**Why Are Drugs Standardized?**

They are standardized in order to bring about uniform therapeutic efficiency to the patient whenever required. This efficiency is most needed in the sick room—not merely in the laboratory.

What is true of drugs must be true of foods. Purity and efficiency in the can is only part of the problem—purity and efficiency in the kitchen is the true test.

The law requires that baking powder contain 12% leavening gas at the time of sale to the consumer. This measure insures uniform leavening efficiency and protects the health of the public.

In order to comply with this fixed standard for baking powder, manufacturers must produce and pack their product so as to avoid the deterioration which may result from absorption of atmospheric moisture.

Baking Powder manufacturers to avoid violation of the law, also spend thousands of dollars yearly in testing grocers' stocks and removing "spent" goods from his shelves, in spite of the fact that every possible precaution had previously been taken against deterioration.

With the exception of Texas, the pure food laws are not applied to baking powder mixed with flour at the mill and sold in bags as "Self Rising Flour." There is no penalty on the manufacturers if this fails to "self rise"—the consumer is the "goat"—he is the one that pays the penalty through indigestion and ill health that comes from eating bakings that are not properly raised. The standardization of baking powder is a protection to both the consumer and the manufacturer—who welcomes such laws and co-operates in every way possible. But!

Not so with the self rising flour manufacturer—he resents such laws and fights such legislation. Why? Because a standardization of self rising flour would require moisture-proof containers instead of cheap sacks—because low grade "clears" could no longer be sold as "fancy patent flour." It would also mean he must maintain expert chemical control such as is now maintained by baking powder manufacturers.

Calumet Baking Powder contains only such ingredients as have been officially approved by the U.S. Food Authorities.

SATURDAY, OCTOBER 18, 1924

WHAT GOD WILL DO:—He will swallow up death in victory; and the Lord God will wipe away tears from off all faces; and the rebuke of his people shall be taken away from off all the earth; for the Lord hath spoke it. Isaiah 25; 8.

OCTOBER

The month of carnival of all the year. When Nature lets the mild earth go its way, and spend whole seasons on a single day. The Springtime holds her white and purple dear; October, lavish, flaunts them far and near; The summer charly her reds doth lay.

FOR DAVIS AND BRYAN

In order to vote for JOHN W. DAVIS for President and CHARLES W. BRYAN for Vice-President, you must vote for the six Democratic Presidential Electors.

THIS IS THE AMENDMENT Vote For Florida If Voting For It: "No tax upon inheritance or upon the income of residents of this state shall be levied by this State of Florida, or under its authority and there shall be exempt from taxation in this state household goods and personal effects to the value of Five Hundred (\$500.00) Dollars."

Isn't it funny how inhuman a human being can be and still be a human being? What has become of the small boy who was tied to his mother's apron strings?

It is getting so on Florida roads that you detour to the main highway.

Work for the inheritance tax amendment and you will be working for Florida.

Memorize the names of your electors so that you can vote intelligently on November 4.

If you don't receive your paper, let us know at once and we will send one out by special messenger.

Do your duty to your party by sending in a check to help defray campaign expenses.

Straw votes are unlike other kinds of awns in that it is impossible for them to show which way the wind is blowing.

Our office boy says some people are so scared on the world that they don't need any vinegar in their homes.

The little girl down the street wants to know whether you could say that a divorced husband has been reduced in rank?

Sanford has some excellent churches with able ministers filling their pulpits. Go to church tomorrow.

Picture shows "Strangler" Lewis demonstrating how women can protect themselves from men. How about a few lessons showing how men can protect themselves from women?

Young Theodore is following in the footsteps of his father—so far. But the old man never tackled an Al Smith—Tampa Tribune.

A Smith would laugh about as much as the "old man" as the Spanish army did at San Juan and that wasn't very long—Sanford Herald.

There is one in a while who finds a man's nose as big as a foot.

Taking Things For Granted

The heavy rains of the past few days and the resultant rise in the depth of Lake Monroe, causing the flooding of portions of the lake front boulevard and seriously endangering its foundations, have set many citizens in Sanford to thinking. Apparently many for the first time are realizing that this street belongs to them, paid for with their tax money.

