CAN YOU TRUST YOUR EYES? There are at least six differences in drawing details between top and bottom panels. How quickly can you find them? Check answers with those below.

Answers: 1. Color of man's shirt. 2. Color of woman's dress. 3. Color of man's shoes. 4. Color of woman's shoes. 5. Color of man's hair. 6. Color of woman's hair.

## Junior Whirl

by Hal Kaufman

● **WELL SEASONED!** In Shakespeare's words, "the only pretty ring time." James Bond says it's when "birds warble sweet." In anagram form, its letters spell IT GRIPS MEN. What season?

● **Color Blind!** Correct the color in each of these titles: 1. Little Boy Purple. 2. Little Green Riding Hood. 3. The Goose That Laid the Silver Egg.

● **Sum Fuel!** Select a number 1-9. Multiply by 11. Multiply the result by 9991. Your original number will appear here and aft in the final product.

● **Riddle-Me-This!** Why did the policeman tickle the herm? For reckless driving. Why did the golfer change socks? He had a hole in one.

**WORD CAPER**

Here's a caper with which to test wits. As you can see, the word "caper" appears both across and down in the diagram above. You are challenged to insert four additional five-letter words to form a kind of magic square in which all words similarly read across and down. Definitions (Number 1 is caper, of course) are:

1. Playful antic.
2. Overhead.
3. Socially attitudes.
4. A hatwearer.
5. Musical pauses.

Do fair guessing. No fair peeking.

Hi.

Hi, don't I know you?

You should! We met in a clone booth!

I feel stupid and empty being your clone.

You should be grateful.

You have been given the opportunity to experience all of my feelings and to share all of my joys.

We're like double partners in tennis.

Ah... I believe you're in the receiving court.

### BEST SEATS AT AIR SHOW

Some of the estimated 30,000 spectators who turned out Saturday and Sunday for the Central Florida Air Show watch from a rooftop at the Sanford Airport (top photo) as the Navy's Blue Angels thrill the crowd with low flying maneuvers. Below, 5-year-old Scott Tannehill of Oviedo may be dreaming of the wild blue yonder, but for the time being flies his jet from the safety of his dad's shoulders. The Sanford Rotary Club sponsored the show, which also featured the Army's Golden Knights parachute team and the Eagles Aerobatic Team. Air Show Chairman Jim de Gattail said the event was the best air show ever and he looks forward to next year's show. The exciting show and perfect weather combined to bring out a crowd of 10,000 on Saturday and 20,000 on Sunday. Rotary Treasurer John Mercer said the club grossed around \$50,000 and estimates a profit of \$20,000 to \$25,000 when all expenses are paid.

## Economy

### Expert Thinks Area Protected From Woes

Runaway inflation and higher and higher interest rates. Anticipated slow-down in the construction industry... Predictions of a national recession... And Seminole County and the central Florida region will feel some of it, but its impact is hard to assess. Construction has already started to drop in Seminole County, according to one major contractor, and that's resulted in some job loss with more expected.

Some questions which come up if neighboring states to the north experience high unemployment are: Will central Florida have a heavy influx of workers looking for work? If so, and they're unable to find work here, will they impose a burden on local hospitals and other financial assistance programs?

An area economist says not at all. The Herald, in an effort to get a clear picture of how the central Florida and Seminole County region stands during these uncertain economic times, looked to local persons in the various fields seeking answers.

Here's what those discussions turned up:

"I don't expect the economy turning sour up North will cause an influx of people to central Florida. I am somewhat of the view it will lessen the migration because of such things as people not being able to dispose of their homes there and thus not being able to acquire another home here," said Dr. Clifford Eubanks, dean of the University of Central Florida's College of Business Administration.

"Being talked about is a short term recession nationally, but it will not be major or significant here," Eubanks said, adding central Florida has a backlog of construction projects under way including Walt Disney World and its Environmental Prototype Community of Tomorrow (EPCOT). He also pointed to major projects at Sea World, the international airport expansion and other projects of significance that will be a buffer to the local economy.

**CONSTRUCTION BUSINESS SLOWS**

LeRoy Robb, a Sanford builder for many years, said he does foresee an influx of people coming into the area seeking jobs. "But construction business, especially commercial construction, is off quite a bit already because of high interest rates," Robb said.

"I've had to lay some people off. I've had several jobs put on hold. Jobs which were scheduled for April have been put off until July. When business was good, I had a little problem getting sub-contractors."

"People I haven't talked to or worked with in years are now asking to be put on builders' lists," Robb said.

Pointing to the 1973-74 recession, Robb said as demand for building materials went down, prices also went down. "But that isn't the case now. Later down the line prices will have to come down," he said.

Those who have suffered from job layoffs in the North and come to the sunshine state looking for better times will have difficulty unless they bring money with them.

While there is no length of residency requirement to apply for financial assistance through the state's Department of Health and Rehabilitative Services, in practically it is difficult to receive the aid.

Laci Hady, district administrator of HRS, said there is no general assistance available under Florida law. The assistance available is for "aid to Families with Dependent Children (AFDC) and this does not apply to intact families."

"If the individuals are hungry, food stamps can be provided under emergency expedited service," she said. Those families which can qualify for aid to dependent children will have at least a 30-day waiting period before permanent assistance can be approved.

"Until the old industrial states can encourage greater investment in their own locales to generate new employment and employment opportunities, people are going to migrate where the opportunities exist. We have been generating employment opportunities in the Sun Belt. The old industrial states need to develop a more favorable business climate to encourage industry. Until that happens we won't see a reversal of the trend," he said.

Of the President's newly announced economic policies, Dr. Eubanks said it is "too little, too late, but better late than never."

"I think the policy calling for a reduction in federal spending will be helpful to the inflationary problem. The magnitude of federal spending is so great, this is a step in the right direction," he said.

## Iran Again Talking Of Trials

By United Press International

An Iranian religious leader said today American hostages accused of spying will be brought to trial as soon as the new Parliament convenes and those convicted will go to prison.

Ayatollah Saidegh Khatkhalai, the Islamic jurist who condemned to death more than 300 officials of the regime of the deposed shah, also told reporters in Rome that Egypt will pay for granting asylum to Shah Mohammed Reza Pahlavi.

"The anger of our people will manifest itself in great demonstrations condemning this hostile, criminal and dirty act of (Egyptian President) Anwar Sadat," Khatkhalai said, adding that Sadat made his decision under pressure from President Carter and Israeli Premier Menachem Begin.

"I hope to see Sadat end up just like the shah," he said.

As for hostages, Khatkhalai said their fate remains in Carter's hands. "It is the United States that is delaying their release," he said.

