

## LLOYD GEORGE CHEERED AS HE EXPLAINS REPORT OF GENEVA CONFERENCE

### Grand Old Man of England Gets Vote of Confidence

### OR EQUIVALENT

### ASQUITH AND CECIL OPPOSE THE PREMIER BUT THEY HAD FEW FOLLOWERS

(By The Associated Press) LONDON, May 26.—Once again Lloyd George appeared in the house of commons yesterday to render as prime minister an account of his stewardship at Genoa, and once again after a precise carefully worded statement and an eloquent rebuttal of criticism directed against him, he received the support of the house in what is considered the equivalent of another vote of confidence.

The house, by an overwhelming majority of 235 to 26 rejected an amendment moved by Rupert Gwynne, unionist, to the motion on which the debate was based as a means of expressing the dissatisfaction of the house with the premier's exposition. Mr. Gwynne had been most vehement in his denunciations of the government asserting that the premier had spoken only of what might have happened at Genoa, not what really did happen there.

For an hour and a half the premier gave a calm exposition of the conference proceedings, to which the veteran, Herbert H. Asquith, the labor leader, John Robert Clynes and Lord Robert Cecil, replied, criticising the six weeks' session at Genoa as having accomplished little or nothing toward the rehabilitation of Europe.

The criticism aroused the premier and he thundered answers towards the opposition benches. After a spirited scene in the crowded house, amid hand clapping and shouting at the passage between the premier and Lord Robert Cecil, Lloyd George's second speech ended dramatically as he silenced the house and solemnly proclaimed a policy of co-operation with the French democracy. There were loud cheers as he resumed his seat.

The debate which followed the prime minister's speech brought many allusions to the relations between England and France, which are exciting greater contentions feelings between the different sections of the house than even the policy toward Russia. Mr. Lloyd George displayed great impatience with those critics who advocated going along without France, as he exclaimed:

"You cannot settle the reparations question unless you carry the judgment of France along with you, and you cannot do that by flouting the Versailles treaty and trying to ignore France."

### CORNERSTONE FOR SOUTHERN COLLEGE AT LAKELAND LAID

(By The Associated Press) LAKELAND, May 26.—The cornerstone for the main building of Southern College was laid here yesterday afternoon with services that bespoke the devotion and loyalty to their church of the Methodists of this state, whose generosity made possible the erection of a "greater" home for the institution.

For the past two years its students have carried on under more or less makeshift arrangements because of a fire that first destroyed the school at Sutherland, then another that consumed their temporary quarters at Clearwater Beach.

### EATING MUSHROOMS KILLED THREE MEMBERS OF ONTARIO FAMILY

(By The Associated Press) SALT STEMARIE, Ontario, May 26.—Three members of the family of Joseph Lawler, farmer at Gordon Lake are dead as a result of eating what is believed to have been poisonous fungus, but which were poisonous members of the family are hanging in the balance. The three-year-old boy who refused to eat is the only one not affected.

\$1,000 Guaranteed Roach Killer at L. P. McCuller's. 42-6tc

## ANNUAL CONFERENCE BOARD DIRECTORS DIXIE HIGHWAY MEETING IN JACKSONVILLE

### More Than Three Hundred From Outside of State in Attendance

(By The Associated Press) JACKSONVILLE, May 26.—Annual conference of Board of Directors of the Dixie Highway Association begin here today with more than three hundred from outside Florida attending. The session will run through tomorrow. Officers will be elected today.

## BUSINESS IS BETTER THAN IT HAS EVER BEEN SINCE THE WORLD WAR

### Says Managing Director of the War Finance Corporation at Atlanta Today

(By The Associated Press) ATLANTA, May 26.—Business is on a better basis throughout the country than at any time since the outbreak of the war, Eugene Meyer, jr., managing director of war finance corporation, declared in an address before the Georgia Bankers' Association here today.

## TWENTY OIL BURNING ENGINES IN ONE LONG TRAIN WILL LEAVE BALDWIN WORKS TODAY

### Prosperity Special Train Goes to East St. Louis for the Southern Pacific Lines

(By The Associated Press) PHILADELPHIA, May 26.—Flying pennants claiming prosperity, a special, the largest and perhaps the most remarkable single train of locomotives ever hauled across the country was scheduled to leave the Baldwin Locomotive Works at noon today for East St. Louis, Illinois. It consists of twenty oil burning engines of Santa Fe type, each with its tender nearly one hundred feet long and weighing 621,000 pounds. The train is part of an order for fifty engines of this type built for the Southern Pacific lines.

## JUNIORS BANQUETED SENIORS AT THE VALDEZ LAST NIGHT, NINETY-FIVE BEING PRESENT

### Was One of the Most Pleasant Occasions in the History of Our Schools

A social event and also a great event in the life of the High School each year is the banquet tendered the Senior class by the Junior class of the Sanford High School and this year it was no exception to the rule. The fact that the Senior class contained 31 members and the Junior class 52 members made the occasion all the more interesting and last night at the Valdez Hotel some 95 people sat down to a splendid banquet.

H. C. DuBose, a member of the local school board, acted as toastmaster in his usual masterly manner and when the big crowd present had finished their coffee he arose and in a few words gave a most complimentary résumé of the school year in which he stressed the educational and the religious side of school life. He then called upon Miss Gayle Marshall, the president of the Junior class, for the first toast to the "Seniors" and this toast and all those that followed showed that the Senior and Junior classes had developed some young orators. The following toasts were made:

"To the Seniors" Florence Henry, president of the Senior Class.

"Our Helpers," by Ralph Woodruff, being a toast to the teachers.

"To the Students of Sanford High School," by Prof. McKay, principal of Sanford School.

"The Unseen Board" by Mae Holly being a toast to the city and county school boards.

"The High School," by Fred T. Williams, chairman of the County School Board.

"To Our Editor" by William Moyer and the response to this toast by Editor R. J. Holly.

The following elegant menu was served by the Hotel Valdez:

- Fruit Cocktail
- Queen Olives
- Mixed Pickles
- Roast Chicken, Sage Dressing
- Snowflake Potatoes
- Petit Pois en Casserole
- Pear Salad Del Monte
- Valdez Ice Cream
- Petit Fours
- Cafe Noir

This occasion was one that will be long remembered by all those present for seldom in school or social life is there such an assemblage of bright young boys and girls. Each and every one of them seemed imbued with

## ALL READY FOR BIG DAY SHRINERS ARRIVING TO TAKE PART TOMORROW

### BABE RUTH OUT OF GAME, IS SUSPENDED

### UNTIL INVESTIGATION OF HIS CONDUCT TOWARD UMPIRE

(By The Associated Press) CHICAGO, May 26.—Babe Ruth today was declared by President Johnson, of the American League, ineligible to play until a complete investigation was made into the argument with Umpire Hildebrand which resulted in Ruth being put out of the game yesterday and then climbing into the stands when he became offended at doing of the fans. Johnson said immediate investigation and final decision would probably be made tomorrow. While Johnson made no official statement, it was learned he is of the opinion that a one day suspension with an unusually stiff fine will be ample punishment. Ruth threw a handful of dirt in the umpire's face when he was called out.

