

POSTMASTER APPOINTMENT IN GEORGIA HAS STARTED A BIG ROW IN THE SENATE

Watson, of Georgia, and Phipps, of Col., Almost Come to Blows

WATSON OFFERED

TO KNOCK HIS BLOCK OFF IF HE SAID ONE WORD OUT OF THE WAY

(By The Associated Press)
WASHINGTON, May 22.—Postmaster appointments in Georgia started a hot exchange in the senate today between Watson, Democrat, of Georgia, and Phipps, Republican, Colorado, member of the postoffice committee, with result that business was disrupted several minutes after which the two senators took the controversy into the corridors with Watson offering personal combat. "If you say one word out of the way I'll knock you down" Watson said he told Phipps after they left the senate chamber. Phipps declined to see newspaper men to discuss the incident.

NEW SALESROOMS AND AUTO GARAGE FOR SANFORD

Sanford is not only recognized by home people as being one of the best places for investment but the people of other cities are recognizing this fact as well and Orlando folks will soon become heavy investors in this city. Among the first is the San Juan Garage of Orlando, distributors of the Studebaker, Packard and Chevrolet cars who wanting a salesroom in Sanford and being unable to rent a place, bought the Parker property at the corner of First street and Myrtle avenue and will erect at once a fine brick salesroom and garage that will be a credit to the city.

PALATKA CURB MARKET STARTS UP THIS WEEK AFTER FIRST ATTEMPT

Palatka's second attempt to start a curb market where farmers can sell their produce direct to the consumers will open for business tomorrow morning at 9 o'clock on Lemon street just in front of the court house. If present plans work out there will be a large number of growers of fresh vegetables and other products in with their supplies and the housewife will, no doubt, find it to her advantage to get her basket and go to market.

The venture has been planned and worked up by Miss Florence Sipprell, home demonstration agent, and she has secured the cooperation of many farmers. Local business men are also interested themselves in the venture as it means the bringing into Palatka of a large number of farmers who will have their cash sales with which to make their own purchases after the market closed.

Already one producer is advertising in today's paper that he will have fresh eggs, from the finest chickens, at 25 cents per dozen, or will sell five dozen for the dollar. He also will offer new potatoes at 20 cents per peck and all other produce at similar prices. This represents a saving of about 25 per cent and no thrifty housewife can afford to overlook it. He has forty dozen fresh eggs at this price, and may have more.

HELEN HUNT WINS SUIT FOR DAMAGES

JURY FINDS FOR PLAINTIFF IN CASE AGAINST DR. HULLEY AND STETSON

Miss Helen Hunt, of Jacksonville, was awarded \$25,000 damages last evening by a jury in the 17th Judicial Circuit Court in this city in a case against Dr. Lincoln Hulley and the Stetson University, charging malicious and illegal expulsion of the plaintiff from the University in 1907. The verdict, which was brought in by the jury at about 6:30 p. m., came as a culmination of a five days' heated trial in Orlando, and as stated by attorneys for Miss Hunt, as an award to her after fifteen years of continuous but very much interrupted efforts to exonerate herself from the cloud that was cast about her when ordered from the school, and particularly for the refusal of Dr. Hulley to offer reasons for her alleged expulsion.

Miss Hunt was awarded \$15,000 by a jury in Volusia county against Dr. Hulley for slander in 1911, but this verdict was set aside by the Florida Supreme Court, and much testimony from that trial was used for the present trial.

In a ringing address to the jury Saturday afternoon, E. W. Davis, counsel for the plaintiff, plead with the jury to give the young woman total exoneration for which she has been fighting for so many years, and declared that the amount asked by her would only partially compensate her for the persecution she has suffered resulting from the expulsion from the college and the refusal of Dr. Hulley to at least make a statement that her character was not involved. He made several deliberate charges against Dr. Hulley and attacked his Christian principles and ethics as an educator and head of a christian institution to deal with a young girl placed in his personal care at the college as he had done with Miss Hunt, who was then only a girl of less than seventeen years of age. He enumerated the many petty charges, mostly unruly pranks, charged by Dr. Hulley to have been made by her and which was said to have resulted in her dismissal from the school because of being incorrigible and uncontrollable, and in practically all cases succeeded in satisfactorily proving that she was only a participant of many, or they were only imaginations and perhaps inventions of the dean of the girls. Mr. Davis drew a word picture of this dean that caused almost tumultuous laughter in the court room and in the jury. He said he was unfit to be in charge of young girls of lively spirits who were unused to the extreme puritanical measures which were propounded upon them by this dean, who was a spinster.

L. W. Baldwin, leading counsel for the plaintiff, opened the case with a one-hour's address, and was immediately followed by Judge T. Picton Warlow and Judge L. C. Massey, both counsels for the defense. Both summed up their case clearly and convincingly, but the address of Mr. Davis, which was the last to be given, came almost as an electric current, in an overwhelming manner, and rang with human appeal that was irresistible.

The case went to the jury at two o'clock Saturday afternoon and at 5 p. m. the jury filed out to consider the verdict.

Immediately upon receiving the news of the verdict, Attorneys for Dr. Hulley and the University, announced

COLUMBUS, GEORGIA, TORN UP OVER CONTROVERSY OF OFFICIALS ABOUT COMMISSION FORM

An Attempt Was Made on the Life of the Mayor By the Bomb Route

(By The Associated Press)
COLUMBUS, Ga., May 22.—Joint conference of county and city authorities today to consider action to be taken to bring to justice the persons responsible for explosion of a bomb under the home of Mayor J. H. Dimon here Sunday morning. Attempt on mayor's life attributed to persons who recently addressed letters to Dimon and City Manager Hinkle threatening to kill both unless Hinkle was discharged. Hinkle was attacked on the street near his home several weeks ago by persons said to be opposed to commission form of government now in effect here.

SANFORD LADIES BAND WILL START REHEARSALS WITH THIRTY MEMBERS

Third Band to Start in Sanford in the Past Eight Months—Some Record

Sanford is destined to have not only one of the largest bands in the state but one of the best bands in the state and will have more musicians here in the next twelve months than you could find in a city of twenty-five thousand people. This condition was brought about by E. A. Ball, the efficient bandmaster, who since his taking up his residence here has been the most active man in his line in the South. Mr. Ball first organized the Municipal Band that has been brought into bearing in a few short months into one of the finest bands in the state. Not content with this Mr. Ball brought out a thirty piece Saxophone band called the Legion Sax Band and within a short time he had the boys playing so well that they have already given a concert. Now comes the Ladies' Band that promises to be one of the best and one of the most unique musical organizations in the entire south. Composed of some thirty ladies this band has received their new instruments and will give their first rehearsal this week and by the beginning of the tourist season will be able to "blow" with the best of them.

