

CBS Is Charged With Violation Of Anti-Trust Act

ATLANTA, Sept. 11.—The Columbia Broadcasting System defended itself in U. S. District Court today against charges that it conspired to violate federal anti-trust laws and declared "the right to select a customer is not a one-way street."

The network and the Liberty Broadcasting Company of Wheeling, W. Va., are defendants in a suit brought by the Georgia University system board of regents which seeks an injunction preventing transfer of CBS affiliation from state-owned WGST to station WAGA in Atlanta.

WGST, which operates at 5,000 watts daylight power and 1,000 watts night, has been affiliated with CBS for 17 years. It charges that CBS "conspired" with George B. Storer of Wheeling to move its Atlanta affiliation in a three-way deal which gave CBS outlets in WWVA at Wheeling and WAGA in Miami. Storer owns the Wheeling and Miami stations, as well as WAGA in Atlanta.

The hearing pitted two former chairmen of the Federal Communications Commission against one another as opposing counsel. Paul A. Porter appeared with Attorney General Eugene Cook of Georgia for WGST while James Lawrence Fly heads a battery of lawyers defending Liberty and CBS.

Porter said he would show that as a result of concerted action CBS agreed to withdraw its affiliation from WGST in order to obtain a 50,000 watt outlet in Wheeling. "Unless a preliminary and a permanent injunction is forthcoming," he said, "the result will be irreparable damage to WGST and the state board of regents."

Fly, on the other hand, insisted the action was a "simple routine contract" and declared there was "no monopoly, no conspiracy, whatsoever." In fact, he added, the defendant made "every effort" to assist WGST in obtaining another network affiliation.

Daniel McDougal, arguing in behalf of the Sherman and Clayton Anti-Trust Laws, said CBS affiliation for Wheeling, Atlanta and Miami stations owned by Storer were separate contracts. Insisting that a vendor has a right to select his customers, he said freedom of action applied to the one who sells service as well as to the one receiving.

European Crisis

(Continued from Page One)

a momentum which can't be stopped by a yell of "enough." It's form changes, but it still grinds on as an economic catastrophe because of the vast expenditure in human lives and in resources of all kinds.

So World War II isn't finished by a long shot. Not only is it continuing as an economic crisis, marked by stark hunger in many countries, but there has been super-imposed a conflict of political aims — aggressive Communism versus western Democracy — which might lead to another global upheaval unless the rival ideologies can reach some understanding of live and let live.

Therefore, the further sacrifices which we are being asked to make now must be regarded as part and parcel of the obligations of the war which we should like to regard as concluded. And our contribution isn't wholly altruistic, since the welfare of the United States and the rest of the western hemisphere is bound up in the welfare of Eurasia.

To put it coldly, if the eastern hemisphere should go under economically, the western hemisphere could scarcely hope to avoid disaster.

Then, too, the crucial battle of the Iams is being fought in Europe. The western hemisphere's front line is there.

Thus, we likely shall find the situation less irksome if we recognize ourselves to be unchangeable fact that we still have a war to finish, and there's nobody who can do it for us. There's some consolation to be had from the knowledge that the present stage of the conflict is vastly cheaper to finance than was the phase of guns.

Refugee Jews

(Continued from Page One)

camp and make the British recognize us as Palestinians. We insist on going to Palestine."

A veteran of the battles of the Runnymede Park—one of the three British transports—declared, "We are going to continue the sit-down strike we began on the ship."

Officials said that at both camps most of the refugees, refusing to assume as their place of origin tell their true origins, gave Polish and Hebrew or Yiddish as their only language.

In Mons, Belgium, two Jews, a man and woman were sentenced to prison terms and fined today by a Belgian court on charges of transporting explosives for an illegal purpose. The prosecution said they intended to send "letter bombs" to six British military and government leaders in the Middle East.

The two, Elizabeth Latsarus, 31, French writer and former war correspondent, and Jacob Elias, 30, a native of Russia, were arrested at the Belgian frontier. They were carrying 14 packets of explosives, two detonators, a fuse and six envelopes addressed to the British leaders.

President Let Off

(Continued from Page One)

for Steelman. After passing King Neptune's throne, he was led to an "operating" table where his feet were tickled. He was sawed with a paper knife and force to swallow a vile-tasting drink.

Then, with paddles fashioned of canvas-wrapped cloth soaked in salt water, Neptune's minion beat the living daylight out of him as he was led up a platform wired for electrical shocks.

There was more shocking and more noxious medicines and grease for his body until he reached the final chair. Suddenly, over backwards he went into the pool where he was ducked until he yelled "shellback." He was thrown on a greasy chute to the deck, only to run through a blue-long line of paddlers.

The same treatment was given presidential secretary Matthew J. Connelly and Stanley Woodward, state department protocol chief, who forgot to bring his old shellback credentials.

The initiations of Secretaries Charles G. Ross and William D. Hassett were perfunctory, but Brigadier Gen. Wallace H. Graham, presidential physician and his assistant, Capt. Thomas J. Burns, went the full limit.

So did virtually all White House correspondents aboard while the President looked on, chuckling and apparently enjoying every minute of the spectacle.

Wallace Speech

(Continued from Page One)

statement that his (Wallace) has half a billion dollar building program, about 40 percent complete. He cited this as an "answer to any charge that we expect a major depression in the near future."

On the radio program, Wallace was asked by Leland Stowe, program commentator, to give his views on the steel situation, and Wallace replied:

"I do not accuse all steel men of believing in scarcity. There are some who believe in using new methods and creating greater production. But the high control—big steel—is planning for a reduction in steel production that will make a depression inevitable for us all.

"I certainly hope we do not have a depression. But I know that a great depression would cause the American people to move with great speed either to the extreme right or the extreme left."

"Today the steel, automotive and other great industrial concerns have capital—available for investment—amounting to some 15 or 20 billion dollars.

"We now face the danger that this vast reservoir of dollars won't be released—that no major portion of it will flow with sufficient courage to meet the peacetime needs of the United States and the world," Wallace continued.

"Without courage on the part of big business men, without fighting leadership on the part of labor and without intelligent planning on the part of government, the losses from a major depression in the '50's could easily total 500 billion dollars."

Tower's statement said that 2,500,000 tons of new ingot-making capacity would result from projects being completed in 1947 and 1948.

The U. S. uses eight times as much cotton as any other textile fiber, and four times as much as all the others put together.

Steel Head Denies Public Be Damned Policy On Supply

End Of Steel Short- age Is Predicted Within Two Years; Price Rise Holds

WASHINGTON, Sept. 12 (AP)—Two top steel executives predicted today the steel shortage will end within two years, and the industry then will keep pace with demand.

Benjamin Fairless and Eugene Greer, officials of the United States and Bethlehem Steel Corporations, respectively, told the Senate subcommittee on the industry's catching up with "abnormal demands."

NEW YORK, Sept. 12 (AP)—Retail food prices either advanced or held to their high levels today, but hope of a price rise was seen in some wholesale prices for some commodities.

Eggs hit \$1 a dozen in some Philadelphia and New York stores. Choice steaks continued to sell at \$1 a pound or better. Butter commanded \$1.05 in some stores in both cities, and store butter advanced to \$1.05 a pound.

A spokesman for the New York League of Women Shoppers said the organization could no longer recommend the use of substitutes "without feeling like hypocrites."

"We feel we must fight now for a return to price controls and rationing."

WASHINGTON, Sept. 12 (AP)—Senator Martin (R-Pa.) told the nation's top steel executives today that a "public be damned" attitude on their part may lead to government policing—perhaps even nationalization. He drew an immediate retort from Benjamin F. Fairless, president of the U. S. Steel Corporation, who said the industry is doing its level best to meet an "extraordinary" demand for its product.

Fairless declared U. S. Steel is spending half a billion dollars to improve its capacity and far from any "public be damned" viewpoint "our attitude is, and will always continue to be, just the reverse."

The exchange was touched off by a public statement by Martin, chairman of the Senate's special steel committee, saying:

"I realize that steel is a tough business. But in the steel business or in any other business, management has no more right to adopt a 'public be damned' attitude than labor or government."

"In the face of growing pressure for nationalization of such big industries as steel, coal and the railroads, it would be downright stupid for your business to take that position."

"Bear this in mind—such nationalization has been suggested even on the floor of the United States Senate."

Martin prepared his sharply worded statement for the opening of a committee session at which more than a dozen steel company officials were asked to testify. Fairless, first on the witness list, (Continued on Page Six)

Signs Being Made For Tourist Booth

Reflecting signs for the Tourist Information Booth at Seminole Boulevard and Park Avenue are now being made and will be placed atop the building in the near future. Gordon Bradley, assistant City Clerk and secretary of the Jaycees, announced this morning. Although the date for the opening of the booth on a fall seven day week basis has not been set by the Jaycees, this will probably be during the middle of October, he declared.

Meanwhile, Mrs. Gabe Michaels is working at the booth on a five and a half day a week basis getting the files and information facilities ready.