The first condition for the release of the hostages, he said, is still the return of the shah and his money to Iran.

"The second involves the hostages themselves, particularly those who acted as spies and betrayed our people," Khatkhalai said.

## Sanford Units Eyeball Budgets

Sanford city manager Warren Knowles has ordered city department heads to prepare for the belt-tightening budget process ordered by the city commission a week ago.

Knowles, in a memo to the staff, told them to "list each and every function and service the respective division provides for the public."

"This must go to the smallest detail. Once this list is drawn, establish a priority rating for each," he said, instructing that the lists be turned into his office no later than April 25.

The priority lists are to be used by the city commission to prepare for elimination of non-essential city services in the 1981 budget year, which begins Oct. 1.

The action was taken after Knowles told the commission he anticipates President Carter, in his economic steps to combat inflation, will reduce, eliminate or phase out federal revenue sharing funds, slated to bring \$33,223 into city coffers this year.

He said to replace that money the city would have to increase property taxes by \$2.20 per \$1,000 assessed valuation.

Knowles said the 1980-81 fiscal year budget which he will begin preparing within the next 90 days must take into account a 12-to-18 percent growth factor

in the rate of inflation, delinquencies shown in a study of city employees' salaries and the federal wage guidelines of 9.5 percent.

At a meeting of the city commission scheduled for 7 p.m. today, Knowles will tell commissioners that raising salaries of low-paid employees would run to about \$138,345 annually.

The names of all five commissioners last week was for Knowles to have the priority lists prepared with non-essential service items listed first. The commissioners did not indicate to Knowles where he should look for the non-essentials.

In other business at tonight's meeting, Knowles will tell commissioners the county and other cities in Seminole County do not wish to cooperate with Sanford in developing a federal grant request to set up a "central recruitment and testing center of prospective employees for all."

While the idea was dropped after a second meeting of representatives of the county and city governments, the representatives decided to continue meeting on a regular basis to discuss problems, policies and practices. A meeting is set for April 17. — DONNA ESTES

### Cable TV On Agenda

The Sanford City Commission will consider an amendment tonight to its cable TV franchise ordinance that would provide for partial deregulation of rates.

The commission will meet at 7 p.m. in the commission room of city hall.

The proposed amendment would provide that the city could "not reasonably withhold" a requested rate increase if the company applies no more than once a year and the amount requested is within the consumer price index.

Under current regulations, the cable franchise holder could apply for an increase at any time for any

reason, said City Manager Warren Knowles, but the commission has complete authority to grant or withhold an increase. The new policy, he said, would make increases fairly certain if conditions are met.

"But the city commission would still have the final say," Knowles added.

Another portion of the proposed amendment would provide for extending the current franchise for an additional 10 years and a total of two more renewals.

In other action, the city commission is expected to approve purchase of water meters from B & H Sales Inc., for \$62,501. B & H was the low bidder.

## Sanford Supervisors' Pay Low

By DIANE PETRYK

Herald Staff Writer

A salary survey completed by Sanford city staff shows that city supervisory personnel are paid 18 to 30 percent less than those in similar positions in other cities and business.

"It proves the old saying that it doesn't pay to be a supervisor in a city organization," said City Manager Warren Knowles.

To bring low salaries up to average would cost the city an estimated \$138,345 per year, according to a report prepared by Equal Opportunity Officer Francis Wyalda.

The survey, prepared by city staff after the Florida Department of Community Affairs withheld its assistance for a year, compares public and private salaries for like work. It compares

Sanford salaries with salaries offered by other cities and business.

"It showed us that some positions are adequately funded and some are not adequately funded," Knowles said.

The surprising part of the survey, he said, was the degree of underfunding for supervisory positions.

City Commissioner Julian L. Stenstrom said the survey gives the commission an indication of what it should do about salaries in the next fiscal year. The 1980-81 fiscal year begins Oct. 1, and the City Commission will begin planning for the budget in July.

"We may not be able to bring everyone up to average," Stenstrom said, "but if we're going to compete in the labor market, we have to compete."

Knowles said the city is looking toward a balanced budget this coming year so money is tight for salary increases. He said there is no possibility of retroactive increases and it is unlikely those working at rates below average would receive any increases in the second six months of this fiscal year.

A year ago the city's request for a grant from the Florida Department of Community Affairs to prepare the survey was turned down. But Knowles reported today that Ted Cox, representative of the department, was in Sanford today to read and possibly comment on the report.

The Florida Department of Community Affairs provides technical assistance on a grant basis to help local governments improve services and stay up-to-date with the technical aspects of governmental regulations.

# WORLD IN BRIEF

## Fighting In Chad Forces U.S. Diplomats To Flee

PARIS (UPI) — French officials today reported hundreds of people have been killed in three days of fighting between political factions in the civil-war torn African nation of Chad.

American diplomats scrambled for safety in the fighting in the capital of N'Djamena on Sunday, abandoned the U.S. mission and sought refuge in the French Embassy.

The French went ahead with plans to evacuate foreign nationals, including the U.S. diplomats, although sources in Paris said the situation in the former French colony was calmer today than on Sunday.

"We have no exact figures of the number of dead," a Foreign Ministry source said today. "There are certainly fewer than the 700 which has been quoted although we understand they are in the hundreds."

## Huge Oil Reserve In Egypt

CAIRO (UPI) — A French oil company has discovered huge oil reserves in Egypt's western desert that could transform Egypt into one of the world's largest oil exporting nations, the newspaper Al-Sayid reported Sunday.

The weekly paper, which has close government connections, said word of the discovery reached the authorities after they learned the unidentified company had spent nearly \$100 million on search operations in the western desert area.

The find is expected to produce billions of barrels of crude.

"By checking with the company, authorities found it had actually discovered huge oil reserves in certain areas of the western desert," the paper said. "The French firm had managed to keep its find secret for a year."

"This discovery will have far reaching economic and political consequences," stated the paper, adding "it will make Egypt one of the world's most important oil-exporting countries."

An unnamed major industrial company has already offered Egypt credit worth billions of dollars for rebuilding the Egyptian economy, to be repaid in oil revenue, the paper said.

Egypt currently produces about 500,000 barrels of oil a day, most of which is used domestically.

## Softball Teams Can Play: Judge

The Sanford Men's Softball League will continue to play this week as the city commission ordered the field closed and lights removed after adjacent property owners complained flying balls from the games at night.

The last talk broke off March 13. Today's session was arranged at the request of the 18 diplomats who have been held 27 days by the so-called M-19 guerrillas.

The negotiations were expected to be held in the same unmarked police van with the back doors removed, where the previous talks took place. The van is parked outside the twofore embassy in full view of the heavily-armed April 19 Movement guerrillas.

