### PEOPLE AND EVENTS

Continued from Page 5

Mrs. C. A. Smith is the guest of Mrs. D. G. Wagner at Kissimmee.

Miss Louise Harris of Jackson, Ga. is the guest of her cousin, Miss Clara Millen.

Mrs. H. C. Paeglow and sons, Harry, Donald and Paul of South Jacksonville are the guests of Mrs. H. R. Stevens. Mrs. Paeglow formerly lived in Sanford and is being cordially greeted by old friends.

Mrs. Robert Herndon of Arcadia, is visiting her parents, Mr. and Mrs. Stumon.

Miss Cleo McLaughlin of Macon, who has been visiting Mr. and Mrs. C. O. McLauhlin has returned home.

Miss Virginia Powers, sister of Col. A. K. Powers of this city, is expected today from Wallace, N. C. Miss Powers will teach one of the Fifth grades in the grammar schools.

Dr. Puleston, Mrs. Puleston and little daughters are expected home today from Marco.

E. H. Peters leaves today for Minneola to meet his wife. They will both return Monday.

Baptist Services Next Sunday  
Sunday School at 9.30. Hon. Jno. D. Jinkins, Superintendent. The school is graded with classes for all ages.

Preaching at 11.00 by the pastor, Rev. George Hyman. "Looking Backward and Forward" is the subject for the hour.

Dr. R. Y. P. F. at 6.45 under the leadership of Mrs. F. F. Garchell. Dr. R. Y. P. F. at 6.45 with Miss Minnie Stewart as President.

Evening address at 7.45 by Rev. Hyman on the subject "The New Republic." In this address he will discuss three things to help bring about the New Republic: 1st. The Adjustment of relations between Capital and Labor. 2nd. The Education of our people in regard to Romanism. 3rd. The banishment of the Saloon. Hear Mr. Hyman Sunday night.

Electric fans. Good singing accompanied by a twelve piece orchestra. Always welcome.

#### New Millinery Store

The French Millinery Shop will be the very latest business venture in Sanford, and the new store will be located in the DeForrest Block in the room recently occupied by Berry's barber shop, next door to Irwin & Giles grocery.

Mrs. Mohrtens will manage the French Millinery Shop and needs no introduction to the people of Sanford, having been here one season with the millinery store of Mrs. Overman.

The stock of goods has been purchased in New York and has been shipped and the new store will open in one week, if the necessary changes contemplated in the store can be made in that time. Mrs. Mohrtens announces that she has the finest and most complete line of hats that have ever been shown in Sanford, and asks the ladies to wait for the opening before purchasing elsewhere.

The announcement of the fall opening will be made later in The Herald.

#### Congregational Church

A new home department is being started in our Sunday School, and a large number are planning to take the work.

A Fall campaign was adopted by the church; next Sunday is Rally day for the church and Sunday School, and all are urged to be present, and bring some friend with you.

Sunday Sept. 26, is Public School Day, and a special address is to be presented for young and old.

In common with other schools of Florida, our Sunday-School will observe Sunday Oct. 3rd as Florida Go-to-Sunday-School Day. This is a plan fathered by the Florida State S. S. Association and will be of great benefit to the S. S. cause.

Sunday, Oct. 31 will be Congregational Day, presenting the things for which Congregationalism stands.

The ladies of the church will give a get-together Social Thursday night Sept. 23, at the home of Mrs. J. H. Ferguson. All members and friends will be cordially welcomed. Fuller particulars later.

Regular services next Sunday. In the night service, the special theme in the series "Jesus, Life Principles," will be "Jesus and Pleasure." Mrs. Takach is training a special young ladies chorus which will lead in the singing at the night services hereafter. All are cordially welcomed.

#### Who Can Flea Self?

Who is the man that by fleeing from his country can also flee from himself?—Horace.

#### Gordon Brisson's Narrow Escape

While Gordon Brisson was riding his wheel on Celery Avenue Thursday morning, he was run down by an automobile, and it was only good luck and the timely interference of a sand bank that prevented the boy from being seriously hurt.

The machine was driven by Mr. A. Dorner, and in some manner he misunderstood Gordon's actions, thinking that he intended riding his wheel one way, when he really was going the other, and in the moment the both of them confused, and Dorner's machine struck Gordon's wheel throwing the boy off on a sand bank, and running completely over the wheel. Gordon got up and after examining himself, concluded that he had lost a small patch of skin of one leg and a perfectly good bicycle, with probably a year's growth thrown in for good measure.

#### Twelve Successful Applicants

At the regular semi-annual teachers examination held last week, Seminole County issued certificates to twelve successful applicants. There were only fifteen applicants for certificates and of these, twelve received their reward, and this should speak well for the people that took the examination as this is an exceptionally high average and is not maintained by many counties in the state.

First grade certificates were issued to the following: Mrs. Anita K. Crawford, Ovidio, Mr. Robt. W. Lawton, Ovidio, Mr. J. C. Hutchinson, Sanford. Those receiving second grade certificates were: Miss Zoe B. Munson, Sanford; Mrs. M. E. Harris, Sanford; Mrs. W. R. Crooms, Sanford. Those obtaining third grade certificates were: Miss Lydia Geiber, Geneva; Miss Belle M. Smith, Sanford; S. H. Love, Sanford; S. C. Monroe, Sanford; Mrs. G. S. Thomas, Sanford; Mrs. F. B. Reid, Sanford.

#### South Carolina Dry

Columbia, S. C. Sept 17. With the returns of Tuesday's election on the question of statewide prohibition still incomplete, it is evident that prohibition carried by a vote of about two and one-half to one. Charleston is the only one of the larger cities to give a decided majority for liquor. This city and county voted "dry."

The vote will reach perhaps 65,000 with a probable majority of 45,000 for statewide prohibition. In Charleston, the complete vote was 2,571, of which 2,488 was against prohibition.

The election was one of the quietest ever held in the state. There was practically no disturbance at the polls. The tremendous interest that generally marks an election of this kind was noticeably absent.

#### Daily Thought

There are only two roads by which any important goal can be reached—sheer strength and perseverance.—Goethe.

### Report of the Condition of the FIRST NATIONAL BANK

At Sanford, in the State of Florida, at the close of business Sept. 2nd, 1915

Subscribed and sworn to before me this 11th day of September 1915.  
Claude D. Coach, Notary Public  
My commission expires Nov. 6th, 1918

#### They Wanted Lee's Hat

Deputy Sheriff, Jim Lee went to Jacksonville Wednesday for a man that was wanted by the Seminole authorities, and when he got off the train and was viewing the sights of the city, he was "pounced on" by about six big men, the first of the bunch made a grab for Lee's wide brimmed straw hat—he missed and received a slap from Lee's wide hand. While this was going on, another of the attacking squad succeeded in obtaining the straw lid, which made Lee mad and he waded into the bunch with his fists, but soon found that there were more men than he had fists, whereupon he backed up to a convenient wall unsung his ever ready .44 and the squad came to a full stop. A big policeman woke up at the sight of the artillery and decided that he would make an arrest. After looking Lee over and finding his "star" and having explained to him what was going on, he escorted Lee to safety gave him back his hat and explained that on September the fifteenth, everybody in Jacksonville abandoned the straw hat for the more fallified felt or stiff derby, and that it was considered great sport for a bunch of fellows to gather in all the straws and build bonfires with them.

#### Judge Stringfellow's Busy Day

Thursday was Judge Stringfellow's busy day, and he sat robed with the official ermine on three different occasions.

First came the State and prosecuted one Thos. Jackson, for violating the new hotel law, that provides a penalty for any one that jumps a hotel bill. Jackson was an old man and had the luck with him and succeeded in obtaining a mistrial. He was re-arraigned in the afternoon and convinced six good men that he was innocent of this charge.

The other of the Judge's sittings was to listen to an argument on a demurrer.

#### Will Rebuild Bridge

Capt. J. E. Lucas, the well known contractor and former steamboat captain, who has been busy at the Clyde dock for several weeks will soon start work on the rebuilding of the A. C. L. drawbridge below Monroe. He expects to rebuild the bridge and piling and will have charge of all the wood working. As soon as this is finished he will have a similar job on the A. C. L. bridge at Buffalo Bluff. The general captain is a busy man and while he does not exactly own the St. Johns river, he feels that he has a mortgage on it, as he has "steadfastly" on the river for the past forty years or more. He is now engaged in pulling all the old piling in the lake near the Clyde dock and it is hoped that the piling all along the lake front will be pulled before the Captain takes his battleship down the river. There is much of the old piling near the A. C. L. dock and at other points that is very unsightly, and it should be pulled as soon as possible.

#### Dottie's Refuge.

In all well-regulated households there is a cat to be blamed for many seriously broken cases and similar catastrophes. However, in little Dottie's home there was no cat just then. When Dottie's mother came home and saw the broken vase she found an explanation. "It was," said the little girl, searching for a refuge, "it was the telephone!" Cincinnati Times Star.

