Special Group Formed To Study Double Taxation Issue

By ED FRICKETT
Herald Staff Writer

A special commission to study the double taxation issue in Seminole County has been established by members of the county's Legislative Delegation.

At a meeting last week in Tallahassee, State Senator Lori Wilson, 1-Merritt Island, proposed the "in-depth" study to determine if double taxation exists here. The measure was unanimously adopted.

Most all of the county's cities are up in arms over the issue, and the city of Sanford and other cities are even considering lawsuits to reclaim tax money for which they claim the county provides no services.

In Casselberry, city officials tonight will consider a complex proposal which will be presented to the County Commission asking that money be returned this year and taxes not be collected in the future for certain services for which city officials claim they receive no benefit.

"Because of the widespread interest and concern on the part of the citizens of Seminole County, it is my feeling that an in-depth study to determine if double taxation does exist is the very least this delegation can do to try and resolve the serious question of double taxation," Wilson said.

The commission will be composed of two members appointed by each of the four members of the delegation and one financial representative from each governmental unit in Seminole County.

Wilson says the commission is to make its findings known no later than Jan. 15, of next year. Appointments are to be made no later than July 15 of this year, according to Wilson.

In addition to Wilson, the delegation consists of State Senator John Vogt, D-Cocoa Beach; State Rep. Vince Fichtel, R-Leesburg and State Rep. Bob Hattaway, D-Altamonte Springs.

County Commission Chairman Sid Vihlen Jr., has been quoted as saying he welcomes any detailed study such as the one prepared by Casselberry and has promised a speedy reply.

One such speedy reply went out to officials of Altamonte Springs, who questioned the county about the controversial double taxation issue.

That speedy reply said no double taxation exists in the City of Altamonte Springs.

More Data Is Sought On School Bargaining

The issue of collective bargaining is riling teachers in Seminole County.

And more and more informational meetings are being scheduled to better inform parents and taxpayers about what goes on when a teachers group — such as the Seminole Education Association (SEA) begins bargaining with School Board officials.

For example, since SEA began talks and stories began appearing in newspapers, some school representatives say their offices have been flooded with requests for information.

Mrs. Constance R. Moore, faculty representative for Longwood Elementary teachers, held a meeting last week in which a representative from Florida Professional Educators (FPE) explained the organization's views.

"I'm trying to do what teachers asked me to do," Mrs. Moore said this morning.

Longwood Elementary is the school where an Orlando labor negotiator claims to represent a group of teachers. The labor relations specialist, Al French, says he may even go so far as to challenge SEA's certification by the state.

Mrs. Moore says a host of parents and teachers are seeking additional information.

SEA has presented a 75-page master contract proposal which asks for a starting salary of \$10,000 for beginning teachers.

Mrs. Moore says her desire is to have as many views as possible presented to teachers at her school. Soon, she hopes to invite a representative from the American Federation of Teachers (AFT) to speak. AFT is affiliated with the powerful AFL-CIO.

Also scheduled to speak is a representative from the School Board's negotiating team. And Gene Grooms, SEA's executive director, already has made a presentation to the group of teachers.

Another group which has formed calls itself the Seminole County Concerned Taxpayers. A meeting is set for that group tomorrow night at 7:30 at the St. Augustine Church in Casselberry.

The group's purpose, spokesmen say, is to learn more about the master contract SEA is negotiating with school officials.

Spokesmen say French has been invited to the meeting to try to explain how the master contract proposal will affect parent-teacher relationships in the county.

French is an executive of an Orlando firm which specializes in labor relations. He has been quoted as saying he is investigating the possibility of challenging SEA's certification on the basis that some SEA members weren't properly informed of SEA aims.

But, Grooms says French's claims are, in essence, hogwash and that SEA has adequately met all requirements of the Public Employees Relations Commission (PERC), the agency set up to establish collective bargaining guidelines for the entire state.

WOOD INLAY ATTRACTS EYE
A display of art, constructed by wood inlay, is inspected by Mike Weisbach during Saturday's art show at Sanford Plaza. Explaining the work is Stanley Myron, Cocoa Beach artist, who exhibited the wood inlay during the day-long art show. Additional photos may be found on Page 2A.

Stolen Truck Found; Suspect Eludes Police, Still Missing

By BOB LLOYD
Herald Staff Writer

Sanford police and County Sheriff's deputies today were searching for an unidentified suspect who eluded police early Sunday in a stolen truck and is believed to have burglarized two autos in the Midway community east of Sanford before escaping on foot.

Sanford Patrolman Mike Tindell reported an orange-colored truck, listed as stolen last week, wouldn't stop early Sunday on Sanford Ave. when he pursued it with blue lights flashing and siren wailing.

Tindell said he fired four times at the rear tires of the fleeing truck after it careened through streets and traveled east on SR-415 to Brisson Ave. The vehicle finally crashed in a plowed field off Midway Ave. and the driver fled on foot.

Officers said the stolen vehicle had been partially repainted and lettering had been added to a door.

Sheriff's deputies who joined the investigation reported two autos were burglarized shortly after the manhunt began in Midway, but the suspect again eluded officers. One man told officers that he found the man asleep in his car but, the man ran, taking personal papers.

FAMILY JAILED
A Fern Park man, his wife and a juvenile girl, were jailed briefly Sunday after a vandalism call when James Hampton Harvey, 42, of 2209 Sandalwood Dr., Fern Park, was verbally threatened, officials said.

The juvenile girl was turned over to state Division of Youth Services officials at the Sanford Juvenile Detention Center and later released.

County Moves To Select New Attorney For Utilities

Selection of a utility attorney tops the agenda for tomorrow's regularly scheduled County Commission meeting.

Interviews with several candidates for the post have been held in recent weeks and the Commission is expected to make its selection known tomorrow.

The Commission apparently became disenchanted with present Utility Attorney Bob Morris quite sometime ago after what was referred to as a breakdown in communications which reportedly resulted in unauthorized rate hikes by General Waterworks.

Seminole County's Bar Association was asked several months ago to assist the Commission in its search for an attorney qualified for the utility post.

In addition to Morris, who had not been under a written contract but was asked to prepare one for consideration along with other candidates, those seeking the position include Seymour Benson, the firm of Bravo & Korman of Longwood and Ned Woolfolk.

Also on tomorrow's agenda are reports from Road Superintendent J. C. Lavender, County Engineer Bill Bush, Department Director Roger Neiswender, Bill Dale (environmental services), Gary Kaiser (public safety), Sheriff John Poli's office, County Attorney Tom Freeman, Asby Jones (clerk), Administrative Assistant Betty Simcoe and Chairman Sid Vihlen Jr.