### TWENTY-EIGHT DEATHS OCCURRED THRU VIOLENCE IN BELFAST DISORDERS

BELFAST, May 26.—Since last Saturday twenty-eight deaths have occurred by violence in Belfast, including six last night.

The spirit of the occasion and the toasts and talks were all along the line of the fine work accomplished this year and the work that they expect to do in the years to come. The banquet demonstrated that Sanford schools are upon a high plane from every point of view and the Sanford people and the people of Seminole county are thankful that the schools are in such capable hands as the city and county boards, the efficient corps of teachers in all the county and city schools and the fact that a bond issue lately voted will take care of the growing needs of the finest school system in the state.

James Schaul and James Robson furnished excellent music before the banquet and during the evening both of these young musicians being products of the Sanford schools.

A statement of the banquet would not be complete if the description of the decorations were left out. The Valdez dining room never looked lovelier than last night with the streamers of garnet and gold the Seniors colors hanging from the chandeliers and looped to the pillars and lamps embellished with golden stars carrying out the motto of the Senior class, "Ad Astra" to the stars. At each plate was a dainty place card with hand painted daisies, the class flower, and everywhere on the table were vases of daisies or black-eyed Susans as they are called. Miniature Seniors in caps and gowns made from clothes pins, were also at each place. Cute little baskets of gold and garnet tissue held the after dinner mints and salted peanuts. All of this work was done by the Junior class and they deserve great credit for carrying out the affair in such a capable manner.

### Estimated That Several Thousand Will Be Here

### A FINE PROGRAM

### HAS BEEN ARRANGED BY MOROCCO TEMPLE, ASSISTED BY EGYPT AND LOCALS

All is in readiness for the Shriner's Ceremonial tomorrow. The advance guard of the Shriners is arriving in the city today, the stands are being erected on the streets for the booths of various kinds and there is a scene of activity everywhere. From all indications there will be several thousand people here tomorrow and if the weather man promises good weather there will be one of the greatest crowds here that has ever visited Sanford. The Shriners wives will be taken on a lake trip on the steamer City of Jacksonville, to Blue Springs and upon their return and after the candidates have been put through their paces the Morocco band will give a concert at the foot of Park avenue at five o'clock and the big barbecue will be given at the pavilion or if the rains make this impossible the barbecue may be given in the big Clyde Line warehouse and dock.

Everything is ready and Shriner's day will be one long to be remembered by the Sanford Shrine Club and all visiting Shriners.

### EIGHT MEN KILLED POWDER HOUSE EXPLOSION EMPORIUM, PENNSYLVANIA

(By The Associated Press) EMPORIUM, Penn., May 26.—Eight men were killed and two seriously injured when three packing houses of the Pricella Powder Company near here blew up at noon today.

### Rain Prevented Big Day at Traps at Gun Club Shoot

Only the rain prevented a big day at the traps of the Sanford Rod & Gun Club yesterday. It was an ideal day up to about the seventh inning when rain caused the game to be called with the average scores of most of the marksmen somewhat above the average.

