Kidnaped?

Posses began scouring mountains near Eureka, Calif., for traces of Carmen Wagner, 18, above, and one of her sisters after the shooting of Henry Sweet, 21. Authorities believed a rival of Sweet for Carman's hand shot him and then kidnaped the girl.

BODWELL LAUDS HIGH CHARACTER OF LOCAL WORK

Says City Is Free From Promotion Schemes of Doubtful Integrity; Warns Against Encouragement of Class

"Sanford, in my opinion, is particularly fortunate in enjoying a total freedom from any promotion ventures of a speculative nature at the present time." This observation was made late yesterday by Harry T. Bodwell, president of the Bodwell Realty Company, just before he departed for his northern home in Providence, R. I. on a short business trip.

"This city," he went on, "has never been offered anything in the way of development to which might be attached any question regarding its genuineness. It has a fine business record for stability and it will be well to maintain that record at all costs."

Mr. Bodwell's remarks were made in connection with an announcement by the Bodwell Realty Company that the second section of the Dreamworld development had been placed on the local realty market. In making the statement he explained that the original plans for a campaign later in the winter, but after the sales force of the organization had sold out the main section and had disposed of the remainder of the property in Belmont, that the project had been taken over by the Bodwell firm, it was that the announcement date of the second section must be advanced.

The newest offering, according to Mr. Bodwell's description is the 50 acres adjoining the main district, lying east of French Ave. and south of Geneva Avenue.

Tract Ideally Situated
It is said to be the highest land within a lengthy radius of this city, and to be ideally situated, one and three quarters miles distant from the heart of the city.

PALATKA AND SANFORD PLAY SCORELESS TIE

High School Players Perform Brilliantly At Times But Fail When Ball Is Within Striking Distance of Goal

Fumbling Is Costly To Welch's Team

Defensive of Team Is Best This Year, Palatka Being Held to Three First Downs

By HARLAN W. KELLEY
The Sanford High School football team was held to a scoreless tie yesterday afternoon by Putnam High of Palatka on Municipal Athletic Field. The spirited form which was exhibited last Saturday seemed to be entirely lacking yesterday, and with only infrequent spurts of good football they were held at bay by a decidedly inferior team.

The poor showing seemed to be a reaction from the splendid form against Plant City. It seemed as if the team had gone temporarily stale. While the attack of Palatka was practically negligible, Sanford was unable to keep up a sustained offensive. Palatka played hard throughout, and its defense was equal to the occasion at critical moments when its goal line was threatened.

Within Palatka's 20 yard line, Sanford's offense was woefully weak. The locals tried two drop kicks, one by Barber and one by Entzinger, but both shot wide of the mark.

The Sanford line played one of the best defensive games it has displayed this season, holding the local Palatka team to three first downs, one of which was gained by a penalty. The Palatka team knew little football and displayed less its exhibition of tackling being of less than grammar school calibre.

But while the high tackling injured several of the Sanford players, the Palatka players suffered most themselves. There was hard hitting throughout the game in which some Putnam member was not injured due to his ignorance or disregard for proper football play. These tactics detracted much from making the game an interesting contest.

Practically the entire Sanford team starred at one time or another, but the reason that the win column was due to the fact that these flashes were only intermittent and not long sustained. Entzinger, although not in the best of condition yesterday, played his usual flashy game, but a couple of costly fumbles on his part nullified many of his best efforts.

Fumbling of Sanford's part was prevalent throughout the game and probably cost the team at least two touchdowns. Entzinger threw many successful passes, the first time this season when Sanford's aerial attack has been at all productive. The combination of Entzinger's passing to Thompson seems to be much more successful than that of Thompson to Entzinger.

King and Barber played about the most consistent game yesterday of any of the back field men. King was always good for a substantial gain and should have been used off more. Barber got away for several long runs and played a flashy game throughout the contest. His punting, however, was the outstanding part of his play. Many times he kicked long spirals for 45 yards and which, when compared with the punts of Cone of Palatka, resulted in much ground gained for the home team.

Thompson played a fairly good running game and was successful on the receiving end of forward passes, but his judgement and field generalship in running the team was the poorest he has shown this season. Perhaps the real star of the game, if there was any, was Capt. "Rusty" Russell. His tackling was the best seen on Municipal Athletic Field this season. Pope played a much improved game.

Donahue Detective Held by Authorities

NEW YORK, Oct. 24.—(AP)—Noel C. Schaffa, private detective, who negotiated the return of the Donahue Jewels, was indicted by the grand jury Friday charged with compounding a crime.

Schaffa was a detective for the company which issued insurance on the Donahue Jewels. The detective in his story to the district attorney and police said he negotiated with a man known to him as "Sam Layton" for the return of the games and paid a reward of \$66,000 for their return.

Mr. and Mrs. Donahue were the principal witnesses before the grand jury returning the indictment.

LOAN BODY SEEKS MONEY TO PUSH BUILDING PLANS

Association Directors, In Statement Today Announce Opening of Campaign To Raise \$100,000 at Once

Despite rapid growth of the Sanford Building and Loan Association during the past year, directors of the institution announce today that they will begin a campaign in this city at once to raise \$100,000 additional funds, which they say are necessary at this time to meet the demands of local residents who are seeking financial assistance in the construction of their homes.

The board of directors has issued a statement through A. P. Connelly and Sons, who are acting as its agent in which various interesting features of the Association are explained. It is shown that since the organization of the concern in 1908, it has suffered no monetary loss and has been forced to effect a foreclosure but once.

A report of the activity of the association at this time shows a building construction program for which loans have been approved and notices given, totalling \$83,350.

Dividends are paid regularly on April 1 and Oct. 1 of each year to those who hold paid-up stock. To the home builders and monthly investors of stock, the dividends are credited and interest on the loan is compounded each six months. It is explained that a careful audit of the association books is made at the same time. Stock may be withdrawn on 30 days notice, according to the statement.

The directors are optimistic regarding the future of the enterprise. They predict that the growth of the organization within the next year or two will more than double the present expansion.

Seaplane Races At Baltimore Postponed

BAYSHORE PARK, BALTIMORE, Oct. 24.—(AP)—The international Schneider trophy seaplane race scheduled for this afternoon was formally postponed today and will be held tomorrow if weather permits. The Chesapeake was covered with white caps and an increasingly strong easterly wind was blowing squalls or rain when the contest committee postponed today's program.

Panama City—7-story office building to be constructed, corner Harrison Avenue and Second Street.

Revision of Prayer Book Occupies Time Of Episcopal Church Officers

NEW ORLEANS, Oct. 24.—(AP)—Revision of the prayer book of the Protestant Episcopal Church occupied practically the entire time of the last full session of the bishops and deputies in general convention here today. As results of the 15 days of deliberation were summed up it was found that the two houses were not in agreement, committees on conferences being busy as the day ended.

The discussion in both houses was technical, the house of deputies in one case being called on to consider a message from the house of bishops.

"That the committee following the word 'only' be omitted." Discussion was provoked on the first rubric of the burial office concerning the use of the service for unbaptized persons, those excommunicated and suicides. It was finally decided to place the rubric at the end of the office instead of the beginning. The rubric was amended to read: "It is to be noted that these offices are appropriate to be used only for the faithful departed of Christ." It was provided that in any other case the minister may at his discretion use parts of the office or other books of devotion.

As amended the prayer for the blessing of the grave in the burial service is omitted. Election of a presiding bishop continued to be considered. The bishops agreeing to join in the appointment of a joint commission to ascertain if the present rubric for such election may be improved. The question of substitution of

BULK OF DUKE FORTUNE LEFT TO DAUGHTER

Second Wife of Tobacco King Gets Three Fine Homes and Other Bequests And Is Made Daughter's Guardian

17 Millions Given To Duke Endowment

Sum of Two Million Dollars Divided Between Relatives; Secretary Receives \$40,000

SOMERVILLE, N. J., Oct. 24.—(AP)—The will of James B. Duke, tobacco magnate, disposing of an estate estimated at \$100,150,000, was filed Friday, leaving the greater part to his 13-year-old daughter, Doris, and providing more than \$17,000,000 for the Duke endowment established last year.