Public hearings will top the agenda for tomorrow night's meeting with two rezoning requests on tap in addition to an amendment to the zoning regulations affecting off-street parking.

(Continued On Page 2-A)

'Farm-City' Section Offered In Today's Evening Herald

Seminole County, while it may be one of the smallest county's in area in the state, has a lot to offer in the way of agriculture.

Tomorrow's "Farm-City Festival," expected to draw more than 7,000 people to the Sanford Plaza and downtown, is previewed in a special section in today's Evening Herald.

See Section B for types of produce to sell, children's events and background to the "Festival."

Shoppers from around Central Florida are expected to respond to a multi-media promotional campaign and visit the two business centers in Sanford and take advantage of the produce and retail bargains.

Trucks loads of fresh produce — cabbage, corn, beans, carrots and more — will be set up in booths in front of stores with the hope that once attracted to the produce booths, shoppers will venture inside the stores.

Scheduled activities for the kids include "Old McDonald's Farm," to have small farm animals in open pens for children to pet, a treasure hunt for nickels in a sawdust pile and free treats.

Sanford To Get Comprehensive Plan

By MICK LOCHRIDGE
Herald Staff Writer

Sanford City Commissioners tonight will be presented with the city's Comprehensive Plan, a detailed plan to gauge the city's growth over the next 20 years.

Also tonight the Commission will receive the newly written water recharge policies and zoning maps.

The Comprehensive Plan, outlines optimum conditions for the city regarding public health, safety, public works, housing, leisure and governmental administration.

The plan was put together by the city's department heads as to what each department would find the most suitable for working conditions by the year 1990.

Estimate population figures for the city by 1990 are more than 50,000. Sanford's present population is more than 22,000.

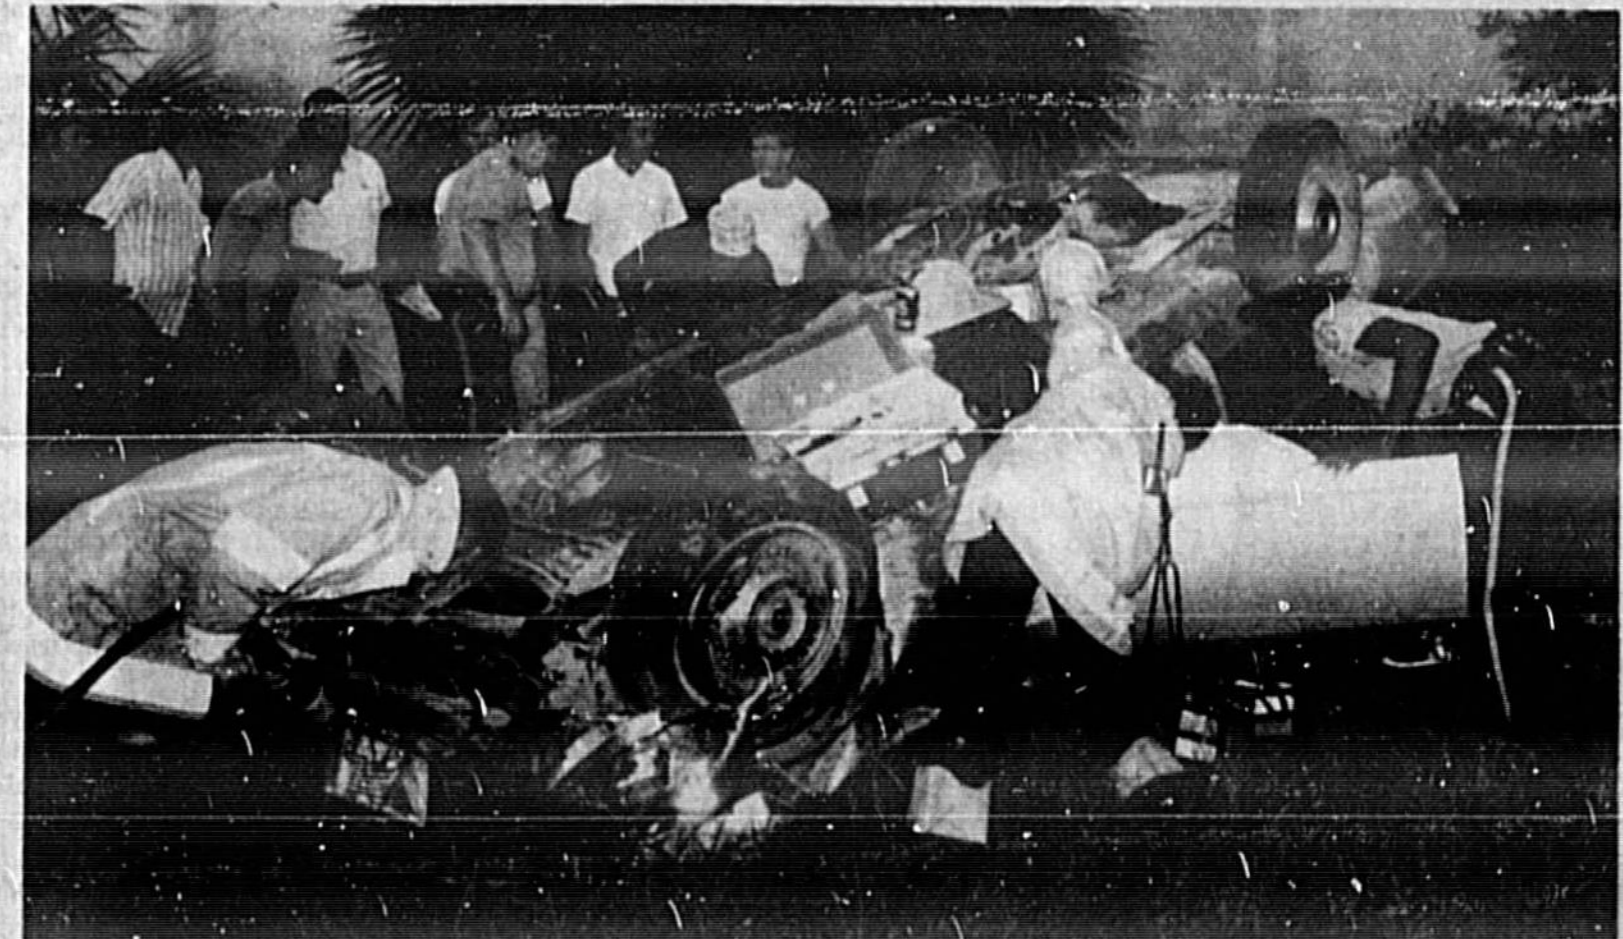

The water recharge policies, compiled by the planning and engineering departments, outlines the areas of the city which are the high, or prime water, recharge areas.

