## STRIKING RAILROAD MEN CONFINED TO PORTIONS OF EAST AND WEST

### Southeast Will Not Be Affected Is The Hope

### PASSENGER SERVICE

#### BROTHERHOOD LEADERS AND RAILROAD OFFICIALS HOPE FOR IMPROVEMENTS TODAY.

Chicago April 13 (By Associated Press) The main strength of the striking railroad workers has extended to a section east of Pittsburg and the Pacific northwest with conditions improving elsewhere according to railroad officials and the Brotherhood leaders. The passenger service is hard hit around New York.

New York, April 13.—The Central Railroad of New Jersey suspended all passenger service at noon today when agents were ordered to stop selling tickets. The road covers the state of New Jersey and the suspension order affects approximately 55,000 commuters.

New York city resumed its daily business after the week end respite, but it was soon found that the gaps in the ranks of the workers, noticeable last Saturday, had increased. Many thousands, reaching Manhattan after serious delays, apparently abandoned any attempt to journey to the city today.

The expected resumption of traffic from the Jersey side failed to materialize today and the commuters were stranded on their own shores. Many owners of automobiles converted their machines into non-payment jitneys, but the Hudson ferries were manned only by a small and insufficient crew to handle the hosts that wished to cross the river.

Meantime, while not yet feeling the pinch of hunger, the situation created by the freight and express embargoes on virtually all lines may cause a shortage of food. Health authorities arranged with food dealers to discuss the situation and to arrange for meeting the situation.

#### Board of Trade Tonight

The Sanford Board of Trade will meet tonight at the Valdez Hotel eight o'clock and a full attendance is desired. President Miller will appoint the important committees at this meeting and other matters of importance will be discussed. The Board of Trade is taking up matters of vital interest to the people of this county and every business man and every citizen generally should enroll as a member and attend the meetings and help to boost the county and state.

## OVERALL CLUB AT THE HIGH SCHOOL

### BOYS DECIDE TO WEAR OVERALLS ON ALL DAYS EXCEPT SUNDAYS

The Sanford High School Boys has organized an overall club, and the following constitution and by laws have been drafted:

Article 1  
Section 1. The organization shall be known as the Sanford High School Overall Club.

Section 2. The object of this club shall be to promote the spirit of democracy and to reduce the H. C. L.

Article 2  
Section 1. All male students registered in the Sanford High School, and any other male beings with like sympathies, shall be eligible to membership in this club.

Section 2. Your uniform is your pass.

Section 3. Every member shall provide himself with a sufficient number of overalls to wear in the

performance of his every-day duties. The uniform shall be worn on every day of the week with the exception of Sunday. In "doing society" the individual shall be at liberty to don his "others". But, when at work he shall be expected to "sport" his overalls.

Section 4. A fine of twenty-five cents shall be imposed for every breach of Section 3 of this article. Upon default of payment of this fine within a period of three days, the offender shall be ostracized by the club.

Article 3  
There shall be no dues for membership in this society.

Article 4  
Section 1. The meetings this club shall be held every Monday at recess.

Section 2. Special meetings may be called by the President or upon petition of one-third the membership.

Article 5  
The officers of this club shall consist of a president, a vice-president,

(Continued on back page)

## GENERAL STRIKE IN IRELAND

### AS PROTEST AGAINST TREAT- MENT OF POLITICAL PRI- SONERS ON HUNGER STRIKE.

Dublin April 13 (By Associated Press) A general strike has begun in Ireland to protest against the treatment of political prisoners at the Mounthoy prison who are on a hunger strike. The latest reports say that the hunger strikers are all weak and some are nearing the danger mark.

## GENERAL WOOD BACK ON OLD JOB

### GIVES UP CAMPAIGN FOR PRESIDENT TEMPORARILY AND TAKES UP DUTIES.

Boston April 13 (By Associated Press) Major General Wood has cancelled his leave of absence which he obtained to campaign for the Republican presidential nomination and said he would leave for Chicago. This action is due to the railroad strike.

#### Cotton Men Meet

Montgomery Ala., April 13 (By Associated Press) Hundreds of delegates of the cotton producing states are attending the American Association of the Cotton Growers meeting here today.

#### Investigate Mysterious Death

Frankville Ala April 13 (By Associated Press) Authorities are investigating the death of Oscar Atcheson whose charred body was found in the woods near here.

Mrs. Lucia Grayam leaves for Chicago where she will spend the summer. Mrs. Grayam has been the guest of her son Frank Grayam and wife for the past year and expects to return in the fall to again make her home here.

Mr. and Mrs. F. W. Grayam, who are at present living in Sanford, have leased their attractive bungalow in Dixieland to Mr. and Mrs. Grady Deen for the period of a year. They declined to sell it, being desirous of retaining this property interest in Lakeland, where they hope again to make their home. The many friends of this popular couple will be pleased to know that they are comfortably and pleasantly located in Sanford, and are enjoying life in the Calvary City.

## POWER PLANT BURNED

### SECOND TIME MONROE/ PLANT HAS BEEN BURNED IN PAST YEAR.

Monroe La., April 13 (By Associated Press) The Monroe Light & Power plant just rebuilt has again been burned and all the industrial plants operated by electricity are idle. The authorities suspect that the burning is the work of incendiaries.

## POTOMAC YARDS ARE CRIPPLED

### GATEWAY TO THE SOUTH IS TIED UP ON ACCOUNT OF STRIKE.

Washington April 13 (By Associated Press) The gateway to the south through Washington is closed to freight traffic as the result of the spread to unauthorized Switchmen's strikers in the Potomac yards. Superintendent Colver said all the men including conductors brakemen and switchmen numbering two hundred were out paralyzing the yards. No estimate is given of the cars tied up but normally there are three thousand daily handled from the south including produce. Passenger traffic is curtailed and a single track bridge across the Potomac is the only railroad inlet southeast of Cincinnati.

#### Tourists Kick On Rate Hike

St. Petersburg, April 12.—Some 50 winter visitors met in Williams Park Thursday to protest against what they term "unreasonable advance in rentals for flats and rooms next season; it being declared, that in many instances 50 to 100 per cent increase will be made. Mayor-elect Noel A. Mitchell heard the talk and said he would take the matter up and get at the truth of the reports.

One tourist said he had paid \$225 for an apartment this season, but when he tried to rent the same in advance for next winter, the landlord wanted \$500.

Another winter visitor told the same story except that he had paid \$450 and the owner wanted \$600 next winter. One speaker said Tampa had offered to build 1,000 houses for the tourists if they would come to that city.

#### Hospital Rummage Sale Success

Mrs. A. E. Hill held a rummage sale last Saturday for the Fernald-Loughton Hospital and realized the neat sum of \$88 which is a great record in rummage sales and speaks well for the people who brought in the rummage and those purchased same. Mrs. Hill wishes to thank all those who were so generous and responded to her appeal.

#### New Army Aeroplane

Washington April 13 (By Associated Press) An army aeroplane remodelled to carry eight machine guns has been sent to the Mexican border for an official test.

## NEW SITES DISCUSSED BY OFFICIALS

### PRESIDENT WILSON MUST HAVE SUMMER HOME AND COMPLETE REST.

Washington April 13 (By Associated Press) White House officials are considering sites for summer headquarters where President Wilson is to have a complete rest following the elimination of Woods Hole, Mass.

#### Fire Alarm This Morning

The fire department was called to the Holland home on Sixth street this morning by the blaze in the kitchen caused by an oil stove. But little damage was done and neighbors had extinguished the slight blaze before the arrival of the department.

