provided orchestral music worthy of Wagner. The motion picture spectacle in which these marvelous things are done will be shown here next Friday and Saturday at the Star Theatre.

Bread is being brought in from Toledo bakeries and being retailed at six cents. Tiffin bread retails at eight.

## ONLY 50 PER CENT OF ACTUAL FIGURES WERE GIV- EN IN OFFICIAL BUILDING PERMITS

JACKSONVILLE, Jan. 16.—Construction in Florida during 1921 easily exceeded the \$40,000,000 mark according to building material men and financial interests here, reports from ten cities of the state alone showing building permits issued to the value of \$22,915,836, a figure that is regarded as far below the actual cost of the projects authorized inasmuch as the proposed cost given when a building permit is obtained in Florida usually is from twenty-five to seventy-five per cent less than the actual outlay.

Financial circles here hold that the eleven cities reporting could not possibly represent fifty per cent of the new construction throughout the state during the year, for statistics were obtained only from a few points on the peninsula, no place west of Jacksonville being included. In the peninsula no reports were obtained from St. Petersburg, Daytona, Daytona Beach, Seabreeze, Fort Myers,

Kissimmee, Leesburg, the Everglades section, Clearwater, Ocala, Tarpon Springs and other points where construction throughout the year has been brisk, in most instances the lack of information being due to the fact that the smaller cities thus far have not organized municipal building departments through which accurate information may be obtained. In the case of the triple cities of Daytona, Daytona Beach and Seabreeze, however, the total for the year had exceeded the \$2,500,000 mark by December 1, while permits issued in St. Petersburg amounted to nearly \$6,000,000, the \$4,000,000 mark having been exceeded before November 30. Of the cities reporting, Miami led with \$5,410,300, Jacksonville was second with \$5,087,337 and Tampa third with \$4,048,077. Others reporting were DeLand with \$2,010,000; Orlando \$1,808,812, West Palm Beach \$1,353,355, Lakeland \$1,174,800, Palm Beach \$987,580; St. Augustine \$385,050; Sanford \$325,865 and Gainesville \$278,160. The figure for DeLand is an estimate made after a careful check of new construction completed or in progress during the year while those of the other cities are the values stated in the building permits.

Hotel and apartment house construction throughout the state totaled \$4,708,000 during the year according to the supervising architect of the State Hotel Commission but the structures in his report are included in the permit figures of various cities, Miami, Jacksonville, St. Petersburg, Tampa and Orlando accounting for the greater number.

The figures given for Tampa are for the city only, and do not embrace the more than a million dollars invested in new buildings in the immediate suburbs, including West Tampa, the area served by the Tampa public service corporations and spoken of as "Greater Tampa". There has been no extension of the city limits in 12 years, and there is today an area with a population of 30,000 not included in Tampa's census figures but being in reality integral part of the city and supported by the city's industries, which afford employment to the population of these large suburbs.

Actual construction in Orlando is placed by local building and financial interests at \$5,000,000, although the permits issued were slightly below the \$2,000,000 mark.

Indications are that the building boom which was launched throughout the state early in 1921 and which increased in volume as the year passed will continue through 1922, numerous projects being contemplated in several cities during the early part of this year. Buildings for Southern College at Lakeland, to cost \$750,000 and a hotel at Orlando to cost more than \$1,000,000 are among the projects to be carried out before next fall.

## STREET CAR STRIKE IS ON AT RICHMOND

ONLY FEW CARS BEING OPERAT-

IMPEDED

RICHMOND, Va., Jan. 16.—Only a few street cars are being operated on the main local lines of the Virginia Railway and Power Company here today following the strike of motormen, conductors and shopmen at 1 o'clock this morning. At Portsmouth all men are out and service is virtually at a standstill. Only one car on the entire system is running. Less than half of the cars on the Norfolk lines left the barns this morning and this number reduced as strikers persuaded their crews to leave posts. Employes ignored the strike order on lines at Petersburg and no interruption of service in that city as far as could be learned not a main failing to report for work.

## Wyatt Taylor Killed, Shot by a Negro at Mayo Saturday Night

(By The Associated Press)

MADISON, Jan. 16.—Wyatt R. Taylor, one of the best known naval stores men in West Florida was shot and killed at midnight Saturday in the negro quarters at Mayo by a negro known only as "Shorty." Reports say the negro had beaten his wife, and threatened to kill her. Taylor went to the scene in an attempt to settle the trouble. The negro fired with a shotgun loaded with buckshot, striking Taylor in the stomach. The negro escaped and posses are searching for him. Taylor left a bride of three months.

## CUT COTTON COST BY MAKING FOOD

Southern Farm Prosperity Absolutely  
Dependent on Cutting "Cash Crop"  
Production Cost Through Food-  
Making And Saving.

Atlanta, Georgia.—(Special).—The cotton farmer got his "bumps" again in 1921 between boll weevil, unfavorable seasons, food and grain buying on credit, combined with a price on cotton insufficient to "pay him out." Same old story, the same thing that has happened three or four times in the last dozen years," said H. G. Hastings, President of the Georgia Association, an organization for state wide development.

"We might just as well face the fact that with the world wide financial and political mix-up in Europe following the world war, there is no possible chance for using normal quantities of cotton at profitable prices to us if we continue to grow cotton on the high cost basis that we have been doing.

"Cotton is the one best money crop for the South, and probably always will be. The time of war prices is over and the problem from now on is to lower cost of production and at the same time afford the cotton grower a fair profit.

"Cost of making cotton is primarily the cost of food, grain and forage for the farmer, his family, his laborers or tenants, and his work stock. Cutting food, grain and forage costs by home production will reduce cotton costs from one-third to one-half.

"Plant for an abundance of food grain and forage, thus cutting down store bills, and the lower prices for cotton will not hurt so much. We can not, with European countries so thoroughly disorganized, reasonably expect high prices for cotton for several years and we must make cotton at low cost, or else quit cotton growing.

"Most of us cannot quit cotton hence the absolute necessity of food grain and forage planting; in 1922—the making on home acres of every pound of food and grain needed to see us through.

"In this food production program take the home vegetable garden seriously. Give the home garden a square deal, and it will surprise you in the amount of healthful food produced. It takes the least ground, can be planted the earliest, brings quick return and if kept replanted and worked will stay by you all the season through.

## SEMINOLE CO. FAIR THIS WEEK

Through the combined efforts of the Woman's Club and the Sanford Chamber of Commerce, Seminole county will again have a fair of its own, and the people of Seminole county will have the opportunity of seeing what their neighbors are doing and accomplishing from the fertile soil of the county.

This being the first attempt to revive the county fair and due to the short time the various committees had to complete arrangements, it will not be as elaborate as was originally contemplated. If the event should prove a success, as it no doubt will, the fair will be a fixed annual event in Seminole county and should eventually assume large proportions. However, the various committees promise a very creditable collection of exhibits and Frank Miller, who has handled Seminole County exhibits in the past at all fairs, is very much gratified at his success to date.

Inasmuch as a number of nationally prominent manufacturers have contracted for space and will provide demonstrators to preside at their booths, the fair will include industrial as well as agricultural features. It was for this reason that this as well as subsequent events of the kind will be known as the Seminole County Agricultural and Industrial Exhibit. The industrial display will be an innovation insofar as previous fairs in this county have been concerned, and the Woman's Club, which has had charge of this feature of the fair, have been very successful in the negotiations they have had with outside concerns.

No fair would be complete without a carnival, and the responsibility for the success of this feature has been left to the versatile Charles L. Bitt, who has a reputation for originality in this particular line. In addition to the carnival other forms of amusement will be provided, such as dancing and Captain Atkinson, owner of the good yacht Sanford will be on the job to take out any one who wants a boat ride.

A large number of visitors are expected from all sections of the county, and the Seminole County Agricultural and Industrial Exhibit will attract a great many from nearby counties. A great amount of publicity will be put out this week and those desiring information as to prizes and exhibits are requested to communicate with Frank T. Miller, who has this matter in charge. The big doings start Friday, January 20th and wind up the evening of Tuesday, January 24th.