Mrs. Nannine H. Duke, the widow, his second wife, received the Duke residences in three different cities and was named guardian of her daughter.

Two separate bequests were given to the Duke endowment to be used for the benefit of Duke University at Durham, N. C. One was for \$10,000,000 to be added to the present fund, and specified that \$4,000,000 shall be for the construction of a medical school, a hospital, and a nurses home. The will directs that this construction shall be undertaken as soon as possible.

A second bequest was presented in a codicil, drawn October 1, just nine days before Mr. Duke's death. This directs that residuary income shall be added to the Duke endowment with the proviso that \$7,000,000 be used for new buildings and improvements at the university.

The two bequests added to the \$46,000,000 fund which Mr. Duke created last December to advance the cause of education in the south. The endowment fund, as accepted by Trinity college, which subsequently changed its name to Duke university.

Mrs. Duke received the Fifth Avenue, New York home, the residence known as Rough Point in Newport, R. I., and the residence known as Lynn Wood in Myers Park, N. C.

Greater provision was not made for his widow, Mr. Duke pointed out, because of previous funds established in her name.

The sum of \$2,000,000 was set aside for nephews, nieces and cousins, with the provision that only those related to him by blood should be eligible for participation. The sum was directed to be divided equally, but little provision was made that any attempt to contest the will by its beneficiaries shall act as an automatic cancellation or any bequest made to the contestant.

The will provided that the Dukes Farm Company in Somerset county, N. J., shall be dissolved and the returns turned over to its shareholders. The Duke Power Company, one of Mr. Duke's largest holdings, was left to his daughter, Doris, in the form of a trust, under her name, which also includes the residuary estate.

Employees Get Cash. Personal employees were left varying amounts. Alexander He Sands Jr., Mr. Duke's secretary, receiving \$40,000. William Baldwin received \$25,000, Frank E. Vantine, \$15,000, and household servants and farm employees received amounts in accordance with the length of their service.

LEGION DONATES USE OF HALL FOR WINTER VISITORS

Officers Offer City French Ave. Home as Recreational Center During Tourist Season; Generosity Is Lauded

The first announcement consequent to the recently inaugurated movement to coordinate civic effort in securing additional recreational facilities in Sanford was made this morning, when it became known that the Campbell-Lossing Post, American Legion has donated the use of its club house, at French Avenue and Commercial Street to the city for the entertainment of tourists during the winter season.

The decision to offer the club's facilities at this time was made by the officers, it is stated. The matter will be brought before the Legionnaires at their next meeting, for official approval, but little opposition is expected in view of the nature of the act.

Use of the Legion Hall, it is pointed out, will furnish the city with a means of centralizing, to some extent, the entertainment of seasonal visitors. Facilities available at the clubhouse may now easily be adapted for use as game and rest rooms, while a large floor space will furnish accommodations for tourist dances.

It is planned to rearrange the grounds surrounding the clubhouse to permit laying out tennis and croquet courts, and to provide space for horseshoe pitching.

Sentence Split As Man Asks Court For Remittance Of Bond

Expert juggling of figures is shown on the docket of the local court in session Friday morning. Jack Patton, arraigned for being drunk and disorderly, was found sentenced by Judge W. E. White, and sentenced to pay a fine of \$15 or serve 15 days in the city prison. Claiming that the \$15 appearance bond which he had posted was all the money he had, Patton asked that \$5 of this be remitted and that he spend five days in jail in lieu of full payment of the fine.

The court concurred, and Patton will be freed next week, according to police.

Other cases heard by Judge White included a number of traffic ordinance violators. Rebecca Brown was given \$15 fine, or the option of 10 days for speeding. C. E. Williams was fined \$3, and George Harris \$1 for violation of the parking laws.

Disorderly conduct charges against Mollie Singleton and Jerry Walker were continued until Wednesday, and a similar charge against Mary Nely was dismissed, the record shows. Albert Finn, also arrested for disorderly conduct, estimated \$10 bond when he failed to appear in court.

Greece Continues To Send Many Troops To Bulgarian Border

LICENSE TOTAL GROWS AS MANY FILE REQUESTS

830 Real Estate Men Apply for County Permits as Rush at Orlando Delays Approval of Registration Body

Two hundred and thirty applications of real estate brokers and salesmen for licenses under the new state law which went into effect Oct. 1, have been filed at the office of County Judge J. G. Sharon, it became known this morning. This total is representative, it is declared of the persons engaged in the real estate business in Seminole county.

Of this number, according to county officials, 168 have been forwarded to the Real Estate Broker's Registration Board, with headquarters at Orlando, for examination and approval. The remainder have been withheld at the request of the Board, which it is said, has been flooded with applicants from all over the state, and has been compelled to suspend acceptance of further work until the present overload is lightened.

Due to the fact that the registration body has decided to issue realty licenses separately from the regular professional and business cards prepared for the county, and have not furnished and blanks at this time, local officials have not been able to supply cards for Seminole county realty men.

Temporary License Issued. It was explained today that pending the arrival here of the necessary blanks, real estate men will be permitted to operate after securing the regular business licenses, which is being issued as a temporary measure.

By letter handling the realty license matters here direct attention of real estate dealers to the provision of the Registration Board regarding advertising signs. A recent communication from the Board emphasizes the observation of this ruling, which states that an outside sign be maintained which will measure not less than 8x16 inches, with the name of the broker or firm, and the words "Licensed Real Estate Broker" in letters proportionate to the size of the display.

In connection with the new issue of hunting and fishing licenses, it is announced that the county officers have received applications and blanks, and will issue them at once.

At the city administration building today, it was learned that temporary real estate brokers and salesmen's licenses to the number of 179 have been issued this month. No announcement was made regarding the arrival of the regular license blanks, now being prepared to conform with the amended registration of realtors.

Rum Maker, Agents Engage in Pistol Fight

JACKSONVILLE, Oct. 24.—(AP)—A running gun fight with an alleged moonshiner, late yesterday featured a week of activity by federal prohibition officers working out of the offices here. H. L. Duncan, Deputy Administrator of this state, the battle yesterday was between agents and an unidentified man, who began shooting, the officers charge, when they advanced upon his still.

The man headed for "tall timber," the agents said and fired as he ran. Officers returned fire. The battle was staged near Bunnell and the man was not captured.

Eight men arrested and eight stills destroyed, is the number of places raided and quantity of liquor confiscated during the past week by the officers in Lake, Volusia and Flagler counties.

Firemen Called When Blaze Starts In Bus

Prompt response by Sanford firemen in answering an alarm at Magnolia Avenue and Second Street at 10 o'clock this morning was instrumental in preventing what might have been a costly fire, when a short circuit caused the ignition of floor boards in an incoming Orange Belt Line motor bus.

When smoke was discovered coming from beneath the boards, the bus was stopped and the fire department summoned. The blaze was extinguished by use of one chemical hand tank, and the damage was announced as trifling. Wiring and battery connections were repaired at once and the bus continued on its run after a delay of approximately an hour.

Movement Considered As Indication That Greeks are Planning To Enlarge Attack

Bulgar Territory Pierced 7 Miles

Briand Sends Messages Reminding Nations of Their Obligations

SOFIA, Oct. 24.—(AP)—Bulgaria is sending troops into "war area" and has decided to stand as far as her limited military strength permits in case the Greeks continue to invade the territory granted her under the treaty of Neuilly. This is stated in authoritative quarters here.

SOFIA, Oct. 24.—(AP)—Large contingents of Greek troops continue to be sent toward the Bulgarian border and the Bulgarian telegraph agency announced it considers this an indication that the Greeks intend to enlarge the scope of their present offensive.

The government says that the Greeks have pierced the Bulgarian territory to a depth of more than seven miles on a 21 mile front.