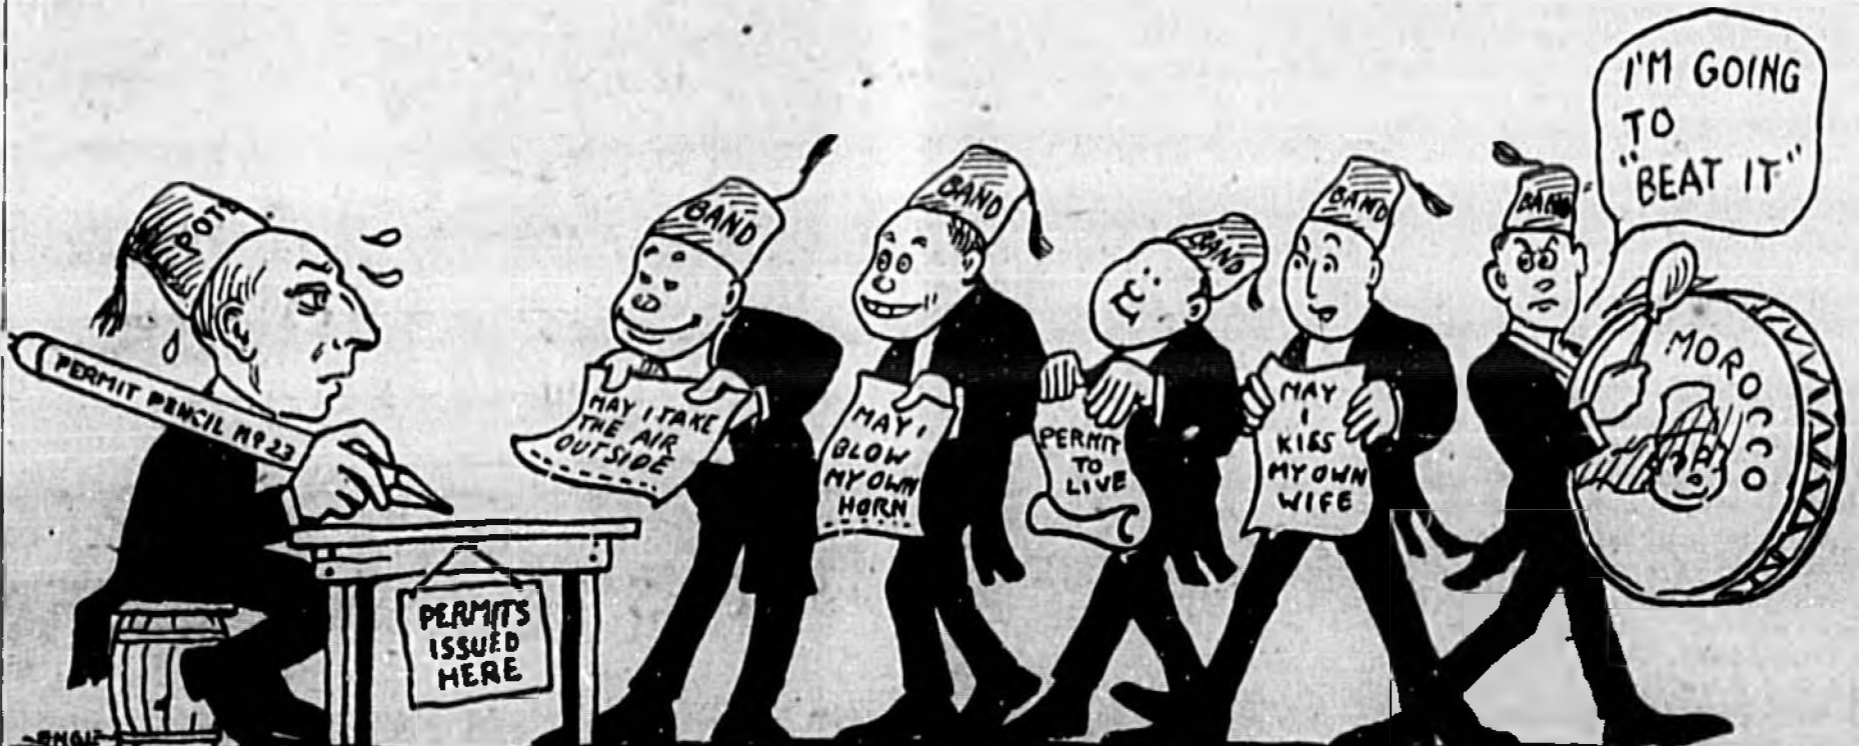

The best individual score on over twenty-five targets was made by a visitor, J. Duncan, of DeLand, who broke 92 out of his string of 100 singles. Walter Hand came in late, broke twenty-four out of his twenty-five and prayed for rain. King Coleman only found twenty-two out of his twenty-five before the rain and dropped one point in his season's score, while Ralph Wight broke sixty-seven out of his seventy-five raising his season's average three points. There is now only thirteen points between them. Chas. Whitner is again getting back in his old form and broke forty-five out of fifty yesterday raising his season's average twenty-nine points.

Mr. Jacques, who is an experienced trap shot, stated that the Sanford Club had a trap and back-ground very seldom equalled in his experience. He expects to be present at the state championship shoot to be held in Sanford next spring.

The day's score and the season's average of the members is as follows:

Coleman, J. B.	25-22	.888
Wight, R. B.	75-67	.875
Hill, W. C.	75-65	.854
Hand, W. S.	25-24	.849
Harden, J. Leltoy	75-64	.831
Puleston, Dr. 3.		.828
Whitner, Chas.	50-45	.795
Hutchison, J. C.	75-63	.790
Newman, R. A.	50-41	.789
Stevens, R. E.	75-62	.786
Purdon, John	75-53	.750
Herdon, O. P.		.740
Smith, H. P.		.733
Maines, Schelle		.733
Maxwell, R. C.		.730
Cowan, J. H.		.700
Mobley, E. D.		.673
Crosby, F. L.		.653
Tolar, Dr. J. N.	50-34	.647
Higgins, Ed.		.640

Note—Only members of the club who have shot in the past month are published above.

Morocco Band, Saturday Afternoon, Five o'clock, Lake Front Pavilion instead of Central Park

### MOBLEY'S DRUG STORE

### PERSONALS

Mrs. Endor Curlett and her mother, Mrs. Eichner, of Geneva, were in the city yesterday.

Thursday afternoon and nothing to do till tomorrow. Go out to the golf links and look them over.

Court is moving right along and it begins to look as though it would be finished by Saturday night.

Mr. and Mrs. H. H. Pattishall, of Geneva, were in the city today on business and visiting their many friends and relatives.

T. W. Lawton, the genial superintendent of schools was called to Jacksonville yesterday by the serious illness of his mother.

Curtis Barber, who is attending the Florida State University at Gainesville, will arrive home Sunday for the High School commencement exercises.

Remember that the National Memorial Day will be observed at Central Park Sunday afternoon at 4 o'clock. Everybody is cordially invited to attend.

Mr. and Mrs. R. A. Terheun have moved from the Dr. Marshall house on Park avenue to the Shinholzer house at the corner of Third street and Magnolia avenue.

J. S. Sligh, M. W. Tarpley, Mayor Duckworth, H. H. Dickson, B. R. Cox and Chas. McDowell, of Orlando, were here last night attending a meeting of the Central Florida Water Traffic League.

Hon. W. A. MacWilliams, candidate for congress from the Fourth district, was here today in the interests of his candidacy. Mr. McWilliams has many friends in Sanford who are always glad to see him.

The Juniors of the Sanford High School will banquet the Seniors tonight at the Valdez Hotel and it is said that over one hundred will sit down at the tables—one of the largest crowds that ever attended a Junior banquet.

F. P. Rines has an advertisement in this issue calling attention to the fact that he is giving away a free auto signal lamp. With every dollar cash purchase you get a free chance on the signal lamp. See Fred and have him tell you about it.

Mr. and Mrs. F. B. Langley and son, Frank, of Lakeland, were in the city yesterday the guests of Mr. Langley's brother, Dr. Theo. Langley. Mr. Langley was formerly trainmaster here and the many friends of the family were glad to see them again.

O. W. Brady, of Chicago, is in the city for a short visit and his many Sanford friends are glad to see him again. Mr. and Mrs. Brady were Sanford residents for several years where Mr. Brady had one of the largest farms on Celery avenue. He is still enthusiastic over Sanford and Sanford enterprises and may come back to reside here some of these days.

Yowell's puts on special sales every Friday and Saturday and these special sales are looked forward to by the ladies, especially, for they realize that they can save money. This week the advertisement quotes special prices on organdy, silks, wash satins, men's work shirts, men's silk and pongee and solsette shirts and men's socks all going at prices so reasonable that they will move quickly. Read the ad in this issue.

Major W. S. McClelland and Laurie Taylor, of Eustis, were among the prominent visitors to the city today. Major McClelland is president of the Eustis State Bank and one of the most prominent citizens of Lake county and is well known all over the state of Florida. Laurie Taylor is proprietor of the Palma Pharmacy, one of the finest drug stores in this part of Florida. Both of them are old friends of the Herald editor and we were glad to see them again.

Dr. Ralph Stevens had his radio telephone all set last night to get the Marine Band concert and he not only heard this fine band playing in Washington but heard a fine speech on the Woodrow Wilson Foundation Fund delivered in Detroit and other items of interest and music from most of the big stations east and west. Dr. Stevens now has a set that is all right and he and his friends are enjoying this personal touch with the rest of the United States every night.

Imported Rocqufort Cheese in tin-foil, 20c package, pimento cheese in glass, 20c.—The Popular Market. 51-2tc

#### MODERN WOODMEN OF AMERICA HAD GREAT TIME LAST NIGHT

Seminole Camp No. 16195, Modern Woodmen of America held a most interesting meeting last night in the Masonic Hall, when eighty-three candidates were initiated into the mysteries of woodcraft.

