

U. S. Missed Large Sum By Failure To Sell Tickets For Senate Meeting

BY HARRY B. HUNT
WASHINGTON—Many thousands of dollars could have been raised for Uncle Sam's treasury had provision been made for cashing in on the amusement value of the short special session of the Senate which convened Mar. 4.

All the elements of drama, for which folks pay out hard cash, were supplied on a scale that has not equaled by no theatrical presentation seen in this city in a decade.

Daily long queues of spectators waited in line at the gallery doors for a chance for even a few minutes of the free entertainment provided within.

But it was a case of first come first served, and those who came early and got seats stuck through hour after hour of the show, with the crowds of late comers getting never a look-in.

Would they have paid for ad-

mission? Well—one doorkeeper estimated if he had ten aise to cash in on the pleas personally made to him to "see what he could do," with the hint it would be worth his while, he could have spent the summer vacation on a Mediterranean cruise!

The big crush of course, came on March 16, when the Senate had agreed to vote for a second time on the Warren nomination, which had previously been lost, due to the mid-afternoon nap of Vice President Dawes.

The Senate was to meet this morning at 10:30. By 9 a. m. Capitol Hill had much the same appearance as on March 4, when President Coolidge was to be inaugurated. A steady stream of automobiles was discharging excited and interested grand dames and gentlemen. More lowly folk packed the footpaths and overflowed into the streets.

GIVEN NEW TRIAL
TAMPA, Mar. 23.—Paul Hahn, convicted and sentenced to 30 years in state prison in connection with the cigar factory robbery here in March, 1924, and later granted a second trial at the suggestion of the grand jury, has been released from custody under \$1,000 bond.

Late for the new trial, has not been fixed. It was scheduled to begin on two occasions but time was postponed at the last minute. The robbery in which Hahn is said to have participated resulted in a loss of \$25,000 to the cigar factory.

Only his old technique as a football player had enabled him, in spite of the right of way he was supposed to have as a senator, to get an influential constituent into the packed gallery.

"Looks as if you're going to have a good audience today, senator," I observed.

"While wiped, perspiring, you," he said, "I've done all morning."

"All this help provide the audience," he said, "million people have been in to see me. They all want to see me. There wouldn't be half enough if I had 'em all. I'm going into hiding right now."

Men fight for freedom; then they begin to accumulate laws to take it away from themselves.—Waterbury American.

RUTH'S FINGER BROKEN
ST. PETERSBURG, Mar. 23.—Babe Ruth is devoting spare time from his spring training here, while waiting for his broken digit to mend, in coaching the St. Petersburg high school baseball team. He is aiding Captain Byrd Latham. Henry Johnson, a member of the Yankee pitching staff, is a graduate of the local high school which has turned out a number of players who have gone higher in the game.

Its coolness and mellow "body" are a revelation to pipe smokers

Back about 1870, James N. Wellman developed a secret tobacco process which won instant and widespread favor. It yielded a fuller-bodied richness, mildness and fragrance which just seemed to "go" with a pipe. No one else ever knew his secret until we acquired "Wellman's Method" and by its means made "Granger Rough Cut".

Tornado and Disease. Special for the Dying. Lunatics in Bunches. Spring is here.

THIS DAY you discard your "Winter garments of repentance." The spring of 1925 began officially at 13 minutes after 10 last night.

PICTURES of wide areas strewn with wreckage of thousands of houses come by wire. Dozens of children, dead, mangled or burned, lie in the wreckage of one schoolhouse.

It is the trouble season all over the earth. News of the great fire in Japan is followed in China, with a fire that helped the earthquake to wipe out the town of Talifu, in the Yunnan Province.

"Regular doctors" appreciate the importance of a patient's mental condition or what our Christian Science friends call "error" or "mortal mind."

When Lord Curzon lay dying his doctors would not allow him to read newspapers. Their own published bulletins, telling of his dangerous condition, were enough to hasten his death through fear.

IN TOKIO'S recent fire, burning the homes of 10,000, four hundred maniacs burned out of their asylum, were saved. They were tied together in bunches of ten, and thus tied, clawing, scratching and spitting at each other, they were herded to safety.

That reminds you of political methods in the United States. The "blocks of five" were not a different from the Japanese "bunches of ten." And Americans that vote, herded like sheep are not much more intelligent than the Japanese maniacs.

NO FIGHT is more bitter than a religious fight. This was shown in the French Chamber yesterday when excited Deputies punched, kicked and cursed each other.