There areas, according to City Planner David Farr, should be carefully developed so as not to destroy the natural conditions of the land.

Also tonight, Commission will hold a public hearing to consider: —Rezoning property at the southwest corner of the intersection of 24th Street and French.

—Public hearings to consider additions and amendments to articles in the Zoning ordinance.

—The first reading on several rezoning ordinances of residential lots in the Pine Level subdivisions, a commercial lot in the Sanlanta subdivision and a general commercial at 2397 French Ave.

LAKE MARY CRASH INJURES TWO
Emergency crews worked 25 minutes this morning before extricating Mrs. Vida P. Moore, 59, of Anthony, Fla., from the wreckage of her overturned auto on Lake Mary Boulevard near Fifth Street. Mrs. Moore and Mrs. Sylvia Mitchell, 57, of Apopka, were taken to Seminole Memorial Hospital for treatment after the Moore auto and van driven by Curtis Mitchell, 62, collided on the foggy stretch of highway in Lake Mary. Officers said the Moore auto apparently veered across the road into the path of the oncoming van. (Herald Photo by Bob Lloyd)

Facing World Shortages Anew

Economic facts are hard facts that stubbornly refuse to conform to preconceived notions.

One such fact is that we live in a world economy that is inescapably interdependent and growing more so every day.

Another is that supplies of basic commodities are finite and subject to depletion.

America is now so vulnerable to shortages of vital imports that we need to keep better track of world markets, so that we can plan more intelligently for our future.

Sen. John V. Tunney, D-Calif., is the author of a bill to establish a monitoring unit within the executive branch of the federal government to evaluate U.S. resources, set goals to meet shortages and assess the international impact of such shortages.

The list of imports on which we now depend is headed by oil, which has provided us with an object lesson in the last 18 months.

Less well known is our present dependence on imports for major supplies of chromium, nickel, rubber, aluminum, tin and zinc. In 10 years, iron, lead and tungsten may be added to the list of those minerals which we get mainly from abroad.

By the year 2000, Tunney believes, we may be dependent on foreign supplies for most of our copper, potassium and sulphur. By then we may be running a \$100-billion trade deficit for minerals alone.

Hand wringing will not restore our economic independence, a goal that may be impossible and probably is not desirable. In economic terms, the first, second, third and fourth worlds will soon be one world if they are not already — and that's not gloomy.

The Congress should pass Tunney's bill or similar legislation to improve our capability to anticipate and adjust to changes in our needs and the world supply of basic materials.

Gun Law Off Mark

The alarming increase in the nationwide crime rate is adding fuel to the drive for gun control legislation in the 94th Congress. Massachusetts has just put a stiff gun control law on its books. A handgun registration law has been proposed in the California Legislature.

The handgun is justifiably the prime target in this revival of the gun control issue. More than half the murders committed in our country involve handguns. However, this does not change the fact that legislators are on a difficult course seeking a constitutional and practical way of keeping handguns under control.

It is easier to spot the flaws in gun control proposals than to offer constructive alternatives, and we believe that Attorney General Edward Levi is simply on the wrong track in proposing that handguns be outlawed in metropolitan areas which have the highest crime rates. This would simply be an invitation to black markets and smuggling and the transfer of gun traffic from cities to smaller towns on their outskirts.

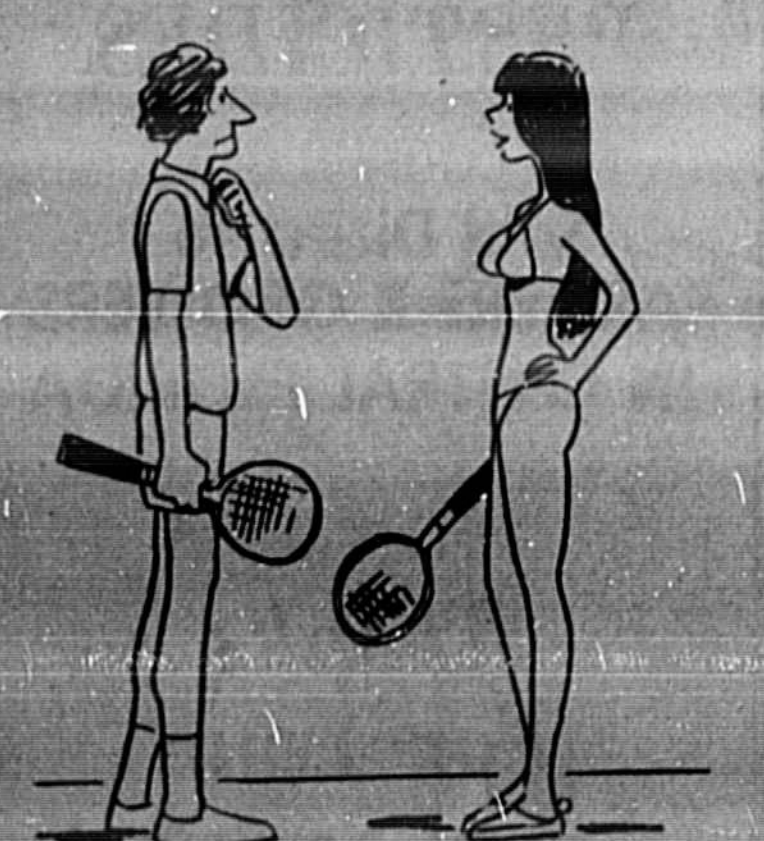

The same crime statistics which show the use of handguns in crimes show that the crime problem is becoming as serious in the suburbs and smaller cities as it is in congested metropolitan areas. One thing that can be stated with some degree of certainty is that the handgun dilemma cannot be localized in our mobile society.

Not Government Job

There seems to be some confusion in Washington over the difference between a national energy policy and nationalizing our energy industries.

A federal energy policy can define the country's needs and set specific goals for filling them. Through tax incentives, and the powers of regulatory agencies already in existence, it can encourage the myriad companies in the energy field to move in a coherent direction toward those goals. It is such a policy we are waiting for from Washington — not new programs to put Uncle Sam in the energy business.

BERRY'S WORLD

Everybody seems to be going for color in their fashion, but I prefer the traditional white don't you?

Around The Clock

Well, the Second Annual Ballet Guild Golf Tournament is now entered into the history books—peppered as being another successful event.

The actual dollars and cents figures will be reported via our sports pages in the next couple of days. All of those proceeds will be used by the Guild to help needy students further training and careers.

It was a significant and entertaining banquet Saturday night at the Mayfair Country Club in Sanford. Just the right respite for a two-day affair. Recognition, highly deserved, was offered by Guild President Doris Lee Russell to Co-Chairman Tom Larsen and Joe Kurimal.