## RADICALS ARRESTED DEPORTED

### THREE HUNDRED AND NINE- TY FOUND GUILTY OF TREASON.

Washington April 13 (By Associated Press) Three hundred and ninety three thousand persons arrested in a radical raid against the Communist and Communist Labor Party have been ordered deported by the Department of Labor.

## PREMIERS WILL MEET IN PARIS

### MILLERAND AND LLOYD GEORGE TO DISCUSS FRENCH INVASION.

Paris April 13 (By Associated Press) Premier Millerand and Lloyd George will meet to discuss the controversy between France and Great Britain relative to the advance of the French troops in Germany prior to the convening of the Supreme Council at San Remo, according to Le Matin.

#### Overalls Are Being Worn In A Number Of Southern Cities.

Birmingham, Ala., April 12.—The wearing of overalls in an attempt to reduce the cost of men's clothing has been taken up in Birmingham, Hattiesburg, Miss., and Jackson, Tenn. The Birmingham Automobile club will formally launch its campaign at a mass meeting tonight when speeches will be delivered by public officials and business men. At Jackson many business men and clerks appeared today in overalls without waiting to organize a club. A club was organized in Hattiesburg this morning and a number of prominent business men adopted a constitution and by-laws and enrolled as charter members.

#### After Highway Speeders

Miami, April 12.—Declaring that the recent killing on the Dixie highway of a man by a speeding automobile, the driver of which kept on without offering aid to his victim, "shows an utterly disregard for the life and safety of persons using the public roads," the Dade county board of commissioners offers a reward of \$250 for the apprehension and conviction of the unknown driver of the death car.

#### Ohio Coal Miners Idle

Columbus April 13 (By Associated Press) The soft coal mines of Ohio are nearly all closed on account of the railroad strike and thousands of coal miners have been thrown out of work.

#### Kansas Coal Strike

Pittsburg, Kansas April 13 (By Associated Press) An almost paralysis of the Kansas coal industry is reported today.

#### Ten Split Ball Artists

Chicago April 13 (By Associated Press) Only ten pitchers are eligible to use the spit ball in the American League according to President Johnson.

## THOUSANDS WILL LIVE IN TENTS

### NEW YORK PEOPLE EVICTED FROM HOMES WILL BE SUPPLIED BY GOVERNMENT

New York, April 13.—Thousands of New York families; some of the 73,114 registered as "homeless" by the Tenement House Department, are expected to live in tents furnished by the United States army until the present housing dearth is remedied; according to men interested in the building trade here. Just where they will locate their new domiciles has not yet been decided although an army of real estate agents "mobilized" as it were, overnight in Greater New York, has vast acreages of

## WHEN STRIKE OBSTRUCTS UNCLE SAM'S MAIL BOYS GOVERNMENT WILL STRIKE

### vacant land to lease in four of the five boroughs.

"From 1,500 to 2,000 families will live in tents in Pelham Bay Park alone," declared Walter C. Martin, superintendent of the Bronx Tenement House Department, "and I have no doubt but that many other sections will have whole colonies of tent dwellers after May 1. In view of the anticipated increase demand for tentage, especially by evicted families, I shall write to the War Department for sufficient canvas to meet all possible need in the Bronx."

#### Cow Has Twin Calves

P. D. Cobb reports that one of his cows gave birth to twin calves last Saturday and the calves are doing well. This is quite a freak of nature in the animal line and the twin calves are attracting considerable attention.

## WILSON CALLS A MEETING

### CABINET MEETS TOMORROW AND RAILROAD STRIKE IS PROBABLE CAUSE.

Washington April 13 (By Associated Press) President Wilson has called a cabinet meeting for tomorrow of the White House officials who would not say the unauthorized strike of the railroad men had prompted the call but it is understood that this would be the principal subject to be discussed.

#### Republic of Sonora

Nogales, Sonora, April 12.—Customs houses and all property of the federal government of Mexico were formally seized in the name of the "republic of Sonora" here today, simultaneously with receipt of a report of a clash between Carranza soldiers and Sonora state troops at Guaymas.

The report said Carranza soldiers at Guaymas were expelled from the town in a short fight, during which two Carranza soldiers were killed. Sonora troops control the entire state, according to official reports.

## BASEBALL SEASONS TOMORROW

### MAJOR LEAGUES SWING INTO PENNANT ACTION FOR SEASON.

New York April 13.—Major league baseball teams swing into pennant action tomorrow with the formal opening of the 1920 season. Based upon the form exhibited in the spring training on southern diamonds, the sixteen clubs of the National and American leagues appear to be in excellent physical condition and baseball prophets forecast close races for the respective leagues flags as well as exceptional attendance and financial receipts due to the unusual interest in the game this year.

Eastern and western city clubs share equally in the allotment of opening dates. In the National League Boston plays at New York while Philadelphia will make its initial appearance at Brooklyn. The Western division teams of the senior organization clash with Chicago at Cincinnati and St. Louis at Cleveland. The American League schedule calls for New York to open at Philadelphia; Washington at Boston; Detroit at Chicago and St. Louis at Cleveland. The initial return contacts are set for April 22 when the order of the schedule will be reversed.

## Will Prosecute Any One Interfering with U. S. Mail

## SHOWS IMPROVEMENT

### IN SPOTS BUT TRAFFIC IS TIED UP NORTH AND EAST AND WEST.

Washington, April 13.—Vigorous action will be taken if there is any interference with the mails as the result of railroad strikes, it was announced today at the post office department. Otto Praeger, second assistant postmaster general, has sent the following telegram of instruction to 211 superintendents of railway mail service:

"Instruct all chiefs clerks, transfer companies and others to report any obstructions directly or indirectly, by conspiracy or otherwise, with passage of mails as resultant from strike, together with name of person or persons involved. Bring to immediate attention to local post office inspector, inspector in charge and district attorney that culprit may be prosecuted. See Sections 69, 70, 12, 17, 14 and 17 of postal laws.

Reports to the post office department today were encouraging. Chicago reported that local conditions were "very good" and that the railway companies were handling all mails promptly.

A report from New York said conditions had improved and a similar report came from St. Louis. Some delay in mails were reported at points where men are on strike but no great trouble has been reported.

Attorney General Palmer returned to Washington today and conferred with officials who have been keeping close touch with the railway strike situation. There is no indication of what was laid before the attorney general but all admitted the situation to be serious.

It is understood that staff authorities have begun the preparation of governmental briefs for legal action in event Mr. Palmer decided to take a hand in settlement of the trouble.

There will be no investigation of the strike for the present by the senate interstate commerce committee Chairman Cummins announced today after receiving assurances at the White House that the railroad labor board would be appointed within 4 hours.

The inquiry was ordered by the senate last week and was to have been begun tomorrow with John Grunau, president of the Chicago Yardmen's association as the first witness. Sen. Cummins said he desired to give the board an opportunity to see what it could accomplish towards settling the strike. The union representative declared that if the board were appointed now with the understanding that the grievances of the men would be heard, the strike would be ended. The strike, he said, was nothing more than a protest by the railroad employees because of the wage demands presented last summer.

## PRESIDENTS APPOINTS LABOR BOARD

### HAVE BEEN MADE PUBLIC AND REPRESENT ALL CLASSES OF MEN.

Washington April 13 (By Associated Press) The president has appointed on the Railroad Labor Board George W. Hanger, Henry Hunt, R. M. Barton to represent the public, Hoar Baker, J. H. Elliot, William L. Park representing the railroads and Albert Phillips, A. O. Wharton and J. J. Forrester representing the employees.