But now comes the best part of all this band business. The Municipal Band, the Legion Sax Band and the Ladies Band will be combined into one big band of NINETY MEMBERS and at the beginning of the tourist season will open the season with a big band concert—one that will create a furor all over the state and will no doubt put Sanford in the front ranks of musical organizations in the south.

Good band music and good bands are the greatest asset to any city and recognizing this fact the people of Sanford are backing their bands to the limit and the world will hereafter know Sanford as being the best "band city" in the United States for the size of the city.

The regular Tuesday concert in Central Park will be postponed this week and the band concert will be given at the Peoples' Bank corner Friday night. Chairman Lake, of the band committee will have arrangements made for the band to play on the street that night for the benefit of the first contingent of Shriners to come to the city and there will be a fine band concert and street dance for the visitors.

REVOLUTION IN NICARAGUA BREAKS OUT

BAND OF REBELS SIEZE FORTRESS OF LOMA BUT TURNED IT BACK

(By The Associated Press)
MANAGUA, Nicaragua, May 22.—Revolutionary movement broke out here today when a band of rebels seized Fortress Loma, commanding this city. Upon representations of American Minister Ramer, however, the revolutionists later agreed to turn over the fort to the commander of the American marines at 10 o'clock tonight to be given back to the government.

China produces about 1,500,000 tons of iron ore annually and is estimated to have a billion-ton reserve.

A Herald Want Ad will help you.

that a motion will be made next week for a new trial.

Miss Hunt was almost at the verge of a nervous collapse last evening, but overwhelmed with joy when told of the news and with tears sparkling she exclaimed, "At last—after fifteen years I can feel totally exonerated. I shall always have a tender spot in my heart for Orlando and its people, and particularly for that jury."—Orlando Sentinel.

ENFORCEMENT OF THE LAW IS MAIN TASK

OF PROHIBITIONISTS DECLARES REPORT OF SOUTHERN BAP- TIST CONVENTION

(By The Associated Press)
JACKSONVILLE, May 22.—Enforcement of law now main task of prohibitionists declared report of Social Service Commission of the Southern Baptist Convention made public today. Also denounced modern dance, race track gambling, violation of Sabbath and urged Baptists to demand strict censorship of moving pictures. Commission expressed approval of banning Arbutke pictures and declared much more needed.

RAILROAD EXECUTIVES HOLDING MEETING TODAY MAY MEAN SOMETHING

(By The Associated Press)
WASHINGTON, May 22.—Seven railroad executives representing a group of nineteen which participated in the White House dinner conference Saturday night, at which time Harding asked voluntary action by the railroads in certain rate reductions, today held a two hour conference with members of the Interstate Commerce Commission.

Have you lost or found anything?

NINETY-EIGHT ARE MISSING FROM EGYPT'S PASSENGERS WHEN STEAMER IS STRUCK

B. & O. GARAGE WILL BUILD A NEW STRUCTURE

HAVE PURCHASED PROPERTY AT CORNER OF SANFORD AVENUE AND SECOND STREETS

The B. & O. Garage of this city have purchased the property at the north-east corner of Sanford avenue and Second streets and will erect one of the finest salesrooms and garages in the city at an early date. The B. & O. Garage under the management of Messrs. Perry Jernigan and Braxton Baggett has been most successful and recognizing the fact that Sanford would soon be a city of twenty-five thousand people have been looking for a good location to build a much larger and more commodious structure for their constantly increasing business. They handle the celebrated Lexington and Hummobile lines and at their new garage will give services on these two cars only and thus guaranteeing Lexington and Hummobile owners the best of service at all times. In their new place they will carry a full line of parts for these cars and with a line of accessories and an up-to-date garage and salesroom will have one of the finest places in the state. Messrs. Jernigan and Baggett believe in advertising and state that much of their success is due to the fact that they have spent over \$100 per month every month in the year with the Daily and Weekly Herald in advertising the Lexington and Hummobile cars and in their new building they will do more than this and expect to let the world know what the B. & O. Garage is doing.

Two Stars in Great Wm. DeMille Pro- duction Tomorrow

Agnes Ayres and Jack Holt Are Featured in Paramount's "Bought and Paid For."

Two Paramount stars, Agnes Ayres and Jack Holt, who were featured respectively in "The Sheik," "The Call of the North," and "The Lane That Had No Turning," play the two principal roles—those of Robert Stafford and Virginia Blaine—in "Bought and Paid For," the William de Mille production which will be featured at the Princess Theater tomorrow.

The role of Virginia Blaine was created on the stage in George Broadhurst's notable play, from which the picture was adapted, by Julia Dean. The cast is notable for the ability of the players embraced therein. Walter Hiers, a rotund, polite comedian imitably plays "Jimmy," which was enacted by Frank Cravens in the original stage production. Others are Leah Wyant, George Kuwa and Bernice Frank.

Of unusual interest is the fact that Mr. Broadhurst, author of the play, and William de Mille, who produced it for the screen, worked side by side in the old days an din one year they had two of the biggest successes in New York stage history running side by side—Broadhurst's "Bought and Paid For" and de Mille's "The Woman."

English Steamer Ram- med by French Steam- er in Dense Fog

AMERICAN LADIES

ARE AMONG THE MISSING AND ESTIMATE OF LOSSES CAN- NOT BE ESTIMATED AT THIS TIME.

(By The Associated Press)
BREAST, May 22.—Ninety-eight persons are missing and two hundred and forty-two were saved of those aboard the British steamship Egypt, when it was sunk off Island of Ushant Saturday night by a collision with the French steamer Seine, according to the latest official figures.

Among the missing are two American women, Mrs. M. L. Sibley and Miss V. M. Boyer, whose home addresses are unknown here.

According to the Egyptians Purser, the ship floated only twenty minutes after her plates were crushed by the Seine. The Egypt, he declared, was not moving at the time of the accident, and was lying to, on account of the dense fog and sounded her siren continuously.

The Seine loomed up out of darkness and struck the Egypt amidships. Purser estimated that fifteen passengers, thirty white officers and fifty lascars of the crew were missing.

BOSTON, May 22.—Mrs. Sibley and Miss Boyer, missionaries enroute to India. Mrs. Sibley has relatives at Toledo, Ohio. Miss Boyer formerly of Applewall, Pa. Mrs. Sibley was a widow of somewhat beyond middle age, returning to India after a visit here. Miss Moyer had no parents or relatives and was taking up work in the mission field for the first time.

LABOR WAR IN CHICAGO BREAKS OUT

POLICEMAN HURLED FROM THE THIRD STORY WIN- DOW

(By The Associated Press)
CHICAGO, May 22.—Collapse of the threatened building trade strike and an attack on a policeman who was hurled from a third story window of a building under guard were the principal early developments today in the so-called labor war. The policeman was badly hurt.

