Hospital Pondered For So. Seminole

By DONNA ESTES

Possibility that Florida Sanitarium and Hospital will construct a 60-bed, \$1 million satellite hospital in South Seminole within the next three years was discussed by Don Welch, the Orlando hospital administrator, with the civic leaders and officials of the four south county municipalities at a luncheon meeting yesterday afternoon.

Robert Bessner, administrator of Seminole Memorial Hospital, was meeting early this afternoon at Holiday Inn with representatives of the Seminole County League of Municipalities to discuss the question of the Sanford hospital establishing a branch emergency facility in the southern part of the county.

Welch pointed out that the south end hospital would be a "complete" facility and he was able to serve the needs of 85 percent of its patients but that serious surgical cases would be transferred to the main hospital in Orlando.

When Jack Toole, executive vice president of the South Seminole Bank, which sponsored the meeting, asked Welch's opinion of the current movement for a private hospital in the area containing an emergency room facilities and with patients to be selected according to ability to pay, Welch said construction of that type of facility in the south end would be a "tragedy."

"Those kinds of hospitals are most unfortunate for any community," he said. "All hospitals should do their share of charitable work. Hospitals of this type are not to make money in a hurry and place burdens on other hospitals."

He further stressed the need for good emergency rooms in hospitals. He said it was his feeling that the area would be better off with no new hospital than one started by a new group. "A new hospital for South Seminole would ideally be an extension of an existing hospital. The cost would be less in the long run."

Rambler Agency Purchased

ROYELLE SIMMONS, new operator of what was formerly Brass Motors, 619 East First Street, is shown at left, taking keys to the auto agency from John D. (Red) Brass, who is retiring from the car business, according to Simmons. Simmons, who today opened the doors to Simmons's Rambler.

Brass Motors Sold

A Michigan Ford dealer is now assuming ownership of the Sanford Rambler Agency.

Royelle Simmons, who has the Ford agency at Vicksburg, Mich., said today she was assuming the operation of Brass Motors and will continue as dealer for Rambler cars and servicing.

A veteran in automobile, Simmons has been in the car business since 1946 and has operated the Ford dealership in his hometown of Vicksburg since 1955.

Simmons came to Florida a year ago and is presently living at Treasure Island, near St. Petersburg, but anticipates moving into the local area soon.

An auto dealer, Simmons is also interested in civic duties, Simmons served Vicksburg as mayor and councilman, before moving to the "Sunshine State."

The Simmons' have four children, including one son who attends the University of South Florida; a daughter attends a Michigan College, another daughter goes to high school and one other daughter is married, Simmons said.

The new city supervisor welcomes all to his new "shop" and get acquainted.

RECEIVING KEY to Sanford Mayor W. Vincent Roberts (left) is Elmar Mauch, mayor of Bad Mergentheim, Germany, who left city Tuesday after a three-day visit at home of William Hutchison, city attorney. Mauch was given key during luncheon given Tuesday at House of Steak in his honor.

Gas Or Kerosene? Probe Is Launched

Full investigation is being made today by the Sheriff's Office which times the explosion on a "reported" sale of gasoline for kerosene, which is said to have caused an explosion at the Norman B. Robinson residence on St. 426 at the Oviedo city limits.

Robinson states that "both women asked for gas and he sold them kerosene" and was questioned if he wanted high test or regular.

Jones says he has checked and rechecked his tanks and there is no trace of gasoline in the kerosene tank. However, he has called a state inspector to make an analysis of contents of the kerosene tank to determine its flash point before any further fuel is added.

German City Mayor Visits In Sanford

"I have been to San Francisco, but I left my heart in Sanford."

These words came from Elmar Mauch, mayor of Bad Mergentheim, Germany, during an interview arranged by Sanford City Manager Warren E. Knowles and held in the city of Sanford.

Mauch, just concluding a one and one-half month coast-to-coast tour of the United States, and preparing to leave for New York and home to Germany, said he was "impressed" with the hospitality accorded him during his tour and especially during the treatment he received at the House of Steak in Sanford.

Mauch is serving his first term as mayor of Bad Mergentheim, which is located near Nuremberg in West Germany.

First terms there amount to eight years and, according to Mauch, second and third terms are 12 years in length.

Like any good mayor, Mauch spoke of his city with pride and explained the city's 13,300 inhabitants are mostly concerned with health spas, as this city contains lots of mineral springs.

To be a mayor there, Mauch said, you must be 30 years of age, and honest. He quickly explained, this meant you must not have a criminal record. Mayor in Germany are elected at-large and do not belong to political parties, he said.

"You can be mayor of Bad Mergentheim and not be a resident of the city," he added.

Actually Mauch needs no intermediary as he speaks good English, having learned part of it while a prisoner of the U. S. Seventh Army, who captured him on his 18th birthday.

He was held in a POW camp near Paris until war ended, then returned home to enter school, where he later was graduated with a doctor of law degree.

Mauch enjoyed his three-day visit with the William Hutchison and said he liked staying in Sanford rather than hotel quarters.

Hutchison gave a luncheon in "His Honor's" honor yesterday at the House of Steak and Sanford Mayor W. Vincent Roberts presented him with "Key to Sanford," which he proudly displayed with pictures of "his city" to Herald reporter Bill Scott.

Zone Meeting Is Limited

Deputy sheriff is expected to be requested to be on hand at the meeting of the Seminole Planning and Zoning Commission at 7:30 p. m. today to limit the number of persons attending the meeting to 150, the staff load limit for the third floor of the courthouse. Meeting is to take place in the County Commission meeting room.

Attorney Thomas Freeman put the County Commission on notice yesterday that 300 plus persons can be expected to attend the P and Z hearing to present the James Avery property located on Matiland Avenue and Orange Road.

Avery has requested that the tract be rezoned from R1A residential to R3 top permit construction of multi-family dwellings.

Avery over the past several years has attempted to have the tract rezoned claiming that the property can not be used for single family home purposes since it is on a main thoroughfare. Adjoining property owners have insisted zoning of the site be kept in the R1A classification.

Avery's hearing was originally scheduled for Nov. 13 but had to be postponed due to improper legal advertising.

Other matters on the heavy agenda include requests of: Michael Simmonell for change from light industrial to R-3 multi-family dwellings on a 1.68 acre site south of SR 436 and 150 feet west of the intersection of SR 436 and Pine Street.

Francis W. Gay for change from R1A to R-3 on a tract east of SR 436 and west of Breton Wood Subdivision.

A. E. Laird for a change from agriculture to R-3 on a site east of the intersection of Lake Howell Road and SR 436.

Nicholas Karls for a change from C-2 to M-1 light industrial for a tract lying westerly of the intersection of Palmetto Avenue and Pine Street and SR 436.

\$26,000 Bill Given Holiday Isle

By BILL SCOTT

Bombshell was dropped at the Sanford City Commission meeting last night when two lakefront lease holders asked the city to pay the county ad valorem taxes which could amount to as much as \$26,000 if city picked up all county assessed taxes on the Holiday Inn and Monroe Harbour properties.

Hints of possible court litigation came from William Hutchison, city attorney, who advised the commission not to pay the \$22,078 tax charged to the motel by Mary E. Walker, county tax assessor.

Harold Slama, Cuba (Bots) president and director of Monroe Harbour, said his firm objected to paying the \$22,078 assessment charged by county assessor Slama. Slama said it is a public launching pad and his firm receives no revenue from the operation.

All property owners in the city motel property was leased to A. J. Thomas and C. E. Merrill Jr., operators of Holiday Inn, while the marina properties consisting of boat ramps and dry-dock facilities are leased to Monroe Harbour, which is owned by Cuba Bots.

Hutchison said if something could not be worked out with Holiday Inn, it would be his recommendation that city litigate this tax with the motel operator.

Hutchison told The Herald today if city paid the \$22,078 assessed on the motel, then under the present lease arrangement, city would wind up with a deficit and it would be contrary to law.

He added, "A city taxpayer could attack this lease in court and have it invalidated — or set aside."

Hutchison said when the leases were drawn up with the tenants, it was thought the property would not be assessed.

Slama told the commissioners, "We accept the \$7,000 assessment on the personal property at the dry storage bins and other areas, but another \$7,000 on other areas is what we object to."

Hutchison advised the commission, "You have no alternative but to pay the tax on Monroe Harbour but you can sue to get them back."

M. L. Rabara observed, "There are other county properties which are not assessed. Hints of possible court litigation came from William Hutchison, city attorney, who advised the commission not to pay the \$22,078 tax charged to the motel by Mary E. Walker, county tax assessor.

