## House Rallies Again To Hoover By Voting Against Debenture

Farm Relief Measure  
Will Be Sent Back  
For Another Consideration  
Of Senate

WASHINGTON, June 13—(INS)—The House again rallied to the banner of President Hoover in the farm relief fight today when it voted to instruct its conference committee to reject the export debenture scheme of the Senate.

The huge normal Republican majority in the House, with the aid of some Democrats, proved sufficient to resist the determined effort of a Democratic-insurgent Republican coalition to win House approval of the debenture "rider" to the \$500,000,000 farm bill.

As a result of the House action, a new wrinkle on the farm bill will be sent by Senate and House conference committees. It is expected to result in the Senate committee taking the debenture back to the Senate for another vote, with administration leaders hopeful of changing enough votes there to defeat it.

The export debenture plan calls for payment of a bounty on exports of surplus farm products, payments to be paid out of receipts.

The tremendous House majority of 137 against the debenture plan exceeded the most optimistic prediction of administration leaders whose highest estimate was a majority of 100.

Many Democrats, particularly Tammany Democrats from New York and Democrats from thickly populated consuming centers such as Boston, joined with the Republicans. The "farm bloc" held close to the administration, the delegations being scattered votes from several states.

Immediately after the vote, Speaker Longworth named the previous conference committee consisting of Reps. Haugen (D-Iowa); Purcell (R) of Indiana; Williams (R) of Illinois; Aswell (D) of Oklahoma and Kincheloe (D) of Kentucky to meet a Senate committee. They will inform the Senate of the House's determined stand against the debenture.

The vote today was taken with out debate. Rep. Tilson of Connecticut, minority leader, who offered the motion to instruct conference to insist upon a motion of the debenture plan, immediately moved the previous question to block discussion.

## Agricultural Work In Sanford School Is Best In Florida

The vocational agriculture department of the Sanford High School, with a ratio of 303 pupils to a possible 1,000, led all other Florida schools during the past term, according to a rating recently telegraphed by the state department of education.

Plant City ranked second with 78, and Arcadia and St. Cloud followed. In attaining its high rank, the crop department, headed by Alex R. Johnson, was graded on the following points: type of instruction, enrollment, supervision, preparation of instructional physical equipment, and community and publicity activities.

Mr. Johnson today expressed satisfaction over the success of the year's work, which he said had been made possible through the wholehearted efforts of the pupils themselves together with the assistance of local fertilizer agencies, seed stores, agricultural supply houses, and the co-operative of both city and county school boards.

The instructor was pleased with the interest that has been shown by patrons and the public in general in the work of the department, and said plans are already underway to improve on the efficiency of the department next year.

In virtue of its record, the local school will be placed in national competition with scores of other institutions, among them being 12 southern schools besides Sanford.

**VOTE EXPECTED ON BILL**

TALLAHASSEE, Fla., June 13.—(INS)—A vote on the Taylor racing bill in the Florida Senate was expected today or tomorrow, contingent to treat the situation

## HOUSE BACKS HIM

President Hoover, whose motion to export debenture relative was rejected today in the lower house.

## MAYOR EXPLAINS PURPOSE OF NEW MUNICIPAL BILL

### Commission Seeking Authority To Deal With Bond Concerns

A bill has been introduced into the legislature empowering the city commission to effect a settlement with the bondholders relative to Sanford's outstanding financial obligations, according to Mayor Gray who stated this morning that the commission at the present time was without authority to conclude final negotiations in matter law favorable to them as to the City's interests.

The bill before the legislature, Mayor Gray explained, is called an "enabling Act" which merely enables the commission to take certain action that is necessary for a settlement of the problem, but does not specify what shall be done.

The bill before the legislature, Mayor Gray explained, is called an "enabling Act" which merely enables the commission to take certain action that is necessary for a settlement of the problem, but does not specify what shall be done.

## Million Dollar Gate Is Almost Sure For Paulino Schmeling Fight June, 27

By Davis J. Walsh  
International News Service  
Sports Editor

NEW YORK, June 12.—If you tried to tell anyone two years ago that the time would come when a German and a Spaniard would fight before a million dollars' worth of witnesses in an American city, he would have remonstrated with you in a mild, gentle way about remaining out in the sun too long. I personally am acquainted with a lot of Germans and Spaniards who could fight from now until next Thursday week and the event would remain strictly confidential for years and years. It must be that a legend depends on the German and the Spaniard in question.

Another the milk fund show, featuring Schmeling and Paulino is all of 10 days away this morning, yet the betting is "six, two and even" that the enterprize will run into a million dollars. If it does, it will be the only fight in all history to draw a million or better with two men, neither of whom is named Dempsey.

Dempsey has been most privately identified with every million-dollar fight we have had. He does slightly more than a million with Bowes; more than \$1,200,000 with Flory; some \$1,000,000 with Carpenter; \$1,000,000 with Tunney; in their first fight and about \$2,000,000 in their second. Dempsey, in brief, was the only million-dollar man of the fight racket.