**GREAT SPRING FESTIVAL**

(Continued from Page 1)

"Dream" forty-five pretty girls will sing and dance in a flower cantata, which is really beautiful. Miss Mabel Bowler as Flora, the Queen of the Flowers, will feature the leading role, and other characters will be Mother Nature, Miss Florence Henry, Martha Fitts, a lovely little fairy; Camilla Puleston, a fluffy snow-ball and Katherine Symes will represent cauliflower. Solo dances will be given by Misses Florence Henry, Mildred Holly and Martha Fitts. The flower choruses being trained are the Rose Chorus, Mrs. McKinnon, director; Poppies, Mrs. J. C. Smith, assisted by Mrs. T. W. Jones, directors; Wild Flowers, Mrs. Schelle Malnes and Mrs. A. M. Phillips directors; Old fashioned flowers, Mrs. Geo. Fox and Mrs. Theodore Langley, directors; Garden flowers, Mrs. Claude Herndon and Mrs. Leonardi.

Jazz Land and Joy Makers will be one of the principal attractions on the grounds. A minstrel Show under the direction of Mr. and Mrs. Ed Lane which will include fifteen of Sanford's best male singers and fun makers who will present to the people here during the Spring Festival the best local minstrel that has ever been given in Sanford.

"Children in Art" living children, Sanford's lovely kiddies will be seen in reproductions of famous pictures, a beautiful attraction that will be presented afternoon and evening of the first two days of the Carnival. Mrs. W. E. Watson directs these tableaux.

Mrs. J. M. Wallace has charge of another entertainment feature that promises to be a leading attraction also "Reveries of a Bachelor" a combination of tableaux and songs most enticing.

Mrs. H. W. Herndon, chairman of the Welfare Department of the Woman's Club has supervision over the various committees and keeps them busy.

Mrs. S. Puleston is supervising the Bride and Groom contest, a popular feature of the carnival which will end on Saturday night with a mock marriage at the Court House amid the surroundings of a real wedding.

Other committees are publicity, Mrs. E. M. Galloway, chairman, Tents, Mrs. E. P. Morse; Finance, Mrs. Ernest Krupp.

The Woman's Club appeals to the public for their cordial support and co-operation in the Spring Festival, the proceeds of which will be used to beautify Sanford.

toes form such a small percentage of the total that the average yield for the section will not be affected to any extent.

A few potatoes will move from the section during April, with digging beginning possibly as early as to the end of the coming week. The bulk of the crop will move after May 10, with the movement running into early June. With the season later than usual, accurate yield figures cannot be determined at present. The crop, however, is in excellent condition at present and a yield at least up to average is expected.

In the Lake Okechobee section, at Moore Haven and other points, also great improvement has taken place during the past three weeks. A few of the most advanced fields were injured materially during the March cold wave and will not yield over 50 per cent. The later planted fields, where frosted, have recovered and a good yield is expected for the section with digging beginning soon after May 1.—Produce News.

**Produce Travelers in Florida**

Bradentown, Fla. April 10.—Travelers for produce houses seem to be increasing in Florida.

J. A. Frank, representing A. E. Meyer & Co., of New York, has had a very successful deal at Bradentown for his house in celery.

J. R. Phillips is here representing Egan, Fickett & Co., of New York. Mr. Phillips reports the celery deal very good both for his house and the shippers.

Robert Winder has made Bradentown his headquarters for some time in the celery and cabbage deals. He represents A. F. Young & Co., of New York. Mr. Winder told a Bulletin reporter that he will soon be at Palatka and Hastings, Fla., for the big potato deal.

B. J. Snelling has spent considerable time here this winter in the celery deal, representing the house of John C. Crate, New York. Mr. Snelling left last week and said he was returning to New York.

C. L. Smith is covering Manatee points for Chas. Pape & Co., of New York.

Albert M. Travis of Albert M. Travis Co., Pottsburg, Pa., has been spending a month here visiting both old and new shippers for his house.

G. L. Wagner of G. W. Wagner & Sons, Chicago, Ill., has been covering Manatee points for his house.

Oct. Nov. Dec., Surgical, Chief Dr. Langley, Alternate Dr. Tolar; Medical, Chief Dr. Dodds; Alternate Dr. Robson.

The duties of the Chiefs of Staff are to advise with the Superintendent of the Hospital in any emergency that may arise during their incumbency, and to be subject to call during that period for any patients that may come in to the Hospital who have not already selected their own Physician.

After quite a free clinical discussion over various interesting cases that have come up during the past weeks, the meeting was adjourned, to meet again on the First Thursday in May, with Dr. Stevens.

C. J. MARSHALL, Pres.  
J. N. Tolar, Sec.

**PROCEED AGAINST GEO CREEL**

(Continued from page 1)

ment publications, including army and navy and other war service journals, are charged in the report. Many of these publications, it says, are favorable to the league of nations the liquor interests and officers in charge. Advertisements, the report asserts, included "get rich quick" oil speculations and political propaganda improper in government publications.

Another alleged abuse of government funds charged by the report was printing of 30,144,362 speeches of Federal officials at an expense of \$442,798 to the government. Paper consumed totaled 1,451,000 pounds. As members of congress must pay for copies of their speeches, the report says, the "gross abuse" from the free printing of other Federal officials' speeches should stop.

The report says the committee under its power to supervise government printing, investigated 266 journals, magazines and periodicals and discontinued 111 at a saving of \$1,200,000 annually.

Eight army and navy newspapers and magazines were suppressed at a saving of \$400,000.

Forecast For The Period April 12 to 17 inclusive.  
South Atlantic and East Gulf States: Rains probably first part of week, generally fair thereafter; cool.

**LABOR IS ORGANIZED IN ELECTIONS**

**TELLS CANDIDATES OF ATTITUDE AND SENDS OUT QUESTIONNAIRE.**

Washington April 12 (By Associated Press) Organized labor's views on industrial problems likely to enter into the coming political campaign are presented in detail in reply to a questionnaire submitted on the advisory committee of policies and platform of the Republican National Committee. The reply, made public today by an American Federation of Labor headquarters is signed by Samuel Gompers, Matthew Woll and Frank Morrison as members of the platform committee of the national non-partisan campaign of the federation.

Acceptance of the principles enunciated in the reply was regarded by political observers here as determining organized labor's support of candidates in the November elections. These principles include:

Acceptance of the eight-hour day and the six-day week with Saturday half holiday.

Recognition of American wage earners right to organize in accordance with their own judgement.

Continued exemption of labor organizations from anti-trust laws.

Acceptance of the right of employees to choose their own representatives from within or without the plant.

The recognition of the right of employees to strike.

Abandonment of the use of the injunction in labor disputes.

Establishment of free Federal employment agencies in the administration of which labor could have a voice.

Payment of such wages as to render old age and retirement pensions unnecessary.

Equal pay for equal work.

Minimum age of sixteen years for employment of children.

Extension of the Federal workmen's compensation act to all wage earners not protected by state compensation acts.

Elimination of company welfare and uplift organizations and substitution of welfare work as conducted by labor organizations.

**Grammar School**

The teachers and children of the grammar school wish to express their most hearty thanks to their many friends, who, by their generous assistance have enabled them to make

a wonderful Easter gift of four hundred and ninety dollars (\$490) to Mr. Fagg for the Children's Home in Jacksonville.