SIR CHARLES Higham says another big war will start in ten years and be aimed at English speaking nations. Russia, Japan, Germany and China will try to conquer the world, and if we don't have enough flying machines to defend ourselves we shall be in trouble.

ABOUT the flying machines he is right. But it is hard to imagine a combination of China, Japan, Russia and Germany.

GERMANY, educated for fifty years by the Social Democratic party knows what Communism means. France marching into the Ruhr could be hardly more disastrous to intelligent Germans than Bolshevism marching into Germany.

FROM SIR CHARLES Higham's statement your eye wanders to the announcement that the House of Peers in Japan has just passed the "Peace Preservation Act."

IS GOD IN FLORIDA?

BOSTON HERALD

The New York Herald-Tribune yesterday reported a sermon by the Rev. Robert T. Wightman before the First Presbyterian Church in Maywood, N. J., in condemnation of the land of perpetual youth from a visit to which he had evidently just returned.

"Flappers abound and contribute to the general hilarity. Some of the biggest hotels show married couples as their guests, preferring single men and women. Liquor is unrestricted and gambling dens are wide open. Monte Carlo is out in the shade. The devil is in these places with his hosts, and any one wishing to go to hell can find greased planks a-plenty.

"We are amazed to find from a more careful reading of the report of this sermon, that not only has its author recently visited Florida, but that he has been there several times before. It is with him evidently a case of worse and more of it.

Bank Robbers and Reckless Drivers

HOLLYWOOD NEWS

A short while ago southern Florida was terrorized by a gang of bank robbers. Thousands of officers scoured this country for these culprits. Day and night the law's eyes were open and its fingers were upon the trigger.

At midnight a few weeks ago the Ashley gang was shot to death by officers of the law. When highwaymen and bank robbers infest a country, placing in jeopardy the money of men, officers of the law are on their tiptoes. Money and properties shall not be mistreated.

Every day and night on the Dixie Highway, under the bright sun and bright stars, men and women, more dangerous to human life than the Ashley gang was to property, are allowed to operate. Brutal fiends at the steering wheels of automobiles, running recklessly at sixty miles an hour, are a greater detriment to life in southern Florida than was the Ashley gang in the heyday of its depredations.

New Dry Law Is Clamped On Filipinos

MANILA, Mar. 24.—The legal machinery has been set in motion for the enforcement of the new prohibition law regarding the sale of intoxicant liquors during the national elections next June. The law, as amended by the last session of the legislature, prohibits the sale and dispensing of intoxicating liquors during the two days on which electors register, during the two days prior to and on election day and during the entire time consumed in canvassing the votes.
The old law prohibited the sale of liquor only on the two registration days, the eve of election, on election day and during the counting of the votes.
At the elections in June there will be chosen members of the House of Representatives, one-half the membership of the Senate, governors and other officials of the various provinces of the Philippine Islands.

COUGHS

Quick Way to Stop Them Persistent, racking coughing, which by rapidly weakening your entire system lays you open to more dangerous infections, can be checked often with the first dose of that old-time tried and proved remedy—Dr. Bell's Pine-Tar-Honey. And there's a reason. Doctors say there is nothing like pine-tar to quickly loosen and remove the mucus and congestion which are the direct cause of the coughing, while the honey gives a pleasant taste and helps soothe irritation. It is often astonishing how quickly this combination relieves the stubbornest cough.

But be sure you get the original Dr. Bell's Pine-Tar-Honey, and no substitute. Dr. Bell's has been known for over a quarter of a century as the best. It is scientifically compounded of just the right proportions of pine-tar, honey and other quick-acting healing ingredients which the best doctors have found to aid in quick relief. Contains no opiates or other harmful drugs, so can be given even to young children—free for spasmodic coughs. If you want the best, a medicine that often relieves the severest cough overnight, make sure you get Dr. Bell's. Only what any good druggist has.

X-Ray To Pierce 8 Inches Of Steel

LONDON, Mar. 24.—It will be possible, in the near future by the aid of the X-ray to see through steel eight inches thick, Professor Pullin, director of the Radiological Research department at Woolwich Government arsenal, predicted in a recent address before the Royal Society.

It is an easy matter at present by the use of the X-ray to penetrate pieces of steel three inches in thickness, Professor Pullin asserted, but what is sought by scientists is an apparatus to enable them to examine into castings ten or twelve inches through. This is desired so that flaws may be detected in castings, and to avoid serious danger to workmen's lives.