#### Employees Count.

The success of a manufacturing concern depends to a great extent on the good will and cooperation of the men employed.—Dr. Carl Langer

Wanted—Horse to use for his feed. Wanted for driving purposes only. Good care. Address Herald Office. 7-2tp

# COOPER JUMPS COUNTY GANG AND ESCAPES

## DOCTOR WHO SPECIALIZES IN LEAVING HERE HAS GONE AGAIN

"Doctor" Cooper is gone again. This willow wisp prisoner seems able to vanish in thin air at any moment and this is his second escape from the clutches of the law in the past six months. Doctor Cooper it will be remembered was caught by Sheriff Hand after passing worthless checks in a number of places and getting by with it and after passing one here on Dr. Neal he was caught in the toils and sentenced to eighteen months in the county gang by Judge Perkins. The sentence was a light one because the prisoner was a dope fiend and his leaving for the drug was the cause of his downfall. He comes from a good family in Georgia and it was thought a period on the roads would cure him of the habit of not working and his leaving for the drug was a good thing. He was directed to leave the county jail by digging out the hole in the outside wall while he had the freedom of the corridors. After the sentence he made his house that he did not intend to stay on the job and Supervisor Bell had him shackled which called forth an impassioned appeal from Cooper to Governor Trammell against this treatment but the petition was turned down as Cooper was treated as well as any prisoner could be treated, but Mr. Bell was determined not only to keep Cooper on the gang but that he should also work his time along with the other prisoners. On Saturday morning while Cooper was working on Celery avenue, some distance from the rest of the convicts he took a brick or some other instrument and loosened one of his shackles and gradually the end of the chain made a break for liberty. He dodged along the ditches and reached the swamp in the rear of the Pace place. Sheriff Hand immediately placed his hands on the trail and they tracked Cooper to the water where it was difficult to pick up the trail. He remained in the swamp all day and Saturday evening dodged out to a house in which a negro family on the Pace place resided and stole a shirt and pair of pants which will conceal his identity if he succeeds in swimming the river and getting into Volusia county.

It is not thought that he will get away and if he follows his past performance and makes his way to Georgia he will again be caught and sent back to do his time, although in his present condition he is not an asset to the county as he is unable to do much hard labor.

## Must Have Drawbridge

War Dept., U. S. Engineer Office Jacksonville, Fla., Sept. 20, to persons interested in the proposed bridge over St. Johns river above Lake Harney.

The petitions presented to the Secretary of War by officials and citizens of Seminole and Volusia counties and various commercial bodies praying that the War Department reconsider its disapproval of the plans for a fixed bridge over the St. Johns river above Lake Harney on the Orlando-Indian River Highway, and permit the bridge to be completed in accordance with the original plan, having been carefully considered by the War Department, I am directed by the Chief of Engineers, U. S. Army to advise you that under date of Sept. 16, 1915 the Acting Secretary of War approved the recom-mendation of the Chief of Engineers in the matter as follows:

It is recommended that the former action of the Department be adhered to. The Chief of Engineers is hereby directed to inform the parties interested that the War Department will not permit a fixed bridge at that point, but that a draw or lift of simple and inexpensive design will be accepted for the present.

Very respectfully,  
W. B. Ladin,  
Major, Corps of Engineers.

## Rules of War

As our readers are well aware we are not in the habit of indulging on them editorials concerning the present war, but it has gone so far that we now feel called upon to say a few words. We speak these words on behalf of the soldiers who are doing the fighting and who are the only ones who have to suffer, and in the hope of bettering their condition. Our plan is to have the soldiers of all the armies form an international union, and adopt a set of rules and make the kings, emperors, etc., abide by them, or finish the scrap themselves. The rules we have in mind are something like the following:

"No battle must begin before 8 a. m."  
"One hour for lunch each afternoon."  
"All fights to stop at sunset."  
"No night fighting except by special arrangement, and then all men to be paid overtime."  
"One month's vacation for each soldier."  
"All uniforms and equipment to bear union labels to insure good goods."  
"We hope that our contemporaries will take this matter up and help us in the good work. Should a soldier's union be organized, it might result in a general strike and thus end the war."—Skinsville Signal.

# BULGARIA NOW IN; JOINS HANDS WITH GERMANY

London, Sept. 21.—Bulgaria has removed all restrictions on the passage of merchandise through the country to Turkey. This is believed to indicate that Bulgaria has definitely allied herself with Germany, Austria and Turkey.

**Germany Occupies Vlna**  
Petrograd, Sept. 21.—The War Office today admitted that the Germans have occupied Vlna. The Russian army is retreating through the city to avoid its destruction by bombardment. The Russians still hold Dvinsk fortress, and the entire Dvina River front.

**Rejoiced in Berlin**  
Berlin, Sept. 21.—While Berlin is wildly rejoicing today over the capture of Vlna one of the greatest battles yet fought in the Eastern zone is raging over the captured fortress. A German victory means the separation of the northern and

southern Russian armies. Experts predict the early capture of Dvinsk and hint at a campaign to take Petrograd. Though the Russians have achieved some local successes in the Volhynian triangle, it is regarded as of secondary importance.

**Young Cashier**  
An increase of 20 per cent in the business of the East Coast state bank, Daytona Beach seems to have necessitated an increase also in the office force, and a young assistant cashier arrived Sunday and will make his home with Mr. and Mrs. C. A. Randall in Seabreeze and receive his instruction and training in the banking business through Mr. Randall, the bank cashier, who is delighted with the lad and says he is a fine boy. Both he and his mother are reported to be doing nicely.—Daytona News.

Mr. and Mrs. Randall are well known in this city where they resided for some time while Mr. Randall was an employee of the Peoples Bank.

# PUBLIC SCHOOLS WILL OPEN HERE NEXT MONDAY

## SUPERINTENDENT EZELL GIVES REPORT OF THE OPENING AND INSTRUCTIONS TO THE PUPILS

The Sanford Public Schools will open on the morning of Monday, September 27th and the following letter of explanation from Prof. Ezell should be read by the parents and children, as much confusion will be saved thereby.

High school pupils will assemble in the auditorium of the high school building. Appropriate exercises will be held, to which all the friends and patrons of the school are to be invited. After these exercises announcements will be made as to the work in the high school building.

All new pupils who expect to enter on schools, who have not previously been classified together with those who have completed their course by examination are to assemble at the high school building Friday morning Sept. 24th at 8 o'clock. The teachers wish to get all pupils classified before the opening day. Those pupils who spend the first few days of the regular session standing examinations for classification begin the work under a handicap.

The first semester of the Sanford public schools will begin on Monday morning, September 27th at 8 o'clock.

All pupils of the first and second grades will assemble at the primary school for assignment to rooms. All pupils of the grammar school grades, except the seventh grade boys and the eighth grade will assemble at the grammar school. Boys of the seventh grade and all pupils of the eighth grade will assemble at the high school building.

In order that there be no confusion in finding the proper class

rooms at the grammar school let the pupils note the following assignments:

Room No. 1, Third Grade, Miss Moore.  
Room No. 2, Second Grade, Miss Douglas.  
Room No. 3, Third Grade, Miss Tribble.  
Room No. 4, Fourth Grade, Miss Chappell.  
Room No. 5, Fourth Grade, Miss Higgins.  
Room No. 6, Seventh Grade Girls, Miss Dickinson.  
Room No. 7, Sixth Grade Boys, Miss Platt.  
Room No. 8, Fifth Grade, Miss Hunter.  
Room No. 9, Fifth Grade, Mrs. Milburn.

Pupils promoted last semester by Miss Stewart enter Room 1.  
Pupils promoted last semester by Miss Walker enter Room 1.  
Pupils promoted last semester by Miss Walker enter Room 4.  
Pupils promoted last semester by Miss Milburn enter Room 5.  
Pupils promoted last semester by Miss Higgins enter Room 8.  
Pupils promoted last semester by Mrs. Stock enter Room 9.

Automobile buses for the transportation of school children will start about 7 a. m. Monday morning from the following points: Route No. 1 from Cameron City, end of brick road; Route No. 2, from P. M. Flier's place on Orlando road, Route No. 3, from Stenstrom's corner on West Side. Transportation will be free but pupils must secure identification cards from teachers after the first transportation.

H. F. Ezell, Prin.

# BAND FOR ELKS OF SANFORD; ORGANIZE TONIGHT

## Ladies Missionary Society

The Ladies of the Missionary Society of the Methodist church are planning to send a box of supplies to the orphanage at Enterprise this week. The orphanage at this time is especially in need of bed linen, table linen, towels, dry goods, clothing, anything that can be made into garments, or garments that can be made over, all are needed and will be gratefully accepted. And if there are any in town, regardless of denomination, who feel they can help in this work, and have the donations they can contribute to this cause, if they will leave the same at the residence of Mrs. L. R. Phillips, 717 Park avenue, on either Wednesday or Thursday of this week, the ladies will appreciate all the assistance they can have in filling the box, and those in charge at the orphanage will be very grateful for the next just row is great. Let us hear these donations in kind and help all we can.

## New Brick Plant

Kissimmee, Sept. 19.—A manufacturing plant, to cost approximately half a hundred thousand dollars, to employ at least 500 men with a payroll of \$1000 a week will be constructed at this city by the new Tucker Brick Company to put on the market the Woodtex brick, a paving brick made out of express sand, recently invented by J. W. Tucker of this city and associates. Mr. Tucker said today it had been practically decided to locate the plant here in acceptance of the offer of the Kissimmee city council to exempt the property and output free from taxes for a period of ten years, provided the plant was in operation during that time. "Construction work will begin within three weeks and the plant will be completed within ninety days," he said.

## Plant Fall Vegetables

The latter part of September and early part of October bring thoughts of fall vegetables. The principal vegetables which can be planted during this time are mentioned by Prof. W. L. Floyd of the University of Florida College of Agriculture.

Snap beans may be planted in the field or garden. Lettuce and cabbage should be planted in seed beds and later transplanted. Sow in rows about six inches apart so they can be cultivated. Turnips, carrots, parsnips and radishes can be sown in succession every ten days or two weeks so that a fresh supply can be had continuously. Bermuda onion seed for the January crop should be sown in September. These may be sown in the fields, but Professor Floyd advises that they may be planted in a seed bed and transplanted later. For an earlier crop to supply green onions for the table, sets can be planted now.

## SANFORD AND DE-LAND MEMBERS WILL COMBINE IN BIG BAND

Sanford Elks are up to date in every particular and not only have one of the largest and best lodges in the state in personnel and point of numbers but each and every member is alive to the best interests of the lodge and never fail to advertise Sanford lodge of Elks and the city of Sanford wherever they may be.

The very latest wrinkle in Sanford Elksdom is the organization of a full fledged brass band and this band will be the means of advertising the city as nothing else could do. The band will be organized tonight and will have a membership of thirty or more members of Sanford and DeLand men, all of them trained musicians, although a few amateurs will be taken in just to keep the old boys in practice.