That this gift should go from the children in sheltered homes, with fathers and mothers, seems singularly appropriate.

This is just another proof, that Sanford goes "over the top" whenever a deserving cause is presented.

ROSA L. DICKENSON,  
Principal of Grammar School.

**RAILROAD STRIKE IS MORE SERIOUS**

Chicago April 12 (By Associated Press) Developments west of Pittsburgh cause the Brotherhoods to regard the situation as denoting a gradual dissolution of the insurgent forces in the unauthorized strike but the situation has assumed a more serious aspect in the east where the trainmen in several districts have joined the walk-out. Numerous reports of defections in the ranks of the strikers have been received from the far west and the central states. Demands for recognition of the new union have been presented to the railroad officials at Chicago.

**Situation in New York Bad**

New York April 12 (By Associated Press) The city and environs is struggling to free itself from the unauthorized railway strikes and some passenger service has been resumed and some maintained in order that the food and milk trains can reach the city. Railroad officials say the situation is grave but if the weather today is better it will soon approach normal. The strike in the Hudson tubes still has the commuters tied up. Chicago express abandoned yesterday with two hundred passengers and mail and express while the crew attended a meeting in the new union depot at Port Jervis reached here more than ten hours late. It is predicted that the Federal authorities might take some cognizance of the delay.

New Orleans April 12 (By Associated Press) A thousand switchmen here will strike tomorrow unless demands are met the Yardmen's Association announce.

Washington April 12 (By Associated Press) Attorney General Palmer has conferred with his aids and has been in close touch with the strike. Senator Cummings chairman of the investigating committee and vice president Doak of the Trainmen's Brotherhood have discussed the situation with Secretary Tumulty. Mails going south have been delayed on account of the strike.

**Chinese Engineers Hate Toll.**

In no branch of modern progress has China advanced during the last twenty years more than in engineering, if we except, perhaps, medicine. The Chinese engineer has come to stay. He is a much-criticized person, and the principal objection the up-to-date modern engineer offers against him is that he refuses to undergo the long and tedious period of training necessary in any branch of engineering today; if he can become an engineer without soiling his hands or taking off his coat, he is quite willing to pose as having mastered engineering; but he objects to the toil and the dirty work.

**War-Torn Villages Arising.**

Villages in the vicinity of St. Quentin, France, are literally rising phoenixlike from their own ashes. Confronted by a lack of stone and building materials, the artisans have established a big grinding machine in which the debris of the shell-shattered houses is remade into mortar.

**"Show Me!"**

An English inventor filters the scratchings and metallic sounds from phonographic music by passing it through more than 50 feet of tin tubing filled with peas.

**Slight Mistake.**

Some men found guilty of robbery confessed, the other day, that they did it in order to start business. They had better have kept to the usual procedure and started business first.—London Passing Show.

**Curious Name Explained.**

The warders of the tower of London were first styled beefeaters in the reign of Edward VI. The word was probably derived from the French buffeter, signifying literally "to eat beef." It was used in connection with the yeomen of the guard, originating at the coronation of Henry VII. in 1485.

**HASTINGS POTATOES IMPROVE**

Stand of Late Planted Area Is Unusually good.

Hastings, Fla. April 10.—After the early damage in this section from water and frost a comparatively small crop was expected, but from the present appearance of the vines, the crop will be much larger than seemed possible three weeks ago. The stand on late planted potatoes, including the replantings, is unusually good and in some cases where replantings were made there is a fairly good stand from the original planting in addition to the replanting. Of the early plantings, while the stand is not as good as on the later potatoes, in most cases it is better than 65 per cent. Where potatoes were far advanced at the time of the frost the yield is undoubtedly cut materially, but these pota-

## Yes, We Are In Favor Of "Donning The Denim"

We are in favor of an OVERALL CLUB for SANFORD and would be glad to head the list. Let's have it.

We are in favor of anything that would tend to REDUCE the COST of LIVING. For an example. Price our line of Dry Goods, Notions Ladies' and Gents Furnishings and be convinced.

### Our Closing Out Sale On GROCERIES

beginning Wednesday the 14th, should interest every family in Sanford. These prices mean MONEY to you. Lay in a supply while they last. Protect yourself against a further advance in prices which are already Predicted.

## RIVERS BROS.

Cor. 4th St. and Sanford Ave. - Sanford, Florida

ing should feel financial responsibility therein and in order more effectually to govern the enterprise a community association was formed, the members of which, upon payment of the annual maintenance dues of four dollars, enjoy in full the privileges of the athletic and recreational departments.

That the use of the building is not confined to those who pay dues is shown by the fact that the entertainment committee is composed of two people from the association and four from outside.

While the building is used for social and civic purposes without charge the auditorium cannot be rented. If an organization has an entertainment for the good of the community which it desires to give, tickets are sold and sufficient proceeds taken to pay the nominal expenses.

#### Games for the Young.

As one enters and, aside from the much used auditorium and stage, views the commodious and well furnished library and reading rooms, in use by people of both sexes, one might conclude that here centered the most important function of the building. As one descends to the basement and hears the rollicking laughter of the young people at billiards, bowling, games and athletics, one might not be so sure.

Continuity of control was provided by the donor by the appointment by him of seven trustees who form a continuous corporation, in that when there is a vacancy the other members appoint, subject to the approval of the chief justice of the supreme court.

#### BAR GIRLS WITH "MAKEUP"

Denver School Boys Oppose "Drug Store Complexions."

Now come the hoy students of Denver's South Side high school to put a crimp in the prosperity of Denver beauty shops.

Recently Miss Anne McKean Shuler, woman dean of the University of Denver, issued a ukase forbidding the coeds at that institution using powder puffs. Miss Shuler declared that a beautiful new rug that adorned the floor in front of a large mirror in the women's study at the university was becoming "horribly ragged" because so many girl students lingered in front of the mirror to use their powder puffs. Also, she said, men students breezing through the corridor can see the undignified performance.

At a meeting of the Mother's Congress and Parent-Teachers' association a report was read from the boys of South Denver high school denouncing the follies of girl students who "doll themselves up" in drug store complexions, and issuing a warning that youthful schoolgirls who appear in classroom attired like chorus beauties will be ostracized from school functions.

#### Few Escape Censure.

It is harder to avoid censure than to gain applause. But to escape censure a man must pass his whole life about seeing or doing a foolish

### HOW TO GET RID OF PLAGUE

Bureau of Mines Says Best Way is to Turn Bituminous Coal Into Coke and Gas, Using Coke for Heating and Gas for Cooking.

Washington.—The smoke evil, which costs each city dweller of this country from \$12 to \$20 each year in property damage alone, cannot be abated if the people continue to use in the old way the same smoky coal, according to the bureau of mines, department of the interior. Now the bureau maintains that the best way to get rid of the smoke plague in the residential portions of the cities is to first turn the bituminous coal into coke and gas, which are smokeless, the coke being used for house heating and gas for cooking. The factories may continue as usual to use the soft coals, for it has been demonstrated that in the boiler and heating plants the coal can be burned practically smokeless.

