BROWN BALKS ON REPORTING TO U. S. SENATE

**Postmaster Refuses
Information Which
He Gave In Report
To Herbert Hoover**

WASHINGTON, Feb. 11.—(AP)—Postmaster General Brown refused to furnish the Senate postoffice lease investigating committee information which formed the basis of a report by him to President Hoover last summer. He was questioned in connection with the department's leasing policies. Chairman Blaine said he wanted to question Brown on his "attitudes on the production of postal records" in the department.

The report last summer recommended the purchase of a number of postal quarters now leased. Brown said he wanted to aid the committee's inquiry any way he could but to furnish the department's records would be "incompatible with the public interest."

John H. Bartlett, former assistant postmaster general, testified (Continued On Page Six)

SEEKS NEED PITCHERS ON YANKEES' OUTFIT

Wonders He Is Going To Be In There Trying To Beat Own Record

WACKEEVILLE, Feb. 10 — (AP)—If the Yankees win the American league pennant next season they are going to have some new pitchers.

That is the opinion of George Herman (Babe) Ruth, and he would know, since he is the Yankees' rightfielder and the highest salaried player in the game.

At any rate, Ruth is going to be there trying to beat his own home-run record and to regain the title he lost last season to Hack Wilson.

The Babe arrived here Monday aboard the steamer Shawnee from New York, and immediately set out in their automobile for St. Petersburg.

When Babe Ruth never felt better in his life, he said. He is going to get in some golf and sunbaths and take off just a few of those 220-odd pounds he weighs before the spring training grind.

Sammed in with the 180 other managers and reporters, the Babe talked about baseball and the weather—it was raining—and about the photographers and their cameras.

But he didn't appear overconfident of the Yankees' chances for next year.

The Athletics have a great ball club," he answered when asked how he thought they would stack up next season. He likes the new Yankee manager, Joe McCarthy, however, and believes the team will do great things under McCarthy's tutelage.

"We will win if we get some new pitchers. That is our only weakness now," Ruth said.

The home run slugger thinks he is going to do a lot better next season, but he would not say he would beat Hack Wilson out.

"I'll be in there trying," he smiled.

A gray-haired old man came up and asked a piece of paper at the Babe to be autographed.

"I'll just sign all the other kids," he said. "Would you write your name on this for me?" Ruth would.

Their automobile was slowed down to the door of the hotel and the Babe lost little time getting into it and heading for St. Petersburg.

One reporter asked the Bambino that he honored question a bout whether he liked pajamas or night shirts best.

"Pajamas," he laughed as he stepped on the gas and pulled out for St. Petersburg.

"I weigh around 223 pounds, but a few under my usual weight at this time of the year and I intend to start the American league season at around 215 pounds."

In his reply to a question regarding his intentions to discipline Hack Wilson, Babe slugged, as humorist Walter in the majors, Ruth said, "You can tell the boys that I will be in there swinging and that I hope to play every game on the Yankees schedule."

It will be remembered that Ruth was hindered for the last six weeks of the campaign with a finger injury that brought his home-run output to a low level during the final days of the season, after he had set a terrific pace for the first two-thirds of the campaign.

"That new baseball we have heard so much about in the past few days will not hurt the real home-run hitters," opined Ruth. "It will cut down on the freak home-runners that have been so plentiful for the past several years in the big leagues, but I doubt if it will hinder any of the leaders to any appreciable extent."

The Grundy Tariff

Whatever may be the underlying causes of the current economic depression, it cannot be denied that the Grundy Tariff Bill is one of the principal contributing factors.

We are in receipt of a letter from James M. Carson, Miami attorney, in which he points out that in our zeal...

"I am wondering if the State of Florida has learned anything about how foolish it was to insist on a tariff on citrus fruits and winter vegetables, even if it meant the passage of the Grundy Tariff Bill.

This experience ought to be a lesson to our people. The tariff is of no particular importance to us except that such tariffs as the Grundy Tariff paralyzed the buying power of the rest of the country.

Mrs. Baur's Rules Of Success

The average woman wastes time. This is not our idea of it, understand, but that of Mrs. Bertha Baur, a woman, thank goodness! She says that women ought to plan their work more efficiently and then apply themselves more vigorously.

And she ought to know for she is not only a woman, but also a business woman who has managed a two million dollar estate for some fifteen years.

A long time ago Mrs. Baur prepared for her own use ten rules for success, and living closely by them ever since she has achieved that success which most women desire.

- 1.—Don't ever give up the quest for knowledge—and more knowledge.
2.—Learn to execute the knowledge you get.
3.—Have the feeling in your mind that you can do anything in business that anyone else can.

TELLING THE WORLD

By NEAL O'HARA

PLAIN STARK MISERY Not since the panic of 1907 has the suffering at Palm Beach been so intense as this season.

"I never saw anything like it," said Dennis Gooloff, the veteran hotel man. "At least sixty-two of the 100 seediest families are right here at Palm Beach this winter."

"It isn't just a few isolated cases, either," continued Mr. Gooloff. "It's general. I've seen Mrs. Thaw's of New York wear the same dinner dress twice inside of a fortnight."