ALABAMA POWER CO., MAKES ANOTHER OFFER FOR MUSCLE SHOALS

(By The Associated Press)
WASHINGTON, May 22.—An offer of two million and a quarter dollars for the Gorgas Power Plant and the Government's interest in railroad and transmission line from Gorgas to Muscle Shoals has been made by the Alabama Power Company.

DEMPEY BILL PASSES IMPROVEMENT RIVERS AND HARBORS

(By The Associated Press)
WASHINGTON, May 22.—The Dempsey bill authorizing improvements of rivers and harbors was passed today by the House. The funds are yet to be provided.

FLORIDA EAST COAST WILL NOT RUN LINE OKEECHOBEE TO MIAMI

(By The Associated Press)
ST. AUGUSTINE, May 22.—Officials of the Florida East Coast railway today denied their road had entered into a contract for the construction of a line from Okeechobee City to Miami as reported several days ago from Tallahassee. An emphatic declaration was made that there was nothing to the rumor.

The Social Department of the Woman's Club will hold a bridge party tomorrow (Tuesday) at 3:00, Mrs. B. A. Howard, hostess. There will be a short business meeting before the social hour.

The many friends of Sam E. Murrell, who is studying law at Stetson University in DeLand will be glad to learn that he has accepted a position with a Miami law firm during the summer and will leave for Miami at the close of Stetson.

J. H. Wendler, managing editor of the Winter Park Post was in the city today and paid the Herald office an appreciated visit. Mr. Wendler is making the Winter Park Post one of the best dailies in the state and it has the unique distinction of being the only Republican daily paper in the state of Florida.

W. H. Crenshaw one of the successful growers of the Monroe section brought a basket of tomatoes to the Herald office this morning that were beauties. They were of a new variety and were large and heavy and looked more like real tomatoes than any we have seen this season. Sanford has been making good on tomatoes this season.

H. P. Smith, the genial cashier of the People's Bank made a trip to Winter Park yesterday afternoon and reports that beautiful city as being in a most prosperous condition. Mr. Smith is vice president of the Union State Bank of Winter Park and knows whereof he speaks. This additional honor and business was thrust upon him some time ago but he is a young man full of vim and energy and several banks will make no difference in his program of smile and push.

CAUGHT FATHER OF ALL BASS

Ned Harrison and Henry Purden are two fishermen who never give up and when they are not working or sleeping they are fishing—nothing else. It is a cold day in June when Henry and Ned or some kindred spirits are not on the lakes or rivers of this section fishing and they have caught hundreds of pounds of fish this season. Today they came in with the father of all bass and probably winner of the prize this season for it was a bass that weighed 13 3/4 pounds after it had been caught several hours and had dried out some. The fish was caught in the Econlockhatchee Creek—so they said—and it is a fact that some big ones stay in the creek and he was caught early this morning. They brought him to the Ball Hardware Co. to be weighed and there is no doubt about this one winning the silver plated tooth brush. The fishing has been fine in and around Sanford this season and many strings of fine bass, bream, perch and jack fish have been caught. The Ball Hardware Co., is offering prizes for the biggest bass and this is stimulating the local sports to greater efforts.

DOUBLE NUMBER OF BAPTISTS ARE TITHING

THIS YEAR SHOWS REMARKABLE INCREASE IN THOSE GIVING ONE-TENTH

(By The Associated Press) JACKSONVILLE, May 20.—Three times as many men among the southern Baptists have adopted one-tenth of their income as a minimum of contribution to religious work as were doing this time a year ago, it was announced in the annual report of the Laymens' Missionary movement to Southern Baptist convention today. Goal is half million tithers among southern Baptists.

AMATEURS SHOULD PLAY FAIR

Radio Inspector Schmidt Urges That They Learn the Laws and Regulations.

Nine out of every ten radio fans are good sports, but the tenth is either a fan with poor judgment or a "rotter." It is up to the amateurs to see that restrictions are not imposed upon them, by playing fair, says Radio Inspector L. R. Schmidt of the Ninth district.

This can be done by observing certain cautions and by becoming posted on the radio laws and regulations. A copy of these regulations may be obtained from the superintendent of documents, government printing office, Washington, D. C., for 15 cents. It is worth while to spend 15 cents in order to be a "square shooter" in the radio game.

The great trouble with amateurs is that when they want to send a message around a corner they put on all the power they have with the hope that some one in Texas might pick up their message. The object should be to use the minimum amount of power to get the message to its destination.

"In all circumstances, except in case of signals or radiograms relating to vessels in distress, all stations shall use the minimum amount of energy necessary to carry out any communication desired."

Amateurs should keep their wave length to 200 meters. They should use a "pure wave" or, as the regulations state, "if the sending apparatus is of such a character that the energy is radiated in two or more wave lengths, more or less sharply defined, as indicated by a sensitive wave meter, the energy in no one of the lesser waves shall exceed 10 per centum of that in the greater."

The wave must be "sharp." As to this the regulations state: "At all stations the logarithmic decrement per complete oscillation in the wave trains emitted by the transmitter shall not exceed two-tenths when sending distress signals or signals and messages relating thereto."

Amateurs frequently are at fault in calling stations too often. The law states that they can call three times, send "d" once and sign their station call three times; but often the amateurs will send the calls a dozen or more times.

HOW TO GROUND AN AERIAL

If Properly Done It Really Protects the Property From Lightning.

Generally speaking, aeriads do not attract lightning, but they do store up atmospheric electricity, and, of course, this condition does create a hazard. However, when the aerial is properly grounded it then acts as a lightning rod and really protects the property from this electrical hazard.

Briefly, the fire underwriters require that the aerial be grounded when not in use by a copper wire no smaller than B. S. Gauge No. 4 or larger, and run said wire as directly as possible to the outside ground.

This means that water, gas or steam pipes inside the property cannot be used for a lightning ground, because if ever this ground was called into service there is a possibility that fire and loss of life may result. So do not use inside grounds for lightning protection.

advising farmers in the correct uses of different fertilizers. And their advice has been much in demand. Cooperative marketing has been stressed and emphasized by the agents in all the counties for the last few years, especially since the problems of production became secondary to those of marketing. In nearly every county there are cooperative marketing organizations which are buying the farmers' supplies and selling their products, doing both cooperatively and saving money in doing so. In Alachua County, Mr. Jenkins, states, there are seven communities organized and functioning along these lines. Dairying has become a major project in but a few counties. In the short time it has been emphasized in Marion County a cooperative creamery has been established and is placing over a thousand dollars every week into the pockets of the farmers. In Hernando County the business men say they could and would not do without the dairy industry.

NEWSPAPERS BREAKING NO SPEED LAWS

Echoing the sentiments The Gazette has been trying to impress upon the people the Miami Herald says that while the press is giving certain publicity to each candidate announcing there is being taken no decided pushing for one candidate over another; adding that for the past many decades newspapers have been used at catpaws for pulling chestnuts into the pockets of many scheming politicians on the ground of "party fealty."