Bombard Town, SVETI VRATICH, on the Bulgarian Frontier, Oct. 24.—(AP)—Greek troops, without a declaration of war, Friday morning invaded Bulgarian soil, bombarding the frontier town of Perich and advancing up the valley of the Struma river.

On the left bank of the river the Greeks advanced along a front of fifteen kilometers (9.32 miles) to a depth of six kilometers (3.72 miles) on the right bank their line was twenty kilometers (12.42 miles) and the penetration was two kilometers (1.24 miles).

The Bulgarian troops retired all along the line.

Simultaneously airplanes appeared over the valley and bombed the bridges, roads, stations and troop quarters.

Perich was crowded with refugees, and there was reported to have been a considerable number of casualties there, including six killed.

Green Casualties. LONDON, Oct. 24.—(AP)—A dispatch to the Exchange Telegraph Company at Athens stated that the Greeks had four killed and eight wounded, one of the latter a captain in the fighting, which ended in the Greeks recouping post 69 at Demirkahu.

Briand Sends Notes to Nations. GENEVA, Oct. 24.—(AP)—In addition to convoking special session of the league council next Monday at Paris to deal with the Greco-Bulgarian crisis, M. Briand, as president of the council, has dispatched notes to both the Athens and Sofia governments reminding them of their obligation under the league covenant to settle disputes amicably.

Bulgaria's appeal to the league was made under Articles 10 and 11 of the league covenant. Article 10 binds the members of the league to protect the territorial integrity and political freedom of all the members of the league.

Article 11 says "that any war or threat of war, whether immediately affecting any of the members of the league or not, is declared a matter of concern to the whole league and the league shall take any action that may be deemed wise and effectual to safeguard the peace of nations."

The league secretariat received a telegram from Foreign Minister Kaloff, of Bulgaria, stating that Green troops had entered Bulgarian territory, penetrating to a distance of eight kilometers, about five miles).

Bulgaria had thrice brought Greece the creation of a commission to settle incidents amicable. "Life" was received in the department.

bounds to Palatka's 28 yard line. Mullis lost three yards. Johnson made one yard. Cone made three. Cone kicked to Entzinger in middle field who returned it to Palatka's 36 yard line. Thompson's pass was incomplete. Barber made one yard around right end. Steen of Palatka was injured and was carried off the field. Brown went in for Steen.

Entzinger made two yards. On fourth down with seven yards to gain, Thompson sent Barber around left end. He was stopped for no gain and it was Palatka's ball.

Spry went in for Cone. Spry made no gain on a delayed buck. Spry made one yard through left guard. Mullis was stopped for no gain. Grier blocked Spry's punt, but Spry recovered and it was Palatka's ball. The half ended here with the ball in Palatka's possession on its own 30 yard line.

Sanford 0, Palatka 0.

Third Quarter.
Cottingham went in for Dutton to start the half. Palatka kicked off to Entzinger on his 15 yard line and he returned it 35 yards. Thompson made one yard. Entzinger was stopped for no gain. King made 10 yards and first down around right end.

Thompson's pass was incomplete. Thompson made no gain. Thompson's pass to Entzinger was complete, but the referee did not allow it. Entzinger's pass was intercepted by Palatka on its own 35 yard line. Mullis no gain. Spry no gain. Spry kicked to Thompson on his own 40 yard line.

Barber made 30 yards around left end. Thompson fumbled and Barber recovered for a 15 yard loss. Cone went in for Spry. A pass Entzinger to King made five yards. Entzinger's next pass was incomplete. Barber punted to Cone on Palatka's goal line. He returned 20 yards.

Mullis made no gain. Mullis made three yards. Cone made seven yards and first down. Cone made no gain. Mullis fumbled and lost six yards. Cone kicked to Thompson on Palatka's 40 yard line.

Barber made three yards around left end. Entzinger made two yards on a delayed cross buck. Thompson's pass was incomplete. Barber punted to Cone who returned the ball 15 yards to Palatka's 25 yard line. Smith lost one yard. Cone also lost one yard. Cone punted to Russell on Palatka's 45-yard line. Russell was hurt by a high tackle, but resumed play. A pass Entzinger to Thompson was good for 17 yards, and first down. Entzinger lost five yards around left end as the quarter ended.

Sanford 0, Palatka 0.

Fourth Quarter.
Dutton went in for Cottingham. Barber made three yards. Entzinger lost two yards. Barber punted and Russell caught the ball on Palatka's 15 yard line. It was Palatka's ball but very heavy play on the part of Russell. Cone made no gain. Mullis made one yard.

Bank Your Bountiful Harvest
WHAT a joy, what a blessing is harvest time to the average farmer, when crops are bountiful and prices high enough to realize a tidy sum for the season's work!
It is after such a successful harvest that the farmer takes his surplus, stores it for future use and protects himself against any threatened famine of the future.
And so should it be with the layman, who when he or she is earning plentifully, places aside what is not needed for current expenses and puts it in a Savings Account.
While enjoying your bountiful harvest set aside a stipulated sum each pay-day, bring it to this Bank for safekeeping and let it accumulate interest.

Old Homes
No better test of the strength and durability of lumber can be found than that of time. The above illustration is a recent photograph of the old Drew home in Ellaville, Florida. This old home was built by Governor Drew in early reconstruction days as a dwelling and from present indications is good for many more years. The lumber used in the construction of this old home was Florida Dense Long Leaf Yellow Pine—the kind of lumber YOU need in your Florida home. No other lumber commercially available in Florida today can compare with Florida Dense Long Leaf Yellow Pine lumber for strength and durability.

The Sanford Herald

Published every afternoon except Sundays and Public Holidays. Entered as Second-Class Matter, October 17, 1919, at the Postoffice at Sanford, Florida, under Act of March 3, 1879.

Subscription Rates: One Year - \$7.00, Six Months - \$4.00, Three Months - \$2.00, Single Copies - 10c.

Special Notices: All obituary notices, cards of thanks, resolutions and notices of entertainments where charges are made will be charged at regular advertising rates.

Member of the Associated Press: The Associated Press is exclusively entitled to use and sell the reproduction of all news dispatches received by this office and also the local news published herein.

THE HERALD'S PLATFORM: 1-Deeper water route to Jacksonville. 2-Construction of St. Johns-Indian River canal. 3-Extension of white way. 4-Extension of local amusements. 5-Swimming pool, tennis courts, etc. 6-Augmenting of building program-houses, hotels, apartment houses. 7-Extension of street paving program. 8-Construction of boulevard around Lake Monroe. 9-Completion of city beautification program. 10-Expansion of school system with provision for increased facilities.

BIBLE THOUGHT FOR TODAY: THINK OF THE HARVEST: Whatever a man sows, that shall he also reap. Galatians 6:7.

PRAYER: Dear Lord, we thank thee for this truth. May we sow seed that assures us a good harvest.

AUTUMN: Now when the time of fruit and grain is come, When apples hang above the orchard wall, And from a tangle by the roadside stream A scent of wild grapes fills the racy air, Comes Autumn with her sun-burnt caravan, Like a long gypsy train with trap-pings gay.

Sanford girls who are trying to reduce will be interested to learn that a Chicago girl recently lost twenty-two pounds as the result of being jilted.

Another war in the Balkans: Greece and Bulgaria are now playing a return match. You have to make resolutions early if you want a war in the Balkans.

The announcement that William Lee Popham of Annapolis will be a candidate for governor in succeed John W. Martin reminds us that Florida doesn't need the "Oyster King" at its helm any more than it needs Sidney J. Catts.

An advertisement in the Macon Telegraph reads: "Your choice of a number of 1924 and 1925 Ford touring cars are repainted and in good condition. They won't last long." And that's just the reason why we don't want one of 'em.

France is said to have lost seventeen thousand men and 3,000,000 francs since she started that war in Morocco. If France had put those seventeen thousand men to work in France, instead of that 3,000,000,000 francs in aid of trying to rob the ignorant Rifian tribes of their phosphate beds, she might have been able to pay a reasonable amount on her American loan.