Kirk Selecting State's Lieutenant Governor

TALLAHASSEE, Fla. (AP)—Gov. Claude Kirk, insisting he was the legal right to name a lieutenant governor, said today he will announce a selection for the No. 2 spot in state government "just prior to Jan. 7," the effective date of the new state constitution.

Kirk, in a news conference, issued at least four press releases for the post. He said a special legislative session before April.

—He still feels the state must go to bonding for many projects.

—He does not expect any appointment from Republican President-elect Nixon.

Kirk was adamant in insisting

there's no question about his legal right to name a lieutenant governor, a post created by the new constitution. Such a position is intended for a person who would be the governor's right-hand man and by his representative on official functions.

Asked if he had sought an advisory opinion from the State Supreme Court on the lieutenant governor issue, Kirk said, "I think you ask the court a question in your mind. The governor knows the law. The law allows for the appointment of a lieutenant governor."

Kirk said if Mayor Hall should re-register, joining GOP ranks, he would make an "independent" candidate for lieutenant governor. Kirk said he had no indication Hall planned to do this.

—He would be a Republican, he would definitely be a candidate," the governor said.

—He later part of the news conference, was asked if he had been offered the post. He replied, "No."

Kirk said he felt it would be a little logical to go toward Weir and Mr. O'Neil in the

makers before the regular session in April and said they must find a way for the state to live within its income.

A special session had been rumored for January to change the controversial state inspection law or solve other problems.

But Kirk told a news conference the legislature must have time to organize and start to work. An early session, he said, would be "unfair to the legislature and probably unfair to the people of Florida."

Nixon Names Cabinet Tonite

NEW YORK (AP)—William P. Rogers, attorney general for three years in the Eisenhower administration, will be named secretary of state by President-elect Nixon when he announces his Cabinet appointments to the nation tonight.

Before flying to Washington for a live television-radio appearance to be broadcast by all major networks at 10 p.m. EST, Nixon invited Vice President Spiro T. Agnew to his New York headquarters for an advance peek at the Cabinet roster.

Word of some other Cabinet selections has already gained public circulation.

Gov. George Romney of Michigan, according to informed Republican party officials in Washington, will be secretary of housing and urban development.

Another Republican governor, Walter J. Hickel of Alaska, will be secretary of the interior, according to Alaska's governor, Mike Gravel, a Democrat.

—There were strong reports that Rep. Melvin R. Laird, R-Wis., would occupy the powerful position of secretary of defense.

—Nixon told reporters Tuesday that he would be announcing today a major post for Republican Lt. Gov. Robert Finch of California—but wouldn't say what it was generally believed Finch would wind up as secretary of health, education and welfare.

The president-elect mentioned Finch in announcing a surprise appointment for sociologist Daniel P. Moynihan, a Democrat.

has been a champion of increased voluntary and self-help programs to ease social problems.

Hickel, 46, a millionaire Anchorage hotelman, was elected Alaska's governor in 1966 in his first bid for public office and Republican Gov. Tim Babcock of Montana, defeated in November, were co-chairmen of the Nixon campaign in 12 western states. Babcock had been rumored as a possible secretary of the interior, but Alaska's interest in that department is even greater than that of Montana as an area more than 50 per cent of its land is under federal jurisdiction.

Moynihan, 41, is taking a two-year leave of absence as Harvard and Washington lawyer since leaving the attorney generalship in 1961. He has had extensive government experience but his only formal role in foreign affairs was as a member of the U.S. delegation to the 20th General Assembly of the United Nations in 1963, by appointment of Johnson.

Hospital Buys Blood Count Unit

By BILL SCOTT

Seminole Memorial Hospital trustees Tuesday okayed purchase of a blood count machine and the leasing of a computer among the actions taken by the body at regular monthly meeting.

Trustees approved the blood count unit for a reported \$2,500 and authorized the three-year leasing of a National Cash Register Century computer at a monthly charge of \$2,025, with Medicare paying 40 per cent of the fee.

Computer will replace a \$1,500 month machine now in use and will take from six to nine months to receive, since the unit must be built, Robert Bessinger, hospital administrator, said.

Bessinger said the new machine would give more information faster and among its functions would be medical records, accounts payable and general ledger for the medical facility.

The blood count machine is more accurate than present "hand" method now being done by a technician.

Trustees, in approving the

County Conducts Public Hearings

Eight public hearings were held by the County Commission yesterday to consider rezoning and for adopting new plumbing code.

Other hospital actions included:

- Awarded to Sanford Dry Cleaners laundry contract for a year at low bid of \$25 cents per pound;
- Approved unbranded public liability insurance coverage up to \$1 million;
- Okayed expenditure of \$600 to fund Pine Ledges, Bonita auxiliary annual luncheon;
- Approved study for acquiring a thyroid machine at \$2,000 cost;
- Trustee Chairman Andrew Carraway said the January meeting would include the election of a new chairman.

Slayer Gets Life

JOLIET, Ill. (AP)—Thomas Charles Fuller II, 23, has been sentenced to life in prison for the murder of three brothers and two sisters of the girl he married.

Fuller was sentenced to two consecutive terms of 10 to 99 years. He was brought from the Cook County Jail to the Illinois State Penitentiary at Joliet later Tuesday and will be transferred to Stateville penitentiary.

With time out for good behavior, Fuller could become eligible for parole in 23 years.

Judge Harry T. Hannab of Circuit Court in Cook County denied a plea by the prosecution that Fuller be sent to the electric chair.

"The nature and enormity of the crime demand that the defendant receive a substantial penalty," Hannab said.

In passing sentence, Judge Hannab said two separate crimes had been committed, which brought about the consecutive sentences.

Three sons of Mr. and Mrs. William C. Deason, 30, have been trying to become reunited since 1964 when Deason was ordered to leave Russia three weeks before they were two later inside the corn crib.

Shooting Continues On Jordan

TEL AVIV (AP)—Shooting continued across the Jordan River today as former Gov. William W. Scranton flew home to report to President-elect Nixon on the Middle East. He said he was impressed with the "desire of the leaders of most of the countries" to achieve a peace settlement.

An Israeli army spokesman said an Israeli border patrol came under machine and light arms fire in the Beit She'an Valley. The Israelis returned the fire, but no casualties were reported. Jordan claimed the Israeli fired first and said its troops suffered no casualties.

Scranton said on Tuesday he was more encouraged about prospects for peace in the Middle East than when he arrived in the area last week.

"The main reason for this," he said, "is that I have been impressed with the fact every leader that I talked to wishes for a peaceful settlement of the situation here."

"Frankly, before I came I was not convinced that was true."

During his election campaign Nixon said he favored providing Israel a technological military margin to offset the Arab's numerical superiority. Asked if he would endorse that statement on the basis of his tour, Scranton noted that Nixon had qualified his statement to specify such as "long as there was a direct and imminent threat to Israel."

"Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist... alas, how dreary would be the world if there were no Santa Claus; it would be as dreary as if there were no Virginia."

Virginia Recalls

DOUGLAS, N.Y. 79 years old still fondly remembers the letter she wrote as an 8-year-old asking an editor if there really was a Santa Claus.

Referring Tuesday to the "Yes Virginia" editorial which appeared Sept. 21, 1967 in the New York Sun, Mrs. Douglas now with great grandchildren, told an inquirer: "I hope you read the editorial carefully. The older I get the more I appreciate its philosophy."

Her letter of long ago asked: "I have written to you about the existence of Santa Claus. Please tell me the truth."

The reply, written by the late Francis P. Church, said in part:

"Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist... alas, how dreary would be the world if there were no Santa Claus; it would be as dreary as if there were no Virginia."

LONDON (AP)—Eleanora Gimsberg, 39, of Moscow has written to U.N. Secretary General U Thant asking him to help her marry her British fiance.

Her letter was posted in London by her fiance, Derek Deason.

Miss Gimsberg says in the letter that she and Deason, 30, have been trying to become reunited since 1964 when Deason was ordered to leave Russia three weeks before they were two later inside the corn crib.

County Goes To The Dogs

Seminole County went into the dog pound business at the old Humane Society building on county property near the road department office by five public yesterday with authorization to County Engineer Van Robbin to house dogs there under the rabies control law.

A resident of same time, Robbin was instructed to re-write rules under which the rabies control program is functioning, eliminating references to the sheriff's department and the Humane Society.

Robbin estimated there would be need to impound 25 to 30 dogs a month under the program. Unlicensed dogs which have not received rabies shots would be kept at the pound.

There are already three dogs at the facility.

County Commission Chairman John Alexander reported that the Humane Society did not receive sufficient public support for its program.

It has been pointed out that the county's program is not similar to that of the Humane Society in that unlicensed animals will not be housed for principal purpose of adoption.