There is an unmistakable tendency on the part of most people to take things for granted. They pay their taxes when due without ever giving a thought to what then becomes of the public revenue. They may daily see construction gangs working on the streets, they may note new buildings being built and other obvious signs of development without ever feeling a certain sense of pride that these things are theirs or without ever realizing that these things show that the tax money is being directed into the right channels.

At a time like this it is perhaps fitting to recall the many improvements which have been made in Sanford during the past three years and to remind citizens how fortunate they are in having at the head of their city administration a wise and capable commission, looking constantly to Sanford's future and development, and giving the people one dollar's worth of improvement for one dollar's worth of tax money.

As we say, the people take things for granted. They see improvements without realizing them. During the past three years seven hundred thousand dollars have been spent on the city streets. Nineteen miles of street asphalt have been laid and nine more are at present under construction. And Sanford is the best paved city of its size in the state.

The present city commission has caused to be laid twenty miles of storm and sanitary sewers. All that land lying between the Southside Primary School, Tenth Street and the Oviedo railroad has thus been reclaimed, as well as the former swamp portions of Rose Court and the area between Geneva Avenue and Franklin Street. When the system is completed—and the bonds have already been voted—all Sanford, including Goldsborough, will be provided with adequate sewage disposal.

Sanford's Fire Department has also undergone vast improvements in recent years. New equipment has been purchased including a new motorized ladder truck and an American La France fire engine. The pumping system throughout the business district has been improved by the drilling of eight six-inch artesian wells, making possible a flow of three thousand gallons of water each minute.

Another matter which was brought to the fore recently and attended to by the commission in a business-like manner was the purchase of the water works and the gas plant. The water works plant was bought for \$72,500 and an additional \$325,000 expended on it for improvements. The gas plant and later improvements resulted in a total cost of \$160,000.

But the city commissioners have not stopped with material improvements, they have tried to look after the intellectual betterment of Sanford people. They have built for the people a splendid library, perhaps the most artistic in the state at a cost of \$20,000. They appropriate yearly an expenditure of three thousand dollars for the salary of a librarian and the purchase of new books. The library was equipped in the beginning with three thousand dollars worth of books and furniture valued at four thousand dollars.

Other improvements have been numerous and extensive. An incinerator was built providing for modern and sanitary disposition of garbage and it is said that fifteen tons of refuse is burned there each day at a minimum cost. The city has purchased a new street sweeper, an Austin Motor Pack-up Sweeper, at a cost of \$7,700. A beautiful yacht basin, which will probably cost between sixty-five and seventy thousand dollars, is now under construction. A new municipal cemetery, a new city jail and a new fire station for which the funds have already been raised, are to be constructed in the near future.

These facts are especially interesting in view of the fact that the tax millage has never been raised during the past three years, and that all these improvements and developments have been made possible without the slightest additional burden on the people themselves. The millage in Sanford is eighteen mills, at least three or four mills lower than the average throughout the state, while many cities, showing equal growth with Sanford, have a considerably higher millage.

And although we have a low millage here in Sanford, and in spite of the fact that hundreds of thousands of dollars have been spent locally on the necessities of progress and much needed improvements, Sanford's financial status is high and, as evidenced by the city clerk's report published in Wednesday's Herald, the condition of the city's finances are excellent.

It all goes to show what efficiency in city administration can do. It is well to take stock of these things occasionally and see just how fortunate we all are.

WHY A PARTY NEWSPAPER

ST. PETERSBURG INDEPENDENT

Writing to the Tampa Tribune, the Democrats, for that matter? In Homer Moore, a resident of that city, complains because the two Tampa newspapers are not bi-partisan instead of Democratic, and says in part:

"The Republicans of Florida are without newspaper representatives. You may say in haste, let them start a paper of their own. But Colonel Stovall is his deliberation does not want another morning paper in Tampa, and Mr. McKay does not want another evening paper here, and the advertisers—without whom a newspaper can not live—do not want one. If the Tribune and the Times are no reason why there should be but the two papers here. They are fully adequate to the commercial and intellectual needs of their city and state, but politically they serve only a class, and a class that is sure sooner or later to become a weak minority, if the city and state grow as it is desired they shall grow."

As a matter of fact there is a Republican newspaper in Florida. The Sun, published in Orlando, is a Republican newspaper, and it is the hope and intention of the owners to make it a state newspaper for that party.