Let everybody in Seminole county assist in making this a real big success thereby assuring future occasions of the kind.

Don't forget the dates, January 20, 21, 23 and 24, 1922.

## C. E. NOTES

Christian Endeavor held a most successful meeting last Sunday night.

Miss Caroline Dugan of the Thornwell orphanage told of the splendid work of the Christian Endeavor in the Orphanage. There are 371 young people in the orphanage and a Junior, Intermediate and Senior Christian Endeavor society which they attend. Many young men and young women are in the field as ministers and missionaries from this society besides many who are now studying to be life workers for Christ. Miss Dugan was raised in this Orphanage and is now a worker there.

It was suggested that C. E. have a social soon so a chicken pillow was decided upon to be held Friday evening, Jan. 20. Some discussion arose as to where it should be held, several suggestions being made, but the social committee decided upon Crystal Lake.

All members and those interested in Christian Endeavor work are asked to meet at the Presbyterian church Friday at 8:00 P. M.

The transportation committee will see that you get to the lake and the social committee will see that you have plenty to eat.

## BUT LITTLE HOPE FOR BONUS LEGISLATION

The Jacksonville Metropolis, whose editor, Maj. Quimby Melton, saw service overseas, is evidently impressed that the republican administration and the republican majority in congress have no serious purpose to pass the pending soldier bonus legislation, and the paper cites facts which seem to amply justify this conclusion.

Says the Metropolis on this subject of grave interest and importance to the men responded to the country's call when civilization was endangered:

The administration is playing politics to the ninth degree in keeping soldier bonus legislation always ahead for consideration. The American Legion and other organizations representing ex-service men should not be deceived by the scheme, because it is a scheme to win party favors, nothing more and if the ex-service men do not abandon the effort to secure a bonus for themselves the politicians will continue to flirt with this piece of legislation for many years to come. And all the politicians are not confined to the republican party—the democratic party has its share.

A dinner was given at the white house Saturday night at which various issues confronting the administration were discussed, and a soldier bonus plan was one of these. According to reports from the dinner, it is now planned to make the bonus dependable upon the payment of allied debts to the United States. Also, reports state, the bonus may be joined to the sales tax movement. Only a few weeks ago an effort was made to make a bonus possible through the legalized sales of light wines and beer.

So it goes. Bonus legislation will be, or is, so deep in politics that it can never be rescued.

Early in the administration the legislation actually was submitted for passage. But at the crucial moment President Harding stepped in and informed the members of the senate a bonus would play havoc with the national treasury. The senate therefore rejected the bonus bill. Then, in an effort to humiliate the administration, the democratic minority set out to force the bonus issue, and by so doing shifted the scenes entirely.

And yet ex-service men hold to the belief they are going to get a bonus

eventually. The politicians like for them to believe this, for it is a convenient bumper for other legislation. It is lamentable indeed that the young men of this nation who wore the uniform so admirably should have returned to civilized life to become the plaything of every political clique in the country. Whether they deserve it or not, ex-service men are not going to get a bonus. They should realize this and be guided by it.

## SEMINOLE COUNTY LEAGUE OF WOMEN VOTERS

The recently organized League of Women Voters for Seminole County is doing great work in the various precincts where chairmen have been elected. The activities of the organization's activities will be enlarged following the annual meeting of the State League in Jacksonville, January 26-28, when it is expected the state chairman, Mrs. J. B. O'Hara, of Lake Worth, will visit Sanford. A number of women from Seminole county are planning to attend the meeting in Jacksonville, among them Mrs. W. F. Blackman, the county chairman.

We miss the sun when it does not shine.

However, the sun is good to Florida and shines some 302 days in the year.

The prospects were never brighter for a big spring season in Sanford. From all accounts the celery and the spring crops will bring good money.

And the Sanford people are going ahead with the many big improvements that this city needs and must have. If we can get those five story buildings started our city will be a city sure enough.

Good news! W. T. Donnelly and family will arrive here tomorrow in their yachts to make a stay of a month or more. This is the man that has done and is doing so much for Sanford. Give them the glad hand.

Sanford just now occupies the position of a business man who has a good business and hates to enlarge it on account of the extra expense. We are in the same boat. We have the world at our feet but so many of us are well satisfied with things just as they are and hate to take on more business, float bonds for needed improvements, make a bigger town, get out and hustle, work harder, work faster, lose sleep on committee meetings of the Chamber of Commerce, don't want any clubs, don't want golf links, don't want to do anything that might disturb our peaceful slumbers or that will take more money. It is up to Sanford to make these improvements, bond the city, pay more money, do more work, assist nature in the wonderful developments in and around Sanford and we can then sit back in about ten years from now and let the younger generation do their share in paying for the bonds and keeping the city going and it will be a city of TWENTY-FIVE THOUSAND PEOPLE.

WHY THE WAILING?

The Orlando Reporter-Star seems to be dead against the city of Orlando owning their municipal plants. It says in part:

"It is doubtful if the people of Orlando realize the serious situation of the water and light question. It must be clear to every person who mingles with people from all walks of life and from all parts of the city, that the proposition to take over the property by the city, will be voted down. There seems to be an antipathy against voting the amount of bonds that will be required. In fact it looks like there will be a determined 'No' registered at the polls.

"The Reporter-Star has been neutral on this question, and still is. But when one takes his pencil and goes to the tax records and figures for a short time, he is appalled by what the forecast must be if the necessary millage is added for taking care of what would be necessary in case the city takes over the property. Under ordinary circumstances this paper would favor municipal ownership and operation by a non-partisan board of trustees. But the present tax situation makes this almost an unthinkable proposition."

We would like to have the Reporter-Star tell us if the question of taxes enters into the discussion at all in relation to the purchase of the utilities. Is it not a fact that the bond issue for utilities takes care of itself and the bonds issued are issued against the plants and the money from the operation of the plants is spent to retire the utility bonds and pay the interest on same. Does this plan not eliminate the question of the bonds and the money and all else as far as the tax payers are concerned. In other words Sanford expects to vote bonds for improvements soon. These bonds will be separate and distinct from the

bonds for public ownership even though they are all under one head. The bonds for public utilities come under a different head and are really not levied against the city but against the property itself and the municipal plants all over the state are making money and will soon pay off their bonds and the plants will be clear of debt. This is no argument against voting bonds for public utilities but might be used against the bonds for public improvements. We cannot see now and never will see why any sensible citizen would vote against the ownership of the public utilities when the facts and figures are so plain before him.

PROSPECTS ARE BRIGHTENING

From all manner of sources the information is now coming to tell of brighter times ahead for business in every form. The federal reserve board is showing ways for believing that the stringency and hesitation noticed in the money market for the last few months of 1921 will gradually pass into history and a new era of prosperity, with a general revival of activities will be ushered in during the first of 1922. The news is worth a great deal because it comes when cheerfulness, optimism and enterprise are most needed, and will strengthen the tone set and lead into a chorus of good times.

The Chicago Journal of Commerce, admittedly conservative, comes into the new year with the declaration that we should say, not "carry on" but "let's go." The former slogan, according to the Journal of Commerce, was indicative of desperation, a rallying of the reserves to combat an impending evil. Describing the situation when "carry on" was the watch word and rallying cry, the newspaper says:

A word of difference, as you see, between the conditions that inspire the one admonition and the conditions that inspire the other. There is nothing of desperation, nothing of hopelessness or forlorn hope, in either the business or social situation as they exist at this moment. We have carried on until the harassed foes of credit stringency, price deflation, labor unrest and international misgivings are about to drop. Decreasing unemployment causing improvement of buying power has reinforced the position of retailer, manufacturer, farmer, banker, and so on. This is all the result of carrying on. This carrying on that we have been doing has not ended the battle—it would be rash to argue that it has even gone so far as to turn its tide. Not even the greatest bear, or pessimist, however, can deny that it has checked it, bringing about a state of affairs which everywhere today justifies the cry of "Let's Go" to each other.

Financial and commercial publications of the country have within the past ten days reviewed the situation in the United States and unanimously report conditions excellent and improving. The trend of activities is in the right direction, the view is opening for investigations for manufacturers, for research and discovery. The country is on its feet again and going forward.