County Goes To The Dogs

Seminole County went into the dog pound business at the old Humane Society building on county property near the road department office by five public yesterday with authorization to County Engineer Van Robbin to house dogs there under the rabies control law.

A resident of same time, Robbin was instructed to re-write rules under which the rabies control program is functioning, eliminating references to the sheriff's department and the Humane Society.

Robbin estimated there would be need to impound 25 to 30 dogs a month under the program. Unlicensed dogs which have not received rabies shots would be kept at the pound.

There are already three dogs at the facility.

County Commission Chairman John Alexander reported that the Humane Society did not receive sufficient public support for its program.

It has been pointed out that the county's program is not similar to that of the Humane Society in that unlicensed animals will not be housed for principal purpose of adoption.

Slayer Gets Life

JOLIET, Ill. (AP)—Thomas Charles Fuller II, 23, has been sentenced to life in prison for the murder of three brothers and two sisters of the girl he married.

Fuller was sentenced to two consecutive terms of 10 to 99 years. He was brought from the Cook County Jail to the Illinois State Penitentiary at Joliet later Tuesday and will be transferred to Stateville penitentiary.

With time out for good behavior, Fuller could become eligible for parole in 23 years.

Judge Harry T. Hannab of Circuit Court in Cook County denied a plea by the prosecution that Fuller be sent to the electric chair.

"The nature and enormity of the crime demand that the defendant receive a substantial penalty," Hannab said.

In passing sentence, Judge Hannab said two separate crimes had been committed, which brought about the consecutive sentences.

Three sons of Mr. and Mrs. William C. Deason, 30, have been trying to become reunited since 1964 when Deason was ordered to leave Russia three weeks before they were two later inside the corn crib.

Shooting Continues On Jordan

TEL AVIV (AP)—Shooting continued across the Jordan River today as former Gov. William W. Scranton flew home to report to President-elect Nixon on the Middle East. He said he was impressed with the "desire of the leaders of most of the countries" to achieve a peace settlement.

An Israeli army spokesman said an Israeli border patrol came under machine and light arms fire in the Beit She'an Valley. The Israelis returned the fire, but no casualties were reported. Jordan claimed the Israeli fired first and said its troops suffered no casualties.

Scranton said on Tuesday he was more encouraged about prospects for peace in the Middle East than when he arrived in the area last week.

"The main reason for this," he said, "is that I have been impressed with the fact every leader that I talked to wishes for a peaceful settlement of the situation here."

"Frankly, before I came I was not convinced that was true."

During his election campaign Nixon said he favored providing Israel a technological military margin to offset the Arab's numerical superiority. Asked if he would endorse that statement on the basis of his tour, Scranton noted that Nixon had qualified his statement to specify such as "long as there was a direct and imminent threat to Israel."

"Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist... alas, how dreary would be the world if there were no Santa Claus; it would be as dreary as if there were no Virginia."

Fiancee Bids Aid Of UN

LONDON (AP)—Eleanora Gimsberg, 39, of Moscow has written to U.N. Secretary General U Thant asking him to help her marry her British fiance.

Her letter was posted in London by her fiance, Derek Deason.

Miss Gimsberg says in the letter that she and Deason, 30, have been trying to become reunited since 1964 when Deason was ordered to leave Russia three weeks before they were two later inside the corn crib.

COCOA, Fla. (AP)—When Duke look around in the mail room.

The California Academy of Sciences owns among other things, about 3,600,000 insects and 1,600,000 fossils.

Geiger, meanwhile, wasn't talking.

However, Delvord Sheriff Leigh Wilson had plenty to say.

"When a dog can do your job better than you can," said the sheriff, "that's something to be concerned about."

Wilson admittedly was irked by the adverse reaction of postal officials to the visit by narcotics agents and Duke, pride of the Narcotics Division.

"They asked us to come over and look around and we did," Wilson said. "If they don't want us to come again that's fine with me."

However, in Atlanta, Callahan said he understood that Wilson's agents—tipped that Wilson's agents—was being sent to Cocoa Beach—had approached Geiger with the suggestion that

Nixon's TV Spectacular: Must Viewing!

We advise all of our readers to tune in on TV to watch a presentation by President-elect Richard M. Nixon which will be of the highest importance in its own right but could well be even more instructive in what it implies.

We refer to the public announcement by the president-elect of his choices for cabinet posts and the decision of himself and his advisors to use the formality of a television spectacular for this purpose.

But there is no reason to conclude that it is a last! Those of us who are in the profession of journalism—written and spoken words and electronic pictures—have been watching a new approach to informational means which already has stamped the Nixon administration as unique.

Every president and every major presidential candidate has put his personal stamp on the mass media. From the rolling phrases and ear-filling tones of William Jennings Bryan, through the era of TB's flashing teeth and shrill voice, into the FDR adoption and use of radio's "fireside chat" and the mastery of

Merchandising

There is a difference between protecting consumers from fraud and misrepresentation in the marketplace and seeking laws aimed at dictating to merchants how they should run their businesses. Not long ago, the Consumer Advisory Council recommended passage of a law requiring stores offering trading stamps to give customers a choice of cash or stamps.

denial Richard Nixon felt the same unveiled hatred in lesser surges. When the long New York teachers' strike finally ended, it left in its train a terrible tangle of exposed and enlarged hatreds.

Remarkably, a male teacher looked into a television camera and said he thought this was good—that it was a letter for all concerned, Jews, blacks, teachers, pupils, parents, administrators, to lay these animosities bare.

He was not the first ever to utter such a view. Far more celebrated Americans have suggested that hatred is best dealt with when held to public gaze.

But the whole bent of mankind's civilizing impulses is strongly the other way. The processes of a working society are those of accommodation among people of differing origins and conflicting attitudes and views.

Given the differences which grow from racial, cultural, educational, economic and other variety in the make-up of any human society, accommodation is always a recurring miracle of delicate and difficult achievement.

It is a fantastic notion that this vital miracle is somehow assisted by the opening of great wounds in the human spirit. Once the gash is made, it can be a long time healing, if it heals at all.

This reporter, like many others who observed the 1968 presidential campaign, continues to be convinced that the only way to end, now the surface and the subliminal of hatred exhibited many times.

Waves of ugly animosity broke against a hologramed Vice President Humphrey in the first weeks of his campaign. Toward the close, Presi-

New Teeth in Labor Laws?

By RAY CROMLEY, NEA Washington Correspondent. WASHINGTON (NEA) — Whatever floss he may use to avert a claim, Mr. Nixon is a president in a head-on confrontation with the top men of organized labor.

The signs are clear that Nixon would like to avoid a fight. He would like to be known as a president who reconciled labor, management and government. But in a very real sense he may be doing the opposite.

There is a strong feeling, among some of Nixon's men at least, that the Fair Employment Practices Act must be amended to give government employers full human rights were being violated.

There is a strong feeling, among some of Nixon's men at least, that the Fair Employment Practices Act must be amended to give government employers full human rights were being violated.

President Johnson had waged a prior crusade—which was not followed. They therefore made him no enemies in the labor union as well as with employers. These Nixon men believe that in some fields of employment it is possible to make it exceedingly difficult for Negroes to enter trades in major metropolitan areas.

But stronger barriers against strikes likely to do great harm to the public would not be limited to government employees. The changes in law would also be aimed at strikes that would tie up the docks of major cities automatically, that would reduce water and power supplies seriously or dangerously curtail the movement of goods by rail or truck.

To effect these restraints, Nixon and his advisers favor greater use of arbitration for government employees. Nixon is determined to propose legislation to insure the participation of federal employees in the formulation and implementation of personnel policies directly related to their employment.

The proposed law would spell out procedures to insure that absence of suitable labor practices would be heard by an independent group. It would also provide independent machinery for resolving disputes between government employers and labor unions as well as with employees. These Nixon men note that in

Remembering Most Important

By GEORGE W. CRANE, Ph. D., M. D., D. Z. was president of his dental society. He had invited me to Indianapolis for a discussion of medicine and dentistry before the members of the American Dental Association.

Dr. Z. asked me to include some advice on how to remember names and faces. For he said he had been working hard to get through with his last patient at 4:45 in the afternoon, since he was due to meet Mrs. Z. downstairs at 5 P.M.

He shifted to his suit coat and took the elevator. Then he walked over to the perfume counter where he had promised to wait for his wife. An attractive sales girl came over and asked: "Dr. Z. is there anything I can do to help you?"

He shook his head, saying that he was just there to meet his wife. Then he inquired, "But how did you know my name?" "Eyes widening in amazed surprise, the sales girl protested: "Why, Doctor, I just got out of my dental chair 5 minutes ago!"

She was that last patient. "And, Dr. Crane," he went on, "she had other dental work that needed to be done, yet she has never come back to my office, and it has been over two years!"