As Brisbane Sees It

The Bonds Melt But the Street's Unhappy. What's News? The Answer Describes You BY ARTHUR BRISBANE (Copyright 1924)

Percival S. Hill, head of the big tobacco company, set a good example by taking ten million dollars' worth of them. Big concerns and individuals should take those foreign bonds, not little people.

IN SPITE of the quick sale of German bonds, Wall Street wasn't happy yesterday. It dawned on gentlemen that invest, speculate and gamble, that election day is going to be a most uncertain day. Stocks went down, money went up.

WHAT DO you consider news? answer that question and you would describe yourself. At what point do you stop and begin thinking, when you read these items of today?

SENATOR Brandegee, powerful man in Congress, killed himself by inhaling gas. He had lost money in real estate.

Callizo, a Frenchman, beats the record for high flight by going up 12,000 meters.

THE SUPREME Court saves a Chinese, Chang Sung Wan, from the death sentence. A new trial was ordered on the ground that Wan confessed murder under torture of the "third degree."

MARIE ZELLO married at fourteen, is nineteen now. She went joy riding with John Renne, twenty-four, and others, not including her husband. Her husband saw them coming back from the automobile ride at five in the morning.

THE PRINCE of Wales, now visiting Henry Ford, will understand why England cannot compete with us in building cheap cars when Ford shows him how a car can be assembled in less than twelve minutes.

THE CITY of Washington is agitated by a leper, escaped from Leprosy colony in Louisiana. Other lepers and his ex-wives to Washington to protest against their condition.

ENORMOUS coal beds are discovered in Alaska, inside the Arctic Circle, the largest in the world. This coal will be transformed into electric power and chemical by-products some day, when men learn how to transport electricity without loss.

AFRICA HAS the biggest copper mine. It is holding down prices of copper in this country, worrying copper owners everywhere.

PRESIDENT Little, of the University of Maine, says ultra violet rays, invisible to our feeble eyes, will prevent rickets in children, and how legs that come of weak bones.

IN MEXICO 100 are killed and wounded in election fights in Tuxtla Gutierrez. And in Mexico City the National Eucharistic Congress postpones its festival because the Workers' Syndicate, bitterly opposed to the Catholic Church, would not allow workmen to make necessary preparations.

THE WHOLE TEXT of the league of nations' "protocol to end war" is published. It is an interesting protocol. But there is war in China, war between Spaniards and Moors. War at any time between Russia and Rumania or Russia and Poland is probable.

ALL THE OLD PUMP NEEDS IS A LITTLE PRIMING

JUST IN PASSING

By R. J. HOLLY

Everyone is interested in the high water that is now over the bulkhead and if everyone had been interested in this water question for the past ten years they would have that canal cut into Indian River and this high water would never have happened.

All the work on the lake front, all the work on the boat basin and all the contemplated work on the boulevard down the lake front is for naught unless that canal is cut first. It would be money in our pockets to bend all our energies toward the canal and the other projects afterward.

Those folks who do not believe in bulkheading their lake front property had a nervous job this week that will make them sit up and take notice in the future. With a few dollars spent in bulkheading they could not only reclaim many acres of land but would save considerable loss from the raising waters that could never get entirely into the fields that were properly bulkheaded.

Another thing the high waters have taught the farmers is the need of proper drainage and keeping the ditches cleaned out and ready for any storms that may occur. If a comprehensive drainage scheme had been put over here years ago when such a scheme was ready it would have saved thousands of dollars to the farmers.

The fact that the American Power & Light Company have purchased the Southern Utilities plants in Florida means much to Sanford. The American Light & Power Co. have a national reputation for giving good service at minimum rates and Sanford can expect something good out of this new move.

Cooler weather follows the rain and it now looks and feels like summer had crawled out of the lap of fall and we would be able to shake a few straw hats some of these days. Halloween is on the way and holidays will soon be here with all the attendant pleasures of buying Christmas gifts instead of wedding presents.

It is only a question of time when automobiles will have to be parked on vacant lots on Saturday nights. The congestion is something fierce now and later in the season will be worse.