Secretary Kellogg has had another nervous breakdown. The Countess Karolyi, wife of the former president of Hungary, wanted to visit Mrs. Strausburger, wife of the political leader of Pennsylvania. Our noble Secretary of State denied her admission to this country because he was informed that she held "revolutionary views."

We entered the World War to make the world safe for Democracy. We note in the papers today that three hundred persons were killed when Druse tribesmen burned the native quarter in Damascus, fifty-four persons were killed in Egypt when police were clearing a way for ministers to pass, France has lost several thousand men and soldiers engage in battle in Macedonia, date is named for court martial of Colonel Mitchell for expressing his opinion of War and Navy Departments, and Countess Karolyi is refused admission to the United States on account of certain "revolutionary ideas."

If this be Democracy, then turn the Kaiser loose.

Strength, a Weakness

Eugene Sandow for many years was the strongest man in the world. Huge muscles covered his frame with greater cords than those of a buffalo. There seemed to be no feat of prowess which he was incapable of doing. Yet when he attempted to lift an automobile out of a ditch by his own strength alone, he suffered internal injuries which resulted in his death.

Sigmund Breitbart succeeded Sandow as the world's strongest man. For many years he startled New York crowds at the Hippodrome by his almost superhuman feats. He would bend a heavy iron bar into a hairpin by means of his two hands alone. He would lie down with a board over him and let an elephant stand on it. He was a marvel of strength. Yet he died when he received what appeared to be a trifling scratch which resulted in blood poisoning.

It must be that things are not always what they seem. We have seen delicate men attacked by the tuberculosis germ, fight on for years and at last perhaps win the battle for health. We have seen stronger men succumb quickly to Strong men, giant athletes, frequently die before fifty; others, perhaps sickly throughout life, are as alive as ever at a hundred.

The answer is probably what the French say, "Nothing to excess." Sandow and Breitbart worked themselves to death so that when they met with a slightly unusual circumstance they had no reserve strength with which to fight. A certain amount of exercise is fine, in fact necessary, to keep the blood circulating and the various bodily organs functioning properly; but too much exercise tears down the vitality and diminishes the reserve strength, so necessary to continued health and longevity.

Marry and Divorce

The New York World is bemoaning the fact that the laws of New York state make it so difficult to obtain divorce. "New York's statute is unquestionably extreme," it says. "In numberless instances its operation is cruel and in many cases it is positively immoral."

But just what is the matter with the editorial writer of the New York World, we can't figure out. We have never heard of anyone else in New York City having any trouble finding a way out of an unpleasant marriage alliance. If the writer can't get a divorce in his own state, why doesn't he step across the border into New Jersey where he can get one at the rate of fifty cents a dozen?

As a matter of fact it seems to us that the laxity of the divorce laws is an outstanding evil of today. In some states the smallest disagreement on principle, and "incompatibility of temperament" are grounds for divorce. Too many young people marry with the thought in mind of securing a divorce as soon as unpleasant circumstances arise. "Trial marriages" are becoming far too numerous.

Mrs. Kate Trenholm Abrams, vice chairman of the legislative committee of the General Federation of Women's Clubs, in speaking of divorce says, "If divorce were difficult to obtain, there would be more thought and deliberation about jumping into marriage. And if marriage were more considered, there would be less divorce. Young people know that if they make a mistake, they can kick off the traces with little trouble and try again. If they encounter difficulty in their own state, they cross a state line where laws are more lenient."

We do not say that occasions do not arise where divorce is decidedly the lesser of two evils. Certainly such things as bigamy, adultery, cruelty or insanity should constitute grounds for divorce. And there are other reasons, which we all know, difficult to define in a word, that should be sufficient cause for divorce.

But there can be little doubt that in most states divorce may be gained upon the slightest pretext and that such a condition is harmful to the better morals of our country. We read that DeWolff Hopper, age sixty-six, is married for the sixth time. He has a record of five divorces. And there is Peggy Hopkins Joyce and thousands of others, some of whom doubtless you know personally, who have come to use marriage as a mere camouflage for something sinister.

IT SEEMS TO be quite the fashion for newspapers in the devastated area to send reporters to write a series of several hundred articles about Florida. Their only instructions are to ascertain all the facts detrimental to the state and present them in a fair and impartial manner. Most of the articles I have read are less an indictment of Florida than an attempt to justify the reporters' expense account.—Editor George Morris in Memphis News-Scimitar.

MY FAVORITE STORIES

By IRVIN S. COBB

On the occasion of a local election in a small Tennessee town an old colored man was the only member of his race who voted the Democratic ticket. It was felt that this devotion to the cause of the Caucasian—as it prevailed in that vicinity—was deserving of recognition and a substantial reward. Accordingly the incoming administration promptly created a department of street cleaning something of which the municipality had never seriously felt the need before. This department was to consist of two members, namely a foreman or superintendent and a staff of one. Naturally, a white man went the job of foreman but upon the worthy old black man was conferred the honor of being the staff.

Now he had the idea, which is not uncommon among other political appointees, that holding a public office meant regular wages and considerable glory and no appreciable amount of manual exertion. Nevertheless on the Monday morning when he reported for duty, as the foreman brought a shovel along with him.

But the white man who had been selected as superintendent had a very different idea of the obligation he owed the municipality. He might not work much himself, but he was determined that the force under him should not be idle. No sooner had the old negro shoveled up one of the accumulated piles of vintage rubbish of the years from the public thoroughfare than the vigilant eye of the boss spied out at least half a dozen more similar mounds which to his way of thinking seemed to require immediate attention.

As a consequence it was 4 o'clock in the afternoon before the surprised and chagrined and pained old man had time to blow on the plump new formed blisters in the palms of his hands or to rub the cricks out of his back. Finally in a merciful lull in the operations he straightened his spine with an almost audible creak, and as he wrung the dew of unwanted toil from his forehead he inquired of his superior:

"Look here, mister, ain't you got nothing to do 'cept jes' to think up things for me to do?"

"Yep," said the white man briskly, "that's all my job—just to keep you busy."

"Well, sah," said the old man softly, "in dat case you'll probably be pleased to know dat you ain't goin' to be workin' tomorrow."

THE USELESS PENNY

NEW YORK WORLD

Meditating weighty affairs, we fingly a bright new penny and suddenly a thought arises: What will this penny buy? A few years ago it had mightily purchasing power. It would buy a pea-shooter, a strap of liquorice, six gum-drops, a handful of BB shot. A little later it was still worth something. It would buy chewing-gum and a brace of cigars in the days when the corner smoke-house used to keep a loose package on the shelves for snotty young men of thirteen who didn't bother with a whole package. And a few years later it would buy something or other, one cannot just remember what. But now? Its purchasing power is as mythical as that of the French centime. One racks the brain in vain to think of something it will buy. It might buy a box of matches, but the cigar stores give them away for free, and one would walk a long way to find a place that had them for sale. Time passes. We install the voting machine and the time-honored privilege of the citizen to write his name on a blank space and at least get one vote for Altman has vanished. Has the penny vanished also, except as a means of making change? Then the last pillar of our democracy has crumbled! Give us back our bright new penny, and give us something to buy with it!

As Brisbane Sees It

12 Generals, 12. More Wall St. Cheer. Religion as Crime Cure. Lending to the Church. BY ARTHUR BRISBANE (Copyright 1925)

COLONEL MITCHELL will be tried by twelve solemn Generals for breach of discipline, which really means for criticizing the stupidly incompetent management of the air forces of the United States. Will the twelve solemn Generals condemn or dismiss Colonel Mitchell for telling the truth, and if they do, what will the President do about it?

ONE FACT may comfort Colonel Mitchell, whatever happens. The people are with him. If some nation well equipped with flying machines should attack this country and bombard a few of our cities, destroying them with ease and dispatch, those twelve Generals would not cut much figure. And President Coolidge, moved by public opinion, would end the trial and put Colonel Mitchell in charge of aerial defense.