Many of the older newspaper men have long since learned the lesson of the pussyfooting candidate who is anxious to get something, and lots of that something, for nothing. A candidate for any office of considerable note would not expect of his followers to make a daily discourse on the street corner in his favor unless there was to be a financial reimbursement yet the many of them will belittle a newspaper that does not come out each issue with some flattering words in his favor.

Then there are many candidates who lack the initiative to give newspapers any hint of a "story" in their favor. They are buoyed up with the belief that every publisher is ready to break his neck to get a tale of glee and glory about him for the "good of the party." That which is secured with no effect is never appreciated—no matter what it may be. In these days and times and conditions no newspaper is going out of its way to boost anyone for public office for the word "stagnation" is missing from the lexicons of ninety percent of the politicians immediately the polls are closed.

If anything is not worth hustling and working for it is really not worth the having—and the office-seeker who imagines for the moment that a newspaper man is "going to write his fingers off" because of the love for any one man has a blending of the brain, which should be unscrambled at the earliest opportunity.—Kissimmee Gazette.

AN OUTSIDER'S VIEW

The following editorial from the Buffalo Saturday Night was written by a man who is not, and never was, a Rotarian:

"Contrary to the common impression that Rotary is a great and powerful organization because it embraces the most effective men in the community, we are of those who hold that it has won to its support the best citizens because it is founded on a great and powerful idea. Perhaps it is not too much to say that the idea fundamental to Rotary is one which may in the early future entirely change the complexion of society, curing some of the more patent of our political troubles as well as those of our economic life.

"Our interpretation of the Rotary idea is impartial and objective. It seems to us vastly more than the spiritual cement which holds together a little group of people after the fashion that a common belief holds together the members of a religious sect. Rather, we should say, Rotary permeates modern business life, the members of the organization itself merely setting the fashion and lending confidence to the weaker citizens through the example of their undiminished success.

"Like all good things, the principle of service as the basis of a right to commercial existence has been much pawed over and misunderstood. There are simpletons and congenial chair-pushers in business who honestly suppose that the principle of service has been satisfied when a customer has been waited on politely and speedily, even though he may be being vastly overcharged for inferior merchandise.

"To our way of thinking, Rotary with its loftier commercial ideals, demands that the business man shall not only serve his customer's interests in his absence; shall rigidly put

Stole His Signals.

aside any temptation to take advantage of his customers lack of expert knowledge; shall substitute for the ancient principle of bargaining, "let the buyer beware," the more honorable and manly one, "teach the buyer freely to place his trust in me!" "Time was, and not so very long ago, when the average business man felt a measure of repugnance for the things he had to do to keep afloat in business. The best of them shrugged their shoulders, quoted "business is business," in extenuation, and felt relieved when they might retire to the safe haven of home or club as from a disagreeable but necessary daily contact.

"Instead of providing a sanctuary from business, Rotary set itself to make of business, not a cunning struggle for mastery between foxes, but a matter of transactions between men, a clean and honorable series of service contacts, in which the individual's primary responsibility should be, not merely to get his money and get away, but to render service so fully and convincingly that the buyer must owe a debt of good will over and above the money price paid.

"Under the influence of Rotary's leadership, we believe that society is entering upon a new phase of its ever-changing form. Whatever may be the opinion of the cynical who see only the surface, trickery, chicanery and commercial skull-duggery are becoming rarer and less tolerable every year. And the sphere of Rotary's influence is immeasurably broader than the roster of Rotary's membership.

"Rotary's great service to society lies in the fact that it has taught business, purely as a matter of sound common sense, certain deathless ethical principals which generations of clergymen have sought to teach, none too successfully as matters of lofty sentiment and spiritual salvation."

THE RAIL RATE MENACE GROWS

A showdown or crisis on rail rates cannot long be postponed. This week a Seattle post company writes Capper's Weekly that it costs 18 cents to ship one of its 9-cent posts to the Dakotas and that instead of shipping 2 or three cars of posts a day to that territory it does not now get an order.

A receipted freight bill for a car of salt shipped from Kansas City to B. T. Hadley, Secretary-Treasurer of the Main Elk Stock Association at New Castle, Colo., shows the freight \$501, came to three times the cost of the salt, which was \$150 at the shipping point.

The Auto-Fedan Hay Press company finds its business greatly crippled because it must pay \$2.08 1-2 a hundred to ship hay presses to Los Angeles, for instance, as against a freight rate of \$1.15 for export to foreign lands. Why should a shipper be charged nearly twice as much for a shipment for home consumption as he is charged for a shipment for export?

Unless there is a quick reduction in railroad freight rates to about pre-war levels, or the prices of agricultural products are increased sufficiently to equal the advance in rates there will be profound readjustments in agricultural production, involving readjustments in industry as well, so Secretary Wallace of the department of agriculture tells a New York audience. The blighting effect on agriculture of the increased level of freight rates, he informed these hearers, can hardly be comprehended. If they continue for any length of time he foresees these disastrous effects:

First—The favoring of the farmers of South America and Australia at the expense of our own farmers, because of the substantial decrease in ocean rates.

Second—Keeping prices of farm products in the large surplus producing states at figures lower than justified by the investment in land equipment and by cost of production.

Third—Prolonging the period of dissatisfaction among farmers due to encouragement of advocates of

economic fallacies of all sorts. Fourth—Improving the position of eastern truck and fruit growers but at the cost of milk and dairy products because of the advanced prices of hay and coarse grains necessarily shipped from the west.

Fifth—A gradual shifting of industrial enterprises westward near to surplus food-producing territory.

Finally—The promotion of a sectional rather than the national spirit making more and more difficult large national policies with respect to international affairs.

Secretary Wallace pointed out to these New Yorkers that this nation has been built up by a system of low railroad rates to encourage long hauls to manufacturing, industrial and business centers, with a corresponding return haul of manufactured products, and that a sudden reversal of this theory of ratemaking, if continued, would result in great economic injustice, great confusion in the agricultural industry and business uncertainty for a long time.—Cappers Weekly.

Section Men Watch Step.

Section men are known for their deliberate movements. They never get in a hurry unless there is some urgent work to be done. As long as they are on the go they are supposed to be working fast enough.

Track workers on the subway lines are even more deliberate in their movements than men employed on regular railroads. Where the old-time section workers had to look out for flares and occasional freight trains, the subway track men have to be on the watch for express and local trains passing every few minutes. In addition, they've got to have a care for the third rail. In crossing the tracks every movement is taken with the death-dealing current always in mind. A hurried, reckless step might end fatally. Probably in no other line of work is efficiency so measured by slow work.

Royal Parish Church.