The Lakeland Star Telegram says there should be no "speed traps" or other devices made to catch the unwary drivers if the speeder can't see them in the act and then arrest them but take nothing for granted. All that auto policemen are needed for is to preserve order on the county roads and when city and county get to this way of thinking there will be less friction, less trouble and Florida will have a better name among the visitors.

The City Commission should be looking forward to the time when they can have some sewage disposal other than the lake. If we expect to make our lake beautiful and are spending money along that line it is money wasted as long as the sewage is dumped into it. The last bond issue should have taken care of many needed sewers, but we should also be looking forward to a place for all this sewage to flow other than Lake Monroe. In a few years the lake will taboo on account of the sewage emptied into it.

The equinox is here. You know this means when the sun enters one of the two equinoctial points when the days and nights are of equal duration. This will be good news to the folks who stay out all night and sleep all day. This is supposed to be the time of storms and the time that is dreaded in Southern climes, although Florida is usually safe aside from a few blows and more or less rain. And after we do have a heavy storm and rain we can look for cooler weather and Indian summer—the finest of the year.

Sanford and Longwood and Oviedo and Geneva and several other towns in Seminole county have their chambers of commerce or boards of trade or bodies of some kind but it seems that the folks of the county want a County Chamber of Commerce that will handle the problems of the county at large and for one I am in favor of it. A move. Such a Chamber of Commerce has been produced in such many other counties.

SATURDAY EVENING SERMON

By W. J. BRYAN

The parable of the sower has several distinctions. It is not only one of the most easily understood, one of the most easily remembered, and one of the most practical parables, but it is one which Jesus himself interpreted.

It is recorded also in the Gospels of Matthew and Luke, as well as in the text for today.

It is one of the nine known as "The Parables of the Sea," the other eight being the parable of the Tares, of the Mustard Seed, of the Lamp under a Bushel, of the Seed Growing Secretly, of the Leaven, of the Hidden Treasure, of the Goodly Pearl, and of the Net.

In the first verse of the Bible text we learn that the multitude was so great that Christ entered into a boat and addressed the people as they stood on the shore.

Jesus was speaking in a rural community where everybody could understand the illustration; possibly his hearers could better understand that first sentence than we.

The people of the Holy Land did not live on their farms like our people do, but more as the French and the people of some European countries do now—viz., in villages. The same custom prevails now in the French portion of Canada; the land is laid off in long strips so that the people can live close to gether.

Christ, in interpreting this parable, says, "The sower soweth the word." This covers a large number of agencies. No matter who sows the word, the soil is a matter of vital importance.

It is only a question of time when automobiles will have to be parked on vacant lots on Saturday nights. The congestion is something fierce now and later in the season will be worse.

Christ does not mean condition. He describes ground is necessarily per any individual on a tary His appeal is of every kind because all but the condition He de found everywhere and dealt with.

Christ does not mean condition. He describes ground is necessarily per any individual on a tary His appeal is of every kind because all but the condition He de found everywhere and dealt with.

Christ does not mean condition. He describes ground is necessarily per any individual on a tary His appeal is of every kind because all but the condition He de found everywhere and dealt with.

### MRS. W. T. FIELD COMPLIMENTED BY MRS. HOLLAND OF DAYTONA BEACH

The following clipping from the Daytona Beach paper will be of interest to the many friends of Mrs. W. T. Field who has spent the summer at the beach.

Entertaining at one of the loveliest parties of the season, Mrs. S. Z. Holland was hostess on October 8th at the Peabody Community House to a large number of friends. The affair was given in compliment to Mrs. W. T. Field, of Sanford, who has been spending the summer here, and Mrs. Will Witt, of Cleveland, O., who is visiting her sister, Mrs. E. Weddon, at her home in Seabreeze. Mrs. Holland and the honor guests stood in the receiving line.

The room was attractively decorated carrying out a color scheme of pink and white, which was in evidence in the refreshments served and every detail of the party. Nine tables were in play throughout the afternoon bridge being the diversion. Hand painted tally cards, typical of Florida were designed and painted by Mrs. Lydia Seaman, formed lovely souvenirs of the occasion, as well as serving their purpose in keeping score.