THE TWELVE warriors presiding at Mitchell's trial include six Brigadier-Generals and six Major-Generals. How much do the twelve, put together, know about flying? That's what interests the people of the United States that pay the salaries of the twelve Generals, of Colonel Mitchell and of President Coolidge.

ANOTHER CHEERFUL day in Wall Street, a two and one-half million share day, exact figures 2,517,700.

There was excitement, nerve strain and howling around many spots. Traders welcomed a wide market, showing that everybody is coming in.

STEELS UP, oils up, motors and rails up, stocks that had been quiet suddenly came to life and sold twenty-five or thirty thousand shares, instead of just a handful.

WELL, IT'S a rich country. Europe has decided to keep the peace for a while. OUI billions will come back from Europe gradually.

Secretary Mellon is planning income tax cuts, for the big man and the little man, including increase in the exempt allowance for children and other dependents. The average man's income, as Mr. Z. G. Simmons points out, is doubled. The wealth of the United States has hardly been touched.

OUR IRON wall keeps out immigration and makes United States citizenship worth in dignity all that the ancient Roman citizenship was worth, and a great deal more in hard cash. We are a fortunate people. Let's hope we shall have brains enough to get in condition, ready to protect, from outside attack all that we have.

PRESIDENT COOLIDGE tells the Council of Congregational Churches that in the crime wave following the war we must rely on religion as the only remedy. The President knows of "no source of moral power other than that which comes from religion." He expects the clergy in charge of religion to display unusual vigor and efficiency.

DETAILED SUGGESTIONS for curing crime with religion would be interesting. Prayers might check the hijacker, bootlegger, burglar, hold-up man, if he could be made to realize that twenty-five or thirty million were praying against him. It is not denying the powers of religion, however, to suggest that an efficient police force, refusing its share of the bootleg money, and courts of justice, operating speedily and surely, would help religion to curb crime.

HARD-HEADED bankers don't like to lend on churches or theatres. They know nothing about theatres don't consider them "a business." As for churches, they feel that nobody in particular is responsible and, anyhow, they wouldn't like to foreclose a mortgage on a church. It might bring "bad luck."

THIS DOES not apply to a church organization well managed. The Chase National Bank of New York has arranged to lend \$1,500,000 to the Vatican, to buy a site for the new American Catholic College in Rome. The money is to flow 5 per cent and there won't be any trouble about collecting principal or interest.

IT'S A LONG way from the old Genesee bankers that used to finance the Pope's enterprises, such as the building of magnificent St. Peter's to the Chase National Bank in lower Broadway in New York City. The empire of finance has come a long way west.

EUROPE, WITH face nicely washed, hair brushed, like a little boy appearing at a Sunday school picnic, is coming for more loans saying "I am not going to fight any more. Lend me."

There is plenty here to be borrowed. The National City Bank of New York shows deposits exceeding \$800,000,000. The Chase National Bank nearby has more than \$450,000,000.

"TOKIO SEES danger of war with Russia." That's the heading. Russians are too wise, and so probably are the Japanese, to start a real war just now. But if war between white Europe and yellow Asia must come, the Russians might as well undertake it. Revolution produces enthusiasm, and men for some reason fight well for a new government.

Russia might be glad to prove to Japan that she can't do it. Bolshevik Russia what she did so easily to the Russia of Czars and drunken or dishonest Grand Dukes.

NOW THEN—TO GET RID OF THE CAT

BARRON COLLIER TELLS "WHY"

CLERMONT PRESS

Barron Collier, writing in Forbes Magazine of September 15, tells why he has invested millions in Florida, and in the hope that many will take the word of so distinguished an American as against that of hiring newspaper scoundrels, the Press reprints a part of his article.

The eyes of forty-seven sister States—indeed, the eyes of the world itself seem to be focused on that southeastern tip of the United States, started, wondering, expectant.

"Boom, boom, boom! Calum after column in the daily papers. Story after story of enormous fortunes made overnight in the magic State. Cities springing into being, populations jumping ten times in half as many years. Railroad and steamship booking offices literally swamped with applications for reservations. Hundreds upon hundreds of persons giving up established business connections and setting out for Florida.

"What are they doing it? What is the great incentive that causes so many to reduce every available asset to cash, cut old ties of friendship and business, and plunge with it all into the maelstrom of growth, development, activity which has become synonymous with the name of one of the oldest sections of our country?"

"Why did I invest heavily in Florida? Here, in a few words you have the secret—the explanation of the great trek to this new land of promise. Real estate deals, mushroom towns, 'booms,' fortunes made overnight in speculation are merely the side issues, the natural results of a natural cause. People are going to Florida and investing in Florida because they realize that Florida is a state of unlimited possibilities and that these possibilities are based on the most substantial foundation of all—the inherent value of the land itself."

"But of all those who are fighting and clamoring for Florida property today, how many intend putting shoulders to the wheel and, through years of hard work, strive to bring this immensely productive region into its own?"

"This will certainly be done. It is being done now in some sections. But the task of development will require years of conscientious, well-directed, open-eyed WORK, plus the investment of millions of good, hard dollars."

"I know—for I am in the midst of just such work myself, and I use the word 'work' advisedly, as you will see. My holdings in Florida amount to more than a million acres of land, the greater part, of course, wild to the point of the primeval. Since 1910 I have been buying acreage, chiefly in what is now known as Collier county. And I have bought because I know that when I am through with the work of development, this section of Florida will be a section made up of thousands of productive farms, the homes of thousands of happy, prosperous families."

"Transportation and communication are the two big factors in the development of any country—and transportation and communication cost money and time and labor. Such things, however, do not stand in the way of modern railroads. After all, railroads today are the pioneers of land development. Witness the splendid spirit and marvelous results accomplished by the Atlantic Coast Line. Literally tearing its way through wilderness after wilderness, that company is forging ahead, laying many lines to open up and serve the new territory from which, in the future, it will draw a great business."

"Florida's so-called boom is different from any other 'boom' in history, for Florida's 'boom' will last. 'Why? Because it is nothing less than the visible symptom of bringing into use the vast richness of the land itself."

"But of all those who are fighting and clamoring for Florida property today, how many intend putting shoulders to the wheel and, through years of hard work, strive to bring this immensely productive region into its own?"

"This will certainly be done. It is being done now in some sections. But the task of development will require years of conscientious, well-directed, open-eyed WORK, plus the investment of millions of good, hard dollars."

Personals

Harry T. Rodwell has gone to Providence, R. I., on a business trip of about two weeks.

Mrs. B. D. Rackliffe of Springfield, Mass., and Miss Nora Spring of Northampton, Mass., spent Friday afternoon here with Miss Margaret Berner enroute to Mt. Dora.

F. E. Andrews of the Lake Monroe Development Co., made a business trip to DeLand yesterday.

Mrs. Ira Davis and little daughter and guest, Mrs. S. A. Bates, of Waycross, Ga., spent Friday in Sanford as the guests of Mrs. G. A. Radford.

Mrs. Curry and son, who have been visiting for some time at the home of Mr. and Mrs. J. E. Laing, left this morning for their home in Kathleen, Ga.

Among the business visitors to Sanford from Jacksonville yesterday were Robert E. Davies, O. B. Smith, Frank Hing, F. N. Stanley, and E. N. Spence.

Daniel H. Julius and wife of Pittsburgh, Pa., are in the city for a few days. Mr. Julius represents the Flint Motor Co.

James H. Murphy of Columbus, Ohio is in the city visiting friends and relatives.

Mrs. H. R. Page left yesterday to visit relatives in Macon and Atlanta, Ga.

Mr. and Mrs. F. L. Hoyt of Boston, Mass., are visiting in the "City Substantial."

Abner Davis, Jr., and James MacDonald of West Palm Beach are in the city on business.

F. W. Walsh of Tampa stopped in Sanford Friday on his way to points in the north.

Frank H. Adams of Orlando was a business caller in Sanford Friday and Saturday.