The new band will be known as the Sanford Elks Band and will attend all the state and national meetings and wherever they go the name of Sanford will go also. We can look for some grand concerts during the season, for the boys will not hide their light under the roof tree of the lodge but expect to give some concerts on the porch of the Elks home from time to time.

At the meeting of the lodge last Wednesday it was definitely decided to foster the band and give them everything needed in the line of equipment and the Elks band will soon make its appearance resplendent in new uniforms and instruments and "blow themselves."

## Social at Moore's Station

Next Friday evening at Moore's Station church the Epworth League will give a weighing social. It is intended that each guest shall be weighed at the door and an admission fee of one cent for each ten pounds of weight shall be charged. It is hoped that a "large" crowd will be present. Ice cream and cake will also be served and a general good time is promised. Special service via jitney bus may be had by making arrangements before time.

# THE PRESS MEET IN JACKSONVILLE

Jacksonville Sept. 24.

General plans for the entertainment of editors and publishers of Florida, who will meet here Oct. 11, 15 and 16, were announced yesterday at a meeting of the entertainment committee of the chamber of commerce, and indicates that all of Jacksonville is pulling together for the purpose of making the visit here of the editors and publishers profitable and pleasant. Local printing and publishing trades, representatives of the Antietam Paper Company, Jacksonville, Rotary Club, Builders and Traders' Exchange, individual business men and concerns, the convention and tourist bureau, the Jacksonville Chamber of Commerce and Adjt. Gen'l J. Clifford R. Foster are all lending a hand. Just before the adjournment of the meeting yesterday Chairman Frank Cassidy stated that another session of the entertainment committee will be held next Wednesday afternoon, 3.30 o'clock, at which it is hoped to have definite reports on a number of details.

Mr. Cassidy stated that the order of exercises by way of entertainment will begin at noon Thursday, October 14, when the Jacksonville Rotary Club will take the delegates to the Florida state camp grounds. There Ben Foster will be the host of the visitors at a camp lunch. After some hours there all will board the steamer City of Jacksonville and return to the city. Before disembarking a night seeing trip about the waterfront will be made.

On Friday the Builders' and Traders' Exchange will be the hosts of the editors, and they will con-

duct an automobile tour of the city and environs. The exchange will attend to every detail of the arrangements during the next week or so.

In the evening the Jacksonville Chamber of Commerce will tender the visitors an informal banquet in the auditorium of the commerce chamber building. The convention will end the following day, part of which will be devoted to business and part to pleasure.

A letter was read yesterday from Associate Manager Charles I. Day of the Hotel Seminole, tendering the use of the committee rooms and halls of that well known hostelry free of charge as headquarters for the convention. The letter was referred by the meeting to the hotel and transportation committee, of which C. B. Gay is chairman.

O. W. Renner of the Antietam Paper Company, in answer to a question, stated that there would be, he thought, fully four hundred people from all points of the state present at the convention.

It was decided yesterday to make as a feature of the banquet the use of well known and generally advertised and made in Jacksonville products. The menu for the affair will contain many references to the articles well known to advertising and mercantile lines.

The banquet will be an elaborate one, but informal in every respect.

**Delegates Elected**  
The following were elected to represent the First Baptist Church of Sanford at the second session of the Seminole Baptist Association which convenes at Umatilla Sept. 20th and 21st. Rev. and Mrs. George Hyman, John L. Hamrick, Mrs. Edgar Biggers, Mrs. M. C. Savage, George D. Ballard, Mr. and Mrs. M. M. Stewart, H. E. Tolst and Jno. D. Jenkins.

The Seminole Association was organized at Sanford in November, 1914, and has begun its work under the most favorable auspices. We will give a report of the first year's work of this Association in our next issue.

# ALL HEARTILY ENDORSE THE ST. JOHNS ROUTE

Hon. W. R. O'Neal, Orlando. "Mr. E. T. Woodruff, Sec'y Waterways Committee Sanford Commercial Club. I am in hearty sympathy with your article and am glad to give whatever support I can."  
Hon. M. M. Smith, Orlando. "Assure you that I am with the St. Johns proposition."  
Hon. C. W. Goodrich, Orlando. "I am with you on the proposition, fully."  
Hon. M. O. Overstreet, Orlando. "By all means the St. Johns should be selected. It will accommodate and benefit more people than any other route. It has already been improved from Sanford to Jacksonville, and with a reasonable expenditure it can be opened up to some point on the East Coast and into Lake Okechobee and from there to Kissimmee via the Kissimmee river, also from Lake Okechobee via the Caloosahatchee river to the Gulf. The opening of this canal would be worth many millions of dollars to Florida. I cannot too highly recommend it."  
Hon. C. A. Carson, Kissimmee. "If I was of any service at the

meeting of the Central Highway Association in Lakeland I am very glad. After my attention was called to the desirability of retaining a committee on Inland Waterway I very readily saw the advantages of doing so, and of course took great pleasure in saying so."  
Dr. D. C. Main, Welaka. "It would not do for me to get started on this matter at length, for it would be at length before I got stopped. Locally, we feel that this project should come this way on account of the immense territory up the Ocklawaha that would be opened up, and still more opened up if the cross the state canal were ever built. Down the East Coast canal one might as well say that only one side is habitable for there is only a narrow strip of land to the east, while over our inland route both sides are habitable for miles of course from coast to coast. They now have the F. E. C. R. R., while a great deal of the country by way of the St. Johns would for the first time have some sort of transportation for their products."  
Sec'y of the Central Highway Association.

Entered as Second-Class Mail Matter August 22nd 1908, at the Postoffice at Sanford, Florida, Under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148

We will now hear from Judge Willis Powell about the demerits of the Mendenhall case.

The press of the state wants the Sanford postoffice decorated with Holly.—Ocala Banner.

The Russians are surrounded again. This is the third time they have been surrounded in a few weeks.

Judge Penny of Fort Pierce is being groomed for the States Attorney race in this circuit. There will be several others who will also run.

If Bob Holly gets to be postmaster at Sanford he can dispense with his local reporter. He can get all the news that fit to print reading the post cards.—Clearwater Sun.

Bloxham county was defeated at the polls last week. Without attempting to butt into other people's business we want to rise and remark that the people who voted against it made a mistake.

Miss Julia Tutwiler of Alabama, one of the south's foremost educators suggests more dignified words for Dixie.—Tampa Times.

Tut, Tut, Dixie is good enough for us and anyhow it is better than Tutwiler.

The Herald has been commended by many on the article about the bond trustees and the tax payers are anxious for the same kind of bond trustees that we have had heretofore, viz. patriotic trustees that will serve for the good of the people.

The Sanford postoffice is after Bob Holly. Bob will have to do some expert dodging if he doesn't get that darned postoffice washed onto him Zolfo Truth.

Guess we can dodge it all right G. W. And when we do dodge it there will be several innocent bystanders struck with it all in the face.

Among the visitors to the beach Sunday was Bob Holly, editor of the Sanford Herald. Holly is not only the most popular newspaper man in Florida, but he is a consistent and perpetual friend of and booster for Daytona and Daytona Beach and the people of this section have a warm spot in their hearts for him.—Daytona Journal.

Hon. Perry Wall speaks here every night in the movies. He comes out in front of a beautiful background that looks like part of a summer kitchen in distress and with many gestures gives out the pleasing announcement that he is a candidate because he has built churches, school houses, public buildings, etc., and knows the needs of the people. The moving picture people ought to support him to a man.

The Sanford Herald and the Lakeland Telegram are attempting to vindicate the Board of Pardons for granting a pardon to Shorty Davidson on the ground that it is conditional. It makes no difference whether it is conditional or not, the gentlemen who compose the Pardoning Board are not to be excused. If Davidson is entitled to a conditional pardon all other convicts are entitled to the same consideration. His crimes was much worse than that of many other convicts who are serving their full sentence. Live Oak Democrat.

Kinder mixed your cases, Bro. Mac. We have not exactly condoned the "pardoning" act. Ieaseways we did not think so at the time of writing. You have evidently confused us with that golden-haired Adonis, Joe Hugh Reese of the Orlando Reporter Star.

FLORIDA EDITORS  
Florida editors have performed a great work in the development of this state. The so-called country press of Florida ranks above those of any other state in the south. A comparison of the country weeklies with those of other states shows Florida in the lead, both in make-up and in the character of the matter printed.

OPEN SEASON FOR BUNK

BY CLAUDE L'ENGLE

While it cannot be said that there is any close season for bunk, this is the time of year when our large manufacturers of this universal American product inflate their lungs and their imaginations for high speed performance. By our large manufacturers I mean those who never shut down, such as Congressmen, promoters, Wall Street, Leagues, uplift societies, automobile makers, newspaper men, mayors, governors, millionaire philanthropists and Chambers of Commerce. But now we will have with us what may be called "seasonable bunk pushers," aroused to periodical activity, and largely increasing the output. These spasmodic but speedy little workers include politicians, candidates, transportation men, college sport writers, good roads clubs and theatrical press agents. With all of our bunk factories working full time when we crave a little quiet conversation we'll have to go to Sunday school, or if we want to read something that won't keep us guessing all the time we'll have to hunt up the old blue back speller or sit on the floor with Webster's unabridged.

One reason why bunk is so plentiful is that its production requires neither labor, brains nor information. The other reason is that it requires no mental exercise to listen to it or to read it. It only requires a memory and a medium of expression to get into the bunk producing class. If you are an orator you talk about our country, the grandest sun ever shone on it, if you are a Congressman you fear a few about "The Development of our Rivers and Harbors the Road to National Wealth." If you are a real estate or a transportation man you talk about "Increased Values of Land in the Near Future," or "Biggest Travel Ever This Season," as the case may be. We all know these old reliable and the others like them in bunk bearing power used by our bunk artists, each choosing according to his taste, occupation, purpose or predilection. We are used to them and we would miss them if we heard or saw them no more.