A foreign ministry source said Sunday the leader of the leftist group, who calls himself "Comandante Uno," had refused to free five of the captives provided the government showed "good faith" in the negotiations.

But the source did not explain what condition or if the guerrilla chief had included some of the diplomats in the offer. U.S. Ambassador Diego Asencio is among the hostages.

In addition to the diplomats, there are 13 other men, mostly Colombian citizens, being held in the embassy.

The guerrillas have previously released 24 hostages.

The negotiations were expected to be held in the same unmarked police van with the back doors removed, where the previous talks took place. The van is parked outside the twofore embassy in full view of the heavily-armed April 19 Movement guerrillas.

# Man Jailed On Firearm Charge

By DAVID M. RAZLER  
Herald Staff Writer

An Altamonte Springs man was jailed on concealed firearms charges this weekend, following treatment at Seminole Memorial Hospital for a bullet wound in his foot, deputies say.

James C. Palazzo, 27, of 159 Lakarper Drive, Altamonte Springs, was arrested outside his house Saturday evening, by deputies responding to a report of a disturbance.

They say they found Palazzo pacing in front of his home clad in only pants and socks. As they walked with him towards his front door, a shot rang out.

"It's all right, I have a gun in my pants," Palazzo reportedly told deputies. But then he looked down, and noticed he had accidentally shot himself in the foot, they say.

He was taken to Seminole Memorial Hospital and then to Seminole County Jail, where he was booked on a charge of concealing a 22-caliber automatic gun in a pocket.

Inside the house, deputies say they found a woman who identified herself as Palazzo's ex-girlfriend. While saying she had been forced into the house and threatened with a shotgun, she refused to press charges against Palazzo for a related offense.

GENEVA BURGLARY  
Thieves, forcing the garage entrance of a Geneva home, took \$1,500 in goods Thursday, deputies say.

## Jewish Schools In Occupied Land

JERUSALEM (UPI) — An angry demonstration broke out in Hebron in the occupied West Bank today to protest Israel's decision to set up two Jewish schools in the Arab city, Palestinian leaders vowed to go on strike if Jews move into Hebron.

Hebron Mayor Fahd Kawasme said his city broke relations with the neighboring Jewish settlement of Kiryat Arba and will declare a general strike Tuesday to protest Sunday's Cabinet decision.

"We now started losing hope in all we will declare a general strike Tuesday to protest Sunday's Cabinet decision. Hebron will not allow creation of a Palestinian State on its border and only through a continued Jewish presence will Israel be able to hold on to the West Bank and Gaza."

No violence was reported during the demonstration in Hebron, which was confined largely to angry speeches denouncing the Israeli move.

"I consider this decision shortsighted, arrogant, dangerous and in defiance of all the morals of the people in the world and the myth of peaceful coexistence in the Holy Land," Bethlehem Mayor Elias Fweid said.

Haltoun Mayor Mohammed Milhem said Arabs throughout the disputed region will stage protests, marches and sit-ins to demand their opposition to the Israeli Cabinet decision.

"We now started losing hope in all we will declare a general strike Tuesday to protest Sunday's Cabinet decision. Hebron will not allow creation of a Palestinian State on its border and only through a continued Jewish presence will Israel be able to hold on to the West Bank and Gaza."

- ★ Fires
- ★ Courts
- ★ Police Beat

Richard Morris told deputies he discovered a revolver, microwave oven, stereo and two chain saws gone from his home on Cochran Road, just off State Road 44 at 2:30 p.m. Thursday. He had been gone only four hours, he reported.

DRIVER ROBS PASSENGER AT KNIFEPOINT  
A Seminole County woman was robbed at knife-point by a man she accepted a ride from Friday, deputies say.

Christina Jewel Holloway, 21, of Seminole County accepted a ride Friday at 3 p.m. from a man driving along State Road 434 east of Raymond Avenue, say deputies.

A short distance down the road, the man grabbed her by the neck demanding her purse, say deputies, adding when she refused his demands, he threatened her with a knife, took her purse, containing \$250 in cash, and pushed her out of his car.

CAR FIRE CALLED ARSON  
A Friday morning car fire outside Sanford was being raged around by Seminole fire inspectors, deputies say.

Fremont responded to the mobile home owned by Pauline Snyder, off Lake Myrtle Ave., outside of Sanford, at 4 a.m. Friday after she reported her car burning, deputies say.

Her \$3,000 1976 car was completely destroyed by the blaze, which county firefighters say was deliberately set, giving no other information on how it started, deputies said.

Snyder told deputies she awoke at 4 a.m. to discover the vehicle burning.

CAR TAKEN IN SANFORD  
A 19-year-old Seminole Community College student discovered his car missing from his apartment's parking lot Saturday, police say.

Craig Carter, of 110 Airport Blvd., Sanford, told police his 1976 Capri was taken between 2:15 a.m. and 10:47 a.m. from the lot in front of his apartment, while he was away Saturday.

MIDWAY CHURCH BURGLIED  
Thieves took two typewriters and a clock radio from a Midway church some time late last week, deputies say.

About \$787 in goods was taken from the Morning Glory Missionary Baptist Church, by thieves who broke out a door window, then opened the door, deputies say.

SERVICE STATION LOSES GOODS  
Burglars forced open a service station storage shed Friday and made off with \$771.90 in beer, cigarettes and oil, deputies say.

After breaking the hasp on the shed door behind the Eastern service station on State Road 434 near Altamonte Springs, the thieves took 25 cartons of cigarettes, 11 cases of oil, 22 cases of beer and a case of soda, deputies say.

## NATION IN BRIEF

### Weeping K.C. Firefighters Leave Prison, End Strike

KANSAS CITY, Mo. (UPI) — The city's 850-member firefighting force, on strike for six days, was back at full strength today with the reinstatement of 42 fired firefighters and the release of 71 jailed colleagues.

Men wept openly as the pardoned firefighters went to the waiting arms of some 400 tearful wives, children and friends gathered outside the prison Sunday — a day after the settlement was reached.

"I knew the public was with us, but seeing all of the people when we came out was tremendous," said firefighter Gary Dominec. "When we came out and saw the people, it just put chills up and down my spine."

### Bruno Killed By Rivals?

PHILADELPHIA (UPI) — Reputed mob chieftain Angelo Bruno was ordered killed by rival East Coast crime families struggling for control of his lucrative Atlantic City casino turf, say sources.

The final order for the hit Friday came from a "top New York crime boss," a top-ranked federal informant said.

Police Sunday canvassed Bruno's South Philadelphia neighborhood looking for witnesses, while federal law enforcement sources expressed fear of a gang war to crown Bruno's successor.