Having personally attended a number of the pre-planning meetings and watching this dynamic duo in action, I am a believer out of me. They worked and worked, and then did some more work to make certain the tourney would be successful.

It's the many little things that are tied into a package which helps to make a venture a success. Larsen and Kurimal devoted untold hours to the mountain of details, and as I write earlier, they made the program a success.

Nearly \$2,500 in prizes was awarded to the 98 contestants this year. No one, however, was lucky

manager in Sanford, Tom Hunt, who took care of still another little detail — which ultimately proved to be a key ingredient during the aforementioned banquet.

A conference-type phone was installed with the purpose of placing a call to Harold Kastner, only recently removed from the intensive care unit at Seminole Memorial Hospital, and one of the Ballet's biggest boosters. (Incidentally, Kastner, who has been a patient at the hospital for nearly four weeks recuperating from a couple heart attacks, is progressing nicely — but is not permitted any visitors nor any phone call, please.)

As the conversation between Kastner and three of his golfing buddies (Andy Carraway, Pat Patrick and I) evolved, their words of encouragement were amplified for the entire gathering of approximately 200 persons to share. It was touching (but altogether like Kastner) when he wished his wife Viola who was a guest of honor and all the other women there a Happy Mother's Day.

Nearly \$2,500 in prizes was awarded to the 98 contestants this year. No one, however, was lucky

enough to "hole-in-one" the par three fifth hole, where a new Ford was the prize.

All-in-all everyone seemed to enjoy themselves — particularly as they later watched themselves on the closed-circuit video tapes which were taken of the contestants while in play. The equipment was provided by Seminole High School Principal Don Reynolds.

Probably the only one who didn't enjoy himself at this year's event was Seminole County Sheriff John Polk.

Polk is currently enrolled in the 11-weeks FBI special training school. He did visit with the officers early Sunday before teoff time offering words of wisdom on how to win the event. (With his high handicap, Polk probably has won more golfing tournaments and prizes than any other local golfer.)

And oh yes, there is something new to report about the Sheriff... all of his classmates at the Academy are sprouting moustaches for their graduation pictures. It sorta does something for the 'big man'... something his wife Dot will take care of when he finishes the school in about five more weeks (and that is, get out the scissors).

Don Oakley, associate editor

DON OAKLEY Adding Up Our Bills For Vietnam

When they talk about America's "rigoridity" toward South Vietnam following the 1973 Paris peace agreement — and some people will — refer all such complaints to the General Accounting Office.

A few weeks ago when Congress was mulling over President Ford's request for \$200 million in military aid to South Vietnam, on top of some \$700 million already authorized for 1975, the government's fiscal watchdog submitted an extremely interesting, and painful, report that was made part of the public record.

As far as GAO investigators could determine, something like \$200 million worth of weapons, equipment and supplies sent to South Vietnam in the past two years wound up lost, mislaid, missing, mishandled or in the hands of the enemy.

Item: A total of 143 small vessels, such as patrol boats and landing craft, valued at nearly \$37 million, simply "disappeared" from the South Vietnamese navy.

Item: A stockpile of ammunition valued at nearly \$2 million was stored out of doors without care and allowed to deteriorate.

Item: At a depot holding small arms valued at nearly \$20 million, more than \$10 million worth of the stockpile had inadvertently gone missing.

Item: South Vietnam requested new M-48 medium tanks to replace aging M-48 medium tanks. The "lost" equipment was actually stored in a warehouse.

Item: Gen. Nguyen Vinh Nghi, former commander of South Vietnamese forces in the Mekong Delta, last year pilfered 6,000 radios and 24,000 small arms from U.S. shipments and sold most of them to the Viet Cong.

When they talk about the next domino to fall in Southeast Asia because of America's "abandonment" of an ally — and some people will — remind them of this unpleasant fact: Far from discouraging Communist aggressive designs, the United States has inadvertently made North Vietnam one of the most formidable military powers for its size in the world.

Item: Thanks to American-made additions, North Vietnam can field at least 1,000 tanks — five times the number Thailand has and about as many as Great Britain.

Item: The Communists have captured more than 1,000 large American airplanes; \$500 million in spare parts and engines for everything from Jeeps to fighter-bombers; up to \$300 million in ammunition; \$20 million in fuel and lubricants.

All told, according to one Pentagon estimate, North Vietnam has fallen heir to some \$5 billion worth of weapons and supplies. It is not clear whether or not this includes the \$1 billion worth abandoned virtually intact by the South Vietnamese army in its headlong flight at the beginning of the debacle — but does it matter?

In addition, North Vietnam now owns, complements of the American taxpayer, one of the finest deep-water ports in the world at Cam Ranh Bay, plus elsewhere in South Vietnam oil tanks, warehouses, barracks, air fields, hospitals, ad infinitum et nauseum.

"Hey Pop, you forgot something!"

RAY CROMLEY

Not All Lost In Vietnam

WASHINGTON — (NEA) — I must believe that something of what we did in South Vietnam will endure.

I remember sitting near the Cambodian border on a rooftop in a Special Forces camp then under seven feet of flood water, listening to the GIs who they would not be able to finish on time the school house they had promised the local farmers.

Then there were the villagers who showed me with pride the school they had constructed themselves — so happy they couldn't stop talking. And the American who had convinced the villagers they could have a school if they wished, and that they could, indeed build it if they tried. He had obtained the American materials needed — galvanized iron for the roof and cement.

I can't forget the American nurse who traveled in safe areas, contested areas, for all she knew or cared, in Viet Cong areas, helping the civilian staff, training Vietnamese nurses, assisting civilian Vietnamese doctors. She asked no questions, just helped.

And walking through the countryside, visiting a local school, noting a quiet American village in the corner, helping where he could. He was an infantryman, and this was not his duty or his assignment. But he wanted to do something.

There was the American who, in his off hours, went almost every day up to a tiny settlement in the hills to help the villagers with their crops, introducing new ideas — tomatoes, lettuce and other vegetables — killed one day by the Viet

Cong and avenged by the hamlet's women.

I sat in a PTA meeting, where Vietnamese, unused to the idea of questioning school principals and teachers, sat quietly at first — then began slowly to get the idea that they as parents might have some say, too.

There was the piglet program which set thousands of little farmers up in the meat business in a small way, the introduction of a miracle rice which kept the South in food despite the disruptions of war.

Another friend taught hundreds of thousands of South Vietnamese farmers and fishermen to pool their meager funds, loan the money back to each other for buying small motors and pumps, small fishing craft, seeds and fertilizer.

I remember the repeated American pressures for land reform, beginning long before our troops were in the country. These men, undiscouraged by many failures, began to see measurable progress before the end.

