

Feds To Meet Indians At Cocoa Tomorrow, Probably Behind Flora's Hurling

By PETER SCHAAL.
Despite the fact that their Central Florida Baseball League record of having gone 49 games without being shut-out was rudely interrupted by the DeLand Reds at Municipal Park yesterday when Bill Leitz plastered the Feds with a 2 to 0 defeat, Manager Boris Taylor and his men will head for Cocoa tomorrow determined to knock the Indians into a cocked hat behind the hurling of one of the club's two left-handers.

Lefty Flora arrived yesterday afternoon ready for duty after a great season in the Georgia-Florida League with Thomasville. He probably will get the call against the Indians although Manager Taylor is anxious to see what Al Caldera, the hosky Jacksonville left-hander can do in this league.

If the second game had not been called off yesterday owing to the wet weather, Caldera would have been the starter in that tilt. However, the delay may be just what the doctor ordered for playing conditions yesterday were anything but ideal and it wouldn't have been fair to have had to judge Caldera by anything he might have done yesterday.

The second game of yesterday will be played here at 2:30 o'clock Wednesday afternoon, while at 2:30 o'clock Thursday the Leesburg Islanders are scheduled to make a trip over here.

Efforts will be made at Cocoa tomorrow to induce the Indians to come to Sanford Friday afternoon to play the game rained out here last Tuesday. This game is tentatively scheduled to be played here Sept. 19 as part of a double header but the Fed treasury is a little bit too low at present to warrant delaying the game so long.

Although some fans are saying that Umpire Douglas helped the Reds in a crucial moment yesterday, there's no doubting the fact that the Feds had plenty of chances to score and failed.

It was the old story of too much Bill Leitz, a story told so often in Sanford that it doesn't seem possible that there should be any argument by anyone any time he takes the mound against the Feds, or for that matter against any other club in the league.

Doc Harden was sent against the Reds yesterday but Doc, who hasn't been able to beat them but twice this year, he had plenty of luck with him yesterday for the Reds had him in a hole in six of the nine innings they faced him and in at least one inning, the third, he had the advantage of a most doubtful decision by Umpire Lopez.

After pecking away at Doc in the third, fourth and fifth the Reds finally struck pay dirt in the sixth.

Lewry had gone out in the field before Robertson got his only hit of the day Bill Leitz the league's leading batter by a wide margin, struck out going down swinging.

Joe Duverniet singled inter-center, sending Robertson to third but Lacrouit had a ball and strike on him and Duverniet had stolen

second when the fans claimed Umpire Douglas missed the next pitch which he called a ball. On the next pitch, Lacrouit poked a single into right center, scoring both men. Fisher struck out.

After that, Doc gave up one hit, throwing his fast dark one by all of the Reds in order.

The Feds, meantime, had put only one man on base in the first three innings and he got there by error. In the fourth with two out, Cates was credited with a hit at short, and he went to second when Duverniet threw wide of first.

Lacrouit got credit for an error when he dropped what should have been the third out ball, an error which permitted Swindell another chance at the plate. He drew a pass but Marques struck out.

Winn's single to right, in the fifth, the second ball hit out of the infield up to that point was wasted when, after Harden had sacrificed Winn to second and Robinson drew a walk, MacGowan flied out to deep left.

The Feds' third hit came in the seventh when Marques led off with a double to left. Overstreet flied out but Winn drew a walk. Aided by a great running catch by Moseley, Leitz came out of the hole by striking out Robinson.

With two out in the eighth, Cates got credit for another infield hit but Sloan made a fine catch of Swindell's short line-drive to center, thus ending another Fed threat.

The Feds' third hit came in the ninth. Overstreet singled in to left with one out and Winn flied out. Taylor, batting for Harden, singled to left, sending Lopez running for Overstreet, to second. However, Charlie Robinson's second chance to shove over a run found him unable to deliver as he popped up to Culp to end the game.

Duverniet with three for four, hit his club at bat while Bill Cates with two for four, got one third of his team's hits.