### Nuke Shutdown Nears End

Operators worked today to restore full power to a Connecticut nuclear power plant that has gone off line five times in five weeks. A shutdown reactor at a North Carolina plant was expected back in operation by mid-week.

Both plants closed down Sunday, but officials said neither incident caused a release of radiation outside the plants.

The shutdown at unit No. 1 of the Carolina Power & Light Co. Brunswick nuclear power plant in Southport, N.C., came just two days before a scheduled visit by federal emergency planning review teams. A stuck pin on the water level recorder was blamed.

### Economist Okun Dead

WASHINGTON (UPI) — Economist Arthur M. Okun, an expert on "stagflation" and once the youngest chief economic adviser to a president, died unexpectedly of a heart attack Sunday at the age of 51.

Okun was only 39 when President Lyndon B. Johnson named him chairman of the Council of Economic Advisors in 1968. At the time of his death he was a senior fellow at Washington's Brookings Institution and was just about completed a book on stagflation.

He had worked at his Washington home and taken to Georgetown University Hospital where he died in the emergency room.

## FLORIDA IN BRIEF

### Suspect In Deputy's Death Captured In North Carolina

FORT LAUDERDALE, Fla. (UPI) — Ricky Washington, the 18-year-old suspected "triggerman" in the slaying of an off-duty Broward County sheriff's deputy, is expected to be brought back to Florida today to face a first-degree murder charge.

Washington's week-long flight from authorities ended Saturday near Smithfield, N.C., when a North Carolina state trooper stopped him for speeding and discovered the 1980 Chevrolet Citation he was driving had been stolen in Daytona Beach.

Washington waived extradition Sunday when two Broward sheriff's deputies traveled to the Smithfield jail to talk with him, according to Johnson County, N.C., sheriff's deputies. They said the detectives planned to take him back to Broward early today.

### Gunter Joins Senate Race

TALLAHASSEE, Fla. (UPI) — Insurance Commissioner Bill Gunter jumped into the U.S. Senate race today and immediately criticized incumbent Richard Stone as a spendthrift and a friend of big oil companies.

Gunter announced his candidacy from the 23rd floor glass observation deck of the Capitol as his family and several dozen supporters looked on.

He said he will not resign his Cabinet post but has notified Comptroller Gerald Lewis to stop his state salary during the campaign, and said he will limit contributions from the insurance industry to a maximum of \$100 and accept them from independent agents only.

## AREA DEATHS

MISS MINNETT HOEPNER  
Miss Minnett W. Hoepner, 87, of 138 Exeter, Longwood, died Sunday night at Winter Park Memorial Hospital. A native of Chippewa Falls, Wis., she had lived in Longwood for 13 years, moving here from Miami. She was a retired weaver and assembly worker.

Survivors include her sister, Mrs. George (Ruth M.) Krebba, Longwood and a nephew, John G. Krebba, Miramar.

Grankov-Gaines Funeral Home, Longwood, is in charge of arrangements.

JAMES EDWARD HINDS  
James Edward Hinds, 81, of Post Office Box 28, Geneva, died Sunday at Lakeview Nursing Home. He was a native of Grand Cayman, British West Indies, and had lived in Geneva for the past five years, moving here from Miami. He was a retired fuel man, having been with the Thurgood for 30 years.

Survivors include his wife, Mrs. Louise E. Hinds, Geneva; 6 daughters, Mrs. Ralph (Gail) Dennis and Mrs. Genevieve Bunkell, both of Davie, Mrs. Loyd (Naomi) Litton and Mrs. Thomas (Shelie) Hoffmann, both of California; Mrs. Harry (Margie) Haylock, West Palm Beach; three sons, James B. Hinds, Maryland; Roy E. Ocala and Harvey G. Daytona; 21 grandchildren and 13 great-grandchildren.

Funeral services and burial will be in Miami. Grankov-Gaines Funeral Home, Sanford, is in charge of local arrangements.

MERILYN BLEDSOE  
Marilyn Y. Bledsoe, 86, of Apopka, died Saturday night at Florida Hospital North. A former Sanford resident, he was born in Geneva, Ala. He was a retired farmer, a member of Sanford Masonic Lodge 43, and First Presbyterian Church of Sanford.

He is survived by two sisters, Mrs. Louise Nelson, Sanford, and Mrs. Charles Betts, Sarasota.

Brian Funeral Home-PA is in charge of arrangements.

MRS. ETHEL CHAPMAN  
Mrs. Ethel Moughton Chapman, 86, of 2796 Via De La Reina, Jacksonville, died Saturday in Jacksonville. Born in Cleveland, Ohio, she came to Sanford in 1912. She was a graduate of Florida State College for Women and was a teacher in Sanford schools for many years.

She is survived by a daughter, Mrs. Jane G. Jones, Jacksonville; six grandchildren, Mrs. Linda Hurst, Mrs. Lillian Chapman, Mrs. Vichi Ott, Robert C. Ott, Mrs. Nancy Thomas, Mrs. Helen Chapman and a nephew, Elton James Chapman Jr., Sanford.

Brian Funeral Home-PA is in charge of arrangements.

Funeral services for Mrs. Chapman will be at 11 a.m. Saturday at the residence in Jacksonville. Burial will be at 1 p.m. Saturday at the residence in Jacksonville. Burial will be at 1 p.m. Saturday at the residence in Jacksonville. Burial will be at 1 p.m. Saturday at the residence in Jacksonville.

## Kennedy Courts N.Y. Voters

### Carter, Reagan Score Weekend Wins

NEW YORK (UPI) — Sen. Edward Kennedy is looking for a large Jewish vote protesting President Carter's Israeli policy to revive his sinking hopes of victory in Tuesday's New York primary.

With Ronald Reagan assured of at least 84 of the 123 Republican delegates in New York, there is no major contest on the GOP side, and the Connecticut primary, while more of a horseshoe, is dwarfed by the big New York delegate pool.

Kennedy was the only presidential candidate seriously campaigning in New York today — hoopticking between New York City and Connecticut where he also is the underdog.

George Bush, who was raised in Connecticut where his father served as senator, and John Anderson, were chasing Reagan in the N.Y. state — but the former California governor also is favored there.

Reagan — assured of a huge pile of New York delegates in districts where he is unopposed or where previously uncommitted delegates have jumped on his bandwagon — made an insurance trip through upstate New York today.

Bush concentrated on Connecticut, where polls showed him a close second to Reagan, and Anderson a distant third.

Reagan — assured of a huge pile of New York delegates in districts where he is unopposed or where previously uncommitted delegates have jumped on his bandwagon — made an insurance trip through upstate New York today.