Seminole Camp feels real proud of the fact that they were victorious in the campaign that was staged with Orlando, and last night at the close of the initiation ceremony State Deputy Bulloch made known the fact that Sanford was the winner by four applicants, and then presented to the local camp a check for twenty five dollars, the prize which was offered by him.

The Daytona degree team was present and added much to the pleasure of the candidates and members as well.

A short recess was declared at about ten o'clock when a flashlight picture of this large body of men was taken by a photographer from Orlando.

After the initiation ceremony was completed the members and visitors from different cities in this immediate section, indulged in delicious refreshments consisting of ice cream, lemonade and home made cake.

#### MEETING OF N. DeV. HOWARD CHAPTER U. D. C. TOMORROW AFTERNOON

The N. DeV. Howard Chapter U. D. C., Florida Division, will hold its regular monthly meeting in the Parish House on Friday afternoon, May 26th at 4 o'clock. Our president will have a full and interesting report of the recent state convention in Orlando, and will feel greatly encouraged by a good attendance.

For quick results, try a want ad.

### UNABLE TO REACH DECISION IN BILL AGAINST LYNCHING

(By The Associated Press) WASHINGTON, May 25.—Unable to reach a decision on the House anti-lynching bill, the senate judiciary committee today decided to postpone action for two weeks to consult House leaders.

Sanford has another baseball team. She will play Palatka very soon. If it was not for fear of breaking up our diplomatic relations which have become so well established since we quit meeting each other on the diamond, we would suggest that Orlando take her on for a game. Our candid opinion is Orlando and Sanford can remain better friends if they do not look at each other across the diamond—Orlando Reporter-Star.

DISCRIMINATING AGAINST FLORIDA PRODUCTS

Why do Florida people discriminate against Florida products? The fact that they do is called to attention by a western man now in the city who has had a singular experience of this kind which he reports to the Times-Union. Here it is:

He is very fond of Florida cane syrup and does not want maple syrup nor syrup of other kinds. He has tried restaurant after restaurant in Jacksonville and before sitting down has asked if they have Florida cane syrup and in every case has been told that they have not. He has been offered maple syrup, but did not want it and walked out.

To help him out, we telephoned to a number of restaurant and found only one which kept Florida cane syrup. The visitor who started all this racket is not the only one who knows that Florida cane syrup is the best in the world. It does not cost any more than the inferior stuff that is served in the restaurants, so why is it not served?

A large amount of this syrup is made not simply in Florida, but in Duval county. Two large farms, one east of Jacksonville and the other west of it, produce nearly enough syrup to supply the people of Jacksonville. If the restaurants refused to serve any other kind than Florida syrup it would not be surprising, for there is enough made in the state to supply them all and it is vastly better than what they use.

The Times-Union has never advocated the purchase of Florida products where they were not as good or were higher priced than others, but there is good business sense in being patriotic enough to use our own products where they are as good as any. It should not take any patriotism to secure their use when they are better than any.

This Westerner set an example which the people of Florida should follow. If every man who desires syrup in a restaurant would call for Florida syrup and walk out if he couldn't get it, it would not take forty-eight hours to have it in every restaurant. This ought to be done. One people should at least have enough local pride to break up this discrimination against a home product, especially as it is superior to the products substituted for it. We should not have waited for a man from the West to teach us this but now that he has taught it we should act on it. We do not say that our people should always demand Flor-

ida products, but we do say that they should insist that the hotels, the restaurants and the stores in Jacksonville should be made to quit discriminating against them.—Florida Times-Union.

WHOLESALE FREIGHT RATE REDUCTION IS ANNOUNCED

Oulja and the Harding administration are on intimate terms.

A few days ago the president called the railway executives of the country to the White House and asked their cooperation in restoring normalcy, by inaugurating a wholesale reduction in freight rates—presto! freight rates are reduced. What could be simpler? What president before has exerted such influence with the magnetic sweep of his voice?

It remains to be seen, however, whether the reductions announced will be actual or simple tricks in arithmetic. There have been so many false moves made in the name of freight reductions that the public is suspicious and wants to be shown in money saved exactly how it will be benefited; clever arrangement of figures will not serve.

Some months ago, when great pressure was being brought to bear to force reduction of freight rates on agricultural products, slight reductions were announced—balm as it were—and while the burden of transportation has been slightly lessened to the farmers, other reductions will be necessary before the condition is anything like stabilized.

Freight rates are more important than passenger and Pullman rates, although it is generally believed the surcharge tax is unjust and should be removed. In some states—Georgia for instance—the state authorities have declared the tax null and void and its collection is not permitted. With the precedent set, it would appear that the same action could be taken against the tax in other states.

The railroads are entitled to fair returns on their investments, but the railroads have been nursed by the government so long that they have become spoiled and have fallen into the habit of complaining of a lot of imaginary troubles. The country has grown tired of this attitude of helplessness and wants to see an efficient administration of the transportation facilities of the nation. As this efficiency makes itself felt, other reductions will be in order.—Jacksonville Metropolis.

BUILDING A CROSS-STATE ROAD.

Motor roads, says the Palm Beach Post, is the great desire of all interests in peninsula Florida. Some counties are more interested in one state road, others in another; but all counties are working for the completed highway which will make the Atlantic and the Gulf coasts neighbors but a few hours distant from each other.

The Post gives a brief resume of what is being done in the various counties of south Florida, abstracts from which are:

... Another bond issue will be required before Palm Beach county's Okeechobee road can be graded to the Lee county line, and the former prospect of the early completion of that road is dimmed.

... Fifty thousand dollars of bonds to be voted in a new special road and bridge district in St. Lucie county May 31, will make a total of \$114,000 for the completion of St. Lucie county's section of a road from Fort Pierce to Okeechobee, in Okeechobee county, on the north side of the lake.

... Sealed bids for improving or constructing two roads in Okeechobee county were received yesterday by the board of county commissioners of that county. The road were thus described in the official notice to contractors:

... Construction work has commenced in the building of the fifty-five miles of hard roads in the Manatee-Okechoe special road district of Manatee county and large gangs of laborers are at work on roads which contemplate a through route out of Okechoe to the district line in central Manatee county toward Arcadia and another route from Manatee toward Wauchula.

... Bids for the engineering on the Tamiami trail, based upon the expenditure of \$150,000, received by the commissioners of Charlotte county, range from \$8,440 to \$9,700, the lowest bid being made by Kirby & Miller and the highest by Jaudon Engineering Co.

... Hillsborough county commissioners named June 20 as the date for holding a county-wide bonding election for \$2,000,000 to be used in constructing about 150 miles of new highways and resurfacing some existing roads.

... Sealed proposals addressed to the board of county commissioners of Glades county, acting for the Palmdale special road and bridge district, will be received May 19th, for furnishing all material, equipment and labor necessary to construction certain road-

way improvements in the Palmdale special road and bridge district.

