Library Notes
The magazine table is well stocked this year, through the generosity of contributing friends and subscription.
A borrower's card costs \$1 yearly, or 30 cents quarterly. Add 25c to the yearly card, or 10 cents to the price per quarter, and you can have the reading of all the magazines in list and the books.
Century, Harper's Monthly, Scribner's Literary Digest, American Review of Reviews, Current Literature, Outlook, American, Pearson, Cosmopolitan, Everybody's, McClure's, Ladies' Home Journal, Woman's Home Companion, Red Book, Scientific American, Saturday Evening Post, the Standard Baptist Weekly, the Congregationalist, the Christian Science Journal, Child's Magazine, St. Nicholas, Conductor's Magazine, System, Business Magazine, Sanford Herald, The Geographical Magazine, given by Mr. M. F. Robinson, is a recent and valuable addition to the list. It is a monthly, published by the National Geographical Society, "for the increase and diffusion of geographic knowledge." It is finely illustrated.
Three books were contributed by Mrs. R. S. Keeler this week. "The Fighting Chance" by Robert Chambers.
"The Circular Staircase" by Mary R. Rhinehart. Those looking for excitement will find a thrill in every chapter. Mary Rhinehart is the author of "The Man in Lowes Ten."
"Paid in Full" by Eugene Walker. A story of Modern American life, novelized from the play by John Fordling.
Library Hours—Tuesdays 4 to 6 p. m. Saturdays 4 to 9 p. m.

Miss Corinne Keene has returned from a trip to Coronado beach.
Russell Wood, of Jacksonville, has been a recent visitor to Sanford, the guest of his friend, Edwin Collee, at their Park avenue residence.
Miss Mamie Lucious, of Leesburg, is a pleasant visitor to Sanford, the guest of her cousin, Miss Leola Evans.
Mrs. W. D. Leese, of Sanford, spent Sunday in Oviedo. Mr. Leese is taking care of the Oviedo and Sanford train while our own, B. G. Smith is away on a much needed vacation. Mr. and Mrs. Leese are very much pleased with our thriving little town and we are very glad to have them with us if only for a short time.—Oviedo Advance.

M. A. Mlot and family, are now comfortably situated in their fine new home on Sanford Heights.

Mr. and Mrs. W. L. Hilliard of Sarasota are among the recent acquisitions to Sanford citizenship. Mr. Hilliard is a regular member of the Welborne Barber Shop force.
Born to Mr. and Mrs. W. W. Abernathy a fine baby boy.
Mrs. M. L. Allen left for New York Saturday, will be away three weeks to lay her fall and winter stock. Wait for her.
George W. Venable and family have moved into their handsome new residence at the corner of Sixth street and Elm avenue. This home was built by Mr. Venable and is an ornament to that part of the city.
Sanford is to have a summer colony at the south end of Coronado Beach. The lots are to be 50x150 in three tiers and intersected between second and third tier with a shell road 100 feet wide. Prices of lots at present are \$25, \$50 or \$100, according to location.—Orlando Sentinel.

Mr. and Mrs. David Speer and Will Sieg of Geneva were in the city on Tuesday. Mr. and Mrs. Speer were enroute to Georgia for a visit.
Mr. and Mrs. W. P. Carter and son have returned from a trip to the beach.
Mrs. R. S. Davies and little son have returned from a trip to Coronado Beach.
Mrs. Walter B. Clay and children have returned to their home in Arcadia, after a pleasant visit to the beach.
Mrs. D. L. Thrasher and daughter, May, left Friday for Hendersonville, N. C. Mr. Thrasher left Saturday to join them at the same place, going through the country in his Cole "30" car.
5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c. 37-7
Place the tiles to your real estate in the Realty Trust Company and avoid complications. For particulars address B. F. Whitner, Jr., Secretary. 7-7f
Sweetest line of Go-Carts in the city. Sanford Furniture Co. 35-1f
At Long's grocery you get best grad Elgin butter on ice. 44-1

THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 3

SANFORD, FLORIDA, FRIDAY, SEPTEMBER 1, 1911

Volume IV

ALL AROUND FLORIDA

The General News of The Land of Flowers.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Work has begun on the dredging of an inside channel between Tampa and Clearwater Harbor. It is estimated that this work will be completed in nine months and that the total cost will be \$30,000.

A 1-mill levy on all the taxable property in Fort Myers is proposed by the board of trade as a method of raising a fund for the purpose of advertising to the use and advantage of Lee county.

Seal Andrew N. Dow, of Company D, First Infantry, of the National Guard of Florida, and a member of the Metropolitan Guard of Jacksonville, made the remarkable score of 148 out of a possible 150 points at 200,000 and 1,000 yards in the national individual shooting match at Camp Perry, Ohio, a few days ago. Sergt. Dow will be awarded a handsome gold prize offered by the War Department, and a large cash prize for winning this victory. He competed with the best marksmen in the United States.

Oscar Stuckey, the fighting giant, makes his first appearance in public in Ocala, his home town. The announcement is authorized by his father, A. P. Stuckey, that on the Saturday evening Oscar will fight a six-round bout with Frank Lastinger of New York. The fight will be held on the stage of the Temple theater. An admission fee will be charged, and the affair will be fully advertised.

Made \$2,364.43 From Two Acres

The advantage of a small area sub-irrigated and properly cultivated is best shown by the results achieved by one of our Sanford planters who reports having made a clear net profit of \$2,364.43 from the operation of a two acre farm for the season 1910-1911. The gross receipts from the crops marketed amounted to \$3,345.19, the number of packages shipped reaching 2,323, having a weight of 66,710 pounds.

The products consisted of:
Lettuce, 430 baskets..... \$ 812.55
Celery, 729 crates..... 975.83
Beans, 32 baskets..... 24.98
Cucumbers, 29 baskets..... 24.47
Egg Plant, 53 baskets..... 48.78
Sweet Peppers, 1,014 crates..... 1,376.29
Cabbage, 36 crates..... 36.47

Total income from vegetables..... \$3,300.19
Plus three tons of hay at \$15..... 45.00
Total income from all sources..... \$3,345.19

Expenses for the season:
Fertilizer, 10 tons at \$42..... \$420.00
Crate material and seeds..... 170.76
Labor and packing..... 890.00

Total expense..... \$ 900.76

Total net profits earned..... \$2,364.43

Preparations for the first crop was made September 1, 1910, the last shipment being made on the 8th of July, 1911. The Sanford season runs from September to September. The land was old and well sweetened, having been in cultivation a number of years. It was in a perfect state of fruitfulness. The system of irrigation was scientifically installed. The field will produce another cutting of hay before the coming season's crop is planted. The income amounted to 200 per cent more than the yield and was equal to 14 per cent earnings on the valuation of the property. The farm is located at Apopka, a suburb of Sanford, and the farmer and his wife reside on the place.
THOMAS K. HATZ

G. W. Spencer for Mayor

In this issue the first gun of the campaign is fired in the announcement of G. W. Spencer for mayor. Mr. Spencer needs no introduction to the people of Sanford having lived here for many years built up a good business by his own endeavors and close application being one of the most successful men in the city. Mr. Spencer announces early to the voters that he will finish the race from start to finish and will have more to say later on.

GROWERS' PICNIC SOON

Will be Held at Beck's Park, Cameron City

The Growers' Picnic for this year promises to be the best ever. Arrangements are being made for a bigger and better picnic than has ever been held by the farmers of this section.

The location has been selected by the committee for that purpose who have decided upon Beck's Park at Cameron City as being the best possible place for the event. The committee was composed of growers equally divided throughout the Celery Delta and the choice was made after careful consultation on account of its being easily accessible to all. The park is near the car line and Manager Connolly promises good car service to and from the grounds.

The date will be near the middle of the month but is to be decided later at the convenience of the speakers.

Committees for the event will probably be Hon. Frank Clark, Congressman from this district and Prof. J. J. Vernon of the Florida Agricultural College. These gentlemen have agreed to come if wanted. This is to be decided later.

Committees are arranging for a fish fry and a grand time is expected. Plenty of music and games will be provided for the amusement of young and old. A potato race was suggested but the finance committee declared that at the present price of spuds it would be necessary to issue bonds and the idea was dropped. However those who attend will not be disappointed for the Farmers of this section are men who "Do Things" and from the outlook this will be a fair example.

A meeting will be held Saturday at 2:30 p. m. at the office of the Howard-Packard Land Company and all interested are invited to attend.

Bridge at Geneva Ferry

The time has come when the money for this work is needed, every merchant and every property owner and financial institution in Sanford should subscribe liberally to this work and pay up. The contractors have been working on the bridge at Geneva ferry for some time and they now need money to enable them to continue the work. The committee appointed by the Commercial Club is asking all who have subscribed to pay up promptly. The money will be needed Saturday of this week.

There are several business houses that have not subscribed, if you have not contributed anything for this work you should do so now. The committee will appreciate it if you will send a check for the amount you are willing to subscribe to the Secretary of the Commercial Club. Please state on the check that it is for the Geneva Bridge.

Three New Towns

The past week brought out the development of three new towns, each promoted by experienced home builders. Lake Wales is to be located on the new Atlantic Coast Line railroad branch now being constructed from Haines City to Avon Park, and is on the shore of picturesque Lake Wales. The second town is that of Star Lake, about eight miles east of Hartsow. The third town touches Sanford, being that of Kalamazoo, on the street of the Howard-Packard Land Company's Volusia Farms, across the river. This town will run from the St. Johns river north to the East Coast railroad and on account of the river's high bank at this point is favorably situated for an attractive resident resort.—St. Cloud Tribune.

SANFORD'S DEEP WATER

Dredges Will Soon Be Working On Monroe Channel

ENGINEER FORCE PROGRESSES

Sanford Will Soon Have Ten Feet of Water to Jacksonville For Service of Steamers

All things come to pass finally! Like the elimination of the coal chute and the improvement of the lake front the talk about deep water for Sanford was said to be a bunch of hot air and would never come to pass.

But with the advent of the force of government engineers and the dredge boats actually doing the work, even in the estimation of the oldest inhabitant, Sanford is really making good along every

Capt. Sharp informed the Herald that the other day that his force was busy cutting off the numerous bends in the river just north of Sanford and in a few weeks they would start work on the lake channel. The cutting of the banks will not only mean a good deep channel but a straight one thus shortening the distance from Sanford to Jacksonville by many miles. In time our city will have schooners from Baltimore, New York and other eastern ports tied up at our wharves unloading merchandise, fertilizer and other commodities that now suffer the extra tax of railroad rates and the dream of The Herald for a city of twenty thousand people will be realized.

All things come to pass if you just pull hard enough.