Although the afternoon was gloomy and dark without, in the cozy room where the party was bright and cheerful, and all too soon the hours passed away. The fortunate holders of the highest score were presented with lovely prizes and the honor guests with home made handkerchiefs. Mrs. Frank Holmes won first prize, a hand embroidered vanity dresser set; Mrs. Charles Roselle, second—a hand painted vanity compact; and Mrs. Wm. Goldenberg won third—a box of stationery.

Throughout the afternoon, Miss Alice Miller served delicious punch and in conclusion home made cake and ice cream were enjoyed by the guests.

### Sunday Morning Club Will Hear an Address By Fred T. Scholfield

Those who know intimately Dr. G. S. Selman, Judge J. G. Sharon, Dr. J. T. Denton, Forrest E. Gatchel and the other 60 or 75 men of the Sunday Morning Club realize that the class is doing a valuable work in Sanford. The kind of work which this class does should be done by every organized Sunday School class in the land. The men of the class are doing a work in Sanford which is needed in every city.

Tomorrow morning the men will hear J. Fred Scholfield. Mr. Scholfield has had a large opportunity to see the work of men's classes, and is a great enthusiast for the organized class work. He is now a member and one of the teachers in a great men's class in Birmingham, and is in position to speak out of experience concerning the work and the possibilities of a class of men. It is quite possible that the Sunday Morning Club will break all records in attendance tomorrow morning.

### Sanford Art Exhibit To Be Opened With Social Tea Nov. 7

Studio Tea at The Woman's Club

The Sanford Art Exhibit, of paintings by members of the Pen and Brush Club of New York, will be opened, Friday afternoon, Nov. 7, with a studio tea at the Club House from 4 to 6 o'clock. At 6:30 o'clock there will be a short talk on "The Importance of the Fine Arts in Building a Community" by Mrs. John T. Fuller, of Orlando, state chairman of the Department of Fine Arts of the Florida Federation of Women's Clubs, who is well known for her charming personality and her ability as a speaker.

There will be an informal reception after the talk for Mrs. Fuller and all members of the club, and all their friends, are urged to be present. Tea will be served throughout the afternoon so that there will be ample opportunity for every one to see and enjoy the paintings. There will be a nominal admission charge of 25 cents, to help defray the expenses of the exhibit.

### Music Department of Woman's Club to Hold First Meeting Oct. 21

The first meeting of the music department of the Sanford Woman's Club will be held Tuesday, Oct. 21 at 3 p. m.

The department will study this year the music of foreign countries. The first program will be the study of Italian music with Mrs. Julius Takach as chairman.

Many delightful innovations will be introduced. The auditorium of the Club House will represent an Italian garden. Costumes, decorations and refreshments will be suggestive of Italy.

The hostesses will be Mrs. F. A. MacAllister, Mrs. J. C. Benson, Mrs. A. M. Phillips, and Mrs. Edward Higgins. All music lovers are most cordially invited to attend the meeting. The small sum of 25 cents is being charged for non-members of the department.

—Mrs. D. P. Drummond, chairman

### Presbyterian Baraca Class Officers Are Elected

The Baraca class of the Presbyterian Church held their first business meeting of the fall at the home of William Brimley on Oct. 17. The following officers were elected: President, Rodman Lehman; Vice President, Arthur Moore; Secretary and Treasurer, Theodor Runge, re-elected.

Plans were discussed and made for carrying on the work of the class during the winter months.

After all the business was disposed of a radio concert was enjoyed.

L. C. Hutchison, teacher and 10 young men were present at the meeting.

### Upsala And Grapeville

Mrs. Louis Reeves entertained her sister, Mrs. June of near Monroe, at her home in Greenville, Monday.

We are all thankful for a change of weather this week. The road to the depot has been almost impassable, but there is a promise of its being fixed.

We understand that the mail man, Mr. Thornton, on one day had to wade and get some planks to throw together in a stream as he could get his car across.

Mrs. A. F. Westerduck returned to her home and this week spent a delightful time at the camp meeting in Orlando. Mr. Gus Malm was also present for a few days. His daughter, Mrs. Hanson and Alfred Pierson made the trip with him, spending the day with his brother, Victor.

Rev. Wahlberg was a guest this time at the home of Alfred Ericson and wife, coming with them to the Sunday School.

Mr. Whidden and Mr. Wynn's folks had the electric lights installed in their home and this week John Lundquist put them in for Mr. Ballinger.