... Bids will be received by the county commissioners of Lee county May 24 for the following work: For 1,000 cubic yards of marl to be spread on the road in Caloosa highway special road district beginning at Spanish creek and running east; for the furnishing of all the materials and concreting the piling under the bridge across Gordon river in special road and bridge district No. 1.

... Six hundred thousand dollars has been voted in Broward county for road construction and \$100,000 for cutting an inlet for the ocean. One of the roads to be built is on the bank of North New river canal into the Everglades and to the Palm Beach county line. Another road is on the ocean front, which will connect with Palm Beach county's ocean boulevard.

... The Lake County Construction Company, of Leesburg, has been awarded the contract for construction of the first nineteen miles of the A-tor-to-Polk county line highway while contract for the bridgework was awarded to the McNail Lumber company, of Jacksonville.

... St. Johns county commissioners will receive bids until May 25 on the following: 10 miles Tocol road from St. Augustine to Tocol; 84 miles Elkton-Tocol road from Elkton to intersection of Tocol road; 24 miles Milk Creek road from Horn road to Julington Creek; 4 1/2 miles road to connect Mill Creek and Picolata roads, 1 1/2 miles road from Hastings to Putnam county line, direction of Federal Point road; 6 1/2 miles road south from Hastings to Putnam county line; 3 miles Spuds road intersecting Dixie Highway east and south of Hastings; 25 miles Hastings boulevard extension road from Hastings boulevard to Flagler county line; 4.7 miles Horn road from New Augustine golf links; 10.4 miles Anastasia Island road extending along island.

It is because these south Florida counties go ahead and bond and build their own roads that they are so far ahead of the rest of the state in development, in population, in wealth, and in future prospects.

By the end of the next year there will be a perfect network of perfect roads over perfect peninsula Florida, and the trip across, or through, or rambling about in this delightful land will be one of the oftenest taken and greatest enjoyed pleasures of homo folk and visitor.—Tampa Tribune.

SEND OUR BOYS TO THE UNIVERSITY.

Now that the Class of 1922 will soon be graduated from our excellent high school it is time to think about the boys of the class as well as the girls and encourage them to go to college. We know that the majority of the girls want to attend college and they will likely go to the Woman's College at Tallahassee. The boys are not so anxious to finish their studies and many of them are content to stop at the high school when if it were made possible for them to go to college their entire life might be changed for the better. It is well for the various organizations of the city to get together on this subject and make it possible for some of the boys to attend the Florida University this fall. The Jacksonville Metropolis has the following to say regarding the boys:

"If every important civic organization in the state, or at least several of the most important in each city, should follow the lead of several such Jacksonville organizations, the roll of the University of Florida would be increased each year by no mean number and at the same time higher educational opportunities would be offered to a large number of Florida lads who would otherwise be deprived of this advantage.

"Several civic clubs now have under consideration the awarding of scholarships to Jacksonville boys to be selected, perhaps, by the high school faculty. These scholarships would be awarded each year, the awards being made in consideration of a boy's success in his studies, his athletic qualifications and his home circumstances. This follows a suggestion made by the Florida Metropolis soon after the Duval High School football team captured for Florida the high school football honors of the nation by decisively defeating Steel High of Dayton, Ohio.

The Metropolis in throwing out the suggestion to civic organizations set the example by offering a scholarship. If these civic organizations follow suit, and there is every reason to believe they will, several graduates of this year's high school class who might not otherwise go to the University of Florida to complete their education, will be given the opportunity to do so.

The shining stars of the high school eleven have been offered, no doubt, opportunities to go to other institutions and the possibilities are that if scholarships were not offered them by Jacksonville organizations prompted by a high sense of loyalty to Florida's one university, they would probably accept. This is particularly true in the case of those boys who are not financially able to pay for their own col-

lege education. The boys would rather go to Florida and it is indeed a deserving movement that has for its aim the encouragement of attendance at Gainesville when other colleges and institutions, or the alumni thereof, are bidding for them. Other cities in Florida should follow suit. The University would thereby secure not only a larger attendance, but many boys who would otherwise be deprived of higher education will be able to attain that hope which they cherish as high school graduates."

One hundred and twenty-eight miles of canals and ditches, more than one-third of the total, have been excavated in the million dollar 15,000 acre North St. Lucie river drainage district to date. Nearly a quarter million cubic yards of material were moved last month, and the various machines engaged on the big job are making steady progress from day to day.

Close on to 3550 cars of tomatoes will be shipped from St. Lucie county this season, it is estimated—the largest output in the history of the county. In view of the extremely dry weather that has prevailed throughout the season, the yield is considered wonderful. Vero, Fellsmere and Wabasso are the heaviest shippers, with also some shipments from Fort Pierce, Fort Pierce Farms and other points.

Tavarez is to have a toilet soap factory in conjunction with the Essential Oil Company. It now has a candy factory and the bakery is putting out a honey cake that is becoming so famous locally that the concern is working overtime to supply the demand for the "Bounty of the Gods" as it is called.

Winter Haven's big tourist hotel begun two years ago and not completed, will be finished this summer and be ready for use in the next tourist season, according to report from Winter Haven. F. H. Trimble an architect, has received word from the backers of the project asking for plans for the completion of the building. It is stated that sufficient funds have been offered to have the place finished in good style. The halt in work was on account of financial trouble.

**DEMOCRATS TO BE CALLED UPON TO BREAK DEADLOCK**

WASHINGTON, May 26.—Democratic members of the senate finance committee may be called upon to break a deadlock among the Republicans of the committee over soldiers' bonus legislation. The subject was brought up yesterday at a meeting of the majority and it developed that there was a five to five division on the so-called McCumber plan—the amended house bill—and the Smoot proposal to issue to service men paid up insurance policies in lieu of all compensation options heretofore proposed.

Chairman McCumber said after the session that he probably would call a meeting of the entire committee for this week. The meeting probably will be deferred until the return from Indianapolis of Senator Watson, Republican, Indiana, who has had several conferences recently with President Harding on the bonus question.

The only action taken yesterday by the majority was the appointment of a sub-committee consisting of Senators Curtis, McLean and Sutherland, to hear Representative Mondell, of Wyoming, the Republican house leader, relatives to substituting the pending reclamation bill for the land settlement feature of the bonus measure which the senate committee Republicans have agreed to strike out of that bill.

Mr. Mondell suggested that if it could be incorporated in the bonus legislation it probably could be enacted at this session.

(By The Associated Press) PHILADELPHIA, May 26.—Hubbell, Philadelphia's pitcher, who was injured yesterday, passed a fairly comfortable night and is reported early today as resting easily.