MAY HANDLE VEGETABLES

Chance of Sanford Ass'n and Citrus Exchange Getting Together

It looks now as if there is to be an addition, virtually a fusion, between the Florida Vegetable Growers' Ass'n and the Florida Citrus Exchange, by which both vegetables and citrus fruit are to be handled. This co-operative combination, if effected, will have an important bearing on the future marketing of Florida produce and will also make business and open office the year round. The News is in receipt of the following letter from the Board of directors of the Florida Vegetable Growers' Ass'n:

"Regarding the affiliation of the Florida Vegetable Growers' Ass'n of Sanford, with the Florida Citrus Fruits Exchange in the marketing of fruit and vegetables and in all matters that tend to the benefit of producers and consumers of Florida fruit and vegetables, we will say that negotiations are now pending with that object in view. We favor co-operation in the broadest sense of the word, and believe that no State in the Union is in so favorable a position, and condition for practical co-operation as Florida is in the production and distribution of fruits and vegetables. And so co-operation is, in our judgement, the solution to all the serious problems that confront producers and consumers. As is being proven in all parts of the country, where earnest and thorough co-operation has been put into effect, we hope to see Florida a solid unit in this matter within the near future.

"In a former article in your paper the operations of this Ass'n for the past year were set forth. We are so well satisfied that we are pursuing the right course and have such encouragement from our membership that we wish to endorse most thoroughly State-wide co-operation.

J. H. Tucker for Treasurer

J. H. Tucker was in the city on Wednesday and announced to his many friends that he was in the race for county treasurer. Mr. Tucker is well known in Orange county, where he has spent his entire life and he numbers his friends by his acquaintances. He is making a campaign strictly on his merits and no man can say anything but something good for J. H. Tucker.—He, 201-106 each vote personally before the primary.

Engagement Announced

Mr. and Mrs. Lytle J. Hunter, of 19 Florida Glass Building, announce the engagement of their daughter, Elsa Francis, to Norman Sperry DeForest, of Sanford, Florida.—Flushing (N. Y.) News

In an opera bono game of ball at the park yesterday between the Regulars and Cuba the score was a stand off.

DREAMS, A'LA TROLLEY

A Look Into The Present and Future By The Citizen

For many years Orlando dreamed of a trolley or traction railway, connecting the city with the delightful St. Johns waterway, circling the many beautiful lakes, putting the city in touch with the attractive suburban villages and bringing thousands of visitors and trades-people, as well as prospectors and settlers to the city.

The dream seemed almost a probability a few years ago, when the route was actually staked out from Winter Park along the east road to Orlando. This dream passed away. Friend Mahlon Gore dreamed of the beautiful prospect of a line that should connect beautiful Lake Conway and Gatlin with Orlando. He pointed out the great benefit to be derived by Orlando citizens from having so delightful a resort as Lake Conway. This dream failed to materialize.

The dream faded fondly of a traction line through to Kissimmee. Beautifully colored pictures were painted and brought to view. The railway was to skirt lake after lake and houses and towns would spring up as by magic. It was a good dream. The promoter with the money came on the ground. It seemed like coming true. But—

This dream faded away. "Trolley Holly," with sunny disposition and hopeful energy arrived on the scene and the Reporter-Star bristled with his dream of a great trolley system. He dreamed and dreamed and got tired waiting and moved to Sanford and brought it to pass in that stirring town. This Orlando dream was realized in Sanford. Think of it!

For months again all Orlando dreamed. The Citrus Southern project was greater than all that preceded it.

Sanford having already the traction system, with a prospective through route to Orlando gladly grasped another opportunity. Winter Park grants a franchise very gladly along its main street.

Kissimmee welcomed it with open arms—even the new town, St. Cloud, joyously extended its best and hoped the work would start there. Orlando continued to dream, but it was rudely shattered by anti-traction talks.

A Look Ahead—Two Years Later

Conversation of Brown of Kissimmee, and Seath of Detroit.

"I say Smith, when did you arrive in Kissimmee?"

"Oh I came yesterday over the Citrus Southern."

"Well how'd you enjoy the trip?"

"Finest trip of my life. I had heard of the wonderful St. Johns river trip and the beautiful lake region section of Orange county and the famous town of Orlando. So I bought me a ticket and boarded 'The City of Jacksonville,' and such a grand river trip I never imagined. I looked at Sanford and was much impressed by the activity of that section. I was minded to stay there. But I must see Orlando and die." I boarded the traction car over the Citrus Southern and it was glorious. The line traversed all that beautiful country about Altamonte, Maitland and Winter Park and then along the east route to a town I could see off to the westward and passed through 'Jonestown' a negro settlement, and around through the fine Conway section. And about that time I said to the conductor, 'When do we arrive at Orlando, Uk beautiful?'

Said he, 'Why we passed it long ago.' 'How's that, said I. 'Why, the city side struck the line and the nearest we touched it was Jonestown.'

'Just so,' said Brown, 'that's the way of it, and that's why all this valley is filled up with people that might have stopped off at Orlando. You see, instead of going through the real interesting part of Orlando the road was pushed off to the outskirts and so every body passes on through Jonestown, the negro settlement which is about as they see of Orlando, and so finally they get in Kissimmee.'

'Well what do you think of that,' said Smith.

'And Orlando, sleep and dreams—Orlando Citizen.

Date of Opening Schools

Sanford schools will open this year on Monday, October 2, which is about one month from date. This has been decided upon by the board as every one will have returned to Sanford by that time and many of the winter visitors will have arrived to place their children in the schools of this city which are acknowledged to be the best in the State.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here, the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Attorney Smith, chief counsel for Henry Clay Beattie, Jr., in the latter's trial for the murder of his wife near Richmond, Va., yesterday morning put a quietus on the rumor that the defense would ultimately resort to a plea of insanity in defense of the prisoner. He announced that under no circumstances would such a plea be entered, and that it was the defense's announced intention to ask that the court have the jury visit the scene of the tragedy. He added that cause a delay in the matter for several days.

Tentative plans for the dissolution of the American Tobacco company, the big trust which for so long a time has been matters in the tobacco business, were discussed at a preliminary conference held in New York yesterday.

Mayor Rhett is directing the work of rehabilitating storm-stricken Charleston. Yesterday morning the revised death list was given as seventeen. Property damage is conservatively estimated at \$1,000,000, which is exactly the first estimate. Many well-posted persons are of the opinion that it is really considerably greater.

The Atlantic revenue cutter fleet at Washington was yesterday ordered to remain at sea and follow the path of a second storm which it is predicted, will break over the Atlantic coast and move southward toward Cuba.

President Taft's "keynote" speech, delivered at the home of Representative Gardner, in Massachusetts, proved immensely gratifying to the Democratic and insurgent Republican members of Congress, for they were quick to see that in this speech the President placed himself on the defensive, and apologized for his part in the special session of Congress, just closed.

Spraying the Orange Trees

J. S. Thrasher and his force of men are making Sanford their headquarters while engaged in demonstrating the efficacy of Thrasher's Germ Killer in destroying the white fly on the orange trees. The operators certainly understand their business and after trimming up the trees to enable the air and sunlight a better circulation through the branches, the trunk of the tree is thoroughly scrubbed with a brush and the Germ Killer taking off all the scale and making the tree clean and smooth. The tree leaves and branches are then thoroughly sprayed by the Germ Killer and the fly promptly rises up the trunk. There is no doubt about the deep having the desired effect and any one wanting a demonstration to that effect can see Joe Garwood of the editor of The Herald.

Now is the time to spray your orange trees and get ready for a good, clean crop of fruit next season. Get a destroyer that can be demonstrated on the grounds by Mr. Thrasher.

Congregational Church

Services will be resumed next Sunday with preaching by Rev. C. B. Waldron, the pastor, both morning and evening. Labor Sunday will be observed at night and invitations are extended to all the labor organizations and brotherhoods of Sanford, also to all persons not members of such organizations. The subject will be "Justice to the Workingman."

Presbyterian Church

There will be the usual services at the Presbyterian church next Sabbath, Rev. J. F. McKinnon, pastor, will preach morning and evening. He will also preach the second Sabbath in September, thereafter till further notice. If are cordially invited to attend the services.

Notice to Growers

The committees who have charge of the arrangements for the Farmers' picnic and if any others who are interested will please meet in the office of the Howard-Packard Land Co., Saturday, at 2:30 p. m. Matters of importance are to come up at this meeting and a full attendance is urgently requested.
J. C. Rick,
Chairman.

BOYS' HIGH-CLASS NEW FALL SUITS

EVERY one of these suits is made from materials selected by a fabric expert. In selecting a fabric we require a dressy effect, as soft and as near as possible to a SPOT PROOF material, and in a color that does not SHOW DUST or retain lint. And above all, we require that the fabric must give long and satisfactory wear; must look good and wear well until the end. For the workmanship, we lay down certain rules that insure thoroughness—a strong stitching with a specially selected thread that will stand the playing strain of a strong, healthy boy; and in the modeling we require a degree of SMART STYLE that speaks for itself. The styles are DOUBLE-BREADED and SINGLE-BREADED Coats with full Peg Knickerbocker Trousers; Coats cut long with center vent in back. The suits come in Cheviot, Cassimer, Serges, etc. All the new fall shades in Grey, Brown, Tan, Olive and Blue Serges are here for you to choose from.

SIZES -- NINE TO SEVENTEEN

IN ORDER TO INTRODUCE THE LORD BALTIMORE

Brand of Boys' Clothing, we will give for the next thirty days, to every boy purchasing one of these fine suits, a Watch Guaranteed to keep perfect time one year.

CURBSTONE GLEANINGS

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Chief is Among Ye Taking Notes and Faith, He'll Prout 'Em—So Says Saunterer.

Special Correspondence to The Herald.

The following from Mr. W. D. Holden was sent to me this week.

EDITOR OF THE SANFORD HERALD:

The writer of "Curbstone Gleanings" has been playing the big bass in the evil chorus for several weeks past and, incidentally, he has made a good many foolish statements.

In two recent issues of your paper have appeared criticisms of the Commercial Club. I am perfectly positive that no contributing member of the Commercial Club will object to the organization of a live Board of Trade, headed by the author of "Curbstone Gleanings," or any other citizen of Sanford.

The statement has been made several times in "Curbstone Gleanings" that the council promised public improvements and public utilities to Sanford Heights. Coupled with this is the criticism that if Sanford Heights is not to have these improvements immediately, the property in that district should not be taxed. It is a fact that no city taxes will be levied upon any of the newly annexed territory, except the town of Goldboro, before the year 1912. These taxes will become due October 1st of that year, and any amount spent by the city of Sanford in Sanford Heights prior to that time must of necessity be borrowed from the funds of the old corporation. An obligation rests upon every person attempting to influence public opinion to state facts. Your writer could easily have informed himself on this matter.

Sanford Heights is not a separate entity, but a portion of the city of Sanford, and any resident of the Heights who believes that the present city council will do nothing for Sanford Heights because of jealousy is simply mistaken and doesn't understand the calibre of the men on the city council.

There is no reason why the council should spend money securing a certified copy of the new charter as it passed the legislature. This will appear in due time, issued by the public printer.

Of course, the reference to constricting the city limits to leave out the Crystal Ice factory is just plain "muck."

The Curbstone man should read up on the insurance business. His lack of information, or abundant misinformation, makes his criticism of the city council in that connection ridiculous. I call your attention to the fact that "the expensive toy" did come very quick and effective service since your criticism appeared. That sort of work will eventually have the effect of reducing insurance rates.