#### Use Smokeless Fuel.

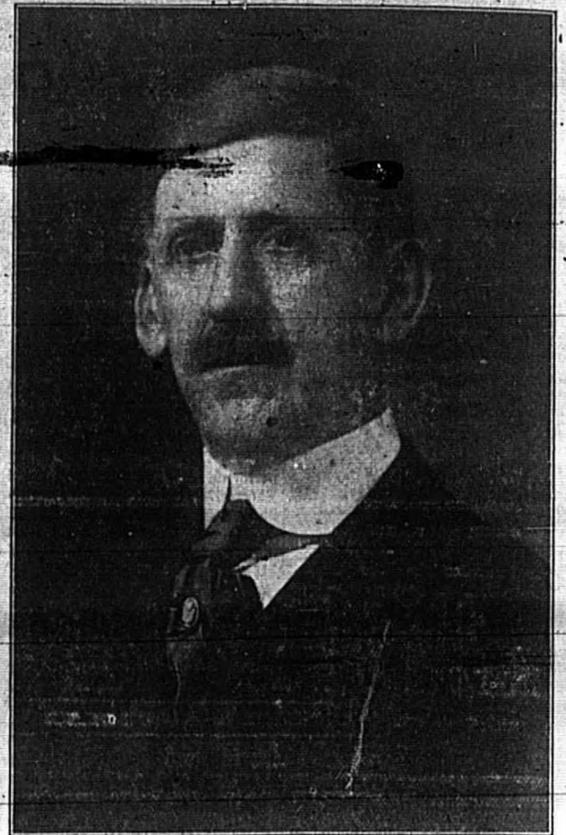

"The only way of eliminating smoke in large cities is by using smokeless fuel," says Dr. Van H. Manning, director of the bureau of mines—"a fuel that will burn without producing smoke in any equipment now in use. In the past the only smokeless fuel available in quantity for house heating was anthracite. However, anthracite is mined in only one district in the United States and, therefore, its use is limited to the area lying within reasonable freight distance of the anthracite mines. Much the larger part of the country has to depend on soft coal.

"Coke should be used for heating houses because it is a clean and convenient fuel. It eliminates smoke, reduces the necessity of cleaning the furnace and flues, requires less attention than coal, and gives a more uniform temperature in the house. By burning coke for domestic heat, more soft coal will be used in by-product plants, which save many valuable by-products that are wasted when the coal is used directly. The by-products of popular interest obtained in the coking process are gas, light oils, ammonia and tars.

#### By-Products of Coking.

"With soft coal costing \$7 a ton turned into its by-products, you will get 5,000 cubic feet of gas valued at \$5; three gallons of light oil valued at 75 cents; 25 pounds of ammonia sulphate valued at \$1.25; nine gallons of tar worth 25 cents; and more than half a ton of coke valued at \$8.

"When our mineral supply of oil is exhausted, soft coal will be a material source of motor fuel. The light oil recovered from coking soft coal now

## HOW ONE TOWN GOT ITS CLUB

Mill Owner Leaves Money for Community Building.

### ALL SHARE IN PRIVILEGES

Town Building at Wilder, Vt. Provides for Public Library, Athletic Equipment and Other Facilities of an Up-to-Date Club—Those Using Club May Share in Financial Responsibility—Donor Provides for Continuity of Control.

(Prepared by the United States Department of Agriculture.)

Much good has been accomplished by men of means through the erection of buildings for library purposes throughout the country. However, as these buildings are restricted in their size there has been considerable criticism of the limited amount of benefit accomplished in comparison with the large financial outlay.

The accepted principles of public service have become much broadened

in recent years and present-day philanthropists are increasing the usefulness of their gifts by including in these costly plants, not only rooms for libraries, but auditoriums and rooms for public gatherings and the meeting place of various civic organizations, together with facilities for public recreation and amusement. In this way such buildings are not confined to the more populous and enlightened centers but are made to serve the needs of the smaller towns and rural sections.

#### Leaves Money for Building.

The small village of Wilder, Vermont, has a scattered population, many of these being employees of the local paper mill.

After a survey of the social needs of the community the owner of the mill left money, before his death, for the erection of a building which would meet the following needs: A library for the use of the people of the village and surrounding country, a club house with recreation facilities for the young men of the town, and a meeting place for public assemblies and organizations.

Of the \$30,000 donated, \$17,775 was used for construction and furnishings which included 2,500 volumes for the library, and athletic equipment and bowling alleys. The interest on the remainder of the money is used to help maintain the enterprise.

In order that those using the build-

supplies part of the ever-increasing demand for motor fuel. Germany, during part of the war, was cut off from every supply of mineral oil, and she depended entirely for her motor fuel on her coal. As a result of that condition, Germany sent most of her coal through by-product coking plants. What has been done in Germany may in the future have to be done in the United States.

Markets in China. China is a land of markets. They are held in every city and town, and even in the small villages. Where there is no regular market place, much of the buying and selling is done out of doors. But there is hardly a village that hasn't its regular market plot. In the larger towns and cities there are several.

Lighthouse Apparatus of Metal. The optical apparatus of the lighthouse of Gallia, an island off the coast of Tuscany, is entirely of metal. The great parabolic reflector, the largest metallic mirror in any lighthouse, is of gilded bronze 7 feet 5 inches in diameter, with a focal length of 23 inches, and its 202,000 candle power flash can usually be seen 30 miles at sea.

#### Firms and Families.

A firm is like a family—it is bound together by mutual interests. Just as families quarrel and ruin their homes, so the members of a firm may quarrel and ruin their wages and profits. But a normal family does not quarrel. It develops a family feeling, and all combine to protect each other.

Entered as second class matter October 27, 1918, at the postoffice at Sanford, Florida, under post office of March 2, 1879.

MEMBER OF THE ASSOCIATED PRESS

This will be Spring Carnival Week and it promises to be a big time for everybody. We all need a little fling at the carnival every year and when we can have one home made it is all the better for the money is kept at home and spent for a good purpose.

Hon. W. J. Sears announces his candidacy in his home paper the Kissimmee Gazette and that paper states that in his last campaign he carried every county in the district. Well, we can assure him of one thing. He will lack a lot of carrying every county in the district this time.

There will be a big change in this country after the general election in November and all this stalling around by the politicians will be displaced by a little real justice in which the tired, downtrodden and robbed plain and ordinary citizen will come in for his share of justice and equity.

Here's hoping that the railroad strike will soon be over for it is tying up the country just at the time when we need the railroads most. It is hitting Florida hard and our perishable stuff will perish sure enough if it cannot be handled. It seems that there is something every week to stop trade and progress.

Speaking of the new print shortage the St. Augustine Record rightly remarks that "hundreds of our friends whose favorite indoor sport was cussing out the paper because there was nothing in it ought to be tickled to death to have any Record at all." Just another version of never missing the water until the well runs dry.

Buy only what is needed—not all that is to be found. Gnaw to the bone and peel potatoes thin. Warm up the macaroni—even if the cheese has all been eaten out of it. Dry the old left-over bread in the oven for a moment—and use it in place of crackers. Turn the socks—even if they have faded a bit, and take the shoes that were to be given away to the leather-dresser for early treatment. Pay for everything that is bought at the moment it is purchased, and don't expect the delivery of goods unless there is to be an extra charge. To run an auto-delivery costs the merchant a considerable sum; if every merchant will carry home the purchases the merchant can sell at a lesser price. There is more of this stuff I could toss out but this enough for now. Try these things—and then thank me. Yasmun. Thorn in Palm Beach Post.