**MILLER'S SHRINE WINDOW IS ATTRACTING ATTENTION WELL DECORATED WINDOW**

On account of the Shriner's big day here tomorrow several of the merchants have made up beautiful Shriner's windows in their stores and among the best noted is that of T. J. Miller & Co., in one window of

their furniture store at the corner of Second street and Magnolia avenue. The window shows the sandy desert, the oasis in the shape of a lake in which the Shriners are fishing, all the paraphernalia that will be used on the candidates such as an electric chair, roller coaster, throwing balls at their heads and many other systems of the exquisite torture that the jolly Shriners are supposed to inflict on the hapless candidates. The window is done in the Shrine colors and is one of the best that has ever been arranged for an occasion of this kind. See it today and tomorrow if you have not already done so. It is the work of the head of the Sanford Shrine Club, Frank Miller, one of the live wire citizens of Sanford and one of the live members of the local Shrine Club. Frank is working night and day for the big time but he had time to make up this very attractive window for which he deserves due credit.

**MR. W. A. MacWILLIAMS CANDIDATE FOR CONGRESS HAS ISSUED THE FOLLOWING SEATEMENT**

1. I am not the candidate of any class, faction nor special interests.  
2. I stand for liberal appropriations for Education, realizing if our country is to endure, its citizens must be informed of the basic principals of our Government.

3. The National Road Laws should be amended to bring about the changes of specifications for road building in the State in accordance with our local and climatic conditions, thereby giving us greater benefits from Government aid.

4. I am in favor of the Government turning over to Henry Ford Muscle Shoals, to the end that the farmers may secure cheaper fertilizers.

5. I believe in a country which produces more than it consumes, a high protective tariff is economically unwise, but if the consumers of the Fourth District are compelled to pay a high protective price for the articles of production should be protected.

6. I believe the Government should generously meet its full duty to our ex-service men. For once let history show Republics are grateful.

7. I am in favor of the present limitation on immigration, but would favor an absolute bar for a specified number of years.

8. Florida's greatest problem for further development is transportation and improvement of inland waterways. I cannot promise to obtain all the Fourth District needs and deserves at the hands of the General Government, but I do promise untiring, attentive and energetic efforts in that behalf.

9. I believe changes in the Federal Reserve Bank Act should be made, it never was intended that the Government should exploit the borrowing public in the sum of over one hundred millions a year, and this after the paying of exorbitantly high salaries and bonuses to its officers and employees, and all this against the small banks and in the interests of the large Banks in the money centers of our country.

10. I believe the present laws for reforestation should be enlarged and made more effective.

11. I believe in economy in handling Governmental affairs, there exists undue extravagance at present. The Government has no right to take any more money from the people than is necessary to economically administer the Government.

**TIPS TO THE RADIOIST**

Fired .22 caliber rifle shells make good switch points for tuning coils and receiving transformers.

A single wire aerial 100 to 150 feet long is sufficient for local and long distance reception of broadcasting stations.

Do not string aerials across the street or across electric wires. Keep antenna wires off electric light and telephone poles.

Stranded copper or solid copper wire should be used. Phosphor bronze wire if obtainable is stronger but not superior to copper.

Good contact with a piece of mineral like galena can be had by wrapping it in tinfoil. Of course, the top of the crystal is left exposed.

The brass ends of large cartridge shells make splendid crystal detector cups. They should be cleaned out thoroughly before they are used.

The winding of cardboard tubes from oatmeal boxes may be improved greatly if the tube is first heated in an oven for about 15 minutes to take out the moisture and then wound; or better still shellac it while it is still warm and leave it to soak in.

In winding tuning coils with bare wire a thread should be wound on with the wire. This will separate each turn. When the coil is finished the thread can be taken off. Shellac should be applied immediately. When the shellac is dry the copper wire will hold its place.

Daily Fashion Hint

CHARMING AND INDIVIDUAL FROCKS

When a dance frock has a bodice whose shoulder straps are helplessly divided against themselves, the impasse can be broken by having one strap of silver rosobuds and the other of silver beads.

Plain Georgette crepe fashions the second model. The skirt is draped with a tunic which falls in points at the sides and is finished with a bias fold of self-color satin.

HILL HARDWARE COMPANY

EAST SANFORD

Miss Partie Lee Bell is at home from Charlotte, N. C., where she has been a pupil in Queen's College for the past two years.

Mr. and Mrs. J. W. Corley and son, Joe, are leaving in their car the latter part of the week for their summer home at Englewood, Ga.

Mr. and Mrs. C. E. Chorpeneing entertained several friends from town at a picnic supper and swimming party at Silver Lake on Thursday evening.

Mr. and Mrs. Ashley Purvis drove to Green Cove Springs recently to visit Mr. Purvis's uncle over the week end.

The newly-weds, Mr. and Mrs. Leon Purvis, returned from their wedding trip to Tampa on Friday and expect to go to housekeeping in Cameron City.

Ashley and Jim Purvis drove to Tampa on business on Wednesday, returning Thursday.

Mr. and Mrs. Tom Taylor and daughter, Evelyn, were out from Sanford last Sunday as spend-the-day guests of Mr. and Mrs. R. L. Grier, of Cameron City.

J. G. Ball, of the Ball Hardware Co. has bought the land in Cameron City formerly owned and farmed by Guy G. Ellsworth.

It is an assured fact that the residents of Beardall avenue will have electric lights as enough names have been secured to warrant the Southern Utilities placing the poles, etc.

There is a rumor that the American Fruit Growers, Inc., are to erect a cold storage and pre-cooling plant this summer and we hear that Moore's Station is the place selected for it.

UPSALA AND GRAPEVILLE

Mrs. Dan Hodges and their two interesting little ones are spending a few days this week at the home of her parents, Mr. and Mrs. Ehrensperger.

Mrs. Ballinger is slowly getting the use of her hand again, going in with our obliging neighbors for treatments and calling on Mrs. V. C. Collier who was able at last to return home Wednesday of last week.

Mr. and Mrs. Pritchard spent last week with their Grapeville relatives and Mrs. Beck and Mrs. Westerdick called to see them Wednesday.

We are glad to have Emil Magnusson home again; he having spent the winter months at Windemere in charge of the packing for the big Chase grove.

Mrs. Volie Williams is out again after a spell of chills and fever. Mrs. A. Swanson was with her for a few days but is now nursing in Sanford.

Mrs. J. E. Lundquist has been caring for her daughter, who was ill for a number of days and her family. Rev. Burhans and wife were recent callers at the Ballinger home as was also Mrs. E. W. Lunquist.

Invitations are out for the graduation of the class of 1922 at the Sanford High School. Upsala is represented by Miss Margaret Ericson. All honor to the thirty-one who had the grit to finish the course.

Sorry to hear Rev. J. S. Clark was quite ill and confined to his home all of last week having intended making some calls among us.