The trouble with the writer of "Curbstone Gleanings" is that he knows too much that ain't so.

W. D. HOLDEN.

I always like to hear from my loving friends because it shows that I ain't forgotten. The "big bass" from the "big boss" is most timely now that we are on the eve of another city election and there are so many fine points to be threshed out. My foolish statements are not as foolish as William Demagogue Holden when he rushes into print attempting to explain. He who attempts to explain is lost, and my dear friend Holden is no exception to the rule. He takes up the defense of every idea that has been promulgated by me for the past six months which demonstrates more than anything else that he is the self-constituted head of the city government, the Commercial Club, the Elks Club and the Big Club, and he walks the earth with a heavy ponderous tread that bespeaks ill for any who dare to cross his path. I was a member of the Board of Trade 20 years ago before Mr. Holden ever discovered Sanford and our labors for a better city were crowned with success, a success that would have been permanent had not it been for the blighting influence of the freeze. What I said of the Commercial Club was said in all fairness and I back up the statement, because I am a member with paid up dues. The Commercial Club needs more ginger and less hot air. Can you, Mr. Holden, dispute it?

I have nothing in common with Sanford Heights only that those people and every other part of the new territory is entitled to a square deal. If no taxes and no improvements are forthcoming until the year 1912, then I suppose those people will be forced to wade through mud and water and weeds until the year 1912. They could have helped themselves to these improvements and were better to have let them alone altogether until the year 1912.

I am glad you have informed me about the new charter being printed as I am

very anxious to find out where the boundary lines on the west side really are. My statement about the Crystal Ice Company may be "muck," but they say muck is good for growing things and Sanford being a growing city needs a little muck now and then but you haven't answered my question about the Crystal Ice Company being left outside the city limits. Can you answer it?

I expect you to defend the insurance company because you are interested in it and the purchase of the fire truck helps the insurance companies by making the risk smaller. Certainly my statement regarding the insurance rates is ridiculous. We are all of us ridiculous when seen through your glasses.

I have been a builder of Sanford long before you were thought of. I have helped to build the present city. I have helped the present city council and upheld their hands upon every occasion, when they were right but when they were wrong I have criticized you, gentlemen, just as I intend to do until the end of the chapter. The Saunterer stands for the people and for improvements and a better city. No favoritism is ever shown to any one not even to you, Mr. Holden.

If I could only be convinced that the lake front will be bulkheaded soon I could die happy. For twenty years this has been my dream and my hobby and now there should be any opposition to the course is beyond me. Our city will be built on a high and dry spot as the finest building is in this section. It will be the means of the erection of a fine new tourist hotel and will start numerous other improvements that will mean a Greater Sanford. We must go forward with these improvements or the city will have to take a back seat. In my mind there will be nothing done in the next ten years so vital to our welfare as the bulkhead.

The city council turned down the application of the citizens who wanted a white primary and I am rather inclined to think that they were right because I do not see where the city council could have a right to grant such a permission. The legal phase of this situation is rather tangled and I am not well enough versed legally to know whether the council could grant permission or pass an ordinance granting permission to the citizens to hold a caucus as they did last year or to hold a primary as they want to do this year. In my opinion the question can be easily solved by writing

to the other cities who are now operating a white primary and act accordingly. I am in favor of a white primary and have been all the time.

Feeling the need of good company I strolled out to the cemetery one day last week and the thought struck me while there that the city council ought to purchase the cemetery and put it in good shape. It is now under private control, belonging I believe to my old friend, T. J. Miller who endeavors to keep it in good shape no doubt, but say, I don't want to be buried in the Sanford cemetery when I die, not if it looks like it does now. The present location is too far from the city. The idea of the cemetery in the early days was to locate it where it would be high and dry and the idea was a good one, but the distance from the city is too great. My friend M. M. Smith has offered to donate a fine tract of land closer in and certainly some action should be taken in this matter. Many of us are getting old, and we can't tell when we will be taken, but I don't care to die until we have a better cemetery.

One of the worst needs of Sanford at present is a first-class tourist hotel and when I say a tourist hotel I mean a real

bona-fide article. The lake front improvements will be the means of countless tourists making Sanford their home—or at least they will want to live here if they can get accommodations. Of course Sanford is well supplied with small hotels and the Sanford House would be all right if the rooms were better and could be en suite with bath. But Sanford really needs a large tourist hotel and one will be built some of these days.

I was out at Woodland Park last week and was greatly surprised to find such a fine swimming pool, and beautiful grounds. My old friend, Schmelz, deserves a liberal patronage for his spirit of progressiveness. He has gone ahead and made all of these improvements imbued with the idea of the rapid growth of this section, and I am glad to see so many people taking advantage of this delightful place.

Funny instance that story of mine several weeks ago about the clerk who was too busy gassing to a lady to wait on me. Every clerk in Sanford dodged the blow, and called up the Herald office about the article except the one aimed at and it never touched him. Well, better luck next time. If he does it again, I will mention his name.

THE COLLEGE OF AGRICULTURE OF THE UNIVERSITY OF FLORIDA

The Farmers' College—Offers the following Courses in Agriculture:
 A Four-Year College Course A Two-Year Short Course
 A One-Year Short Course A Four-Month Farmers' Short Course
 A Four-Week Farmers' Short Course Fourteen Correspondence Courses for Home Study

Will you continue to teach in the hard school of experience what can be quickly imparted to you by men who have had both college training and practical experience on the farm?
 Make an investment that will pay dividends every year throughout a lifetime. For information address:

THE FARM GARDEN

By W. L. FLOYD
Professor of Horticulture College of Agriculture
Gainesville, Florida

No equal area of ground on the farm will prove a greater source of satisfaction and profit if properly managed than the vegetable garden. Too often it seems to be considered unworthy of the efforts of the men, being left to the care of the women and boys.

Well do I remember the little square garden of my boyhood home in a neighboring state, which my mother and I cultivated. It was necessary to make an opening in two fences that a wagon might be used to haul manure into it. Because of the trouble to do this it was done but once a year, manure needed at other times being brought in a wheelbarrow. The only horse implement used was a plow to break the soil in fall and spring, the short rows and small size making it impossible to use a cultivator to advantage. The hoe was the chief implement of cultivation, and there was always plenty of ground to hoe, weeds to pull and a "spade" hour from other duties.

If the garden had been long and narrow so that the cultivators used in the corn and cotton fields could have been used, a wheel hoe and seed drill provided, and gates so placed that a wagon could have brought in manure when needed, how much labor might have been saved.

For a family of six or eight the garden should contain at least half an acre. A good shape for tillage would be one 240 feet long by 91 feet wide. This will produce, if properly cared for, more than is needed for the table, but a constant supply is needed and the surplus is good for the cows, hogs and chickens. It is best to have the greatest length extend from north to south and the rows run in this direction as the sunlight so necessary for plant growth will then be more equally distributed to all plants.

Liberal applications of manure should be made, twenty two-horse wagon loads a year to the half acre will not be too much and 700 to 1,000 pounds of a complete fertilizer.

To secure strong healthy plants for transplanting there should be seed beds broken deeply, thoroughly pulverized and well fertilized, bearing in mind however that the soil into which the plants are set should be richer than the seed bed in order that the plants may make vigorous growth after transplanting. The beds should be convenient to water, and given partial shade in hot weather.

Suppose we begin our gardening year in September, we may plant the first of the month in seed beds, lettuce, celery, early cabbage, and onions; in the garden, rows of turnips, rutabagas, radishes, mustard and rape. Later in the month and also in October we may plant English peas, beans, collards, spinach, carrots, beets and Irish potatoes, using home grown seed. Through October, November and December we may set plants from seed beds as they become large enough to transplant, and make successive plantings of crops previously mentioned except onions, Irish potatoes and English peas.

In January and February we may start tomatoes in cold frames, which may be cheaply made by constructing a box like structure of rough boards 6" to 30" thick high on the north side, 12 to 16 acres to support a canvas cover kept rolled up at the top so that it may be pulled down quickly when needed. Earth may be banked against the boards on the outside to keep the frame warm. More turnips, English peas, carrots, radishes, onion sets, beets and Irish potatoes from northern growers seed may be planted during these months.

Late in February and in March, cucumbers, squash, cantaloupes, watermelons, and pumpkins may be planted. It is best to make three plantings of these at intervals of a week as the young plants are very tender and may be killed by cold. Sweet corn and okra may also be planted now. It is well to make two or more plantings of sweet corn and later of field corn at intervals of ten days so that roasting ears may be obtained through a long period.

Some of our early spring crops may follow the fall crops in the same ground, it being worked over and fertilized. Tomatoes, pepper, egg plant, and late cabbage plants may be set after lettuce, turnips, English peas, beans, etc. By planting rows of corn far apart peas and beans may be planted between and thus aid in keeping up soil fertility. Cow peas (foul and Brabham) that are not attacked by the nematode worms should be put in after the spring crops are gathered to keep down weeds, and add nitrogen to

the soil, as well as for food. Lima beans may be planted in April—these together with okra, corn, collards and egg plants will supply food during summer.

Late in July and in August we may begin planting radishes, turnips, rutabagas and mustard.

A good bucket spray pump and a knowledge of the preparation and use of Bordeaux mixture for diseases, kerosene emulsion for plant lice, Paris green solution for biting insects and poisoned bait for cut worms will be helpful.

Tomatoes and melons should be planted on the same ground not oftener than every third year, and all plants will do better by practicing a systematic rotation.

Obituary

Dr. James Wood Mendenhall was born near Evergreen, Ala., July 2nd, 1820, and died at Sanford, Florida, August 26th, 1911, aged 91 years one month and 24 days. In 1845 he located in Anderson, Indiana, and practiced medicine there nine years. It was there he met and married his wife, who went home six years ago. In 1854 he moved to Ohio where he practiced until 1895. Then retiring from business he went to live with a son in Tennessee, then back to Ohio and then to Sanford. During his life he was a great reader—never forgetting anything he ever read in print. About five years ago he lost the use of his eyes and not knowing what to do his thoughts turned into a reminiscent mood. One day he called his son Horace to him and said I want to dictate my autobiography to you. Nearly all the great inventions by man were made during his lifetime and as he was interested in them, he wrote or dictated articles on them. In his autobiography he treats on the following subjects: Japan, Canada, Mexico, Russia, Africa, our country, Alaska, the colonies, Panama canal, whisky, tobacco, the destiny of our country, the influence of Christ in the world. These subjects were ably discussed and fine language used. These treatises were commenced after the doctor had reached the ripe old age of eighty-nine and finished in the fall of his ninetieth year. About ten years ago his senses began to fail—first his sense of smell, then hearing, then seeing, then tasting, finally feeling, but through all his infirmities his mind was bright and active up to within the last day of life, and we knew that when that gave way he was nearing the end. He died without a struggle. He leaves three sons to mourn his departure, Thomas, Lincoln and Horace. In his early manhood he united with the church. About two years ago Horace, the son whom he was living with, asked him if he was a Christian; his reply was, Christ doeth all things well—my faith is in him. His body will be carried to Cincinnati and laid by the side of his wife in Spring Grove.

