

INVESTIGATE JURY TAMPERS IN FATTY ARBUCKLE CASE NO ACTION IS YET TAKEN

Prosecution Witnesses Said to Have Been Apprehended

WOULD IMPEACH

THE TESTIMONY OF SEVERAL OF THE STATE WITNESSES FOR MONEY

(By The Associated Press) SAN FRANCISCO, Sept. 20.—Charges that four persons, one of them a prominent figure in the Fatty Arbuckle case, have discussed the likelihood of their benefiting financially by means of tampering with important prosecution witnesses were made today by District Attorney Brady. Brady's statement followed the adjournment early today of San Francisco county grand jury which is delving into this and other incidents in connection with the death of Miss Rappe.

SAN FRANCISCO, Sept. 20.—The county grand jury early today adjourned until next Monday night the investigation of alleged tampering with prosecuting witnesses in the Fatty Arbuckle case. The grand jury reported to have heard testimony of Dr. William Runwell, who is said to have performed an autopsy on Miss Rappe. No action was taken. At the conclusion of the session District Attorney Brady issued a statement declaring it had been disclosed that Miss Joyce Clark, Reggy Morely and Dr. Gabor Kingstone, called before the jury, had discussed the probability of making money out of the Arbuckle case by framing Miss Clark to impeach the testimony of Miss Zeh Prevost, important prosecution witness.

SAN FRANCISCO, Sept. 20.—Mrs. Roscoe C. (Fatty) Arbuckle (Minta Dufree) arrived in San Francisco early yesterday from New York to assist in the defense of her husband. Miss Rappe is declared to have died following injuries incurred at a party in Arbuckle's suite at the Hotel St. Francis here early in September for which Arbuckle is being held.

Mrs. Arbuckle in lieu of being interviewed gave out a statement, in which she asked the people of San Francisco to be "fair" with her husband and to give him a "square deal."

"I know and his friends know that he is innocent," the statement said. The statement of the comedian's wife declared that only one side of the case had been made known to the public and expressed belief that when the entire story had been unfolded "my husband will be completely exonerated and his good name thoroughly cleared and that he again will take his place in the hearts of the American people."

Mrs. Arbuckle was accompanied by her mother, Mrs. Flora Dufree, of Los Angeles. The Arbuckles have been separated for five years, according to friends, she residing in New York and her husband living in Los Angeles.

CRIME WAVE STRIKES GOTHAM AT WEEK-END.

(By The Associated Press) NEW YORK, Sept. 20.—A crime wave hit New York over the week-end. During the last 48 hours there have been nine holdups, burglaries and safe robberies and 20 suspects have been rounded up by the police in a drive to break up the crime bands. Yeggs blew a safe in the Bronx Agency of the Fleischman Yeast Co., getting \$900. The burglars were experts. They wore gloves and left no finger prints.

There were a number of other burglaries. Three suspected burglars, detected on the roof of one apartment house, were caught in the cellar after a pursuit by police. There was one pay roll robbery, and a number of other holdups, in one of which the bandits declared themselves to be revenue officers, and on this pretext searched all occupants of an automobile which they halted in Brooklyn.

The suspects were to be viewed by police and the victims of the various robberies at today's "lineup" at the city's police stations.

BLOW ON JAW KILLS MAINE BOXER DUE TO HEART FAILURE.

(By The Associated Press) BANGOR, Me., Sept. 20.—Edward Prout, twenty-one, fell dead after receiving a blow on the jaw in the fourth round of a boxing bout with George Langley, here last night. Physician claim that death was due to heart failure, but Langley was arrested. Later examination by physicians, it is now claimed that the boxer died of concussion of the brain. His skull was fractured when he fell through the ropes to the floor.

ANOTHER AMERICAN SHOT BY MEXICANS NEAR TAMPICO SUNDAY.

(By The Associated Press) WASHINGTON, Sept. 20.—Carl R. Tabb, an American employee of the Mexican Petroleum Co., was shot and killed Sunday night by Mexican soldier in the oil fields near Tampico, the American consul at Tampico reported today to the state department.

House Tax Bill Amended by Senate Being Put in Shape

(By The Associated Press) WASHINGTON, Sept. 20.—The house tax bill as amended by the senate finance committee whipped into shape today for presentation tomorrow when the senate reconvenes after its recess of a month.

FIRST FOOTBALL FATALITY OF THE SEASON TODAY BOY KILLED IN PRACTICE.

(By The Associated Press) ELIZABETH CITY, N. C., Sept. 20.—William Pritchard, sixteen, died at his home here today as a result of injuries received in a practice with the high school football team yesterday. His neck was dislocated and respiratory center paralyzed.

VOLSTEAD IS THREATENED IN LETTERS

FATHER OF THE PROHIBITION AMENDMENT SEEMS TO BE PERSONA NON GRATA

(By The Associated Press) MINNEAPOLIS, Sept. 20.—Addressing the convention of Minnesota Anti-Saloon League here last night Representative Volstead stated his life had been threatened on his departure. He said he had been warned in a letter that he would never take his seat again in the house. The threat, he said, was not the first he had received since taking an active part in the fight against violators of the prohibition amendment. All letters were anonymous.

Dry Weather Bad on Florida Crops Says Federal Bureau

General Farming is Backward on Account of Drouth.

(By The Associated Press) GAINESVILLE, Sept. 20.—Florida crops are generally in need of rain, according to the review of crop conditions issued by the Federal Bureau of Crop Estimates for the week ended Saturday. Ideal harvesting weather prevails, it says. Harvesting of corn continues. Preparation of the ground for oat planting is being delayed by dry weather. Cotton is opening rapidly with hot, clear weather. Late sweet potatoes need rain; Irish potato growers are preparing for increased acreage. Excellent harvesting weather prevails for hay; yields and quality of hay generally good. Citrus fruit on the highlands is showing the need of rain, according to the review.

Stocks generally in good condition but ranges and pasture need rain. The Bureau reports trucking operations being delayed by dry weather in some sections.

Putting Quietus on the West Virginia "War"

Regular army train moving through the West Virginia mountains to the scene of the mine war, and machine gunners of the volunteer forces ready to meet an attack by the insurrectionists.

U. S. SUBMARINE NOT HEARD FROM SINCE YESTERDAY

R-27 REPORTED IN DISTRESS OFF THE COAST OF FLORIDA

(By The Associated Press) MIAMI, Sept. 20.—No further word was received at the local wireless station today from the R-27 reported in distress about one hundred miles northeast of Nassau. Local naval officers express the belief that help will be sent from Charleston where larger and more speedy vessels are available.

WASHINGTON, Sept. 20.—Assistance for the American submarine R-27 which Sunday night sent out a distress call while bound from Panama Canal to Guantanamo Bay, Cuba, was ordered by the navy department. Reports that the submarine needed aid reached the department yesterday and the Commandant at Guantanamo base ordered to send a tug. The report did not indicate the nature of the trouble but it is not believed serious. The vessel usually carried a crew of two officers and twenty-seven men.

ARMY AIR SERVICE TESTS ON BATTLESHIP.

WASHINGTON, Sept. 20.—The army air service will launch its bombing tests of the old battleship Alabama next Friday morning, according to advices from Langley Field to the air service.

WILL NOT ASK FOR DEATH PENALTY FOR FATTY ARBUCKLE

SAN FRANCISCO, Sept. 20.—When Roscoe ("Fatty") Arbuckle goes to trial it is considered improbable that District Attorney Matthew Brady will ask for the death sentence. This decision will be left to the jurors hearing the case.