Miss Eunice Tyner returned home Wednesday of last week from Windemere where she has been employed for some time, leaving again on Friday with her brother, Elmer for Grays, Ga., to visit relatives and attend the graduation of a young lady friend.

Will Henderson returned home from Port Tampa Saturday stopping en route at Kissimmee to visit his wife's people, Mr. and Mrs. Tyner, who are hoping later to locate in Sanford. On Sunday the family visited at his father's near Monroe, also calling to see Mrs. Jack Vaughn.

We are all thankful for the needed showers.

Sunday school is planning on a Children's Day sometime next month and also we hope to get something we can depend on for music which so much for the helpful uplift of the service.

Mrs. E. W. Lunquist and brothers C. E. and Francis Bergquist and wife spent a very pleasant time on Wednesday of last week at Daytona Beach and on Friday they all went fishing at Crystal Lake, getting a good mess.

Mr. and Mrs. Bergquist left for their home at Pierce, Fla., on Sunday in their car.

Have you lost or found anything? A Herald Want Ad will help you.

DAUGHERTY TO DIRECT FIGHT IN WAR FRAUDS

(By The Associated Press) WASHINGTON, May 26.—Attorney General Daugherty will assume personal direction of the prosecution of war fraud cases it was announced last night at the department of Justice.

Associated with the attorney general, the statement said, will be a number of "distinguished lawyers from all parts of the country selected for their special fitness for the posts." Among these will be Representative C. Frank Reavis, of Nebraska, who will resign his seat in congress in order to take up the work on June 4.

Colonel Henry W. Anderson, of Richmond, Va., the announcement said, also would assist the attorney general in the prosecution, as well as former Representative Roscoe C. McCullough, of Canton, Ohio, who was appointed recently by Mr. Daugherty to investigate war cantonment cases.

By assuming direction of the war fraud cases, Mr. Daugherty said, he would be able to use in the prosecution, the salary of \$25,000 or \$50,000 a year which otherwise would have been paid to one special assistant attorney general under authority of congress which "has placed no limitation" on the salary to be paid this official.

He declared, the statement said, that "the work probably would proceed more satisfactorily if he assumed its direction." The assistants already selected, it was said, "are men whose income in private practice is probably five times as large as the amount they will receive for the conspicuous service they will render to the government and the people."

BAND CONCERT OF MOROCCO WILL BE AT LAKE PAVILION INSTEAD OF CENTRAL PARK

Owing to the fact that there will be so many visitors gathered on the lake front tomorrow afternoon at 5 o'clock waiting for the barbecue and that the boat with the visiting ladies will land at the Clyde Line dock about that time it was thought advisable by the Sanford Shrine Committee to change the place of the band concert from Central Park to the Lake front. This fine concert of the Morocco Band of Jacksonville will be held at the pavilion on the lake front and all the visitors and the people of Sanford are cordially invited to attend the concert. This special notice was given the Herald this morning and all the Shriners and everyone is requested to spread the news of the change in the program.

MAJORITY OF FLORIDIANS ARE NATIVE BORN

JACKSONVILLE, May 26.—The remark that one rarely meets a native Floridian in Florida is heard with remarkable frequency but an analysis of reports from the census bureau on the census of 1920 indicates there is little ground for the impression that Florida's population is made up of a mere sprinkling of native crackers.

The 1920 census placed Florida's total population at 968,470 and the statistics show that of this number 560,103 of 58 per cent were natives of the state.

The foreign born inhabitants numbered only 53,864 in spite of the fact that in other parts of the country many persons cling to the erroneous belief that both Tampa and Key West are composed largely of foreigners. The total white population was 638,153 while negroes numbered 329,487. Of the negroes, 10,665 were born outside of the United States, principally in the Bahamas and West Indies.

With the exception of native Floridians Georgia had more representatives in Florida than any other state. They numbered 102,530. Alabama was second with 50,630, followed in order by South Carolina with 34,930 and North Carolina with 17,358.

Other states represented by large numbers in order, follow: New York, 15,918; Ohio, 13,774; Illinois, 11,505; Pennsylvania, 11,050; Indiana, 8,467; Tennessee, 8,340; Kentucky, 8,065; Virginia, 6,672; Michigan, 6,554; Mississippi, 5,073; Missouri, 4,622; Massachusetts, 4,728; all others 39,434.

The often repeated statement that Florida's population is composed mostly of northern people also is far from correct. Giving to the northern, eastern and western states mentioned in the table the total figures credited to "all other states" the aggregate would be only 111,405, leaving a balance of 803,201 native southerners and not taking into account the 53,864 foreign born.

Eliminating the southern born from the 39,434 credited to "all other states" the probability is that there are more Georgians along in

Florida, than natives of the northern eastern and western states.

BANK CLEARANCE LAW IS KNOCKED OUT IN NORTH CAROLINA

(By The Associated Press) RALEIGH, N. C., May 26.—The law passed by the last session of the North Carolina General Assembly allowing state banks to charge exchange for bank clearances, is held invalid by the supreme court in a unanimous opinion written by the chief justice who says that the law is in conflict with the federal statute and is therefore unconstitutional.

The suit was brought by the Merchants and Farmer's Bank of Monroe, in the form of an injunction to require of the Federal Reserve Bank of Richmond, to honor checks drawn on this and the other state banks in North Carolina.

The member banks of the Federal Reserve System had refused to honor drafts drawn on the state banks because they had demanded exchange fees for collecting drafts and checks paid on papers drawn on these banks.

The law was passed in North Carolina in 1921, at the instance of some of the bankers, members of the general assembly, who claimed that they state banks were losing a great deal of money through the policy of the Federal Reserve System in not allowing the collection of these fees.

The law merely gives the state banks the right to collect these exchange fees rather than follow the policy of clearing at par as sanctioned by the Federal Reserve System Banks. The chief justice says that desirable as the collection of these fees may be, it is in violation with the federal reserve banking laws, and is therefore unconstitutional.

The injunction proceedings were brought by the Union County Bank, but two hundred and sixty-five other state banks in North Carolina joined in the suit. John J. Parker, counsel for the banks, announced following the decision, he would carry the case to the supreme court of the United States.

VAGARIES OF VACUUM TUBES

Peculiar Actions That Always Astonish and Sometimes Frighten the Amateur Radiolist.

Everybody who has had anything to do with vacuum tubes has from time to time had them do unexpected things and give results that at the moment seem beyond explanation.

The explanation of several characteristics of these miniature giants which are met with in daily operation is sure to prove of great interest to the amateur. In cases where the actions of the tube are not understood these peculiarities have sometimes frightened people.

One instance of a newborn fan's fright was brought to attention in a letter of inquiry. The instrument had just been set up and was being operated for the first time. The tubes had been firmly adjusted and were just at the spilling point and—over they went, giving vent to the most unearthly sounds. The embryo enthusiast who looked upon the audion tube as an electric light, thought it was going to explode. He jumped away from the instrument and out of the room, and did not venture near it for several hours, and then only after reaching round the corner of the door with a long stick and pulling the battery switch off.