WASHINGTON DAY BY DAY

Champ Clark used to tell a story illustrative of the power which Pennsylvania wielded in the House of Representatives for many years.

The secret of it was that Keystone Republican kept sending back the same members election after election until the rule of seniority carried them to the chairmanships of controlling committees in the Lower Branch of Congress.

Speaker Clark's contention was that if a state wished to be influential in national legislation it should pick an able man and keep on re-nominating and re-electing him.

States which complained of "Pennsylvania control" in Republican time, or "Southern domination" in Democratic Congresses had only themselves to blame, he asserted.

They changed their representative personnel so often that by the time they changed, their new man had to start at the foot of the committee lists. Just about the time he had learned the ropes, or was becoming influential on an important committee or likely to attain to a dominant chairmanship, some dizzy woman who did not like the way he combed his hair or the cut of his clothes or some crack-pot reformer would be elected on a pledge to enforce longer working hours, or to require the F Street filipists to require more clothes or to have lithographs of F. Scott McBride and Herbert Hoover in every American school room.

It hardly was the fault of Pennsylvania that it kept on re-electing its Republican Congressmen nor that the Solid South disclosed an aversion to switching its Representatives every two years.

Now we hear the issue agitated all over again.

This time the challenge to Solid South monopoly of important chairmanships issues from Northern, Eastern and Border State Democrats. Representative Jack Cochran, who comes from a St. Louis district, is sponsoring the movement.

The so-called Solid South States will have ninety-two Democratic members in the next House out of a total of 216 Democrats, or approximately 43 per cent of the aggregate Democratic representation.

There are thirty standing committees of the House. The ranking Democratic members of twenty-four of them are from the Solid South.

Taking the Congressional Directory as it stands, the Solid South, with 43 per cent of the Democratic membership of the House, controls 64 per cent of the committee chairmanships.

The Northern, Western, Eastern and Border State Democrats do not stand to gain, important chairmanships in the event the rule of seniority is invoked in a Democratic organization of the next House.

Some of the Southern Congressmen, who, by tenors of influence in choice spots to influence legislation, are awful yaps; they have gained little in education from long residence in Washington, nothing of refinement. They capitalize their backwoods provincialism for political purposes in backward constituencies.

On the other hand, it is undeniable that some of the ablest and most upright and broadminded men in both branches of Congress are from Dixie. They are national in their vision, fair in their judgments, sane in their legislative policies.

Representative Cochran's movement is directed against the holdovers who have managed somehow or other to hold to their congressional jobs until they are in a position to misrepresent the Democratic Party as chairmen of important committees.

It is not a movement against Jack Garner of Texas being Speaker of the House.

It is not a protest against the competent Joseph W. Byrnes of Tennessee becoming chairman of the powerful Committee on Appropriations, nor of his attaining to Democratic Floor Leader should he prefer that chair.

If Byrnes does not desire the floor leadership it would fall to the thoroughly fitable Jim Culliver of Mississippi.

That is not the point. If the development of a militant Democratic Party in the North, East and West is to proceed, Representative Cochran and those now contemplating themselves with him contend that thirty-two Solid South Democrats ought not have all the committee chairmanships.

They talk who wouldn't jump in their bathing legs for something less than a monthly stipend as a representative of the Solid South in the United States Congress. I tell you, the Solid South is a rotten egg.

TAX FACTS

All net income up to \$5,000, whether actually earned or not, is considered earned income for the purpose of the 25 per cent credit.

However, thousands of returns are received showing net income in excess of \$5,000, part of which was earned income and part of which was not earned. Following is an example of how to compute correctly the tax on such a return:

A taxpayer, married and with no dependents, received in 1930 a salary of \$4,000, and from a real estate transaction made a net profit of \$4,000. His personal exemption is \$3,500. The tax rate is 1-1/2 per cent on the first \$4,000 in excess of such exemption, and 3 per cent on the remainder:

The NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner. Low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners and experienced mechanics—the more certain you become of this fact. . . . It brings you everything you want or need in a motor car at an unusually low price.

LOW PRICES OF FORD CARS \$430 to \$630

F. O. R. Dealers, plus freight and delivery. Expenses and taxes, etc. extra at local cost. For more particulars, Ford or authorized dealer through the authorized Ford Finance Plan of the National Credit Company.

TOBACCO CAPITAL VOTES
OLD GOLD BEST

Believe it or not—proves it

RICHMOND AWARDS O.G. BIG VICTORY OVER RIVAL BRANDS

Down to Richmond, Virginia, the other Richmond, one of the nation's capitals in tobacco products, where they know tobacco like lightning bolts from their own.

I gave 500 Richmond smokers one each of the four leading tobaccos... with the names hidden by a black ink.

"Don't try to guess 'em, Richmond!" I said. "Just smoke 'em... and pick out the cigarette that means best."

It was the smart old lady, Agnes, O. G. rolled up a double muflety one. Chosen by the world's foremost tobacco lover for its superior taste—smoke and satisfaction.

That isn't a Supreme Court decision...