President Warned Against Okeying Sea-Level Canal

Geological Survey Reports Bears Out Arguments As To Bad Effect On Waters

WASHINGTON, Aug. 27.—The geological survey reported yesterday there is to be no reasonable chance that a sea-level ship canal across Florida would be a serious adverse effect on the water level in a wide zone extending from the

Atlantic to the Gulf of Mexico. The report was immediately forwarded to the president by the secretary of the interior, with a letter saying that it is most important that the allocation of funds for the project be made before the board of geographers is convened.

The report added that the geological survey of the canal route would be completed by the end of the month.

The report also stated that the geological survey of the canal route would be completed by the end of the month.

Nazis Behead Wife Who Let Children Die

Bobbed Haired Blonde Squandered Money In Dance Halls Instead Of For Food

BERLIN, Aug. 27.—(AP)—Fran Charlotte Jeunemann was beheaded at dawn today for allowing her three children to starve to death.

Fran Jeunemann, young, slim, blonde, and bobbed haired was convicted last March after testimony had been given that she had squandered in cafes and dance halls the money she had received for the relief of her three boys, four, 18 months and four months old.

"I had no time to give the children food and water," police quoted her.

After she heard the death sentence imposed upon her, without betraying the slightest emotion she said "I did not want the children to die."

Widespread Chiseling On Wages Found

WASHINGTON, Aug. 27.—(AP)—Widespread "chiseling" on hours, wages, and prices, was cited in Congress yesterday in a report by President Roosevelt in a move to bolster his recommendation for legislation next session to retain the "advantages" of NRA.

The report, prepared by the skeleton statistical force of NRA, was submitted by the President together with his letter to congressional leaders Saturday night in which he asked for legislation "preserving systematically" the "advantages" of NRA.

It showed that there were 5049 departures from NRA code standards on working conditions in July and \$779 in June. Price cutting was reported to have totalled 2490 instances in July and \$57 in June.

Navy Lifts Ban On Visits To Carolina

WASHINGTON, Aug. 27.—(AP)—The Navy department yesterday announced it had lifted its quarantine on recruiting activities in North Carolina, imposed some time ago because of the prevalence of malaria in that state.

At the same time it was said there was no change in so far as Virginia was concerned, where a similar ban on naval activities was imposed because of spread of the malarial fever in that state.

AAA Revises Its Policies On Cotton

WASHINGTON, Aug. 27.—The AAA, under pressure of southern cotton growers, last night revised its cotton policy to guarantee each co-operating individual grower a government subsidy to give him a return of 12 cents a pound on 1935 production.

At the same time, it raised from nine to 10 cents a pound the amount it will lend to farmers who wish to hold their cotton in storage.

AAA officials, however, insisted as they announced the revised policy, they refused to amplify the written statement, it appeared the revision has been reluctantly accepted by the AAA as the price, the Administration had to pay to speed adjustment of Congress.

BAT BECOMES GIRL'S PET

ATLANTIC LEWS, Aug. 27.—Miss Gladys Fraser dodges the ordinary type of pet but goes for her bat in a big way. The farm has acquired her strange pet when a link blew off a tree near her home. A grown bat and two little ones cling to it.

Hutton Says 'Soak Rich' Plan Will Accomplish Nothing

Capitalist Says He's Willing To Give U. S. Plenty If Roosevelt Keeps His Promises

By EDWARD F. HUTTON, Chairman of the Board, General Food Corporation.

NEW YORK CITY, Aug. 27.—(AP)—It is now generally admitted, even in Washington, that the President's latest tax program with its "soak the rich" and "penalize big business" will accomplish nothing except to extend the period of serious unemployment and lack of confidence on the part of business and industry indefinitely.

Naturally the Administration, in its insistence that it would always protect the little fellow and make the big fellow carry the burden, turned first to what is known as "higher income brackets."

I wonder how many people in these United States know what these men of the higher brackets are already paying out in the way of federal, state and local taxes?

They are paying \$79.20 out of every \$100 of income they receive—practically 80 percent. And still the gesture is "Soak the Rich."