### LIBRARY NOTES

Hereafter the Library will be open until 9 o'clock on Thursday evenings. It will also be open Saturday morning from 10 to 12.

The story hours will be held on Saturday mornings at 10 o'clock instead of in the afternoons, until further notice. Children are requested to be on hand promptly. Last week Mrs. R. B. Chapman entertained the children with a delightful program, and a goodly number were out for a rainy afternoon. Mrs. Thomas Owen will be in charge next Saturday, and all the young people are invited to attend.

The office of the Florida Vegetable Corporation enjoyed a picnic supper Thursday evening at Crystal Lake.

Those invited on the picnic were Mr. and Mrs. Fred Walsh, Mr. and Mrs. Frank Talbot, Mr. and Mrs. R. B. Chapman, Miss Lillian Shimholzer, and Robbie Robertson.

Rev. Cameron Mann, D. D. Bishop of Southern Florida, will preach Sunday morning at 11 o'clock in the Milane Theater, at the regular morning service of the Episcopal Church.

big grove of Chase & Company.

Fred Krell left to pack oranges Tuesday. Mrs. Tyner and Elmer took Miss Eunice Tyner in Orlando, Tuesday, where she will be met by her uncle.

Mr. and Mrs. Bolton and daughter and son, Bob, formerly of Iowa City, Iowa, but who have been touring the states, coming here from Michigan, have been guests a number of days at the home of Mr. and Mrs. A. H. Lundquist and are stopping now in Emil Magnuson's home as they may locate here for the winter. Bob is attending the High School. They were old friends of the Lundquist family in Fort Meade.

Alfred Ericson and wife were agreeably surprised by the visit of his sister, Mrs. Augusta Lindgren of Coral Gables, Miami, and her son Albin. They once lived in Upsala but have not been back for many years. They have been in the mountains and stopped en route home from Asheville, N. C. A friend, Miss Wittle, accompanied them home. All of them making a welcome addition to the Sunday School. Rev. Clark expects to be with us on Oct. 19 and administer the sacrament.

# "Quality Did It." YOWELL-DREW CO. Orlando, Fla.

## 30th Anniversary Celebration

### Three Days, Beginning Monday, Oct. 20

Honoring the Founder of Orlando's Largest Store.

Thirty years of progress mark the continued advance of one of Florida's most successful Dry Goods Merchants—N. P. Yowell, who on October 20th, 1894, first opened his dry goods store on Orange Avenue.

From that day, thirty years ago, to this, Mr. Yowell has through his untiring efforts in serving the buying public, built up an institution that is not only the pride of Orlando, but is spoken of with admiration by many throughout the state.

As a fitting recognition of the thirty years of progressive retailing based on the well known Standard of Quality, this event has been planned with many interesting features.

### GREAT PREPARATION HAS BEEN MADE FOR THIS ANNIVERSARY CELEBRATION

Besides the magnificence of the new Autumn merchandise represented by big, better stocks throughout the store—each and every department has a birthday offering to make it the greatest of the most desirable merchandise possible to obtain, a few of which are listed here.

## PLANT CITY ELEVEN TROUNCES SANFORD HIGH FOOTBALL TEAM IN ONE-SIDED GAME ON FRIDAY

**"Planters" Show Real Class When They Defeat Locals By Score of 64 to 0; Two First Downs made by Locals**

**Meisch and Thompson Are 'Celery Fed' Stars**

**Plant City Presents Fast Team; Game Cleanly Played By Both Aggregations**

(By Bill Cann)

In a game which was the cleanest Sanford high school has participated in this season, the "Planters" beat the "Celery Feds" 64 to 0 on the Plant City gridiron. Several costly fumbles by Sanford's backfield in the first half enabled the Planters to pole up an overwhelming score. In addition, the Plant City boys had a remarkably fast backfield which time after time broke through the Celery Fed line in the most spectacular manner.

Sanford's line, outweighed considerably by the Planters' aggregation, made gallant but unsuccessful efforts to stem the on-rush of their fighting opponents. The backfield, though rather light, made desperate efforts to keep the Sanford score from being of the goose egg variety, but in vain.