So that's why Dr. Z. wanted more stress on remembering names and faces! Also, many doctors of medicine and dental surgery may identify their names on an on-call basis, or even if a woman who has a friend, Robert L. Stevenson, English

Some doctors may not be able to recognize patients on the street. For in past years we have taught and practiced "organic" medicine and dentistry before the members of the American Dental Association.

Then utter the name, as by saying, "Glad to meet you, Mr. Knight." Quickly repeat the name as if introducing the stranger to somebody else. Also, make it a rule to state the name aloud at least 3 times at the outset.

Then conjure up visual imagery, as by "viewing a picture" in your mind. If the stranger is full of energy, if the stranger is named John S. Knight.

That night, have a contact with your mate to one who can write down the most names of newcomers at the party or church affair.

Take Tip From The Partridge

LONDON (AP) — In Christmas shopping for the man or woman who has everything, you have about taking a tip from the parrot in a bear tree.

According to "The Twelve Days of Christmas," the bird song dealing with the time between Christmas and Epiphany, the "true love" songbird provided the partridge the tree and in the English version—these oddities.

Two "turtle doves," three French hens, four colts, five gold rings, six geese, seven swans, eight maids, nine drummers, 10 pipers, 11 dancing loaves and 12 lords, sleeping.

By investment or invigilation you can get all this stuff in London today. Partridges, albeit dead, can be had for \$4.20 a brace, meaning you can give one to your live and eat the other. A pair of pear tree will set you back \$7.76 to \$11.72 depending on size.

Turtle doves are priced according to age, but two mature ones cost three pounds or \$7.56. French hens, however, are raised in England, too, for \$4.99 and up.

You may not recognize the colts, birds in the "twelve days" of the "Frisette Book of Folk Songs" uses the term "colts" and makes a few other changes in the sequence of the gifts. In England colts are common birds, they are protected by law and no store can sell them, but one worth his salt could find the keeper is off for his afternoon tea.

Next on the list are five gold rings. At one store they range from \$14 to \$16 each. Pink-foot geese are \$14.00 each, or you can get the common white variety at half that.

Swans come a little higher. To keep up with the song you need seven. They are going at \$12.94 a pair for black ones, or \$16 each for white. The British buy them to swim in the moats of country mansions.

Milkmaids are not available at such stuporously as Harrod's. But the National Farmers Union reports a few still work in Britain. The average wage for farm workers is 98 cents an hour, including overtime.

FLORIDA MURDERED

WISCONSIN, Maine (AP) — The selection of a jury continues today in the superior court trial of Howard Land Jr., 36, charged with murdering Jane L. Kennedy, 21, of Pinellas Park, Fla. Her body was found near the cabin she shared with Kennedy. Police said she was killed last June 13 with a shot from a .22 caliber rifle. The couple had lived in the rented cabin less than a month.

A year-old boy with the couple was turned over to state welfare authorities. SKI HELP — India has called on the United Nations to provide an expert who will help develop Kashmir's budding ski industry.

The hardest part of writing this column is to feature as many different bowlers and their achievements... without repeating too frequently.

So, today we'll be reviewing the happenings from the Toyota Mixed, Sandra Fashions, Community United Methodist Church, Unprofessionals, Ellnor Volkswagen, HJ Noomers, Deanna Pin Busters, Adeco Home Improvement, Jet Bowlers, City and the Bantams League. (That is, if we don't run out of space first.)

Appreciate the note from Vle Levitt, secretary of the Tuesday evening Men's Bowling League... you welcome Bill Heberty back into our league?

Talking about people going around with big smiles on their face reminds me to play Rich "Slingshot" Murphy for his 300 series. Lundquist Fires 28 Seminoles Roar Past Lyman Five, 74-53

Just Not Hounds Night Out

Despite Lyman's persistent defense and rushed offense headed up by Chris Butterworth and Larry Cole, the Seminoles High Seminoles, the Greyhounds intra-county rival, sped past Lyman in a hard fought match, 74-53.

The first quarter was the first period and the Seminoles kept this lead throughout the contest. The Greyhounds enhanced the second period with the assistance and drive they are known for by outscoring the Seminoles, 19-17. But this didn't hamper Seminoles Coach Joe Miller's five and following the half they shot right back with Lundquist 100 per cent shooting to a 57-41 lead over the Greyhounds.

Top scorer of the game was Lundquist with 28 points followed by Lyman's Butterworth with 15 points. Rick Fordham, both pulled in 15 points for their squads.

The Lyman capers decked out their new uniforms and played a tough game as did the fast moving Seminoles. The Greyhounds now have an 0-2 record so far in the young season.

Refresh on the court from football were Lyman capers Rick Brown, Mark Dowell, Tom Dowell, Tom Pincock, and Greg Stiles.

Bonavena Withstands Barrage...

Joe Frazier Holds On To Heavyweight Title

By RALPH BERNSTEIN

Associated Press Sports Writer
PHILADELPHIA (AP) - Joe Frazier retained his five state heavyweight title, but his failure to knock out or even edge Oscar Bonavena Tuesday night rubbed some of the glamour off the unbeaten champion.

There was no doubt that the 24-year-old Frazier tried every punch in the book to try and knock out or even edge Oscar Bonavena Tuesday night. He obviously was fired from the longest and apparently toughest of his 23 fight career.

The strong jawed challenger, a bull of a man with heart to match, left the ring with both eyes almost shut and blood jingling from cuts about the eyes. His nose was red and he looked a loser.

The 26-year-old Bonavena did not protest the verdict that deprived him of a chance to lift the title.

Bonavena has some problem with locating his punches in the leg area. Four times he was warned by referee to stay out of his blows and he had the eighth round taken away for hitting below the belt, said Durham, trainer of Frazier, felt Sweeney was too timid, didn't warn or penalize enough.

Frazier's record now is 23-0 with 17 knockouts, and Bonavena's 36-5 with 7 knockouts. Watching the fight was Casius Clay, considered champion in many parts of the world despite his Selective Service prohibition.

Frazier's five state title - New York, Massachusetts, Pennsylvania, Illinois, and Maine. "I thought the fight was closer than the decision," he said. "It is not the master. I'm satisfied with the decision but disappointed."

Bonavena confirmed the fight he fought - his back to the ropes attempting to beat off the divot Frazier with counterpunches - when he observed, "I was looking for enough room to set in one good shot. But Frazier was crowding me and I couldn't find my way."

The 31 favored Philadelphiaite weighed 203 and Bonavena 207 for their second meeting in two years.

Although Bonavena once again won the distance with Frazier - only one other fighter has managed this - the Argentine couldn't duplicate his two knockdown feat of the losing fight.

Elvin Hayes

Dick Barnett scored five straight points in the fourth quarter to put the Knicks ahead of Phoenix to stay 103-99. In a game that followed the San Diego contest in New York, the big gun for New York was Willis Reed, with 35 points, Gail Goodrich scored 29 and Dick Van Arsdale 29 for Phoenix.

Lon Hudson's 11 points in the final quarter keyed Atlanta's victory over San Francisco. Hudson finished with 22 points and teammate Zelmo Beaty added 22. Jeff Mullins led San Francisco with 25.

Hayes scored 29 points, Kojak 20 and Elvin Hayes 20 Tuesday night as the Rockets whipped the Philadelphia 76ers 121-120 for their 14th victory of the season, just one less than they won all last season.

The Rockets, who also have lost 14, are in second place in the Western Division five games behind the Los Angeles Lakers.

In other NBA action, Baltimore moved into first place ahead of Boston in the East by lopping the Celtics 118-101, Cincinnati walloped Milwaukee 107-84, Chicago trounced Detroit 106-85, New York overcame Phoenix 111-106 and Atlanta took San Francisco 111-100.

Oakland threatened Houston 137-116, Dallas doused Denver 107-101, New York topped Indiana 117-102 and Minnesota beat Miami 112-108 in the American Basketball Association.

Hayes scored 17 of his points in the fourth quarter, and four of them came after Philadelphia had closed to within four points. Hal Greer led Philadelphia with 24 points, and Chet Walker added 21.

Baltimore started its move into first place when Ray Scott came off the bench to score 16 points in seven minutes. In the opening period as the Bullets opened up a big lead and held on.

Earl Monroe topped Baltimore scoring with 23 points, and Kevin Lusk got 21. Jim Barnes led Boston with 19.

Cincinnati jumped to a 34-2 first-quarter lead and coasted past Milwaukee behind Tom Van Arsdale, who scored 33 points, and Oscar Robertson, who scored 31 and got 10 assists. Jon McGlocklin led Milwaukee with 20 points.