The possible verdicts in this particular case with the penalties involved, follow:

- 1.—Murder in the first degree without recommendation by the jury calls for the death penalty.
- 2.—Conviction on the charge of murder in the first degree with a recommendation by the jury carries a penalty of life imprisonment.
- 3.—A verdict of murder in the second degree means an indeterminate sentence of one year to life imprisonment.
- 4.—A verdict of manslaughter is punishable by imprisonment for from one to ten years.

FLORIDA DAIRYMEN MEETING IN MIAMI.

(By The Associated Press) MIAMI, Sept. 20.—The annual convention of the Florida Dairy Association began here today.

BIG MEETING ROADS MEN OCALA TODAY

MAKING FIGHT FOR ROAD NO. 2 TO START BEFORE ROAD NO. 1.

(By The Associated Press) OCALA, Sept. 20.—Good roads boosters from half a dozen or more counties of Central Florida are gathering here today for a meeting tonight to discuss ways and means of forcing action on the construction of State Road Number 2. First of series of meetings in the interest of having road work done, was held at Gainesville last week and expected delegation from that city to meeting tonight will number nearly two hundred.

Road No. 2 which connects with the Georgia line and runs through Central Florida, Gainesville south through Ocala, Leesburg, Apopka, Orlando, Kissimmee, and on down south, or for Miami east from Kissimmee through the Melbourne branch and later the Orlando Ocean highway to Indian River City and then the East Coast highway, south, has developed a strong fight from Jacksonville and the East Coast in favor of Road No. 1 which crosses the state from Jacksonville entering Lake City where it hits Road No. 2.

HOME BREW ILLEGAL, WARNS PROHIBINIST

WASHINGTON, Sept. 20.—Warning that the making of intoxicating "home brew" is illegal was issued today by Prohibition Commissioner Haynes.

The prohibition commissioner's attitude of the home brew question was defined by Mr. Haynes as follows:

"Non-intoxicating fruit juice can be made in the home. Intoxicating wine, home brew and distilled spirits may not be made. Two hundred gallons of non-intoxicating fruit juice may be manufactured tax free by the head of a family registering with a collector of internal revenue. "This tax exemption provision has been the source of confusion. The effect of this is not to allow the manufacture of 200 gallons of intoxicating wine free from registrations of the national prohibition act, but merely to allow the manufacture of 200 gallons of non-intoxicating fruit juices free of tax.

STORM DAMAGE LA SAVOIE.

HAVRE, France, Sept. 20.—A hurricane struck the steamship La Savoie during the night of September 14-15, causing considerable damage to the upper deck, wrecking the wireless, carrying away two lifeboats, and injuring two sailors, the vessel's officers reported today.

BLOW UP PLOT DISCOVERED.

LEAVENWORTH, Kan., Sept. 20.—A plot to blow up a section of the main wall of the gate at the federal penitentiary has been frustrated, Warden W. I. Biddle and other prison officials announced today. They said that seven prisoners who were leaders in the plan, had been placed in solitary confinement.

JACKSONVILLE ATTORNEY WAS ODIUS

To the People and Could Not Get Fair Trial

LAWYERS CLAIM

IN PLEA FOR CHANGE OF VENUE FOR POPE CHARGED WITH MURDER

(By The Associated Press) JACKSONVILLE, Sept. 20.—Counsel for Pope, indicted jointly with Rawlins for murder in the first degree in connection with the killing of Hickman, sought a change of venue when circuit court opened today on the ground that Pope was odious to community and could not obtain fair trial. Defense failed yesterday to get thirty day continuance. Judge Simmons refused to grant a change of venue and court recessed until afternoon.

BODY FOUND FLOATING IN LAKE NEAR OCALA LOUIS LANG DROWNED.

(By The Associated Press) OCALA, Sept. 20.—The body of Louis Lang was discovered today in seven feet of water some distance out in Zay Prairie, twenty-two miles east of Ocala. Lang was fully clothed and apparently had fallen from a boat and drowned, being unable to swim.

Neither Lloyd George or Secretary Curzon Attend Conference

At Washington on Disarmament, on Account of Trouble at Home

(By The Associated Press) LONDON, Sept. 20.—It was definitely decided that neither Lloyd George nor Lord Curzon, secretary of foreign affairs, will attend the Washington conference on disarmament and Pacific problems in view of political developments in domestic politics it was learned this afternoon.

CURB MARKETS PROVE A BIG AID TO FARMERS.

ATLANTA, Ga., Sept. 20.—The movement launched by the Atlanta Woman's Club to establish curb markets to handle farm products through out the state and the south, and which it is expected, will assume national scope, has received the strong endorsement of business and agricultural interests in many sections of the country, according to advices received here by club women. The federal government, through its agricultural experts, it is stated, is intensely interested in the plan and will, it is announced, lend a helping hand in furnishing lecturers and demonstrators. Atlanta's curb market, established at the instance of the club women, has proven a big money market for farmers near Atlanta.

HANOVER JAIL EMPTY.

WILMINGTON, N. C., Sept. 20.—The new Hanover county jail here is empty today for the first time in many years. Although the prison had a fairly healthy population last week, when Judge Connor convened this term of criminal court Saturday, all cases had been disposed of today. Jailer Davis had the jail fumigated yesterday and announced today he was again "ready for business."

A handsome new Baptist church is being built at Fort Pierce at a cost of about \$62,500.

RESOLUTIONS CONDEMNING THE KU KLUX KLAN

CHICAGO, Sept. 20.—(By The Associated Press).—Resolutions condemning the Ku Klux Klan and declaring "it is not necessary to augment the police force of the city with secret organization" was passed by the city council.

WEEKLY FINANCIAL REVIEW

By Henry Clews NEW YORK, Sept. 20.—Announcement that the exchange situation is again under consideration on the part of the Washington authorities, that negotiations are under way for the rehabilitation of Mexico's external debt, probably to be followed by the recognition of the present Mexican government, and that tentative agreement upon an available tax program preliminary to the reassembling of congress has been nearly reached by the senate finance committee are chief among the constructive developments of the past week. Taken all in all, with the continuation of the favorable upward movement in stocks which had already set in, they clearly sustain the belief in progress toward better conditions. Encouraging Railway Developments. The declaration of the regular dividend on Great Northern has set at rest the anxiety which has been entertained on that score, and the action taken is regarded as a very hopeful indication of the general attitude of railroad managers at large. Railroad securities as a whole have a more substantial footing as investments than they have enjoyed for a great many years. Another feature in favor of the rails, which has not yet come to the front, is the probability of a number of lines being consolidated, which sooner or later will result in all kinds of speculative rumors. Co-ordinate in interest and importance with this step is the action of a New York banking firm in taking \$7,500,000 of the 6 per cent car trust certificates which the government had arranged to dispose of. This amount represents only a bare fraction of the \$380,000,000 held, but at least shows that the certificates issued on behalf of the better lines can still command a market, even at 6 per cent. Some other favorable developments in railroad finance help to confirm the predictions of continued improvements, and the definite announcement that net earnings for August are practically \$70,000,000 substantially sustains the forecast on that subject. In these circumstances the firmness and increasing value of the standard rails is not surprising. Business Progress Still in Evidence. There has been a disposition during the week toward an increase in the volume of employment in a good many important industries, particularly those of the New England states, and of New York. In certain manufacturing regions where seasonal conditions obtain, reaction has undoubtedly occurred, but this would have been true in any case upon the arrival of the usual period of normal reduction. There is no reason to doubt the upward movement of business. This, moreover, is confirmed by August foreign trade returns, which show a large increase both of exports and imports, with a balance of trade in our favor amounting to \$181,000,000. The unfilled order report of the United States Steel Corporation shows a larger reduction than had been predicted, but this is a situation that applies to a period of some three weeks ago. Ingot production and general demand are increasing, and the steel outlook is hopeful. The better values for cotton and grain are already having the effect that was expected of

SEE ALTAMONTE SPRINGS ONE OF THE BEAUTY SPOTS IN SEMINOLE'S BIG LIST

High and Rolling and Studded With Lakes is Altamonte

A CITY OF HOMES

AND FILLED WITH MANY SATISFIED NORTHERN VISITORS DURING WINTER MONTHS.