Quere Theft

MALVERNE, N. Y., Sept. 12 (AP)—Malverne police got a call last night from Dr. Alexander Zabin, who lives across the street from the police station. Someone had stolen a station wagon from his garage. Worth \$250, too, he said.

General Bullard Dies

NEW YORK, Sept. 12 (AP)—Lieut. General Lee Bullard, 85, whose distinguished military career of 44 years was highlighted by his service in the first World War for which he was decorated by four nations. He was born in Youngboro, Ala.

18 Are Killed 50 Injured In Ship's Blast

British Liner Reina Del Pacifico Docks In Belfast After Explosion At Sea

BELFAST, Northern Ireland, Sept. 12 (AP)—Eighteen dead or dying men and more than 50 injured were brought ashore today from the British liner Reina Del Pacifico, which docked here badly damaged by an explosion at sea.

While hundreds crowded the dock area, the 17,702-ton motorship was towed in and police began an inquiry, studying among other things what they described as the possibility of sabotage.

The wartime troop transport, on a trial run after being refitted for resumption of peacetime service, was torn by an engineering blast yesterday about 12 miles north of Copeland Island, which lies just off the coast near the mouth of Belfast Bay.

An SOS brought five tug and a lifeboat carrying doctors and nurses. One of the doctors reported 34 of the injured "terribly burned" and said some probably would die. Fifteen men were killed outright and three died this morning in hospitals. The injured, taken off at sea in lifeboats, were put in hospitals in Bangor, Donaghadee and Newtownards.

Belfast newspapers said only crewmen, technicians and a "few officials" of the line, the Pacific Steam Navigation Company, were aboard at the time of the explosion. Reporters, kept away from the vessel, were told by James Campbell, 23-year-old carpenter for the company.

"You would not know the ship. She is fastly finished up. The bulkheads are twisted and the decks are up."

Crowds gathered at the hospital but were barred from the dock.

The 17-year-old Reina Del Pacifico—the name is Spanish for "Queen of the Pacific"—voyaged 500,000 miles on war service without sustaining damage.

Jimmy Crapps Wins Skeet Club Shoot With 19 Out Of 20

Jimmy Crapps, a newcomer at the range of the Sanford Skeet Club at the Municipal Airport Thursday afternoon, set a new high mark for breaking clay pigeons with a score of 19 out of a possible 20.

The pistol and rifle shooters will hold their practices in the future every Wednesday afternoon from 3:00 to 6:00 o'clock while the Skeet Club will continue to hold their matches on Thursday afternoons. Byrd J. Goods, secretary, announced.

The following scores were turned in yesterday afternoon with 20 targets on the 21 yard range:

Five Killed

ALBIA, Ia., Sept. 12 (AP)—Five persons were killed in a collision involving an automobile and two trucks loaded with hogs two miles east of here late last night.

One car, in which all of the victims were riding, sideswiped the second of three trucks, the sheriff said, and crashed into the last truck, driven by John Fogleason, Charlton, Ia.

New Construction

Stimulation of building activity at the Rest Haven development on the shores of Lake Harney near Geneva has followed the building of the Sheriff's lot to consider favorably a petition signed by a number of Sanford business men seeking the return of punchboards.

The letter asked the Sheriff to continue "to give Seminole County the splendid type of law enforcement that you have so capably rendered our citizens since your appointment to your present office by Governor Caldwell."

Lewis And Green At Banquet

SOME OF THE NATION'S top labor leaders attended the testimonial dinner given at a Chicago hotel in honor of David Dubinsky (center), president of the International Ladies Garment Workers Union. Shown with Dubinsky are John L. Lewis (left), head of the United Mine Workers, and William Green, president of the A.F.L. (International)

Superstition, Ignorance And Poverty Plague India

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The barbarity displayed in the communal warfare between Hindus and Moslems in India has come as a shock to the average foreigner who has been accustomed to gauging life in that great and mysterious subcontinent on the basis of acquaintance with its feudalisms and achievements.

Kettles Outlines Fed Grid Outlook At Jaycee Lunch

Players Lack Experience But Have Making Of Good Team

The 1947 Seminole High School grid machine will lack the experience that the club had last year, but we are going to have several outstanding players on the squad. We are going to win some games and lose some games, but we cannot promise the record set by the '44 team," Coach Carl Kettles told the members of the Jaycee Chamber of Commerce yesterday at their regular meeting at the Mayfair Inn.

Picnic Is Planned By Outboard Group

The Sanford Outboard Association met last evening at the Tourist Center with 25 present and made plans for a picnic to be held on Sunday, Sept. 21 at Blue Springs. It was announced by Roy T. Tillis, president. Many members will leave in boats at the launch ramp on Lake Monroe between 8:00 and 9:00 A. M.

Sale Of License Tags Is Reported Slow

Motorists are fairly about securing their new 1948 driver's licenses which can now be secured without delay or standing in line by bringing the old license to one of the three clerks in the hall of the Court House just outside Judge R. W. Ware's office.

Only 2,000 licenses have been issued to date. This is about 400 behind those sold at this time last year, according to Mrs. Letha Fowler, assistant to Judge Ware.

COURT RULING

TALLAHASSEE, Sept. 12 (AP)—The Florida Supreme Court today declined to grant the Republic of Cuba exclusive use of the trade phrase "The Home of Havana Cigars."

NOTICE

Effective Sept. 15, 1947, the subscription rate of The Sanford Herald will be increased to 25 cents a week. Monthly and yearly subscriptions will be increased proportionately at the same time. Paid-in-advance subscriptions will be delivered at the old rate until the expiration date.

The Herald regrets the necessity of increasing its subscription rate at this time, but the price of the paper on which we print is three times higher than it was before the war and other production costs have increased more or less to the same extent.

This is the first increase in these rates which we have made since February, 1938. It will be recalled that at the time we resumed daily publication following a period as a tri-weekly during the war, we made no additional charge for the two additional papers delivered each week to our subscribers.

We feel sure they appreciate our postponing any rate increase as long as possible.

THE SANFORD HERALD

New Cuts Planned To Save British Economy

Church Swindler Is Arraigned In Postal Fraud Case

PHILADELPHIA, Sept. 12 (AP)—A postal fraud in which U. S. Postal Inspector George Sadler said 40 churches in five states were "systematically swindled" of \$200,000 was disclosed here today by the federal court arrangement of a consulting engineer of a new Belmont Philadelphia construction company.

At the same time, Sadler announced that Howard L. Clements, 34, former president of the firm, had been arrested in Miami, Fla., and held in \$25,000 bail for removal to Philadelphia on charges of mail fraud and conspiracy.

Edward T. Mendonca, 52-year-old former employee of the General Engineering and Construction Co., was held by U. S. Commissioner Norman J. Griffin in \$2,000 bail in Philadelphia yesterday for grand jury action on charges of mail fraud and conspiracy.

In one instance, Sadler told Griffin, Clements spent more than \$6,000 in funds raised by church members for salaries that were never contacted.

Sadler said that church organizations had been victimized by the construction company in Pennsylvania, New Jersey, Missouri, Georgia, Illinois, and the District of Columbia. Most of the churches were attended by negroes.

The postal inspector testified that Clements traveled about the country addressing officials of churches and construction companies. He would suggest plans for raising funds, depending upon the ground breaking ceremony.

At such ceremonies, he continued, Clements would deliver an appeal for the church's need, then step forward to contribute his own check for \$500 "just to start the ball rolling."

In one case, Sadler said, paralytic church members contributed \$10,000 on the spot to build the coat of a new building about 25 home owners, he added, had made down payments on homes were never built.

Sadler did not identify any of Clements' associates other than Mendonca.

Lions Club Approves Aid To Blind Plan

The Lions Club approved the Friday plan to raise funds for aid to the blind and to underprivileged youth at its luncheon today. Richard Stephenson of Jacksonville outlined the plan whereby gum vending machines are to be placed in various stores.

General Lee Bullard, 85, whose distinguished military career of 44 years was highlighted by his service in the first World War for which he was decorated by four nations. He was born in Youngboro, Ala.

RIOT IN CAIRO

CAIRO, Sept. 12 (AP)—Police used clubs today in an effort to disperse hundreds of Moslems who gathered in front of the ancient Al Ahar Mosque shouting "Allah" and "down with the Security Council!"

The demonstration was the latest in a series protesting the handling of the British-Egyptian dispute by the United Nations Security Council. The Egyptians demand removal of British troops from the Nile Valley and union of the Sudan with Egypt.

T. J. EDITOR DIES

JACKSONVILLE, Sept. 12 (AP)—Willis Morris Ball, dean of Florida newsmen, editor in chief of the Florida Times-Union for the past 39 years and chairman of the board of directors of the Florida Publishing Company which publishes it, died early today at the age of 88.

CAROL AND LUPESCU
RIO DE JANEIRO, Sept. 12 (AP)—Former King Carol of Romania and Elena Lupescu began packing today to leave Brazil as husband and wife, but with their divorce by union leaders under the Taft-Hartley Act forced the AFL executive council today to postpone its expected announcement of policy toward the Labor Act.