A. J. Hall of Lakeland stopped in Sanford Friday.

R. M. Montgomery of Tampa was registered at the Seminole yesterday. Mrs. Montgomery arrived later.

E. H. Garrett was a Sanford business visitor yesterday from Orlando.

Miss Eleanor Herring drove to Orlando this afternoon.

Claude Ogilvie of Fort Myers, who is to be married soon to Miss Ethel Henry of Sanford, is spending the week-end in the city.

Victor Check and W. C. Wooding have returned from a week's hunting trip to Maeco and other points.

Three Are Killed In Bootleggers' Fight

NEW YORK, Oct. 24.—(P)—Three men were killed early today in what police believe was a battle between 15 bootleggers in the basement of a rooming house. Two men were found dead in the hall and a third died later in a hospital from a bullet in his brain. John Magliere, said to be part owner of the house, was arrested, charged with suspicion of homicide.

The largest phosphate mines in the world are located in Polk county. Polk county also produces the most oranges of any county in the state.

At The Churches

FIRST BAPTIST CHURCH

Members of the Sunday School who do not attend Sunday morning will miss some excellent selections by the orchestra. Mr. Phillips, the choir leader, will lead the school in several new songs.

Dr. John Stewart will preach next Sunday morning and evening. Morning subject, "Prayer and Power." Evening subject, "Factors in Christian Progress."

Dr. Stewart has held pastorates in Massachusetts, Rhode Island and Illinois, and for nearly 20 years was General Secretary and Superintendent of Missions for the Rhode Island Baptist State Convention. He is spending the winter in Orlando.

B. Y. P. U. organizations meet at 6:30 p. m.

The pastor, Dr. F. D. King, is holding a revival service in the Metropolitan Baptist Church, in Washington, D. C.

FIRST METHODIST CHURCH

Sunday Services: Sunday School, F. B. Adams, Superintendent, 9:30 a. m.

Morning Worship, sermon by pastor, 11:00 a. m.

Baptism of Children, 11:00 a. m.

Epworth League meetings, 6:30 p. m.

Preaching by the pastor, 7:30 p. m.

Reception of new members at morning service. Parents who have children to be baptized will please bring them promptly at 11:00 o'clock.

ALL SOULS CHURCH

Twenty-first Sunday after Pentecost. Mass at 8:00 a. m.

Sermon, "Temporal Punishment Due to Sin."

Sunday School after Mass. Saturday, the vigil of the feast of All Saints will be a day of fasting and abstinence.

The Mass next Sunday, Nov. 1, will be a High Mass at 10:30 a. m.

Peter Schaal will play the organ and lead the choir. Rev. Michael Columelle Clabby will say Mass tomorrow and Father Humphries will preach.

PRESBYTERIAN CHURCH

The services Sunday will be as follows: Sunday School 9:30 a. m.

Preaching service, 11 a. m.

Junior Christian Endeavor, 2:15 p. m.

Senior Christian Endeavor, 6:30 p. m.

Preaching service, 7:30 p. m.

Attention is called to the earlier time for the Sunday School meeting.

The church invites the public and the visitors in town to these services.

CONGREGATIONAL CHURCH

Sunday services: Sunday School, 9:45 a. m.

Morning service and sermon, 11 a. m.

Evening service and sermon, 7:30 o'clock.

A hearty welcome for all. Good singing and helpful worship.

CHRISTIAN SCIENCE SOCIETY

Christian Science services are held every Sunday morning at 11 o'clock in the Woman's Club, Oak Avenue near Third Street. Sunday School at 10 o'clock. Subject for tomorrow, 'Probation after Death.' Wednesday evening services which include testimonies of healing are held at 7 o'clock in the Woman's Club.

The Society maintains a free Reading Room where the Bible and authorized Christian Science literature may be read, borrowed or purchased. Open Wednesday and Saturday from 2 to 5 p. m., room 517 First National Bank building.

All are welcome to attend our services and to make use of the Reading Room.

FIRST CHRISTIAN CHURCH

Services held at high school at Palmetto Avenue and Ninth St. Sunday School 9:45 o'clock. Sermon and communion at 11 o'clock.

Everyone is cordially invited.

East Sanford

W. W. Miller returned Friday from a two week's visit at Pompano.

John Brumley was at home from Gainesville for a short visit recently.

Mrs. Ben E. Squire returned on Saturday from an extended visit at Kingston, N. Y. and other points.

Mr. and Mrs. Burke Steels and small daughter Joyce Lambert were Sunday guests at the Boston Steele home.

Alethia and Clyde Curry of New Smyrna were week end guests at the home of their sister Mrs. W. R. Prevall.

Mrs. Philip Hart and Miss Dorothy Hart of Orlando were Sunday guests at the I. D. Hart home on Geneva Avenue.

A. Corpany and B. H. Squire were in Tallahassee and other points in the western part of the state on a recent business trip.

Mr. and Mrs. J. F. McClelland and family have moved from Celery Avenue to French Avenue, having bought a home there.

Miss Irma Lee Mickle has returned to her home in St. Augustine after a two week's visit with Mrs. Herman Middleton.

Mr. and Mrs. Joe Cameron and Miss Eleanor Cameron are now residents of Daytona Beach, having bought an attractive home there. Miss Eleanor attends school in Daytona.

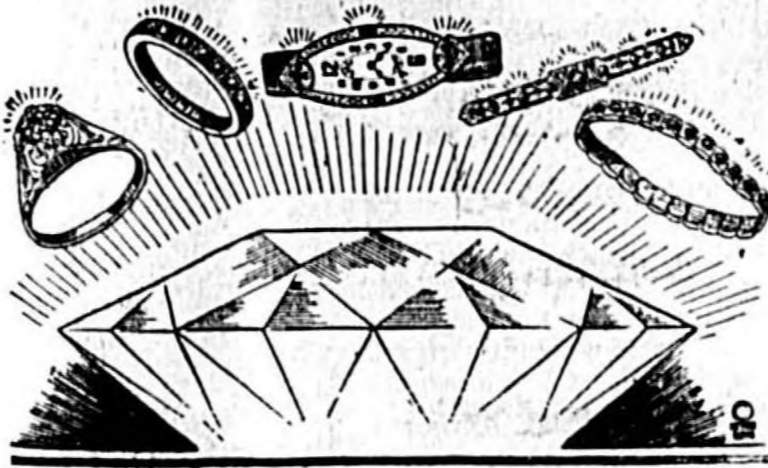

The death of Mrs. B. W. Harriett occurred last week. Mrs. Harriett had been ill for a year but not seriously until a few days before her passing.

Besides her husband, she leaves five children, the oldest a daughter of 16. Mrs. Harriett's father and brother came from South Carolina to attend the funeral services which were held Sunday from the undertaking parlors. Burial was at Lakeview Cemetery.

MYSTERY PLANE TOTAL WRECK AS RESULT OF CRASH

Supermarine Napier S-4 Hits Ground During Trial Flight and Pilot is Suffering From Immersion and Slight Shock

BALTIMORE, Oct. 24.—(P)—The supermarine Napier S-4, crashed Friday morning during the navigability trials and is a total wreck. Captain Henry C. Biard, the pilot, is suffering from immersion and shock but escaped injury.

Captain Biard had just taken off for the navigability and seaworthiness trials and was at an elevation of about 200 feet when a wing flutter apparently developed in both wings of the monoplane. Captain Biard attempted to land at once. As he struck the water the supermarine nosed down and somersaulted on her back, pressing the pilot under the surface.

Captain Hubert Broad, who had taken the British Gloster-Napier 3rd out for her tests a short time before, seeing Captain Biard in trouble, starting taxing toward him as he fell. When Captain Biard freed himself from the wreckage Capt. Broad threw him a second life belt to which he clung until rescue later.

R. J. Mitchell, designer of the supermarine Napier S-4 declined to comment on the crash until he had an opportunity to inspect the wreckage. He said he feared not much could be learned because of the extremely shattered condition of the supermarine.

The supermarine's splintered pontoons were taken to the hanger runway in a launch and the broken body was towed to the Bay shore pier head by a coast guard patrol boat, where it lay awash.