Altamonte Springs is one of the beautiful little cities of Seminole county that has been hiding her light under a bushel somewhat in the years gone by but that is coming out every day in the sunlight of publicity and attracting many tourists and investors. Those who see Altamonte Springs are struck with the wonderful site which this thriving place occupies and wonder why all creation looking for a winter home did not settle there in the beginning. The truth of the matter is that Altamonte Springs has been the home of many of the big business men of the country for many years and the Altamonte Springs Hotel shelters a multitude in the winter months. They come down for a quiet place and for rest and recreation and find it there and finding it want to keep it to themselves, therefore, there has been but little said about this beauty spot among the many in this fine county that has so much in diversified crops and prospects.

Altamonte Springs has taken a spurt in the past year and having been incorporated has taken on new life and proceeded to make the many advantages known to the outside world and this winter will see many new faces at the hotels and many new owners of fine homes and orange groves and many all the year round residents for Altamonte is also an ideal summer resort being situated upon the ridge in the rolling country of that part of the county.

Altamonte Springs has an altitude of 220 feet—thus getting fine filtered sea air from the Atlantic ocean 30 miles to the East, and the Gulf of Mexico to the west, forming that wonderful ozone known as the "Atmosphere of Altamonte" and when combined with the odor of orange blossoms and jessamine in season, and this combination comes breezing into one's window 24 hours a day, it is bound to give the ailing their health, and the healthy more health and joy of living.

Altamonte Springs has in its territory hundreds of acres of orange and grapefruit groves in high state of cultivation, and has within her boundaries five beautiful lakes with clean, sandy shores, no marshy borders. In fact Altamonte Springs has everything that any other section of Florida may have plus many good things that many others have not and if any of those interested will read the description of this beautiful city in another part of this issue they will pack their baggage at once and come to Altamonte Springs—the only Altamonte in the world. In making up the list of the many fine towns in Seminole county the Herald takes a distinct pride in giving space to Altamonte Springs.

WE DON'T KNOW WHAT THIS MENAS BUT WE GIVE IT TO YOU.

(By The Associated Press)
NEW YORK, Sept. 19.—Urban Ledoux has announced that one unemployed woman and twenty-five men have asked that their services be sold at auction, which he proposes to hold tonight despite the objections of police labor leaders and others. If police interfere the service is to be sung by former service men. The world is dying for a little bit of love.

BOY WAS BITTEN BY RATTLE SNAKE FATHER SAVED HIS LIFE.

(By The Associated Press)
DELAND, Sept. 19.—Chances for recovery of Milton, son of Bert Shoemaker, of Daytona, is good because the father sucked the poison from the snake bite wound yesterday. Milton reached in a gopher hole and was bitten.

TWO YOUTHFUL SLAYERS WILL FACE TRIAL ALONE TWO MURDER INDICTMENTS.

(By The Associated Press)
CHICAGO, Sept. 19.—Harvey K. Church, confessed slayer of Bernard J. Daugherty, an automobile salesman, and Carl J. Ausmus, a demonstrator, will probably face trial alone. Two indictments of murder will be asked the grand jury. Clarence Wilder and Milton Walker, held as suspects, established alibies and the authorities don't believe Leon Parks, who implicated himself. His case is being further investigated.

CAR LOAD OF LEXINGTONS ARRIVE AT B. & O. GARAGE

Have you seen the Lark? If not you have missed the last word in automobile construction for it would seem that the Lexington has everything on it that can be put on a car for comfort and convenience. The "Lark" is well named. It has the appearance of the lark, full of pep, full of joy, spick and span and ready for the morning or whatever might happen. The Lark has the famous Anstead motor, Spanish leather upholstery, wind wings, bumpers, all the accessories that must be put on other cars and even carries a fine trunk on the rear for those trips that this nifty car offers to you in every glance. It is some car and can leap to 70 miles an hour from a quiet five miles almost before you know it.

Take a look at the Lark at the B. & O. whether you are in the market for a car or not. It will give you a distinct thrill just like looking at a fine race horse, or blooded stock of any kind. It just gives you a satisfied feeling to look it over and see what the last word in car construction really is and will be. A demonstration will be given you at any time. Just call up the B. & O. Garage.

ROADS BOOSTERS TO HOLD BIG MEETING AT OCALA TUESDAY.

Next Tuesday night at Ocala good roads boosters from all over Florida will gather to keep alive the enthusiasm of the "State's road builders" and the citizens of the Peninsula State in fostering the rapid completion of those main highway arteries that mean for the greater progress and opening up of the finest state in the Union. The two state highways in question are known as Road No. 1 and Road No. 2. No. 1 stretches from Pensacola to parallel the Georgia State line, via Lake City to Jacksonville, serving approximately 66,000 people in cities of 1,000 or more inhabitants. No. 2, from the Georgia line, crosses Road No. 1, at Lake City, then on down into Central and South Florida as far as Fort Myers, to connect with the Tamiami Trail there, passing through High Springs, Ocala, Gainesville, Leesburg, Eustis, Orlando, Haines City, Bartow and Arcadia, serving approximately 360,000 people in towns of 1,000 or more population.

M. M. Smith, for five years a member of the State Road Department and one of the pioneers in Florida road construction work whose home is in Winter Park, was present at the good roads meeting held at Gainesville recently and Mr. Smith says that he will be present at the Ocala gathering of boosters Tuesday. With Mr. Smith at Gainesville was Arthur Schultz, chairman of the Orange County Commissioners, and both stress the importance of Orlando and Orange county sending a strong delegation to the meeting at Ocala.

"Orange county wants to be lined up strong with those counties who are urging the primary importance of the State Road No. 2 route, being rushed to completion ahead of the Road No. 1 project. Those counties sending delegations to Ocala may know that old Orange is with them but they want to be made aware of how strong you are with them by sending a large body of Orange county boosters' delegation to Ocala," said Mr. Smith.

In the opinion of Mr. Smith State Road No. 2 from the Georgia line to Lake City, thence over Road No. 1 to Jacksonville, should receive the first consideration of the State Road Department. Then to be brief in summing up the opinion of Mr. Smith, on with the remainder of the Road No. 2 route, after which the remainder of No. 1, from Lake City to Pensacola can come in for attention.

