

## Lindbergh Baby Is Still Missing With Clues Of No Avail

Roads Cleared Near Estate To Help Return Of Kidnapers; Ransom Held Ready

BOSTON, Mar. 3.—(A.P.)—An airmail letter, dropped here today, purported to describe in detail the home and locality in which the kidnaped son of Colonel Charles Lindbergh is secreted. Police said the letter "looked good" and hinted the house was located not far from scene of kidnapping.

HOPEWELL, N. J., Mar. 3.—(A.P.)—The Lindbergh baby is still missing today. For miles on either side of the Lindbergh estate, however, the road was cleared to make easy the return of the kidnaper reported to be demanding \$50,000 ransom which Colonel Charles Lindbergh is ready to pay.

Strict orders were issued today to keep the roads cleared and to keep the police, photographers, and every one moved back to Hopewell four miles from the Lindbergh home. Inside the area police patrolled.

Governor Moore visited the Lindberghs and afterward stated positively that no contact with the kidnappers of the child had been made either by the Lindberghs or the police.

There's absolutely no basis for the report that the baby's return is expected today.

The governor said the Lindbergh garage has been turned into a sub-police station equipped with 15 telephones, a radio set and a teletype cut-in with four state police networks.

It is said the Lindberghs are hearing up well under the strain. Meantime police received numerous reports of clues to the baby's whereabouts but each proved erroneous. Visibly showing the strain Lindbergh went for a walk through the woods with his dog today but upon return went into seclusion.

Reporters and photographers evacuated the grounds at dusk at the request of the careworn colonel. They left behind a picture of the Morrow millions and the Lindberghs' own fortune as potential aids to hundreds of puzzled police and thousands of searchers who have been spurred into action by President and public alike.

A demand for ransom coupled with a threat of injury to the blonde, rosy-cheeked baby of 20 months was met with a willing.

## Hunt Is Intensified For Assaulters Of Honolulu Woman

HONOLULU, Mar. 3.—(A.P.)—Encouraged by the capture and sentence to life imprisonment of John Fernandez a few hours after his attack Tuesday upon a Japanese woman, police intensified their search today for the man who assaulted Mrs. Kathleen Hope Saturday night.

Their task, however, was much more difficult than the one of Tuesday when they had a good description of the daylight assailant, and soon arrested Fernandez, 21, who confessed.

The attacker of Mrs. Hope, wife of a naval cadet, man, invaded her lonely cottage near Waikiki Beach at night and was wearing a mask. The victim caught only a glimpse at his face when the mask slipped. She believed him an Oriental.

Preparations were being made for trial of four persons accused of shooting to death Joseph Kahahua, one of the five men tried without jury agreement on a charge of assaulting the young wife of Lieut. Thomas H. Massey of the United States navy, in September.

Postponement will be asked until Apr. 4 when Attorney Montgomery White said, to permit time for Clarence Darro, of Chicago, to arrive and aid in the defense.

## MRS. HOOVER IS NEAR PALATKA ON ST. JOHN'S

First Lady Of Nation Passes Night Near Green Cove Springs Upon River Cruise

JACKSONVILLE, Mar. 3.—(A.P.)—Mrs. Herbert Hoover, making a cruise of southern waters, proceeded up the St. John's River today after having spent a night aboard the motor-ship Sequoia anchored near Green Cove Springs. It is reported she may continue to Palatka before backtracking to the mouth of the river to resume her trip down the East Coast.

Reports had it that the Sequoia had headed for St. Augustine, as the first lady of the land continued her "rest" cruise. Some time after the boat had left the Standard Oil Company's dock, where it had been refueled and provisions taken aboard yesterday morning, when the Sequoia had not passed eastward under the St. Johns River bridges, newspapermen here began a search for the craft.

It was located at Green Cove Springs and then it became known that Mrs. Hoover had expressed a desire to see the interior of Florida from the waters of the St. Johns. It seems, too, that the trip is also an inspection one for Captain W. T. Coal, in charge of the Sequoia, and Mrs. Hoover has requested the captain, attached while she and her party enjoyed the Florida semi-tropical scenery.

Indications last night were that the trip upstream will be continued for at least another day, although the secret service men attached to the party expressed that no definite plans had been made for the trip Palatka may get a glimpse of the party today, however, for if the trip is continued the White House automobile will be driven to the Palatka county seat for Mrs. Hoover's use there.