Storm Busting Experiment Is Being Postponed

MIAMI, Sept. 12 (AP)—The Atlantic storm became a full-fledged hurricane with winds of 140 mph in a 24-hour period today, the Weather Bureau reported at 11:45 A. M. It was classified as "very dangerous" as it "pierced the disturbance and found its center at 8:45 A. M. at latitude 17.8 north, longitude 89.3 west, with very heavy rain and severe turbulence."

MIAMI, Sept. 12 (AP)—A severe tropical storm with winds of hurricane force near the center, whipped with mounting power up the South Atlantic today as an announcement was made in Science magazine that the hurricane-busting experiment would not be tried on the particular storm.

Lieut. Comdr. Daniel Rex, head of the operations group of "Project Cirrus," said that "since arrangements for the test have not been completed, the project Cirrus B-17 plane here will not be able to get into operation during the life of this particular storm."

Both the Army and Navy and General Electric, however, are pushing preparations to conduct the first test of breaking up a hurricane by seeding the disturbance with dry ice or other crystals.

The South Atlantic storm was placed in a 4 A. M. (EST) San Juan Weather Bureau advisory at 100 miles east of Antigua, British West Indies. It was expected to reach a point about 200 miles north-northeast of Antigua by tomorrow morning.

Further increase in the winds is expected today. Hurricane force winds of 75 miles an hour or more prevailed near the center, the advisory stated, with gales extending outward 80 to 100 miles.

The storm is moving west-northwestward about 15 miles an hour but it is still too early to determine what course it might take as it approaches land.

The storm's path would cross that of the battleship Missouri, bringing President Truman's home from the Rio de Janeiro Conference, but they were some 1,000 miles apart and the big "Mo" could easily outrun the winds should it become necessary.

COOLER WEATHER Spreads Over West

IN ASSOCIATED PRESS
Cooler weather spread over the country's main corn belt today but federal forecasters said there was no immediate danger of frost.

Temperatures dipped to the low 40's in Nebraska and parts of North Dakota today and similar readings were predicted for Minnesota and Wisconsin tonight.

Cooler weather also was reported in the mountain states, with the mercury dropping to 34 at Cheyenne, Wyo., and 41 at Denver and Lamar, Colo. Higher temperatures, however, were forecast in the northern Rockies and the Pacific northwest.

Rain fell throughout the North Central states, with heaviest falls reported in South Bend, Ind., 1.83 inches; Detroit, 1.74, and Sioux City, Ia., 1.50 inches.

Temperatures in the high 80's were general eastward from the Great Lakes while San Antonio's reading of 87 was the highest in the Gulf states yesterday.

TILLIS HONORED
J. S. Tillis, Atlantic Coast Line railroad, former of the Car Department, Sanford, was awarded today by the company a 25 year emblem for continuous service. Mr. Tillis was originally employed by the railroad on July 25, 1922. The presentation was made by M. Carroll, general foreman.

Larger Exports And Fewer Investments Demanded In Move To Avoid Collapse

LONDON, Sept. 12 (AP)—Sir Stafford Cripps, president of the Board of Trade, announced today new cuts in Britain's armed forces and a dash in permitted capital investments as crisis measures to help stave off economic collapse.

The Labor minister urged an immediate one-third increase in exports, and said capital investments would have to be cut drastically to make the increase possible.

"We need the Labor government would use compulsion, if necessary, with all industry and labor to achieve production targets."

"Though we might be able to get further temporary assistance from the United States of America under the Marshall plan or some other way, we cannot count upon this," Sir Stafford said in an address prepared for 2,000 industrialists and unionists.

"We do not wish to intend to be tied by economic strings to the political policies of other countries, however friendly they may be."

Sir Stafford, warning Britons that even more austerity was in store for them, did not amplify his announcement of additional cuts in the armed services, which would release more manpower for other industries. A high government source said earlier the cuts would go deeper than the government's original goal, which was to slash the services, now totaling 1,300,000 men, to 1,070,000 by March 1948.

Meanwhile in Paris, the British Foreign Office announced that Foreign Secretary Ernest Bevin had postponed the scheduled wind-up session of foreign ministers of 16 nations on the Marshall plan, because of United States criticism of a "final" report on European recovery.

Bevin as chairman of the final session scheduled for next Monday, advised the foreign ministers of the decision and that no alternative date had been suggested. Authoritative London sources said they expected the delay would be at least a month and possibly two, as that the 16 nations' delegations could not get upon American advice to prune their estimates.

A secretariat source here said it was possible the conference would remain in session for almost three additional weeks. In reports the report said would call for nearly \$1,000,000,000 in U. S. aid in the next four years.

French ambassador Henri Bonnet said in Washington that if the French dollar shortage grows more acute his government may have to reduce purchases of artificially cheap American wheat, fats and coal "before very long."

"This could happen but I hope it does not," he said in an interview. Bonnet talked with reporters prior to seeing Secretary of State Marshall to report on his recent trip to France.

The Ambassador said he could not say the precise date when this outbreak of United States purchases might occur. But, he added, the situation is "already very difficult in that respect."

FRIDAY, SEPT. 12, 1947.

BIBLE VERSE FOR TODAY: CHRIST DEMONSTRATED THE MIRACULOUS POWER OF CREATIVE FAITH. WHY NOT USE IT?—Luke 8:48: Thy faith hath made thee whole.

AP writer J. M. Roberts, Jr. is beginning to wonder whether Ernest Bevin, who first wants us to give him our gold, then wants to establish a peace-time Lend-Lease, "knows where he is going, or what he intends to do when he gets there."

Senator Thomas, it seems to us, has a truly brilliant suggestion. He would send all the "chronic belly-achers" over to Europe from which he has just returned. If they had to live there for a few weeks "under conditions as I saw them," they would come back knowing that America is the finest place in the world.

The situation in Palestine is not easy of solution despite repeated assurances to the contrary. The Arab High Committee for Palestine declares that any attempt on the part of the United Nations to enforce a division of Palestine into separate Jewish and Arab states "will only lead to trouble and bloodshed and probably to a third World War."

General Eisenhower has made it as plain as anyone could that he does not relish being a candidate for President of the United States. "I do not think a man who has been a professional soldier should be in any political capacity," he says.

Henry Kaiser says he will reduce prices on steel if the government will reduce his debt to the RFC. On the other hand, if the government gives him 40 or 50 million dollars on his loan, it would have to collect that amount from other taxpayers, who then would have to raise the prices of the things they have to sell.

From the Children's Home Society in Jacksonville comes an urgent appeal for help. "The most urgent appeal ever sent out in our entire 45 years of service to over 53,000 homeless, orphan and pitifully needy children."

Learning To Think

The present Great Books Program, covering the reading and discussion of the written works which form the foundation of a liberal education, was begun in Chicago in 1945 as an experiment carried out by the adult education division of the University of Chicago and the Chicago Public Library.

The only effective education for citizens of a democracy in the contemporary world is a liberal education, for only liberal education equips the citizen to think. Since the atomic bomb has set critical limits on the time which we have to make the right decisions, the re-education of all educable adults is an imperative necessity.

That this necessity is widely recognized is evidenced by the wide popularity of the Great Books method. To cooperate with these groups means concentrated reading, clear, analytical thinking, and the ability to participate in the give and take of lively, impersonal discussion.

Facts underlying present world problems are known to many; historical origins of these facts and of the thought about them are known to few. That the thoughts of great men on the problems of the world and the universe are being so earnestly sought by such a large number of people may come to be an important factor in the world of tomorrow.

Wirtanen's Object

A new planet has been found -- but don't get excited. It is not a major planet like the Earth, Mars, Venus and the rest, an addition to which would be a major event. It is a minor planet, of which over 1,500 are already known.

A family of 1,500 children would probably have some trouble in choosing names. It is the same way with minor planets. Astronomers find it easier to number them. When a new discovery is officially confirmed by other observers, it gets a number.

Considering the fame this designation will give him, Wirtanen probably hopes they never get round to numbering his discovery.

NATIONS CAN GO CRAZY* as well as individuals. Edmund Taylor, a newspaper man whose Oriental impressions have just been written in "Richer by Asia," says that examples of national insanity are "Our obsession with security, the constant feeling of lurking menace, of enemy minds plotting against us."

SANFORD FORUM

Editor, The Sanford Herald, Sanford, Florida. Dear Sir:

The First Baptist Church, during an official business meeting held Sept. 10, unanimously adopted a resolution applauding you for your remarks in an article appearing on the editorial page of The Sanford Herald on Sept. 9, in which you declared, in substance, that there is no reason why law enforcement officers should not turn their backs to murder if they turn their backs on illegal gambling, particularly punch boards in this instance.

We agree with you wholeheartedly, sir, when you ask "if businessmen, who are supposed to be leaders of a community, do not support law enforcement, how can they expect more humble men to obey the law?"

Fraternally yours in Christ, 1159 Members of the First Baptist Church. By Julian L. Stenstrom.