Pool Room Loiters Will Get Pinched in City of Jacksonville

Vagrancy Will Be the Charge Against White and Black Loafers

(By The Associated Press)
JACKSONVILLE, Sept. 17.—Young men who loiter about pool rooms in Jacksonville will fare badly if they are taken into municipal court on vagrancy charges, Judge Beckham having announced that "pool rooms are not employment agencies." The remarks of the judge was prompted by statements of four young men brought before him this week after they had been arrested in a pool room by plain clothes officers. They told the court they were searching for work.

"I won't listen to your stories of seeking jobs when you are arrested for loitering in pool rooms," Judge Beckham said as he sentenced each to serve thirty days at the county farm. "I know there are men out of work in Jacksonville but those who make their headquarters where 'sharks' hang out cannot be looking very hard for jobs." Chief of Police Roberts has instructed Chief of Detectives Hurlbert to arrest all persons in pool rooms who are without jobs and more than twenty were picked up the last of this week. Hurlbert has announced that he also intends to break up the habit young men have of spending their time in pool rooms and on street corners.

When the modern daughter is feeling especially gracious, she is willing to concede that her mother is a "nice old thing."

LINING UP A POWERFUL FOOT-BALL MACHINE.

During the last week a few things were accomplished in the athletic line in the local high school. It will undoubtedly take some time to get affairs into a condition that the authorities have set for a standard, but such progress has been made that all predict immediate results.

Among the important announcements made by Mr. Alstetter, the faculty director of athletics, is that the services of Jack Branham have been secured and he will assist Coach Boone in building up the football machine. Jack needs no introduction to the Orlando athletic world and will prove a most valuable asset to Coach Boone and the candidates as well as to the team as a whole.

The athletic executive committee has a series of new rulings under consideration. These rulings pertain to the official "O's" in football and basketball. It is felt that the standard of these letters should be raised so as to be at par with the official recognition of swimming and track. Also it is deemed advisable under present conditions to make these letters more difficult to obtain.

At a meeting of the letter men in football on Friday evening Marion Kincaid was elected captain, to lead the gridiron squad for this season. His ability and leadership is already too well known to comment upon his election. This will make his third year on the football squad, so his experience combined with his natural enthusiasm well fits him for his position. At present he is serving as manager pro tem. for the team, due to the fact that Glenn Miller has been unable to return to school to date. Herbert Barbor has been elected property manager, and has already assumed his duties.

It is hoped that by next Sunday a full schedule can be announced. The first game will be with the Sanford high school representatives on the local gridiron on Saturday, October 1, instead of with the Bartow aggregation at Bartow as first announced. Bartow will be played at Bartow on Thanksgiving day.

To date those reporting for practice who were on the team last year are: W. Anderson, Schute, Link, Grainger, Porter, B. Anderson, and (captain) Kincaid. New local men reporting for practice are: Fiddon, Price, Richards, Barton Magruder, McNeill, Boylen, Bozarth, Haggerman, Morway, Aulls, R. Tinker, Newell, Crane and J. Tinker. Those entering from other schools are: Wilmot, (Porter Military Academy); Smith, (Florence, S. C., high school); Harrod, (New London, Ohio, high school); Haight, (Rollins Academy); Hoefler, (St. Petersburg high school); Gregg, (Florence, S. C., high school); and Hancock, (Columbus, Miss., high school).

There are a number of others who have signified their intention of turning out as quickly as matters can be arranged. During the last week practice was somewhat irregular, due to many interferences, so the second week of school will see regular practice really begin, and it is hoped that the team will be in shape to meet the Sanford squad on October 1.—Orlando Sentinel.

God give us men. If something isn't done soon, the women will be bossing everything.

Tuesday—Mrs. Henry Purdon will entertain the members of the Seminole Bridge Club at her home on Palmot-avenue, at 3:30 p. m.

Saturday—The Children's Story Hour will be held at the Central Park at 5 p. m.

Mr. and Mrs. H. B. Lewis are leaving for a two weeks visit in Asheville, N. C.

Mrs. J. B. Colder will leave tomorrow for Fort Lauderdale to visit V. Calder and family.

Miss Helen Graham, of New York, is spending some time here at the Montezuma.

Miss Sara Wight is spending several weeks in Cairo, Ga., visiting relatives.

Mr. and Mrs. George Davis Hart visited friends in Lakeland for the week-end.

Mrs. W. A. Lester left Sunday for Monticello, Fla., where she will visit her parents, Mr. and Mrs. O. R. Linton, for several weeks.

Mrs. D. C. Marlowe is visiting her parents at their orange grove at Orange Bend.

Mr. and Mrs. Joe Fields arrived in the city last night from their home in Augusta, to visit the parents of Mr. Fields, Mr. and Mrs. W. T. Fields, who reside on Silver Lake. They are on their honeymoon, having just been wedded and made the trip here in their Hupmobile, having no trouble except at one of the ferries, and not being pinched until they arrived in Sanford, which seems to be the fate of every stranger coming to town these days. Joe is a former Sanford boy, and his many friends are extending congratulations. He is with the Fields Auto Top Co., of Augusta, and is making a great success of this business.

THRASHER-WOODRUFF.

Mr. and Mrs. David L. Thrasher announce the engagement and approaching marriage of their daughter, May Ferran, to John Develin Woodruff. The wedding to take place early in November.

PIPE ORGAN CLUB MEETING

Regular meeting of the Pipe Organ Club was held Monday afternoon with Mrs. Forest Gatchel, on Oak avenue. Unfinished business was taken care of, and owing to the resignation of Miss Martha Fox as vice-president, Mrs. C. A. Barnes was elected to fill her place.

In addition to the officers for the ensuing year, Miss Fox was elected flower chairman, to see that flowers be arranged in the church for Sunday services.

Under the new by-laws of the club one new member, Mrs. Arthur Johnson, was received and initiated.

Social hour with tempting refreshments of potato chips, pickles, tea and cake were much enjoyed by twenty-one enthusiastic members of the club. At adjournment, the president announced that the next Monday, the club would be entertained by a lake party at Crystal Lake with Mrs. Sinah Bray and Miss Clara Millen as hostesses.—Mrs. Kenneth Murrell, Reporter.

BIRTHDAY PARTY

Master Frederick Daiger entertained a number of his little friends yesterday afternoon at his home on Fourth street. The occasion being his fifth birthday anniversary.

The pretty color scheme of yellow and pink was carried out with baskets of Golden Rod and pink vine, these were effectively placed in the living room and on the porch. In the dining room the chandelier was gracefully entwined with fern and pink vine while the table had as a centerpiece the pretty birthday cake iced in yellow and topped with tiny pink rose-holders with five pink lighted tapers.

The afternoon was pleasantly spent with games and later "Pinning on the Donkey's tail" proved most interesting. Little Miss Georgina winning the prize for this, which was a box of candy. Master John Walker Minarik won the booby prize, a ball. At the conclusion of the game refreshments of ice cream and cake were served, and each child was given

a cupping little "Hallowe'en" figure filled with candy as favors.

Little Frederick's guests included: Martha Bishop, Louise Purdon, Margaret Bennett, Georgina Hart, Dorothea Lawson, Martha Elmata Bryan, Carolyn Hill, Marguerita Garner, Betty McKinnon, Charles Betts, Braxton Perkins, Bryan Higgins, Franklin Bennett, Harry Bower, Walter Fox, Wilson Smith, Melvin Taylor, John Walker Minarik, Tolar Bryan, L. P. McCuller, Jr., Wyman Harvard, Ruth Henry and Camilla Puleston.