YET FIGURES DON'T LIE An Irishman working for a Dutchman asked for an increase of pay. The Dutchman replied: "If you are worth it I will be pleased to give it to you. Now, let us see what you do in a year, Pat. We have 365 days in a year; you sleep 8 hours every day, which makes 122 says you sleep, taken from 365 days, leaves 243 days. Now, you have 8 hours' recreation every day, which makes

122 days, taken from 243 days, leaves 121 days. We have 52 Sundays in a year which you have off, and leaving you 69 days. You have 14 days' vacation; take this off and you have 55 days left. You don't work Saturday afternoons, this makes 26 days in a year. Take this off and you have 29 days left. Now, Pat, you are allowed one and one-half hours for meals, which total in a year 28 days. Take this off and you have one day. I always give you St. Patrick's Day off, so I ask you, Pat, if you are entitled to a raise? Pat then answered: "Well what the hell have I been doing, then?"

THE PRINT PAPER SHORTAGE Newspaper in Canada is quoted at six cents a pound. And there is plenty of it. Newspaper in the United States is quoted at twelve cents the pound. And there is little, very little to be obtained at twelve cents the pound. And there is very little to be obtained at that figure. In every state every week there are numerous publications forced to suspend because paper stock cannot be secured—even at the extortionate figures quoted. Congress would confer a favor upon the entire people—with the exception of those engaged in the manufacture of news-print paper and those holding stock in the plants—if it would immediately remove the tariff and allow the finished stock to be brought across the line to supply the pressing demands. I'm saying it is a mighty tough proposition where newspapers have performed so great services in the winning of the late war; have given of their brains and toil and capital so great a share free of all charges have in some cases, almost impoverished themselves because of the loyalty and patriotism; to be turned down when it comes to a little support which might be tendered by a thankful government. Thousands of men of all classes took advantage of the dilemmas which continually presented themselves when this government was in sore straits and became wealthy through all manners of schemes; thousands amassed fortunes because there was a possible chance to do so; and today the same thousands are enjoying the fruits of their "cleverness"—if it may be called by so mild a name. But the newspapers without whose great influence there would probably have been discomfiture and rebuffs and probable failures along many lines, are now silently ignored by those in authority—by those who could easily show appreciation for the work that has been accomplished through their efforts. Because of this fact there are many plants that have been founded upon necessity and brought into a paying condition through incessant toil and a long struggle, forced to suspend and become as if they never were; and the owners and employees forced to take up new lines and new locations. I think it is not fair. I may be biased in the matter because I've been a printer and publisher for many years. But whether I am or not I'm sure there are hundreds of thousands in this country who will agree with me that there's something wrong "in the barrel."—Thorn in Palm Beach Post.

STATE PRESS COMMENT At ten cents a pound, in the markets, Irish potatoes are selling at only a dollar and a half a peck or dix dollars a bushell. Those are lucky people who have their own potatoes patch.—Miami Metropolis.

If prices continue to advance we may soon arrive again at the days when a man will take a bushell of potatoes to the store to buy a day's rations, and receive in change one large fopier two cocters and a wood-chuck.—Tampa Tribune.

South Florida newspapers that use the "ready-made" editorial staff are a bit careless at times; for instance, one recently was advocating the extension of parks and out door amusements, with special emphasis on skating ponds for winter sports.—Times-Union.

Moore Haven is boasting of an order for 250 dozen brooms received by the Everglades Broom and Brush Company, from the Atlantic Coast Line Railway. The broom corn is raised near Moore Haven and The Times predicts that this will become one of the leading industries of that progressive young city.—Times-Union.

Read Ruskin Occasionally. A goat is derided for eating newspapers, yet many a man feeds his mind on nothing else.

Peculiar "Drum Fish." In the Indian ocean is a curiosity called the "drum fish," which the island fishermen of the Seychelles, Amiantes, etc., often take with hand lines and which is highly esteemed as an article of food; it has earned its name from its habit of making a booming noise when pursuing or pursued; in size and taste it is not unlike the cod.

SERUM MADE FOR HORSE SAVES GIRL

U. S. Bureau Experiments on Animals Dev'op Cure for Olive Poisoning.

It was serum prepared by veterinary scientists of the bureau of animal husbandry for experimental purposes in treating forage poisoning of horses that saved the life of Lena Delbano, after the other six members of her family had died from eating poisonous olives in New York recently, according to the department of agriculture. The serum was made from the blood of a sheep that had been immunized against bacillus poisoning. In investigating forage poisoning of horses the bureau made extensive experiments with serums and discovered there were two strains of bacillus botulinus. They look alike and the poisons they create produce the same effect, but immunization against one does not afford immunization against the other. The two strains are commonly known by the government investigators as "the olive strain" and the "cheese strain." Three instances of olive poisoning, one in Michigan, one in Ohio and the third in Montana, were all caused by the "olive strain." The veterinarians, therefore were reasonably certain that the serum affording protection against the poison generated by the "olive strain" would be effective in the New York cases, and it proved to be in the one case where it could be given a fair trial.

HIS WOVEN BASKETS BRING RECORD PRICES

Dat-so-la-lee, the famous Indian artist, is receiving more than \$1,000 each for the woven baskets he makes. He is the possessor of a secret which has been handed down for generations in the Washo tribe, whose members live in an isolated reservation in Nevada, 100 miles from a railroad. His baskets are wonderfully woven and the symbolic designs with which he adorns them are most elaborate.

HOW LUXURY TAX WORKS

In Paris Writing Table and Chair Cost Less Than Desk Alone. The Paris Figaro tells the following true story of the working of the French luxury tax: A man went to one of the big furniture dealers to buy a writing table. Choosing one of the least pretentious pieces, he asked the price. It was 800 francs, which seemed rather high. The shopman, however, added: "We will add this little arm chair. It isn't dear. Only 50 francs." "No, I don't want it. I have quite enough chairs." "Excuse me," said the seller, "if you buy the desk alone I shall have to ask you to pay the luxury tax, which comes to 80 francs. But if you take the chair as well I shall be able to put down your purchases as a suite—office furniture. For this the tax limit is 1,500 francs, and I do not have to charge you on a purchase of 850 francs. Thus if you take the chair you save 80 francs and have an extra piece into the bargain." As a measure of economy the chair was bought.

MAKE ARMY TANKS COOLER

Gasoline Engine on New Machine Placed in Rear. Through the devising of means to take some of the engine-generated heat from the inside of a tank, life for those in the "treat-em-rough" corps of the army has been made a little more comfortable. Through heat and gases from the engines, the interior of tanks used in the World war often became a veritable inferno. In the new tanks the gasoline engine is placed in the rear of the tank and separated from the fighting compartment by an air tight steel bulkhead.

Last Night's Dreams - What They Mean

DID YOU DREAM OF LACK OF CLOTHING?

WHAT is called one of the "standard" dreams, one which is most annoying and one which everybody almost, has experienced at least once in his life, some people many times, is the dream of finding oneself in a thronged street or in a room filled with people and suddenly realizing that one is only partially clothed or not clothed at all. In these dreams the people with whom we find ourselves do not appear to take any notice of our unconventional condition, but the dreamer is much disturbed and endeavors to escape. This dream has received particular attention from those scientists who for more than half a century have been investigating the phenomena of dreams regarded as purely mental (or more accurately psychic), or as physical manifestations. The dream in question is said to be the basis of Hans Christian Andersen's story, "The Emperor's New Clothes" and has been done into poetry by the German author, Fuida, in "The Tallman." It is called by the scientists a "standard" or "typical" dream because it is one which is experienced by all persons in an identical or almost identical manner; whereas most of our dreams are peculiar to ourselves.