Bush concentrated on Connecticut, where polls showed him a close second to Reagan, and Anderson a distant third.

## Fighting Cancer

### Rare Interferon Boosts Hopes

DAYTONA BEACH, Fla. (UPI) — Scientists today said surgery, radiation and chemicals have produced substantial progress in the war against cancer but the anti-viral drug interferon may open a new front in the anticancer effort.

"We are at the very beginnings, I think, of a new approach to cancer therapy," said Dr. Jordan Guterman, who is trying interferon in patients with advanced cancer at the M.D. Anderson Hospital in Houston.

Interferon is an extremely rare, and therefore very expensive, protein produced in tiny amounts by body cells when they are threatened by a virus. One trillionth of a gram of interferon produced in the laboratory costs between \$70 and \$100.

It was discovered in 1957 but because it is so scarce it was not used in the last few years that scientists began to investigate its use against human cancer.

Guterman said in a report released today at an annual American Cancer Society seminar that there is no doubt interferon can shrink some tumors in some people. How it can be used, and how effective it will be against cancer, are questions still to be answered.

The initial tests, however, have been promising enough to prompt drug companies in recent months to commit more than \$100 million to the production of interferon by several processes, including using bacteria "factories" tricked by gene-splicing techniques to make it.

Dr. Mathele Krimm of the Sloan-Kettering Institute for Cancer Research in New York predicted substantial amounts of interferon will be available to stop up testing in two years.

He said one of interferon's anti-tumor activities may be the inhibition of the rate of cell multiplication. But precisely how interferon works against cancer is not known.

If large amounts of interferon become available, scientists believe it will be an effective anti-viral drug and someday may even provide a way to prevent the common cold.

Dr. Victor D. Blumberg, acting director of the National Cancer Institute, cautioned, however, that too much should not be expected from interferon as far as cancer therapy is concerned until more is known about the substance.

He said it is an "exciting" development, one the government institute is planning to spend \$10.4 million to study this year.

## Pioneers Help Ronald House

Jane King (right), president of the Sanford Check of Telephone Pioneers, presents a \$100 check from the council to Judy Weller, a Southern Bell Phone Center supervisor, for use at the Ronald House. The house is to be used by parents and families of children receiving treatment at the University of Florida Medical Center in Gainesville.

WASHINGTON (UPI) — Mental health experts say the 70,000 mental patients reportedly sterilized to prevent their bearing offspring were the victims of a "bad experiment."

"It was a bad experiment that had to stretch across at least one generation and found it didn't change a darn bit," said Bergman of San Francisco's Association for the Retarded said Sunday.

Citing figures from the University of Minnesota's Social Welfare archives and other sources, the Richmond Times-Dispatch said in a copyright story Sunday that by 1983, almost 64,000 sterilizations had been performed at state hospitals in 30 states.

National totals were apparently no longer kept after 1983, but figures compiled from states show the total now may have reached 70,000, the newspaper said.

The story was the latest in the Times-Dispatch's series of investigations into mass sterilizations, which the newspaper said were an experiment that amounted "to little more than a wretched assault on a nation's defenseless incompetents in the name of science."

# Birds Balked At Big Bucks, Stanhouse Now A Dodger

VERO BEACH, Fla. (UPI)—Maybe money doesn't always buy happiness, but it certainly hasn't caused Don Stanhouse to go into any deep fit of depression.

Had the Baltimore Orioles been willing to meet his asking price, the curly-haired, 29-year-old right-handed reliever would still be with them, driving Earl Weaver half crazy with the way he'd get in and out of jams.

Since the Orioles allowed him to go after he became a free agent last fall, Stanhouse will work out of the Los Angeles Dodgers' bullpen this year, and nothing, perhaps, can explain that switch better than a classic episode in which the late, great criminal attorney, Clarence Darrow, once found himself involved in money.

Darrow had just succeeded in winning the acquittal of a young man being tried for first degree murder when the mother of his client accused him outside the court room.

"Mr. Darrow, Mr. Darrow," she said, nearly in tears. "How can an appreciative mother like me ever express her eternal gratitude to someone like you for what you did for her son?"

"Madam, the manner in which an appreciative mother like you can ever express her eternal gratitude to someone like me for what you did for her son?"

at the time he spent with the Orioles. "I had a great relationship with everyone, the manager, the coaches and the players, but you know how it is, you gotta look out for yourself."

"They're not gonna have as much fun over there without me. I liked them and I think they liked me. There was never any trouble. Earl would just give me the ball and I did my job. No hubbalo. That's what I like. Very seldom was there a 'nice job' from anyone after I pitched in a game. I don't go for a pat on the back today and then being buried for a month after you maybe don't do so good."

"I guess a lot of that stuff was true," says the Dodgers' new reliever. "The situations were there and they did it happen." Tom Lasorda, the Dodgers' manager, doesn't smoke. Nor does he intend to start — even with Stanhouse pitching.

"I quit smoking 16 years ago, the day the Surgeon General announced smoking was harmful to your health," Lasorda says. "Stanhouse or anybody else couldn't get me to go back. I wouldn't care if Christy Mathewson was out there pitching, I still wouldn't smoke."

"I like Stanhouse as a pitcher, though. I'm planning to use him in short relief and I'm looking forward to helping us. The count he gets on the hitters will never bother me. Just so he gets 'em out. That's all I care about."

With the Orioles, Stanhouse did mostly "good" last season. As their late inning stopper, he finished fourth in the American League in saves with 21, winning seven games while losing three and posting a nifty 2.29 earned run mark. He was so effective in relief, he was named to the AL's All-Star squad and finished the season protecting the lead 25 times in the 27 games he entered where the Orioles were ahead.

"It isn't as relaxed an atmosphere here," Stanhouse says candidly regarding his new Dodger surroundings. "But I've really just gotten here and don't know that much about it. Earl Weaver was, and still is, a big Don Stanhouse man. He stuck with him all the way in the World Series, using him in

three of the games with the Pittsburgh Pirates, and the Baltimore manager still had good things to say about Stanhouse despite his ERA ballooning to 13.50 in the Series.

Stanhouse always made Weaver nervous when he pitched, invariably running the count to 3-and-1 and 3-and-2 on most of the hitters before he'd get them out. He made his boss so jumpy that Weaver would duck into the dugout runway for a couple of quick drags on a cigaret. Pretty soon, Stanhouse earned the nickname "Full Pack" due to all the cigarets he would smoke each time he pitched.

"I guess a lot of that stuff was true," says the Dodgers' new reliever. "The situations were there and they did it happen." Tom Lasorda, the Dodgers' manager, doesn't smoke. Nor does he intend to start — even with Stanhouse pitching.