Of all the nations of the world the United States stands forward as solvent, progressive, enterprising and capable. Prosperous people, united in every proper cause and retaining individuality of thought and action in the pursuit of happiness, the American has nothing to deter him from gaining his desires and every incentive to combine for the advancement of his country. Good times appear ahead and the track is clear.—Times Union.

THE SILENT TREATMENT FOR FLORIDA CRITICS

The St. Petersburg Times calls upon the state press to give the "knockers" the silent treatment when Florida is the issue, pointing out that "Florida is a success—if it were not the 'knockers' would let it alone."

There is merit in The Times' suggestion, for the inclination to answer every Tom, Dick and Harry who criticizes Florida is strong among the people of the state as well as in the press, which is not strange, however, when the facts are considered. These defenses are prompted by a sense of devotion, themselves having such unlimited faith in Florida the people and the press stand ready at all times to brand a false colored statement. It is difficult indeed to remain silent when something that is very dear is being attacked.

But silence sometimes is the best policy of loyalty. Also, often it is best cure for "knockers." The contempt of silence—and this is the most effective form of contempt—is not relished by them. They like notoriety, their names in the papers, repudiations—and the great majority of them do not reserve passing consideration, as The Times says. Florida is bigger than all the critics. The state is established, a

wonder state, a thriving institution, and results speak for themselves. Anyway, no "knocker" was ever converted in an argument. The satisfaction of having been recognized merely serves to stimulate their bitterness.

The "knocker" is an appendix to creation. He thinks in destructive terms, barks when not even on a cold trail, because it is his habit to bark, and the harm he can do is never consequence. It might be the course of wisdom for the people and newspaper to realize this and remember it when two-by-four persons rise on their hind legs and howl at the moon. Florida will be here and prospering after they have shuffled off their mortal coils and are complaining in paradise or elsewhere because the music is too loud.—Jacksonville Metropolis.

ORLANDO'S SUB-TROPICAL FAIR.

It seems hardly more than a few days since we were hearing of the wonderful success of the last Sub-Tropical Mid-Winter Fair at Orlando; and here it is almost time for it to open its doors again!

The thirteenth annual exposition of this five-county association will open February 14, and for one week will be the center of interest to residents and visitors of a large party of the state. Its premium lists are being distributed and show a fine attention to detail in the matter of recognizing worth in many places in each department hitherto overlooked or ignored by other fair associations.

The 1922 Orlando Fair, for that is what everybody will call it despite its well-known honorable name; has every indication of being the most successful yet held by the organization. The officers and directors have given hard work and much time to building up a strong exhibition this year; and that they have succeeded is beyond doubt.

The men who are at the head of the association are those whose very names spell success. The president is Hon. W. R. O'Neal; C. E. Howard, the secretary and Hon. J. L. Giles is the treasurer. With these men a strong board of managing directors, and, under them, department superintendents of known ability and long experience.

The man or woman in reach of Orlando on St. Valentine's day who does not attend the opening of the Sub-Tropical Mid-Winter, five-county fair, and who does not spend that week, or most of it, inside the grounds, will miss a great opportunity to know what Central Florida is like, and what it is doing every year.—Tampa Tribune.

OUR BIRTHDAY

Today is the birthday of the editor of the Herald and early this morning before arising the following contributions came rolling in and almost submerged us:

The banks closed after cancelling our notes; ten boxes of Bankers' Choice cigars from John Mauser; week's groceries from L. P. McCuller and Deane Turner; Ford car from Ed. Higgins; house and lot from Frank P. Forster, another lot from Joe Laing; suit of clothes from Perkins & Britt and the Sanford Shoes & Clothing Co.; furniture from Frank Miller and Jack Davidson; diamond rings from Henry McLaulin and John Brady safety razors and pocket knife from Bob Newman and Joe Ba'; ham and eggs from Charlie Campbell; ten dollars a day from the Chamber of Commerce for attending meetings; a year's subscription from the only man in town who does not take the Daily Herald, etc., etc., etc., and then the blamed whistle blew and we woke up. But it is our birthday just the same.

Well, it takes a bright sun to make one get up in the morning—there is so much to keep you awake at night.

The fog lifted on a beautiful day.

Just another sign that behind the clouds the sun is still shining.

Our celebrated band will play at Central Park tonight, thru games of basket ball at the Parish House, two games at Leesburg, good picture at the Star and half a dozen other affairs. Some city, some city.

We want to congratulate the Sanford merchants for their wonderful support of their little Daily Herald. They are coming across with the big sales and the regular advertising and we appreciate it more than words can tell. Daily advertising will certainly make Sanford great.

SANFORD HIGH WINS FROM FAST STETSON "Y"

(From Thursday's Daily) Stetson Y. M. C. A. went down in defeat last night to one of the best teams ever put out by Sanford by the close score of 31-28.

Sanford was out to avenge the defeat handed to them by the Stetson "Y" early in the season, and with a do or die spirit started out to wade through the College boys. At the end of the first half the score was 10-12 in Sanford's favor. In the last half the Stetson team showed a complete reversal of form, and by some pretty shooting by Drew succeeded in tying the score only to have Sanford regain the lead with McLucas and Christensen shooting from all angles of the floor.

Sanford's superior passing swept the "Y" team completely off their feet, and with McLucas, McLaulin and Christensen shooting from all over the floor there was nothing for Stetson to do but to go down in defeat to a better team. McLaulin at center was the outstanding star in the first half, caging five field goals, and putting in a great defensive game.

McLucas at right forward set the crowd wild with his great hair raising shots, his side-stepping and ducking was unbeatable. Christensen at left forward played a fine game making some of the prettiest shots ever seen here. Cowan and Smith, the two guards, played a wonderful game, and by their spectacular guarding kept the "Y" boys in trouble all the time. Drew at right forward played a great game for the losers, caging 18 of his team's 28 points. McLucas was the leading scorer of the home boys with 16 points to his credit. Much credit for the success of the Sanford team is due to the able coaching of Mr. Wilkenson, who is putting the boys through a stiff practice every day.

MRS. GOODSPEED INJURED

(From Thursday's Daily) Mrs. Ralph Goodspeed was badly injured last night about nine o'clock being run down by a car as she stepped from the Gibson car in which she has been riding and was about to go into the home of her father, Capt. P. M. Elder on Oak avenue. Mrs. Goodspeed does not remember hearing the car or seeing it until it was upon her. Fortunately the car knocked her down and flat on the ground the car passed completely over her nose of the wheels touching her. The first impact however caused a bad cut in her head and several bruises but aside from that Mrs Goodspeed is all right today and rapidly recovering from the shock of the accident. The gash in her head required several stitches but her escape was so narrow that Mrs Goodspeed and her family are not worrying about what did happen but of what might have happened.

## ROTARY CLUB LADIES NIGHT, ONE BIG TIME

### ROTARIANS AND ROTARI-ANNS HAD MOST PLEASANT EVEN- AT VALDEZ HOTEL

(From Thursday's Daily)  
The Rotary Club chalked up another good time in the history of the club last night when the club had "ladies night" at an evening meeting and luncheon in the Palm Room at the Valdez Hotel.

The entertainment committee arranged a good program and President H. R. Stevens calling the meeting to order paid the ladies a fine compliment and said he hoped to have them present at least once a year at the meetings of the Rotary Club. He then turned the meeting over to R. J. Holly as toastmaster and song leader and there was something doing every minute for over one hour. The members and guests hardly had time to enjoy the excellent menu served by the popular Valdez Hotel in their usual capable style. The Rotarians and Rotari-Anns joined heartily in the songs and every member of the club was called upon to say something or do something. The toastmaster picked on Randall Chase as one of the new Baby Rotes to take a degree and he was made to stand on a chair with a napkin tied round his neck and a baby rattle in his hand while he took a solemn obligation to do various and sundry things which will be impossible for him to carry out but Randall was game and promised to do his best.

Miss Alyce Satterfield, the attractive guest of Mr. and Mrs. Deano Turner, was present and again captivated all present by her clever rendition of some good catchy songs accompanying herself on the ukelele and she was called upon again and again during the luncheon to give them another song. Miss Satterfield was one of the Y. M. C. A. girls sent to France during the war to keep up the spirits of the boys and the "Y" sent a good one when they chose Miss Satterfield.