Consider, too, the words of another friend. Asked what he made of the nationwide village and hamlet elections, he thought for a moment, then said: "I am acquainted with most of the Vietnamese who associate with Americans — but I recognize only a few names in the lists of those elected. That means in the countryside they must be picking the men and women they want, not just who they think we want. It's a good sign."

wanted the war ended on their own terms. As April rushed to a conclusion and the remaining few thousand Americans in Vietnam began hastily pulling out, it was apparent these terms were the total surrender of the Saigon army and city.

All roads to Saigon were methodically cut by Viet Cong forces. Just in case the series of revolting door-to-door operations in Saigon failed to get the message, the international airport at Tan Son Nhut was bombed on the night of April 29 and Viet Cong troops began moving massively and purposefully from their jungle hideouts to the main highways leading to the heart of the city.

By the time the last president of South Vietnam, Gen. Duong Van "Big" Minh, solemnly broadcast the surrender at 10 a.m. on April 30 and waited weeping in Independence Palace to receive the victorious invading forces, the last South Vietnamese infantry divisions were defending Saigon no longer existed.

Reports are still sketchy on the fate of the Saigon units, but a clear picture has been put together on what happened to the South Vietnamese 29th Infantry Division guarding Saigon from the northwest.

Gen. Ba reportedly committed suicide beside a river when a helicopter he summoned to rescue him was shot down. With the 25th Division gone, the path was clear for the Viet Cong to sweep into Saigon from the northwest and west.

WORLD IN BRIEF

End Of Cuban Embargo May Come This Year

WASHINGTON (AP) — Western Hemisphere foreign ministers have reached a "general understanding" on ways to end the Cuban embargo, although the next step toward lifting the 31-year-old ban is still unclear.

The reported agreement on Cuba is the major achievement thus far of the annual Organization of American States meeting under way since Thursday. Although Cuba was not even mentioned in the 37-point agenda, it has been a dominant topic of corridor conversations at OAS headquarters.

In an impromptu meeting with reporters Saturday, Secretary of State Henry A. Kissinger said, "I have the impression there is a general understanding of where we want to go" on the Cuba issue.

VW Suffers Losing Year

WOLFSBURG, Germany (AP) — Volkswagen is seeking a partner for manufacturing cars in the United States after suffering its first losing year, according to the company's new chairman, Ton Schmeuser.

"Who it is, I can't say. When it will come, I also can't tell you. But the clear answer is that we must do something in the U.S.A. and that we will do it with a partner," Schmeuser said in remarks released for publication today.

AREA DEATHS

MRS. MARY DELOACH

Mrs. Mary DeLoach, 49, of Rt. 1, Box AF, Sanford, died in Orlando Saturday. Born in Pasaic, N. J., she came to Sanford two years ago from Georgia and was a Catholic.

Survivors include her husband, Roland DeLoach, Sanford; daughters, Misses Paula and Maris DeLoach, Sanford; son, Salvatore DeLoach, Sanford; three brothers, Frank Mantegna, Angelo Mantegna and Salvatore Mantegna Jr., all of Marcus Hook, Pa.; sisters, Mrs. Josephine Krause, Marcus Hook, and Mrs. Jina Myers, Newark, Del.; mother, Mrs. Pauline Mantegna, Marcus Hook.

Grampow Funeral Home in charge of arrangements.

ROBERT HOWE
Robert Howe, 49, of 118 Mayfair Circle, Sanford, died Sunday morning. Born in Akron, Ohio, he lived in Sanford for the past 16 years. He was a member of St. Paul's Lutheran Church of Akron. He was a tire engineer and a veteran of WWII.

Survivors include his wife, Mrs. Eileen Howe, Sanford; son, David A. Howe, Lake Mary; daughter, Mrs. Patricia Hall, Winter Springs; four grandchildren; and parents, Mr. and Mrs. Harlan K. Howe, DeBary.

Brison Funeral Home in charge of arrangements.

FUNERAL NOTICES

MANN, L. BARTOW — Funeral services for L. Bartow Mann, 81, of Lake Monroe, who died Sunday, will be held at 3 p.m. today at Brison Funeral Home with Dr. Jay Ted Crenshaw officiating. Burial in Sylvan Lake Cemetery, Brison in charge.

DELOACH, MRS. MARY — Funeral services for Mrs. Mary DeLoach, 49, of Rt. 1, Box AF, Sanford, who died Saturday at 9 a.m. at All South Catholic Church with Fr. Richard Sinescamp officiating. Burial will be recited today at 2 p.m. at Grampow Funeral Home Chapel. Burial in All South Catholic Cemetery, Grampow in charge.

HOWE, ROBERT — Funeral services for Robert Howe, 49, of 118 Mayfair Circle, Sanford, who died Sunday, will be held at 3 p.m. Wednesday, at Brison Funeral Home with Rev. William Downey officiating. Burial in Oaklawn Memorial Park, Brison Funeral Home in charge.

Khmer Rouge Troops Like Young Monks

BANGKOK, Thailand (AP) — Cambodia's victorious Khmer Rouge soldiers live in the manner of medieval monks. Poverty, chastity, obedience are the rules. Exercise is a daily regimen, and drinking, raising hell and chasing women are taboo.

Foreigners released last week by Phnom Penh last week say the average soldiers are simple peasant youths bewildered by modern mechanical gadgetry, apparently-untutored in politics, theology and tightly controlled by the iron hand of their leaders. There are separate women's combat units as well as boys soldier described as "very aggressive, dangerous and without fear."

Bernard Gaude, a Frenchman who lived in Cambodia for 26 years under four different regimes, spent two weeks with the Khmer Rouge in Phnom Penh and its vicinity after the city fell April 17 and provided one of several accounts of their austere lifestyle.

"They'd wake up at 4 sharp every morning and do about two hours of calisthenics and other physical exercise. This was followed by some close order drill with weapons. Then they'd go about their daily tasks, sweeping the streets and cleaning up the buildings. "At night, groups of them would gather together for what may have been self-criticism sessions. Several of them would sit in a circle and one would stand up and start talking, looking rather sheepish at times, scratching his chin and so on.

"For food, they carried a little basket with some rice, little bits of dried fish and prahoe (fish sauce). They didn't drink any alcohol. Sometimes when they'd open up a bottle

and discover it was wine or liquor they threw it away. But there was a formidable consumption of Pepsi-Colas and oranges when they came in. They drank them warm and were as happy as kings.

"They said men and women in the army were treated as equals. Soldiers were not allowed to have sex. They told me: 'If you were one of us you'd have to be able to get along without a woman.'

"At night, patrols would move through the streets without the city's five years and naturally they were a little wild. But it didn't last long."