Although St. Martins-in-the-Fields (London, England) once the Royal Parish church—has just celebrated its 200th anniversary under the Royal aegis, the church stands on a site consecrated centuries before. The first organ used in the present building was purchased by George I, who had the royal arms worked in relief on the portico. Soon after its erection the church was thus referred to in a periodical of the time:

"The inhabitants are now supplied with a decent tabernacle, which can produce as handsome a show of white bands, diamond rings, pretty snuff boxes, and gilt prayer books as any cathedral, says the Daily Chronicle. If in ghostly form he could return some wet and wintry midnight and see the outcast refugees in those once jeweled pews.

Wormwood.

The Kaiser's pet racing yacht was the Germania. He kept it at the Kiel Yacht club and dreamed of world power as it carried him on cruises.

The war changed a lot of things. It changed the name Germania to Half Moon. It also changed the yacht's ownership. Gordon Woodbury of New York owns it now. He starts on the Half Moon for a cruise in the South seas.

When Bill Hohenzollern heard about this at his famous woodpile in Holland, it's a safe bet he broke his saw.

United States Leads World.

There are in the United States today more than thirteen and three-quarter millions of telephones. This is an average of 12.7 telephones for every 100 persons or, put another way, better than one telephone for every eight people. From a telephone standpoint this country is by far the best developed in the world. In fact, no other country is even a close second.

INDUSTRIAL WORKERS IN POLAND WILL HAVE ANNUAL VACATIONS

(By The Associated Press) WARSAW, May 22.—The Polish Diet has enacted a law requiring an annual vacation of two weeks with pay for all industrial workers.

JURY IN BURCH CASE RESUME DELIBERATIONS MUST AGREE AT ONCE

(By The Associated Press) LOS ANGELES, May 22.—The jury in the Burch trial was scheduled to resume deliberations at nine o'clock this morning. They took the case at four-thirty o'clock Friday afternoon. Judge Reeves said if no agreement was reached by ten or eleven o'clock, he would discharge the jury.

MEMBER PARLIAMENT OF ULSTER CABINET WAS KILLED TODAY

(By The Associated Press) BELFAST, May 22.—The killing today of W. J. Twaddell, member of the Ulster Parliament, who was shot while en route to business, caused the issuance of a manifest by Sir James Craig, Premier, announcing a special meeting of the cabinet and legal authorities. The Premier declared just retribution would be declared.

BE PRETTY! TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago, the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.—Adv.

We want to ask every loyal citizen of Sanford that can possibly spare bed rooms May 26th and 27th to please notify Sanford Shrine Club or phone 104. It will be necessary to list your rooms early.

"They Satisfy"

COCONUTS MAILED ARE EASILY LOST SAY MAIL CLERKS

(By The Associated Press) TAMPA, May 22.—The Florida coast has lost some of its succulent flavor for the South Florida mail clerks just as corn beef and beans became persona non grata to the doughboys during the world

war. In the case of the coconut versus mail clerks, however, it is a matter of the fruit's entry into the mail rather than a palatable dis-

aster all caused by the hundreds of mail clerks who annually insist on mailing the nut without placing it in a wrapper. Unlike the castoff collar,

however, the nut's topography will not permit Uncle Sam's various notations. Frequently, for instance, a clerk in handling the parcel will find that the stamp has slipped over the destination. Neither have rubber stamps yet been furnished that will fit the features of the coconut and leave a legible impression.

However, the clerks assert, they realize that the coconut advertises the state and they are filled with the Chamber of Commerce spirit. Therefore they are willing to bear the trials.

ANTI-DANCING SOCIETY FORMED AT STETSON REFRAIN FROM TERPICHORE

(By The Associated Press) JACKSONVILLE, May 22.—The ability to dance is not a requisite of pleasure, according to Miss Virginia B. Hamilton, a student at Stetson University, DeLand and president of the Anti-Dancing Society. The status of the society is not exactly known but Miss Hamilton told her auditors at the Sunday School-B. Y. P. U. conference of the Southern Baptist Convention here, that it originated with her and two other young women in 1919. The membership has grown to more than 2,000 she says.

Miss Hamilton is the daughter of the Rev. W. W. Hamilton, former superintendent of evangelism of the Southern Baptist Convention and now pastor of the First Baptist Church at New Orleans.

Miss Hamilton said that she and two other young women at that time only 14 years old, decided that just because they did not dance it was not necessary for them to be wall flowers. They found also that it did not detract from their popularity. So, all of a sudden, they pledged themselves to refrain from the terpsichorean temptation. They called themselves the Anti-Dancing Society. They kept their secret for a while but later decided to let others in on their new found pleasures. Then it was decided to adopt the name "Alpha Delta Sigma," not as a sorority, but merely the Greek letters for "A. D. A."

Membership in the society carries only a pledge that the applicant abstain from dancing and encourage others to do likewise.

EAT LESS MEAT IF BACK HURTS

TAKE A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

TWO YOUNG MEN EN ROUTE TO MAINE IN 17 FOOT BOAT

(By The Associated Press) ST. PETERSBURG, May 22.—Somewhere between this city and Jacksonville are two youngmen en route to Maine in a 17 foot canoe.

The adventurers are Herbert Ryan of Haverhill, Mass., and William P. Harms, of Brooklyn, N. Y., who spent the winter here. They are traveling as far as Jacksonville over the inland route.

Harms and Ryan plan to obtain the signatures of the mayor of each city in which they stop. They were in Pulver before they left here.

The canoe is equipped with ample provisions and in addition the men carried fishing tackle and guns with which they hoped to replenish their stores as they become depleted en route.

NEGRO PLEADED CASE AND WON OUT

(By The Associated Press) TAMPA, May 22.—Edgar Heath, negro, believes in the old adage that if you want anything done it is best to do it yourself. Edgar was tangled up here this week with Henry Van Dyke, a fellow member of his race, the two having been haled into court on a charge of breaking and entering with intent to commit a felony. The charge was that they entered a store here and got away with an undetermined quantity of perfume.

Van Dyke was called first by Judge Gibson and immediately pleaded guilty. Not so, Heath, Edgar pleaded not guilty and told the court he would handle his own case without the assistance of an attorney. Van Dyke testified against him as a witness for the prosecution and assisted by other witnesses attempted to show that Edgar was crooked. Van Dyke even went so far as to tell the court that Edgar was with him when they broke into the store.

The testimony didn't ruffle Edgar and at the proper time he questioned the witnesses. He failed to make a summing up speech but at opportune moments pointed out to the jury and after a short absence it returned and rendered a verdict of NOT guilty.