Carl Jacobson, a Rotarian of Newark, N. J., who is in the city with his wife the guests of Col. and Mrs. Geo. W. Knight, was called upon for a few remarks and expressed himself as being carried away with Sanford and Sanford people where he had experienced that "good old Southern hospitality" of which he had heard so much but never experienced before coming to Sanford.

The singing of "America" and the "Little Sanford Flower" finished the evening's enjoyment and the entire party adjourned to the dining room where Peter Schaal and Al Witherington played that dance music that refuses to allow your feet to stand still and for another hour the Rotarians and their guests enjoyed the dance and then departed for their homes with the feeling that Rotary and Rotary banquets were just about the best in the whole world.

## LITTLE L. P. McCULLER BADLY INJURED YESTERDAY COLLIDED WITH AUTOMOBILE

L. P. McCuller, Jr., the little son of Mr. and Mrs. L. P. McCuller was seriously injured last evening near his home on Ninth street when he stepped in front of a passing car and was struck down before the driver could get away from him. The little fellow was with his nurse but broke away from her to run across the street and avoiding one car that was passing stepped in front of the one that struck him apparently never seeing the approaching car. He sustained a slight fracture of the skull. The car that hit him immediately picked him up and rushed him to the hospital where it was found that while his injuries were serious and very painful they were not necessarily fatal and the many friends of the bright little chap breathed a sigh of relief and sympathy for the parents.

It seems from all accounts of the accident that it was no fault of the driver of the car as the little chap did not see the car and stepped directly in its path running all the time and coming from behind the other car.

These accidents will happen and only go to show that the utmost care should be exercised by people driving cars all the time, by those walking and especially those who are crossing streets.

## School Children of Florida Show Friendship France

### State Superintendent Sheats Submits Report on French Restoration Fund Contributed by Public Schools

TALLAHASSEE, Jan. 18.—State Superintendent William N. Sheats has addressed the following letter to Hon. J. J. Tigert, commissioner bureau of education, Washington, Washington, D. C.

My Dear Sir:  
The following is the report of the French restoration fund contributed by the public schools of Florida, on France day, November 23, 1921, the day designated for the school children to give expression to their friendship for the people of the republic of France.

The report gives the amount contributed by counties—several counties reporting nothing, due either to the shortness of the notice given or to the some counties. Seventeen shirdu shir indifference of school officials of some counties. Seventeen counties out of sixty-one made contributions, as follows:

	Memorial	Shrine	School	Foch
	Fund	Fund	Medal	
Baker	\$ 3.42	\$	\$	
Bradford			5.00	
Calhoun	1.00			
DeSoto	15.35	14.42		
Dade	25.03		25.00	
Escambia	69.16			
Gadsden		2.61	2.61	
Glades	.23	.17		
Hardee	12.00	12.72		
Jefferson	3.00			
Lafayette		1.10		
Leon	3.68	3.68		
Osceola	14.47	10.30	10.00	
Polk	13.98	27.27		
Seminole	28.19			
Volusia	25.27	22.48		
Washington	1.00			
Totals	\$215.78	\$39.76	\$37.91	
Grand total			353.14	

It matters not how this fund was contributed, many were undecided how they desired it divided. Therefore, I authorize you to divide it among the three funds as circumstances may suggest, as you are in possession of the fact enabling you to make the wisest distribution of it.

Enclosed find cashier's check for the amount, \$353.14.

You will please see that this report and the fund are delivered to the proper custodian. We are sorry the amount is so small, due largely to the shortness of the notice requesting the observance of France day.

Yours respectfully,  
W. N. SHEATS,  
State Supt.

Since forwarding the letter, however there was received in Saturday's mail from Palm Beach county, the sum of \$35.67 to be added to the fund, so that the total from Florida has been increased to \$388.81.

## LONGWOOD

Mrs. A. Y. Fuller and daughter Frances were visitors in Orlando Wednesday.

Mrs. J. S. Dinkel, Miss Olive Dinkel, Mrs. Edwin Dinkel, and Mrs. E. D. Benger were visitors in Orlando Wednesday.

Mr. John Dunbar and Miss Elsie and Mrs. E. E. Hardy were shopping in Sanford Wednesday.

Mr. and Mrs. Ray and daughter Miss Maude of Indiannapolis and H. F. Phipps of Tampa were the guest of J. E. Phipps a few days this week.

The property formally owned by Mrs. W. S. Entzinger of Plant City and now occupied by Overstreet and Payne as grocery store has recently changed owners and is now owned by J. W. Schuman of Millford, Conn. We understand there will be no immediate changes and will be still occupied by Overstreet & Payne. Mr. Schuman we learn is a very energetic man and we trust will make for the betterment of Longwood.

Miss Margaret Stuart spent the week end with her mother Mrs. Geo. Stuart. Miss Margaret is attending the Sanford High School.

Claude Hincheliff has bought five acres of truck land on the Wekiva River and will put in a crop of potatoes at once.

Louis Entzinger of Clearwater was visiting his parents Mr. and Mrs. C. W. Entzinger Sunday.

Mr. A. Buck who has sold out his store in Sanford is building a store building near his residence in South Longwood.

S. A. B. Wilkinson of Sanford was the guest of Mr. and Mrs. Bill Allen for the week end.

Mr. and Mrs. B. C. Hartly and children and Miss DeBoe of Cloverland were the guest of Mr. and Mrs. Jack Hartley Sunday.

Mrs. R. J. Reiter entertained Saturday eve with a candy pull in honor of Miss Helen Moran. At a late hour refreshments were served. There were many from Longwood and D. D. Moran and a crowd from Geneva motored over. Miss Helen returned with them.

Col. Haines of Altamonte entertained the children and "grown up folks" of Longwood Friday P. M. at his theatre Jessamine. Everyone was invited to take a ride on his Yacht Kathryn but a rope became entangled in the rudder so was unable to take the ride. Everyone had a most enjoyable time.

Mrs. and Mrs. A. Y. Fuller were visitors in Sanford Tuesday.

## LIGHT FINGERED NEGROES WORE PERKINS & BRITT SUITS BUT WILL NOW WEAR STRIPES

Griffin Claire, Richard Claire and John Wesley, negroes who have been working in the pressing club of Clyde Chapman in the rear of Perkins & Britt's store are in jail awaiting the action of the circuit court being bound over in the city court this morning by Judge Marines on the charge of stealing clothing. Perkin & Britt have been missing stuff from the store for some time but suspicion was not directed to the pressing club until a slight clue was followed up this week when many suits of clothes and bath robes and other articles were found at the homes of the negroes in question and it was found that they had been carrying on a system of swiping

clothes for some time. The case will not come up until the next term of the circuit court.

On and after the first of February the Weekly Herald will be \$2.00 per year instead of \$2.50. The Herald will put on a campaign at that time and wants every one in Seminole county to subscribe for the Weekly.

We miss the sun when it does not shine.

However, the sun is good to Florida and shines some 302 days in the year.

The prospects were never brighter for a big spring season in Sanford. From all accounts the celery and the spring crops will bring good money.

And the Sanford people are going ahead with the many big improvements that this city needs and must have. If we can get those five story buildings started our city will be a city sure enough.

Good news! W. T. Donnelly and family will arrive here tomorrow in their yachts to make a stay of a month or more. This is the man that has done and is doing so much for Sanford. Give them the glad hand.

Sanford just now occupies the position of a business man who has a good business and hates to enlarge it on account of the extra expense. We are in the same boat. We have the world at our feet but so many of us are well satisfied with things just as they are and hate to take on more business, float bonds for needed improvements, make a bigger town, get out and hustle, work harder, work faster, lose sleep on committee meetings of the Chamber of Commerce, don't want any clubs, don't want golf links, don't want to do anything that might disturb our peaceful slumbers or that will take more money. It is up to Sanford to make these improvements, bond the city, pay more money, do more work, assist nature in the wonderful developments in and around Sanford and we can then sit back in about ten years from now and let the younger generation do their share in paying for the bonds and keeping the city going and it will be a city of TWENTY-FIVE THOUSAND PEOPLE.