Just to illustrate how easy it is to put the bunk across let us take the case of the political forerunner who talks or writes six months or a year before election day. Without the slightest knowledge or compunction this old boy will rear back and say something like this: "While Green and Brown have a strong following, and White has many influential supporters, Black is the leading candidate for Governor." This brand of bunk we will see or hear almost daily from now until June. It is the purest

bunk of all, as anyone can see by giving the matter a minute's thought. There are more than fifty thousand votes cast in the Democratic primary. Of these fifty thousand not five thousand have, at this early day said how they will vote for Governor or any other office. We can figure each candidate with a certain number of friends who will vote for him, but this number is small. The great mass of voters have not been heard from and will not be heard from until the votes are counted. There is no way on earth to figure how half the voters will vote, unless you want to make a guess, and yours is about as good as another man's.

There are no leading candidates in a race that's free for all, where every man has an equal chance, where the people think for themselves, and make up their minds after hearing every man's claims and promises. There will be a leading candidate when the count is going on, and all attempts to tag him before the inspector's tally sheet gets the little black marks on it are as futile as trying to scoop moonshine off a barn door with a crab net.

To illustrate further the ease with which political bunk is dispensed, suppose I should up and say, "Some say that Hudson is the leading candidate for Governor but I say he is Knott; and as Farris I know Catts will come up to the scratch and make the fur fly." This would be bunk of the rarest kind, but if somebody prints it and other somebodies read and repeat it, the foundation is laid for some wise boy to make predictions on the result next June, despite the fact that the race is yet young, the field wide open for added starters, and four fifths of the voters have their powerful minds fixed on such things as shoes for the baby, fuel for the kitchen stove, and bacon and grits for the family table.

Even as wise and solemn a man as A. K. Taylor sometimes finds himself yielding to the bunk pushing habit in the rare intervals of rest between cartoons. Last Sunday we were discussing the gasoline-propelled tour of one F. A. Wood, who wants the people to petition the Governor to call an extra session to change the law from fees to salaries for all our county warning and without a minutes warning Taylor said that he wondered if the county officials saw Wood first would they see Wood afterwards. So you see the bunk habit is catching and you had better look out.

ALL HEARTILY ENDORE THE ST. JOHNS ROUTE

Continued from Page 1

At our convention in Lakeland I was very much interested in the talk concerning the Intercoastal Waterway with respect to the state of Florida. Really I had not thought the government even intended to consider an Intercoastal system down the East Coast in preference to using the St. Johns-Lake Harney, Salt Lake and Indian River line. It was my understanding that this route was favored and recommended by a committee for the specific purpose of determining the most favored and accessible canal to be used for the purpose desired, and I cannot conceive that there could be enough pressure brought to bear to induce the government to accept any route in Florida other than the St. Johns route. This is not only the most favorable to the government and the most feasible, but it will serve more people, produce more good and be more valuable to the state of Florida as a whole than the other location on the East Coast; which, if chosen, would in time of war be a disadvantage instead of advantage to the Peninsular state. Up to the present time, on account of it not being brought to our attention for one reason, and the other being that we thought the matter definitely settled, this association has taken no stand one way or the other.

You may use this letter for any publicity you wish. I trust at the Savannah convention you will also secure what you go after, and the convention endorse the St. Johns route. If I can be of any further assistance do not hesitate to command me.

According to British Law, Should the eaves of a man's house project over his neighbor's land, the latter may pull them down at once, according to British law, unless they have so projected for twenty years.

BANKING BUSINESS

YOU have more or less of it. Possibly it is with us. Such being the case you know something of our service. But if not a patron wouldn't it be well for you to become one?

ENGINEER SAYS "RULE G" IN MOVIES IS UNJUST

BY AN ENGINEER

"The use of intoxicants while on duty is prohibited. Their use or the frequenting of places where they are sold is sufficient cause for dismissal." The above is what is known as "Rule G" as recommended by the General Manager's Association, representing the majority of the railroads of this country, and within the present year this theme has been presented in photoplay, not only in Houston, but to thousands of persons who are not well enough acquainted with the locomotive engineer of today to know that the picture as exhibited is a gross misrepresentation against a body of men whose profession is not only responsible, but verily as honorable as that of any man or body of men in this country.

During a part of the photoplay the screen reveals a passenger train at the depot ready to depart. The conductor delivers the train dispatchers orders to the engineer who after reading same gives the conductor the walk and both step around in front of the engine, while the engineer lifts a flask of whisky from his hip pocket and each takes a drink. Then they appear again on the station platform, climb aboard in their respective places and the train starts on its journey. Later the scene is changed to the engineer's home. The hour of his return is near and the wife and mother is lovingly preparing to send the little daughter, about eight or nine years of age to the station to meet "Daddy."

We see the train arrive. The engineer swings down from the locomotive, kisses his sweet little girl, gives her the lunch basket, and motions for her to go home. The child is shown sorrowfully explaining to her mother that "Daddy" came in all right, but he went across the street to the saloon like he always does with the conductor. We are again introduced to the conductor and engineer standing in front of the bar taking several drinks. We see the conductor leave and we see the engineer say and drink until he is drunk.

The scene shifts once more and invades the privacy of the engineer's home, where the family is assembled at the dining table. Presently the door opens and the drunk engineer staggers to his chair at the head of the table. He commences to find fault, and when his wife attempts to quiet him, he becomes very angry, knocks half the

dishes off the table, and the wife finally is permitted to assist him to his room, while the two daughters and a young man boarding at the home painfully try to conceal their shame.

Such occurrences have possibly taken place 25 to 30 years ago, but the standard of the locomotive engineers, and railroad men in general has been elevated since that time, and so produce scenes as shown in this picture portraying a practice that is so false and unjust, tempts one to speculate on the motives of the men who are responsible for its production. Why could not the picture have been continued long enough to disclose the difference between the engineer of thirty years ago and the engineer of today? Why could it not have shown the alert, clear-eyed engineer of the present decade, the most responsible man on the road in charge of the monster locomotive that hauls the country's commerce safely and surely over the steel highways of the nation, the man at the throttle of the high speed "limited" that races on through the night, his mind fixed on the alert, not only for a false note in the working of his locomotive but for the hundred of signals that pilot him on his way, the man taking of color or position of any one of which will most likely result in disaster, to say nothing of the surprise tests on many railroads that are not calculated to soothe any engineer's nerves?

The writer does not charge that this picture has been produced for the purpose of vilifying the locomotive engineers, in the opinion of the writer, but it is a gross misrepresentation of the habits of locomotive engineers. Those who created and produced this picture, and it should have been only for the purpose of presenting such a picture to the American public.

The Brotherhood of Locomotive Engineers, at the convention held in the city of Cleveland, Ohio, during the month of May of this year at which 865 delegates from the United States and Canada were present, went on record as unanimously supporting state and national prohibition, woman suffrage

and international peace. The action of this convention clearly indicates the position of the engineers relative to "Rule G," and the B. of L. E. has reason to be proud of its work in elevating its members to their present moral and social standing.

The convention of last May was held in the thirteen story B. of L. E. building in Cleveland, which was erected at a cost of \$1,360,000, and dedicated in the month of May, 1910. At the present time 97 per cent of the space is rented to all classes of businesses, and the people of Cleveland are proud of the building, and proud of the organization that made its erection possible.

The auditorium in which the sessions of the convention were held seats 1400 people, and is equipped with one of the finest and largest pipe organs in the city, and during the winter months is rented nearly every night.

Permitting the mind to dwell for a few minutes on the individual responsibility of the engineer in the operation of the achievements of the Brotherhood of Locomotive Engineers surely no one can truthfully assert that such results could have been accomplished if the most picture entitled "Rule G" had only portrayed the habits of thousands of engineers engaged in the transportation of the nation's commerce. Houston Chronicle.

He Lead in Prayer

An old railroad man was converted as the story goes, and was asked to lead in prayer. Here is the way he worked it. "Oh, Lord, now that I have flung Thee, lift my feet of the rough road of life and plant them safely on the deck of the train of salvation. Let me use the safety of the rails, and let my feet make a steady stride with the strong wheels of Thy love, and let my heart leap to the table. And, Heavenly Father, I have been a sinner, but I have been a sinner, especially those with a blind and Oh, Lord, if it be Thy will, have every semaphore light of Thy love show the white light of hope that I may make the best of my way, and when my feet are planted on the great highway of Thy love, may Thy love be my guide, and Thy love be my strength. We'll done thou God our Father, come up to the top of the mountain, and receive us into eternal happiness."

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief—Personal Items of Interest

Summary of the Floating Small Talks Succinctly Arranged for Hurried Herald Readers

J. S. McKenzie of Oviedo was in Sanford Monday.

Surprise packages at the package social.

F. Ellison Adams of Winter Park was in the city yesterday on business.

For scrubbing floors nothing equals U. S. Granulated Soap and it's made right here in Sanford. Try it.

W. H. Howard of Oviedo was transacting business in the county seat yesterday.

Place you call with phone 331 for jitney any service.

T. B. Ellis, a prosperous attorney of Gainesville is a business visitor here today.

Washburn's Home-made candies for sale at Irwin & Giles.

Patronize the package social at French avenue and First street on Thursday evening.

5 or 6 doses 666 will break any case of Fever or Chills. Price 25 cents.

Mrs. H. V. Perry and Mrs. Jno. D. Jenkins and two little daughters have returned to Sanford from Toccoa, Georgia.

Mr. and Mrs. George Kingsley of Altamonte were in the city yesterday on business and pleasure combined.

R. E. Parfroy has returned from an extended trip to points in Indiana and Ohio and was greatly impressed with that country.

Automobile or machine grease is fully removed from the hands or sooting with U. S. Granulated Soap. Ask your grocer for it.