HIGHWAY BIDS

TALLAHASSEE, Sept. 12, (AP)—The State Road Department will receive contractors' bids here Oct. 9 for laying two and a quarter miles of six-lane road on U. S. Highway No. 1 in Daytona Beach.

The strip will be part of the new inter-sectional highway running down the Florida East Coast. Other strips already are under construction or have been completed near the southern end of the state.

Georgia Politics Beginning To Jell For Next Primary

ATLANTA, Sept. 12, (AP)—Opposing factors of the Democratic party jockeyed for position today in Georgia's muddled political arena, but despite belligerence on both sides it appeared likely that 1948 will see just one democratic primary.

Chairman William S. Morris of the Democratic Executive Committee aligned with Governor M. E. Thompson, announced late Tuesday that his rules committee would meet Sept. 22 to set an election date and adopt regulations for the next primary.

Chairman James S. Peters of the rival, Talmadge-aligned Democratic Executive Committee immediately commented that the time for such meetings was early in the spring of the election year, and said his rules committee would meet "when the time is ripe," according to "regular procedure."

Morris and other leaders in the Thompson faction predicted confidently, however, that there would be a single primary, and Peters' comments did not close the door to this.

Peters, in previous public statements, repeatedly has said he expects Herman Talmadge to run against Gov. Thompson in one primary, and that he does not expect Thompson's partisans to bar Talmadge.

Highly-placed associates of Thompson similarly have made it plain that they intend to do nothing which would commit Talmadge to running in a separate primary, explaining it would be political disaster to make rejection of his candidacy a campaign issue.

Sources close to Talmadge, meanwhile, speculated that Peters would call his executive committee into session long before next spring—possibly as early as October or November—to consider the forthcoming campaign.

One source suggested that an effort might be made to mediate the dispute in a meeting of 15 political leaders—five representing Thompson, five representing Talmadge and five attending in behalf of United States Senator Richard B. Russell.

This idea, however, has been coldly received by the Thompson high command, which views it as nothing but domination by adherents of Russell. Moreover, the Thompson faction contends that it cannot recognize any act or delegation of the Talmadge leaders that Thompson summoned a new state convention last spring. Peters and his committee were charged with quitting the party when the approval vote for Herman Talmadge as governor in the 1948 general election.

Meanwhile, Gov. Thompson moved forward with organization of Georgia's Young Democrats. Robert Knox of Thomson, who has been serving as temporary chairman of Georgia Young Democratic Club, was named president by Thompson at a session of party officials. State democratic officials have approved a charger for the Thompson Young Democrats.

Other officers selected were Mrs. Lillian Barkley of Jasper, first vice-president; Olin Price of Athens, second vice-president; and Mrs. Robert M. Dush of Atlanta, secretary-treasurer.

One of 14 conferences being held throughout the State to promote efficiency and harmony in vocational agriculture work as part of the total school program, said Supt. English.

India's Plight

(Continued from Page One)

the paths their ancestors trod centuries ago. Only 14 percent of them above the age of five are literate, and anything beyond the ability to read and write simple letters is confined to a comparative few. The rank and file are deep in ignorance and superstition; they take their bodily ills and mental troubles to the spirit doctors who deal in lore of centuries past; their regard for human life (the other fellow's life) isn't high, and the Moslem in many instances is quite ready to gamble his own existence against fate.

So the present bloody crisis, which Pandit Nehru characterizes as "analogous to war," can be attributed to a release of primitive passions in communities which long have been born by religious and political differences. There was the butchery of Hindus and Sikhs (Sikhism is allied to Hinduism) by irate Moslems in the Punjab area of newly created Pakistan. And what is more natural under the circumstances than that the Hindus of New and Old Delhi should retaliate with sword and bullet on the big Moslem population there.

The fury of the initial communal fighting has subsided greatly. Still one doesn't venture to predict what may be in store for the big peninsula before it has negotiated the passage from turmoil to peaceful independence. One

can foresee the possibility of much more mourning in Moslem villages, and Hindu funeral pyres will tell their story of strife. Despite all this we shall make a great mistake, it seems to me, if we jump to the conclusion that the peninsula isn't capable of self-rule. There is a host of highly educated and capable men and women from whom to choose the governments. The universities and colleges for both sexes yearly are turning out a large number of eager candidates for public service.

The mentality of the Indian is high and he is capable of great things. The only way he can learn to govern is by governing. This transitional period may produce even greater storms than we have seen—possibly even all-out civil war—but your correspondent, having spent nearly a year in that country at various times, still believes there are the makings of a great power on the peninsula.

Social And Personal Activities

Social Calendar

FRIDAY
The Sanford Townsends Club will meet in the Tourist Center at 8:00 o'clock, and following the meeting cards and checkers will be enjoyed and refreshments served. All members and friends are invited.

MONDAY
The Prayer Band of the Presbyterian Women's auxiliary will meet at 3:00 P. M. At 3:30 P. M. the regular monthly meeting of the Presbyterian Women's auxiliary will be held.

TUESDAY
The R. W. Ware Bible Class of the First Methodist Church will have a covered dish supper and election of officers at the church at 7:00 P. M. Hostesses will be Mrs. J. P. Bates, Miss Ella Bolton and Mrs. Clyde Brockman.

A meeting of the Grammar School P. T. A. will be held at 3:15 P. M. for the purpose of electing a president.

The American Legion auxiliary will have a covered dish supper at 7:00 P. M. at the Legion Hut. Games will be played following the supper.

Mary Holland Wed To J. D. Lewis In Bartow

Mary Groover Holland, daughter of Sen. and Mrs. Spessard L. Holland of Bartow, became the bride of Jefferson Davis Lewis, son of Mr. and Mrs. George Edward Lewis of Tallahassee, in an impressive candlelight ceremony performed last night at the Bartow First Methodist Church. The Rev. Jack Davis of Sarasota, uncle of the bridegroom, performed the ceremony before a large assemblage of friends and relatives of the couple.

Mrs. Roscoe Nunnally Skipper of Lakeland, aunt of the bride, and Mrs. William B. Holland, mezzo-soprano, and sister-in-law of the bride, rendered a program of nuptial music.

The bride was given in marriage by her father and her attendants were Mrs. Bruce Gravette of Ft. Myers, matron of honor, Miss Ivanhoe Holland, maid of honor, and bridesmaids were the Misses Melissa Wilson, Isabelle Wilson, Nell Clark of Tampa and Sarah Lewis of Tallahassee.

Frank Lewis of Tallahassee served as best man for his brother and ushers included Lindsey Holland and William B. Holland of Bartow, brothers of the bride, Chester Lewis, brother of the bridegroom, John A. Henderson and David Avant, all of Tallahassee, and Clarence A. Boswell, III, Bartow.

Immediately following the ceremony a reception was held at the Bartow Woman's Club and the Holland home was the scene of a house where the guests viewed the gifts. Late in the evening the couple left for a wedding trip in Nassau, Bahama Islands, and after Oct. 1 will make their home at Los Robles, Tallahassee.

Personals

Mrs. E. D. Wells has left for Winter Park where she plans to spend several months.

Mr. and Mrs. J. M. Cameron have as their guest, Mrs. Sara Cameron, of Leesburg.

Lawrence Horton left today for Gainesville to enter the University of Florida for the winter session.

Al Robson, who is associated with Florida Airways, is spending a weeks vacation in West Palm Beach, Miami and Dania.

E. C. Smith, Jr. and Jack Standifer of the Sanford Furniture Company will attend a school of instruction on "Deep Freeze" in Jacksonville next week.

Miss Iris Gay Flowers, daughter of Mr. and Mrs. C. M. Flowers of Celery Avenue, will leave on Tuesday to enter her freshman year at Wesleyan Conservatory in Macon, Ga.

Simon Dingfelder left yesterday for New York City where he will visit with his grandparents for a short while before leaving for Ithaca, N. Y. to enter Cornell University.

Mr. and Mrs. Theo Pate and son, Harold, have returned to Sanford after a business trip in Maryland, New York and Canada. En route home they visited in Detroit and Louisville, Ky.

Mr. and Mrs. George Harden left on Wednesday accompanied by Miss Lillian Boyle and their son, Spencer Harden, for Durham, N. C. where Miss Boyle and Mr. Harden will enter Duke University.

Friends of Henry Tamm, Jr. will regret to learn that he underwent a minor operation in the hospital in Jacksonville. He was accompanied to Jacksonville by his parents. From there they plan to visit for the weekend in Savannah, Ga.

Friends of Julian Stenstrom will be interested to learn that he underwent a tonsillectomy at the Forsyth Loughran Memorial Hospital this morning and is reported to be recuperating nicely. He will be confined to his home in the Park Apartments.

Mr. and Mrs. D. E. Norwood have as their guests at their home in Lake Monroe Mrs. Norwood's parents, Mr. and Mrs. C. F. Jones, her brother and sister-in-law, Mr. and Mrs. J. C. Jones and son, Ki, and another brother, Lloyd Edward Jones, all of Straun, Tex.