## County's Children Made Candidates Of Health Award

Every pupil of Seminole County's primary and grammar schools was Wednesday afternoon made a candidate for the annual awarding of a Blue Ribbon Health Certificate offered by the Health Division of the State Department of Public Instruction.

For the next six weeks, parents and teachers of these children are expected to check carefully 22 different health improvement methods which must be met daily by a child is eligible to the award of a Blue Ribbon, in recognition of physical excellence.

Here are the health habits it is hoped will be established in every home during the next six weeks. Selection of proper food: Child eats one fruit daily; eats one green or raw vegetable daily; drinks two glasses of milk daily; eats one whole grain cereal daily.

2. Proper eating habits: Child chews food well; eats sweets only after meals; washes hands before eating; drinks four glasses of water daily; attends toilet after breakfast.

3. Sleep and rest: Child sleeps with windows wide open; sleeps at least nine hours each night; "goes out" only on Friday or Saturday night.

4. Exercise, fresh air, and sunlight: Child plays outdoors for at least one hour daily; takes no strenuous exercise within one hour after meals.

5. Neatness and cleanliness: Child takes bath twice a week; washes teeth twice a day; washes hands after visiting toilet; face, hands, nails cleaned daily.

6. Clothing and dress: Child wears suitable clothing for exercise; clothing and shoes to be well selected; uses clean handkerchief daily.

Last year 1873 Seminole County pupils were entered in the contest, but only 489 were awarded Blue Ribbon certificates, mainly because of the lack of co-operation on the part of the parents. It is hoped by sponsors of the movement locally, that a better than 50 percent award will be made this year and that by 1933, every child in this county will have proven himself eligible to the award.

## ROTARY DOLLAR GETS STARTED

W. M. Haynes, of the Rotary Club, started above today from S. O. Gray, president of the club, who is in charge of the fund-raising campaign. The club is working to raise \$100,000 for the construction of a new school building in Sanford.

## SEARCH PUSHED EXCITING FLIGHT FOR KIDNAPERS IS MADE THROUGH OF OHIOAN CHILD SMOKE LADEN AIR

Son Of Wealthy Contractor Object Of Hunt In Wide Area

MIAMI, Ohio, Mar. 3.—(A.P.)—A search for a kidnapped child, the son of a wealthy contractor, is being pushed today in a wide area. The child was last seen in a smoke-laden air near a construction site in Miami.

The father, with a contingent of police, is searching for the child. The child is believed to be in the hands of a group of men who are planning to flee the country with him.

## Founder Of Boys Organization In Germany Speaks At Kiwanis Club

Sanford Kiwanians learned with interest Wednesday that one of their members, Julius Dingfelder, well-known producer buyer, is the founder of the Youth-Movement in Germany, an organization of boys and girls patterned after the Boy and Girl Scout movement in America.

In an interesting impromptu talk which followed when President Zachary announced that Mr. Dingfelder had been appointed scoutmaster of the club's Boy Scout troop succeeding Kiwanian Howard Overlin, the new scoutmaster pictured for his hearers, some of the aims and ideals of the movement to teach love of nature and brotherly love to the youth of Germany.

Mr. Dingfelder began the organization of the movement shortly after the World War, in time he had a part. Since that time it has grown to tremendous proportions, and the hopes of its founder have been realized in gratifying measure.

He stated that the one plan was to get children of every class of people out into the open where, in common as they studied plants, animals, birds, bunched together, ate together, and hiked together, much of the horror of war and its misery might be wiped from the minds of the youthful citizens, and a new nation of leaders be started on its way.

## WOODRUFF TO SEEK CHAIR IN STATE SENATE

Pioneer Resident Of City And Ex-Mayor To Oppose Parrish And C.M. Trammell

Frank J. Woodruff, Sr., pioneer resident of Sanford, one of its greatest taxpayers, and a former representative from this county today announced he will seek the office of state senator at the 1934 election.

Mr. Woodruff, 61, former mayor of Sanford, has been a resident of Sanford for more than 30 years. He has been active in the community for many years.

He has been in the mercantile business in Sanford for more than 30 years, following his attendance at the Sanford College in South Carolina.

The political life began when he was chosen as a member of the city council in 1913. He served later on the board of county commissioners of Orange county, and upon the creation of Seminole County in 1915, was appointed to the new board of county commissioners by Governor Park Trammell.