When I had a "spade" hour from other duties.

how much labor might have been saved.

TWO GREAT BABYLONS AND TWO GREAT CAPTIVITIES

Pastor Russell Bess Type and Antitype as Between Babylon of Old and "Mystic Babylon," and Between the Captivity of Fleshly Israel and the Captivity of Spiritual Israel.

Seattle, Wash., July 2—Bible Students and the public in great numbers heard Pastor Russell here today. I report one of his discourses on the "Two Babylons"—one Literal and the other Mystic.

He said in part:—For centuries Bible Students have observed that many of the strong expressions of the Old Testament respecting Babylon found their parallels in the New Testament, used in respect to Mystic Babylon.

Great Babylon of Old.

Briefly we remind you that ancient Babylon was built on the river Euphrates, that she had impregnable walls, that the river ran through the midst of the city and the great gates of brass spanned the river as a protection against assaults of an enemy from that quarter.

We remind you of the captivity first of the ten tribes of Israel, and later on of the remaining two tribes of kingdom called Judah. Cyrus, the Persian King, gained his victory in a remarkable manner, while the Babylonians, assured of their security, were reveling at a banquet. Cyrus had digged a canal of considerable depth ready to drain off the water of the river as soon as the necessary connection was made. When the canal water flowed into the new channel, it left the bed of the river under the great brazen gates, on both sides of the city, an open roadway, through which marched the army of Cyrus. Suddenly, at an unexpected moment, the boastful city, the proud Babylon, was captured.

Antitypical or Mystic Babylon.

While speaking directly of Babylon and her fall at the hands of the Medes and Persians under Cyrus, the prophet speaks of the end of this Age and of world-wide calamities incidental to the overthrow of every institution contrary to the Divine will, preparatory to the inauguration of Messiah's Kingdom.

I request that at your convenience you read Isaiah xlii, 1-19, in confirmation of what I have said. I recommend further that you compare Jeremiah l, 15, 20, with Revelation xviii, 6; and the 39th verse with Revelation xvi, 12, and the 40th verse with Revelation xviii, 9. Compare also Jeremiah li, 4, 8, with Revelation xviii, 4; and verse 13 with Revelation xvii, 1-15, and verses 37, 38, 64 with Revelation xviii, 2, 4, 21.

As Literal Babylon ruled over the whole world so Mystic Babylon is represented as ruling the civilized world, and hence the entire world. As the lords of Babylon were made drunk by wine which they drank from the golden vessels captured from the temple at Jerusalem, so Mystic Babylon, represented by a woman, is said to make all nations drunk with the wine or doctrine which she gives them out of the golden cup, which she holds in her hand. As Literal Babylon fell by the drying up of the waters of the Euphrates, so Revelation tells us that Mystic Babylon sits upon the symbolic Euphrates, and that the way of the kings of the East shall be prepared by the drying up of those waters (Revelation xvi, 12).

Similarly, we are assured, Mystic Babylon's end shall come suddenly, "in one hour." Like a great millstone she shall be cast into the sea to rise no more. Now, the message is, "Babylon is fallen, is fallen (sentenced to destruction). Come out of her, my people, that ye be not partakers of her sins, and that ye receive not of her plagues" (Revelation xviii, 2-5).

Where is Mystic Babylon?

No student can examine the records without astonishment and realization that Mystic Babylon must be some great, influential system of great power in the world during this Gospel Age, and especially at its close. The very prominence given to Babylon, both in prophecy and Revelation, warns God's people that if they have not yet found Babylon they should seek for her. For so great an institution as made all nations drunk with her false doctrine must be considered necessary to those who are under the influence of the seducing draft from her cup.

Indeed, the intimation is that the whole world will be so intoxicated with the false teaching of Babylon as to be completely under her influence. And when she falls it is particularly explained that all the great, rich, the mighty, the influential of earth will mourn the catastrophe of her fall. Only the saintly few will recognize its

The GREATEST PLAY I EVER SAW AS TOLD TO Hugh S. Tullerton BY PAT MORAN.

Veteran Catcher of the Philadelphia Nationals, and Considered One of the Greatest and Headlest Catchers in the Business.

Mordock Brown made the greatest play I ever saw, and at the same time Ty Cobb and Harry Steinfield made plays almost as great on the same ball, so that all three ought to have part of the credit. But Brown made it—the others only look part.

The play was made in Detroit during the World's series between Detroit and Chicago when I was a Cub. We had the game pretty safe in the fourth inning, 3 to 0, and Brownie pitched the great ball. But O'Leary opened the fourth with a hit, and Crawford hit safe, and with runners on first and second and no one out it didn't look so comfortable especially with Ty Cobb at bat. We knew how fast Cobb was, and how he could bunt, and we knew he would bunt and that a slip or a fumble probably would beat us. Brownie thought out the play himself. He told Steinfield to stick at third base and not to move, no matter what happened, and he refused to pitch high and fast to King's signal, insisting on pitching low and outside. King knew that Cobb would bunt toward third base and didn't want him to—but Brownie did. He pitched fast, low and outside, and Cobb pushed down as perfect a bunt as ever was made, not more than twenty feet toward third and about five feet inside the line. O'Leary had left second base the minute the ball was pitched, and he is a fast man. It didn't look possible to make a play or to get Cobb at first—but Brownie had no intention of trying for Cobb—he wanted to get O'Leary.

PAT MORAN.

As he pitched the ball Brownie went toward the foul line as fast as he could, not waiting for Cobb to make the bunt, but starting ahead of it to the place where he felt certain the ball would be. He scooped the ball while running at full speed and whirled around like a top and let drive at Steinfield, who wasn't more than 15 feet from him. I don't think Brownie ever pitched a faster ball to the plate than that one. It went like a rifle shot about a foot over Steinie's head, and from the bench it looked as if he had thrown the ball away. Steinfield's hands went up, he ducked his head and hung to the ball, and O'Leary was forced out by at least 30 feet.

The play was the fastest and most perfectly made that I ever saw. Every one who had a hand in it played it perfectly. Cobb, although he failed, would have won 99 games out of 100 true tempo and rejoice.

It seems very clear, my dear brethren, that many of us were once part and parcel of this great Babylon—this great system of confusion by which the Divine character has been so traduced through misinterpretations of the Divine Word. I am aware that Catholics declare that Protestants are this Babylon system; and I am aware that Protestants claim that Catholics are this Babylon system. To my understanding of the Divine Word, both are right!

VOICE OF THE PEOPLE

Letters and Communications on Various Timely Topics.

COLUMN DEVOTED TO PEOPLE

In This Department Will be Found the Views, Opinions and Comments of Practical Writers

He! Ye John Bull

To E. G. Perry et al:
Hi-dink-a-diddle, the cat and the fiddle
The Bull jumped over Cameron City.

Sure, Mr. Perry, we beef men don't have free distribution of beef like you philanthropic truck farmers do of lettuce and celery. We got wise years ago and formed a beef trust, but it seems as if you hay seed let a little thing like an inspired article in the Times-Union or some disrupting influence at home, possibly a piney woods cow, distract your mind so that you couldn't form anything but a resolution to distribute said cow to the fore winds. My notion is that said cow will be here chewing her cud when you and your celery fields and your bank account have gone glimmering; also Sanford's prosperity. If you don't stop fighting said cow and stop fighting among yourselves and get into a good solid trust and stay there for better or worse.

Here's hoping you won't be so short sighted as to think you and your 20 acres can influence the market individually, so get into a collective union and pool your product and you won't miss what the cow does to you. If the cow was all the one who fattened on the truck farmers, your Uncle John would be headoverheels in truck farming tomorrow.

Yours for the protection of the cows
JOHN BULL.

In Fertile Florida

Amelia reports the orange crop normal and the grapefruit deficient.

Dade City will nearly double its trucking acreage this season.

Elkton claims to hold the premium ribbon with a 71 pound watermelon.

Bradentown reports that the fruit crop is showing up better than was expected. The strawberry acreage at Lakeland will be much larger this season than ever before.

Plant City reports that its vegetable acreage for this season will be increased 25 per cent over last year.

Florida can raise chestnuts. T. S. Pappa, of Clearwater, has harvested a crop, some of which measured an inch and a half across the flat side.

E. S. Bailey, of Knights, is raising some squashes that are in the 50 pound class, and doing it without fertilizer or cultivation. He now believes that with a little effort that 100 pound Florida squashes are possible.

Tarpon Springs cultivates the sea. The gulf gives up to that little city from \$5,000 to \$7,000 worth of sponges each and every week in the year. They use no fertilizer and never find the rains deficient for ample returns.

Avocado spears, selling in Northern markets at 35c. to 75c. each will not tend to popularize this fruit. The grower in Florida is not getting over ten cents apiece for the fruit and the dealer is taking advantage of the novelty of the fruit to kill its sale.

Box Social

On the evening of September 9th the people of the Ebenezer church south of the city are planning a Box Social at the home of J. M. Lord.

Each lady is expected to furnish a box containing supper to two with her name on the inside. These will be sold and the proceeds will go to the missionary collection of the church. Everybody is invited and will be welcome.

On such a bunt as that, and it was only because Brownie knew where he would bunt a certain kind of ball and knew that Cobb was a perfect bunter, that made it possible. The play was made so rapidly that we who were sitting on the bench hardly realized what had come off until we saw Steinie shove up his hands and catch the ball. It was Brownie's greatest play and at the same time I think Steinie made his greatest catch.

The play saved me. If that ball had gone past Steinfield, or if Brownie had failed to make the play at all, the World's championship series of 1909 might have been a different story, for although we won the series almost in straight games, Detroit played wonderful baseball all the time, and a little luck either way would have turned out the whole series.

Office in Herald Building Telephone No. 145

ANOTHER MILE STONE

The Sanford Herald passed another mile stone of existence last week. Another year with the joys and sorrows, the profits and losses, the glad hand and the frozen mitt that spells the existence of a local newspaper. Since the inception of The Herald just three years ago into the life of Sanford the policy of the paper has never been shaken by the sunshine of prosperity or the dark clouds of adversity.

The paper started out to help build a new and greater city upon the banks of the St. Johns. We believed that Sanford was destined to become the greatest city in this section of the state. We believed that with the proper amount of push and energy the city could be rejuvenated, infused with new life and energy and call forth the attention of the world as one of the best places in the south for the location of the health-seeker and the wealth seeker.

How well we have succeeded is shown by the census figures giving the city an increase of 250 per cent in three years and over three hundred new homes and many business blocks erected.

The paper that stands for something and speaks the truth upon all occasions is bound to have enemies as well as friends.

The Herald has never sought to make an enemy needlessly but we have never dodged an issue to save a subscriber or an advertiser.

A fair and square deal to everyone has been our policy and if a lot of yellow journalism has been discarded and the sanctity of the home preserved at all times it has been for the best interests of all concerned and not because the editor feared public criticism or personal violence.