**WHY THE WAILING?**

The Orlando Reporter-Star seems to be dead against the city of Orlando owning their municipal plants. It says in part:

"It is doubtful if the people of Orlando realize the serious situation of the water and light question. It must be clear to every person who mingles with people from all walks of life and from all parts of the city, that the proposition to take over the property by the city, will be voted down. There seems to be an antipathy against voting the amount of bonds that will be required. In fact it looks like there will be a determined 'No' registered at the polls.

"The Reporter-Star has been neutral on this question, and still is. But when one takes his pencil and goes to the tax records and figures for a short time, he is appalled by what the forecast must be if the necessary millage is added for taking care of what would be necessary in case the city takes over the property. Under ordinary circumstances this paper would favor municipal ownership and operation by a non-partisan board of trustees. But the present tax situation makes this almost an unthinkable proposition."

We would like to have the Reporter-Star tell us if the question of taxes enters into the discussion at all in relation to the purchase of the utilities. Is it not a fact that the bond issue for utilities takes care of itself and the bonds issued are issued against the plants and the money from the operation of the plants is spent to retire the utility bonds and pay the interest on same. Does this plan not eliminate the question of the bonds and the money and all else as far as the tax payers are concerned. In other words Sanford expects to vote bonds for improvements soon. These bonds will be separate and distinct from the

bonds for public ownership even though they are all voted in together. The bonds for public utilities come under a different head and are really not levied against the city but against the property itself and the municipal plants all over the state are making money and will soon pay off their bonds and the plants will be clear of debt. This is no argument against voting bonds for public utilities but might be used against the bonds for public improvements. We cannot see now and never will see why any sensible citizen would vote against the ownership of the public utilities when the facts and figures are so plain before him.

**PROSPECTS ARE BRIGHTENING**

From all manner of sources the information is now coming to tell of brighter times ahead for business in every form. The federal reserve board is showing ways for believing that the stringency and hesitation noticed in the money market for the last few months of 1921 will gradually pass into history and a new era of prosperity, with a general revival of activities will be ushered in during the first of 1922. The news is worth a great deal because it comes when cheerfulness, optimism and enterprise are most needed, and will strengthen the tone set and lead into a chorus of good times.

The Chicago Journal of Commerce, admittedly conservative, comes into the new year with the declaration that we should say, not "carry on" but "let's go." The former slogan, according to the Journal of Commerce, was indicative of desperation, a rallying of the reserves to combat an impending evil. Describing the situation when "carry on" was the watch word and rallying cry, the newspaper says:

A word of difference, as you see, between the conditions that inspire the one admonition and the conditions that inspire the other. There is nothing of desperation, nothing of hopelessness or forlorn hope, in either the business or social situation as they exist at this moment. We have carried on until the harassed foes of credit stringency, price deflation, labor unrest and international misgivings are about to drop. Decreasing unemployment causing improvement of buying power has reinforced the position of retailer, manufacturer, farmer, banker, and so on. This is all the result of carrying on. This carrying on that we have been doing has not ended the battle—it would be rash to argue that it has even gone so far as to turn its tide. Not even the preatest bear, or pessimist, however, can deny that it has checked it, bringing about a state of affairs which everywhere today justifies the cry of "Let's Go" to each other.

Financial and commercial publications of the country have within the past ten days reviewed the situation in the United States and unanimously report conditions excellent and improving. The trend of activities is in the right direction, the view is opening for investigations for manufacturers, for research and discovery. The country is on its feet again and going forward.

Of all the nations of the world the United States stands forward as solvent, progressive, enterprising and capable. Prosperous people, united in every proper cause and retaining individuality of thought and action in the pursuit of happiness, the American has nothing to deter him from gaining his desires and every incentive to combine for the advancement of his country. Good times appear ahead and the track is clear.—Times Union.

**THE SILENT TREATMENT FOR FLORIDA CRITICS**

The St. Petersburg Times calls upon the state press to give the "knockers" the silent treatment when Florida is the issue, pointing out that "Florida is a success—if it were not the 'knockers' would let it alone."

There is merit in the Times suggestion, for the inclination to answer every Tom, Dick and Harry who criticizes Florida is strong among the people of the state as well as in the press, which is not strange, however, when the facts are considered. These defenses are prompted by a sense of devotion, themselves having such unlimited faith in Florida the people and the press stand ready at all times to brand a false colored statement. It is difficult indeed to remain silent when something that is very dear is being attacked.

But silence sometimes is the best policy of loyalty. Also, often it is the best cure for "knockers." The contempt of silence—and this is the most effective form of contempt—is not relished by them. They like notoriety, their names in the papers, repudiations—and the great majority of them do not reserve passing consideration, as The Times says.

Florida is bigger than all the critics. The state is established, a

wonder state, a thriving institution, and results speak for themselves. Anyway, no "knocker" was ever converted in an argument. The satisfaction of having been recognized merely serves to stimulate their bitterness.

The "knocker" is an appendix to creation. He thinks in destructive terms, barks when not even on a cold trail, because it is his habit to bark, and the harm he can do is never consequence. It might be the course of wisdom for the people and newspaper to realize this and remember it when two-by-four persons rise on their hind legs and howl at the moon, Florida will be huffed and prospering after they have shuffled off their mortal coils and are complaining in paradise or elsewhere because the music is too loud.—Jacksonville Metropolis.

**ORLANDO'S SUB-TROPICAL FAIR.**

It seems hardly more than a few days since we were hearing of the wonderful success of the last Sub-Tropical Mid-Winter Fair at Orlando; and here it is almost time for it to open its doors again!

The thirteenth annual exposition of this five-county association will open February 14, and for one week will be the center of interest to residents and visitors of a large part of the state. Its premium lists are being distributed and show a fine attention to detail in the matter of recognizing worth in many places in each department hitherto overlooked or ignored by other fair associations.

The 1922 Orlando Fair, for that is what everybody will call it despite its well-known honorable name, has every indication of being the most successful yet held by the organization. The officers and directors have given hard work and much time to building up a strong exhibition this year; and that they have succeeded is beyond doubt.

The men who are at the head of the association are those whose very names spell success. The president is Hon. W. R. O'Neal; C. E. Howard, is the secretary and Hon. J. L. Giles is the treasurer. With these men a strong board of managing directors, and, under them, department superintendents of known ability and long experience.

The man or woman in reach of Orlando on St. Valentine's day who does not attend the opening of the Sub-Tropical Mid-Winter, five-county fair, and who does not spend that week, or most of it, inside the grounds, will miss a great opportunity to know what Central Florida is like, and what it is doing every year.—Tampa Tribune.

**OUR BIRTHDAY**

Today is the birthday of the editor of the Herald and early this morning before arising the following contributions came rolling in and almost submerged us:

The banks closed after cancelling our notes; ten boxes of Bankers' Choice cigars from John Mauser; week's groceries from L. P. McCuller and Deane Turner; Ford car from Ed. Higgins; house and lot from Frank P. Forster, another lot from Joe Laing; suit of clothes from Perkins & Britt and the Sanford Shoe & Clothing Co.; furniture from Frank Miller and Jack Davidson; diamond rings from Henry McLaughlin and John Brady safety razor and pocket knife from Bob Newman and Joe Ball; ham and eggs from Charlie Campbell; ten dollars a day from the Chamber of Commerce for attending meetings; a year's subscription from the only man in town who does not take the Daily Herald, etc., etc., etc., and then the blamed whistle blew and we woke up. But it is our birthday just the same.

Well, it takes a bright sun to make one get up in the morning—there is so much to keep you awake at night.

The fog lifted on a beautiful day.

Just another sign that behind the clouds the sun is still shining.

Our celebrated band will play at Central Park tonight, three games of basket ball at the Parish House, two games at Leesburg, good picture at the Star and half a dozen other affairs. Some city, some city.

We want to congratulate the Sanford merchants for their wonderful support of their little Daily Herald. They are coming across with the big sales and the regular advertising and we appreciate it more than words can tell. Daily advertising will certainly make Sanford great.