Practically all of the remains of the once-powerful and flashing supermarine had been recovered yesterday afternoon.

Three Narrowly Miss Death In Plane Fall

MIAMI BEACH, Oct. 24.—(P)—Three men narrowly escaped death when a seaplane in which they were flying low over the steamship H. F. Alexander, crashed down into the Atlantic Ocean this morning. The men were Cal Latham, commercial flyer, H. S. Willoughby and Alfred O. Wickam, newspaper men. The plane was wrecked.

The Dead Lakes; the largest apertures in the world; and large tobacco plantations under shade are located in Calhoun county.

FLORIDA FACTS

By a treaty signed in 1763 Spain ceded to Great Britain east and west Florida in exchange for Havana and the west part of Cuba. In the same year the king of England issued a proclamation dividing Florida into east and west Florida. East Florida extended from the Atlantic coast to the Appalachicola river. West Florida extended from the Appalachicola river to the Mississippi river.

The first English governor of East Florida was General James Grant.

In 1763 also the city of Pensacola was first laid out, as a city with streets at right angles. The blocks were 400 feet by 200 feet.

Forty thousand acres of land by grant were obtained by Dennis Rollin in 1765 along the east side of the St. John's river, just south of the present site of Palatka. Rollin established the village of Rolliston here by bringing settlers from the English colonies.

In 1765 the English built the Kings road from Fort Barrington to Augustine. Public spirited men of Florida subscribed to the fund for its construction.

NOTICE TO CONTRACTORS AND BUILDERS

Bids will be received by the Board of Public Instruction at ten o'clock on Tuesday morning, November 3rd, 1925, at the court house, for the construction of two rooms at the Sanford West Side Primary school. Plans and specifications may be obtained from architect Elton J. Moughton, First National Bank building. All bids must be sealed and accompanied by certified check in the sum of One Hundred Dollars.

be shadowed by secret service men, consequently, when the chief of "potential safety service" was transferred to other functions, M. Doumergue hoped devoutly that he would not be replaced. He said as much to M. Schramek, minister of the interior.
 But that dignitary held up his hands in holy horror. "Ah, no, Mr. President," he exclaimed. "It is I, not you, who am in danger. I am responsible to parliament for the safety of your person. If anything should happen to you, I would be interpellated on it in the chamber and undoubtedly forced to resign. Thus, you see, any casual-ty to you would be a double one."
 M. Doumergue thought awhile and finally exclaimed:
 "Ah, well, I suppose the service of security has got to go on then. But I can see now that it's your security, not mine, that is being assured."
 "Anything to stay in Paris," and "anything to get back to America," are slogans equally responsible for a sudden increase in American representation in the dish-washing profession and in the park bench lodgings here. There is a real class distinction between the two, however, and the "anything to stay in Paris" group is refusing to give aid, comfort or sympathy to the "anything to get back to America" members, whom it professes to scorn.
 The record number of American tourists during the past summer has left a record number of stragglers behind. The charm of Paris has captured some of these; the desire to see a little more of Europe than the budget originally called for has left others stranded. When starvation comes a little too close, they seek out the American aid society. The society's waiting list for employment or transportation now totals 400, though they are not quite so select as the other "four hundred."
 "I tried to sell pumps to French farmers," said a naively, if shabbily dressed young man yesterday, "but they don't take to the things like the Americans. I thought I could pay my way around Europe but now it's the park bench." Work is scarce now and money for transportation is scarier. It looks like a cold, sad winter, whether these belated adventures want to go or to stay.

though neither Drost nor his medium had ever seen Calbe, the medium, on being put into a trance, described exactly the clothes-line on which the laundry was suspended when it was stolen, the kind of clothes pins used, the character of the clothes on the line. The owner of the missing laundry did not himself know all these details, but they later proved to be true. The medium next named the thief and the place where the laundry was hidden. The thief was caught and confessed. This is said to be only one of several cases of clairvoyance conducted by Drost and his medium which are puzzling the experts.
 The consumption of cordials in Germany today is only one third that of pre-war days, according to a confidential report compiled by one of the leading distilleries. During the last few years before the world war the average annual consumption of cordials for each head of population was more than three quarts.
 The principal reason for this decline is economy, as the prices of liquors are now too high for persons of moderate means. This retrogression in the consumption of heavy drinks is somewhat offset by the fact that light wines are being consumed more than before the war, owing chiefly to the low prices of wines imported from countries in which the currencies have depreciated, such as France.

PARIS LETTER
 PARIS, Oct. 24.—(P)—After nearly 2,000 years, an arena built by the Romans in Paris for their circuses and gladiatorial combats returned to something like its original use today, when a bull fight show opened. It has been advertised as a spectacle equal in splendor to the shows in the royal arenas of Seville and Madrid, with the most eminent matadors of Spain taking part. It was also advertised that the bulls would not be killed. The event has been organized by the press of Paris for the benefit of soldiers wounded in Morocco. The French red cross operated in staging the affair. Prices for seats ranged from 400 francs for a box holding four persons to 20 francs for a seat on the stone tiers.

BERLIN LETTER
 BERLIN, Oct. 24.—(P)—"Marries" are in high favor among the stage directors of Berlin. Not only is the popular refrain of the American operetta, "Rose Marie," winning nightly applause in numerous music halls, but the Thalia theater is now presenting "Anne Marie"; at the Grosse Schauspielhaus "Marie, Marie," is the chief musical hit of a revue entitled "For You"; in the Comische opera, where "From A to Z" is being played, a song called "Goodnight, Marie," closes the performance, and at the Admiral's Palaste an amorous swain adoringly sings "You Have the Most Beautiful Neck, Marie."
 "Who is going to rescue us from this epidemic of Maries?" is the question raised by one of the Berlin newspapers.

Japanese Clerks In New Political Party
 TOKYO, Oct. 24.—(P)—Formation of a strong Clerical Party that would participate in the coming elections at which more than 9,000,000 new voters will ballot, is reported to be supported by priests of the Nichiren sect, a militant Buddhist group. An obsolete police regulation prohibits religious workers from joining political parties in Japan. The Nichiren sect, composed of 23 different groups, has approximately 3,000,000 followers.

The hair bobbers of Paris are prolific these days in the excuses they offer for the use of women who to pacify husbands who do not take kindly to short hair. The latest such excuse is the danger of wearing combs and pins made of inflammable materials. This excuse is fortified by a movement in England against the sale of all sorts of toys and playthings for children made of combustible substances.
 If the husbands persist that not all combs and hairpins are so made, the answer is that metal is too heavy for such purposes and induces headaches, and that tortoise shell is so expensive that only millionaires can afford it.
 Frank Elliott, assistant commissioner of police in London, who recently spent a week in Paris studying traffic laws in the French capital, cheered Paris by this comment:
 "Paris is a young girl with a fresh complexion that denotes good circulation, whereas London is a cross-faced old lady who must put herself on a diet. Paris, I might add, seems to have been designed by a great artist, while London appears to be the work of a futurist.
 "The only solution for London's traffic problem would be another fire like that of 1666, and I am not too hopeful, even about even that, because the London fire department is too efficient these days ever to let a blaze get any headway."
 President Doumergue, like most of his predecessors as chief magistrate of France, does not like to

DAYTONA Shores PLATS AND PRICES are ready now

The announcement of Daytona Shores is decidedly the Red Letter day in the entire history of the Halifax Country.

The first unit of Daytona Shores is open for reservation. The first offering is the Causeway Section. This Section touches the Ocean on the east both sides of the East Dixie, both shores of the Halifax and both sides of the Dixie Highway.

Think of it—one section with all these advantages of road and natural waterways. Most decidedly they are advantages which are necessarily confined to this one development. In addition to having great desirability the **FIRST UNIT** is

sharply **UNDERPRICED**—deliberately so by the directors of Daytona Shores who feel that the best way to advertise is to have people make money **AT ONCE**.