In 1918, Mr. Woodruff was elected as a representative from this county, and in 1924 he was re-elected for another two-year term. He voluntarily retired from seeking further service in the legislative halls of the state at the end of his second term, and was not a candidate in office.

Mr. Woodruff is a member of the Seminole County Chamber of Commerce, the Masons, the Sanford Lodge of Elks, the Knights of Pythias, Kappa Alpha fraternity, and is a member of the Presbyterian Church. He resides with his family at 520 Oak Avenue.

## Big Jump In South's Building Is Reported

BALTIMORE, Mar. 3.—(A.P.)—A twenty million dollar climb in the South's construction activity was reported today by the Manufacturers Record for February.

The projects proposed or for which contracts have been let during February, the publication said, totaled more than \$77,000,000, compared with \$57,000,000 in January.

The aggregate involved in construction projects for the first two months of this year figured about 50 percent above that for the corresponding period of the 1921 depression.

## Judd Execution Held Up By Court Action

PHOENIX, Mar. 3.—(A.P.)—A formal notice of appeal to the state supreme court automatically stayed the execution of death sentence imposed upon Mrs. Winnie Ruth Judd, convicted "trunk" murderer. It had been set for May 11.

Mrs. Judd made an affidavit she was without funds to pay for the appeal record and transcript of the trial so the state under law must bear those expenses.

## TO HANDLE NAVAL STORES

SAVANNAH, Ga., Mar. 3.—(A.P.)—Arrangements have been completed whereby all remaining stocks of the Gum Turpentine Rosin Marketing association would be handled exclusively by the Columbia Naval Stores company. The plan will prevent stocks being forced on the market, an announcement said. The arrangement is effective today.

## BOSTON PITCHER DIES

CENTURY, Mar. 3.—(A.P.)—Ed Morris, Boston Red Sox pitcher, died today from knife wounds suffered during a quarrel with Joe White at a fish fry given Monday night in honor of the ball player.

## Peace Negotiations In Sino-Jap Fracas Have Broken Down

HOUSE WET BLOC GETS BEHIND 2ND MAJOR RUM BILL

Agrees To Lend Support Of Bill For Legalization Of Beer

WASHINGTON, Mar. 3.—(A.P.)—With one of their anti-prohibition measures well on the way to a vote, House wet bloc yesterday united behind the second major bill of this Congress.

Both the Republican and Democratic anti-prohibition groups moved to support the O'Connor bill to legalize beer of 2.75 percent alcohol by weight and tax the tax at three cents a gallon.

After the bloc had approved the measure it was introduced jointly by Representative William E. Hall (R., Ill.) and O'Connor (D., N. Y.). Both were among the 115 representatives who signed the petition completed yesterday to take the proposed state liquor control constitutional amendment away from the judiciary committee and bring it to a vote in the House on March 14.

Hull and O'Connor subsequently issued a joint statement explaining the new bill, the main purpose of which they said "is to raise revenue in these days of a national deficit of \$2,000,000,000 to relieve industry and business already overburdened with taxation from additional burdens."

"The latest proposal of some of the leaders of the House is to enact a tax on manufacturers, an evasive phrase meaning a sales tax," they said. "What that evasive tax will raise no one does even estimate. There is no machinery for its enforcement and no past experience as to its possible yield. From exact statistics based on past experience it can be safely estimated that a tax of three cents per pint of beer will yield \$500,000,000 of revenue per year to the national government, with many times additional revenue to the states and localities which surely need additional sources of revenue."

"Take your choice, Mr. Manufacturer, and Mrs. Consumer, between a sales tax and a beer tax, each raising the same amount of revenue."

O'Connor and Hull said the bill would declare the new beer non-intoxicating, permit its sale only in bottles and "abolish the saloon." A provision to keep convicts from selling it, they asserted "diagnoses the gangster and racketeer."

## DuBose Announces For Re-Election To Important Office

He P. DuBose, who has held the important office of supervisor of registration for Seminole County since 1913, today announced his candidacy for re-election to that office, subject to the decision of the voters in the June primaries.

Mr. DuBose expects to continue his long established record of faithful and efficient service if he is re-elected, and seeks the support of all voters of this county.

Among his qualifications is his having resided in this county since 1903, to allow him ample opportunity to become well acquainted with more than a majority of taxpayers. This qualification is of considerable value in the performance of the duties of supervisor or registration who must keep up-to-date the registration books signed by taxpayers.