According to those running the show, there is as much as \$125,000 "inside the window" even at this immature date, it being an accepted fact that only the rich or the rabid or both go for a thing like a prize fight with a lot of money back. The rest of us are too busy until the last moment trying to hold out breakfast money on the little money. Anyhow, I sense the fact that Madison Square Garden is much impressed with the prominence of its early customers, for it is soon to publish a list as long as the arm of confidence. They say the first 25 rows of "patron ring-side seats" are worth \$1,000 each.

This never happened before in any fight with which Dempsey was not identified. A fellow in the name of Tunney tried it with a certain Heaney, on an uncertain Heaney, and failed in the most aristocratic manner. Previously, his brother Tunney had been identified with some \$1,500,000 worth of fighting, assisted by Dempsey. The only inference to be taken from this is that the assistance must have been more important than the foreman, over-seer or scut master, as the case may have been.

There also is only one inference to be drawn from the belief that Schmeling and Paulino will "gross" more than a million dollars on the night of June 27. Dempsey won't be the prime factor this time; in fact, according to the last report I get, he won't even be there. The inference, therefore, is that boxing so popular to sponsor its second million-dollar man, if his name isn't changing, there must be three of them.

### Many Clues Flood Officers In Search For Bill Tallman

SAN FRANCISCO, June 12 (UPI)—With a reward of \$1,000 posted for the capture of William Tallman, young radio operator sought in connection with the murder of Mrs. Virginia Patty at Los Angeles, police today were flooded with possible clues.

The mystery radio crew was furnished by a woman who reported seeing a haggard youth answering Tallman's description, on a ferry boat the day after he disappeared from the steamer Admiral Benson.

Other reporters seeing the body of a young man floating in the ocean off Oregon, Cal., but the body was swept out to sea before it could be recovered. Although the headless body found in San Francisco Bay has not yet been identified, police apparently are now satisfied that the body is not that of the missing radio operator. Police were also working on the theory that Tallman may have shipped to the Orient on one of the vessels leaving this port. That Tallman had remained abroad the Admiral Benson is hiding was dispelled when the cargo of the ship was unloaded at Portland and every part of the vessel thoroughly searched.

Tallman was last seen on the Admiral Benson last week just before the ship entered San Francisco Bay, when officers came aboard to arrest him. Tallman, who met Mrs. Patty while employed on the Admiral Benson as a radio operator, is charged with beating the woman to death with a brick.

## Endowed Choirs Would Lift Musical Standard

### So Says Singer, Advising That Charity Begins at Home

New York City.—Let American churches begin some of their charity at home, and when next they start up a fund for foreign missions, fit in the collection plate and secure an endowment for their own church choir.

This is the advice of Flo Tennyson, gifted American singer. "Churches throughout small American communities could bring happiness and useful lives to thousands of young girls who have voice and ability," she said. "One little pittance from each church budget to their church choir," declares Miss Tennyson.

She considers the small-town church choir one of the greatest training schools for singers, and looks up her belief by declaring that in the humble beginning of many of our great choirs, singers were traced they would be found in a small-town church choir.

Help Chorus  
Bays the singer: "Give the

small-town girl who cannot afford a teacher, a musical environment by providing her with talented choir teachers. If she has real talent, she will learn regularly in practice, poise from appearing before an audience, and develop a spirit of enthusiasm and perseverance because you have given her a teacher or teacher who inspires them qualities."

"Nearly all our very popular ballads tell a small-town story which the singer from the small town can interpret better than the city bred one. 'Glad Of You' which I am singing this year, tells a real country love tale."

"We've got just six little chicks, And a tiny little fence around 'em, One little pond and a toad, Six little trees, all the year there's evergreen around 'em."

"This means so much more to the girl who can picture this story from life, her own life. Many girls think they must sing in great cities and sing for fame, fame which they cannot feel or understand and neglect entirely their own homes, Give me American songs every time."

Smith as Henrietta Brewster, Peter Herndon as Stephen Brewster, and Mrs. W. E. Stone as Stacey. All of the members have appeared before Sanford audiences in amateur productions.

Among results of simplified and standardized production in industry during the last generation but it is impossible for management to always instruct the workmen from his own carelessness or the carelessness of a fellow workman.

Great headway has been made in accident prevention in industry during the last generation but it is impossible for management to always instruct the workmen to

use safety devices, "declared Mr. Lehman, "we certainly hope they will make it a point to turn their contracts over to one of the test workers this afternoon or this evening before our report-meeting tonight".

No way has yet been devised of raising taxes without increasing the cost of living.

THURSDAY, JUNE 12,

BIBLE VERSE FOR TODAY

**DESPERATE REMEDIES** — And if thy right eye offend thee, pluck it out, and cast it from thee; for it is profitable for thee that one of thy members should perish, and not that thy whole body should be cast into hell. — Matthew 5:22.

**AN OLD WOMAN TO A YOUNG GIRL**

O, the cherry bloom in the full of the moon

Is fresh from the brow of May,  
And it bubbles from branches where roots harpoon

The depths where her earth-pots stay!