Personally I would be glad to give the government every dollar of income which I may receive for the next five years and live on principal (one practical way to redistribute wealth) if the Administration will undertake to fulfill the promises made in the Democratic platform in 1932 and I believe that 95 percent of the men of this country who are in these higher brackets are willing and glad to enter into the same agreement with the government.

Had these promises, so earnestly (Continued On Page Four)

Soviets Report City Commission Selves Unable To Accept Protests

U. S. Advised That Russia Has Not Violated Obligations

MOSCOW, Aug. 27.—(AP)—The Soviet government today replied with a rejection to the United States note protesting against the activities of the Seventh Congress of the Third Communist Internationale.

Ambassador William C. Bullitt of the United States received the note from under-commissioner N. N. Krestinsky which read, "Your note of Aug. 25 contains no facts which could be regarded as a violation on the part of the Soviet government of its obligations." On the other hand, it is undoubtedly nothing new for the government of the United States that the government of the Union of Soviet Socialist Republics cannot assume and has never assumed any obligations as regards the Communist Internationale.

Krestinsky summed up by saying, "I cannot accept your protest and I am compelled to reject it."

Verbal protests by the British, Italian and Latvian governments against statements by speakers in the recent Seventh Congress of the Third Internationale were rejected immediately by the Soviet government.

This announcement was made as officials and newspapers remained silent regarding the formal United States note of protest on the same point.

Former Georgia Solon Held As Dope Agent

ATLANTA, Ga., Aug. 27.—Seven persons, including a former state legislator and municipal judge, are under arrest following federal narcotics agents, it was learned yesterday.

W. E. Jones of Fairburn, arrested for alleged sale of a small amount of morphine to two federal agents, is awaiting grand jury action. Agents said he served three terms in the state legislature from Meriwether county, and was formerly municipal judge at Greenville.

Others awaiting grand jury action are C. T. Thomas, W. M. Maule, Alma Aultrey, Bill Spahn, Bob Chadwick and J. P. Gilman.

Future Farmers Earned Nearly As Much As They Invested In 1935

Because of the training he received as a member of the vocational agricultural course at Seminole High School, each member of Seminole Chapter, Future Farmers of America was able to earn \$128.14 during the year which will end Sept. 1, it was reported today by Alex R. Johnson, Chapter adviser and instructor at the school.

The total investment in farming, owned by the boys, was \$2,192.50 or an average of \$136.47 invested by each boy.

At the present time each boy has an average of \$97.54 in the bank each or otherwise, in addition to his investment in his co-operative or individual farming venture.

The total earned by Chapter members through their project

Relief For Aged Plan To Be Delayed

Without Funds, Social Security Board Decides To Give Up Plans Until 1936

WASHINGTON, Aug. 27.—(AP)—The new social security board was reported in authoritative quarters today to have given up plans to grant aid to states the year for old age pensions and other parts of the social security program.

This word preceded a White House conference at which President Roosevelt and Congressional leaders arranged to discuss how the board could be financed until January.

Loss of the deficiency bill before the filibuster of Senator J. P. McPherson, Democrat, last night left the board without funds.

Congress adjourned at midnight without making appropriations for social security and many other activities when Long's filibuster prevented a vote on the deficiency bill.

Long protested against the failure of the House to vote on the 12-cent cotton loans and said he would talk until midnight or force a vote on the cotton loans.

He talked and Congress adjourned without the appropriations.

Attorney-General Cummings was studying whether it would be legal to use some of the \$4,000,000 relief fund temporarily.

Congress adjourned at 1:09 A. M. Tuesday, angry and helpless against a seven-hour filibuster by Huey Long.

Along and friends, the kingfish spoke from 8 P. M. till the hands on the big clock above Vice President John N. Garner's head crawled upright to midnight the hour set for adjournment.

Overboard, because of Long, went the third deficiency bill, carrying \$25,000,000 to pay pensions to the aged, retirement pay to railroad workers and money for crippled children. Huey talked it to death.

Overboard, too, went the very thing Long said he was fighting for—two amendments which the Senate put on the deficiency bill, but which the House refused to accept. One would have given farmers a 12-cent-a-pound loan on cotton; the other would have authorized the AAA to lend farmers 90 cents a bushel on wheat.