In the hunt for news The Herald has never delved into family secrets or laid bare the skeleton in the closet. Public matters have been aired for the purpose of a better understanding of city affairs and a desire to give every citizen a fair shake.

Public officials have received our praise or condemnation which in our opinion they deserved. There have been no scapegoats to bear abuse upon nor any hero upon which to hang all the garlands. There is no city in the south today that gives a brighter promise for the future than Sanford.

The grower of vegetables and fruits is looking forward to one of the best seasons of his career with a good crop and a chance to sell his stuff at a good price guaranteed. The dredges are now at work deepening the channel that will give our city ten feet of water to Jacksonville. The possibilities of this city as a deep water port need hardly to be discussed. This feature alone means a Greater Sanford. We have every assurance that the lake front will receive the attention which it so richly deserves—a move that will mean thousands of tourists and a fine hotel. The railroad yards, freight depot and coal chute will be removed giving the west side of the city a chance to improve and make a better appearance.

Another railroad will enter Sanford putting our city in direct connection with the large markets of the west. A new traction line will connect our city with the Atlantic Seaboard and the Gulf coast.

Better county roads and two steel drawbridges will make our city the natural trading point for all the people living within a radius of fifty miles and our fine stores and low prices on the necessities of life will hold that trade.

You have the opportunity and The Herald takes pride in the fact that in the building it had a man's part.

The years to come will be more fruitful than those that have passed. The Herald has labored in all of it and our words of encouragement have been backed by money when money was needed for public improvement. The paper is not a mendicant seeking charity but a business firm paying taxes, taking a share of all the public burdens and even in vicissitudes taking a brighter view of material things, ever ready to respond and lend a helping hand.

The paper enters upon the new year with a stronger determination to help Sanford and Orange county. The merchants of Sanford have been quick to note the need of The Herald and have responded with a liberal share of patronage. Our subscribers have willingly paid the price of a paper that stands for the best in everything and one whose

sentiments pulse with the heartbeats of the people. We need your sympathy and support for another year, for a better paper and a Greater Sanford.

OUR CANDIDATES

The city election will be held in December.

As yet there has been one official announcement of candidates for the various offices.

The candidates for mayor and members of the City Council who receive the support of The Herald must stand for the following: Lake front improvements, bulkheading and a city boulevard the entire length.

A better sewerage system built under the supervision of a competent city engineer.

Municipal ownership of all the public utilities which include water works, gas and electric lights.

Good streets and sidewalks in every part of the city.

A city administration that will grant these improvements with a conservative expense of the peoples money, and a fair and equitable taxation.

The candidate who measures up to these requirements will be supported by this paper regardless of whether he happens to be a friend or an enemy of the editor of The Herald.

HORSE CARE AND HORSE LAIGHS

The street railway is a menace to the people of that town that they are afraid of allowing the tracks to be put down on any of principal streets. The street railway bought to cut out Orlando and skirt the edge of the city, where the noise would not keep the inhabitants awake.—Sanford Herald. As the traction line, rather than the street railway, as Brer. Holly evidently thinks it is, expects to get most of its business from busy Orlando. It would not be judicious from a business standpoint to "cut out" the city beautiful. The village on Lake Monroe will not afford enough business to justify the running of a single horse car line, and let alone a traction trolley line and the company wants business. It is not the noise so much, dear Mr. Holley, it is the taking of valuable space in our beautiful business streets which are so crowded at time now that a man on horse back can hardly get through.—Reporter Star.

The ignorance of our "steamed" contemporary on the subject of traction lines is awful. The last time our brother editor from Stunberville was in the city he was given a ride of sixteen miles on the Sanford Traction line, the only line of this kind in Florida. Horse cars will do for Orlando and while the car is standing on those crowded streets, the horse can nibble the grass and keep it from blocking the doors of the store.

WHAT CONGRESS DID

The Herald gives a condensed statement of the important bills passed by Congress. The session was a lengthy one and demonstrated the strength of the Democrats. The account in this week's Herald is non-partisan and will be enjoyed by all the readers. Next week will appear Speaker Camp Clark's Views of Congress and his opinion of President Taft. Get it all in The Herald.

Mayor Lake promised to remove the coal chute during his administration and he has made good.

Municipal ownership of the public utilities should be embodied in the platform of the winning candidate for office in Sanford's city election.

The Herald gives \$25 toward the steel bridge at the Geneva ferry and will give \$25 more for a bridge at the Osteen ferry. How many other business firms will do so?

Over a hundred thousand dollars in improvements have been spent on the City in the last season and by the opening of new roads and the improvement of the old ones the farms in Columbia county have been given an increase of a quarter of a million dollars in value.

Florida papers are coming out strong on special editions. The Palmetto News, and St. Cloud Tribune, recent issued very fine editions, and the Orlando Reporter Star announces that in a few weeks a special Orlando edition will be appeared over the "universe setting forth the beauties and virtues of Orange County.

That pipe dream of the Reporter Star about Orlando winning the state championship in the year 50 B. C. is so inspiring that it brings tears to the eyes. The old banner was brought back to Orlando from Miami the other day, and will be placed in the jewelry store with the tin cup, two lemons, the tin foil hat and ball won this year, and a plume of a traction car attempting to fly over Orlando without touching any street.

In the coming city election The Herald does not intend to take a prominent part for any faction. This paper will endeavor to set forth the claims of each candidate

in a fair and impartial manner, avoiding personalities in every instance. It will only be a friendly little bout among friends and neighbors and should engender no bad feeling. We are all anxious to forget politics and continue building a better and greater city.

Major Marks, who died recently in New York City, left a memorial in the beautiful shade trees which line the streets of the pretty town of Orlando. When the Major was mayor of Orlando, his hobby was planting shade trees and he carried it out industriously and systematically. The result was that Orlando became famous for its trees, and Major Marks will always be remembered there as a citizen who devoted himself to practical civic beautification.—Tampa Tribune.

The new Bartow Record bids fair to become the leading paper of the State and is bound to succeed with the following trite statement at the mast head:

"A paper published in the interest of the best citizenship of Bartow and Polk County and unalterably opposed to knockers, grafters, deadbeats and political trickery. The policy of the paper may not always be correct, but it will express the honest convictions of the editor.

For the Democratic party when right—when wrong we will help to right it."

Beginning October 1, the Sanford Herald, one of the brightest, cleanest, and best edited papers in Florida, and a consistent worker for the upbuilding of Sanford and the surrounding territory, will be issued twice a week. That the demand is sufficient for two issues of the The Herald is most welcome sign of the progressiveness of south Florida. The Tampa Tribune remarks that if there could be anything better than one Herald a week, it is two Heralds a week, and we heartily endorse this sentiment. Editor Holly has our congratulations and best wishes for success.—St. Cloud Tribune.

Last week the citizens of Lawrenceville Ga., voted on the bond question for municipal ownership of water works and sewers. The amount to be issued is \$50,000 for water works and \$28,000 for sewers, both of which were carried almost unanimously, 199 against 9 voting for water works, and 196 against 12 for sewerage. In a mass meeting held the night before the election a leading physician stated that a handsome sanitarium would be built there if the water works proposition carried. Evidently the doctor is a firm believer in the purity of water furnished by a municipally owned plant.—Reporter Star.

PERSONAL ITEMS OF INTEREST

Summary of the Floating Small Talk Succinctly Arranged for Hurred Herald Readers.

Rev. S. L. Wilson and wife of Oakland were the guests of Rev. J. F. McKinnon last night en route home from Seabreeze. David and Wideman, Caldwell are in New York this week buying goods for the department store of D. A. Caldwell & Sons. D. G. Wagner and family moved into D. H. Herndon's new house on Fourth street, between Magnolia and Palmetto avenues, last week. The many friends of J. N. Whitner will be glad to learn that he is convalescent from his recent illness. Mrs. H. E. Housholder of Plant City is visiting the family of her son, Dr. W. E. Housholder. Miss Alice Whitner and Annie Lee Caldwell are having a delightful visit with friends in Winter Garden. Miss L. E. Vane of Seabreeze after a short visit to her friend, Mrs. Samuel Puleston, left on Wednesday last for her home. Eugene Roumillat enjoyed several short trips on a motorcycle to the beach this week. The ball game Monday with Leesburg will start promptly at 3.30; so as to enable people living on the Traction Line to catch the 5.20 car. Mr. and Mrs. Levi Binford have returned home from a pleasant trip to points in Indiana. The fall season has opened. Doc Castle has arrived from his trip to Canastota, N. Y., and everything will now go ahead. Mr. and Mrs. Frank Woodruff and children have returned from a vacation at various points in North Carolina.

W. R. Gardner left on Wednesday for Waycross where he will be engaged for several months contracting. Miss Emma Russell and Mrs. Nellie Gillon, of Sanford, Fla., are visiting their parents, Mr. and Mrs. J. L. Russell, here at present.—Dixon (Ky.) Journal. The man who gets mad at what the newspaper says about him should return thanks three times a day for what the newspapers knew about him and suppressed. Miss Gelsie Bott returned this week after a delightful outing in North Carolina and Atlanta. Rev. D. B. Sweat, a former pastor of the M. E. church here, spent several days in the city this week. Earl Roumillat will leave today for Jacksonville to visit his aunt, Mrs. P. J. Croghan. Mrs. A. H. Adams of Miami, Fla., who has been visiting her sisters, Miss Lola Evans, Mrs. Jones and Mrs. Claude Herndon, left Wednesday for a visit to Mr. Adams and Mrs. Lowther, of Johnson City, Tenn. Miss Mary Alice Martin, who has been spending the summer months with her sister, Mrs. George Fox, Jr., left Wednesday for Miami, preparatory to resuming her school there this fall. Walter Matthews of Portsmouth, Va., on his way to Bartow, stopped over between trains Tuesday evening for a short visit to his relatives, George Fox, Sr., and family. Mrs. E. M. Martin of Jacksonville, on her way to Miami, stopped over for a visit with her sister, Mrs. J. C. McDaniel, and Mrs. George Fox, Jr. Mrs. R. C. Maxwell and children returned to the city on Saturday last. Mrs. J. C. Standifer and Miss Ruth Standifer of Gulfport, Miss., mother and sister of Mrs. Maxwell, accompanied her home and will be her guests. Mrs. A. P. Connelly and children, left on Monday for a six weeks' stay at Connelly Springs, N. C. Mrs. M. Frank, Miss Florie Frank and Miss Louise Shepherd went to the beach last Saturday for a week's stay. W. J. Thigpen returned Monday afternoon from a short visit at the beach. Capt. K. R. Murrell left on Tuesday for New York where he will make arrangements to represent one of the large commission firms for the season. Mrs. J. B. Polhill, who has been spending about eight weeks sojourn during the summer, with relatives and friends at Belleville, Florida, returned to the city last week, accompanied by her sister-in-law, Mrs. G. S. Polhill, who will spend sometime in this city and Ojeda visiting relatives and friends.