# Seven NBA Squads Jockeying For Playoff Positions

By United Press International

It may be a little hard to believe, but the NBA's muddled playoff picture will be cleared up by next Sunday night. As of today, however, there are still seven teams fighting for the four open playoff spots.

Washington and New York took the Eastern Conference race into mass confusion over the weekend, with the Bullets coming off the mat to win twice — once over the Knicks and New York driving its best to top out at Boston.

Sunday, Kevin Porter had 24 assists and Elvin Hayes scored 33 points to lead the Bullets to a 119-114 victory over Detroit. That win came less than 24 hours after the Bullets had beaten the Knicks at Madison Square Garden.

Meanwhile, in Philadelphia, the 76ers set the Knicks to their third straight defeat as Darryl Dawkins scored 32 points and grabbed 16 rebounds in a 112-106 triumph.

So, the East shapes up like this: There are five teams — San Antonio, Houston, New York, Washington and Cleveland — battling for three playoff positions. The Spurs (39-39) and Lakers (40-39) are currently a game ahead of Houston (38-40), who in turn have a half-game lead on the Knicks (38-41). New York still leads Washington (37-41) by a half-game while Cleveland (35-45) hangs back.

The season would have ended Sunday, the Bullets and Cavs would have been out. This week's matchups will have a great deal to do with the final outlook. San Antonio has Houston and Detroit at home and Houston and Indiana on the road; Knicks has San Antonio and Detroit at home and San Antonio and Atlanta on the road; Houston plays Cleveland and Wednesday and then finishes with Philadelphia at home Thursday; Washington hosts Boston and Atlanta and visits Cleveland and New Jersey; and Cleveland is home for New York, Washington and Atlanta and travels to visit the Pistons by leaving twice.

Porter, who set the NBA record of 29 assists two years ago with New Jersey, set a Bullets record for assists with his 24. He added 12 points in his 44 minutes after a game in which he had been the Knicks at Madison Square Garden.

With Julius Erving on the bench with a foot injury and Caldwell Jones last early with a broken nose, Dawkins was forced to play the whole game — and the 6-foot-11½ monster responded with perhaps his finest game as a pro.

The win moved the 76ers to within two games of Boston for the conference's best record — and the Sixers still have a shot at the league's best record.

Ray Williams scored 35 points and Toby Knight added 34 to keep the Knicks in it. New York still leads Washington (37-41) by a half-game while Cleveland (35-45) hangs back.

In the West, Portland took a big step toward the playoffs with a 98-91 triumph over San Diego Sunday night. As a result, the Blazers lead the Clippers for the sixth and final playoff spot to 1½ games.

San Diego (35-44) will have a chance to make up Sunday's loss when they host the Blazers (36-42) Thursday night. San Diego also must visit Los Angeles and Phoenix.

Portland has a home game against Kansas City Tuesday before finishing on the road at San Diego, Phoenix and Seattle.

Rookie guard Billy Ray Bates scored seven points in a 107-100 victory over the Blazers, who were out for a fourth straight game that lifted the Blazers, who blew a 20-point lead. Rookie Calvin Natt paced the Blazers with 28 points — 18 in the first quarter — while Freeman Williams led the Clippers with 22.

In other games Sunday, Atlanta beat San Antonio 103-95. New Jersey tripped Boston 101-96, Phoenix downed Denver 110-102, Los Angeles got Utah 104-98, Seattle beat Kansas City 112-90 and Chicago dumped Golden State 128-115.

Hawkins 103, Spurs 95. Eddie Johnson scored 26 points — 20 in the second half — to pace Atlanta. San Antonio led 95-94 with 1:36 left but the Hawks scored the last nine points of the game. San Antonio's George Gervin led all scorers with 36 points.

Nete 101, Celtics 98. Mike Newlin scored 38 points to carry New York. The Nets scored the game's first 10 points as the Celtics led their second straight game — only the third time this season Boston has dropped games back-to-back.

Sum 116, Nuggets 102. "We knew he'd be the height and the depth to back it up," Stanley said. "The challenge was to prove it."

Others attending from all over Central Florida were Jo Stankiewicz, Pat Bernat, Vera Holon, Lee Brister, Jackie Carlo, Elaine Campbell, Nancy Farrow, Terri Fay, Mary Hay, Adelina Karas, De Jarrell, Lee Luter, Peg Patey, Dot Raines, Shirley Simas, Marie Sundvall, Margie West, Catherine Westrook and Gerry White.

The women enjoyed the reunion so much they decided to continue to meet twice a year, each time in a different location. The women from Melbourne invited the others

to meet in their city next time.

The Sanford Yacht Club sponsored a boat-a-cade over the weekend. The club members and guests met in downtown Kissimmee and departed from Lake Tokeholga. They crossed the lake, went through Cypress Lake, through Hatcher's Creek, past Lake Kissimmee and docked at the River Ranch Estates.

The Horrells and the Kramers spent most of their recreational time on the golf course indulging in their favorite sport. Evenings were spent at the Horrell home relaxed with casual TV viewing.

# Former CPO Wives Gather For Spur Of Moment Event

A group of 24 women who were former members of the Chief Petty Officers Wives (CPO) Club gathered for a luncheon in Sanford.

The occasion was a reunion that had been talked about several years and suddenly was realized on a spur of the moment effort of a few who started making phone calls without any real organizational effort.

The reunion turned out to be exciting for the women as they reminisced and laughed together.

They recalled such things as how difficult it was to get on base when the Navy was here during the '40s and '50s.

Some of the boaters sailed aboard their yachts, while others stayed in rooms they had reserved at the River Ranch.

All the members got together for dinner in the lodge dining room.

Going on the boat-a-cade were Al and Gerry White, Horace, Mary Jo and Marilyn Green, Jim and Anna Graves, Cal Haig, Wanda Taylor, Ed and Jean Hopcorn, Mary Lynn Douglas, Gae Orberg, Scottie and Eileen Scott, Florence Mapes, Ernie Bunnhofer, Tommy and Hazel Sunmerrill, Pat and Ann Zueli, Louise Stephenson, Duke Berg, Betty Holt, Frank Collins and Jack Campbell.

Mr. and Mrs. Ernest R. Horrell have enjoyed entertaining Mr. and Mrs. Mr. and Mrs. Carl Tullis of

# Darrel Porter's Exodus From Royals Blamed On Alcohol Problem

It was only about a week ago that Los Angeles pitcher Bob Feller, who had been with the team for 15 years, was fighting a similar battle.

The Kansas City catcher, who dropped out of spring training more than a week ago, had been receiving treatment for three weeks to battle a 10-year problem with the bottle, his father said Sunday.