Florida Captain Hits a Homer With Three Men of Bases; Mercer Has Excellent Team

GAINESVILLE, Fla., Mar. 24.—Mercer university, long anathetic "Jinx" of the University of Florida, bombarded the offerings of three 'Gator hurlers on Fleming field yesterday afternoon, easily winning the opening tilt of a four-game series, 13 to 4.

Captain John Henry Logan's home run to center field, with the bases jammed in the first inning gave Florida a 4 to 0 lead, but the hard hitting Baptists, of Coach Stanley Robinson, led by "Crook" Smith and "Red" Adams, batted viciously and timely, and behind the invincible box performance of Hamilton had little trouble in downing the Alligators.

Three circuit clouts featured the listless game, Parks and Adams bagging their four base wallops with one runner on, while Captain Logan swatted his with the sacks totally intoxicated.

Hamilton, Mercer's right-handed ace, held the diamond athletes of Coach "Jimmy" White absolutely in hand with the exception of the first round. The one chance Florida had to re-enter the scoring column after the opening stanza, came in the seventh, with second and third populated, and one out but a swift double play sent the hopes to disappear. Hamilton's spit ball and puzzling assortment baffled the 'Gators, ten of the batsmen bowing via the strikeout route.

Ported held Mercer at his mercy for three innings and just when he was going best, the fatal rally began. Wade walked, and Smith singled to center. Adams crashed one to left for two sacks, scoring both runners. Pinkerton skied out to right, but Lawrence dropped a

Paavo Nurmi Completes Schedule For The Remainder Of His American Visit

NEW YORK, Mar. 24.—Paavo Nurmi Monday completed the program for the remainder of his American visit. Planning to sail for home early in May without competing on Eastern outdoor tracks, the famous Finn signed entry blanks for a dozen meets in this country and Canada and contracts good to compete in three more.

The schedule is regarded as final, in view of the National Amateur Athletic Union's decision that Nurmi should sign Monday for all meets in which he expects to run, and is as follows:
Mar. 26, 106th field artillery games, Buffalo.
Mar. 27-28, 107th field artillery games, Pittsburgh.
Mar. 31, Elks games, Boston.
Apr. 4, Montreal.
Apr. 6-7, Detroit.
Apr. 19, Leyola college games, Chicago.

Apr. 20, St. Louis (outdoors).
Apr. 25, Los Angeles American Apr. 30, Chicago (outdoors).
Apr. 30, San Francisco (outdoors).
In addition, Nurmi has been asked to appear at Minneapolis on Apr. 16, at St. Paul on Apr. 18 and Omaha on Apr. 21, but he is not yet certain whether he will be able to include them on his schedule.

New York city fans, before whom Paavo has made many of his records in this phenomenal indoor season, will see him for the last time tomorrow night when he runs in the mile and a half event at the 244th field artillery games in the Ninth coast artillery armory. James J. Connolly, former Georgetown star, will be his chief opponent. Nurmi hopes to leave for Europe soon after the San Francisco meet. He has several engagements in England and Ger-

Babe Ruth to Play Against Brewers

Otto's Preteges Return Here For Another Game With Cleveland Indians Friday

(By M. S. Page)

Gathering a total of nine hits, the Milwaukee Brewers had little trouble trouncing for a second time the Baltimore Orioles by a county of 5 to 1 in a game played on the Sanford field Monday afternoon. The game was postponed in the eighth frame due to rain.

The Orioles came to Sanford intent upon revenge and in the first inning seemed to be in a fair way to get it. By dint of perseverance and a few other virtues extolled in the copy books, the Birds got a single run across the plate. There, however, it ended and the Brewers cavorted about the hassocks in the second, when two runs were scored, the fourth and the eighth. Two markers were put across in the fourth and one in the eighth.

Baseball critics were of the opinion that the Brewers showed more baseball in the game with the Orioles than they have at any game hitherto. That undefinable thing, form, which had been sadly missing at times in games played before, marked virtually every move of the Brewers. They had the Orioles outclassed from the start.

In the beginning Harry Clarke shunted the twirling responsibility off on the capable shoulders of Dixie Walker. Dixie, with the exception of the opening inning, sent his benders around the Birds in a most capable manner. There was nothing wrong with the first inning except the fact that the Orioles were allowed to score.

Ovid McCracken then followed and delivered in grand style for three innings. He was relieved by Dode Schneider who carried the pitching burden until the shower force a cessation of activities. The game was marked by some