Similar instances have come to attention when bulbs generate var-colored vapors in the vacuum chamber.

Moonshiners Using Radio. Revenue officers seeking distillers of the far-famed and hardhitting "white lightning" in the mountains of Kentucky say that many raids made in the last few months have proven unsuccessful, due to the adoption of radiophone as a means of communication among the moonshiners.

DID HIM MORE GOOD

Many men and women suffer from backache, rheumatic pains, stiff joints, sore muscles and other results of kidney trouble because they neglected the first warning symptoms. Mr. and Mrs. George Chamberlain, of Daytona Beach, are expected to arrive today for the Shriner festivities, and will be the guests of Mrs. W. J. Thigpen.

Mrs. John T. Brady has returned home from Jacksonville where she has been visiting her daughter, Mrs. Dan U. Wilder. She was accompanied home by Mrs. Wilder.

Mr. and Mrs. George Miller and daughters, Ada and Marion of St. Augustine are the week-end guests of Mr. and Mrs. E. D. Chittenden at their home on Magnolia avenue.

Born to Mr. and Mrs. Lewis R. Cobb of Jacksonville, an 8 1-2 pound son, Thursday. The young man has been named Lewis R., Jr. Mrs. Cobb will be remembered as Irene Bruton.

INFORMAL LUNCHEON Mrs. J. N. Robson entertained with an informal luncheon Tuesday evening in honor of Mrs. M. Martin who left today to spend the summer in the mountains of North Carolina.

SHOALS PROJECT TAKES NEW TURN

(By The Associated Press) WASHINGTON, May 26.—In a formal opinion transmitted by Secretary Weeks to the House Military committee yesterday Attorney General Daugherty held the contracts negotiated between the war department, the Alabama Power Company and the Air Nitrate Corporation to be "invalid" with respect to the provisions which officials of the two concerns claimed, gave them exclusive rights to purchase the Gorgas, Ala., steam power plant and nitrate plant No. 2 at Muscle Shoals.

The opinion was immediately placed before the committee by Chairman Kahja for study in connection with the investigation it is making of Henry Ford's offer to purchase and lease the Muscle Shoals projects. Committee members advocating acceptance of the Ford proposal by congress expressed gratification at the opinion taken by the attorney general and some declared the chief obstruction to their labors had been removed by the opinion.

No action was taken by the committee. After an hour's study of the document in executive session, the members adjourned until today when, it was predicted, the way would be cleared for early action.

Officials of the Nitrate Corporation and the power company appearing before the committee had made it plain that they expected the Government to meet the obligations imposed by the contracts, and announced that, in the event the Government failed to do so, court action would be instituted to compel compliance.

Their testimony was accepted by some committeemen as presenting a difficult problem which they would have to solve before the Ford offer could be reported, unless it was modified so as to eliminate the nitrate plant which he proposed to purchase and the Gorgas steam plant for which clear title was asked.

RE-ARREST WARD MURDER CHARGE

(By The Associated Press) WHITE PLAINS, N. Y., May 26.—Attorneys for Ward, who spent the night in jail here after his re-arrest, are expected to go before Justice Young today with a plea of habeas corpus writ to release him. They failed last night.

WHITE PLAINS, N. Y., May 26.—Justice Young granted the writ. The writ was served on the sheriff directing him to bring Ward into court for hearing on the question whether he will again be released on bail.

WHITE PLAINS, May 26.—Walter S. Ward, millionaire baker's son, yesterday was re-arrested on a charge that he killed Clarence Peters, of Haverhill, Mass., an ex-navy man, near the Kensico reservoir nearly two weeks ago.

Ward's re-arrest followed issuance of an order by Supreme Court Justice Seeger yesterday at the request of District Attorney Weeks. Mr. Weeks asked the order to re-arrest after telling the court that he had discovered discrepancies between the details of the killing as told by Ward and those unearthed by the county officials.

The district attorney said he did not believe the bail of \$10,000 on which Ward had been released was sufficient. Justice Seeger immediately issued the re-arrest order. He also cancelled the \$10,000 bail.

Some hours later Sheriff Werner returned to the court house with Ward and one of his attorneys. The party immediately retired to the sheriff's office where they went into an executive conference.

District Attorney Weeks said that Ward would not be given an opportunity to again furnish bail at this time, but that he would be held until

some legal steps were taken in court.

SERVICES AT FIRST BAPTIST CHURCH NEXT SUNDAY

The new pastor of the First Baptist Church, Dr. F. D. King, with his family, arrived this week from Fort Myers where they have resided for the past five years. Dr. King begins his pastorate here at once. It is desired that every member of the Sunday school be on hand next Sunday morning at 9:30 to greet him. His first sermon as pastor will be preached Sunday evening at 8:00 o'clock, as the Baptists will join with the other churches in attending the services at the High School building Sunday morning. The Stetson Quartette will furnish special music at both Sunday School and evening services.

Every member of the church is urged, and visitors are cordially invited, to attend.

BUILDING FROM THE ROOF DOWN

If it were within your power to correct an architectural fault in a building while the structure was in its embryonic stage—when the foundations were being laid—would you wait until the building was completed and the roof in place?

Would you rather attempt to build from the roof down than to build from the foundation up?

Man's character is not unlike a building. It begins with the foundations laid in youth—in that impressionable age when the whole of the future may be determined and directed.

And now a case in point: Two men in St. Petersburg refused to contribute to the fund to finance the schools. Arguments would not sway them, but arguments did bring out emphatic statements that they would give hundreds of dollars toward a fund for law enforcement and curbing of crime.

These statements were made without solicitation and indicated a worthy condition of mind. It is well that there are citizens willing to sacrifice their own personal earnings in the cause of law enforcement and the preservation of morals by corrective influences.

But the ratio of hundreds for cor-

Claims promptly paid—Ask any bank in Sanford G. C. FELLOWS, Agent Box 156, Sanford Phone 46-J

rection and not one cent for character building in youth is miserably indicative of a condition of mind which is neither worthy nor healthy.

Statistics prove that the average mentality of America today is the mentality of a sixth grade school child. The eighth grader, the high school boy and girl are above the average of the whole intelligence of America. Is it any wonder that there is radicalism and other isms? Is it any wonder that law enforcement becomes an is-

sure in all American cities? Is it any wonder that we are face to face with conditions which are serious?

And such a condition will exist for future generations, if we do not change this mental attitude of those who cannot see that the dollars spent in education, in schools and colleges, are dollars worth hundreds spent in corrective agencies, in law enforcement and in attempting to "build the house of character from the roof down."—St. Petersburg Times.