Jerry Sloan scored 19 points and grabbed 24 rebounds and Jim Washington scored 17 points in leading Chicago over Detroit, which got 18 points from Eddie Miller.

San Jose, Calif. (AP) - Lou Blumling, coach of the Ohio Valley Ironmen, has been named Coach-of-the-Year in the Continental Football League. Commissioner Danny Hill announced today.

Blumling took over a team that had lost 35 of 42 games in one game of the CFL. Atlantic Division title with a 3-3 record.

Sonny Liston

Liston weighed 215. Lincoln Liston-high on the comeback trail-buried what may have been the last barrier to getting a crack at the crown again by knocking out Amos "Big Train" Lincoln Tuesday night.

The 36-year-old boxer made no bones about it. He's ready and eager to take on Joe Frazier, who successfully defended his five-state heavyweight title against Argentina's Oscar Bonavena in Philadelphia Tuesday night.

An untired Liston led newsmen after flattening Lincoln in 1:46 of the second round that he wants to win back the championship and "put boxing back on its right feet."

Liston won the heavyweight crown from Floyd Patterson on Sept. 25, 1962 and lost it Feb. 25, 1964 to Cassius Clay.

Middies Fall Ocoee Cardinals Rip SNA, 63-42

By WADE HANCOCK

Herold Sports Staff

The cool weather seemed to be forgotten last night as the Ocoee Cardinals warmed up and topped the Sanford NAVAL 63-42.

Although the Jackets are guard Jim Starkey proceeded to swish 17 points, no-one else could seem to keep his hands on the ball long enough to shoot.

The Middies went to Ocoee looking for their third win of the season, but came away still looking. This evening top scorers were Jim Starkey with 17 points and Ollis Wilson, the Ocoee quintet was led by Mike McGuire who dunked in 33 points to pace the Cardinals.

The Cardinals didn't seem to miss as he hit from all over the court to plague the Middies.

The coldness outside must have kept the Cardinals warm inside as they kept the backboards hot with both their fine shooting and good rebounding.

Even though smaller and less experienced than the Cardinals, the Middies put together a valiant effort to try and keep the point gap from widening. Almost every time the Middies brought the ball down the court an alert Redbird defender would swoop in and steal it.

The Oviado Lions fell prey to the Mustangs Tuesday night as the visiting Merritt Island quint galloped to a 48-40 win over the Lions.

In the varsity contest, which was an instant replay of the preliminary match, the Lions fell to the Mustangs in a disorganized tilt.

Both teams were having so many turnovers that the ball stayed free most of the game. Alonzo McKeever, the Lions' 6'11" center and Ollis Wilson, the Lions' key forward helped considerably to make things tight all the way with the Mustangs.

As McKeever racked up 11 points and also took rebounding honors while Wilson had 12 points to his credit.

Both of the Lions did a fine job, along with Herbert Washington who sunk in 11 points to add to the Lions 40 point tally.

For the Mustangs, Greg Meyer, Mike Lester, and Mike Gibson all helped the Merritt Island team point wise, as Meyer popped in 15 markers followed by Lester with 12 and Gibson with 10.

Grass Racing Hialeah, Fla. (AP) - More emphasis will be placed on grass racing at Hialeah Park next winter. The value of the Bougainvillea at 1-18 miles on the infield turf course has been doubled to \$20,000. The Columbia for fillies and mares has been changed from the main dirt track to the grass.

Problems Of Inflation Pondered

WASHINGTON (AP) — Differences of opinion have developed among some business and congressional figures about means of dealing with the problem of inflation in the nation's economy.

Influential legislators say only restrained government spending and continued high taxes can retard the spiral.

But businessmen say the inflation can't always be cured by laws and government action.

A host of economic indicators have pointed recently to inflationary trends.

The government announced last month living costs rose six tenths of one per cent, the biggest jump in six years.

Government economists expect the rise for the year to be the biggest since wage-price controls were instituted during the Korean War.

Dr. S. L. Roth, director of research for the National Consumer Finance Association, estimated annual income will rise 7 per cent next year, but 4 per cent will be consumed by price increases.

Retailers say sales are up 8 to 10 per cent this year, despite the 10 per cent income surtax and a consumer price level that had risen 4 per cent by October, compared to a 3.1 per cent rise in all of 1967.

Economists say much of the difference apparently came from savings. The savings rate dropped from 7.8 per cent before enactment of the surcharge to 4.25 per cent by September.

Dr. Michael Semmler, chief economist of the National Association of Home Builders, said the price increase—like the jump in median prices for homes from \$20,800 to \$25,400 in four years—apparently has convinced consumers buying now will save them money in the long run.

Nahon said he sees little chance for keeping next year's federal budget below present levels. It supports extension of the surtax scheduled to expire June 30.

"I'd rather extend the surtax than to have an unexpected high deficit," he said.

Schools' Task Is To Create Independent Person

SCHOOL SUPT.-elect John Angel and Mrs. Angel with daughter, Jacqueline.

By DINNA ERTEN (Second in a series)

"One of the primary tasks of schools is to create an independent person — independent both academically and spiritually," John Angel said today as he looks forward with a great deal of anticipation to taking over the reins of the public school system in Seminole County on Jan. 7.

"The only way to accomplish this goal is with a school program that has the type of people, principals and teachers, who are dedicated to this principle and a community that is in accord with us."

No one would have taken bets that John Angel could possibly win election as superintendent of public instruction when he announced his intention to run as a Democrat for the post last Spring. His opponent, a gubernatorial appointee filling the unexpired term of R. T. Milwee, in a few short months in office had built up a following of parental admirers and created exceptionally good public relations.

Talk at the time of the appointment was that Angel could have had the post if he would have consented to change his political party.

"I wanted to do a job and I was familiar enough with the people and the situation in Seminole County that I could offer the type of leadership needed to give us the kind of school system we still humbly, courageously and respectfully demand."

He attributes his victory to his years of experience in the Seminole County school system.

John Angel moved to Seminole when he was two years old, attended Rutledge School, Westside Grammar, Sanford Junior High School and Seminole High School of his former classmates from March Cleveland Jr., B. Joseph Davis Jr. and Douglas Stenstrom to Hugh Carlton, Harry Lee, Rinky Pile and Charles Park have become pillars of the community.

Angel did not begin his higher education with the thought of going into teaching.

He planned to become a chemist in private industry, following receipt of his degree in science from Station. As he puts it, "to eat during the interim" he took a temporary teaching position in Meritt County High School in Statesboro, Ga. He is devoted to education and has dedicated his life to it. He is a "believer" in strong discipline, tempered with humility, courtesy and respect.

"My philosophy demands that I treat children with these things in mind," he said.

He looks toward the time when first, second and third grade teachers are given a reasonable number of students to be responsible for so that the youngsters can be prepared in the basic skills with reading particularly emphasized. He feels this may be one of the answers to future drop-out problems.

"If a teacher has 35 students in a class, some are going to get little attention or all are going to receive less than what they should have," Angel, his wife Dore and daughter, Jacqueline, a student at Sembole High School make their home at 1815 Palmetto Avenue in the City of Sanford. Their son John Jr. makes his home in Chicago. The Angels will celebrate their 22nd wedding anniversary this month.

"I'm looking forward with a great deal of anticipation to Jan. 7," he said. "This is the most exciting thing that ever happened to me."

Nixon Nixes Rock

ALBANY, N. Y. (AP) — Gov. Nelson A. Rockefeller had hoped for a post in Richard M. Nixon's Cabinet, but no direct job offer ever was made, informed sources reported today.

Persons closely attuned to the post-election maneuverings between Rockefeller and the President-elect said the main reason Rockefeller was not taken into the Cabinet apparently was that Nixon did not want him.

"The governor dropped a lot of hints that he was available, but he was too proud to ask," one such source said. "Nixon simply did not want to take the hints."

At one point, during a face-to-face talk between the two erstwhile rivals for the Republican presidential nomination, Nixon made what one source described as "a passing reference" to the United Nations ambassadorship.

But, the source said, this came at a point when they had agreed that Rockefeller could give the strongest support to the new GOP administration by continuing to serve as governor of New York. Therefore Rockefeller did not regard this as a job offer.

As Nixon prepared to announce his Cabinet selections, the public postures of the two men regarding Rockefeller's omission from the list have been carefully set.

Rockefeller has said and will say that he really desires the job.

NEW YORK (AP) — An American Express Co. report says seven million Americans lost \$2 billion in cash through fire, theft or loss over a 12-month period. It said carelessness was the primary cause.

Mobile Mourns

MOBILE, Ala. (AP) — Today was a proclaimed day of mourning in Mobile as a protest by city officials against an Alabama Supreme Court ruling that the controversial film "The Fox" could be shown here.