"They were crazy about radios, watches and cloth, but they had little use for anything else," Gaude said. "They are 100 per cent peasants who came into the city after five years and naturally they were a little wild. But it didn't last long."

Some of their behavior provided comic relief to West-Cambodians trapped inside the Cambodian capital and uncertain about their fate. The soldiers put the axe to automobiles they couldn't start, ransacked pharmacies in search of vitamins and popped assorted pills into their mouths. Sometimes the men would get angry when someone took their photograph and they'd instantly come up with the print.

They were crazy about radios, watches and cloth, but they had little use for anything else," Gaude said. "They are 100 per cent peasants who came into the city after five years and naturally they were a little wild. But it didn't last long."

Seminole County Cancer Society Unit Nears Goal

The Seminole County unit of the American Cancer Society has reached 92 per cent of its 1975 Crusade goal, Bob Daehn crusade chairman, announced.

Over \$22,000 has been collected, with more returns due within the next few days, according to Daehn. The minimum goal of \$13,627 was set by the Florida Division of the American Cancer Society and based on the best crusade year in the past three years. The local unit goal in 1974 was \$4,000 and \$12,000 was realized.

Daehn praised the work of neighborhood volunteers and singled out the efforts of Georgetown area Chairman Mrs. Marie Francis, whose individual envelope contained \$210; this amount marked the highest single return at the time of the pre-final summary.

The "Hope Ball" originally slated for May 17 at the Sanford Civic Center was cancelled in order to avoid distraction from the Crusade efforts, Delbert Abney, ball chairman, announced earlier.

The funds derived from the Crusade will be spent for cancer research, cancer education, and patient services, and rehabilitation, Daehn said, the calls for new unit headquarters in the case of Unit C. Building in San-

Downpour Soaks Girls' State; Cheeseborough Sets Record

By TOM KEYSER Herald Sports Editor

FOREST CITY—Dark clouds brought rain, but the spirit of the first Florida girls' state school track and field championships Saturday was not dampened.

The meet, which was held at Lake Branley High School, was soaked with a downpour during the preliminary events in the afternoon. One girl fell on the wet track and was taken to a hospital with a badly bruised hip.

Then, after the running finals began at 7 p.m., dark clouds rolled in from behind the trees at the north end of the stadium. A few rain drops fell at the start of the first heat of the 100-yard dash—the second running event—and by the finish of the

third with 33 points, Tampa King and Satellite tied for fourth with 32 points, and Coral Gables sixth with 21 points.

Betsy Hagle of Lake Branley was the only Seminole County girl to place. She soared to fifth in the high jump with a leap of 5-feet, 6-inches.

Her performance in the heat, the clouds had exploded rain on the nearly 300 girl athletes and the large crowd. The meet was delayed for 30 minutes.

After officials swept puddles from the track, the meet continued. There were no dampened spirits.

Sandra Cheeseborough of Jacksonville Ribault headed the meet when she ran 220-yard dash in the preliminaries in 24.2 seconds to break the national prep record, which was previously held by Gwen Smith of Conroe High School in Conroe, Texas (24.4).

Cheeseborough came back in the finals to win the 220 with a time of 25.08 and the 100-yard dash with an 11.3 clocking. She was the only two-time winner at the meet.

Miami Jackson won the 59 girls' championship with first points. Miami Central was second with 34 points, Ribault

880-yard run respectively, but did not place.

"I just stunk, that's all," said McCabe. "People keep saying I didn't do bad for a freshman, but still...."

"I wanted to go back and tell my brother (Jeff McCabe) of Winter Park, who finished second in the mile run at the preliminaries of the 110-yard low hurdles when she false started twice.

Lisa Eberle of Lake Branley was disqualified in the preliminaries of the 110-yard low hurdles when she false started twice.

Lake Branley's Troy Ann Gaines and Trinity Prep's Cindy McCabe reached the finals of the 400-yard dash and

880-yard run respectively, but did not place.

"I just stunk, that's all," said McCabe. "People keep saying I didn't do bad for a freshman, but still...."

Stanley Wins Florida 880; Roberson Streaks To Mark

WINTER PARK — For nearly two minutes, you could forget Mike Roberson and Houston McCrear. And you could forget their unforgettable records.

You could focus on Henry Stanley, Lake Branley High School's phenomenal junior, who won the 880-yard dash Saturday at the Class 3A Florida High School Track and Field Championships at Shawnee Field in Winter Park.

Stanley jumped to the lead and was never headed. His time was 1:55.2 — his best ever. "I felt like I had a chance to

Henry Stanley

win it." Stanley said. "But after I won I just couldn't believe it. 'I couldn't do anything the day of the race, or actually for the whole week. I just wanted the time to pass because I was tired sitting around and being nervous.'"

With a state title in his pocket, Stanley now will devote full time to football, which he says is his first sport priority. He is Lake Branley's quarter-back.

"He's a real tough competitor," Lake Branley coach Jerry Posey said of Stanley. "He is the first star champ from Lake Branley in any sport."

Ron Harris of Lake Branley captured third place in the 590-yard intermediate hurdles with a time of 4:05. William Rennau of Riverview East Bay won with a 39.5 clocking.

Marty Gilmore of Oriedo did not place in the two-mile run. As was the case in the district and region meets, Mike says in his first sport priority. He is Lake Branley's quarter-back.

The Florida State 4A senior broke the national high school record twice in the 1200-meter. Miami Central was second with 34 points, Ribault

Winter Park Snatches Rowing Title From SNA

By GLENN McCASLAND Herald Staff Writer

The dream of a second Florida school rowing championship was not to be Saturday for Sanford Naval Academy.

The Midshipmen dropped two heart-breaking races to Winter Park High School, seeing their bid for a second straight state crown at SNA go by the boards.

Winter Park edged Navy by a boat's nose in the Varsity Four championship, and then defeated the SNA Varsity Eight to rack up 19 points for the team championship.

Sanford finished second in the state rowing event held on Lake Monroe with 11

points and Edgewater was third with nine points.

Hampered by bad weather that caused the rowing event to run an hour to 90 minutes Saturday morning, Sanford Naval got off to a quick start in the Varsity Four — SNA was undefeated in the event — only to see Winter Park catch up and pass the Midships midway on the 1,500-meter course.

The Midships stayed with Winter Park until both shells reached the finish line, where Winter Park outstroked Navy by a narrow win — the length of a seat in the tiny boats.

In the Varsity Eight race, the story was the same with Winter Park taking first over the Navy crew in a hard-fought trip across the course.

Coach Tom Feaster, in a bid to boost his chances in the Varsity Four and Eight races, had switched personnel prior to the state race, using Charles Dickens, George Hamrick, Ron Hunt, Mark Bassett and Tom Matthews in the Four race, then coming back with Burns Robertson, Pat Cork, Byron Guster, Bill Jones, Hunt, Hamrick, Dickens, Bassett and Matthews in the Eight.