Mrs. R. M. Burns, Mrs. Clyde Dickerson, Mrs. J. B. Williams, Mrs. H. S. Kent, Mrs. J. F. Lewis, Mrs. Roche, Mrs. Peurifoy and Mrs. Nettie Tillis.

The most points scored by any one eleven in a single quarter in Jacksonville, Florida's annual Gator Bowl football game was the 20 points chalked up by Calahoma against North Carolina State in the second period of the 1947 clash.

Edgar L. Laney Is Given Promotion

Edgar L. Laney, son of Mr. and Mrs. E. L. Laney of Sanford, has been promoted from associate regional manager of the Prudential Life Insurance Co. to eastern regional manager with headquarters in the home office at Newark, N. J.

In his new position, Mr. Laney will supervise Prudential's ordinary agencies' activities in all of the New England states and in the greater part of New York and Pennsylvania.

The new regional manager is 28 years of age and is married to the former Marcelle Horne, daughter of Dr. and Mrs. H. Foxworth Horne of Jacksonville.

After graduating from Sanford's Seminole High School in 1937, Mr. Laney attended the University of Florida. He started his business career at Jacksonville in 1939 with the Commercial Credit Corp. He left the latter organization in 1941 to join Prudential as a special agent and was later promoted to assistant manager of the company's Jacksonville office.

Mr. Laney was assigned to Prudential's home office at Newark, N. J. in Dec., 1946, as an associate regional manager. He is a veteran of World War II, having served with the U. S. Navy from Aug., 1944 to Jan. 1946.

Buffet Supper Held Wednesday At Club

A delicious menu consisting of roast turkey, dressing, mashed potatoes, cranberry sauce, lettuce and tomato, salad, hot rolls and coffee was prepared by the chef of the Seminole Country Club for a buffet supper held on Wednesday evening at 6:30 o'clock at the club. Charles Potter, manager, announced today that he was going to try to have the buffet suppers served frequently on Wednesday night instead of the a la carte dinners.

Demonstration Club Has Wednesday Meet

Mrs. C. M. Flowers presided over the regular meeting of the Sanford Home Demonstration Club on Wednesday afternoon at the home of Mrs. M. L. Tillis, 1109 Elm Avenue. Mrs. Flowers welcomed several new members to the group and appointed Mrs. W. L. Roche as press chairman and Mrs. R. E. Peurifoy as publicity chairman to fill the vacancy caused by the resignation of Mrs. M. J. Tillis.

Mrs. Ouida Wilson, county home demonstration agent, spoke on the duties of the various chairman and time savers in the kitchen. Her talk was illustrated with pictures. Announcement was made that the October meeting will be held at the home of Mrs. J. P. Thurmond on Elm Avenue. Following adjournment of the meeting the hostesses, presided by Miss Ella Lee Kirchoff and Mrs. Peurifoy, served a salad course and fruit punch.

Those attending the meeting were Mrs. W. A. Hunter, Mrs. R. T. Warren, Mrs. V. G. Hasty, Mrs. W. B. Brinson, Mrs. Roy Tillis, Mrs. W. A. McMullen, Miss Kirchoff, Mrs. M. L. Tillis, Mrs. Thurmond, Mrs. William Schnabel, Mrs. O. E. White, Mrs. M. M. Cleveland, Mrs. W. B. Stovall, Mrs. Flowers, Mrs. Wilson, Mrs. Zada Lord, Mrs. R. W. Lippincott.

Pope Pius Outlines Women's Four Duties

VATICAN CITY, Sept. 12. (AP)—Pope Pius XII outlined to 1,500 delegates of two international Catholic women's federations last night four duties which he said must be observed by Catholic womanhood to counteract "perils without precedent to which the women of today are exposed."

The Pontiff addressed delegates of the International Federation of Catholic Women and the International Federation of Catholic Young Women at the Hall of Benediction in the Vatican, the agency said, and laid down the following precepts:

1. Pure and ingenuous faith in prayer, humility and sacrifice.
2. An active presence wherever religious interests are in play.
3. Fidelity to the social activities of the church in such a way as to contrast with theories inimical to the church's doctrines.
4. Active participation in political life so as to safeguard the rights of matrimony, of school, of women and of youth, where there is no conflict between such activity and the duties of the woman toward the family.

Grid League Shows Large Attendance Increase This Year

NEW YORK, Sept. 12. (AP)—With attendance already running 113,535, or 72 per cent ahead of the corresponding period of the 1946 season, the 1947 All-America Football Conference schedule moves into its third week-end with two games tonight and two more on Sunday.

Average attendance to date, based on the first seven games, is 37,482, compared with 22,692 for the same number of games last year, the conference's first season.

The Brooklyn Dodgers open their home season at Ebbets Field tonight, entertaining the Champion Cleveland Browns. The Browns defeated Buffalo 30-14 in their opener a week ago, while the Dodgers have lost both starts, a 23-7 verdict to San Francisco and a 10-7 loss to the circuit newcomer, Baltimore.

The New York Yankees, topping the league in total offense and passing, meet the Dons at Los Angeles in tonight's other game. Each has broken even in two games and need a victory to keep pace with the leaders.

On Sunday, the Eastern division leading Baltimore Colts invade San Francisco to meet the 49ers, currently atop the Western half of the league. The Chicago Rockets go to Buffalo seeking their first victory in three starts.

From 1776 until 1820 the number of Europeans who migrated to the United States totaled 250,000.

World Series Tilt Schedule Has Been Made By Chandler

CINCINNATI, Sept. 12. (AP)—The World Series will begin Tuesday, Sept. 20 in Yankee Stadium if the New York American League club and the Brooklyn team of the National League win the pennants in their respective circuits.

Should the St. Louis Cardinals win in the National League and the Yankees in the American, however, the series would open Oct. 1 at Yankee Stadium.

Two games would be played there. Oct. 3 would be an open date to enable the clubs to go to St. Louis. Games would be played in St. Louis on Oct. 4, 5 and 6. Should additional play be needed, Oct. 7 would be an open date so the clubs could go back to New York for the end of the series.

Should the Dodgers and Yankees be the world series contenders, the first two games will be played at Yankee Stadium, the next three at Ebbets Field, Brooklyn, and the final two, if needed, at Yankee Stadium.

The decisions were reached at a meeting yesterday between Baseball Commissioner A. B. Chandler and representatives of the leading clubs in the two pennant chases.

Postponed games will be played in the same park as originally scheduled. A tie game will be played in the same park where the seventh game is played, with a day interval for sale of tickets.

Game time will be 1:30 P. M. (in the time zone of the home team), except for Sunday, Oct. 5, should Brooklyn oppose the Yanks, when the game will start at 2:05 P. M.

COMMENTS from the SIDELINES

By ARTHUR BECKWITH, JR.

New Dressing Room? We received the following letter in the mail this morning:

"Arthur Beckwith, Jr., Sports Editor, Sanford Herald

"Dear Art: Thursday Buddy Lake and I made a visit to Seminole High School."

"The purpose of this visit was to see our 1947 edition of the Celery Feds. Also to grab a little with Goose and Tim. We were a little early and wandered down to the dressing room in search of Goose."

"The stench that met us as we entered the dressing room was almost unbearable. There were at least 50 boys crowded into this small room with more coming all the time. If there is any ventilation I did not see it other than the door we had entered. Frankly, if I wanted to punish someone, that room would be the ideal place in which to commit them. Certainly, a place that dirty and smelly would be ideal to breed any kind of disease."

"Are we going to allow this condition to continue? If our High School of all places—where our teachers are teaching the children new methods of hygiene."

"I understand a building for this purpose has been purchased at the Orlando Air Base, but no method has been found to get this building to Sanford. If the present progress continues, the boys should be able to dress in it about 1950."

"Friends, even though you may not have any children in High School, it is time we all get together and demand some action. This condition should be corrected immediately."

John Krider, Sr. We agree with you, John, that the building should be brought to the high school area immediately. Yesterday at their noon meeting, the Seminole County Junior Cham-

Dons Will Attempt To Break Attendance Records This Evening

LOS ANGELES, Sept. 12. (AP)—The Los Angeles Dons line up tonight against the New York Yankees in the local All-America Football conference opener that promises to attract more than 60,000 spectators.

In fact, the Glenn Dobbs-enforced Dons have visions of setting some sort of regular program record for Memorial Coliseum, the huge concrete oval they call home.

The line of Dobbs, plus such Yankee hitters as Buddy Young, Frankie Strickland and Spec Sanders, might bring out more than the 68,831 who saw the Chicago Bears and rival National League Rams play last fall. Dons officials hoped to surpass the All-America conference mark of 70,124.

Dobbs the 1946 AA most valuable acquired from Brooklyn this week, is slated to start at fullback in the T-formation. Coach Dud De Groof has rigged up some new plays to take advantage of Dobbs' outstanding pass and punt talents, which heretofore have been displayed only in the single wing system.

Eddie Prokop and Bob Kennedy will help to put the Yankee running attack in high gear. The Dons will rely largely on the passing of Charley O'Rourke. Their running game has been negligible.