Remember the place Mrs. J. H. Ferguson's and the time Thursday evening. Ice cream and cake and mysterious packages.

The ferry boat Alma May has been placed in service again after some overhauling at the Palatka wharf. Capt. Allen is now ready for the winter business.

Go to Mussen's Pool these hot days. Open every day except Tuesdays and Fridays. Mornings for ladies only.

The case of State vs. Martin Newton, the latter being charged with obstructing an officer was tried before Justice Stringfellow and terminated in the defendant's favor.

We will pay you 4 cents a pound for old rim cut casings, sizes 20 x 2 and 30 x 3 1/2. Sanford Machine & Garage Co.

Mr. and Mrs. Frank Adams have returned from their bridal trip and will soon be at home in their beautiful home on Magnolia avenue.

Washburn's Home-made candies for sale at Irwin & Giles.

To remove the stains from your bath tub caused by the sulphur in the city water rub wall with dry U. S. Granulated Soap and rinse. Nothing like it. Made and sold in Sanford.

Hon. Frank L. Woodruff and son, J. D. Woodruff left yesterday for North Carolina where J. D. will enter a military academy. Mr. Woodruff and family will remain in the mountains for several weeks.

Next time you take a bath try some U. S. Granulated Soap in the bath water. It will please you, soothes hard sulphur water, and makes bathing in it a delight. Get it from the best grocers.

Miss Alice Trafford is home again after a pleasant vacation spent in Richmond, Va., and North Carolina mountains and to say that the Herald force is glad to have her back is putting it mildly.

Mrs. Curtis returned home yesterday after spending the summer with her daughter, Mrs. Golger at A-1-nts and will spend the winter here with her daughter, Mrs. Geo. Davis Hart.

Buy U. S. Sanford product in preference to others if you find the Sanford article the best—and you will. U. S. Granulated Soap made here beats all competitors.

J. O. Packard has removed his real estate office from the Clark building to the second floor of the Bishop block. Mr. Harrison has removed his shoe fixery from the Hines Block to the rooms recently occupied by Mr. Packard in the Clark building.

Mrs. John Wilson writes to friends here that she will arrive in the city in a few days and get her new home on Union avenue ready for the winter season. The Wilsons purchased the Adlai Fitts place on Union avenue last winter and fixed it up in fine shape for their occupancy.

Mr. and Mrs. T. J. Miller have arrived home after a trip to California, the exposition, points in Colorado and coming home via Michigan, where they sojourned at Mt. Clemons and took advantage of the warm baths. Both of them come back refreshed with the trip and feeling like young people again.

J. H. Ferguson has returned from a trip to the Catskill mountains of New York state, where he visited the friends of his early childhood recollections and thoroughly enjoyed himself. Mr. Ferguson says that he found out that although he was 65 years old he had never seen anything until he visited the sky scrapers of New York city. He returns in good health and will resume his duties with the A. C. L. this week. His many friends are rejoicing over his return in good health again.

Aldermen J. D. Davison, W. W. Abernathy, Sanitary Inspector A. D. Smith and Chicken Inspector N. A. Colbert are back from a trip to Sarasota and other points on the Gulf Coast where they fished and visited many places of interest. They made about five hundred miles or more on the trip and enjoyed themselves immensely. They went to Sarasota primarily to cut Rubie Allyn's hair but finally decided to allow him to wear it until after the press meeting at Jacksonville.

Ben Harbin has been spending a few days in the city with friends and exhibited the tooth of a mastodon animal that measured ten inches or more around. The tooth was found in one of the phosphates of Polk county.

The Moody Produce Co. is the newest business venture in the city. The new firm will occupy part of the DeMont building at the corner of First street and Sanford avenue and will sell wholesale and retail fruits and produce. Mr. Moody is the son of J. S. Moody of the Moody Produce Co. in Tampa and has been connected with his father's firm for many years, but intending to branch out for himself decided on Sanford and will go after the business of this section.

Congregational Christian Endeavor. This society had a splendid meeting last Sunday under the able leadership of Mrs. J. C. Ensminger assisted by Miss Vera Terhune. About forty members were present and enjoyed the short talks by the pastor, Rev. E. P. Strong. Mr. C. H. Walker and others. The hymns were sung Sunday, the 20th inst., with Mrs. J. D. Davison, "Shield Against Temptation." At this meeting a duet, "Whispering Hope" will be rendered by the Misses Alpine and Gussie Frank.

The Chimes at Stetson. During the past summer a set of chimes have been installed in the tower of Elizabeth H. H. Stetson University, and as the University opens next Friday morning to begin its 32nd successful year as an institution of learning a grand concert will be given on the chimes. A professional chimer from the chime factory will be present and render the concert.

The Stetson chimes will be christened as the Eloja Chimes in honor of Mrs. Eloja Hulley. There are eleven chimes in all and the largest weighs over eleven hundred pounds while the smallest weighs nearly four hundred pounds.

This professional chimer will give in all four grand concerts the first on this opening day, the second at the Vesper hour Sunday afternoon, at which time the hour of the other two concerts will be announced from the tower.

Quite a number of Sanford people expect to attend both of these concerts as there are a number of Stetson Alumni here who with their friends wish and predict the most prosperous future for "Dear Old Stetson."

LIV-ER-LAX. Liv-er-lax is now rapidly taking the place of calomel everywhere. It is just as effective, cleaning the system thoroughly of bile, toning up the liver, and making that sluggish feeling disappear like magic. It is pleasant to take, has none of the disagreeable after effects that make you dread calomel so much. Feel fine all the time. Take Liv-er-lax regularly, and health becomes a habit.

Guarantee. Every genuine bottle bears the likeness of Dr. K. G. G. and if it does not give satisfaction your money will be returned. For sale in the big 50¢ and \$1.00 bottles at W. G. Aldridge.

WOMAN'S CLUB

Club Motto. Not for self but for all.

Colors. Red and Green. Flower. Red Rose.

What is a Woman's Club? What is a woman's club? a meeting ground.

Fr those of purpose, great and broad and strong.

Whose aim is in the stars; who ever long To make the patient listening world resound.

With sweeter music, freer tones, A place where kindly, lifting words are said.

And kindlier deeds are done; where hearts are fed, Where wealth of brain for poverty atones;

Where hand grasps hand and soul finds touch with soul;

Where victors in the race for fame and power Look backward, even in the triumph hour;

To beckon others to the shining goal.

This is a Woman's Club, a haven fair Where toilers drop an hour, their load of care.

Board of Managers-1915-1916. President, Mrs. John Webb Dickson.

First vice-president, Mrs. Deane Turner.

Second Vice-President, Mrs. Charles Emmett Walker.

Third Vice-President, Mrs. Roy Sykes.

Recording Secretary, Mrs. William L. Morgan.

Corresponding Secretary, Mrs. Henry Wight.

Treasurer, Mrs. George Fox, Jr. Chairman Literature Department, Mrs. Lucian Phillips.

Chairman Music Department, Mrs. Chas. L. Webb.

Chairman Social Department, Mrs. Archie Betts.

Chairman Welfare Department, Mrs. H. C. Gerrard.

Standing Committees. Finance, Mrs. Deane Turner, Ch. Mrs. George Fox Jr., Mrs. M. S. Jenkins, L. Mrs. A. K. Powers, M. Mrs. W. A. Fitts, S. Mrs. R. J. Holly, W.

Membership, Mrs. C. E. Walker. Chairman, Mrs. Geo. B. Dickinson.

Program, Mrs. Roy Sykes, chairman. Mrs. Henry Wight, Mrs. Luella Aspinwall Tackach, Miss Laura Fish, Mrs. W. E. Watson.

House, Mrs. C. C. Woodruff, Chairman, Mrs. E. D. Chittenden, Mrs. M. Minarik, Mrs. G. D. Bishop, Mrs. S. Runge.

Press, Mrs. R. A. Terhune, Chairman, Mrs. Jas. Moughton, Miss Luella Chappell, Miss Charlotte Hand.

Auditing, Miss Annie Hawkins, Chairman, Mrs. John Meisch, Mr. Harriet Renfroe.

Club Parliamentarian, Mrs. Geo. L. Maris.

The attention of the local club members is again called to the first meeting of the season on Wednesday Oct. 6, at which time Mes. W. S. Jennings of Jacksonville, State President will be with the club.

SANFORD AVENUE AND WHY

Why is Sanford avenue fast becoming the business street of Sanford?

Because Sanford avenue is not the little dirty street it once was. Not at all. It has the brick pavement and the nice brick store buildings, the same protection in every respect, as any street in this city.

To prove the superiority of Sanford avenue we are glad to be able to say that there is not a vacant store room on that avenue. Why not? For many reasons. Because it is a much cheaper, and the main reason is because there is more ready money.

Why do the people who buy on Sanford avenue to trade? Because they buy the same goods for less money, and money saved is money made. Does it not stand to reason that the man who pays cash for his goods and sells them for cash, thereby getting a discount when buying, also, a cash office, and why should he be well-chosen than the man who is burdened with all these?

More Store Room. People who own vacant lots on Sanford avenue should build on them, they can rent them as soon as the foundation is laid. The way to Sanford avenue is via First, Second, Third and Fourth streets. The way to prosperity is the same route.

(Adv.)

SHELLE MAINES LAWYER

ABOUT PEOPLE AND EVENTS

A RESUME OF SANFORD HAPPENINGS UP TO DATE

Address all Communications for this Column to "Society Editor," at Phone Mrs. R. A. Terhune, Phone No. 203

Stumon-Fox

A pretty wedding that is surrounded by much interest is that of Miss Josie Stumon and Mr. Gwynn Fox which took place at the Church of the Holy Cross Monday morning at ten o'clock.

The impressive marriage ceremony was performed by Rev. Arthur Peck, wearing the handsome ceremonial robes of his office. He was assisted by acolyte Harold Washburn.