Already several syndicates have been formed to buy into the **FIRST UNIT**. Daytona Shores is getting the shrewd investors—many of whom have made fortunes in the **FIRST UNITS** of other large developments—in Coral Gables, in Miami Shores, in Hollywood and Davis Islands.

To say that Daytona Shores is to be an unusual development is to put it mildly. We propose to make it one of the **TRULY GREAT THINGS** of all Florida.

The Plats and Prices are ready now. Our representative will give you complete information. We urge, however, that you see them at once as there is no doubt: Daytona Shores will be heavily oversubscribed!

RESERVATIONS ARE BEING ACCEPTED TODAY

W. N. MacADAMS,
Boulevard, Corner Rich Avenue,
DeLand, Fla.

Please send me information regarding the investment possibilities of the first unit (Causeway Section) of Daytona Shores.

GATORS FAVORED IN WAKE FOREST STRUGGLE TODAY

Record Crown On Hand for Big Homecoming Event; Florida Tapers Off After Week of Hard Struggle

GAINESVILLE, Oct. 24.—(AP)—On the eve of Florida's biggest football game at home, Gatorland tonight was paced with hundreds of alumni and visitors who have thronged the city to help celebrate annual "home-coming," and to witness today a battle of the gridiron that promises to be a colorful and bitterly contested struggle for supremacy.

Wake Forest, with a squad of twenty-four "Demon Deacons," arrived in Gainesville Friday and enjoyed a light workout on the scene of today's conflict.

Florida concluded a week of vigorous work with only a light practice. Coach Seligson has brought his squad into good physical condition, but has not had sufficient time to really prepare for the invasion of the champions of North Carolina, who have held that title for the past two years.

Fleming field today should house the largest audience of the 1925 season. More than 8,000 persons will be on the field when the rival elevens trot their lineups into action. The ticket sale has been the heaviest in the history of Florida football. Boys of the old school, many of whom have not been here in years, have returned this week to gaze upon a transformation that hardly seems possible.

Wake Forest comes with three of the finest backfield men in the entire state of North Carolina. Captain "Greasy" Gresson, a veteran star, will be at half, with Ober, a freshman phenom at Wake Forest last fall. Karstenkint, brilliant full-back, and Backley, North Carolina's leading signal caller, round out a quartet that Coach Garrity is planning hopes of victory upon. Emerson, all-time center, has moved over to tackle, where his work is unusually good. Riley and Daniels will guard the wings, Johnson will be at right tackle. Lentz and Martin are carded to start at the guard positions, with Woodward snapping the cowskin.

High's Bat Slugs Nationals To Win At Daytona Beach

DAYTONA, Fla., Oct. 24.—(AP)—The phenomenal hitting of Andy High brought the major league All-Star series here to a close Friday as the most conspicuous feature. The National League entry won under the leadership of Dave Bancroft, Walter Johnson American League outfit being beaten by 8 to 1.

High, recently sold to Boston by Brooklyn, smashed nine hits in ten times at bat during the two games series. Walter Johnson worked five innings for the Americans, being found for ten hits and six runs. The pitching of young Henry Johnson, Yankee recruit from Sarasota, was a feature for the Americans. He allowed but four hits and one run during his stay against the slugging Americans.

Score by Innings:
Americans 000 100 000—1
Nationals 001 050 20x—8
Batteries: W. Johnson, Buckeyes and Cochrane, Perkins, Porter; Rudolph, H. Johnson, Hemmiller and Taylor.

Jim Barnes Signs As Tampa Mentor For Winter Season

TAMPA, Oct. 24.—(AP)—Jim Barnes, British open golf champion, will make this city his winter habitat, representing Tampa in the major tournaments to be held in the South next January, February and March. Announcement of the re-engagement of the veteran of the links was made today.

Barnes ranks with Walter Hagen, in holding important championships. These two are only golfers who have ever held both the American open and British open titles, as well as the American professional championship. In addition, both have held the Western open crown, Barnes three times and Hagen twice.

In 1921, Barnes won the U. S. open championship by a nine-stroke margin, finishing with 289 strokes as against 298 scored by Hagen and Fred McLeod, who tied for second. Last Summer Barnes lifted the British open title, nosing out Ted Ray and MacDonald Smith on the final round, after starting the last eighteen holes five strokes in back of Smith.

Seals Even Series As Colonels Drop 2nd Game On Coast

SAN FRANCISCO, Calif., Oct. 24.—(AP)—The Frisco Seals, champions of the Coast League, pounded three Louisville, A. A. Champs, hurlers for a total of eighteen hits and nine runs in the second game of the nine game series the teams are playing. Williams held the hard hitting Colonels to five scattered hits and two runs, the lone Frisco error paved the way for the runs. By winning this game the Seals made it one all.

Score by Innings:
San Francisco 9-18-1
Louisville 2-5-2
Batteries: Williams and Agnew; DeBerry, Wilkinson, Dawson and Meyer.

GRID CARD TODAY HAS DIXIE TEAMS IN RATING FIGHTS

Southern Conference Elevens Stand Or Fall In Championship Standing In Games Today; Tech-Alabama Star

NEW ORLEANS, Oct. 24.—(AP)—Eyes of Argus are needed by Southern football fans today to follow a card filled with games having possible direct bearing on the Southern Conference championship. Sixteen conference members are scrapping among themselves to improve their standing. In the eight games represented by the quadruple in quartet rivals of years are engaged.

Tulane, in a game with Northwestern at Chicago, sends its Greenbacks against the purple with the weather apt to play an important part.

Alabama against Georgia Tech in Atlanta should be an even choice. The Crimson enters the game with the prestige of a championship brought from last season, and the Yellow Jackets are off to a flying start in this year's race.

No quarter will be asked or given in the game between Washington and Lee and Virginia Polytechnic Institute, an unusual affair for Lynchburg.

"Ole Miss" and the Mississippi Aggies will have a colorful setting for their game before a fair week crowd at Jackson.

Georgia nosed out Vanderbilt last season with a field goal and advanced to the finals in the conference race and today's game at Athens may well be equally close. Tennessee and Louisiana State meeting at Knoxville.

Virginia meets Maryland with the Cavaliers given a slight edge. Sewanee and Kentucky meet at Lexington with the Tennesseans and Wildcats all even.

North Carolina State and V. M. I. seem fairly matched at Richmond.

Wake Forest will give Florida food for thought on the showing of the Deacons thus far. Auburn should defeat Howard and North Carolina is an odds-on favorite over Mercer.

Yours, BILL.

BUILDING COSTS

HON. ED. WALTHALL, Care Semole Hudson-Exxon Co., Sanford, Fla.

Dear Ed: What this country needs in addition to a good five-cent cigar and a toothpick that is not cut on the bias, is an architect who can draw plans for a house that will cost somewhere within 100 miles of what he estimates it will cost.

No instance is on record of where any architect ever drew a plan for a house which was built for the amount of money the builder expected his house to cost him.

A man's wife will argue him into building a new home. He will check up on his resources and have a heart-to-heart conference with his bankers and will decide that he can put \$10,000 into a house.

He then goes to an architect. "Can you design me a home containing a bedroom, a bathroom, a kitchen and a roof that I can build for \$10,000?" he asks.

"Sure," declares the architect with a conviction that knocks the man completely off his guard. "Leave it to me."

In a few weeks the plans are ready. They look very attractive, all colored up and showing the house in a setting of flowers and scrubbery. The misses is tickled pink.

Then the plans for this \$10,000 house are turned over to a dozen contractors and the lowest estimate that is received is \$39,273.20, not including the plumbing and electric wiring, plastering, painting and hardware.

The architect is consulted. The only thing to do is to cut down on the house. But the misses can't see it that way. She argues that she is obliged to have a bedroom, and she can't go without a kitchen, and a bathroom is an every week necessity, and the house has to have a roof.

So the man who started out to build a \$10,000 house gets out for something under \$50,000, which he spends the rest of his life paying.

That's one of the many advantages of buying an automobile. You know just exactly what you have to pay, and when you buy an Essex you know you are getting a full 100 cents worth for every dollar you invest.