The "grown ups" were: Mrs. Henry Purdon, Mrs. Howard Smith, Mrs. L. T. Bryan, Mrs. J. B. Lawson, Mrs. Frank Akers, Mrs. John C. Smith, and Mrs. R. E. Herndon.

RECITAL.

A very enjoyable and interesting musical program was given at the Congregational church last Saturday afternoon.

The Pipe organ selections were given by Miss Charlotte Smith, a young student of Sanford High School. Her numbers were well rendered and in good taste.

The vocal selections were given by Mrs. A. M. Phillips, soprano and from oratorio. Mrs. Phillips was in excellent voice, she sang with deep feeling, most expressively.

The entire program covered:

- Prelude.....A. Hossa
- "Piano Transcriptions—
- (a) "Shepherd's Tale".....Nevin
- (b) "Prelude".....Sidney Smith
- Vocal—
- "Song of an Angel".....Wallace
- "Festival Overture".....Wallace
- "At the Cloister Gate".....Dr. Minor Baldwin
- "Come Unto Me" (Messiah).....Handel
- Offertory C Minor.....Bastiste

BEE-KEEPERS HAVE LUNCH AT THE MONTEZUMA

The Bee-Keepers who are here attending a meeting and having lunch at the Montezuma yesterday were: T. Perkins Dean, New Smyrna; F. S. Alexander, Beresford; Wilmon Newell, Gainesville; George P. Colby, Lake Helen; H. A. Speepeer and wife, Lake Helen; Mrs. A. M. Spencer, Lake Helen; H. S. Morrison, Lake Helen; C. H. Clute and wife, Sanford; Frank Sterling, Gainesville; Chas. A. Reese, Gainesville; W. E. Dunaway, DeLand; J. S. Frierson, DeLand; Scott Hodges, DeLand; J. C. Goodwin, Gainesville; Tim Tietsema, Geneva; John T. Hull, DeLand; J. B. Nodmann, DeLand; J. B. Case, Port Orange; Orie R. Matthews, Geneva; Mrs. Nellie Taylor, Orlando, and C. D. Kline and family, Orlando.

ROOF GARDEN CLUB.

The club met at the home of Miss Ruth Whittle yesterday afternoon at the usual hour. Plans were completed for the Silver tea to be given Friday night. After the meeting adjourned the hostess served dainty refreshments.

STOP! LOOK! LISTEN!

The Roof Garden Club, of the Baptist church, is going to give a silver tea at the home of Mrs. J. L. Miller on First and French, Friday night at 8 p. m. You are invited. Come and bring your friends. A good time for all who attend. Music and entertainment by Sanford's best. Remember the date, Friday, September 23rd at 8 p. m.

Miss Mardre, the organist at the Baptist Temple, will give several piano selections Friday night at the Silver Tea.

WANT CHANGES IN FOOTBALL RULES.

NEW YORK, Sept. 20.—The football rules committee received today a request from coaches and officials to interpret the rules so that there shall be a distinct pause before the ball is placed in play in shift formation.

At a meeting of two hundred coaches and officials which began here Saturday night, and ended yesterday morning, a resolution offered by Foster Sanford, was adopted asking the committee to endorse the following interpretation of the rules:

"In the shift plays an interval of time must elapse of sufficient length to permit officials to see if the formation is legal and to determine whether the ball was snapped into play while the men were in motion."

The rule now provides that, "A player shall not be ruled to be in motion if he has both feet stationary on the ground." Some coaches complained that some of them permitted players to get in motion before the ball had been snapped into play, but coaches who have specialized an shift plays, objected to a change designed to cause a pause in the attack on the ground that the defense would have greater opportunity to set itself to meet the shift.

Work has begun on a new two-story office and store building at West Palm Beach. The building will be built of hollow tile and cement with handsome exterior design.

RICHLY TRIMMED SUIT

Many suits for fall and winter are trimmed with embroidery and fur, and these rich embellishments are made the most of in the handsome model shown above. It is made of one of those cloths that have a suedelike surface and embroidered with narrow silk braid. The skirt is plain, but the coat is almost covered with embroidery.

CLYDE LINE EXCURSIONISTS WERE HERE SUNDAY.

The Clyde Line excursions continue to bring the people from the east and northeast to Florida and to Sanford. Last Sunday there was quite a crowd took the ride to Orlando and other points in this vicinity. Among those who were in the party were the following:

- Miss Virginia Falk, Bronx, N. Y.;
- Miss Irene Greer, Miss Eva Green, New York;
- Miss Katherine Schulliger, New York;
- Mrs. Anna Will, Brownville, N. Y.;
- Eva A. Gardiner, North Chatham, N. Y.;
- Katherine A. Floren, New York;
- Rose H. Muller, New York;
- Miss Adele A. McGowan, Bronx, N. Y.;
- Miss Fannie Carlock, New York.

The St. James Methodist church which is being built at Palatka at a cost of approximately \$50,000 is showing rapid progress.

WEEKLY FINANCIAL REVIEW

(Continued from Page One)

them in brightening trade throughout the West and South, with the result that collections in those parts of the country have improved and that sales of goods have been rendered considerably easier in many sections. The earnings of many corporations will have to improve considerably before their stocks can be looked upon as genuinely sound, but unless all signs fall greater activity in most branches of trade is now close at hand.

Banks Growing More Liberal
With the adjustment of the many long outstanding accounts in the farming regions, the banks are tending to become decidedly more liberal, and there is a better supply of funds available for commercial uses than for some time past. Announcement that the War Finance Corporation is now ready to undertake business under the terms of the act recently passed by congress which authorizes it, if necessary, to advance funds up to \$1,000,000,000, also gives assurance of ample supply of money. In the opinion of many, the banks are now so well equipped to take care of demands that the corporation is not likely to be called upon for very large extensions of credit. Secretary Mellon's success in placing his entire \$600,000,000 of notes and certificates, representing the largest single offering since the

war, at the rate of 1-4 of 1 per cent below the figures established for the last issue, is a striking tribute to the improved investment situation.

The phenomenal decline of the German mark to a figure at one time better than nine-tenths of a cent has been the feature of foreign exchange during the past week. Effort to explain the reaction on the ground of belated reparations adjustments does not supply an adequate reason for the reduction, which is the direct outcome of continued inflation at the Reichsbank.

Market Review and Outlook

In spite of the fact that the market has been quite steadily active and higher during the past week, there are many traders who remain unconvinced that there is good reason for the more hopeful feeling of the past two weeks. Nevertheless, it is noticeable that professional operators are a great deal more cautious in selling stocks for short account. A number of obstacles are still to be overcome before the market will have plain sailing, but if these did not exist values would be considerably higher than they are at present. Looked at from every standpoint, financial and commercial conditions have undergone decided improvement and the outlook is much brighter than for a long time in the past. This is being reflected in the stock market, which still looks like the working higher based on merit.

TYPEWRITERS

All Kinds --- All Makes

- NEW L. C. SMITH (Cash or Terms) for \$100.00
- USED UNDERWOOD (cash) for 25.00
- USED MOLLE, PORTABLE (cash or Terms) 50.00

We are agents for the new PORTABLE REMINGTON TYPEWRITER—the greatest machine on the market. It is a big typewriter if you want to use it on your desk. It is a little typewriter if you want to carry it with you anywhere. Can't be hurt, built like a battleship, few parts, simple of construction, will never wear out. Come in and see it. Standard keyboard.