Long said he wanted the House to vote on these amendments. The House refused to do so.

So the kingfish—kingfish indeed, so far as Congress was concerned last night—look the floor and held it. Plans of persons ordinarily friendly to him and threats of enemies both failed to move him. Persepolis dragged from his hot-red face, but on and on he talked.

Senate Democratic Leader Joseph T. Robinson, and sharp-tongued Senator Hugo Black, (D-Ala.), stayed away from Long, contending he was withholding needed funds from the crippled and the old.

"When I go up to the door of a humble wheat farmer or a humble cotton farmer, he is going to say to me, 'How do you do, so you're the man who stood in the Senate on Aug. 24, 1935, and fought our battles?' Huey shouted."

Shultz Pledges Quick Action For Growers

NEW YORK, Aug. 27.—(AP)—Returning from a vacation in France, Governor Shultz of Florida said in a ship-to-shore radio-telephone interview with the Associated Press yesterday he expected to make appointments to the newly created state citrus control commission during the first week in September.

"I won't know exactly what the appointments will be until after I return of my tour in Tahiti," he said. "But they will be made just as soon thereafter as I can get to it."

SEVEN KILLED IN AUSTRIA

VIENNA, Aug. 27.—Seven persons were killed and 18 injured Sunday when an auto-bus in which they were riding collided with an express train at Leoben, 40 miles south of Vienna.

Laval Would Treat Italian Invasion As Colonial Expedition

England Increases Vigilance Around Suez Canal In Face Of Italian Threat

By The Associated Press

Premier Laval of France held three conversations with British and Italian ambassadors in Paris today during which he endeavored to have Premier Mussolini's venture established as a colonial expedition.

French officials said there was progress in preparations for treating the issue at the forthcoming League of Nations Council session at Geneva.

Cable poles arranged for a chain of hundreds of uniformed and plain clothes officers to protect Mussolini's two sons, Vittorio and Bruno, when they arrived at Rome, said current to look after with the Italian military forces.

Great Britain, stirred by reports to the effect that Italy would stage a counter review in the Mediterranean, increased its vigilance around the Suez Canal.

The reports also excited the Italian capital.

Calculating a drift abroad of Italian gold, French financiers estimated that Mussolini could finance six eight months' war against Ethiopia.

Central Labor Body Invites Friends To Labor Day Affair

DAYTONA BEACH, Aug. 27.—The Central Labor Union of Daytona Beach extends an invitation to all organized labor and their families to be its guests on Labor Day and join in the celebration of one of its biggest days ever held in Florida for organized labor.

The main event of the day will be an address by George L. Goetz, southern representative of the American Federation of Labor at 7:30 P. M. at Oceanfront park.

Various entertainments will be provided throughout the day which includes a big dinner from 11:30 A. M. to 1 P. M. and at 5 o'clock, one of the most colorful labor day parades will be staged on Beach Street.

There will be junk auto races, boxing bouts, band concerts, airplane stunts, etc. The dinner is free to all members of organized labor and their families.

Other labor leaders will be in Daytona Beach on Labor Day to take part in the celebration, and special plans have been made to take care of all who can come here for the occasion.

There will be union bands in the parade, and last but not least, the Union grand ball will start at 10 P. M. and made by a real union orchestra, and will be held in one of the brightest spots in Florida.

G-Men May Stop Help For Small Bankers

WASHINGTON, Aug. 27.—(AP)—Small town banks, guarded five billion dollars of deposits, were in danger yesterday of losing the "G-men" protection against robbers accorded them last week by the new banking law.

The Justice Department said yesterday that the Federal Bureau of Investigation, revamped with work may be unable to take over the duty of hunting gangsters who rob country banks.

The new law extends to all banks insured by the Federal Deposit Insurance Corporation the "protection" already given national state bank members of the Federal Reserve System.