The empirics, those who interpret dreams in the old, superstitious, traditional, mystic and unscientific manner—declare the dream under consideration to be a bad omen, though they do not all agree just how bad. They say it signifies that people are conspiring against you; that you are soon to receive an insult; you will be disappointed in your friends and relatives and it is a warning to you to mend your ways.

Those scientists who strive to account for dreams by referring them to a physical source say that this dream is simply the result of sensations caused by the bedclothes slipping off. But that does not hold for we frequently have the dream when covered up warm.

Professor Freud, the latest and the most celebrated of investigators of dream sources, says in his book, "The Interpretation of Dreams," that the dream is based upon a recollection of our earliest childhood. When we were babies we were seen with indifference by relatives, strangers and servants scantily dressed and were not ashamed. These recollections of babyhood, imprisoned dormant and unrecallable in our waking hours, are liberated to us in the dream state. Our feeling of uneasiness and desire to escape though no one notices our nudity, is a reflex from the "repression" of our later lives during which the habit of being properly clothed in public has become part of our normal existence.

Just Folks

By EDGAR A. GUEST

PHILOSOPHY.

It's all worth while, he used to say When difficulties lined his way. I've never known a trouble yet I wasn't glad that I had met. The minute I had seen it through. Because it proved what I could do. I've feared it, looking straight ahead, I've had my share of doubt and dread. And yet, when it was over, I Looked backwards with a laughing eye. And to myself I'd always say: You'll boast about that task some day. I've never known a man so great That didn't hunger to relate The hardships and the cares he'd known. Before success was his to own. The hunger that had made him white Had also helped to make him fine. The failures that had tried his soul And seemed a barrier to his goal Had changed their bitterness for sweet.

And now are memories to repeat. Man's greatest joy beneath the sun Is to recall what he has done.

Today I laugh at yesterday And all the cares that came my way; The past is only grin to those Who left their courage with its woes. Who plod along new joys to win. Looks back at trouble with a grin, And boastfully at times repeats The misery of his defeats. He tells his hardships with a smile And holds that they were all worth while. For all the secret joys that last Spring from the hardships of the past.

So into every round of care And every battle with despair I plunge, remembering the fun That it will mean when I am done. What hurts me now will some day be A very pleasant memory. And laughingly I may recall In future years the present fall. What seems today a fearful test May be tomorrow's source of jest. And all that calls for courage stout Some day I'll proudly boast about. (Copyright by Edgar A. Guest.)

Remarkable Meteor.

Numerous observations of the brilliant meteor seen in the early evening of October 21, 1910, show that it had the long horizontal flight of 335 miles from over a point of twenty miles northeast of York, England, to thirty miles southwest of St. Valery, France, according to the Scientific American. It traveled at a speed of about thirty-three miles a second and its average altitude was seventy-four miles.

Famous American Journalist.

On the third of February, in 1811, Horace Greeley, the journalist, was born at Amherst, N. H. He was the son of a poor farmer. Greeley received all the school education he ever had at the village public school, and at the age of fifteen was apprenticed to a printer. Greeley founded the New York Tribune, and from 1850 to 1870, when he retired, he was the most influential editor in the United States. He died at Pleasantville, N. Y., in 1872.

Chinese in Java.

The standard of living is probably higher in Java than any other Chinese community in the world. The houses are clean and well furnished, the people dress in European clothing, and every one has a great deal to say about dirt and sanitation. There are Chinese families in Java which have been there for five centuries, but the great majority of the 300,000 who live on the island have come there or are descended from those who came there in the last fifty years.

#### Society Personals

Mr. and Mrs. Gene Roumillatt were among the Sanford visitors to Orlando Monday.

Dr. S. W. Walker left for Mississippi

Monday where he goes to hold a series of evangelistic meetings for several weeks.

Martina and Russell Henneffey of Jacksonville are the attractive young guests of their aunt, Mrs. W. D. Gillon.

Mrs. H. B. Dnnivan has returned to Waycross after a pleasant visit with her sister, Mrs. C. J. Wolfe.

Mrs. D. C. Marlowe and little son will leave for Tampa this week for a visit to her brother, Mr. Fred Lovell.

Mr. and Mrs. Bert Roper, Mr. and Mrs. Roy Roper, Oscar and Fred Roper motored up from Winter Garden, Monday for the MacAlister-Roper wedding.

Mr. and Mrs. Minor Swarhout and baby leave to-day to return to their home in Hammondsport, N. Y.

Mrs. Raymond Key has returned from a week's visit to Miss Tucker in Orlando.

Mr. and Mrs. Archie Betts, Mr. and Mrs. Lloyd, Mrs. Chas. Hand and little Chas Betts motored to Orlando on Sunday.

#### The McCords—Somewhat Different

The last of the Lyceum numbers given under the auspices of the Woman's Club will be presented at the High School to-morrow (Wednesday) night at 8:30.

The McCords are just human beings with a warm, friendly message that everyone can understand. They let the sunshine in where shadows were before. In character sketches, song sketches, monologues and dialogues they present an entertainment, that is a sort of joyous hash of music sketches and impersonations that is "somehow different."

#### Social Department Leap Year Dance

With Mrs. J. S. Wilson hostess, the Social department of the Woman's Club will give a Leap Year dance Tuesday night—13th to which the girls of all mothers who are members of the Social department are eligible and the girls have the privilege of inviting their own escort—Leap Year fashion. There will be good music and Mrs. Wilson promises a good time to all who attend.

#### Pretty Home Wedding

The cordial interest of many friends centered in the marriage of Miss Mary Ellen McAlister and Frank Roper which took place at the home of the bride's uncle, Mr. Frank MacAlister, Monday evening at eight o'clock, Rev. C. W. White former pastor of the First Methodist church officiating.

The house was prettily decorated with quantities of roses and amaryllis against a background of potted ferns. Southern smilax festooned the doors and windows and entwined the balustrade in graceful profusion. Potted ferns were banked in masses against the mantels and were placed about the rooms on stands and ta-

bourettes. Candles lighted the scene of the wedding.

Proceeding the entrance of the bridal party, "The Rosary" (Rogers) and Cadman's "At Dawning" were sweetly sang by Mrs. Porter Pitts, Mrs. Schelle Maines playing the accompaniment who later played the Wedding March and Mendelsoln's Spring Song during the ceremony.

The bride who was given in marriage by her uncle Mr. MacAlister, was lovely in a bridal gown of white satin. It was made short length with panel front and held in at the waist line with narrow satin straps, the flowing sleeve falling away from the arm in graceful folds. The long silk tulle veil was worn cap effect and caught with orange blossoms. The bouquet was brides roses.

Only the members of the two families witnessed the ceremony, after which an informal reception was held when a few close friends were entertained.

The bride's table was placed in the dining room and decorated with quantities of fern, in the center of which rested the beautiful bride's cake.

A pretty bit of sentiment that attaches to the wedding was the date falling on the anniversary of the marriage of the bride's parents.

Mr. and Mrs. Roper left during the evening in their car for a wedding trip down the east coast. Upon their return they will reside on the West Side.

Mrs. Roper wore for the trip, a French model of rose colored pongee and a white satin Dutch hat finished in blue to match the trimmings of the dress.

The bride is the daughter of Mr. and Mrs. Ed. V. MacAlister of Logansport, Ind., a charming, attractive girl, possessing a charming personality.

Mr. Roper is a young man of splendid ability, successful in business and of sterling qualities. Sanford has been his home for many years where both young people have hosts of friends to wish them happiness.