Flags were flown at half staff and black ribbons adorned the doors of City Hall.

Mayor Lambert C. Mimms said the court's ruling was another slap at local government in that it nullified a city ordinance against the showing of obscene movies.

"The Fox" portrays a lesbian relationship.

God Says OK

NEW YORK (AP) — The Rev. Canon Michael Hamilton of the Episcopal Washington, D.C., Cathedral, told a recent seminar that he saw no theological reasons why organ transplants should be considered unethical.

"God gave man dominion over his environment and by implication over his body," he said.

Romance Of Words Gave Education, Entertainment

GREAT TALKER—Dr. Rowland M. Myers, biographer of words and speaker at "The Romance of Words" presentation of the Seminole County Mutual Concert Association last Wednesday night at the Civic Center, started afterwards to chat with audience members Mr. and Mrs. Ralph Smith and Mrs. Fred Kirshner. (Herald Photo)

"Oh, Dr. Myers — you simply MUST be in our directory," the woman gushed. "It's going to have EVERYONE in it. It will be the most full-time directory compiled!"

"What she didn't know," continued Dr. Myers, recalling the incident, "is that 'full-time' means stinking — revolting — NAUSEATING!"

"This anecdote was only one of the entertaining instances of our changing language cited by Dr. Rowland M. Myers whose talk, "The Romance of Words," was a presentation of the Seminole County Mutual Concert Association last Wednesday evening at the Civic Center.

"Our language is constantly changing," he observed. "It upsets most people — they don't like it."

"Even though they may object, words are constantly changing in meaning or form. How?"

"Most of the time it is very gradual," he continued. "The most interesting way a change takes place is when the human element comes in — when people are not sure of the meaning or pronunciation."

"When they are confronted with unfamiliar words and symbols they have a tendency to turn them around to a more familiar form." This device is used all the time by children and often — deliberately — by comedians.

"But this kind of change doesn't last long — only when everybody does it" does the language change.

Dr. Myers, billed as a biographer of words, kept the audience of over 350 amused the entire hour with some of the more ridiculous misuses of words — misuses which may soon or have already become permanent.

After telling about the misuse of "full-time," he recounted some other instances. One is "normally," used by television commentators to mean "enormousness," really means "monstrous wickedness, a violation of normal decency."

"Disinterested," meaning "free from selfish motive," is used when "uninterested" is meant, and "preventative" is used instead of "preventive." There is no such word as "preventive" — yet.

"Others which have already changed are 'nice,' which used to mean stupid, 'which used to mean shy,' 'silly,' which meant holy, blessed, and 'hussy,' which meant housewife.

"From one point of view, ours is the crasiest language in the world, and that is SPELLING.

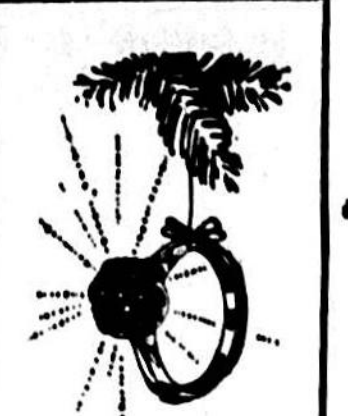

"English is the only language in which you can have a spelling bee, the only one in which spelling is so silly that it can be made into a game — that you can put children up on a stage and give a prize to the one who can crack the code!"

Gardeners Plan Christmas Meet

The monthly meeting of the Inara Garden Club will be held on Friday, Dec. 18, at 9:30 a.m. in the home of Mrs. John T. Johnson, with Mrs. William Tapp and Mrs. B. W. Bartholomew as co-hostesses.

Mrs. Jimmy Twillinger will give the program entitled "Mark the Angels Sing."

EASY STUMP REMOVAL
An easy and economical way to remove an unwanted tree stump on your property is to burn it away with a few charcoal briquets. Less than a dollar's worth of briquets usually are sufficient to burn away an average size stump.

FOR MARRIED MEN ONLY
Many of you wouldn't attend a diamond ring show you got married. And most of you can't afford one.

Now, this Christmas, surprise her with the diamond ring she has wanted for all those years. It will say every word you want to say... better than you can say it.

But don't breathe a word! Come in. We will help you pick a beauty. At the price you want to pay. Now!

The dedication of the plaque will be held at 1:30 p.m. Tuesday, Dec. 17.

Chuluota Club News

By LIZA BAKER
The "Kait-Wita" held their weekly meeting Thursday, Dec. 5 at the home of Mrs. Leo Austin.

Enough material was purchased to make sixteen men's mums, all to be made in a size 20, which will be presented to the Sunland Hospital.

Plans were made to exchange their Christmas gifts at the next meeting to be held at the home of Mrs. Joseph Gordon on Thursday, Dec. 12.

Luncheon was prepared by Chef Leo Austin, with the menu consisting of chicken à la king with homemade rolls, cake and coffee.

The luncheon table was overlaid with a cream colored lace cloth, the center adorned by a golden vase holding an arrangement of pink flowers.

The nine members participating at the meeting and luncheon were Mrs. Earl Evans, Mrs. Joe Hojas, Mrs. Edwin Knight, Mrs. Joseph Gordon, Mrs. Glen Shupe, Mrs. Albert Scott, Mrs. Howard Burgess, Mrs. Frank Goodwin and the hostess, Mrs. Leo Austin.

TO MARRY—Mr. and Mrs. R. N. Raymer of Winter Park announce the engagement and approaching marriage of their daughter, Connie Sue, to Charles R. Newell, son of Mr. and Mrs. Robert Newell of Forest Drive in Altamonte Springs.

Miss Haymer, born in Royal Oaks, Mich., is a 1967 graduate of Lyman High School and a graduate of Palm Beach Junior College. While at Lyman, she was a member of the Spanish Club, where she served one term as secretary. The bridegroom-elect was born in Northampton, Mass. A graduate of Lyman High School and of Seminole Junior College, he was on the basketball team at both schools. He is employed at the American Wood Products Company, Mr. and Mrs. R. Moser and Mrs. Mildred Raymer are the grandparents of Miss Haymer, Newell's grandmother, Mrs. Grace Bowker lives in Altamonte Springs. They have chosen Dec. 21, at 2 p.m. at the Casselberry Methodist Church for their wedding date and place.

Have A Ball With Swingy Ball Fringe

Now, at the drop of an invitation, you can make party jewelry that will catch every eye in the room—with ball fringe. And because ball fringe comes in so many shades, you can color-ize it to any costume.

Directions for making a necklace (in this case in shades of pink and red) from the current Family Circle magazine call for 2 dozen medium-size red beads, 4 dozen small-size red; 2 dozen medium-size bright pink; 4 dozen small-size pink; 4 giant-size pink; 11 large red beads and 2 small ones.

To make the basic necklace, start by securing one end of a 24" piece of nylon or button-hole thread to a section of the clasp.

Thread the other end and string a small red ball, then a small bead; follow with 4 medium red balls, 4 giant pinks, and 4 medium reds, with a large bead between each ball.

End with a small bead and

The idea is to create a chunky effect in the middle of the necklace.

For earrings: To make each one take 1 1/2 inches of pink tape and 1 1/2 inches of red ball fringe on its tape; align both ends of tapes with both sets of balls on one side.

Glue ends together with white glue. Wind both lengths of tape into a tight circle with the shorter length inside, dabbing a small amount of glue to secure each wind.

After final wind, glue and secure in place, then glue ear-wiring clasp to back. Repeat for second earring.

WELCOME—Mrs. Morris Ferguson of the Mutual Concert Association was at the door to greet guests such as Mrs. F. D. McCollum who braved winter winds for the concert presentation and art exhibition by students of Lyman, Crooms, and Orviedo High Schools.

Carol Swaggerty Honored

By LIZA BAKER
A miscellaneous shower was held in the Assembly Hall at the First Baptist Church in Chuluota Friday evening on Dec. 6, given in honor of Miss Carol Swaggerty by the women of the Church.

Miss Swaggerty will marry Danny G. Snider on Jan. 4 at the church.

Many lovely gifts were placed on the gift table centered with a floral arrangement of glad-joles.

Refreshments of punch, homemade cookies, mixed nuts, chips and dip, and coffee, were served to Mrs. Phyllis Ballard, Mrs. Cecene Williams, Mrs. Charles Swaggerty, Mrs. Dorothy Lane, Mrs. Beverly Wil-

New Treats For Cook-Outs, Cook-Ins

For young marrieds and the chef who never put apron, cook's hats and barbecue briquets in winter storage, here is a new taste treat.

The originator calls it "Meat and Cheese Stacks." It is an ideal recipe for grilling over the coals in a fireplace or portable grill set in a ventilated area.