Bryan Higgins has returned home from a several weeks' trip north. Miss Margaret Roberts has returned home from a visit to points in North Carolina. C. C. Coffee, the presiding genius of The Boston store, left on Tuesday for Baltimore where he will purchase the latest patterns for the fall and winter trade. The Stag Hotel has closed at Coronado and Will Leffler, Harold Haskins, Nixon Butt and J. D. Davison and the French chef, George Washoonee returned home on Wednesday. The boys report a good time and Coronado beach the finest ever. Let us cultivate a public spirit and talk less and work more. Encourage our local authorities in making improvements. Speak up, speak well, talk encouragingly of our town and its bright prospects. It is these many little considerations that makes a town grow.

There are very few "House for Rent" signs to be seen in our town. That is proof of growth and prosperity, but also an indication that more homes ought to be provided for the people who would move here, if houses could be rented. A number of cozy and attractive cottages that can be rented at a reasonable figure is what we need. We are in receipt of a handsome booklet of campus views of the University of Florida. These attractive souvenirs of the State University will be gladly furnished upon request, and all interested in the work of higher education in Florida should write the president of the institution for a copy. Excellent pictures are shown of various buildings on the campus. The students rooms, the various clubs and societies and many phases of college life are depicted.

HOWARD - PACKARD LAND COMPANY

Bulletin

TO BE SUCCESSFUL AT VOLUSIA FARMS KEEP OUT OF THE RUTS

Keep out of the ruts when you settle on Volusia Farms. Don't do anything for the reason that your neighbor is doing it. Have a reason of your own. Have a mind of your own both to learn and act upon what you learn. Don't emulate the example of the Chinese who do things because their fathers and grandfathers did them.

Study your problems, your land, your crops, your live stock. Don't come to Volusia Farms with the idea that you can farm in the same way as you farmed in the north and then knock Florida because you did not adapt yourself to Florida climate, Florida soil and Florida methods. Try to improve our methods and our crops. Give thought for the morrow. Try to get all out of each acre that it will produce the year round.

Endless opportunities are yours for the making. No need to seek them. They are here waiting for you if you have ambition enough to make a close study of your business.

Farming is a business just in the same way as keeping a store or running a mill. Possibly farming is the most exacting of all businesses in that it needs men of brains, ambition, stickability. Volusia Farms offers opportunities for the brainiest, most ambitious men in the country who are long on stickability.

The resources of Volusia Farms have hardly been scratched. There is likely no end to them for the man who gives his attention, his energies and his best thought to making the rich soil produce its limits.

There are possibly many new varieties of vegetable, fruits, nuts, grasses and leguminous crops that can be grown here for the sake of a little experimentation. Volusia Farms territory has already proven itself for beans, peas, potatoes, radishes, beets, cucumbers, egg plant peppers, tomatoes, cabbage, sugar cane and a host of other things; oranges, grapefruit, tangerines, kumquats, grapes, and so forth, but we believe that many other articles of food for man and beast can be raised here to the ultimate profit of the grower, and our country.

Alfalfa, for instance. A large number of farmers are experimenting with this valuable forage plant. The minute a Volusia farmer succeeds in growing it at a reasonable cost, the value of all these lands will increase marvellously in monetary value.

Cotton, too, is probably the finest cash crop that can be grown on these lands. Long staple cotton crops can be converted into cash immediately, or can be held for taking advantage of market fluctuations—but any time you want to get your cotton you can get the cash for it.

Live stock farming assuredly appeals to broad-minded men as be-

ing a source of large income. At a time when the country is groaning under the extortions of the beef trust and Florida fails to meet the demand of home consumers, the market for live stock is immediate. Florida imports large quantities of western meat while her own prairies, capable of sustaining thousands of cattle, are neglected. A little study along the line of growing feed in conjunction with the keeping of live stock—a little step out of the rut, will make many a man rich.

And why not go in for poultry raising as a BUSINESS? It is reported that on a poultry farm near Volusia Farms, the owner is clearing \$2 a year on every chicken. Florida imports large quantities of poultry into a market that can be supplied by Florida Grown Poultry, Florida Laid Eggs, Florida Chicks.

This entire Bulletin could be filled with instances of golden opportunities for men who will get out of the ruts. The only reason why Florida imports these quantities of fresh and canned foods is because people are too much inclined to keep in the rut—they do things because their neighbors do them, they do not diversify.

The successful Volusia farmer will not put all of his eggs in one basket by growing a single crop. He will be alive and up-to-date. He will diversify. He will have many strings to his bow. He will have something to sell the entire year, because the soil will produce the entire year by right methods of planting and cultivation. He will have corn, hogs, sheep, wool, honey, poultry, vegetables, eggs, and so on, all bringing good profits.

He will learn as he goes along. He won't be like the farmer who raised and fed hogs for ten years and never learned a thing, while not much over a mile from him lives another farmer who has been raising hogs for two years longer and he is a rich man. He made a close study of hog raising, making experiments in a limited way and carefully testing methods he read about and for eight years he never lost a pig.

Don't chase after fads. There are no end of fads started, as in every other business and also deep ruts to drop into that lead to failure. Investigate Volusia Farms for yourself and from the standpoint of what you want to do there. We want you to see Volusia Farms for yourself. While we are always willing to make a selection for you, we prefer not to sell an acre sight unseen. We want you to be satisfied, successful, happy, head and shoulders above those in deep ruts. We want you to be among

the leading men of the county, careful and business like in your farm operations and in your marketing. We want you to accumulate a surplus at the bank as a result of your foresight and uncommon practice on the farm. Test things for yourself—KEEP OUT OF THE RUTS.

Prices Will Be Revised After September 1st

AN ORDINANCE
Granting to the Citrus Southern Railway Company

A CORPORATION ORGANIZED UNDER THE LAWS OF THE STATE OF FLORIDA, ITS SUCCESSORS AND ASSIGNS, CERTAIN RIGHTS, FRANCHISES AND PRIVILEGES.
 BE IT ORDAINED BY THE COUNCIL OF THE CITY OF SANFORD, ORANGE COUNTY, FLORIDA, AS FOLLOWS:
 Section 1. That authority is hereby given, granted and conveyed unto the Citrus Southern Railway Company, a corporation organized under the laws of the State of Florida, its successors and assigns, the right, franchise and privilege to build, construct, maintain, operate and conduct a railroad, to be operated by any motive power other than steam, through the said City of Sanford, upon, along, through, over and across the streets and avenues of the said City of Sanford, as follows:
 Hughey Street from the western terminus of said Hughey Street to Palmetto Avenue, Palmetto Avenue from Hughey Street to Thirteenth Street, Fourteenth Street from Palmetto Avenue to Cypress Avenue, Cypress Avenue from Fourteenth Street to the northern corporate limits, Water Street from Cypress Avenue to Sanford Avenue, Sanford Avenue from Water Street to Commercial Street, Commercial Street from Sanford Avenue to Palmetto Avenue. Also, Thirteenth Street from Cypress Avenue, west, to an unnamed street between Lots 15 and 38 of Robinson's Survey of an Addition to South Sanford, thence north along said unnamed street to the northern end of said street and Tamarind Avenue from its southern terminus to the northern corporate limits.
 Authority is also hereby given, granted and conveyed to the Citrus Southern Railway Company, its successors and assigns, to build, construct, maintain, operate and conduct a dock upon, along, through, over and across Cypress Avenue as extended in Lake Monroe to the northern corporate limits, together with the right to make fills and cuts to the pier established by the City of Sanford for said Cypress Avenue from Water Street, north, to the northern corporate limits; and to make and lay a roadway from the said Water Street, to the northern end of said dock; said roadway to be built of such material as the Grantee herein named, its successors or assigns, may deem advisable and sufficient, and said roadway to be free and open to the citizens of Sanford for ingress and egress to and from said dock.
 Authority is also hereby given, granted and conveyed to the Citrus Southern Railway Company, its successors and assigns, to build, construct, maintain, operate and conduct a dock upon, along, through, over and across Cypress Avenue as extended in Lake Monroe to the northern corporate limits, together with the right to make fills and cuts to a grade established by the City of Sanford for said Tamarind Avenue from Monroe Street, north, to the northern corporate limits; and to make and lay a roadway from said Monroe Street to the northern end of said dock; said roadway to be built of such material as the Grantee herein named, its successors or assigns, may deem advisable and sufficient, and said roadway to be free and open to the citizens of Sanford for ingress and egress to and from said dock.
 The Citrus Southern Railway Company, its successors and assigns, is hereby granted all the rights, uses, purposes and privileges pertaining to said dock and wharves for the convenient transfer of passengers and freight to and from its said railroad and boats, vessels and watercraft.
 Section 2. That the authority, rights and privileges given, granted and conveyed in the preceding section to the Citrus Southern Railway Company, its successors and assigns, shall constitute a franchise for the building, constructing, maintaining, operating and conducting of the said railroad and said docks and wharves in perpetuity, upon the following conditions and terms:
 (A) The said Grantee herein named, its successors or assigns, shall complete the construction of its said railroad from the City of Sanford, Orange County, Florida, to the City of Kissimmee, County of Osceola, and State of Florida, within two years from the date of the approval of this ordinance, and the failure to complete such work shall constitute a breach of this ordinance and shall work the forfeiture of the franchise; provided, however, that if the construction of said railroad is delayed or hindered by unavoidable causes beyond the two year period mentioned, the City Council shall use its discretion in granting the additional time to allow to finish the said construction. This franchise shall continue and remain in full force and effect during the fore-said additional time. In case of forfeiture, this franchise and all rights hereby granted shall cease and determine.
 (B) Upon completion of said railroad and of said docks and wharves, the same shall thereafter be continuously operated by the said Grantee, its successors or assigns, and the failure to so timely operate shall constitute a breach of this ordinance and shall work the forfeiture of this franchise; provided, however, that due allowance shall be made for strikes and other justifiable causes.
 (C) The construction of the railroad, shall conform to the grades of the streets as established; the Grantee herein named, its successors and assigns, to have authority for the construction and maintenance of its railroad, and the necessary and proper appurtenances for the passing of cars and other usual fixtures and appliances inherent in a railroad, subject to the approval of the City Council.
 (D) All members of the City Police Force and Fire Department, in uniform or wearing an official badge, shall be furnished free transportation upon said railroad within the City limits of Sanford.
 (E) The maximum passenger rate to be charged upon said railroad for a continuous passage from any point within the limits of the said City to any other point within the said limits shall be five (5) Cents.
 (F) The said Grantee, its successors or assigns, shall at all times, keep and maintain the space between its rails and two feet on either side thereof in as good condition as the remainder of the street; and should such street be artificially paved, the said track and two (2) feet on either side thereof, shall be paved by the said Grantee, its successors or assigns, with the same material and in the same manner as is used and done upon the remainder of such street; the expense of paving and the repair and maintenance thereof to be borne by the Grantee herein named, its successors or assigns.
 (G) The said Grantee, its successors or assigns, shall stand all expense incidental to any water front property used by it under this franchise which may at any time hereafter be filled in or built headed.
 (H) The said railroad shall be limited to double tracks on Hughey Street, east of French Avenue, Palmetto Avenue, Thirteenth Street, Fourteenth Street and Cypress Avenue.
 (I) The said railroad shall be limited on Thirteenth Street, east of French Avenue, to passenger traffic only.
 (J) The said railroad may, for a period of five years, from the completion of said railroad carry freight and passengers on all streets and avenues named herein, except Thirteenth Street east of French Avenue, and after the expiration of the said five year period, all freight traffic shall be limited to tracks permitted under this franchise on streets and avenues, or parts thereof, lying west of French Avenue, and to lines running north and south, west of French Avenue.
 Section 3. All ordinances or parts of ordinances, in conflict herewith, be and the same are hereby repealed.
 To Hon. Forrest Lake, Mayor:
 I hereby certify that the foregoing ordinance was duly passed by the City Council, in regular session, August 7, 1911.
 M. W. LOVELL
 City Clerk

Approved August 7, 1911.
 52-41
FORREST LAKE,
 Mayor.