Out-of-town guests for the wedding were Mr. and Mrs. Roy Roper, Mr. and Mrs. Bert Roper, Messrs Fred and Oscar Roper of Winter Garden.

#### Randolph—Thompson

Mrs. Rufus E. Lester of Savannah announces the engagement of her grand-daughter, Miss Laura Lester Randolph, to Alfred Wright Thompson of New York and Washington. No date has been set for the wedding.

The announcement of Miss Randolph's engagement will be of interest to her friends here where she was the popular guest of Mrs. A. B. Peterson, nee Miss Clarissa Starling, several winters ago. The bride-elect is a member of one of the most prominent families in Georgia and is herself a leader of society.

#### Miss Agnes Berner Maid Of Honor At Bradentown Wedding

One of the most pleasing and elegant social events of the season was the marriage of Miss Helen Keating the charming daughter of Mr. and Mrs. J. Keating, who was married to Mr. Carl Edwin Carney, in the Catholic church, Tuesday morning, April 6th, at 11 o'clock, Rev. Father Wagemons S. J., performing the ceremony, using the impressive ring service of the Catholic church and nuptial blessings.

The church was profusely decorated with Easter lilies and palms and Natalensis Assonia were banked along the altar rail, and the church presented a most beautiful appearance. Lieutenant Oliver Kirkhuff and Mr. Dix Arnold acted as ushers and Miss Agnes Berner, dressed in a becoming dress of white organdie with picture hat to match and carried a bouquet of pink Kilarngy roses, was maid of honor. Brides maids were, Misses Martha Green and Lillian Arnold, who wore white organdie dresses with picture hats to match and carried bouquets of lavender and sweet peas. John Keating, brother of the bride, was best man.

The bride was most charming in an elegant wedding gown of white satin, trimmed with pearls and point lace and carried an exquisite bouquet of bride's roses and lilies of the valley. The lovely bridal veil was fastened with real orange blossoms. The bride is one of the graduates of the Manatee County High School, being a member of the class of 1916. She has spent practically all her life here, and is one of the most attractive and accomplished young ladies of the county. As the bride entered the church she was preceded by little Miss Bettie Barney and Master Jack Curry, who scattered rose petals along her pathway.

As the bridal party entered the church Miss Mary Houghton at the piano and Mr. S. A. Bean, violin played the Angel's Serenade and after the ceremony, played Lohengrin's Wedding March.

After the ceremony the relatives and most intimate friends attended the elaborate reception at the home

of the bride's parents, Mr. and Mrs. John Keating. The house was beautifully decorated with Easter lilies and pink and white roses and vines, an elaborate buffet luncheon of chicken salad, sandwiches aspic, olives, fruit punch, coffee, cake and ice cream were served.

The cutting of the bride's cake afforded much pleasure and amusement. Miss Martha Green drew the ring. Miss Aileen Fogarty, of Tampa, drew the thimble while Miss Houghton drew the dime.

The young people left on the evening train for Chicago and Louisville, Ky., for a wedding trip and will then go to Buffalo, where the groom has a very responsible position. The bride wore a traveling dress of midnight blue tricotine, with brown hat shoes and gloves to match. They will be at home to their friends after May 1st, in Buffalo, N. Y.

The young people have the sincere best wishes of their friends for a long, happy and prosperous wedded life.

In Circuit Court Seventh Judicial Circuit Of Florida Seminole County In Chancery, R. S. Blanchard vs. Richard P. Marks et al.

To the Defendants Nellie Parramore Mitchell and William Mitchell: It appearing from the sworn bill of complaint in this cause that your residence is Savannah, Georgia, it is Ordered That you do appear to the bill of complaint in the above styled cause on Monday, the Third Day of May, A. **BRIGGS HOME SOLD**

**Beautiful Winter Home at Altamonte Changes Hands**

A deal was consummated in Orlando today whereby Mr. Richard E. Hoffman, who for a number of years has been an official of the New York Gem Safety Razor Corporation, purchased through Col. J. N. Bradshaw, the lovely winter home of Mr. Thos. A. Briggs, at Altamonte Springs. The home which is of red tile and handsomely furnished, is located just west of the Altamonte Hotel, in a beautiful tract of twenty-five acres of rolling woodland, fifteen acres of which is in citrus culture and prolific bearing. Beautiful driveways on each side of which are fascinating flowers in exquisite colors, making outdoor life one of extreme happiness. The house fronts on Lake Orienta, one of the many beautiful lakes which abound in the favored locality.

Some time in July of last year Hoffman paid his first visit to Orange county, and became so thoroughly interested in horticulture that when an opportunity presented itself to become affiliated with Dr. C. D. Christ and Mr. A. D. Keene in the citrus industry, he joined with these gentlemen in acquiring Foss and other groves amounting to 180 acres.

Returning to the Empire State, hard work compelled him to seek the balmy zephyrs of the Southland, so when he arrived in Orlando in December, so ill was he his friends and family thought an ambulance would have to get him safely to his hotel. Time proved very beneficial to him and with the return of health came the longing to possess a home in this section. Plans had already been prepared and the material ordered, but on account of the delay actual work had not started, when a friend quietly gave him the tip that the Briggs place, which adjoins the one on which he had contemplated building, could be purchased. No time was lost in looking up the owner and in almost as quick as it takes to tell, the beautiful home had been bargained for.

Mr. and Mrs. Hoffman are lovely people, they have three very attractive daughters, Misses Claudine and Erma, who are attending Rollins College, and Miss Theresa Hoffman, at the Winter Grammar School.—Reporter Star.

**Looks Like Mary Is In For Some Trouble**

Sacramento, Cal., April 12.—Extradition proceedings to transfer Mary Pickford to Nevada to face charges

of perjury will in all probability be the next move in the investigation of the celebrated movie star's divorce from Owen Moore, in the event the decree is set aside by the Nevada judiciary.

Such was the consensus of opinion today of high California officials who were in conference with Gov. Boyle of Nevada here Tuesday. Charges of perjury will be preferred against Mary immediately upon

the annulment of the Pickford-Moore divorce, according to those who conferred with Gov. Boyle. The penalty for perjury under the Nevada statutes is a sentence of from one to fourteen years' imprisonment, with no alternative of a fine.

The Nevada executive while here visiting Gov. Stephens expressed resentment of the movie star's "fraud which made a joke of Nevada's judiciary," and promised that the Nevada

authorities will "go the limit" in an attempt to bring Miss Pickford to justice.

**Killed by Peashooter.**

"Shot to death with a peashooter," was the verdict of the coroner's jury investigating the demise of Mrs. Juggie Archer in London, England. It was found that she ruptured theorta when the vegetable, shot from a boy's artillery, hit her in the face.

**Foot Square and Square Foot.**

A mathematician says there is no difference in area or quantity of surface between a foot square and a square foot, but there may be a difference in shape. A foot square must be a rectangular surface having four equal sides, measuring one foot long each. A square foot may also be a foot square, but it may be irregular in shape, say six inches wide and two feet long, or any shape so long as the area is equal to 144 square inches.

**Value of Failure.**

I pity the man who has no failures to his credit, whose way has been smooth and prosperous from beginning to end, because such a man is likely to be riding to the only tragic failure there is—that of life itself. The thing that most often tends to poverty is the thing we call success. If one's failures have been honestly achieved by hard and long-continued effort, they become highly useful and convincing.—Irving Bacheller.