Everybody who tries Tanlac has something good to say about it.—Union Pharmacy.—Adv.

**SANFORD HIGH WINS FROM FAST STETSON "Y"**

(From Thursday's Daily)  
 Stetson Y. M. C. A. went down in defeat last night to one of the best teams ever put out by Sanford by the close score of 31-28.

Sanford was out to avenge the defeat handed to them by the Stetson "Y" early in the season, and with a do or die spirit started out to wade through the College boys. At the end of the first half the score was 10-12 in Sanford's favor. In the last half the Stetson team showed a complete reversal of form, and by some pretty shooting by Drew succeeded in tying the score only to have Sanford regain the lead with McLucas and Christensen shooting from all angles of the floor.

Sanford's superior passing swept the "Y" team completely off their feet, and with McLucas, McLaughlin and Christensen shooting from all over the floor there was nothing for Stetson to do but to go down in defeat to a better team. McLaughlin at center was the outstanding star in the first half, caging five field goals, and putting on a great defensive game.

McLucas at right forward set the crowd wild with his great hair raising shots, his side-stepping and ducking was unbeatable. Christensen at left forward played a fine game making some of the prettiest shots ever seen here. Cowan and Smith, the two guards, played a wonderful game, and by their spectacular guarding kept the "Y" boys in trouble all the time. Drew at right forward played a great game for the losers, caging 18 of his team's 28 points. McLucas was the leading scorer of the home boys with 16 points to his credit. Much credit for the success of the Sanford team is due to the able coaching of Mr. Wilkinson, who is putting the boys through a stiff practice every day.

**MRS. GOODSPEED INJURED**

(From Thursday's Daily)  
 Mrs. Ralph Goodspeed was badly injured last night about nine o'clock being run down by a car as she stepped from the Gibson car in which she has been riding and was about to go into the home of her father, Capt. P. M. Elder on Oak avenue. Mrs. Goodspeed does not remember hearing the car or seeing it until it was upon her. Fortunately the car knocked her down and flat on the ground the car passed completely over her nose of the wheels touching her. The first impact however caused a bad cut in her head and several bruises but aside from that Mrs. Goodspeed is all right today and rapidly recovering from the shock of the accident. The gash in her head required several stitches but her escape was so narrow that Mrs. Goodspeed and her family are not worrying about what did happen but of what might have happened.

# CIRCUIT COURT ADJOURNED TUESDAY FOR THE TERM; MANY CASES HANDLED

## Civil Docket Well Cleaned Up During the Term of Court Just Ended

Circuit Court convened Monday at 10 a. m., and the following cases were called:

K. R. Murrell vs. Forest Lake, administrator of the estate of Frank Cameron, deceased; damages \$900.00. This cause coming on to be heard, and the plaintiff being represented in court by John G. Leonard, and Geo. G. Herring, and the defendant being present in court attended by his counsel, Geo. A. DeCottes, on motion of the attorneys for the plaintiff, a non-suit is entered by the court.

The sheriff having made return of the regular venire of eighteen the following answered to their names: J. W. Bell, B. W. Herndon, R. B. Lynch, D. L. Long, H. H. Pattishall, R. F. Washburn, J. W. Fortier, R. A. Newman, Ben Smith, J. F. Mitchell, J. M. Vining, R. A. Green, C. W. Culpepper, J. W. Flynt, J. E. Snyder and S. M. Doane.

The following were not found in the county: M. B. Burkelt and P. S. Cleveland.

The following were excused by the court: J. E. Snyder.

Welch Furniture Co., a corporation, vs. D. A. Caldwell, D. D. Caldwell and H. W. Caldwell, late co-partners trading and doing business as D. A. Caldwell & Sons; damages \$800.00. This cause coming on to be heard, the plaintiff being represented in court by Attorneys J. E. Ricketson and R. S. Field, and the defendants not being represented, comes now six good and lawful men to serve as jurors, to-wit: J. W. Bell, B. W. Herndon, J. W. Fortier, R. A. Newman, C. W. Culpepper, J. W. Flynt, the jury being accepted, were sworn according to law, and after hearing all of the evidence the court directed the following verdict: Judgment for plaintiff in sum of \$481.50 and interest from November 17, 1914, at 8 per cent.

Emil Mach, and Earnest Mach, co-partners doing business as Mach Bros., vs. Frank Blair, Replevin. This cause coming on to be heard, and the plaintiffs being present in open court attended by their counsel, Johnston & Garrett, also comes the defendant attended by his counsel, Geo. A. DeCottes, and this cause being at issue, comes now six good and lawful men to serve as jurors, to-wit: R. B. Lynch, J. F. Mitchell, Ben Smith, H. H. Pattishall, D. L. Long and J. M. Vining. The jury being accepted by both the attorneys for the plaintiff, and the attorney for the defendant, were sworn according to law, and after hearing all of the evidence in the case, and the arguments of counsel, and being charged by the court, they retired to their room to consider their verdict. The jury here entered open court and presented a verdict for defendant. Attorneys for the plaintiffs here made motion for a new trial.

Jacob D. Hornstein and Emil Crochin, co-partners doing business under the name and style of Wear-Well Pants Co., vs. Chas. Kanner; damages \$1,000. ## ROTARY CLUB LADIES NIGHT, ONE BIG TIME

### ROTARIANS AND ROTARIANNS HAD MOST PLEASANT EVENING AT VALDEZ HOTEL

(From Thursday's Daily)  
The Rotary Club chalked up another good time in the history of the club last night when the club had "adies night" at an evening meeting and luncheon in the Palm Room at the Valdez Hotel.

The entertainment committee arranged a good program and President H. R. Stevens calling the meeting to order paid the ladies a fine compliment and said he hoped to have them present at least once a year at the meetings of the Rotary Club. He then turned the meeting over to R. J. Holly as toastmaster and song leader and there was something doing every minute for over one hour. The members and guests hardly had time to enjoy the excellent menu served by the popular Valdez Hotel in their usual capable style. The Rotarians and Rotari-Anns joined heartily in the songs and every member of the club was called upon to say something or do something. The toastmaster picked on Randall Chaso as one of the new Baby Rotes to take a degree and he was made to stand on a chair with a napkin tied round his neck and a baby rattle in his hand while he took a solemn obligation to do various and sundry things which will be impossible for him to carry out but Randall was game and promised to do his best.

Miss Alyce Satterfield, the attractive guest of Mr. and Mrs. Deane Turner, was present and again captivated all present by her clever rendition of some good catchy songs accompanying herself on the ukelele and she was called upon again and again during the luncheon to give them another song. Miss Satterfield was one of the Y. M. C. A. girls sent to France during the war to keep up the spirits of the boys and the "Y" sent a good one when they chose Miss Satterfield. Carl Jacobson, a Rotarian of Newark, N. J., who is in the city with his wife the guests of Col. and Mrs. Geo. W. Knight, was called upon for a few remarks and expressed himself as being carried away with Sanford and Sanford people who he had experienced that "good old Southern hospitality" of which he had heard so much but never experienced before coming to Sanford.

The singing of "America" and the "Little Sanford Flower" finished the evening's enjoyment and the entire party adjourned to the dining room where Peter Schaal and Al Witherington played that dance music that refuses to allow your feet to stand still and for another hour the Rotarians and their guests enjoyed the dance and then departed for their homes with the feeling that Rotary and Rotary banquets were just about the best in the whole world.

### LITTLE L. P. McCULLER BADLY INJURED YESTERDAY COLLIDED WITH AUTOMOBILE

L. P. McCuller, Jr., the little son of Mr. and Mrs. L. P. McCuller was seriously injured last evening near his home on Ninth street when he stepped in front of a passing car and was struck down before the driver could get away from him. The little fellow was with his nurse but broke away from her to run across the street and avoiding one car that was passing stepped in front of the one that struck him apparently never seeing the approaching car. He sustained a slight fracture of the skull. The car that hit him immediately picked him up and rushed him to the hospital where it was found that while his injuries were serious and very painful they were not necessarily fatal and the many friends of the bright little chap breathed a sigh of relief and sympathy for the parents. It seems from all accounts of the accident that it was no fault of the driver of the car as the little chap did not see the car and stepped directly in its path running all the time and coming from behind the other car.