A Hollywood-type, pregame-pagant featuring 25 bands will be marshalled by stockholder Don Ameche, and Bob Hope, Mickey Rooney, Al Jolson and Jimmy Durante.

Joe Louis Signs For Non-Title Tiff With Jersey Walcott

NEW YORK, Sept. 12. (AP)—Heavyweight Champion Joe Louis, through his co-manager Marshall Miles, yesterday signed contracts for his so-called best round non-title bout against Jersey Joe Walcott at Madison Square Garden, Nov. 14.

Walcott signed for the fight some weeks ago.

Miles said that Louis would start training at West Baden, Ind., Sept. 15, and would turn to serious work on Oct. 12 at Pompton Lakes, N. J. The Champion's regular trainer, Manny Seaman, will leave for West Baden Sunday to join Louis, who now is playing in a golf tournament at Kankakee, Ill.

Miles said that Louis understands that if he should be knocked out in this bout, he will lose the heavyweight title. However, the contracts stipulated that it

YESTERDAY'S STARS

Ralph Kiner, Pirates, slammed four home runs in double header with Braves, one in the first game and three in the second to tie Johnny Mize of the Giants for the league lead with 47. He made three hits in each game and drove in seven runs.

Hank Behrman, Dodgers, replaced Ralph Branca in the eighth inning with the potential tying and winning runs on and only one out, and prevented any further score as the Dodgers nipped the Cards 4-3.

Teams from North Carolina have predominated in Jacksonville's two Gator Bowl gridiron clashes. Wake Forest participated in the 1946 game and North Carolina State played in the 1947 encounter.

About 20,000 miles of railroad line were abandoned in the United States between 1916 and 1940.

From 1900 to 1914 there were about 1,000,000 annual immigrants to the United States.

ber of Commerce undertook the project of getting some method of transportation for moving the building.

It is true that none of the Jaycees have youngsters in the local high school, but they seemed to be the only ones interested enough in the well-being of the Seminole High School youths to do something about the matter. All hail to the Jaycees for their courage to face these needed civic projects!!!

During the American Revolution, American money fell to 1,000th of its original value.

 I'D LIKE TO FIND OUT THE GIRLS NAME!
 WHOA! ETTA! SHE L...

AP Director Asks News Broadcasts Free Of Control

CHICAGO, Sept. 12 (AP)—Brig. General David Sarnoff, president and chairman of the board of RCA, today urged establishment of a network of United Nations radio stations in "powerful short-wave transmitters at strategic points around the globe" to help win "the battle for the minds of men." In an address at a luncheon of the Chicago Council on Foreign Relations in honor of the U. S. National Commission for the United Nations Educational, Scientific and Cultural Organization (UNESCO), General Sarnoff contended that since V-J Day "another global conflict has started—a battle for the minds of men."

ATLANTIC CITY, N. J., Sept. 12 (AP)—Kent Cooper, executive director of the Associated Press, suggested today that the broadcasting industry disseminate news abroad "free from government supervision as to form and text."

Cooper made the suggestion in an address prepared for a convention luncheon of the National Broadcasting Company. He urged press and radio to recognize a mutual interest in guarding against encroachments on freedom of press and freedom of speech.

Commenting that the United States government was now engaged in broadcasting news abroad, Cooper said "the people need to be watchful" of continuance of a "trend toward propaganda in the guise of news dissemination by governments in peacetime."

Cooper said the broadcasting industry "is seeking to be healthily independent of government and is appealing to the public to confer upon it the same freedom and independence that the American press enjoys."

"If this same freedom and independence are to be conferred," he said, "then, it seems to me, radio should be consistent and insist upon an opportunity to prove its character and integrity by conducting foreign news dissemination free from government supervision as to form and text. If the government retains control, then the foreign news emissions become government propaganda."

"If radio establishes certainty in its news operations, certainly the public will demand that it be given the same freedom and independence our free press enjoys. The instrument that has made mass communication of speech efficient must not in any way be restrained or censored by government, which should be aware that the great radio industry has been generously and trustfully hailed by the people. When awakened to the realities, they will insist upon radio's complete independence from government intervention and dictation."

Discussing his proposal for a mutuality of interest between press and radio, Cooper said he was convinced that "the greatest mutual security for both the radio and the press would arise out of a newspaper and radio station fellowship that made the collection of truthful unbiased news its common cause."

Food Handlers To Get Instruction

A mobile, state-wide school for commercial food handlers is due to visit Sanford in the near future, it was announced today by Dr. Frank B. Quillman, director of the Seminole County Health Unit.

He invited Dr. Wilson T. Sowder, State health officer, as stating that the course is a cooperative one sponsored by the State Board of Health, the Florida Hotel Commission and the Florida Restaurant Association.

It is designed for waitresses, bus boys, dishwashers, cooks and all other personnel working in restaurants, luncheons and bars. The instructional material is based primarily on elementary sanitation and for the most part will be presented through movies, slides and other visual aids. It is being prepared by the Bureau of Sanitary Engineering and the Division of Health Information and will be presented by personnel of those departments.

Grid Outlook

(Continued from Page One)

program for the youngsters of the Junior High School.

Coach Tim Tyler was unable to attend the meeting, since the luncheon hour conflicted with his class schedule.

The Jaycees are undertaking the project of moving the Army barracks from the Pine Castle Air Base to the High School Field. Kelley stated that the barracks would be used as a dressing room, field house and shower room for the players. Those appointed to work with the Sanford coaches and Principal Herman Morris on the project included Jack Morrison, Brailey Odham, Karlisle Housholder, B. L. Perkins, Jr., Capt. Byrd Hudson and Rev. Douglas Charles.

The October 2 meeting has been designated as a night meeting and will be ladies night. All Jaycee members are urged to attend the affair and bring their wives or girl friends.

Charles Luke reported that approximately \$5,500 had been donated by the people of Seminole County for the operation of the Tourist Information Booth.

Whit Bishop, new Sanford merchant, was introduced to the group as a guest.

aware that the great radio industry has been generously and trustfully hailed by the people. When awakened to the realities, they will insist upon radio's complete independence from government intervention and dictation."

Discussing his proposal for a mutuality of interest between press and radio, Cooper said he was convinced that "the greatest mutual security for both the radio and the press would arise out of a newspaper and radio station fellowship that made the collection of truthful unbiased news its common cause."

Controversy Rages Over Oil Painting

HOLLYWOOD, Sept. 12 (AP)—A controversy was still flaring today over an oil painting which showed a pretty young woman nude from the waist up.

The painting has been destroyed but the debate lingers on. Model Carol Janis says the face was hers but the figure—no, emphatically no. She insists that Artist Edward Withers painted somebody else's figure to go with her head.

Artist Withers denied this, telling reporters yesterday: "There would be no reason for me to paint Miss Janis' head on another woman's torso, that might be done in cases where the model had a beautiful face and an ugly body. But Miss Janis has probably the world's most beautiful figure."

It all started when somebody slashed the picture with a knife and then destroyed it after a reproduction appeared in a national magazine.

Run-Away Boy Has Collapse In Miami

MIAMI, Sept. 12 (AP)—Two 15-year-old boys who ran away from their Cleveland, Ohio, home Aug. 7 and were thought to have drowned, were found here yesterday when one nearly collapsed from hunger at Shenandoah Junior High School where he was a student.

Hugh Mellon, who attended classes while his buddy, Paul Leslie, worked as a plumber's helper to support them both, skipped a class to report to the first aid room complaining of dizziness.

There he admitted to Dean N. Black that he had not eaten for two days, since their funds ran out. He had been living at a rooming-house under an assumed name but had registered at school correctly.

Dean Black and Principal Olin Webb notified juvenile authorities and Detective Hardy Bryan took over from there. The boys are being held for Cleveland authorities.

The boys disappeared Aug. 7 after telling their parents they were going swimming. Cleveland newspapers carried reports the next day of their probable deaths by drowning.

They told Bryan they decided to come to Miami after a truck driver friend told them they could make \$50 to \$60 a week during the winter here as bellhops.

Leslie said he withdrew \$300 from a savings account, because they left Cleveland but it didn't last long. He had been working for a plumbing firm here, but had not been there a week and had not been paid.

"Well, anyway, we won't miss out on the ice skating this winter," Mellon said.

"Maybe we'll get to see the Indians play again this year," Leslie reminded him.

Immediately after receiving a box of cut flowers, cut stems and place them in water.

Steel Inquiry

(Continued from Page One)
was ready with a statement in reply.

"So far as it has been within our power," he said, "we have tried to distribute our steel production equitably among many thousands of users of steel in a way designed to serve the best interests of the country as a whole."

He declared that as a result of wartime interruption of production for normal uses, plus "an industry loss" of 15,000,000 tons of steel production resulting from the serious steel and coal strikes since V-J Day, "demand for many steel products is 'temporarily in excess of current supply.'"

Fairless said his corporation "recognizes that in the public interest it shares some of the responsibility for meeting this demand and added:

"We have attempted and are now attempting to meet this responsibility to the best of our ability." Martin said his group has heard "sound estimates" that 2,000,000 tons of steel has gone into the "gray market" this year at prices far above the normal figure.