The decorations, which were confined to the altar and chancel were beautiful, much taste being displayed in the arrangement of quantities of white asters upon the altar. The chancel rail was entwined with vines and yellow chambrays. Palms and ferns added their dull green to the charming effect.

The wedding music was played by Mrs. Fannie Stenbridge, Munson. The bride was given in marriage by her father, Prof. J. M. Stumon.

No invitations were issued and there were no attendants, only the members of St. Agnes Guild, the choir and relatives of the bridal couple witnessed the ceremony.

The bride was very sweet and winsome in her modish travelling suit of Russian green crepe de chine, with which was worn with a cream embroidered blouse and a black velvet hat, finished with a yellow band and ostrich tips.

Mrs. Fox is the second daughter of Prof. and Mrs. J. M. Stumon and possesses a sweet and lovable disposition that has endeared her to a large circle of friends. Mr. Fox is a successful young business man of upright character and sterling qualities.

Mr. and Mrs. Fox left immediately after the ceremony on the steamer for Jacksonville from which point they will sail for Baltimore, Washington and New York.

Gates Mann

A wedding of much interest to their many friends in Sanford was that of Miss Neola Gates and Mr. S. B. Mann on Saturday evening at seven thirty.

The marriage was solemnized at the Baptist Temple, Rev. George Hyman officiating.

The wedding was a quiet affair, the bridal couple being accompanied to the church by Capt. and Mrs. Smith and Mr. and Mrs. W. J. McBride.

Mr. and Mrs. Mann will reside at Monroe in their new home just completed. The many friends of the couple wish them a safe and prosperous journey through a long life of happiness together.

Pool Party

Among the many delights of the summer there has been none so popular as the "pool parties" in the evening at Mussen's pool, and not one more enjoyed than that chaptered by Mr. and Mrs. R. A. Newman on Friday evening. After the pleasures of swimming and diving, the entire party retired to the hospitable home of Mrs. Newman, where a sandwich lunch course appeared the hungry appetites of the bathers, after which dancing was enjoyed until a late hour.

Attended Church at Orlando

One of the many parties going out of town on Sunday for the day were Mr. and Mrs. E. T. Woodruff, Dr. and Mrs. C. E. Walker and Miss Flora Walker, who attended church services in Orlando. In the afternoon the party enjoyed the music festival at the Baptist church. They were the guests of Mrs. Greenwood and Alice Tetherly for lunch.

Package Social

A pleasing program will be rendered at the package social at the home of Mrs. J. H. Ferguson on Thursday evening, under the auspices of the Ladies Union of the Congregational church. Myrtles packages and ice cream and cake will be on sale. An enjoyable time for all who attend.

Personal Mention

Mrs. W. H. Mabry and little son, Barton, who have been visiting Mrs. Mabry's sister, Mrs. G. E. Smith left on Saturday for their home in Clearwater. Mrs. Mabry was the recipient of many delightful social attentions while in Sanford.

Miss Ruth Coates of Daytona is the attractive guest of Mrs. Deane Turner and Miss Martha Fox.

Mr. and Mrs. Deane Turner, Deane Jr. and Miss Martha Fox were among those spending the day at Daytona Beach on Sunday. Miss Ruth Coates returned with them.

Mrs. Walter Schucht and baby

who have been visiting Mrs. Shucht's mother, Mrs. Randall returned to Jacksonville on Saturday.

Miss Flora Walker is home again after a delightful visit to her sisters in Ohio and Wyoming. Miss Walker will leave again on Saturday to take up her duties as teacher in the Daytona Seabreeze high school.

Mrs. M. Minarik left today to join Mr. Minarik in Apopka for a few weeks.

Mrs. Goodhue and Mrs. R. L. Jones motored over to Orlando for the day on Saturday. Mrs. Vance Douglas and little son accompanied them home.

Mrs. Hal Wight and Miss Billy Bouchelle Wight are the guests of Mrs. Henry Wight for a few days.

Miss Clara Walker left for her second season at the Woman's College, Tallahassee, on Monday. Miss Ethel Moughton will leave for Tallahassee today.

Mrs. C. M. Williams has returned home.

A congenial party spending Sunday at Daytona Beach were Mrs. D. L. Thrasher, Mrs. R. A. Newman, Miss Sadie Williams, Messrs. W. E. Watson and Ernest Galloway.

Bertha

Mr. and Mrs. Harry Wolfe announce the birth of a little daughter for Friday, Sept. 17. She will be called Ruth.

Do Thy Part

God toward thee hath done his part; to thine—Milton

# CURBSTONE GLEANINGS

## BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

### EVEN THE GATE POST NOT IN IT

#### A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HELL PRENT 'EM"---SO SAYS SAUNTERER.

I'm not one of the "I told you so" kind of old grannies but the sparrow question tickles me almost to death. Since the boy scouts have made the warfare on the sparrows the little pests have almost deserted Sanford and the first time I have heard a mocking bird in twelve months was last week. The songsters know that their natural enemies have gone from here and now the real birds will return and make our city the abiding place for the birds worth while. I labored long and sorrowfully with the people here to make an onslaught on the English sparrow but it seemed that the ladies were averse to killing birds of any kind and whenever the boys started to kill sparrows the policemen were called to arrest them. It was only in the past few months that the city officials became alive to the depredations of the sparrows and allowed them to be killed. The boy scouts were put on the job and they killed them off in large numbers causing the balance of them to go away. Now that they are started on the way the vigilance of the officers should not relax. Other cities have their policemen shoot sparrows every evening and this would be a good plan for Sanford to follow and keep them down.

What a pleasure it is to be rid of this pest.

Some one told me that C. H. Leffler took a shot at me in last Friday's Herald regarding the post-office and according to his calculations there were only three bona fide men in the race. Mr. Leffler may think this is all of them but he does not know that I have inside information from Washington that at least twenty more good men and true are wanting this position and while they have not "petitioned" the dear people yet they are nevertheless in the ring. No one should get overheated about the postoffice because it belongs to no one man and no one man is entitled to the job until he gets it. I could pick out fifty men or a hundred men here in Sanford who would make good postmasters and if it was left to the primary these hundred would probably climb right into the race. However, the race will go to the swiftest and since the office is nothing to me I do not intend to get mixed up in it. As usual I will talk about the candidates and about the man who gets the office if it so pleases me to do so. The office really belongs to the patrons and every patron of the office can at least express his opinion about the next postmaster even if he gets no vote. And there will be more petitions circulated before the idea of February unless I am badly fooled by my friends in Washington. And in conclusion I just want to remark that other cities have kept good Democrats from being appointed just because some of them happened to be sore over a certain man's appointment. We want a Democrat in office here and we want him just as soon as we can get him, therefore it behooves us to stand behind the appointee. Congress may seem no matter who he may select for he can be depended upon to select the man who will satisfy the greatest number. Meantime the office is open to Democrats and is not tied up or sewed up and every man that wants to run can run.

Did you ever stop to think that this month is some queer and if some of the people act queer it is no more than could be expected since the moon, sun and all the other solar bodies are striking solar blows against the set order of things. For instance, this week on the 22nd and 23rd it will be the full moon which may or may not mean anything to you and yet it means much to the world in general. You can ask any one this question and he will tell you that equinox means equal nights and the question is answered as far as he is concerned. He is right but according to Webster and some of the lesser lights the equinox means the time when the sun's center in crossing the equator coincides with either of the equinoctial points about March 21 and September 22. At each equinox the day and night are everywhere of equal length. And another thing is that the moon rises only a few minutes later each night instead of about fifty minutes later as an ordinary occasions

as usual. The moon is full sure enough this month and regardless of state prohibition the old fellow cuts up some capers all by himself. Watch your step and see that you do not get moonstruck. All swains must get in early off the front stoop or papa will get you. This month will be full of daring escapades from the convict camps, straw hats will be smashed in Jacksonville, politics will froth and sizzle and see the heavy forecoats will be displayed in the windows with the thermometers standing at 90. The postmaster will be freely discussed as to whether his health will last to February or not. The aldermen will make excursions with Rube Allen at Sarasota. Celery growers will get moonstruck and plant a big acreage. The bond trustees will all be selected by their friends before the county commissioners are advised. Several substitutes for brick roads will be discovered. The man who voted against good roads will acknowledge the truth. The man who does not want something for nothing will die of starvation. The new hotel will be built without money. Every man in Sanford will belong to the Commercial Club and divers and sundry things will happen here and elsewhere.

Watch your step. The moon is full.

**ELSIE JANIS**  
In "The Caprices of Kitty" at the Star Friday

Never stupid or pedantic is this comedy romantic. Of wilfully capricious, though delicious little Kit.

As her guardian adores her, Kitty pleads that school life bores her. She would like to for a bracer drive her racer around a bit.

Breaking rule and regulation, to the teacher's consternation. She started off quite gaily, for her daily little whiff.

Unchaperoned. But Fates decreed a blow out put an end to speed. A passer-by, HE changed to spy the motor and the girl.

Next day, true love erratically swerves off and ends dramatically.

A tramp steals Kitty's motor, as they loiter, He and She. By the wayside, half surviving Kitty's mad and reckless driving. Sits the chaperone still waiting and debating angrily.

Now the principal undaunted by the fib the culprits flouted. "Engaged! Of course it's proper!" Did it stop her? Nothing could! In sooth she reprimanded, while the guardian demanded. Quite dramatically, emphatically. "We'll settle that for good!"

They met! Two minutes after scowls gave way to hearty laughter. Who should the culprit be, save his dearest friend. "But stay—Congratulations—until I read your Kitty's uncle's will. 'Her fiancée can't spy her six months prior to her wedding day.'"

Spite of fearful protestations, fortune hangs on separation; It will make them more consistent, more insistent than before. He diligent and zealous; she is now a prey to jealousy. Consider—he's a painter! (Not a saint—or not a bore!)