We have also taken the agency for the new FORT PITT Machine—the wonder of the ages in the typewriter world. A standard typewriter that will do any class of work, will do it better, will do it cheaper, will stand the strain longer, easy running, makes no noise, built on the proper lines and the cheapest machine on the market.

ONLY \$75, Why Pay More

Everything is coming down—so are typewriters. Don't be misled on this subject. Let us show you how you can save money on this necessary adjunct to your business office.

Altamonte Springs, One of the Beauty Spots of Seminole's Wonderland

ALTAMONTE SPRINGS has an atmosphere, and so have other places in Seminole County, but Altamonte's atmosphere has the peculiar quality of a Lodestone—it's inhabitants may remove to other places in other climes, but they always return or have a very strong desire to do so, and of course there is that—not very mysterious reason—Altamonte's beauty—for all humanity is drawn to beauty.

Altamonte Springs is placed in such a favorable location, that her man-made beauty, combined with the natural beauty, forms the Alta-Monte that we know today. The Altamonte of George Frost of Boston, of Herman Westinghouse of the great Westinghouse Electrical Company—who were among its founders—is not the Altamonte of today. Founded as the home of rich men only, we now reach out for residents of humbler means also, as we realize that riches alone do not make a town livable.

It stands to reason that the state was scoured by these wealthy men to find their ideal before founding their town. Therefore Altamonte's location is the pick of the state.

Altamonte Springs has an altitude of 220 feet—thus getting pine filtered sea air from the Atlantic Ocean 30 miles to the East, and the Gulf of Mexico to the West, forming that wonderful ozone known as the "Atmosphere of Altamonte" and when combined with the odor of orange blossoms and jessamine in season, and this combination comes breezing into one's window 24 hours a day, it is bound to give the ailing their health, and the healthy more health and joy of living.

Altamonte Springs has in its territory hundreds of acres of orange and grapefruit groves in high state of cultivation, and has within her boundaries five beautiful lakes with clean, sandy shores, no marshy borders. Lake Orienta (upon which is located the "Altamonte Hotel", famous among tourists all

over the country for its wonderful cuisine and excellent management of its owners, George E. Bates & Son) is the largest of these lakes and is noted for its black bass fishing, which is jealously guarded by the owners of the land surrounding the lake, who welcome the true fisherman with sporting ideals.

The "Altamonte Hotel" is located at the east end of this lake, upon a bluff overlooking the full length of its waters. Lake "Adelaide" is across a park to the rear of the hotel, and upon this lake is the "Altamonte Spring" of absolutely pure water.

The paved highway from Jacksonville to Tampa and all South Florida passes through Altamonte. A day's ride in an automobile may encompass two hundred miles in any direction without leaving a fine paved road, making Altamonte an admirable location for automobilists, a fine large garage is under construction and will be open for business in a few weeks, two stores with filling stations are handy and every advantage enjoyed in a city at hand.

Altamonte Springs is located on the Tampa and Jacksonville Division of the Atlantic Coast Line Railroad and gives fine service, Western Union Telegraph office, Express and Third Class Postoffice, Electric Lights, beautiful shady streets of large oaks, within 14 miles on brick highway of Sanford, and 9 miles on brick highway to Orlando. Winter Park, with Rollins College, is on the same road just five miles to the South.

The hotel is the center of social life with card parties, dances, etc., and Altamonte's winter residents and home-folks are of a superior order and of a prosperous, enlightened class. Our surrounding country and neighboring towns of Longwood and Maitland are of the same order and are fine neighbors, and are only two miles away to the North and South.

The practical side of Altamonte Springs is not to be slighted in this article, for, aside

from her fruit industry, Altamonte is noted as having 40 acres in covered conservatories devoted to raising the beautiful Asparagus Plumosis fern used by florists. This is shipped in season mostly to the north, and the industry represents an investment of over a quarter of a million dollars and a payroll of hundreds of dollars a week. Hon. Charles D. Haines, ex-congressman from New York, heads the largest of these conservatories, The Royal Extension Fernery, Incorporated.

Mr. B. L. Maltbie, of the Maltbie Chemical Works, of Newark, N. J., is one of Altamonte's latest developers, and is planning a great future for us this winter.

Altamonte has a Chamber of Commerce, whose Secretary, W. B. Ballard, is always glad to give information upon request. Altamonte Springs has just recently been incorporated and is officered by unsalaried men of progressive ideas, but within keeping with a low millage.

George E. Bates and Son are men to whom Altamonte Springs owes much, as many coming as their guests buy property here and stay as residents.

Palm Springs, a noted resort, is only two and one-half miles through the pine woods to the Northwest of Altamonte. Here Mr. Lester Beeman has spent thousands of dollars to give a pleasure resort for the free use of the public, and one that is greatly appreciated. Mr. Beeman has a pretty little cottage at the Spring as have others from Sanford and Longwood.

Altamonte Springs has never been boomed or exploited, but is now on the verge of a growth that will not be sporadic, but steady and substantial.

A peculiar circumstance is the fact that there is only one "Altamonte Springs" in the world, and we are "IT". Numbers of "Altamontes" appear in the Postal Guide, but only one "Altamonte Springs."

SANFORD DAILY HERALD

Published every afternoon except Sunday at The Herald Building, 197 Main Street, Sanford, Florida.

THE HERALD PRINTING CO., Inc. PUBLISHERS

R. J. HOLLY, Editor; J. ILLIARD, Secretary-Treasurer; A. NEEL, General Manager.

ROBERT HOLLY, Circulation Manager; Phone 148 up to 6 P. M.

Advertising Rates Made Known on Application

Subscription Price in Advance: One Year \$6.00, Six Months \$3.00, Delivered in City by Carrier One Week \$1.00.

The big 18- to 18-page Weekly Herald entirely covers Seminole County and is published every Friday. Advertising rates made known on application. Democratic in politics. \$2.00 per year, always in advance.

Member of the Associated Press

This is the season of our discontent—tail end of the heat, tail end of business, tail end of advertising, tail end of collections—what a sad tale of the tail.

The greatest thing in the world is faith. Faith in your self first; faith in your fellowman; faith in your city; faith in your country, and faith in your country. Get it today.

Evelyn Nesbet Thaw gets front page again after many years. Three men tried to kidnap her in New York the other day. Well, it can't be laid on Stanford White, at any rate.

Admiral Sims has spoken again and is in bad again as usual. It would seem that the Admiral should retire and write a book. That is the best way to "shell the enemy," in the piping times of peace.

If all the men who have money will spend just a little bit of it in boosting Sanford, this will be the greatest city in the south before you know it. If you spend your money here, other people will do the same. Are you spending your money here?

After all else fails, Roscoe Arbuckle's wife flies to him when he is in danger. They have been separated for five years after Roscoe became swell headed with success. The little wife who helped him to fortune returns to him when he needs her most. 'Twas ever thus.

The editor of the Herald has faith in Sanford and faith in all of the other things enumerated. We have had faith in this city for the past fifteen years. We have had as many rebuffs, as many knockdowns, as many obstacles as anyone in Sanford, but each setback only makes our faith stronger. We intend to stay with the game until our faith is justified. That's all it takes to make a city.

Our good friend "Thorn," editor of the Kissimmee Gazette, comments on the painful revelations made by an auditor's report, of the condition of the municipality of Punta Gorda and notes that "every city needs a careful head." That's the point exactly; every city does need a careful head, a sort of centralization of responsibility so that the praise or the blame, as the case may be, can be placed where it belongs. That "head" ought to be a city manager.—Lakeland Telegram.

