

Clarks Return From 11,000 Mile Trip Through 33 States

O. W. Clark and family returned home Tuesday from an 11,000 mile trip to the Pacific coast during which they visited points of interest in 33 states, said Mr. Clark today. He declared that during the whole trip they "advertised Florida." They were accompanied by Long Beach, Calif., by Mrs. Annabelle Lee and Earl Lee who plan to live there. They left on June 30.

Mr. Clark reported that except in the west, he found prices of shoes and merchandise much higher than in Florida.

They visited Mt. Capulin in New Mexico, he said, Pike's Peak in Colorado, Springs, Salt Lake City, the Grand Canyon and Boulder Dam. In California they visited Hollywood and Los Angeles and vicinity and crossed the Golden Gate Bridge and visited Chinatown and other points of interest in San Francisco. They drove through the Redwood forest. In Oregon they saw the sealion caves, he stated.

Other points of interest described by Mr. Clark were the Grand Coulee Dam in Washington, Vancouver, B. C., the Lewis and Clark caves in Montana, Yellowstone National Park in Wyoming including Old Faithful geysers, also bears, deer, elk and moose. They also saw the Black Hills in South Dakota.

State Employment Service Re-enters Agriculture Field

TALLAHASSEE, Aug. 7 (Special)—The Florida State Employment Service has reentered the agricultural placement field, with authority to solicit orders and make referrals, Carl B. Smith, Chairman of the Florida Industrial Commission, announced.

Under the terms and provisions of an act of Congress, approved April 25, this year, the Department of Agriculture will withdraw from this field and the Employment Service will resume its activities as of December 31, 1947, as provided under the Wagner-Peyser Act.

Under the agreement entered into with the Department of Agriculture through its Extension Service, Mr. Smith said the Employment Service during the interim will proceed to make farm placements, soliciting orders directly. During this period the Department of Agriculture, through the Extension Service agents in the counties will continue agricultural placement activities.

Persons desiring farm labor can file their orders directly with the local Employment Service office as before the farm placement service was taken over by the Department of Agriculture during the war. This plan in no way interferes with the Extension Service carrying on its program.

A memorandum outlining the new plan has been sent to the field offices of the Employment Service and the new plan is already in effect.