These accidents will happen and only go to show that the utmost care should be exercised by people driving cars all the time, by those walking and especially those who are crossing streets.

### School Children of Florida Show Friendship France

State Superintendent Sheats Submits Report on French Restoration Fund Contributed by Public Schools

TALLAHASSEE, Jan. 18.—State Superintendent William N. Sheats has addressed the following letter to Hon. J. J. Tigert, commissioner bureau of education, Washington: Hon. J. J. Tigert, Commissioner, Bureau Education, Washington, D. C.

My Dear Sir: The following is the report of the French restoration fund contributed by the public schools of Florida, on France day, November 23, 1921, the day designated for the school children to give expression to their friendship for the people of the republic of France.

The report gives the amount contributed by counties—several counties reporting nothing, due either to the shortness of the notice given or to the same counties. Seventeen shridu shr indifferene of school officials of some counties. Seventeen counties out of sixty-one made contributions, as follows:

	Memorial Shrine Fund	School Fund	Foch Medal
Baker	\$ 3.42	\$	\$
Bradford		5.00	
Calhoun	1.00		
DeSoto	15.35	14.42	
Dade	25.03		25.00
Escambia	69.16		
Gadsden		2.61	2.61
Glades	.23	.17	
Hardee	12.00	12.72	
Jefferson	3.00		
Lafayette		1.10	
Leon	3.68	3.68	
Osceola	14.47	10.30	10.00
Polk	13.98	27.27	
Seminole	28.19		
Volusia	25.27	22.48	
Washington	1.00		
Totals	\$216.78	\$39.76	\$37.61
Grand total			\$53.14

It matters not how this fund was contributed, many were undecided how they desired it divided. Therefore, I authorize you to divide it among the three funds as circumstances may suggest, as you are in possession of the fact enabling you to make the wisest distribution of it.

Enclosed find cashier's check for the amount, \$353.14.

You will please see that this report and the fund are delivered to the proper custodian. We are sorry the amount is so small, due largely to the shortness of the notice requesting the observance of France day.

Yours respectfully,  
W. N. SHEATS,  
State Supt.

Since forwarding the letter, however there was received in Saturday's mail from Palm Beach county, the sum of \$35.67 to be added to the fund, so that the total from Florida has been increased to \$388.81.

Mr. John Dunbar and Miss Elsie and Mrs. E. E. Hardy were shopping in Sanford Wednesday.

Mr. and Mrs. Ray and daughter Miss Maude of Indianapolis and H. F. Phipps of Tampa were the guest of J. E. Phipps a few days this week.

The property formally owned by Mrs. W. S. Entzinger of Plant City and now occupied by Overstreet and Payne as grocery store has recently changed owners and is now owned by J. W. Schuman of Milford, Conn. We understand there will be no immediate changes and will be still occupied by Overstreet & Payne. Mr. Schuman we learn is a very energetic man and we trust will make for the betterment of Longwood.

Miss Margaret Stuart spent the week end with her mother Mrs. Geo. Stuart. Miss Margaret is attending the Sanford High School.

Claude Hinchcliff has bought five acres of truck land on the Wekiva River and will put in a crop of potatoes at once.

Louis Entzinger of Clearwater was visiting his parents Mr. and Mrs. C. W. Entzinger Sunday.

Mr. A. Buck who has sold out his store in Sanford is building a store building near his residence in South Longwood.

S. A. B. Wilkinson of Sanford was the guest of Mr. and Mrs. Bill Allen for the week end.

Mr. and Mrs. B. C. Hartly and children and Miss DeBoe of Cloverland were the guest of Mr. and Mrs. Jack Hartley Sunday.

Mrs. R. J. Reiter entertained Saturday eve. with a candy pull in honor of Miss Helen Moran. At a late hour refreshments were served. There were many from Longwood and D. D. Moran and a crowd from Geneva motored over. Miss Helen returned with them.

Col. Haines of Altamonte entertained the children and "krown up folks" of Longwood Friday P. M. at his theatre Jessimine. Everyone was invited to take a ride on his Yacht Kathryn but a rope became entangled in the rudder so was unable to take the ride. Everyone had a most enjoyable time.

Mrs. and Mrs. A. Y. Fuller were visitors in Sanford Tuesday.

### LIGHT FINGERED NEGROES WORE PERKINS & BRITT SUITS BUT WILL NOW WEAR STRIPES

Griffin Claife, Richard Claife and John Wesley, negroes who have been working in the pressing club of Clyde Chapman in the rear of Perkins & Britt's store are in jail awaiting the action of the circuit court being bound over in the city court this morning by Judge Marines on the charge of stealing clothing. Perkin & Britt have been missing stuff from the store for some time but suspicion was not directed to the pressing club until a slight clue was followed up this week when many suits of clothes and bath robes and other articles were found at the homes of the negroes in question and it was found that they had been carrying on a system of swiping

clothes for some time. The case will not come up until the next term of the circuit court.

# CIRCUIT COURT GRINDS OUT MANY CIVIL CASES

Friday and Saturday Were Not Filled With Thrills

ALMOST THROUGH

FALL TERM OF CIRCUIT COURT WILL SOON BE MATTER OF HISTORY

Circuit court Friday morning took up the following cases:

The Director General of Railroads vs. A. D. Zachary, damages \$6,000.00. This cause coming on to be heard, and the plaintiff being present in open court, by their counsel, Landis, Fish & Hull, and the defendant also being present in open court, attended by his counsel, E. F. Housholder, and the said cause being at issue comes now six good and lawful men to serve a juror's, to-wit: D. H. C. Rabun, G. T. Dyer, J. C. Spinks, Fred Ballard, E. J. Rivers, and E. D. Mobley, the above jury being examined and accepted by both the attorneys for the plaintiff and the attorney for the defendant, they were sworn according to law.

The hearing of the evidence was here taken up.

Court took a recess until 9 o'clock a. m. Saturday.

Saturday morning the Circuit Court took up the following cases.

The State of Florida vs. Henry Ford, assault with intent to commit murder in the first degree. On motion of State Attorney Geo. A. DeCottes, the above cause is hereby nolle prossed.

The State of Florida vs. Louis Knight. Uttering a forged instrument. On motion of State Attorney Geo. A. DeCottes, the above cause is hereby continued for the term.

The State of Florida vs. W. Lewis, uttering a forged instrument. The above named defendant being re-arrested in open court attended by his counsel, Hutchinson & Murrell, and after hearing the reading of the indictment, pleads guilty.

You, W. Lewis, having pleaded guilty to the offense of uttering a forged instrument, what have to say why the sentence of the law should not be passed upon you? (Saying nothing to stay the judgment of the court), the court deems and adjudges you to be guilty of the crime of uttering a forged instrument; therefore, it is the sentence of the law, and such is the judgment of the court, that you W. Lewis, pay a fine of \$25 and the cost of this prosecution, or in default thereof that you be confined in the county jail of Seminole county, Florida, under the direction of the Board of County Commissioners of Seminole county, Florida, for and during a period of two months.

Done, ordered and adjudged in open court, this 14th day of January, A. D. 1922.

JAS. W. PERKINS, The Director General of Railroads, vs. A. D. Zachary damages \$6,000. The jury returned a verdict in favor of the defendant. The attorneys for the plaintiff immediately made a motion for a new trial.

The attorneys for C. T. Sutton and Frank Hillyard made a motion for a new trial but the motion was denied by the court.

In the case of Yancy Williams, who is charged with shooting into a dwelling, the following men were sworn in for jury duty: C. W. Laing, Forrest Gatchel, G. A. Bryant, J. M. Vickery, Albert Hawkins and A. R. Marshall. The above jury found the defendant not guilty.

First National Bank of Quincy, Fla., vs. T. E. Wainwright, etc., enter judgment.

## Kanner Dept. Store is Getting Ready for Season Great Prosperity

Have Secured the Services of Mr. Dawson for Publicity and Prop.