However, Winter Park Coach Clarke Wray did some shuffling as well, using his four strongest men from the Varsity Eight in the Varsity Four boat, and putting them back in the Eight boat to keep that squad to strength. His switch paid off.

In the Junior Varsity race, Winter Park made it a clean sweep, followed by Edgewater and Sanford Naval Academy.

any Flyers forward that ventured too close to Resch's goal.

"It seemed that this game would be the Flyers' clincher when left wing Ross Lonsberry tipped Joe Watson's shot past Resch after just 1:40 of play. But a seemingly less New York squad regained its composure and came back—for the umpteenth time—to win.

Islanders Force Showdown

UNIONDALE, N.Y. (AP) — It was as if the New York Islanders already had won their National Hockey League semifinal playoff series with the Philadelphia Flyers.

Defenseman Denis Potvin, who scored one of New York's goals, said, "This is by far the most satisfaction I've ever gotten out of hockey."

Goalender Glenn Resch said, "More than any time, this was a

team victory. Everybody, even my single guy, played a part in the opposition.

"Hart was the only super guy—the only one who had a super game," Resch said.

New York defenseman Gerry Hart did, indeed, have a super game Sunday afternoon. His goal at 3:42 of the third period was the game-winner in the 2-1 triumph. He blocked numerous shots and made sure to tie up

visions of a second straight Stanley Cup dancing in their heads.

"It seemed that this game would be the Flyers' clincher when left wing Ross Lonsberry tipped Joe Watson's shot past Resch after just 1:40 of play. But a seemingly less New York squad regained its composure and came back—for the umpteenth time—to win.

In addition to handing off 11 assists, as he did all year to become the NBA assist champion, Porter scored 13 of his 21 points in the final quarter to blunt a Boston comeback.

Washington will now have a week off, which could give Mike Rorand time to recover from a severe thigh bruise, before

entertaining either Golden State or Chicago in the first game of the championship series next Sunday.

"I slipped a little at the start," Robertson said. "I really didn't feel like it was going that well until the last three hurdles.

Hoffman became the first American high school two-miler to break the 9-minute mark in last weekend's regional meet.

At Stanley of Lyman was the only Seminole County athlete to place in the 4A meet. He captured fifth in the pole vault with a leap of 11 feet.

Lyman's Tom Herron (mile run), Seminole's Elliott Edwards (330-yard intermediate hurdles) and Lyman's Bruce Caldwell (two mile) did not place.

Bullets Shoot Down Celtics

When Kevin Porter kept his cool, he makes things hot for the opposition.

The 5-foot-11 dynamo had his temper and his game under complete control Sunday, and stood tall among the giants of the National Basketball Association while leading the Washington Bullets to a 92-91 victory over the Boston Celtics.

The victory, Washington's 42nd in 46 home games this season, gave the Bullets the best-of-seven Eastern Conference title, four games to two, eliminating the defending champion Celtics.

"Kevin really took charge," said Porter's 6-6 teammate, Elvin Hayes. "He's the real key to this club. He makes things happen and he makes us go. He proved it today down the stretch. It was a fine effort by the little fellow."

In addition to handing off 11 assists, as he did all year to become the NBA assist champion, Porter scored 13 of his 21 points in the final quarter to blunt a Boston comeback.

WOMEN

Evening Herald, Sanford, Fl. Monday, May 12, 1975—12A

Chamber To Host Beauties

DeBARY—Candidates for the title of Miss DeBary Area Chamber of Commerce will have the opportunity to meet and talk with Miss Florida, Delta Burke of Orlando, when she visits the community May 17 as the guest of the Chamber of Commerce.

Scheduled to arrive at the chamber building at 5 p.m. accompanied by her chaperone, Miss Donna-Jean Nelms, a Miss Florida pageant board director, Miss Burke will be met by C of C President Ray and Mrs. McDonough. Mr. and Mrs. Arthur Charbonneau and Mr. and Mrs. Jack Coy. The group will then go to DeLand Country Club for dinner.

Miss Florida will return to DeBary for an appearance at the original musical production being staged by the contestants at 8 p.m. in the Firemen's Recreation Hall to benefit the C of C building fund.

Taking part in the musical, "A Night In The Dorm," will be contestants Mary Pierson, Toni Guzzi, Beth Hendericksen, Connie Kern, Midge Finimerty, Karen Fredeman, Susan Meeker, Susan Beverly, Carol McDonough and Wendi Keltner.

Tickets for the play are \$1 for adults and 50 cents for children 5-12. The play is open to the public.

The winner of the Miss DeBary Area C of C contest will be announced during the "Centennial Plus Four" art festival to be sponsored May 24-25 by the Florida Federation of Art at DeBary Hall.

The winner will be chosen on the basis of five cents a vote. Sponsors for the candidates include: Ms. Guzzi, DeBary Electronics; Ms. Beverly, House of Decorating; Ms. Keltner, Guys and Dolls Styling Salon; Ms. Fredeman, A B's Restaurant; Ms. McDonough, DeBary Nursery; Ms. Kern, DeBary Pharmacy; Ms. Meeker, Coy Realty; Ms. Pierson, DeBary Watch Repair Service; Ms. Hendericksen, Bailey's Red and White Grocery; Miss Finimerty and DeBary Realty.

Last year's Miss DeBary Area Chamber of Commerce Linda Washer will crown the winner.

MUSIC FILLED CIVIC CENTER

Mr. and Mrs. Bill W. Sharp, DeBary, were among area people who attended the benefit concert of the Central Florida Choral, Friday at the Sanford Civic Center. Entitled, "A Polish Affair," proceeds from the performance will go towards sending the Choral to Poland this summer.

YOUNG LISTENERS ENJOY CHORALE

Offering a program of something for everyone, including these three young ladies, (from left) Stacey Mickelson, Polly Shaw and Susan Mann, this was the Choral's last major effort to raise funds. This age group enjoyed Eddie Jones' take off on Elvis Presley and Dick Hultclaw's operatic version of Old Mother Hubbard.

NURSING HOMES, HOSPITAL WEEK

At the start of Nursing Homes and Hospital Week, Sunday, the annual Ms. Lakeview Nursing Center Pageant was held at the Sanford nursing home. Honored were (top, from left) Geraldine Hetzel, Nancy Brock, Katherine Rober, first runner-up; outgoing queen Mrs. Emma Mercer; Ms. Lakeview 1975 Frieda Wilson; Mary Brewster and Helie Lavigne. At Seminole Memorial Hospital, present at the dedication of the podiatry unit is the late Dr. Gordon D. Stanley, were (at right, from left) son Doug and daughter-in-law Linda, daughter Patty and Mrs. Stanley.