Meat and cheese stacks are neither sandwich nor meat pie. Cooked inside or outside on a grill, they consist of a refrigerated, sliced, crust with a gooey, meat filling.

The filling is actually alternating layers of sliced cold meat and cheese stacks.

Wants To Be A Fixer - - Automotive Type

Miss Lain awards a Mercury portable, courtesy of the Royal Typewriter Co., to Sherman Walker Jr., Valparaiso, Ind., for his question: "I would like to know which would be a better life time job - an automobile mechanic or a body repair man? And could you give me some ideas on who to write to?"

A - I'm not trying to duck your question, but it's important that you realize no body can back-seat drive you to a lifetime job guarantee. About forecasting the future, Henry Ford II said it well: "The best we can do is size up the chances, calculate the risks involved, estimate our ability to deal with them, and then make our plans with confidence." With this perspective, and keeping your own desires and abilities in mind...

LOS ANGELES (AP) - Dow Jones isn't much interested in the stock market. He is the 49-year-old manager of the Danforth Corp. plant in Los Angeles and says he didn't become aware of the "other Dow Jones" until he was 14 or 15 years old.

Specialists usually earn more than general mechanics. Most training authorities recommend that mechanics become expert in one or two subfields - transmissions, front ends, air conditioners, radiators, brakes, etc. Body men work mainly on cars and small trucks, and although some concentrate on large trucks, buses or trailers, mechanics have far more opportunities to specialize.

The Boss: Both work for the same type of employer. These include independent garages or repair shops; service departments of dealers; service stations; diagnostic centers; and organizations that maintain and repair their own fleets such as trucking companies, taxi and bus companies, and so on.

Improvements In Grain May Feed All Hungry

WASHINGTON (AP) - Dramatic new improvements in the world's leading food grains - rice, wheat and corn - may make available one day to satisfy its hunger.

All over the world scientists are tinkering with the genetic structure of grain to make them shorter, sturdier, more productive and increasingly nutritious.

In the United States a new high protein corn may be ready for farmers to plant within two years, perhaps sooner. It will be a new variety of corn, but one that is not a new type of corn - the No. 1 corn that is already being planted in double yields in Southeast Asia.

It is not an easy job. For an angle as one obstacle is overcome in the production of corn, says Dr. George F. Sprague, "others seem to appear in a continuing shifting array."

Sprague heads the Department of Agriculture's corn investigation program at its 1,000-acre research center at Beltsville, Md.

But Sprague and other scientists are confident that they are making long strides at boosting the production capabilities of food grains and their nutritional values.

Food authorities have said that if protein levels of cereal grains are increased markedly, the solution to much of the world's nutritional problem can be around the corner.

It is not enough, however, to develop radically new varieties of crops tailored to sophisticated American farming practices. They must be bred to withstand environments where farmers can't use all the needed fertilizers, water and mechanical practices.

THE NEWS IN CORN

The new corn involves breeding into kernels a gene called opaque which has the capacity of increasing the amount of two amino acids called lysine and tryptophan present in only minimal amounts in ordinary corn.

An increase in the amino acids would improve the protein content of corn, which could produce revolutionary changes in livestock and human diets.

Private grain companies, which have done much over the years in developing highly adapted corn varieties - are competing vigorously to be the first out with the so-called "high lysine" corn seed.

Sprague said a few seed companies plan to distribute some of the new corn for experimental field planting next spring.

"But there are many problems with this corn and we still have a long way to go before they are solved," Sprague said.

Corn is the world's third ranked human food, next to rice and wheat, although in the United States its chief use is as live stock feed.

High-lysine corn's impact would be felt first in much of the livestock industry of the United States.

Tests show that hogs fed only a high-lysine corn ration after they grew to about 100 pounds continue to grow but fatten less market as well as if fed old style corn plus expensive protein supplements. Protein supplements appear to be still required to grow pigs up to the 100-pound weight. Poultry respond "not quite so fully" as hogs but still seem to do well on the new feed.

The food itself must be attractive, but if the look is appealing in color, flavor and texture, then nutrition offers a competitive advantage.

Les Bon Amice Will Frolic

Friday is the 12th—so is the Les Bon Amice annual Christmas Gift and Toy Dance for the economically deprived youngsters of Seminole County. Cast aside your superstitions and old wives tales and join your friends at the Club Deluxe on Southwest Road at 10 p. m. for an evening of fun.

Giving rather than receiving, seeing the happy expression on some child's face, and knowing that your family has shared the excitement of the Yule Season with some unfortunate child, is the most precious gift anyone could receive at Christmas.

Admission to this benefit event is a wrapped gift or toy. If possible, label each item as to sex. This will enable members of the club to do a faster and accurate job in distributing the items on time.

The date is Friday, Dec. 13, Club Deluxe at 10 p. m. on Southwest Road. Music will be furnished by a live band.

The spirit of Christmas is giving—make someone happy on Christmas Day.

A standing ovation, a round of applause, you name it, they got it. Happiness is being a CHS Marching Panther in our hometown.

Santa and the Hippies

Chapter Nine
Edgar's Story

Santa and the hippies listened in horror as Edgar the elf told his tale.

Edgar had been away searching for a certain blue glass that Santa needed to make doll eyes. When he returned to Santa Land with a pocketful of beautiful stones, he went straight to Santa's house to show him what he had found.

The door to Santa's house was open but no one was home—not even Mrs. Claus. Edgar heard a funny whirring sound. Looking down he saw a small top spinning in a pool of salt at his feet.

He thought it was a new toy. Santa was trying out. He went to the shops to find out what was going on. Everywhere he went he found spinning tops and a sprinkling of salt on the floor. Even in the stables there were no reindeer—only eight spinning tops.

He saw smoke coming from the chimney of Santa's private tool shop. He thought, eagerly, "Ah, Santa is there!" He ran to the shop and peeped through the keyhole.

Inside he saw not Santa but a mischievous dwarf hammering and sawing on a strange machine.

EXCITEDLY Edgar the elf told his tale.

Then Edgar knew some awful thing had happened to all the creatures in Santa Land. He started running as fast he could. At the edge of Santa Land he came upon a family of red-eyed geese. When Edgar told them what had happened the mother goose said she had seen Santa flying off in his little plane not too many hours ago and she could take Edgar to wherever Santa was because it was easy for a red-eyed goose to track an airplane.

"Now here I am!" finished Edgar. "And, oh, what are we to do?"

Santa scratched his whiskers thoughtfully. "You say there was salt?" he asked.

"All over the floor!"

"And what was this contraption the dwarf was making?"

It was huge and ugly with wires and bolts sticking out of its middle and lights flashing in its head.

"Ah," said Santa with a slight frown. "It was Heskiah. He has invented a salt to turn people into toys while he works on a machine to take the place of people. I never thought he would dare to come to Santa Land."

Ding Dong fell terrible. He said it was all his fault because he had tricked Santa into leaving Santa Land. But the hippies said it was really their fault because they had wanted to capture Santa in the first place. Now all of Santa Land was gone and there wouldn't be any Christmas anymore.

But Santa said, "Don't worry, I've known about Heskiah for a long, long time. I can handle him."

"What will you do?" asked the hippies.

"I'll get the three-colored string and trip him with it," said Santa. "Then his power will be gone and so will be."

"The three-colored string?"

"That's a secret," said Santa with a smile. "But come, Edgar. We must be off. If we hurry we will still be able to save Santa Land in time for Christmas."

They ran to Santa's plane but Edgar was too short to climb in. Santa offered to give Edgar a boost. He made a basket out of his hands and Edgar stepped into the basket.

When Edgar's shoe touched Santa's hand, Santa himself turned into a spinning top. Tomorrow: The Bath

Hospital Sets Employee Luncheon

Second annual special awards luncheon for employees of Winter Park Memorial Hospital will be held in the employees dining room at the hospital, Friday, at 2:00 p.m.

The first awards luncheon was held in 1967 when 71 employees were honored.

This year five of staff will receive 10 year award pins and sixteen will receive five year awards.

Attending as special guests will be previous award winners, plus the board of trustees.

Awards will be made by Harvey E. Meagher, administrator.

Jane Anderson, who portrays Gertrude Lawrence in the Robert Wise film STAIR, sings "Do, Do, Do," a Gertrude number at a dance marathon in the English pavilion. Directed by Robert Wise and produced by Saul Zaentz, STAIR is a 20th Century-Fox release.