The Tigers made 19 first downs to the Celery Feds' two. Meisch and Thompson of the Sanford backfield, were great factors in getting these two first downs, which was to be proud of when you had a glance at the Plant City grid machine.

**First Quarter.**

During the first two minutes of play Sanford fumbled the ball on the five-yard line and lost it to the Planters. Allen, Planter fullback, took it over on the first play for a touchdown. Clemmons kicked goal for a point, thus the first blood was drawn, 7 to 0 in Plant City's favor. Four minutes later, Mutschpaugh, Planter half, in a beautiful piece of broken field running of 10 yards, carried the pigskin over for the second touchdown. Try for extra point was successful and the score was raised to 14 to 0. On a 20-yard punt by Meisch, Holloway, Plucky little Planter half, made a beautiful return of 30 yards, placing the oval on the five-yard line from where Allen took it over for the third touchdown. Try for point failed and the score at the end of the quarter stood 20 to 0, with the ball on the five-yard line in possession of the Planters.

**Second Quarter.**

The Plant City boys opened the second quarter in a rather rushing manner, taking the ball which was on the five-yard line, over on the second play. Sanford kicked off to the Planters, who began a fast and steady march down the field to the eight yard line, from where Entzinger took it over for a 30-yard touchdown. Try for point was successful and the score stood of the half 27 to 0 until the end of the second quarter. The end of the game was a clean-cut affair. Sanford crossed the line for another point for the half blow. See the whistle.

**Second Half Play.**

In the second half play, Dornany, two of the Celery Fed

halves, showed some real speed and skill in broken field running. In the third quarter Holloway took the oval 40 yards through the Celery Feds for a touchdown and a few minutes later Dornany sprinted down the field 30 yards for another. During the first few minutes of play in the fourth quarter, by a bombardment of line plunges the Planters shoved the ball to the 12-yard line from where Allen, fullback, put it over. Another march down the field in the same manner netted another touchdown when Allen again crossed the line from where two yards had been hotly contested by the grim Celery Feds. Sanford began a series of aerial work, with the result that one of Meisch's passes was intercepted by Dornany, who ran 15 yards for the last touchdown. The game ended with the ball on the Planters' 30-yard line and the score 64-0.

Among Planters who rank high in this game are Holloway and Dornany, whose fast and broken field running was marvelous. Their substitute quarter, Kimball, was not far behind and certainly deserved his share of praise. On the Planters' line, Huntsman, center, and Tanner, left guard, were right there with the goods. Meisch and Thompson Are Stars.

On the Sanford line-up Meisch and Thompson were fast bats in the backfield. Thompson displayed unusual speed and skill in broken field running. Meisch seemed to penetrate the Planters' wall of defense. Coleman and Gunter, halves, were speedy boys, while Wallace, who started at full, hit the line like a ton of brick the first few minutes that he was in. Byrd, quarter, was at his best.

On the line, as usual, Whitfield's extra touchdowns helped him shove many a Planter to the ground.

Pope played a great game at center, as did Russell at left guard and Kennedy at left tackle. Wallace, who had been shifted to left tackle, played a great game at this position. Wilson and Greer on ends were certainly "doing their stuff" and little "Teacher" King, who went in for Greer in the second half, was a source of great trouble to the Planters, as his ability for tackling was wonderful. Booth, who replaced Pope at center, was in great shape and played a good game.

**The Line-up.**

Sanford	Position	Plant City
Gunter	L. E.	Sparkman
Russell	L. G.	Tanner
Kennedy	L. T.	Merrion
Pope	Center	Huntsman
Meisch	R. T.	Carter
Whitfield	R. G.	Pachard
Wilson	R. E.	Dornany
Coleman	L. E.	Mutschpaugh
Thompson	R. H. W. R.	Dornany
Byrd	Quarter	Clemmons
Wallace	Fullback	Allen

Substitutions: Boot for Pope; Gunter for Sparkman; Coleman for Gunter; Wallace for Meisch; Meisch for Wallace; Greer for Greer; Tanner for Russell; McElaine for Tanner; Atter for Sparkman; Couch for Holloway; Cable for Carter; Kimball for Couch; Holloway for Dornany.

Officials: R. Ferrer, G. H. Bates, headlinesman; Clemmons, Umpire; R. A. Calton, timekeeper; Curran, referee.