Fairless replied: "U. S. Steel has tried to prevent any of its steel moving in improper channels. We believe we have had good success. If this committee will point to any specific case involving U. S. Steel, I assure you that the matter will be corrected promptly, if we can legally do so."

The American people do not object to business, Martin replied, except when it is employed to fix prices, to stifle competition and to destroy initiative. Wise big business, he added, polices itself.

The senator termed it "a vicious condition" when small businessmen are forced to pay as much as \$300 — and on the west coast, \$600 — a ton for steel at a time when the normal price was from \$75 to \$90. The committee, he added, has "incontrovertible" evidence that such prices have been paid.

Secretary Harriman Advocates Americans Consume Less Meat

Insists This Is Best Way To Feed Europe And To Help Avert Anarchy And Chaos

WASHINGTON, Sept. 15. (AP)—A CIO leader today urged that a special session of Congress be held immediately to re-establish price controls and rationing. Frank J. Bean, president of the Rhode Island State CIO, told a congressional subcommittee holding public hearings on the price situation he believed high corporate profits rather than wages were responsible for the upward price spiral, and added, "The situation has become insufferable."

WASHINGTON, Sept. 15. (AP)—Under Secretary of Agriculture Norris E. Dodd said today that the only way to avert famine abroad and prevent the collapse of friendly European governments, he said, would be to ration meat. He said such rationing should be done in two ways: (1) A reduction by housewives in the purchase of livestock products such as meats, milk, butter, eggs and poultry. (2) A reduction by farmers in feeding of grain to livestock, particularly the use of less wheat for feed.

Dodd, who is acting as Secretary in the absence of Secretary Anderson from Washington, suggested voluntary rationing at a news conference.

CLEVELAND, Sept. 15. (AP)—Secretary of Commerce Harriman today asked the American people to "voluntarily reduce" their consumption of meat to help feed the people of western Europe.

Harriman said this is one of the ways in which the United States can provide Europe with food necessary to make the Marshall plan of recovery work and "avert anarchy and chaos" in the world.

Sanford Dancing School Featured In Publication

"Dance," a national screen and stage trade publication, featured in its September issue an "Around the Clock" story with pictures of Mrs. Peter H. Topik, owner of the Sanford Dancing School. The pictures and accompanying story show her at her classes during the convention of the Dance Educators of America in New York City where she studies each summer under well-known artists in the dance field.

The story states, "Sanford is a quiet little place in the geographical heart of Florida, quiet until several hundred of its kiddies converge upon Marjorie's lakeside school. On a clear day you can hear them all the way to Orlando."

Mrs. Topik's background is told in detail with humor and accuracy. The pictures show her in her tag and ballet classes in New York, at lunch in the Museum of Modern Art and enrolling her pupils from Sanford and Orlando.

She is also shown in the Kamin Dance Book Shop selecting books to bring back to Florida, at the foot of the Prometheus fountain in Rockefeller Plaza, at the Roxey Theater and chatting with Elyria Villot and George Leon, who entertained the convention this year and with Lita and Gabriel at the Sky Gardens of the St. Moritz Hotel where they are appearing.

Shake-up Predicted In British Cabinet

LONDON, Sept. 15. (AP)—Prime Minister Attlee will reshuffle his cabinet soon, an authoritative source said today, with the aim of gaining strength to deal with economic troubles.

This source said there was no possibility of changes involving the cabinet's "big four"—Ernest Bevin, Herbert Morrison, Sir Stafford Cripps and Hugh Dalton. There was speculation the shake-up might involve A. V. Alexander, defense minister; John Wilmot, minister of supply; Amosyn Beynon, health minister; Arthur Greenwood, minister without portfolio; and Viscount Addison, secretary of commonwealth relations.

U. N. Assembly Is Prepared To Open Meet Tomorrow

U. S. Challenges Russia To Co-operate Or Face Isolation

By JOHN A. PARRIS, JR.
NEW YORK, Sept. 15. (AP)—The United States indirectly challenged Russia today to cooperate with the United Nations or face a world judgment that none can veto.

The challenge was couched in meaningful diplomatic language and came as an array of world leaders converged on New York for the opening tomorrow of a crucial session of the United Nations Assembly.

Obviously referring to Russia's use of the veto in the Security Council, Secretary of State George C. Marshall said in an address yesterday that members of the United Nations "have by no means exhausted the potentialities of the charter in finding ways and means of overcoming obstruction and of meeting their common problems."

"We find it difficult to believe," he said, "that members of the organization would deliberately seek to destroy its structure, by persistence in acts of aggression or by obstruction of a nature to paralyze the principal organs of the organization."

At Tarrytown, N. Y., John Foster Dulles, a member of the U. S. delegation to the United Nations Assembly, said that every government now realizes "if it goes against a strong prevailing moral judgment it may suffer serious consequences."

"It was never expected that the Security Council could act decisively when great powers were on opposite sides," Dulles said. "It was expected, that even under these conditions, the U. N. could act far more peacefully by requiring every nation, however powerful, to submit to a public judgment which none could veto—if it would be the conscience of the world."

In Baltimore, U. N. Secretary-General Trygve Lie said it was not the big powers that the former

Home Building Co. To Be Located Here

A Miami builder of pre-fabricated homes known as Tec Company, Inc. today informed City Manager H. N. Sayer that the company's proposition for location of one of their plants in buildings owned by the City at the Sanford Municipal Airport, has been approved.

Company officials of the firm indicated in their letter that they planned to get into operation by Oct. 1, and that they contemplate an output of one house a day to serve Sanford and surrounding district. They will occupy the maintenance and auxiliary buildings at the Airport.

This may result in the employment of several dozen workers, it was predicted.

Manager Edward Higgins today pointed out that negotiations between the Tec Company and the Chamber of Commerce and the Tec Company had been going on for several months, and that the firm will manufacture homes to sell throughout Central Florida. He declared that it is planned to utilize other portions of the airport for industrial or business use as soon as they are turned over to the City.

53 Communists Are Sentenced To Death

SALONIKA, Greece, Sept. 15. (AP)—A Greek military court today sentenced 53 members of a Communist extremist organization to death. They were charged with abetting a Communist plot to seize Salonika.

The group also was accused of participating in the slaying of two Greek airforce officers and the wounding of nine others when grenades were thrown into a truck on a Salonika thoroughfare April 13.

New York Giants To Train In Sanford

"It looks like the New York Giants are really going to bring their farm clubs to Sanford next spring," City Manager H. N. Sayer asserted this morning, after receiving a letter from Edgar P. Freely, treasurer of the Giant organization.

Alert Sounded For Florida In Hurricane Path

Warnings Displayed From Vero Beach To Hatteras But Re- curve Is Expected

JACKSONVILLE, Sept. 15. (AP)—Capt. William E. Gentner, director of training of the naval advanced air training corps here, said some 300 planes from Key West to Jacksonville were being evacuated or secured because of the possibility of the hurricane hitting this area.

BOSTON, Sept. 15. (AP)—F. B. I. district headquarters reported that a group of 650 navy aircraft from the Norfolk area to four points in New York state—Rome, Utica, Buffalo and Syracuse—was begun today as a precautionary measure based on reports of the Atlantic hurricane.

TOKYO, Sept. 15. (AP)—Hundreds of families were evacuated from their homes in various sections of Honshu Island today as a result of torrential rains preceded a typhoon rushing toward Japan from the Pacific.

Among those evacuated were families of First Cavalry Division artillery units stationed at Ota, a residential district 65 miles north of Tokyo. There were no casualties reported.

MIAMI, Sept. 15. (AP)—A preliminary hurricane alert was sounded today for residents along a 750-mile stretch of the Eastern Seaboard between Vero Beach, Fla., and Cape Hatteras, N. C., as a great storm with winds up to 140 miles an hour raged through the Atlantic.

Actual storm warnings have not been displayed. The alerted area contains some of the South's most populous and historic cities—Daytona Beach, Jacksonville, Brunswick, Savannah, Charleston and Wilmington. The storm center at noon was 400 miles east-southeast of Vero Beach, moving between the northeast and northwest.

Grady Norton, chief forecaster in the Weather Bureau's storm warning service, said the alert is not intended to spread alarm, but only to advise persons in the alerted area to plan for the possibility of a hurricane and to keep informed of advisories. He confidently predicted a northward recurve which would end the danger.

Storm warnings were flying in the northeastern Bahamas Islands today as an army hurricane hunter searched the area for the center of the Windward Islands where three ships reported a new low pressure area—possibly another storm—was developing.

The present major hurricane developed in the same area five days ago.

The storm's center was placed in an 11:30 A. M. advisory at latitude 25 north, longitude 74.2 west. This position is 200 miles northeast of Nassau, or 305 miles slightly north of east of Miami.