HIGHWAY ROBBERIES AT DAYTONA BEACH MAKES CURFEW LAW

(By The Associated Press) DAYTONA, May 22.—As a result of a highway robbery by two negroes at Daytona Beach recently, Mayor Bailey has warned negro residents that they must be at home each evening by ten o'clock. Additional deputies have been appointed to enforce the edict and all negroes found on the streets after that hour will be arrested. Petty thefts and other misdemeanors which have occurred at Daytona Beach and Seabreeze during recent months has prompted strong sentiment against permitting negroes to reside in either place and reports received here say the movement toward that end is gaining momentum.

MUNICIPAL GOLF COURSE FOR JACKSONVILLE FOLKS

(By The Associated Press) JACKSONVILLE, May 22.—The city council has passed an ordinance authorizing the purchase by the city of property at Moncrief Heights to be developed into a municipal golf course.

The property embraces 146 acres and will cost \$61,158.

SUFFERED FOR FIVE YEARS WITH RHEUMATISM

THE REMARKABLE CASE OF MR. T. L. BELL, OF WEST END, BIRMINGHAM, ALA.

"I suffered for five years with rheumatism and had Eczema for two years," says Mr. Bell. "I had such severe pains in my limbs and body and such terrible itching on my feet and legs from Eczema that I was in a horrible condition; my kidneys also became affected and I was in a general run down condition."

"I was attracted to Ferraline by seeing it advertised in Alabama papers, and after using less than one bottle I was noticeably relieved and now since taking Ferraline the pains have left me. A general system has been built up and I am greatly improved and the Eczema is much better. I am glad to recommend Ferraline because it has restored me to health and I consider it the best remedy that can be found. I would not be without it for much more than it cost. Two bottles have made me a well man.—Adv.

NOTICE OF SALE OF \$100,000.00, SEMI-ANNUAL COUNTY, FLORIDA, 6 PER CENT IMPROVEMENT BONDS

Notice is hereby given that sealed proposals will be received by the Board of County Commissioners of Seminole County, Florida, on or before the expiration of thirty days from the first publication of this notice and up to and until three o'clock p. m. on the 22nd day of June, A. D. 1922, at the Court House at Sanford, Seminole County, Florida, for the purchase of \$100,000.00, Seminole County, Florida, 6 per cent. improvement bonds. Said bonds bear interest at the rate of six per centum per annum, are to be dated July 1st, 1922. Interest payable semi-annually on January 1st and July 1st, of each year, both principal and interest payable at New York, in the State of New York, said bonds being of the denomination of \$1,000.00 each, and all of said bonds to mature on July 1st, 1952. Said bonds to be sold subject to the approving opinion of John C. Thomson, obtained by the Board of County Commissioners of Seminole County, Florida. All bids must be accompanied by a certified check for one and one-half per cent. of the amount of the bonds to be sold. The County Commissioners of Seminole County, Florida, reserve the right to reject any and all bids. The proposals for the purchase of said bonds should be addressed to the Board of County Commissioners of Seminole County, Florida, at Sanford, Florida. WITNESSE my hand as Clerk of the Board of County Commissioners of Seminole County, Florida, and the seal of said Board on this 22nd day of May, A. D. 1922.

Notice of Sale of \$325,000.00, 6 per cent Improvement Bonds of the City of Sanford, Florida, of an Issue of Bonds in the Sum of \$625,000.00 authorized at an Election Held in the City of Sanford, Florida, on May 17th, 1922.

Notice is hereby given that sealed proposals will be received by C. E. Henry, S. O. Chase and Forrest Lake as the City Commission of the City of Sanford, Florida, and as Ex-officio Bond Trustees of the City of Sanford, Florida, in connection with the issue of bonds in the sum of \$625,000.00, authorized at an election held in the City of Sanford, Florida, on the 17th day of May A. D. 1922, on or before the expiration of thirty days from the first publication of this notice, and up to and until six o'clock P. M. of the 22nd day of June A. D. 1922, at the City Hall, in the City of Sanford, Florida, for the purchase of \$325,000.00 of an issue of bonds of the City of Sanford, Florida, in the sum of \$625,000.00, authorized at an election held in the City of Sanford, Florida, on the 17th day of May A. D. 1922. Said bonds to bear interest at the rate of six per centum per annum, and are to be dated July 1st, 1922; interest payable semi-annually on July 1st and January 1st of each year, both principal and interest payable at New York, in the State of New York; said bonds being of the denomination of \$1,000.00 each and are to be bonds of said issue numbered from 301 to 625; all of said bonds aggregating the said sum of \$325,000.00 to mature on July 1st 1952; said bonds to be sold subject to the approving opinion of John C. Thomson, obtained by the City Commission of the City of Sanford, Florida. All bids must be accompanied by a certified check for one and one-half per cent. of the amount of the bonds to be sold. The said C. E. Henry, S. O. Chase and Forrest Lake, as the City Commission of Sanford, Florida, and as said Ex-Officio Bond Trustees of the City of Sanford, Florida, reserve the right to reject any and all bids. Proposals should be addressed to C. E. Henry, S. O. Chase and Forrest Lake, as the City Commission of Sanford, Florida, and as Ex-Officio Bond Trustees of the City of Sanford, Florida, at Sanford, Florida.

WITNESS our hands as the City Commission of Sanford, Florida, and as Ex-Officio Bond Trustees of the City of Sanford, Florida, and the seal of said City, this 22nd day of May A. D. 1922.

C. E. HENRY, S. O. CHASE, (SEAL) FORREST LAKE, As the City Commission of Sanford, Florida, and as Ex-Officio Bond Trustees of the City of Sanford, Florida.

Attest: L. R. PHILIPS, Clerk of the City of Sanford, Florida. 5-22-22; 6-5,12,19.

The Antenna.

The Tuner.

RADIO

HOW AMATEUR CAN BUILD A RECEIVER

Instructions for Setting Up the Antenna and for Assembling the Tuner.

In order to pick up sufficient energy with the simple radio receiving set it is necessary to connect one terminal to an antenna consisting of one or more wires suspended in the air and insulated from all grounded material and the other terminal to a ground, usually the water supply pipe. The height of an antenna used with a small receiver should not be less than 30 feet. As the received energy varies directly as the height of an antenna, the higher the antenna the louder will be the signals or voice produced. The length of an antenna for short wave reception should not be less than 50 feet nor should it be longer than 200 feet. The minimum wave length to which a simple receiver can be adjusted for electrical resonance will be above that used by amateurs if the receiver be connected to an antenna 200 feet or more in length.

A simple radiophone receiver capable of picking up radiophone stations similar to KDKA at East Pittsburgh, can be assembled by a novice for from \$4 to \$15, depending upon the builder's ability to use his hands. If the builder will construct most of his apparatus he will appreciate it much more and probably will understand more about its operation than if he buys a set already made. However, for those who have not the ability or the time to spend constructing their own apparatus the following description will not only give the details as to the construction of each component part of a receiver but also what standard ready-made parts can be purchased and used in its stead.