Wilcox Will Head Group Probing Bond Committees

Committee To Proceed At Once In Survey Of Several States

By OSCAR LEWIS HUME, WASHINGTON, D. C., Aug. 27.—Appointment of Congressman J. Mark Wilcox of Florida, author of the municipal bankruptcy bill, to head a special congressional investigation into activities of municipal bondholders committees, which allegedly have prevented adjustment of municipal indebtedness as intended under the bankruptcy act, was announced here today by Representative Adolph Sabath, dean of the House and chairman of the committee appointed under a resolution adopted in the last Congress directing an investigation of real estate bondholders committees.

Because of the alleged activities of the municipal bondholders committees, the authority of the Sabath committee was extended last Friday to include investigation of bondholders committees representing all classes of defaulted securities. Sabath immediately ordered the probe into activities of committees representing holders of securities issued by municipalities, special tax districts and other government subdivisions, and placed Representative Wilcox in charge of this phase of the investigation.

In announcing the appointment of Representative Wilcox, Mr. Sabath said:

"I have designated Mr. Wilcox to conduct the investigation of activities of bondholders committees representing the holders of securities issued by municipalities, drainage districts and other government subdivisions to be of his eminent qualification for this work. He is the author of the municipal bankruptcy bill passed in the last Congress and is probably better informed on the subject of municipal indebtedness than any other member of Congress. His able and energetic handling of the municipal bill before the House of Representatives demonstrates his fitness for this work and I predict that the information which he will develop as a result of these investigations will be of great value not only to Congress but to the country at large."

In accepting the appointment, Mr. Wilcox said: "I am happy to carry on this investigation although I had rather hoped that I might secure a much needed rest."

Literature Falls Army Reservation

TOWN GAP, Pa., Aug. 27.—Army officers sent to inspect yesterday specimens of literature spread military reservation from national guardsmen and troops to protest the extreme maneuvers.

Messages describing incident, together with the pamphlet that the field training "as preparation for revolution" were sent to the war departments.

Connally's Dies In Office

WASHINGTON, Aug. 27.—Mrs. Connally, wife of the Democratic member from Texas, died in his office, Senator Connally was present.

Romance Led To Arsonist's Arrest

DENVER, Aug. 27.—(AP)—A romance with a rooming house girl, police said last night, led to the arrest of a youth suspected of attempting to burn Denver's \$6,000,000 city hall, three churches and several office buildings.

Detective Captain Childers said the youth looked as Warren R. Cramer, 17, found the girl was "leading a life of shame" and threatened to burn the rooming house unless she reformed. The girl informed the landlady who called police.

Hitler Undergoes Serious Operation

BERLIN, Aug. 27.—Chancellor Hitler underwent a serious operation for removal of a tumor on the right vocal cord of his throat on May 23, the German people were informed last night in a laconic announcement by the official news agency.

The operation was performed by Professor Karl von Eckstein and was carried out in the chancellor's palace in the Wilhelmstrasse in greatest secrecy. Yesterday the professor announced the operation a complete success. Recent examination has convinced him, according to the official announcement, that Hitler's voice is completely "normal again."

Soviets Report Selves Unable To Accept Protests

(Continued From Page One)
The American protest was directed Sunday.

WASHINGTON, Aug. 27.—Anything said in Moscow against the United States was "very insignificant compared to continuous propaganda in the United States against the Soviet Union," Ambassador Alexander Trajansky said yesterday in an indirect reply to the American note of protest.

The Soviet ambassador commented on a note, delivered to his government Sunday by American Ambassador William C. Bullitt, which warned in effect that unless Soviet propaganda here was discontinued a breaking off of diplomatic relations might be considered.

Trajanovsky said his government would make a "satisfactory" reply.

"I have no intention of saying anything about the note of protest lodged by Ambassador Bullitt with our foreign office," his statement said.

"A satisfactory reply will be made in Moscow by my government I wish to refer only to a campaign which has been conducted by some persons in this country against our government and against our form of government."

"I recall the Biblical injunction: 'And why beholdest thou the mote which is in thy brother's eye but perceivest not the beam that is in thine own eye?'"

"Anything said in Moscow by American citizens about the United States is very insignificant compared to continuous propaganda in the United States against the Soviet Union."

Franc Schubert was one of the 14 children of a parish schoolmaster in a suburb of Vienna.