Zionism--Hope of world

San Francisco, Cal., June 25.—Pastor Russell addressed large audiences twice today at the Golden Gate. He addressed a convention of the "International Bible Students Association" in session here. He has been making a sort of continental tour, including Indianapolis, St. Louis, Kansas City, Pueblo, Colorado Springs, Denver, Salt Lake City, Los Angeles, Pasadena and Santa Cruz. In all these cities local branches of the "I. B. S. A." invited him and made arrangements for public addresses. A train-load of Bible Students are with him—about one hundred and fifty in all.

Meetings are to be held returning at Sacramento, Portland, Tacoma, Seattle, Vancouver, Calgary, Winnipeg, Duluth, Buffalo and Toronto. The scheme is a novel and a benevolent one; for surely what he has undertaken and is carrying out is not a lady man's burden.

The Earthly Zionism.
Speaking from the text, "The Law shall go forth from Mt. Zion and the Word of the Lord from Jerusalem" (Isaiah II, 3), Pastor Russell declared that Christians had inadvertently misappropriated to themselves many promises of the Scriptures which are not wholly theirs. Christian creeds and theories have surmised that, through the rejection of Jesus, all Jews dying in unbelief of Messiah were forfeited to an eternity of torture because of that unbelief in the Only Name.

A more careful study of the Bible, he declared, is showing Bible Students the error of this position. Jews who do not accept Jesus as their Savior and who do not know His followers in His steps is the "narrow way" with indeed fall of attaining a place with Jesus in His Throne of glory. They will fall to become joint-heirs with Him in His glorious Messianic Kingdom. They will fall to become members of the spiritual Seed of Abraham, respecting whom St. Paul said, "If ye be Christ's, then are ye Abraham's Seed and heirs according to the promise (Galatians III, 29)."

The Heavenly Zionism.
The Zionism of the past eighteen

centuries has been of the heavenly kind. It has been alluring and inspiring to loving zeal, obedience and activity such as have the "hearing ear," the heavenly calling to joint-heirship with Messiah. This glorious privilege is about to end because the full number predestinated of the Lord will soon have been completed. Meantime, the Pastor and others of God's consecrated people should be Zionists in the highest sense of the word and, laying aside every weight and every besetting sin, each should strive to make his "calling and election sure" to a place in the Heavenly Zion—the Kingdom of Messiah.

It will be from this Mt. Zion, the spiritual Kingdom of Messiah, that the Law will go forth during the thousand years of the Messianic reign; the great Judge and Law-giver of the world will be the glorified Redeemer, and His associates, in His various offices of Prophet, Priest, King, Judge and Mediator, will be the faithful Zionists of the present time who follow in the steps of their Redeemer, delighting to lay down their lives for the Truth's sake and for the brethren's sake, in co-operation with the great Captain of their salvation, through the merit of His imputed righteousness.

The Word From Jerusalem.
As soon as Mt. Zion, the Kingdom, shall be completed by the glorification of the last member of the Church, it will be time for the Law to go forth therefrom for the correction of the world's affairs in righteousness—for the overthrow of every form of iniquity and everything contrary to the Golden Rule. In other words, when the Kingdom class shall have been completed by the elective process, which is the Divine arrangement of this Age, forthwith that Kingdom will come into power and the reign of righteousness will begin.

Zionism, amongst the Jews today, we believe the world is striving for—a preparation of natural Israel for the great blessing which so soon will open at their door. As they begin to really appreciate the Land of Promise, the rich promises in connection with that land must become theirs, and the inspiration of those promises will lead their hearts back to the Lord in prayer and supplication and will lead the feet of a reverential, representative number of them back to the land itself, to which the Lord declared He would bring them; and that from thence they should be picked up no more at all. Remember, in this connection, St. Paul's reference to the New Covenant and the time when it will go into force with Israel, as recorded in Romans XI, 27.

New Woman's Exchange

A little Tea Shop and Woman's Exchange is now in full swing in our city. It can be found in room 9, Welbourne block. Come up and see what it really is like, you can have an iced beverage accompanied by dainty sandwiches or cake, or order a light lunch, any hour of the day after ten o'clock in the morning. What is nicer on a hot day—in attractive surroundings. There will be fancy articles on sale. Mayhap just what you are looking for and haven't time to make. You can be either patroness, patron, or contributor. Of course you are solicited to help make this needed departure in our city's success.

To those anticipating working in conjunction with the exchange let us whisper, there is not a membership fee exacted, merely the ten-cent cent on the dollar to pay Miss Keeler for the handling and showing your goods. You can phone or go in and see her—order cakes, salads or even sandwiches. This most certainly ought to appeal to the ladies of Sanford.

THE POWER OF PERSUASION

When biscuits are in range, lead a diamond, but send along a box of don-bons first to smooth the pathway.

Another Thing

Be sure of the quality of the don-bons. If you get them from us you will know they are right. That means fresh and pure quality don-bons, corresponding with the quality of the recipient.

SANFORD, FLORIDA, FRIDAY, SEPTEMBER 8, 1911

Volume IV

ALL AROUND FLORIDA

The General News of The Land of Flowers.

CULLED FROM THE STATE PRESS

An Episode of the Week's Most Important Happenings in the State's Domain.

West Palm Beach has ordered another carload of oil for use on the city's streets. The results obtained with that used three months ago have been very pleasing.

Miami citizens are planning to rid that city of the little English sparrows which within five years have literally overrun the residence sections of the city.

Two lads are en route from Chattanooga to Jacksonville, riding their bicycles the entire distance. The trip should be made with ease.

Jim Lee, a colored restaurant keeper, was killed in Ocala by G. D. Washburn, white, in the act of stealing chickens from the latter's chicken yard. The negro was shot three times, any one of which would have caused death.

Rev. W. J. Carpenter, pastor of the First Methodist church of Tampa, is attending the Bible conference at Winona Lake, Ind. He writes that he has secured the services of Rev. "Billy" Sunday, ex-baseball player and popular revivalist, to come to Tampa for the purpose of conducting a union revival service.

Growers in the vicinity of Lakeland and surrounding country are now busily engaged in preparing land for fall and winter crops, and indications point to a large acreage of both strawberries and vegetables.

Sept. 2.—As a sequel to a long standing feud and as a result of which Daniel Cooley, a prominent naval stores operator of Santa Rosa county, was shot and killed last Sunday, Alf and Arch Cooley, brother and cousin respectively of the dead man, were shot and killed from ambush near Milton.

Five violent deaths within five days of last week and within a radius of four miles have excited the women and children of the neighborhood known as McCalland Postoffice near Pensacola that they are afraid to leave their houses even in daylight. State Attorney Wilson has gone to the scene, it is said, with a view to putting to an end lawlessness in that county.

Word reached Jacksonville on Monday of the death of William E. Pabor, which occurred in Denver, Col., August 29. Deceased was well known in journalistic circles throughout Florida and Colorado and was for a number of years agricultural editor of the Florida Times-Union.

Bradentown cannot keep up with its population. Within the past year 500 new houses have been erected, and still the demand far exceeds the supply.

Shrimps are now plentiful in the river and large quantities are being caught. They are very low and mean to be especially delicious in the vicinity of the South Bridge, which has of late been fairly lined in the early morning hours with parties bent upon their capture.—Daytona Gazette News.

The contract for the construction of the Sanford waterworks is completed, and the work of the engineers will be completed by the board trustees. All the contracts will be for the waterworks, to be completed by the council and the construction of the houses by those who desire to take advantage of the service. The new plant will have a flow of 300 gallons a minute, and the engine houses equipped with twenty horse-power engines for pumping.

The letters, and literature, and the Tampa papers sent out by the board of trade in the year ending August 31, the first since its organization by the Chamber of Commerce and the Publicity club, is estimated as having brought to that city and section 1,000 families. In a brief report issued by Secretary Powell he is shown to have answered 22,933 letters from something over 7,000 people who had become interested in this section of Florida.

The Catholics in Eustis and the surrounding neighborhood are building a beautiful stone church in the very heart of the town. They are being aided by the public-spirited non-Catholics of Lake county. The handsome edifice is to cost \$250,000.

TO AFFILIATE INTERESTS?

Florida Vegetable and Fruit Growers May Get Together

Will the Florida Citrus exchange and the Florida Vegetable Growers' Association affiliate? The Tampa Times, after interviewing officers of the Citrus exchange, published the following:

"That a fusion between the Florida Citrus exchange and the Florida Vegetable Growers' Association, may be effected in the not far distant future is the belief of the officers of the former body.

"Last year overtures were made to the vegetable growers at Sanford to this end but at that time the negotiations were not favorably received. It seems. This year, however, there appears to be a complete revision of feeling on the part of the vegetable men and the prospects of the two bodies working in conjunction are considered exceedingly bright.

"The citrus exchange would welcome such a fusion, officers of that organization state, and it will be wholly up to the vegetable men whether or not such an affiliation is to be brought about. That the combined efforts of the two bodies working to the best advantage in placing Florida products on the market would prove mutually beneficial is felt here.

"While the Florida Citrus exchange was organized primarily for the citrus growers of the state, and ordinarily would not care to dabble in the vegetable market, as the two are vastly different from each other and it would necessitate the employing of experts in both fields, the fact that in season the fruit growers are also concerned in raising and marketing vegetables, puts a somewhat different light on the matter. In order to benefit the members of the exchange who are interested in vegetable growing, it is considered that a fusion of the two interests under one head, would prove highly advantageous.

"It is understood that the officers and directors of the vegetable association are likewise favorably inclined toward an affiliation of the two bodies to the mutual advantage of both."

The Eastern Star Celebrates

Thursday, August 31st, being the birthday of Robert Morris, the founder of the Eastern Star, and as this day has been set aside as a festive day for the order.

Seminole Chapter of Sanford celebrated the occasion with a luncheon picnic at Westside park, from 4 to 6 p. m. Though the skies were over-shadowed with clouds, the stars still shown brightly. A pleasant afternoon was spent and plans were discussed as to how best to cooperate with our Masonic brothers so that these two grand kindred orders might be brought in closer touch with one another, as the founder of the Eastern Star who was an enthusiastic Mason intended that they should.