The material can be purchased at any electrical supply store. In erecting a simple antenna for use with the receiver shown in the diagram, the antenna proper and the lead-in are of stranded hard-drawn copper wire, strand No. 22, costing about 1 cent per foot. The two insulators are of molded material and can be purchased for about 25 cents each. The antenna shown is supported between a house and a pole. It may be found more convenient to support it between a tree and a house, two houses or even between two chimneys on the same house. In bringing down the lead-in care should be taken that it is kept as far away from grounded material as possible and when bringing through the wall or under the window into the house it should be brought through some sort of an insulating tube, such as rubber or bakelite.

In making the ground connection the same kind of wire can be used as was purchased for the antenna. You can clean a section of the waterpipe thoroughly and solder the ground wire to it.

MAKING THE TUNER

To make a tuner for this receiver, the following raw material will be required: Piece of cardboard tubing three inches outside diameter and five inches long, costing about 10 cents. 100 feet No. 22 double cotton-covered magnet-wire costing 25 cents. Standard slider (see sketch) for 1/4 by 1/4 brass rod, 40 cents. 1 six-inch length of 1/4 by 1/4 brass rod (square) 20 cents. 2 binding posts (see sketch) 20 cents. 2 circular blocks of wood whose diameter is just equal to the inside diameter of the piece of cardboard tubing and between 3-8 and 1-3 inch thick. Some shellac or varnish is also required.

Starting one-half inch from one end of the cardboard tube wind on the No. 22 D. C. C. wire within one-half inch of the other end of the tube. Fasten one end of the winding to the tube but allow some surplus wire on the other end for making a connection. After the winding is in place give it a coat of shellac or varnish to hold the turns in place. Assemble the circular-cut pieces of wood in the geometrical center of the square blocks and then shellac or varnish them for the appearance's sake.

When thoroughly dry slip the two end blocks into the wound tube and by means of a few finishing brads driven through the cardboard tube, fasten the end blocks to the wound tube. The slider is to be mounted on top of the coil and should be capable of making contact with any turn of the wire on the tube. In order to remove the insulation from the wire just under the rod where the slider moves back and forth, wrap a piece of sandpaper around a thin piece of wood and using another piece of wood as a guide, sandpaper the insulation from the winding. Drill a hole one-eighth inch in diameter through the slider rod about one-fourth inch in from each end so that the rod can be fastened by screws to the end blocks. After the slider rod is fastened in place see that the contact finger on the bottom of the slider can at all times make good contact with the winding. Mount a binding post on either end of the coil, attaching one by means of a wire to the slider rod and the other to the end of the wire wound on the tube and the tuner is complete. A tuner can be purchased already assembled for about \$3.50 to \$4.00.

LINKING MOVIE AND RADIO

British Scientists Have Some Success in Wireless Transmission of Motion Pictures.

British scientists are reported to have met with more or less success in developing a method of transferring motion pictures by radio. Some months ago a photograph was transferred by wireless from the Copenhagen newspaper, the Politiken, to England, and later from England to a ship in mid Atlantic, so that the possibility of linking the movies with the new art is not remote.

If perfected the new development of the already versatile art will make it possible for one to see on his own receiving instrument things that are happening at a great distance. For instance, a ship is sinking at sea. The transmitting station of the vessel, instead of sending a message of the disaster, sends a picture that anyone with a receiving set will be able to see just as the present broadcasting programs are heard.

That all sounds remote now, but the telephone was considered even more so, and the wireless, even after Marconi's immortal message had bridged the Atlantic, was generally believed to be akin to the idea of perpetual motion.

TIPS TO THE RADIOIST

A crystal detector cannot be satisfactorily amplified. Insulate ends of aerial wires with several small insulators. Wherever possible run aerial wires at right angles to electric light wires. The lead wire should be the size of the combined number of wires in the aerial. Gas piping makes a poor ground, but the cold water pipe ground is excellent. A crystal detector is never as efficient as a vacuum tube detector no matter what instruments are connected to it. Within three to five miles from a broadcasting station indoor one wire aerials about 40 feet long stretched from room to room, are generally satisfactory with crystal detectors.

Buick Model 1922 Six

How the Famous Disc Clutch of the Buick "Four" Proved Itself

The same design of disc clutch that was used in the powerful war tanks is likewise used in the Buick Four.

The Buick clutch under the most gruelling conditions has proved itself absolutely positive, dependable, and easy to operate—a clutch that demonstrated the same certainty and safety for unforeseen emergency that it did for ordinary service.

This thoroughly trustworthy unit is a development of 20 years of consistent effort. It is typically representative of the standards governing the construction of the Buick Four throughout.

Friday—Mrs. R. A. Newman will entertain the Duplicate Bridge Club at one o'clock.

TWO OF FLORIDA'S GIRLS TO BE SENT TO PARIS

Anne Harwick of the Florida State College for Women and Lucy Fletcher of Greensboro, Florida, High School will represent Florida at the International Track and Field Meet for Women in Paris, August 20, 1922. The event will be staged in the Pershing Stadium under the auspices of the Federation Sportive Feminine Internationale.

This decision was reached Sunday May 14, when the results from the Eastern Tryout Meet, held at the Oakesmere School, Mamaroneck, N. Y., the previous Saturday were announced. Miss Harwick made first place in finals in the javelin throw, making a record of 127 feet, 10 inches, and breaking the world record by five feet. The new world record in javelin throwing was set, however, by Kathryn Agar of Oakesmere, who made a distance of 134 feet, 3 1/2 inches during preliminaries. She failed to do as well in the final. The measure for the javelin event is taken from the "both hand" throws.

Miss Harwick also entered the baseball throw and the shot put events in each of which she ranked second.

All during her career in the Florida State College for Women, Tallahassee, Miss Harwick, who is a senior now, has starred in athletics where her individual scoring has done much to win the championship banner for her class.

Lucy Fletcher, freshman in Greensboro High, was unable to attend the Eastern Tryout Meet because of illness in her family. Since her record of 8 feet, 1 1/8 inches, broad jump, made at the Florida State College for women during the State High School Girls' Athletic Met could not be approached at Oakesmere any nearer than 7 feet, 7 inches, she has been selected to go to France on the American Team.

These two Florida girls, Anne Harwick, formerly of Jacksonville and now of Miami, and Lucy Fletcher of Greensboro will represent Florida in Paris in August if Florida people

evince enough interest in what these girls have done and can do to give the money needed to send them to Paris.

Their total expenses will approximate \$1500. Of this sum, Greensboro has promised \$150; Florida State College \$200. Will the other communities of the State raise the remaining sum, so that Florida can be represented in the All American Team? Send all donations before July 20 to Miss Katherine W. Montgomery, F. S. C., Tallahassee, Florida, Instructor in Physical Education in Florida State College, and member of the National Women's Track Athletics Committee.