WORLD IS CRYING FOR MORE ENERGY.

Inertia, "The Old Man of the Sea," climbed on the back of the world while war was sapping its energies. It sank its fangs in the neck and is hanging on today—the real menace of progress.

Energy—such as made America the country she is today—has been forgotten almost entirely.

"Let George Do It" seems to be the slogan of ninety-nine per cent of the people one meets today.

Normalcy will come about when the strong men of this country throw off inertia and summoning their energy, start doing things and making things.

Work is the salvation of the day. Work at longer hours if necessary.

work at less pay if necessary—but work, work that calls for real energy will do more to restore normal conditions than all the legislation congress can pass in a million years.

There is no reason why conditions should not quickly become stabilized. We have been set a wonderful example by little Belgium and by our recent enemy, Germany. Whatever one may say or think of Germany that nation has GONE TO WORK, and unless some cog slips Germany is going to be the first European country to attain normalcy.

We have more real money and credit than any other nation on the globe. We have the world's greatest natural resources.

We have abundant man-power, possessing brains, skill and strength. But—we are too prone to criticize, to cry about hard times, to look for positions rather than jobs, to "let George" do the hard work.

All the resources of this country are lost unless energy can be mustered and inertia swept out of our land. Perspiration—real, old-fashioned sweat—is what we need if we are to reap the harvest that is justly ours.—Jacksonville Metropolis.

EVIL HOROSCOPES.

The astrologers have been rather pessimistic lately. Here are some excerpts from a widely published horoscope of recent date:

"Farmers will face some condition that is extremely discouraging at this beginning of autumn.

"Newspapers may present pessimistic views on subjects of prime importance to the welfare of the people.

"Neptune is in an aspect supposed to reduce the average stock of common sense, and many persons will do foolish things.

"Madness in many incipient forms will reveal itself.

work at less pay if necessary—but work, work that calls for real energy will do more to restore normal conditions than all the legislation congress can pass in a million years.

There is no reason why conditions should not quickly become stabilized. We have been set a wonderful example by little Belgium and by our recent enemy, Germany. Whatever one may say or think of Germany that nation has GONE TO WORK, and unless some cog slips Germany is going to be the first European country to attain normalcy.

EVIL HOROSCOPES.

The astrologers have been rather pessimistic lately. Here are some excerpts from a widely published horoscope of recent date:

"Farmers will face some condition that is extremely discouraging at this beginning of autumn.

"Newspapers may present pessimistic views on subjects of prime importance to the welfare of the people.

"Neptune is in an aspect supposed to reduce the average stock of common sense, and many persons will do foolish things.

"Madness in many incipient forms will reveal itself.

"Saturn warns of dangers in dark places. Crimes of violence committed by stealth will be prevalent.

"Storms at sea before the end of the month will prevail."

Discouraging, isn't it? That is, if one believes in celestial signs. There is no telling how many people take such prophecies literally and have their spirits elevated or depressed according to the tenor of the forecast for the day, week or month. The exercise, however, of such slight common sense as evil stars may permit at this time may tend to dissipate the gloom.

The astrologers evidently read the newspapers and the almanacs as closely as they do the stars, and shape their prophecies accordingly. It doesn't take an occultist to tell that there are going to be storms at sea in September, that crimes of violence tend to increase as winter comes on, that people are going to do foolish things in the autumn or any other season, that newspapers will adopt a "show me" attitude about public affairs and that many farmers will be disappointed with crops and prices.

Whether the sun, moon and planets actually affect human affairs, as astrology maintains, is still a moot subject. Nearly everybody used to think so, and millions still do, though few attempt to explain what the real nature of the influencing power is, and why celestial bodies should exert it. Those who do believe should never fail to remember the old dictum, "The stars incline but do not compel."

Paracelsus, himself an expert and sincere student of astrology, attributed to this factor only 20 per cent of all the causes which influence human life and destiny, and taught that the individual was master of his own fate, in spite of the stars.—Tampa Tribune.

EDITORIALS.

Why are editorials? What are editorials?

Editorials probably came into existence because newspaper people are human and want to express their views. An honest paper tries to keep its personal bias out of reports of the news so far as is humanly possible. In the editorial columns it is at liberty to say what it thinks about events as reported in the news. After all the fourth estate has as much right to opinion and to the free expression thereof as any of the first three. The fact that people read editorials justifies their being, and suggests that they have some value.

What are editorials? They are comment, expressions of a paper's opinion on various subjects. They may represent one man's opinion or a paper's policy. Moreover, they are informative as news cannot be, since they are not confined to the happenings of one day. They may delve into causes and draw conclusions. Alas, they are a never ceasing cause of controversy. One editorial may please somebody but it is certain that every one will displease somebody, which does not matter so very much after all.

Editorials do not exist to reflect popular opinion, and contrary to

popular opinion, at their best they are not written altogether to sway opinion.

It is often said, particularly in small cities, that papers should confine their editorial matter to local matters, that people take their opinions on national and international subjects from the larger papers. If the people take their opinions on anything from any editorial column, they are chumps. An editorial presents a point of view, and presents it as convincingly as possible, but it is not the law and the prophets.

The best service it can perform is to stimulate thought. If it can prove a point by statement of chapter and verse, if it can turn up an important side light that reveals a new angle of a problem, if it can inspire active interest in a subject of importance, if it says something, it is a good editorial, and has fulfilled its purpose. Eloquence and style are precious, but the substance is essential. In short, an editorial is the result of thought designed to instigate thought. None of which alters the fact that people will continue to like editorials expressing their point of view and to disapprove those with which they do not agree. If they were wise they would follow the papers' example and do their own thinking, reading editorials as possible lighthouses to point out a dangerous spot or a change in the course.—Palm Beach Post.

FLAUIDA'S CONDITION RANK WITH FOURTEEN.

The Chamber of Commerce of the United States has mailed the Herald a map of the nation showing Good, Fair and Poor conditions in the forty-eight States. There are only six "good" spots on the map—portions of Oklahoma, Missouri, Illinois, New Mexico, Colorado and California. Florida is one of fourteen states where the condition is given as "fair" without a "poor" spot on it. That is encouraging but as a matter of fact Florida for the most part is "good" all the way through.

The brief survey is as follows: A nation-wide survey of prevailing crop and business conditions gives us definite knowledge upon which to base our conclusions as to the probable trend of things in the immediate future.

The story is much the same everywhere: A partial and unequal harvest; plentiful returns in close juxtaposition with parched and burnt up fields; both prices and demand for farm products that are far from satisfactory to the producers. Yet these same products are seeking a market wherever they can find it that the obligations of the farmers may be discharged. There is an abundance of food stuff in the country despite small yields in some grains.

An enormous inflow of wheat to market indicates that there is nothing to that old story about farmers holding back supplies artificially to force up the price. Likewise that there is more wheat in the country than official figures declare.

One matter is most apparent in the horoscope of the future. The measure of the volume of business and of our commercial welfare hangs upon the demand for farm products and their consequent prices for the year. All other "barometers" are as nothing by comparison, and can be relegated to the scrap heap. Fortunately at this writing, Europe is importing largely of our grains and the export of cotton from July 1, to date, are more than double those for the same period of last year.