At the hour had arrived for the stars to disappear they bade adieu with a wish that the chain would be unbroken when they appeared again to celebrate, August 31st, 1912.

Kindergarten Will Open

A long felt want is soon to be realized in Sanford, with the opening of a private kindergarten, conducted by Miss Virian Yeiser. Miss Yeiser graduated with honors from the Duval high school a year ago and having always been interested in kindergarten work, spent the past summer in Miss Jacob's kindergarten training school where she received the very best instruction in that line. The mothers of Sanford will no doubt greet with enthusiasm the news that the kindergarten class will open this first week in October.

Rev. McKinnon to Leave

On last Sunday morning at the Presbytery church, Rev. J. F. McKinnon who has been the pastor for more than five years announced to the congregation that he would ask to be released from the pastorate in order to give due attention to the office of County Superintendent of Public Instruction to which he has been appointed. This matter will be considered at a congregational meeting to be called at an early date, but in the meanwhile Mr. McKinnon will continue to supply the church.

For The Primary

There will be a Mass Meeting at the city hall to-night, to plan the primary to be held in November, and every white voter is urged to attend. The primary has been contemplated for several years in Sanford, and now is the time to put it in effect.

THE GROWERS' PICNIC

All Are Invited to Come And Enjoy The Day

ON THURSDAY SEPTEMBER 14

Many Prominent Speakers To Be Present and Address the Meeting of Growers

The annual growers' picnic will take place at Beck's Grove, near Cameron City, on Thursday, Sept. 14. The picnic will be a basket affair, supplemented by a fine fish fry, and to those familiar with these annual picnics there is no need to expatiate at length upon the good time to be had. Along with the good things to eat will be a feast of reason with prominent speakers like Senator Bryan, Congressman Clark and Prof. Rolfs of the experimental station, and the 1911 Genie will eclipse all former ones.

Word has been received by the Growers from each of the speakers and all are sure that they can be present. It would be hard indeed to secure better or more interesting speakers than have been secured for this occasion. They are all well known to the people of this section and throughout the state and a large crowd is expected.

It should be remembered by those who expect to attend the picnic that the speaking will take place rain or shine at the Cameron City church which is near the park will be used should rain prevent the use of the park. This church will accommodate several hundred people if necessary.

Look for the big red posters and keep the date in your mind.

"God Bless Our Free Press"

The Coming Nation in passing judgment on commercial journalism says: "Every newspaper in this country is free to express any opinion it pleases so long as that opinion does not offend the administration, nor Mr. Morgan, nor the banks nor the railroad companies, nor the department stores, nor the big advertisers, nor Postmaster-General Hitchcock, nor the management of the Associated Press, nor the Guggenheims, nor the Standard Oil interests, nor the Merchants and Manufacturers' Associations, nor the chamber of commerce, nor the stock exchange, nor influential senators, nor a few other interests, unassorted. God bless our free press! What should we do without it? These must be lively times in most newspaper offices where long lists are kept of men and interests that must not be offended and the topics that must not be discussed. I am told that in some places the lists grow so long that no one mind can keep the run of them."

In commenting on the above Claude J. Engle, in Dixie, remarks:

"Perhaps this explains why there is more interest taken nowadays in who owns a newspaper than in who edits it."

"The subsidization of the local daily press has been self evident for many years. It includes the demands of railroad officials, the large advertisers, city officials who give out 'pep' bankers who get mixed up in unsavory things, steamship lines which issue free passes. The local list of immunes is a lengthy one so far as the daily papers are concerned."

"Dixie has no immune list."
"No Immune List" should be a newspaper's badge of honor, but there are only a few who wear it. It is more profitable to maintain silence and this is the age of the dollar.

Want to be Mayor of Sanford

News comes from Sanford that Messrs. W. D. Holden and G. W. Spencer are both desirous of serving that city as its mayor. We are not very well acquainted with Mr. Spencer, but we do know that Mr. Holden is a man of affairs and is good material for the office he seeks. He is a son of our good old friend, "Uncle Billy" Holden, of this section, and like his father, he is all right. Besides, Mr. Holden has been largely instrumental in pushing Sanford forward, and for his good work in that line he is entitled to recognition.—Reporter Star.

Pensacola will likely stand third in lumber exports for the United States when the accounts are made up by the Government experts. In imports of mahogany that city will probably stand first, with New York second.

The United States National Association of Postoffice Clerks is holding the annual meeting in Jacksonville this week.

CITY COUNCIL MEETS

Heartily in Favor of A White Man's Primary

City Council met in regular session September 5th at 7:30 p. m. Present W. D. Holden President, pro tem H. R. Steynas J. D. Davison S. Runge H. Ward B. A. Howard. Absent D. L. Thrasher. Minutes of the last meeting read and approved. The reports of Marshal and Treasurer for August read and ordered filed. Moved and seconded that the matter of the non fulfillment of the Sanitary contract by E. E. Brady be referred to the Sanitary Committee, with instruction to report at the next meeting. Carried. Moved and seconded that no more money be paid Mr. Brady on Scavenger contract until the Sanitary committee makes its report. Carried. The Clerk was instructed to purchase a book and employ an assistance to transfer the names in the old registration book to the new. Moved and seconded that the following resolution be adopted:

Whereas, At the last meeting of the City Council, a petition was presented signed by G. W. Spencer, W. H. Underwood and P. M. Elder and a large number of the other citizens of the city of Sanford, requesting the adoption of an ordinance providing for the holding of a white man's primary in the City of Sanford for the purpose of nominating all candidates for City offices and.

Whereas said petition was referred to the City Attorney for an opinion as to the legality of such an ordinance and.

Whereas A mass meeting of the citizens has been called to decide upon the method of effecting this measure. Now, therefore,

Be it Resolved, By the City Council that all white citizens of the city of Sanford be requested to attend said meeting for the purpose of effecting the organization aforesaid. Carried.

The assessment books for the year 1911 were presented by the assessor and were examined and accepted.

Moved and seconded that the bills as signed by the President and approved by the finance committee be paid. Carried. Moved and seconded that the council now adjourn. Carried.

M. W. Lovell, Clerk.

The Caldwell Boys

David and Wideman Caldwell, grandsons of the late Dr. Andrew Caldwell, of Sanford, Florida, arrived yesterday afternoon and are guests in the home of Mr. and Mrs. W. S. Lyon. They will spend several days here with relatives and renewing acquaintances of their grand-father, whose name is prominently connected with the early development of Greensboro.

Older residents remember well Dr. Andrew Caldwell and these will be glad to welcome the grand-sons of such a generally beloved and admired grand-sire. The Messrs. Caldwell are prominent merchants of Sanford and are now en route to northern markets to buy fall stocks.—Greensboro (N. C.) News.

Worm Eats The Ice

An ice-dealer in Massachusetts has discovered something new in entomology. It is an ice-worm, that eats nothing but clear ice and gets in its work in the short interval between the ice wagon and the customer's refrigerator. It is being investigated, not as might be supposed by the bureau of entomology, but by the state sealer of weights and measures. Climate and geographical situation seem to exercise no influence upon this strange creature. He is abundant everywhere. Many specimens, or at least many signs of their work, have been observed in Tampa.—Tampa Times.

Home Destroyed by Fire

The home of R. F. Washburne, on the Chapel place was destroyed by fire last Saturday and the entire contents a total loss. Mr. Washburne and his family were away at the time and the flames had gained control before discovered. Assisted by generous donations of friends Mr. Washburne was enabled to take another house and go to housekeeping again. The origin of the fire is unknown.

Swam Across Menroe

Harry Kanner braved the raging deep last Sunday and swam across Lake Monroe in record time. He was accompanied by a boat and reached to within a short distance of the Enterprise dock. On account of his negligence attire he could not land at the dock, but the judges decided that he made the distance all right and established a new record on Menroe.

NEW CRATE FACTORY

Sanford Will Be the Site of Mammoth Industry

SITE PURCHASED THIS WEEK

Sanford Offers a Fine Local Market for Industry of This Kind—Details Will Be Given Later

The Sanford Manufacturing Company is a new concern that will establish a large crate and box factory in Sanford at an early date. The details of the company cannot be given until next week.

The site purchased from the Holden Real Estate Company is on the west side opposite the Virginia-Carolina Chemical Company's plant and borders on Lake Monroe giving the factory ample railroad facilities as well as the water transportation.

The question of the site has been settled in charge are here, today and will make the matter public next week.

Complimentary Dance

One of the most enjoyable social affairs of the season was a dance given by Pope Wicker in honor of Jack Whitaker of Camden, S. C. The guests were received by Miss Gene Wicker on the veranda which was made beautiful with decorations of palms, ferns and golden rod. Delightful music was rendered by Misses Lovell and Fox. Late in the evening refreshments were served. Those present were Misses Emil Purdon, Linda Conelly, Lucie Chappell, Margaret Davis, Charlotte Hand, Margaret Wight, Lillian Higgins, Ruby Betts and Elsie Coats, of Daytona Beach, and Jack Whitaker, Seth Woodruff, Osborne Herndon, Clarence Mahoney, Mac Butt, Karl Hamilton, George McLaughlin, Frank Campbell and Pope Wicker.

New Society Will Organize

On the afternoon of September 14th, at 3 o'clock, the young ladies of Sanford will assemble at the residence of Mrs. Edury Wight for the purpose of organizing themselves into a benevolent society. The name and scope of the society will be determined at the meeting, and it is hoped that every young lady in Sanford above sixteen years of age will be present and take part. Invitations by telephone and postal card will be sent out, but if by oversight any one is not notified, this announcement is to be taken as a cordial wish for co-operation and encouragement. Committee: Misses Mabel Bowler, Elizabeth McLaughlin, Mabel Hand.

Growers Will Make Killing

Florida truckers are preparing to make a big killing this winter through the practical failure of the Irish potato crop of the North and East. Acreage for the full harvest, which is being planted now, has been practically doubled. The big crop, however, will be planted in January.

Old potatoes are now selling at \$5 to \$8 per barrel, and it is expected that the new crop will bring equally good prices. There is now a notable shortage of seed potatoes. Florida's potatoes have always been welcomed into the market, but the state has never gone in for their culture on anything like the scale that will prevail this year.

At Methodist Church

Major Sumner will preach both morning and evening at the First Methodist Church. Morning services at 11 o'clock; subject: "The Church and the Social Problem."

Evening services 7:30 o'clock; subject: "The Last Great Day." All are cordially invited to attend. Seats free.

Story Telling Discontinued

With the delightful stories of Misses Linda Laffer and Gene Wicker last Saturday afternoon, the weekly hour in the park will be discontinued. This has represented the summer work of the W. C. T. U., and it is hoped that the idea will be taken up again later and enlarged upon.

Match 'A' Fiasco!

George Hack Tuesday morning complained of a pain in the knee wrenched in Monday's wrestling match with Frank Gotch. There is no indication of a serious injury. The Russian expects to sail from New York for England on September 9. Gotch had a good night's sleep. He will at once return to his Iowa farm, leaving for Humboldt. The city authorities term Monday's match not a "fiasco" but a "fiasco."