In selecting the All American Team to send to the International Meet in Paris, all records, (1) from the recent National Interscholastic Telegraphic Meet for Women, (2) from all recent State High School Girls' Meets, (3) from athletic competitions for women conducted by playgrounds, industrial centers, and Y. W. C. A. athletic organizations throughout the nation, and (4) from the Eastern Tryout Meet at Mamaroneck, New York, May 13, were considered by the National Committee in choosing the All American Team. This included thousands of competitors and it is indeed a splendid achievement of our Florida girls to have made this American Team and Florida is honored. What financial backing will each citizen of the State give these girls that \$1500 may be raised to send them to Paris in August?

ANOTHER BREAK IN LEVEE THREATENS TO FLOOD MORE LANDS

(By The Associated Press)

NEW ORLEANS, May 22.—A section of the batture or river bank during normal stages, at Stanton plantation on the west bank of the Mississippi river, eight miles below New Orleans, caved in late yesterday, according to Frank H. Kerr, chief of the state levee engineers, who returned from the scene last night. Major Kerr said it was impossible to tell the exact width of the slough but soundings taken on the inside of the levee indicated that the current of the river did not carry the batture away to its full depth.

Major Kerr notified R. T. Colner, chief of the fourth levee district, that he considered it likely that the levee proper would not be affected. No repairs were attempted last night, but men were put to work filling sacks with sand so that they would be ready in the event of emergency. A score or more of New Orleans policemen were sent to the scene to attend to relief work if such becomes necessary. Stanton plantation is in Orleans parish.

WASHINGTON, May 22.—The senate today passed the House bill fixing a new basis of pay for officers and enlisted men of the army, navy, marine corps, coast guard, and geodetic survey and public health service. Two amendments were added and the measure now goes to conference with the House for adjustment of the differences.

Stewart, the decorator, is in the city putting up decorations for Shriner day and has a fine layout of flags and bunting and decorations of all kinds. You can find him above the Seminole Bank in the room formerly occupied by the Elks or on the street at work or leave orders at the Herald office or at Miller's Furniture Store.

Alibis Always Ready.

In India, where stealing is practiced as an art by whole bands and tribes, the thieves owe obedience to the nak, or chief, of their tribe, who directs most of their operations but usually does not engage in them. It is his duty to prepare the alibis, and he is always the chief witness when one is arrested. Convictions are naturally hard to get, but when it appears that the police have evidence against a tribe, the nak will decide which members shall surrender themselves and plead guilty. There is no appeal from his decision, and it is usually the less expert desperadoes who are selected as sacrificial goats. While they remain in prison their families are well taken care of, and their grieving wives provided with temporary husbands.

Should these prisoners give information to the police they had better never return home, for a certain fate awaits them. At any rate, any of them would rather spend his time in prison than in manual labor.

Bad Trend of the Times.

One feature of the home which has become a grave question with the social workers is the threatened breaking down of the relation between parent and child.

It is in the home that the natural affections are awakened in earliest years and developed into a habitual feature of the growing character. Lack of affection is one of the greatest blights on human character; so much so that St. Paul, when enumerating the woeful condition into which men bring themselves by deviating from the laws of morality, wind up by way of climax with the phrase, "false affection," which means "without affection."—Exchange.

Park Trammell Candidate for UNITED STATES SENATOR A SECOND TERM

PARK TRAMMELL, THROUGHOUT HIS PUBLIC CAREER WITHOUT A SINGLE BREAK HAS BEEN TRUE AND LOYAL TO THE INTEREST OF THE PEOPLE.

AS SENATOR HE WAS ACTIVE AND LARGELY INSTRUMENTAL IN BRINGING ABOUT THE FOLLOWING:

FEDERAL FINANCIAL ASSISTANCE TO AID FLORIDA FARMERS; A FREIGHT RATE REDUCTION OF \$50 A CAR ON FLORIDA FRUIT, VEGETABLES AND OTHER FARM PRODUCTS; REASONABLY PROMPT FREIGHT SERVICE FOR FLORIDA DURING THE WAR; APPROPRIATIONS TO BETTER MARKETING CONDITIONS; FEDERAL AID FOR GOOD ROADS; LABOR EXEMPTING FROM INCOME TAX; OBTAINING GOVERNMENT MERCHANT SHIPS FOR ALL FLORIDA PORTS; BETTER FREIGHT RATES ON EXPORT CARGOES TO FLORIDA PORTS; THE DEFEAT OF A TAX ON ARTICLES OF FOOD; THE LOCATION OF A NUMBER OF SHIP BUILDING PLANTS, ARMY CAMPS AND FLYING FIELDS IN FLORIDA DURING THE WAR; THE DEFEAT OF A PROPOSED INCREASE IN FREIGHT RATES THAT WOULD HAVE DISCRIMINATED AGAINST ALL SOUTH FLORIDA; THE DEFEAT OF A CERTAIN PROPOSED INCREASE IN EXPRESS RATES ON STRAWBERRIES; SEVERAL APPROPRIATIONS FOR THE NAVAL AIR STATION AT PENSACOLA; THE LOCATION OF THE SUB-MARINE BASE AT KEY WEST; THE \$60.00 BONUS PAID SOLDIERS UPON BEING DISCHARGED AFTER THE WAR.

Many other results obtained by him could be mentioned if space would permit.

Park Trammell will work for the following: Further freight and express rate reduction; the sale of mileage books by railroads; federal assistance for drainage; leasing of Muscle Shoals to Henry Ford—spoke in the senate favoring this months ago; more funds for loans to farmers; the Smith-Towner bill, which will aid public schools but leaves to the state full control over all school affairs; a better marketing system; the best care for disabled soldiers; a larger exemption for each person from income tax; a law requiring prompt settlement of claims against railroads.

Park Trammell has measures in the Senate covering a number of these subjects.

Park Trammell is opposed to the anti-lynch bill; the high tariff on potato; a sales tax; the merchant marine subsidy; any change in the law that would bring back the liquor traffic—the saloon—by the installment plan or otherwise.

Trammell asks for re-election on his own record and his own merits. He has made no attack on his opponent, although his opponent has spent considerable time and space in frivolous and absurd criticism and attacks on him. The ridiculous criticisms and knocks of his opponent show how hard up he is for something to base his own candidacy upon.

His opponent has not given even one good reason why Trammell should not be elected in a second term in the senate.

Certainly Trammell's experience and training in the senate for one term will enable him to render even a better service during a second term.

Every indication is that the voters are going to re-elect Trammell by a large majority.

His opponent according to reports seems no stronger than six years ago when he did not carry a county in the state.

Park Trammell is profoundly grateful to his supporters and will sincerely appreciate every vote cast for him on Tuesday, June 6.