Three Too Many For Teen

DEAR ABBY: I'm a 17-year-old girl, graduating from high school this June. My problem is my parents. They don't want me to have anything to do with my boyfriend, who is 19, because I've been impregnated by him three times.

The first two times I was forced to get abortions, and the third time I walked too long, had the baby and placed him for adoption.

My parents have also heard bad things about my boyfriend, but he did those things when he was 15 and 16, and he has reformed now. He has a job and is staying out of trouble.

Abby, there is absolutely no way I could ever stop seeing him. He's a lot of fun to be with, and we love each other and want to get married some day. Please don't tell me to date others because he is the only one for me. We've been going steady for five years and don't like to sneak around behind my parents' backs. Please help me convince them to let me see him.

IN LOVE IN N.J.
DEAR IN: Sorry, I can't name them for feeling as they do. They have been through three nightmarish experiences with you, and they're not looking for a fourth. When you have mated and are on your

own, you won't need their permission, but because of your past mistakes you'll have to wait until then.

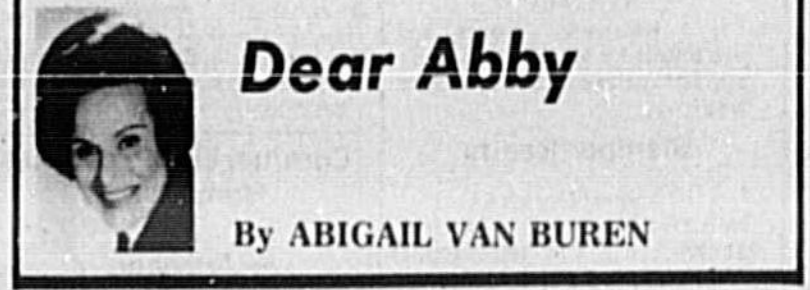

DEAR ABBY: With all due respect to Ripley's "Believe it or Not," there is no documentation to support its story that a 99-year-old American Indian woman gave birth to a child. And the same goes for the one about the 64-year-old woman who was said to have produced a child with her 80-year-old husband.

"The Guinness Book of Records" has documents to prove that Mrs. Ruth Alice Kistler (nee Taylor), at 57 years and 129 days old, gave birth to a daughter, Susan, in Glendale, California on Oct. 18, 1956.

This is the oldest recorded birth of which there is certain evidence.

AN M.D.
DEAR M.D.: I'll buy "guinness." But how about the Biblical Sarah who, at age 90, bore a son for her husband, Abraham, when he was 100?

Because his kidney failure was recent, the chance of obtaining a kidney transplant was small. (There are adults and children who have waited 10 years and longer for a kidney transplant because Americans are either unaware of the need

Dear Abby

By ABIGAIL VAN BUREN

or have hangups about having parts of their bodies removed after death.)

Thank heavens there was a dear man who had no such hangup. Unfortunately, he was in a fatal car accident, but he gave up his kidney, which matched my father's needs. That was two years ago, and my family is eternally grateful to that generous man.

Needless to say, the members of my entire family are card-carrying kidney donors. How I wish more people would become donors. If they knew

how much it meant to people like us, they would be. M.C.P. IN NEWPORT BEACH
DEAR ABBY: I am, and have been for four years, and if my readers want to leave a legacy of inestimable value, write to The National Kidney Foundation, 116 East 27th Street, N.Y., N.Y. 10016 for a donor card.

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 4796, L.A., Calif. 90049. Enclose stamped, self-addressed envelope, please.

Babysitters Should 'Learn Not To Burn'

You wouldn't choose "Lady Luck" to be your banker — so don't choose her to be your babysitter.

These guardians of your children and your home should meet certain criteria, and it is up to you to be sure they do.

Babysitters should be fire conscious. Your babysitter should be aware that children cause many fires and are the chief victims of fire in this nation (along with people over 68 years of age).

Your babysitter should know: —That children enjoy playing

with matches and cigarette lighters.

—The general layout of the house and two exits that can be used in case of a fire.

—The telephone number of the fire department.

—That if trapped on the second floor the door MUST be closed, blankets placed along the bottom of the door, and a window opened.

—That the babysitter is not a firefighter and that the best thing to do in case of a fire is to get the children out and make sure they don't go back into the burning house.

Club Notes

Disney Tour

Sanford Senior Citizens Inc met for luncheon May 6 at the Sanford Civic Center, at which time upcoming events for this month were announced.

On May 15 the group will participate in Senior Citizens week at Walt Disney World. There will be a charge for

admission and bus fare. Those interested should call Mrs. Mary McPherson.

Mrs. Wilma Kalmus, program chairman announced the guest speaker at the next meeting, May 20, will be a representative from the Seminole Memorial Hospital, marking National Hospital week. Members are asked to bring a covered dish. Coffee and cookies will be furnished.

President, Mrs. Edith Harrison announced the club will man booths at the Bicentennial Celebration May 25-31 at the Sanford Plaza.

Honor Woman

Seminole County Federation of Women's Clubs will honor the "Woman of the Year" senior and junior divisions, on May 22 at 11 a.m. in the Casseberry Woman's Clubhouse on Overbrook Drive, Casseberry.

Correct Dates

Parents, grandparents and senior citizens should note corrections in dates for Edgewood Elementary School "Grandparents' Day" and final PTA meeting. "Grandparents-Senior Citizens' Day" will be held the morning of May 21, and the PTA meeting is the evening of May 19.

Jaycees

The first annual installation and charter night of the Winter Springs Jaycees was held at the Quality Inn at St. Rd. 434 and 1-4 on May 3.

Guest speaker for the evening was Representative Robert Hattaway. During his address to the audience, Hattaway spoke of his long personal association with the Jaycees and how this association had aided him in his career.

The last post held by Hattaway was national vice president. He mentioned several pieces of legislation that he is proposing to benefit Seminole County. They include a Citrus bill, Floridistation, and more resident judges for the County. According to Hattaway, out of six judges that serve in Seminole County, only two judges reside in the county and he calls that the taxpayers are spending over \$22,000 for judges to travel from

Brevard to Seminole County to try cases. He is urging at least five resident judges for this area.

He stated that "young men can change the world" and urged all Jaycees to get involved in community, state and national affairs.

At the conclusion of his address, Hattaway was presented with a "Certificate of Appreciation" from the Winter Springs Jaycees, for his assistance in helping to form the new Charter. Presentation was made by newly elected president of the Winter Springs Chapter, Ernest Hendrix.

The Winter Springs Jaycees will meet every Wednesday at the Highland Clubhouse, Shephard Road at 7:30 p.m.