Only a few islands, principally the Abaco group, were expected to feel gales and high seas as the storm bypassed the main Bahamas group. Betty Carstairs' island (Continued on Page Six)

23 Nazis Accused Of Million Killings

NUERNBERG, Germany, Sept. 15. (AP)—Twenty-three S. S. and Gestapo officers charged with more than 1,000,000 killings pleaded innocent of war crimes upon arraignment before an American court today.

The men are Einsatz Commandos, known as Heinrich Himmler's murder squad. The group included Maj. General Otto Ohlendorf and Brig. General Erich Naumann, captured only recently on the Austrian border.

The indictment total of several hundred thousand killings in various Russian localities. The prosecution said Gen. Ohlendorf had admitted 90,000 for his group alone. He pleaded "not guilty in the sense of the indictment."

Nine Persons Killed In Bomber Crash

ABERDEEN, Md., Sept. 15. (AP)—Officials at Aberdeen Army Proving Ground reported today that a BJAQQ bomber crashed into Bush River while on a routine training flight today and killed nine persons.

There was one survivor. Names of all aboard were withheld pending notification of next of kin.

Three Killed When Plane Strikes A Mountain

RESCUE WORKERS ARE SHOWN EXAMINING the broken and twisted wreckage of an Army C-47 cargo plane which crashed against Spruce Mountain, 30 miles south of Denver, Colorado, killing the transport's three members. The craft was bound for Denver from Hobbs, N. M., when crash occurred. (AP Photo)

Government Makes Another Effort To Bar Communists From America

WASHINGTON, Sept. 15. (AP)—The government has resumed its efforts to prove that Communist membership is a good enough reason for kicking an alien out of the country. This may lead the Supreme Court at last to make a clear-cut ruling on the disputed question of whether the Communist Party aims to overthrow the government by violence.

Two years have passed since the government lost its long fight to deport Harry Bridges, the west coast labor leader. Last week in New York, a new "Bridges case" made its appearance. The Immigration and Naturalization Service—a part of the justice department—started deportation hearings against John Santo.

Santo, a Romanian-born alien, so far the hearings have been intensely bitter. There is considerable excitement in New York labor circles.

Santo was accused of being a Communist Party member. And the party was accused of advocating the overthrow of the government "by force and violence." The government says it will prove both charges.

The Immigration Service also arrested Michael J. Ohermier, (Continued on Page Six)

1936 Ford Sedan Is Reported Stolen

All law enforcement agencies here are on the lookout for a 1936 Ford 4-door sedan which had been recently purchased from a negro by Thomas Doney which he reported to police was stolen between 1:00 and 3:00 o'clock Saturday morning from in front of his home at 703 West Ninth Street.

The negro from whom the automobile was purchased is being sought for questioning. Police Chief Roy G. Williams stated this morning, Sheriff Mero, meanwhile, has given a description of the car to the Florida Highway Patrol. Mr. Doney is an employee of the Seminole Tire Shop.

Police were informed Friday that a man by the name of G. C. Ratliff (no relation to Ratliff of Orlando Highway) had tried to commit suicide by cutting his left wrist. He was taken to Fernald Laughton Memorial Hospital, treated, and released.

Mrs. George Shipp, 800 East Eleventh Street, reported Friday to police that a 50 foot length of black garden hose had been stolen from the premises.

OVERRELL CARE

SANTA ANA Calif., Sept. 15. (AP)—The Overrell yacht murder trial went into its 17th week today with defense attorneys continuing to question explosives expert as they attempted to prove that Mr. and Mrs. Walter E. Overrell were not bludgeoned to death but were killed by a blast of dynamite aboard the family cabin cruiser last Mar. 15.

Withdrawal Of U. S. Occupation Troops In Italy To Begin Tomorrow Morning

TRIESTE, Sept. 15. (AP)—Two men were killed by hand grenades today when pro-Italian and pro-Slav demonstrators clashed in downtown Trieste.

The rioting Slavs and Italians merged into a struggling mass, the size of which was difficult to estimate. They were surrounded immediately by Venezia Giulia police backed by the Italian and American military police, thus far inactive. The Venezia Giulia police attempted to control the mob with clubbed rifles and clubs.

The United States was accused by Palmiro Togliatti, Italian Communist leader, of "working eagerly to prepare a new war." Togliatti also criticized President Truman and Pope Pius XII in speeches yesterday in Florence and in Mantua on the eve of the formal ratification of the Italian peace treaty, which means American and British occupation troops will be out of the country within 90 days.

PARIS, Sept. 15. (AP)—Britain, France, Russia and the United States deposited instruments of ratification for the Italian peace treaty with the French government today and fixed midnight GMT (7 P. M. EST) as the official hour of the beginning of peace for Italy.

Peace treaties written by the victorious Allies for Finland, Hungary, Romania and Bulgaria were to be deposited in similar fashion during the day by deposit of ratification instruments in Moscow.

As the Russian and American ambassadors and the British minister handed their ratification copies of the Italian treaty ratification instrument, French foreign minister Georges Bidault commented: "This is the result of our long painful effort. I hope it will permit us to enter a long period of peace."

Russian Demand For Iranian Oil Ignored By Qavam

TEHRAN, Sept. 15. (AP)—Iran's parliament is expected to begin discussions tomorrow, preparatory to a vote of confidence, on Premier Ahmed Qavam's eight-point legislative program, which surprisingly ignored the explosive proposal to open northern Iran to oil resources to Russia.

Legislators expressed astonishment at Qavam's failure to bring up the oil question when he presented his program to the new parliament yesterday. The previous day the semi-official newspaper Eshkal quoted the Premier as saying he would submit "the draft of an agreement" with Russia for parliamentary approval.

Qavam also failed to request the approval of parliament for a \$25,000,000 credit extended by the United States for military expenditures.

The oil question involves ratification of an oil agreement negotiated by the Premier in April, 1946, when Soviet troops were still in northern Iran. It provided for 50-year operation of a Russian-Iranian oil company in which the Soviet Union would have 61 per cent of the shares the first 25 years and 50 per cent the next 25 years.

Britain Gives Up Some Of Gold Fund

LONDON, Sept. 15. (AP)—Britain gave up some of her gold stores today, sending enough metal to the United States to obtain \$80,000,000 and meet "commitments" there.

Except when she contributed last year to the International Monetary Fund, this marked the first time since 1939 that the British had tapped their basic reserves, estimated to total \$2,400,000,000. Authority for this is a bank of England spokesman, who announced the sale of gold to the New York Federal Reserve Bank.

SOME SHOW ON "MO"

AWOARD THE U. S. MISSOURI WITH PRESIDENT TRUMAN, Sept. 15. (AP)—The "Mighty Mo" put on an exhibition of target shooting with her 16-inch guns today for President Truman. "Some show," the Chief Executive commented after five salvos were loosed at a target station seven and one-half miles away.

The President, Mrs. Truman and their daughter, Margaret, watched the performance from the open bridge of this battleship. Margaret frankly admitted that while the performance was good she didn't like the terrific noise.

City Is Requested By Rotary Club To Build Swim Pool

The Rotary Club, upon motion of Edward Higgins, voted today in favor of immediate action by the City in going ahead with a \$100,000 plan for the construction of a municipal swimming pool in Ft. Mellon Park.

The matter was brought to the attention of the club by A. E. Laffer, Lea R. Lasher, a City Commissioner, stressed the need for the pool and said that he thought that the City should do something about it. President Gordon Harrison was directed to write a letter to the City Commission urging that something be done about the project; funds for which are available, it was pointed out.

Joseph Saunders, manager of the Margaret Ann Grocery, and Dr. Charles Parsons, superintendent in the Sanford Atlantic National Bank Building, were inducted as Rotarians by Walter Hayes.

Charles Morrison conducted a news quiz between 10 man teams headed by Lea R. Lasher and B. G. Gray with the latter team being the loser. Prizes were donated by Robert Harris.

HONOR ROLL NATIONAL GUARD

In compliance with a letter written by the Seminole County Chamber of Commerce, the following firms have agreed to cooperate with the government in forming a National Guard.

J. W. Bell; Southward Fruit Co.; The Towell Co.; Wagner Furniture Co.; Elton J. Moughton; The Mayfair Inn; Fred H. Williams; Beacon Dairies; Rita Theatre; Princess Theatre; Sims Machine & Supply Co.; Piggly-Wiggly Winn Lovett; Homers Soda Shop; Rice Trow & Rice Co.; Sanford School of Aviation; Lake Charming Fruit Company; Robson Sporting Goods; Wight Grocery Co.; Campbell Security Feed and Seed Store; R. W. Ware; Wm. E. Kader, Jeweler; The Sanford Herald; Celery City Printing Co.; Wight Bros. Co.; Sanford Book & Stationery; A. Brimley & Sons; A. F. Ransay, Florist; Sanford Overide Truck Growers, Inc.; T. Meade Fox; Perkins-Robson; Former firms who have pledged: Atlantic Coast Lumber; The County of Seminole; City of Sanford; Chase & Co.; American Fruit Growers; J. C. Hutchison & Co.

Other names will be added to this list as they are received. Manager Edward Higgins of the Chamber of Commerce stated today.