Ray Porter of Oklahoma City said his 29-year-old son had suffered alcohol-related problems during 15 years of his professional career. The elder Porter blamed his son's problem, in part, on "pressures and the environment professional athletes are in all the time."

"There are a lot of times when you have to spend," the elder Porter said. "Darrell's not an exception."

The younger Porter left the Royals training camp at Fort Myers, Fla., March 14. Joe Burke, Royals executive vice president, would say only that Porter had a "personal problem" and would seek medical treatment for "a very confidential and personal problem."

"Ray Porter said the biggest problem his son faced with his rehabilitation was anticipated reaction of 15 years of his drinking," the elder Porter said. "Darrell's not an exception."

"It's a pretty big thing to him. Darrell doesn't know how people are going to feel about this thing," Porter said. "His being a professional athlete, they (fans) always ask the question 'how could he have a problem?' He has the greatest of everything going. But there is immense pressure out there."

"That would leave the Royals without their star catcher for at least the first three weeks of the season, which may or may not be delayed by a players' strike."

In spring games played Sunday, Montreal beat Los Angeles 8-7, St. Louis downed Philadelphia 6-1, Kansas City topped Texas 4-1, Houston 7-4, Texas 'B' team defeated Atlanta 6-4, Minnesota shamed Cincinnati's 'B' squad 8-4, Boston dumped the New York Mets 4-3, Toronto got by Baltimore 7-4, Pittsburgh beat the Chicago White Sox 5-3, the New York Yankees rallied past Detroit 4-1, Cincinnati's 'A' team blanked Houston 6-4, Milwaukee beat California 5-2.

Central Division: W L Pct. GB. New York Yankees 34 28 .550 0.00. St. Louis Cardinals 31 31 .500 3.00. Cincinnati Reds 29 33 .469 6.00. Milwaukee Brewers 27 35 .438 9.00. Houston Astros 26 36 .420 12.00.

Western Division: W L Pct. GB. Los Angeles Angels 32 28 .533 0.00. Oakland Athletics 30 30 .500 2.00. Kansas City Royals 28 32 .467 4.00. Detroit Tigers 26 34 .433 6.00. Texas Rangers 25 35 .417 7.00.

Eastern Division: W L Pct. GB. Philadelphia Phillies 33 27 .550 0.00. Pittsburgh Pirates 31 29 .517 2.00. Cincinnati Reds 29 31 .483 4.00. St. Louis Cardinals 27 33 .450 6.00. New York Yankees 26 34 .433 7.00.

Pro Hockey: W L Pct. GB. New York Rangers 31 27 .533 0.00. Philadelphia Flyers 29 29 .500 2.00. Pittsburgh Penguins 27 31 .467 4.00. Washington Capitals 25 33 .433 6.00. Los Angeles Kings 24 34 .414 7.00.

San Diego (35-44) will have a chance to make up Sunday's loss when they host the Blazers (36-42) Thursday night. San Diego also must visit Los Angeles and Phoenix.

Portland has a home game against Kansas City Tuesday before finishing on the road at San Diego, Phoenix and Seattle.

Rookie guard Billy Ray Bates scored seven points in a 107-100 victory over the Blazers, who were out for a fourth straight game that lifted the Blazers, who blew a 20-point lead. Rookie Calvin Natt paced the Blazers with 28 points — 18 in the first quarter — while Freeman Williams led the Clippers with 22.

# Help Is On The Way For Television Sports Nuts

Bill is William Rasmussen, a local TV entrepreneur who thought up the idea of the ESPN network (and remains chairman of the board).

Simmons is a 31-year-old TV sports executive who until last July headed the NBC Sports Division.

This old mill town in the rolling hills of western Connecticut is an unlikely location for what is the sports communication revolution of the 1980s.

The TV antennas — one called a dowlings — are hooked electronically to an RCA satellite 23,000 miles into space, hovering over the equator. While the dials receive and transmit signals, experts work inside the building behind them.

From 6 p.m. to 4 a.m. Monday through Thursday and from 6 p.m. Friday straight through (56 hours) to 4 a.m. Monday, those dials send a wide variety of sports events, news and special programming into 3 million homes.

They are believers. Chat Simmons, just touching the tip of the televised sports iceberg.

## Sheriff Wants To Add 29 To Staff

JOHN POLK

## Salaries Presidential Politics Affect Sanford Hike

By DAVID M. BAZLER  
Herald Staff Writer

Seminole County Sheriff John Polk will be looking for 29 new deputies and corrections officers in his 1981 budget request to the Seminole County Commission.

Polk says his new budget will include a request for 18 new corrections officers, needed this summer when a new jail opens, and 11 new deputies for 1980-81, additions to a force which has not kept pace with the population.

"I haven't added any new detectives in two years," he said, explaining the size of the force has not increased with the population and spiraling crime rate.

Polk said the 11 new deputies would cost the county about \$320,000 for the fiscal year October, 1980 to September, 1981.

The new corrections officers, necessary when the new jail opens, an event now scheduled for June 1, will cost just under \$200,000, he said.

The new corrections officers are a necessity, under federal jail staffing guidelines, for the larger structure which will soon house county prisoners.

But Polk also regards the 11 new deputies as important to handling law enforcement in Seminole County.

State crime figures for 1979, just released this week, show the county's 50 patrolmen and 20 detectives handled 74,200 crimes last year, up by 4,177 over 1978 figures (see related story, page 2A).

The sheriff's department will spend \$3,180,276 on salaries.

The present staff of uniformed deputies and detectives will cost the county about \$400,000 more due to salary hikes, Polk said.

If the new officers are added, the new total bill will come to \$3,842,000 for deputies, plus \$764,895 for jail personnel.

Deputies currently receive an average of about \$14,084, including social security and retirement funds. Corrections officers are paid an average of \$11,484, Polk said.

## Dental Problems Cause Bad Breath

Dr. Lamb

DEAR DR. LAMB— I'm a 20-year-old female and have been using a strong mouthwash for several years. I rarely gargle but simply rinse my mouth with it after brushing my teeth. I got into this habit while I had braces on and now I like the clean feeling. I was wondering if it will do any harm to my taste buds or tissues over a period of time. I usually only have the mouthwash in my mouth about 30 to 60 seconds for rinsing it out. Also what do you think about those new tongue cleaners?

DEAR READER— I don't believe it will do you any harm although I don't think it will do you much good either, particularly if you don't have any bad breath problems. I would like to point out that mouthwashes only tend to mask the odors that originate from the mouth itself. There are many causes for bad breath. Some are caused by dental problems and that's why a person with bad breath always should have a good complete dental evaluation. There may be an infection around the roots of the teeth that you can't do much about even with the best use of toothbrush, dental floss and other home devices.