Cotton, as usual, has done the unexpected. Sustained higher prices mean an amount of business in the South that can come from no other cause. Nor does it seem likely that there will be that fatal and futile holding of cotton for impossible higher prices that characterized the previous season. The memory of that desperate mistake and its enduring consequences are too recent to bring its repetition.

One possibility is at least worthy of passing thought. If there be a demand of any moment, both foreign and domestic, from now on, and this at least seem likely, the greater portion of the carry-over in this country will be practically used up by July of next year. With general business and readjustment on an ascending scale, both at home and abroad we shall be facing a situation where the greater part of the world's supply of cotton will depend upon the growing crop in this country. What such a contingency means to the prosperity of the South sounds too optimistic to put in cold print.

Already the phases of the situation finds expression not only in wide-spread more cheerful feeling in the cotton belt, but also in somewhat freer buying. This is true likewise in the grain regions where farmers are liberally marketing hogs, wheat and corn.

The commercial world will not reap as much benefit from this as surface indications seem to promise. For a very considerable proportion of the money the farmers receive for their products will go to settling the obligations carried over and the banks will get their first, and they are past masters in this art. In some sections when banks and dealers have been satisfied there will not be much left for the farmers for new purchases. Yet when all has been said the situation will be far better than at present.

IT PAYS TO ADVERTISE.

Does it pay to advertise? Mr. J. H. Coberly of the Sani-Pak will probably say that it does. For a week Mr. Coberly has been advertising a great sale of aluminum ware. The sale began this morning—and the street and sidewalk were crowded for a block or more. A bigger crowd was never brought to DeLand for any merchandise sale. Special sales of this kind are great advertisements for a town, as well as for the individual merchant. People were brought to DeLand from all the surrounding country. They bought aluminum ware—and then filled their cars with other articles from Coberly's and other stores.—DeLand News.

FAULTY PACKING OFTEN MAKES THEFT EASY

It will be recalled that not long ago in Macon, Ga., says the State Marketing Bureau, twenty or more handlers of freight and express were convicted of systematic thieving in connection with goods in transit, and the question was raised as to what extent packers and shippers were responsible. While losses were directly due to thieves, it was suggested that it was nevertheless a fact that very often "the sight of means to do ill makes ill deeds done," and one fault of present-day shipping practice is that it affords many opportunities to "make a thief." The object of packing is not merely for protection against damage, but for security against theft, and the important bearing of bad or faulty packing not only upon the loss of goods by theft, but also upon the settlement of claims for such losses is largely overlooked.

One of the most common faults in packing is the use of second-hand containers, which are, of course, comparatively easy to open without detection. The result is that officers cannot judge by appearance as to whether goods have been taken out before the packages reached destination or not. Crates and barrels are often so frail that the nails become sprung and the hoops and heads become loose by frequent handling, the contents are exposed, oranges and peaches for instance, and offer distinct temptation to the pilferer. The contents of packages are reduced in this way, even if the whole package is not taken.

FLAUIDA'S CONDITION RANK WITH FOURTEEN.

The Chamber of Commerce of the United States has mailed the Herald a map of the nation showing Good, Fair and Poor conditions in the forty-eight States. There are only six "good" spots on the map—portions of Oklahoma, Missouri, Illinois, New Mexico, Colorado and California. Florida is one of fourteen states where the condition is given as "fair" without a "poor" spot on it. That is encouraging but as a matter of fact Florida for the most part is "good" all the way through.

The brief survey is as follows: A nation-wide survey of prevailing crop and business conditions gives us definite knowledge upon which to base our conclusions as to the probable trend of things in the immediate future.

The story is much the same everywhere: A partial and unequal harvest; plentiful returns in close juxtaposition with parched and burnt up fields; both prices and demand for farm products that are far from satisfactory to the producers. Yet these same products are seeking a market wherever they can find it that the obligations of the farmers may be discharged. There is an abundance of food stuff in the country despite small yields in some grains.

An enormous inflow of wheat to market indicates that there is nothing to that old story about farmers holding back supplies artificially to force up the price. Likewise that there is more wheat in the country than official figures declare.

One matter is most apparent in the horoscope of the future. The measure of the volume of business and of our commercial welfare hangs upon the demand for farm products and their consequent prices for the year. All other "barometers" are as nothing by comparison, and can be relegated to the scrap heap. Fortunately at this writing, Europe is importing largely of our grains and the export of cotton from July 1, to date, are more than double those for the same period of last year.

Cotton, as usual, has done the unexpected. Sustained higher prices mean an amount of business in the South that can come from no other cause. Nor does it seem likely that there will be that fatal and futile holding of cotton for impossible higher prices that characterized the previous season. The memory of that desperate mistake and its enduring consequences are too recent to bring its repetition.

One possibility is at least worthy of passing thought. If there be a demand of any moment, both foreign and domestic, from now on, and this at least seem likely, the greater portion of the carry-over in this country will be practically used up by July of next year. With general business and readjustment on an ascending scale, both at home and abroad we shall be facing a situation where the greater part of the world's supply of cotton will depend upon the growing crop in this country. What such a contingency means to the prosperity of the South sounds too optimistic to put in cold print.

Mrs. Charles Bell and son, Ernest, have returned from an extended visit to Hot Springs, Ark. Mrs. Bell is very much benefited in health.

Mrs. Ponce, of Miami, was a guest of Mr. and Mrs. Bartow Mann over Sunday, and attended the opening service of the new Baptist church.

Rev. and Mrs. A. A. Wainwright, have left for Macon, Ga., where Rev. A. A. Wainwright will enter Mercer college and continue his studies in the ministry.

Mrs. Annie Driggers, of Titusville, has been visiting her daughter, Mrs. Coleman, and her son-in-law, Mr. Tom Bell, and children.

Mrs. Baum Garden, of Mt. Dora, visited Mrs. Hattie Wayne last week. Mrs. Harry Rabun is confined to her home by illness.

Master Fred Bell is improving after several weeks' illness. Fred is a very bright and manly little fellow, and his schoolmates are hoping for him a speedy recovery.

FLORIDA CIVILIAN RIFLE TEAM MAKES HIGH MARK AT PERRY.

JACKSONVILLE, Sept. 20.—The civilian rifle team representing Florida at the national shoot at Camp Perry achieved the distinction of having every member make the grade of expert marksman, according to a wire from Sterling E. Smith, team captain, to Adjutant-General C. P. Lovell, at St. Augustine.

The wire to Gen. Lovell reads: "It is a pleasure to inform you every man on the Florida Civilian Rifle team qualified as expert marksman." The wire was signed by Smith.

"This record is very unusual, and one of which the entire team might well be proud," said Gen. Lovell. "This team is made up of civilians from various parts of the state, and they are doing credit to the state at the national tournament."

We Are Now Showing Our FALL HATS, and they are different from last season, in style, shape, color and price WE ARE SELLING 'EM FOR LESS STETSON | SCHOBLE | BERG Perkins & Britt THE STORE THAT IS DIFFERENT Sanford, Fla.

SULPHUR CLEARS ROUGH, RED SKIN

FACE, NECK AND ARMS EASILY MADE SMOOTH, SAYS SPECIALIST

Any breaking out of the skin, even flury, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows.

DOINGS OF COMPANY D.

The Dixie Minstrels are coming along fine. Monday night was the first full rehearsal and Allison and Tudsell, the directors, say judging from the rehearsals it is the most promising show they have ever staged.