Mr. DuBose is a native of Alabama, but has resided in Sanford since 1909. He is a veteran realtor and insurance agent of this city, and a taxpayer. He is chairman of the county school board and has been a member of that organization since 1915; he is president of the Seminole County Y. M. C. A., and a member of the Seminole County Chamber of Commerce.

## EX-GOVERNOR DIES

MARIETTA, Mar. 3.—(A.P.)—Former Governor Joseph Brown, 81, for 30 years a leading public figure in Georgia, died today. He had been seriously ill recently following a long period of failing health.

## Japanese Terms Presented To Intermediary Stated Unacceptable To China

Negotiations for an armistice at Shanghai has broken down. Dr. W. W. Yen, Chinese spokesman, told the League of Nations assembly at Geneva today. Simultaneously Yen's office presented a report to Secretary General Sir Eric Drummond of the League asserting the Japanese armistice terms as presented to Vice Admiral Sir Howard Kelly of the British Asiatic fleet were "absolutely unacceptable."

The report added a continuation of hostilities was unavoidable. Earlier today Japanese officials had announced a cessation of hostilities at Shanghai with the hope the Geneva assembly would work out a permanent settlement of the Sino-Japanese trouble.

Tokyo officials had announced all Japanese troops would be withdrawn inside the 12-mile zone at Shanghai as soon as possible and assume temporary defensive positions on that sector.

SHANGHAI, Mar. 3.—(A.P.)—Japanese forces pushed on westward over the entire Shanghai-Woosung front today behind the Chinese army retreating in a mass withdrawal and occupied, they said, the forts of Woosung, which had held out for a month against repeated onslaughts.

Their advance apparently had taken them close to Nansiang, 10 miles west of Shanghai, but they had not yet entered the town.

An intimation that the Japanese drive would be halted temporarily at Nansiang seemed shattered by official and private advices from Tokyo that the fighters would continue pressing on to the west until an official cessation of hostilities was arranged.

Although the Chinese positions in Chapel and the Kiangwan sector were broken, the warfare continued close to Shanghai. Japanese guns in the city's northern environs shelled the retreating Chinese ranks and new Chinese positions to the northwest.

The Japanese also attacked Woosung village and the forts nearby at the confluence of the Yangtze and Whangpoo Rivers, which had resisted repeated enemy assaults for a month.

A barrage from the guns of warships off shore covered the attack.

Doxens of great fires raged in Chapel, some of them more than a mile in length, adding complete destruction to that section of Shanghai to the conflict's toll. The fires were the outcome of artillery shells and incendiary bombs. Both Chinese and Japanese troops set the blaze hoping to hinder the enemy's operations.

The Japanese plunged along the entire front from the Shanghai-Nanking railway line northward to the Yangtze River. They said they took the Woosung forts at 8 A. M.

They had already pounded the forts' guns into scrap iron, but Chinese soldiers firmly entrenched roundabout, had prevented the invaders from breaking through their lines.

Finally beaten after five weeks of battle, the Chinese army executed a mass withdrawal along the whole front last night and this morning established a defense line running roughly north and south through Nansiang.

This morning the advancing Japanese had reached every objective assigned for this stage of the battle.

They had taken over the abandoned headquarters of Gen. Tai Ting-Kai at Chenja, and their left wing was within striking distance of Nansiang.

The advance was carried out over the most difficult terrain. To the rear of Shanghai the fields are criss-crossed by numerous canals and irrigation ditches, and as the Chinese withdrew they destroyed every bridge.

**Leap Year Dance At Trianon Big Success**

Entirely redecorated in orange and black the Trianon dance club, on the Orlando highway three miles south of Sanford, is said to have pleased more than 150 couples Tuesday night when it's first Leap Year dance was given "in honor of it's lady patrons," according to C. F. Proctor, owner and manager, in a statement last night.

Besides having a new coat of paint the hall was decorated with various colored Japanese lanterns, which were all lighted with pleasing effect.

Mr. Proctor said his Leap Year dance met with more success than he had anticipated. The idea of the affair was to give the women a chance to "cut-in on the men for a change," he said. "They certainly did well too," he concluded. Merio's Orchestra, regular Trianon orchestra which has recently adopted the slogan "The best five piece orchestra in the state," furnished the music.

**DUTCH HARBOR, Alaska, Mar. 3.**—(A.P.)—The crew of the motorship Eunice reported Ambula Island was throwing out a dense cloud of smoke and ashes.