Then, bad breath may also occur from the tongue. There are many causes for bad breath. Some are caused by dental problems and that's why a person with bad breath always should have a good complete dental evaluation. There may be an infection around the roots of the teeth that you can't do much about even with the best use of toothbrush, dental floss and other home devices.

### HOROSCOPE

By BERNICE BEDEGOL

For Tuesday, March 25, 1980

YOUR BIRTHDAY March 25, 1980

Even if you previously had a busy social calendar it is apt to pick up appreciably this coming year. Your popularity will put you in demand.

ARIES (March 21-April 19) You have good leadership qualities to begin with, but today they are even more strongly accentuated. Others will be inspired to emulate your behavior. Romance, travel, luck, resources, possible pitfalls and career for the coming months are all discussed in your Astro-looker. Luck begins with your birthday. Mail #1 for each to Astro-Graph, Box 408, Radio City Station, N.Y. 10018. Be sure to specify birth date.

TAURUS (April 20-May 20) Not only are you a good starter, you are also an excellent finisher. Give your time to matters you prefer. You felt were too challenging.

GEMINI (May 21-June 20) A friendship you've been hoping to encourage could get a solid start today. Your collective ideas will blend nicely for mutual good.

CANCER (June 21-July 21) Your present concepts could help advance your earnings or career. Instead of doubting their merits, test them on others.

LEO (July 22-Aug. 23) What may appear to others as lucky breaks for you will come into

### North Korean Boat Sunk

SEOUL, South Korea (UPI)— South Korean navy and air force units sank a North Korean armed spyboat approaching the southeastern coast before dawn today, the defense ministry announced.

A ministry announcement said four people were killed, one man was wounded and one was missing in the clash.

There was no immediate indication of how big the North Korean vessel was and how many crewmen were aboard. The announcement said it was capable of a speed of 30 knots.

It was the second bloody clash between the two Koreas in two days. Early Sunday three North Korean armed infiltrators were shot to death after landing in a frogman-type operation at a point

### County Shrugs Off Report On Low Pay

By DIANE PETRYK  
Herald Staff Writer

Although a salary survey shows Seminole County's top administrators are paid 10 percent or more below those in comparable positions in central Florida, several members of the Seminole County Commission did not seem overly concerned about it Monday.

"Our staff is one of the best in central Florida," Commissioner Richard Williams said. "And we've achieved that without top salaries. That leads me to believe it isn't necessary to meet competing areas' salaries to get that good a staff."

To handle the job turnover rate and help alleviate problems in filling vacated positions, Seminole County Personnel Director Lois Martin recommended a 10 percent increase in administrator's salaries be considered beginning with the last five or six months of this fiscal year.

Combined with salary adjustments for

### MINOR BUS ACCIDENT

Crooms High School students board a Herndon ambulance Monday afternoon following a minor bus collision. Although 20 students were taken to Seminole Memorial Hospital and six to private physicians following the accident, only two minor injuries, a sprained finger and a small bruise, were reported. The collision between two county school buses occurred after 2:30 p.m. at the corner of W. 13th St. and U.S. Highway 17-92 when bus 172, driven by Dale Flannagan of Sanford, hit the rear of bus 173, driven by Rosa Lee Booker, 1401 W. 10th St., Sanford.

### Inflation Up

WASHINGTON (UPI)—The cost of living shot up another 1.1 percent in February for a compounded annual inflation rate of 17.7 percent, the Labor Department reported today.

Greenery prices dropped slightly last month but the overall Consumer Price Index rose higher on rapidly increasing energy and housing costs. Gasoline jump prices have now risen 68 percent in a year.

The overall February jump in retail prices was identical to January's 1.4 percent and represents more bad news for President Carter in an election year.

Although the current inflation rate is the highest, the administration has predicted inflation of between 11 and 12 percent for all of 1980, compared to 13.3 percent last year.

Administrators and economists say the rate will cool later this year as the Carter anti-inflation program begins to take effect.

Gasoline prices have now risen 68 percent in a year.

Household funds rose 2.9 percent during the month. Home fuel prices rose 5.1 percent, following a 5.3 percent increase in January.

As a result of the recent sharp price increases, the spendable earnings of an average urban blue collar worker in a family of four—after taxes and adjusting for inflation—declined 1.4 percent in February.

### Longwood Moves Toward Rezoning

By JANE CASSELLBERRY  
Herald Staff Writer

After two weeks of discussion the Longwood City Commission voted unanimously Monday night to prepare an ordinance rezoning 27 lots in State Road 434 from B-1 to C-1 commercial. The commission declined to rezone lots north of Pine Street.

The commission also gave Todd M. Pemberton, Pemberton Builders Inc. the go-ahead to finish a building started illegally in February, but not without a zoning change for the better. The old buildings there now will change into nice looking businesses.

"Why stymie development now?" said J.R. "Hal" Hattaway, "427 to Grant ain't no flower garden; it's a bunch of crap the way it is. Instead of random houses it could have nice dress shops or sport shops. Let us go ahead. We've been waiting long enough."

In making the motion for rezoning, Commissioner John Lormann excluded the lots north of Pine Street included in the request.

Gerald Korman, local attorney, representing Todd Pemberton, told the commission he does not anticipate any problem in getting Florida Power Corporation's permission to use the easement under the power lines, but that it will take another month or two to get through the red tape by the commission, probably in early June. "You hired a professional planner to help the Planning and Zoning Board to redo the land-use map and ordinance and I think you should wait until you see what they have to say," said Chacey.

The map and proposed ordinance will go to the Land Planning Agency first and when they reach a decision on what they want and hold public hearings it will be passed on to the commission for review, Chacey said.

Under the plan as now constituted the lots in question are now B-1 while other lots in the same area are commercial to keep down traffic on State Road 434. However, it was pointed out that two of the approved uses under B-1 are banks and funeral homes, both of which generate a lot of traffic.

"Your client put us in a most difficult position," said Grant, "and I don't believe he doesn't know better." "I shouldn't weaken," he added, but joined the others in letting Pemberton off the hook.

Although a salary survey shows Seminole County's top administrators are paid 10 percent or more below those in comparable positions in central Florida, several members of the Seminole County Commission did not seem overly concerned about it Monday.

"Our staff is one of the best in central Florida," Commissioner Richard Williams said. "And we've achieved that without top salaries. That leads me to believe it isn't necessary to meet competing areas' salaries to get that good a staff."

To handle the job turnover rate and help alleviate problems in filling vacated positions, Seminole County Personnel Director Lois Martin recommended a 10 percent increase in administrator's salaries be considered beginning with the last five or six months of this fiscal year.