TIME-SAVING IDEAS: When you meet Santa shopping for smoking filters, you know you haven't much time left to finish your gift shopping, wrapping and decorating for Christmas! On the crowded food and frozen food shelves, there are dozens of time-saving, fast-and-easy dishes. Another time-saving trick is to split up your meals all at once—buy a bigger and meat than your family needs and have a versatile ready-cooked meat on hand. Buy a half roasting ham and ask the Public Meat Man to cut off one or two inch-thick slices which you can wrap and freeze for future quick meals. Keep in mind that refrigerator is full of potatoes and beans in their skins—great for use in soups, casseroles and baked beans. 2 1/2 pounds
2 tablespoons flour
1/2 teaspoon salt
1/2 teaspoon white pepper
1/2 cup butter
Paprika
Have chicken breasts split
with keel bones removed. With
kitchen shears, cut off any free
pieces of fat on underside, wash
and dry on paper toweling. On
wax paper, stir together flour,
salt and pepper. Turn chicken in
mixture to coat. In an oblong
glass baking dish (11 1/2 by 7 1/2
by 1 1/2 inches) or similar size,
all in a 425-degree oven, roast
the butter, add chicken, skin
side down in one layer. Bake in
the 425-degree oven for 20 min-
utes. Turn chicken in mixture to
coat. Continue baking until
cooked through and golden
brown—18 to 20 minutes. Serve
the good drippings in the baking
dish over noodles. Makes six
average servings.

Handicapped Assistance
MELBOURNE (AP) — A
booklet detailing facilities and
obstacles for handicapped peo-
ple in Melbourne has been print-
ed.
The booklet is the first of its
kind in Australia. It lists toilet
facilities, door openings, steps,
ramps and handrails in banks,
museums, government build-
ings, hotels, libraries and
restaurants and transport facil-
ities throughout this city of two
million.
It uses a grading system
ranging from "A" for buildings
completely accessible by wheel-
chair to "C" for those which are
impossible for handicapped peo-
ple.
The booklet is free to those
who need it.

Hot Beef Soup a la Russian

By **CELIA BROWNE**, AP Food Editor
This soup was adapted from Russian cuisine.
Hot Beef Soup
Veal Patties with Mushroom Sauce
Buckwheat Grains
Walnut Torte
HOT BEEF SOUP
1 cup fresh mushrooms
1 cup water
1 medium onion, chopped
1 cup
1 cup fine knife shredded cabbage, packed down
2 teaspoons salt
2 teaspoons sugar
1/2 cup drained beef juice, drained from canned beef
1 cup canned beef broth
Commercial sour cream
In a large stainless steel pan, sauté onion and water in a hot oil until onion is tender and water is evaporated, about 10 minutes. Add beef and beef juice. Simmer until tender, about 20 minutes. Add sugar and salt. Serve with a spoonful of sour cream in each bowl. Makes four to six servings. This soup has a zesty sweet-sour flavor and a generous amount of vegetables.

FAMILY DINNER
Roast Duck Yams
Buttered Broccoli with Lemon Fruit Compote Beverage
BUTTERED BROCCOLI WITH LEMON
1 1/2 to 2 1/2 pounds broccolini (a large bunch)
1/2 cup boiling water
1 teaspoon salt
2 to 4 tablespoons butter
Lemon wedges
Remove leaves from broccolini. With a swivel blade vegetable peeler, peel fibrous outer covering from stalks; wash thoroughly in cold water. Cut lengthwise, as evenly as possible, into portions that are about half inch wide at base. Place in layers in a four to five quart saucepan, alternating position of flowers so that half of flowers are toward top at each side of pot. Add water and salt. Cover and boil, lifting cover several times, until tender-crisp and still a bright green—4 to 10 minutes. Drain and wash with water. Serve with lemon wedges. Do not add lemon juice if you want the broccolini to retain its bright color. Makes six to eight servings.

DINNER FOR FOUR
Braised Steak French Fries
Snapped Beans Salad Bowl
Mashed Coffee and Cream
MOLDED COFFEE AND CREAM
1/2 cup cold strong brewed coffee
1 envelope unflavored gelatin
1 envelope of unflavored gelatin
1 cup extremely hot strong brewed coffee
1/2 cup sugar
1/2 cup light cream
Pour the cold coffee into a small mixing bowl or a one-quart glass measure. Sprinkle gelatin over it and allow to stand to soften—about five minutes. Add the extremely hot coffee, stir until gelatin dissolves. Stir until gelatin dissolves. Stir until gelatin dissolves. Stir until gelatin dissolves. Ladle by pour into four six ounce custard cups. Chill. Unmold at serving time. Garnish with whipped cream if you like. Makes four servings.

Lamb & Vegetable Stew

By CECILY BROWNSTONE
AP Food Editor

FAMILY DINNER
Charlotte's Lamb and Vegetable Stew
Sesame Toast
Apple Pudding
Beverage
CHARLOTTE'S LAMB AND VEGETABLE STEW
2 1/2 to 3 pounds lamb neck slices—cut in medium size pieces
1 tablespoon butter or margarine
1 small onion, diced
2 ribs celery, diced
1 teaspoon each allspice, curry powder and Worcestershire sauce
2 cans (each 8 ounces) small whole white potatoes
2 large carrots, pared and thinly sliced
1 can (8 ounces) green peas, drained
2 tablespoons chili sauce
Salt and pepper to taste
Cut away excess fat from lamb. In a large skillet brown the meat in the hot butter. Add onion, celery, allspice, curry and Worcestershire. Drain potatoes and add potato liquid. Mix well and bring to a boil. Add carrots. Simmer, covered tightly, about one hour. Add drained potatoes and continue simmering until lamb is very tender—20 to 40 minutes. About 10 minutes before lamb is done, add peas, chili sauce and salt and pepper; mix well. Makes six average servings.

FAMILY SUPPER
Here's a quickie for a busy day.
Lee's Frank-and-Bean Casserole
Pineapple and Cottage Cheese Salad
Chocolate Brownies
LEE'S FRANK-AND-BEAN CASSEROLE
2 cans (each about 1 pound) New England style baked beans
5 or 6 frankfurters, cut in 1 1/2-inch rounds
1 tablespoon instant onion chili sauce
2 cups of strips bacon
Brown sugar, light or dark
Into a 1 1/2-quart casserole turn the beans, frankfurters and onion; mix. Drizzle chili sauce over top; lay bacon strips (not overlapping) over chili sauce; sprinkle with brown sugar. Heat in preheated 400-degree oven until beans are hot, bacon begins to get crisp and sugar is bubbly—about 20 to 30 minutes. Makes four healthy servings.

SUNDAY SUPPER
Fish Chowder
Tossed Green Salad
Pears with Port
Ladysfinger
PEARS WITH PORT
1/4 cup sugar
1 1/2 tablespoons salt
2 cups hot water
1/2 cup tawny port
Thin spiral-cut rind from 1/2 orange
4 small (about 1 1/2 pounds) pears
Into a 1 1/2- or 2-quart saucepan turn the sugar, salt, water and port. Stir over high heat until sugar dissolves. Bring to a boil; remove from heat; add orange rind.
Remove stems from pears and peel but do not core. As pears are ready, drop them into the syrup. Bring to a boil. Over moderate heat boil gently, uncovered, turning pears several times, until centers are soft when pierced with a fork—about 15 to 20 minutes.
With a slotted spoon remove pears to a bowl. Discard orange rind. There will be about 1 1/2 cups syrup; boil until reduced to about 1 cup; about 10 minutes. Four syrup over pears. Cover and chill. Serve with custard sauce. Makes four servings. In testing this recipe, we used Anjou pears.

Tiniest Quail Succumbs
LOS ANGELES (AP)—One of the quadruplets born to James and Lorraine Gallion died Sunday in the County-University of Southern California Medical Center.
The tiniest of the quadruplets, a girl, who weighed one pound, 11 ounces at birth last Friday, was "just too small" to make it, a hospital spokesman said.
The other three infants—4-60 girls and a boy—were reported in a satisfactory condition. The largest weighed 2 pounds, 11 ounces at birth.
Gallion, 28, and his wife, 27, have two other sons. They live in Burbank, Calif.

Moving Day For Apes
ATLANTA, Ga. (AP)—It will be an unusual moving day for three Atlanta families Tuesday. Three orangutan families are to be lodged in new quarters at the Great Park Zoo after being transferred from Stony University's Yerkes Regional Primate Research Center.
"We want to see how three orang mothers and their babies will interact socially while living together as a community," said John Ball, zoo director. The monkey quarters at Stony were too small for the task, he explained.
It is the first time the zoo has put any of these rarest of great apes on public display.

Priority
LEXINGTON, Ky. (AP)—Sta. Furch, director of libraries at the University of Kentucky, doesn't stand on formality.
"We placed this sign in front of the building:
"New Faculty—if we have not met, come see me if you find my office. Room 314. We may have to have a bureaucracy, but it need not be a tedious one."