The Kanner Department Store, a well known firm of this city, is starting the new year right by making preparations for a big business during 1922. Mr. M. Dawson, who is pretty well known here in business circles, is now connected with the firm. Mr. Dawson knows the mercantile game thoroughly, having been engaged in this line of business for a number of years and until coming to Sanford has been associated with the stores in the larger cities. He is now general manager of the firm and you may expect big changes there in the immediate future. They have already begun remodeling the interior of the store and expect to have this completed within the next 30 days, by which time, their spring line will be coming in.

Mr. Dawson is not only a good merchant, but is also a good advertising man and believes in letting the world know what he is doing. He is a firm believer in advertising and says, "That no business can exist and grow without advertising." He has been using the Herald service for the past six months and with such good results, that he assures us we have a good medium, and one that deserves the support of the business people. This firm will be regular advertisers with us and their advertising will be backed by service.

They are handling a line of merchandise that will be backed by an unlimited guarantee of satisfaction. They intend to carry a complete line of goods such as any up-to-date Department store will carry, including an especially good line of kitchen supplies and household needs. This department and their yard goods and shoes they intend to make worth the while, for every prospective customer to visit.

Mr. Dawson says that he intends to make this the shopping center of Sanford and of interest every day, to every prospective customer in this vicinity. Watch for their advertisement and when you see something worth while advertised, look it over. It costs nothing to "see for yourself" and this is the way to bring down the high prices that have been prevailing. If

you are interested in bargains, show your interest by investigating and bargains will be forthcoming regularly.

## MUNICIPAL OWNERSHIP OF WATER WORKS

In a paper read before the Public Ownership League of America by R. E. McDonnell, of the firm of Burns & McDonnell, the author states that municipal ownership of water works is rapidly becoming almost universal, giving as the chief cause of the change from private to municipal ownership the desire of cities to "improve the service and to secure good, pure, soft water at a reasonable cost. This American cities are doing. There are now about 5,000 municipally owned water plants in the United States or about five-sixths of all the water supplies are owned by cities. In comparing the people served, it is safe to say that 90 per cent of the nation's urban population gets its drinking water from municipal works. The proportion of municipal water plants throughout the country is shown by the statistics of a few of the states. South Dakota has 100 per cent of its water plants municipally owned; Nebraska has 99 per cent; Kansas has 96.3 per cent; Minnesota has 96.4 per cent; Oklahoma has 93.1 per cent; and Iowa has 91.2 per cent.

Among the advantages of municipal ownership Mr. McDonnell refers to the lower interest paid on loans by municipalities, the reduction of incentive to corruption and graft, and the lower rates possible. Concerning the second, he quotes Francis J. Henry as saying: "After five years of investigating the causes and cure for graft, I bring this one message; I am driven to believe that the public ownership of public utilities is the only cure for graft." Municipal ownership as a rule provides better working conditions, shorter hours and better wages, and consequently fewer labor troubles, strikes in municipal plants being practically unheard of.

"We would not think of placing our fire and police departments under private ownership for profit. These are for the protection of property. Then why have our water departments operated under such conditions?"

"Under war conditions, while nearly all privately owned utilities were clamoring for increased rates, 85 per cent of the municipal plants maintained their rates and a few actually reduced them. The municipally owned water plant usually gives rates encouraging industries and promotes expansion of all activities. The records of water rates in the cities that have changed ownership show that within two years after changing an average reduction of 27 per cent has occurred." "If the municipal authorities are to be held responsible for the health conditions, they should have complete ownership and control of the water supply, which is the most important factor in the health, growth and prosperity of any city."

## Burch's Jury is Unable to Agree

(By The Associated Press) LOS ANGELES, Cal., Jan. 17.—The jury trying Arthur C. Burch for the murder of J. Benton McKennedy reported itself unable to agree on a verdict today and was discharged.

Burch declared he was surprised at the result. The jury reported to Judge Reeve that the previous alignment of the 10 to 2 was unchanged. It was not made known officially whether the majority was in favor of conviction but this was the belief of attorneys. The jury had been out 71 hours after a trial that lasted two months. The case was set for 9:30 o'clock tomorrow for fixing a date for retrial.

## Republican Senators Will Hold Conference To Reach Agreement

## The Churchwell Co., New Sanford Firm, Will Open This Week

Well Known Georgia Firm Will Open Merchandise Business in this City

The Churchwell Company will open a store in Sanford this week and are now here getting the store rooms in shape for the goods. J. R. Forest formerly of Sylvester Georgia will be the manager of the stores here and is in the city today and will make Sanford his future home as soon as he can get a house ready for his family. J. P. Luther, who has charge of the advertising for the Churchwell Co., is also in the city and will stay to get the stores in shape here and start a big campaign of advertising. The Churchwell Co., has nine retail stores in Georgia and one wholesale store and the Sanford store is their first venture into the Florida field. They may later on open a wholesale business either at Jacksonville or Sanford. The store rooms formerly occupied by Mrs. Cates in the Cameron-Woodruff building on First street have been leased by the Churchwell Co., and they are having extensive repairs being made in the building. There are several car loads of merchandise on the way and as soon as the rooms are ready they will be arranged for business probably the last of this week.

Mr. Forest the manager is one of the live wires of his home town where he was a member of the city council and helped to put over many big improvements in his home city and was also prominent in fraternal circles and business circles. He and his family will be a welcome addition to the business and social life of the city.

Watch the Daily Herald for the announcement of the opening of the new firm.

After a case has been discussed in the newspapers, a juror who hasn't formed an opinion hasn't sense enough to sit on the jury.

## PROVISIONAL AGREEMENT MADE BETWEEN RAILWAY EXECUTIVES AND BROTHERHOODS OF UNIONS

### Will Submit Wage and Working Questions to Regional Conference

(By The Associated Press) WASHINGTON, Jan. 17.—A provisional agreement was reached yesterday by railway executives and heads of the four railroad brotherhoods, meeting at the instance of Secretary Hoover, to submit wage and working questions affecting train service employees to regional conferences for adjustment, if possible, without contests before the railroad labor board. Railroad executives will meet in Chicago Saturday to consider the proposals, while brotherhood chiefs will report back to their organizations, and if the agreement is ratified as all concerned expected today that it would be, the regional gathering will be summoned about February 10.

The action was decided upon after an all day session in which active heads of many of the larger railroad organizations of the country participated and which was called by a smaller preliminary meeting of railroad executives and labor leaders with Mr. Hoover.

The regional conferences, Mr. Hoover said, would "facilitate the work of the railroad labor board, and above all tend to create a spirit of working good will, and the settlement of differences by adjustment, not by methods of litigation."

It was pointed out that the fixing of wage scales for train service employees had been brought about thru negotiations participated in by railroad officials and upon representatives in districts where work was performed during all the period prior to the war. Further, it was said, that the method of reconciling differences by negotiations prior to appealing to the labor board had been specifically contemplated by the transportation act section creating the board.

Mr. Hoover stated that the conference did not discuss wages or working agreements in themselves, and added that he considered the railroad labor situation as entirely disconnected from negotiations over coal mining wages, which he has tentatively embarked upon as representative of the administration.

Railroads have formally given notice to the railroad labor board and the organization of their employees that they will ask general reductions

in existing wage scales, but the proceedings so instituted have not yet been brought to trial. It is anticipated that new wage scale agreements, if reached by negotiations between the train service men and the roads in the regional conferences, either for a part of the United States or for the entire country, will be substituted for any decisions which might be reached through the formal proceedings. Appeal to the board would only be taken on such matters as were not decided at the conferences.

## WEEKS POWERLESS

### TO ACCEPT FORD'S OFFER WITH YES OR NO ANSWER OR TAKE ANY ACTION

WASHINGTON, Jan. 17.—Secretary Weeks' decision to submit to congress all offers involving the Muscle Shoals nitrate plant were analyzed today by law officers of the War Department and found to be in strict compliance with the provisions of the National defense acts, which authorized the government to acquire properties and build plants during the war. Under the express injunction of congress written into that law it was said it was impossible for Weeks to have accepted or rejected the offer of Ford with a yes or no answer or to have taken any other action than he did in deciding to refer the question to congress for decision.