So Kit, this Wednesday following, her vague suspicions swallowing. In cleverest disguises, she surprises him at play! As a slavey in she toddles; then Carlotta, queen of models. Then a dapper little chap—er—with an Elsie Janis way!

But more wise than she surmises, he sees through her cute disguises. Reveals the fact politely, and quite rightly, but, oh! my! As their love they are declaring and excuses are preparing. Stands the guardian behind them, come to God, them on this day! End to tell your pulchritude when the plot begins to thicken. Fortune favors clever Kitty, to outwit the willful fiend. And the climax, so surprising, will leave to your surmising. Far too clever to endeavor to deliver it in rhyme.

## COUNTY HAPPENINGS

### OVIDO OCCURENCES

Nine o'clock Thursday morning a wedding of unusual interest took place at the Baptist church when Miss Helen Lawton and Mr. Glover Bernreuter were united in marriage in the presence of many friends and relatives.

To the sweet strains from "Lo-hengrin" the young couple entered and proceeded up the center aisle where they were met by the pastor, Rev. Wm. Stones, who said the impressive service which made them man and wife. After the ceremony to the strains of Mendelssohn's Wedding March by Mrs. T. W. Lawton, who presided at the organ the couple passed out of the church, entered their automobile and accompanied by their brother and sister, Mr. and Mrs. J. W. Lawton left immediately for Orlando to take the train for Jacksonville. They have gone on a honeymoon trip but will return within a month to their home in Perry, Florida, where the groom is a prosperous business man. The bride is the only daughter of Mrs. R. W. Lawton and has endeared herself to a large circle of admiring friends. The past few weeks she has enjoyed many social functions given in honor of her approaching marriage and she has also been the recipient of numerous gifts both handsome and useful, and evidences of the high esteem in which she was held by the friends of her home town. The ushers were Messrs. Henry Bunn, McCall and E. C. Hickson. Out of town guests were Miss Martha Fox of Sanford and Mrs. George Simpson and children of Tampa. The bride was very handsome in her going away suit of a pretty shade of "putty" and a hat to match.

Mr. and Mrs. W. B. Williams, with their three handsome children of St. Petersburg are enjoying a visit with Mr. and Mrs. S. W. Savage at their hospitable home on Graham avenue.

Miss Martha Fox of Sanford and Mrs. George Simpson and children of Tampa are the guests of Mrs. R. W. Lawton at her residence on the Hill.

J. V. Grist of Sebring, Fla., who is inspecting the citrus groves in this vicinity is stopping at the Cushing House.

**UPSALA AND GRAPEVILLE**  
An ice cream social is being planned to be held on the Presbyterian church grounds here on next Saturday night, the 25th, for the benefit of the new Sunday school.

The object being sought is a pleasant evening together and the money raised will be used to purchase more chairs, which are badly needed.

Ice cream, cake, coffee and lemonade will be sold and there will be a fish pond to try your hand at.

Everybody in the community and surrounding districts are invited to attend. Come out and get a dish of cream and in doing so swell the numbers and help along a good cause.

### WOODLAND PARK NOTES

A large party came from Lockhart to spend the day at Woodland Park. They were Mr. and Mrs. W. N. Kinem and family, Mr. and Mrs. Haskins and family, Mr. and Mrs. Hinson and family, Mr. and Mrs. Jones and family and Miss Ruby Roberts. They were so delighted with the park and amusements that they intend to bring their friends soon. Among the other visitors were Mr. and Mrs. Tyler, Jr., Mrs. Hines and friends, Mrs. La-Roque and children, Mrs. W. W. Brady and daughter, Mrs. G. E. Bynum and child, Howard Griggs, Carl Eaton, Mason Owens, Carl Biggers, Com. Howard and R. Robson from Sanford; Mr. C. A. Fox, Miss Katie and Jack Fox from Sylvan Lake; Mr. and Mrs. Perritt and children, Miss Bessie Bright and party of friends from Rands; H. R. Locke and Mr. Lyons from Monroe; Curtis Muse and friend from West Side; Mr. and Mrs. R. C. Fernald; Mr. and Mrs. V. A. Bishop and children, Mr. and Mrs. W. F. Countryman and Mr. E. A. Tompleton from Enterprise Junction.

The river is falling fast, so that by next Sunday the dock may be used again and the roads are dry and hard once more. A dance is being agitated by some of the young people of the West Side, to come off soon.

BARTLETT W. HERNDON,  
Administrator.

Elsie Janis in "The Caprices of Kitty," at the Star Theatre Friday

**Richmond Artist in Florida**  
The following is taken from a Richmond, Indiana paper.

"Would you like to own an island? Sounds like Robinson Crusoe or May Irwin doesn't it."

But it's Mr. and Mrs. A. B. Commons. The island is in the St. Johns River, Florida, six hundred acres of it, and it all belongs to Mr. Commons and his artist wife, Olive, who went South from this city seven years ago.

A small but interesting display of their work in a Main Street jeweler's window is reminiscent of the work done by Mrs. Commons when living in Richmond and having a studio on South Twenty-first Street, and at one time in the Colonial.

Mrs. Commons is a water-color and ceramic artist and in her studio on her island home has, with the assistance of her husband who manages the business aspect, made herself a reputation throughout the South for her miniature paintings of Florida scenes on porcelain and formed into brooches, cuff-links, pins, pendants and other ornamental forms.

This work is on sale in seventy-five large cities of Florida and other Southern cities and Mr. and Mrs. Commons have just completed arrangements with a Northern jobber in houses to have exclusive sale of their products in the North.

All their porcelain is imported direct from Germany and one pendant medallion used by Mrs. Commons is the only one of its class ever brought to this country.

The Commons studio home on their six hundred acre island is visited by people from all over the United States. They have their own motor boat, which they use for trips to the mainland, Sanford being their post office.

"Florida is very cosmopolitan," said Mrs. Commons, "and we like it better than we ever expected to like any place. One meets people from every section of this country and many foreigners. We have made many delightful friends and our life is full of variety. The climate is charming, the air always invigorating. From the window I can sketch and paint every day in the year if I never left the house. I can see fifteen miles one way over the prairies on the mainland and have a diversified view of water and tropical forest from the other."

Mr. and Mrs. Commons will remain in Richmond for several weeks before returning South.

COUNTS NOSES OF SEMINOLE SHOWS GAINS

CENSUS ENUMERATOR PUTS IN HIS FIGURES ON POPULATION

The census of Seminole county has been compiled by Census Enumerator H. E. Tolar and the figures show a remarkable gain in the past year for the entire county.

The two precincts of Sanford total 6567 and the entire county figures a total of 9450. Two years ago when the population of Seminole was figured for county division purposes there were some 5000 souls in the area of the proposed new county and the census figures of today show an increase of 1450 people, demonstrating that the new county is attracting new people and that the older residents are increasing the family status.

Mr. Tolar deserves credit for the capable manner in which he compiled the county census. It was the first time he ever attempted to take a census and his figures will no doubt be found correct by the census board and passed favorably. He did not attempt to pad the returns or guess at the families but personally or by his assistants covered every bit of the county and the figures are underestimated somewhat as he confesses that in one or more instances he may have missed a member of the family but Mr. Tolar wanted the true statement of the number of people even though he was paid so much per name. It can be safely said that the census as taken by Mr. Tolar is about as near correct as it can be given and the figures are a surprise to the people of this city and of this county showing a much larger count than any one anticipated. Below is the official count by precincts.

Table with 2 columns: Precinct No. and Population. Rows include Sanford, Monroe, Paola, Oviedo, Geneva, Chuluota, Gabriella, Longwood, Lake Mary, Altamonte, and Total (9450).

SEARS PLANS TO INCREASE MEN IN REGULAR SERVICE

He would allow Congressmen and Senators more Cadet Appointees

Plans for increased military efficiency are contemplated by Congressman W. J. Sears of Kissimmee who is considering introduction of a bill before congress permitting representatives and senators to appoint cadets to West Point and Annapolis annually instead of every four years or at such a time between that period whenever an appointee drops out or is expelled from the institutions.

"I believe the complaint that there are not enough trained officers available could be eliminated if such a plan were adopted," said Congressman Sears. "and I intend to take the matter up with the secretaries of war and navy just as soon as I get back to Washington with a view to introducing a bill in the lower house which will make these provisions."

"Heretofore and at present each congressman is allowed to appoint one young man to the military and naval schools every four years and they cannot make another appointment until he has completed his courses or dropped out. In the case of senators two appointments are allowed under the same conditions. The men graduate from the schools and retire to private life and in a

INTER-COASTAL WATERWAYS VIA ST. JOHNS RIVER

Another Floridian gives Reason For Selecting This River

Feeling that too much cannot be said upon the advantages of the St. Johns river for the Intra Coastal Waterway Route through Florida I wish to still further bring the matter to the attention of the public.

It appears ridiculous that the government should again contribute to the East Coast canal project having already made quite liberal donations and those having the matter in charge having failed utterly to satisfactorily complete the undertaking and render it of the greatest service they now claim it will afford the state. The physical difficulties they have encountered in their efforts to bring this canal to a successful issue have so far been too great for them to overcome and they now turn again to the government and pray for help which it rendered will necessarily be far greater than to abandon it entirely and to construct the one proposed instead via the St. Johns river to Lake Harney, thence across to Indian river at a point south of Titusville. Were there no other reasons than that the canal thus built would serve acceptably as great a number of the citizens of the state and accommodate as well the needs of the government and state this alone would be sufficient but the facts are that it would in a much greater degree meet the present and future needs of the government and serve threefold more people from its inception.

Are not the eyes of America turned upon South Florida at this moment and observing the tremendous strides that it has made in the last decade is it not reasonable to suppose that it will continue with ever increasing rapidity? Then why is it reasonable to expect our government to make an appropriation that

Continued on page 4

ORANGE COUNTY BRICK ROAD IS BEST IN STATE

VITRIFIED BRICK WITH CEMENT GROUTING SEEMS TO BE THE REAL THING

Orange county probably has the best system of brick roads in the state of Florida. They have tried two different methods down there in laying their system of brick roads. The road from the Seminole county line to Orlando via Maitland and Winter Park is grouted with cement and has the wooden curbing making a road that is much smoother than the ordinary brick road and seems impervious to wear and tear of cars and wagons.