## LEADING DIXIE ELEVENS CLASH IN BIG GAMES

**University of Florida Meets Wake Forest Eleven in Tampa; Penn State Meets Ga. Tech in Premier Game**

ATLANTA, Ga., Oct. 18. — Although six southern conference eleven play teams outside the conference today and four are all as a result of mid week activities, the day brings the biggest family row of the season thus far, in that the remaining 12 are locked in a league that may prove to be to the death. The possibility of deadlocks is ever present as witnessed by two no decision conference encounters last Saturday, but the teams are always bitter enemies before the game and the contest tomorrow will be fought out in that basis if it takes all afternoon.

made outside their own play grounds. The easterners are not taking their game with Tech lightly and are said to have pointed for it. Glenn Killinger, assistant coach, has been in the stands at Tech's last two games. Tech scouts have also looked the Navy outfit over in two games. Virginia and V. M. I. continue their long series of fighting games with a much better contest indicated than was the case last year when the Cadets disposed of the Cavaliers handily.

V. P. I. goes to Washington to play the University of Maryland. The University of Mississippi and the Mississippi A. M. clash at Jackson in a game that should be thoroughly worth while. The Aggies lost last Saturday while "Old Miss" was winning but the university outfit was defeated last year in an exciting struggle. Washington and Lee goes back to Kentucky to meet the State University at Lexington, moving from one town to another of the same name for the afternoon. A matter of a tie that hurt the General's prestige no little last season will be remembered. DeHart's crew bowed before Wake Forest Saturday while the Kentuckians were stopping another Blue Grass team with ease. A game expected to develop some regular battling will be staged at Tampa where Florida meets Wake Forest. The North Carolinians are proceeding smoothly on the theory that the bigger they are the harder they fall, being credited already with close but sufficient victories over the University of North Carolina and Washington and Lee.

# FREE BOYCE-ITE

Sanford, Fla., Oct. 18, 1924

DEAR SIR: Had you ever thought about how much Power and Motor Efficiency was destroyed by Carbon in your Motor? Have you had to wait a half a day at a Garage and pay at least \$6.00 to have Valves ground in your Car? and do you know that Carbon clogged Cars require at least 20 cent more Gasoline than Cars with clean Valves? These are facts and proven by some of the most nationally known Engineers, and we want to prove it to you by supplying you FREE OF CHARGE the remedy. This remedy is

### "BOYCE-ITE" GASOLINE

Commencing at 7 a. m. October 19th we will commence selling "BOYCE-ITE" Gasoline (16 ounces of Boyce-ite to 10 Gallons of Gasoline) to everybody, at the same price you pay for ordinary Gasoline.

Will you, or will you not save this 20 per cent on the Dollar on your Gasoline, save your Motor, save your Valve-grinding and have the pleasure of riding behind a smooth running Motor?

REMEMBER—It costs you nothing to try it, we are the losers, and REMEMBER—that the Manufacturers of BOYCE-ITE will pay for any Automobile that was ever made, if only made in the Air or on Water. There are millions of small packages of Boyce-ite being sold at 35 cents the 4-ounce package. Let us furnish it to you FREE OF CHARGE with your Gasoline in any quantity.

Help us to maintain this added service at no cost to you by buying your gasoline here. Everybody knows Boyce-ite, what it is and what it will do.

## For Your Health... Drink

But Drink the Purest Water.

In placing "Silver Lake Springs Co. Water" on the market we placed a water at the disposal of the public that is Pure, Healthful and truly beneficial. Dr. Thos. R. Baker, of Rollins College, Winter Park, analyzed this water and pronounced it a "Superior Water."

Following is the chemical analysis and relative remarks concerning the water by Doctor Baker:

Color,	Clear
Reaction,	Neutral
Free Ammonia,	None
Albuminoid Ammonia,	None
Chlorine,	19.2 Parts per 1,000
Total Solids,	14.1 Parts per 1,000
Hardness,	39.3 Parts per 1,000
Nitrates,	None

# 100 per cent

We have placed this water at your disposal. Our trucks are at your service. The people drinking this water will find themselves freed from many complications—especially kidney troubles caused by drinking impure waters.

You should not miss the benefits derived from the use of this water if they are too exceptional.