The road now being constructed from Orlando to the Osceola county line will be filled with sand and have the concrete curbing and this road is also perfect in construction, only the best of brick being laid under the careful inspection of Engineer Ramsey, who has gained a reputation as being a regular customer in demanding the best brick from the manufacturers and making his demands stick.

These two methods of construction will be watched carefully by other counties considering brick roads and it is thought that the roads with the cement grouting will

prove to be the ultimate road for Florida, although at present it is in the experimental stage.

Orange county was fortunate in having a man like Engineer Ramsey, a man who is thoroughly competent in every respect and brings to them not only a knowledge of materials and engineering and road construction but a man who has seen paving material in different parts of the United States and has experimented with much of it.

Orange county is now completing the road south of the city to the Osceola line and also the roads to Winter Garden and Apopka and when finished will have more miles of good brick roads than any other county of Florida. Old Orange was the pioneer county in the making of good roads twenty years ago and as yet the poorest leader in the state, while not having as many miles as a few months ago, is equally as good a system of brick roads and the construction of roads in Orange can be followed with equally good results.

GEN. GILCHRIST MAKES REPLY ON WATERWAYS

SAYS HE WAS NOT AWARE OF IMPORTANCE OF ST. JOHNS RIVER

Punta Gorda, Sept 20 Editor, Sanford Herald -

In the Intra-Coastal route provided by law for the submarines of the Press in attacking or in torpedoing a candidate, the same size proposition as determined by the space in the paper, must be allowed a candidate. I will not ask for a column and a half as used by "Promover" in your issue of September 17th. Come over would have sounded more familiar to me.

At the meeting held in Jacksonville in the winter of 1913-14 by the National Waterways Association, the name being its formal name however it was shown that an Intra-Coastal Canal from Boston down to some point in North Carolina or South Carolina had almost been completed. Citizens of the East Coast put in their claim for the enlargement and acceptance by the Government, of the East Coast Canal. I was present at that meeting. That Association more or less approved of that proposition. So far as that great Convention was concerned, it was not mentioned "That the St. Johns is the nature-provided route for the Intra-Coastal Waterway through the State."

I regret very much to say that I never heard of this route until a friend of mine in Palatka, wrote me on relation to the same. He had seen in one of my circulars the following "The Government should own the East Coast Canal, paying a reasonable price therefor. I had already had printed 10,000 copies of the first page of my circular. The circular could not be torn up, as the cuts for the two hats were then in Jacksonville, being used in printing certain matter to be sent out with copies of the Laws of the State. I therefore had printed on the second page of these circulars, the following headed "Inland Waterways Location" "The United States Government is building an Inland Waterway from Boston to Key West. Two routes are proposed for Florida, one along East Coast Canal, the other using St. Johns River, thence to Indian River about Titusville, thence down the East Coast. The selection as to the better route should not depend upon politics or votes, but upon the best interests of the country, as determined by the Engineers. A few of the second page of this circular had been printed before this information was received. In a few

days I will get out a new circular, practically substituting this for the former reference to the East Coast Canal, making this one reference answer for the two. I explained this thoroughly to Mr. "Promover."

I have not the slightest idea what will be the determining factor in the selection of the Florida portion of the Intra-Coastal Canal. I should think then commerce, and the use of the canal for sub-marines or other war vessels in time of war, will enter into consideration.

I am familiar with the fact that lands were granted the East Coast Canal by the State of Florida. Never-the-less, in case the Government should decide upon that route the Government will pay the Canal people for it on the same principle that if the Government were to buy on of the state land grant railroads, the Government would be mighty likely to pay the railroad company for the same.

However, I would state that there are a great many things in Heaven and Earth of which I am ignorant, one of which was the proposed Canal on the St. Johns River. That has been thoroughly impressed upon me by Mr. "Promover. As to whether the Government will "Come over" to his ideas or not, will depend upon the lights, figures and facts shown. I presume, to the Engineer Corps of the United States. Whoever is elected Senator should "tote fair" with both propositions.

Mr. "Promover" mentioned that Sanford was spelled "Sandford," as though there was a sand ford leading through this Great Inland Waterway, through the beautiful Lake the banks of which is crowned by the growing, beautiful and prosperous City of Sanford. My stenographer spelled it "Sandford." On the envelopes it could have been observed that the "d" was partially erased or crossed out. This was done at my suggestion. I do not plead guilty to not knowing how to spell Sanford.

Very truly yours, ALBERT W. GILCHRIST.

The many friends of Rev. Steinhilber will be delighted to know that he will be able to preach on Sunday. Rev. Steinhilber was injured at the time in the Hines building several weeks ago and since that time has been unable to leave his home.

CLYDE LINE RIVER TRIPS ARE CROWDED

SECOND SESSION SEMINOLE BAPTISTS HELD AT UMATILLA

Association meeting is well attended and Reports were good

The second session of the Seminole Baptist Association convened at Umatilla Sept. 20th and 21st. W. W. William of Tavares was elected moderator to succeed G. W. Holmes, who was compelled to retire on account of ill health. J. O. D. Jenkins of Sanford was re-elected as clerk and treasurer.

The Association was well attended, almost every church within its bounds being represented; the delegates were royally entertained by the good people of Umatilla in their characteristic manner.

Reports from the various churches showed excellent work having been done during the past year, notwithstanding the so-called hard times. Church buildings having been improved Sunday school rooms constructed and the cause of missions and benevolences liberally cared for. In point of membership a number of the churches showed remarkable growth during the past eleven months the net gain in membership is given for some of the churches as follows: Altoona 20, Daytona 19, DeLand 37, New Smyrna 33, Sorrento 26, Tavares 19 and Sanford 76.

Churches from other associations coming into the Seminole at this time were the churches at Christmas, Oak Hill, New Smyrna and Seville.

Rev. H. S. Rightmire of Daytona preached the annual sermon. Other devotional services were in charge of Rev. George Hyman of Sanford. Dr. Lincoln Hulley of DeLand delivered a splendid address on the Psalms which made a deep impression on all who heard it.

Dr. S. B. Rogers, Sec'y State Board of Missions, addressed the Association making helpful suggestions and stating the needs of

IMPROVEMENTS ON THE WATER FRONT WILL MAKE SANFORD GROW

With the many hundreds of visitors coming to this city by every Clyde Line boat on the summer excursions from New York to Sanford, with the new Clyde Line dock and depot ready for occupancy and the new brick warehouses being built for wholesale houses near the Clyde Line dock this part of Sanford is presenting a busy appearance.

Last Sunday the new Clyde dock was used for the first time. The dredge boat has been busy for several days dredging out the channel between the old dock and the new one and it was ready for the big steamer Osceola when she started on her new berth and the excursionists disembarked for a stroll over the city. The cheap summer rates are proving so cutting that both the Osceola and the City of Jacksonville are kept busy on the St. Johns river and the boats are coming in week days and on Sunday.

The old warehouse and dock are now being torn down and the new structure will present quite a different appearance as the lot comes in from Enterprise and the new bulkhead and warehouse and depot are shown in all their new beauty.

The new Clyde Line improvements here are worthy of more than a passing notice as they bespeak the wonderful development not only of Sanford but of the river traffic that has grown so large as to call for new buildings twice in the past few years. With the government sanction for the St. Johns river to be made the upper end of the Inland waterways the traffic on the river will double and it will be no uncommon sight to see a dozen or more large river packets tied up at the municipal wharves every day.

The bulkhead and the river front will soon be coming into their own. The work throughout the state. He highly commended the spirit of progress and the many progressive movements which this Association has put on.

COMMERCIAL CLUB CALLED TOGETHER FOR FAIR QUESTION

Whether Seminole Shall Exhibit at Orlando or at Home

The Sanford Commercial Club will hold a meeting next Friday evening October 1st, for the purpose of deciding on the Sub-Tropical Mid-Winter Fair for the coming year at Orlando.

The following communication was received by the secretary from the clerk of the board of county commissioners.

Sept. 10th, 1915. Mr. W. M. Haynes, Secy. Commercial Club, Sanford, Fla. Dear Sir:

I have been instructed by the commissioners of Seminole county to write you as secretary of Commercial Club to get the views and cooperation of the Commercial Club of Sanford, in regards to participating in the Sub Tropical Fair at Orlando, the coming year, would like to hear from you by the next meeting of the Board.

Yours respectfully, E. A. Douglass, Clerk.

By Jas. C. Roberts, D.C. It is hoped that every merchant and citizen of Sanford will attend this meeting, as final action in regard to a fair for this year will be taken. Everyone should be interested in the matter of a fair and it

is the purpose of this meeting to determine just what is the best plan and whether we will cooperate with Orlando this year or have a fair of our own.

Paper for Winter Park

The Herald has issued posters announcing the fact that F. Ellison Adams will start a paper in Winter Park in October. Mr. Adams is well known in Sanford and also in Orange county, having passed the greater part of his childhood near Maitland, where his father now resides. Mr. Adams thinks the increased growth of Winter Park and the wonderful possibilities of that section are an inducement for the starting of another moulder of public opinion and he will forthwith set forth to battle with the problems of the day. We wish him success in his new undertaking and hope the people of Winter Park will give him the support which this enterprise warrants. There is nothing that tends to build up a town as rapidly as a good newspaper.

Among the prominent Orlando visitors to the city yesterday were Mr. and Mrs. Basile Brosiere and Harry Dickson. Mr. Brosiere is the business manager of the Orlando Reporter-Star. Mrs. George B. Dickinson is home again after a pleasant summer spent in the mountains of North Georgia.