So you'd better go on, my lass, away—

You'd better go on away—

For the old frogs down in the glen, they say

That a bit of a slip will make you fall!

O, my own this hair and eyes are gray

Since I lost the taste of the broth of day,

So be off with you now to sweetly lay

On your curtailed couch; and softly pray

That you will not wake till the last white ray

Of the full moon die in the cherry spray!

Sonia Ruthie Novak in Harper's Bazar

Get on the band wagon. The celery advertising campaign is going over the top.

The City Commissioners are conferring with the bond men, or, rather, the bond men are conferring with the City Commissioners.

Since the fruit fly campaign began we have noticed a number of old groves which appear to be in better condition than we have ever seen them before.

The essence of "Harmony Dinner" seems to be that Rascoe and Al Smith will remain as the heads of the Democratic party, a fact which destroys for the time being all possibility of harmony.

A Kentucky woman, one hundred and one years old, sat up in bed the other day to smoke a cigar, and promptly died, passing beyond question of doubt the evil effects of tobacco.

A postman mangled in Tampa fifteen years ago has at last reached its destination in Lakeland, demonstrating the pertinacity, if not the efficiency, of the post office department.

Funny, but nearly always the first words, if any, after the sandwich are: "I wasn't going fast," says Clough Johnson. And the last, "It was the other fellow's fault."

Tampa is passing laws to control air traffic. How long will it be before red and green lights are installed at intersecting air lanes, and traffic cops regulate airplanes from balloons hanging from stationary balloons?

Colonel Stewart who was recently fired as chairman of the board of directors of the Indiana Standard Oil has donated two hundred thousand dollars to Coed College as a memorial to his father. Apparently being out of a job hasn't hurt him much financially.

Representatives Hagan and Ratzenberger have been flooded with local telegrams urging them to oppose the proposed retail sales tax which has been reported favorably by the Senate committee. When you want to get the taxpayers up in arms propose to tax them.

New York has some very high class bootleggers indeed. Maxence de Polignac, a French count, has recently been arrested there for participating in a large internal tax. He is almost getting to the point where foreign nobility can make more money in the liquor business than by marrying American heiresses.

Chairman Knut has resigned as chairman of the state central committee of the G. O. P. And this, just after it had been formally announced that all was peace and harmony in Florida Republican ranks. National Democrats got shamed in an effort to get together. Maybe Florida Republicans should try the same treatment.

## Good For The Health

Take plenty of exercise. Muscular activity stimulates the circulation, assists in the elimination of bodily wastes, relieves the brain of daily worries, and refreshes and invigorates the whole human machine. Especially if you are an office man, who spends most of his daylight hours in close concentration on business problems and most of his evening hours in thinking about events of tomorrow, you need the physical relief which comes from exercise.

A New England banker who has been taking setting up exercises in the drills conducted over the radio by the Metropolitan Life Insurance Company in the interest of prolonging the lives of its customers, writes that he has not only found the exercises highly beneficial to himself, but also that he is encouraging the personnel of his bank to take part with the object in view of increasing their efficiency. He writes as follows:

"I have just sent in ten names of associates here in the bank and have offered in behalf of the bank two dollars to anyone who will do the health exercises three mornings out of six. We feel that anyone who really starts in is likely to continue and that therefore the offer is a good one for the bank to make." He might have added that anyone who will take the exercise three mornings out of six will find himself so benefited that he will take them the other three mornings also.

Man's body is supplied with innumerable muscles, all for some good purpose and all intended for daily use, but the specialization and conveniences of our modern civilization have so eliminated physical effort for so many things that comparatively few of our muscles are ever of any practical use at all. Time was when men walked to work in the mornings. Nowadays they ride in automobiles. Some of them use their legs so little it seems altogether likely that before many more generations men will be born without legs at all.

Overwork may wear out the human machine, but lack of use of many of its various parts will wear it out much more quickly. A few men of forty-five and fifty have heart trouble because they worked too hard in their youth and strained muscles, but more of them suffer from this ailment because they have spent the best years of their lives sitting in an office chair while sluggish kidneys failed to carry off the bodily wastes leaving them to poison the blood and damage the walls of the heart.

## What Would You Have Done?

Truth is indeed stranger than fiction. Queer things happen in the stories of de Maupassant and Balzac, but French newspapers told last week of just as strange an event. They told of an intelligent young man who cared for his mother throughout a long illness until she, unable to recover and writhing in agony, begged him to kill her. Time tells us this way:

"To kill his mother at her own pleadings, or to let a painful cancer kill her, was the problem put to one, Richard Corbett, intelligent young Englishman. The two, since his father's death, had lived together in southern France. Last November Miss Corbett's cancer became unmanageable. Last February doctors decided that radium, X-rays or other measures could neither cure her nor give her respite from her terrific pain. The son nursed her, heard her cries, watched the wrinkles of agony deepen in her face. She lacked strength and means for suicide. She begged his pity to kill her. She reasoned with him. Her death was certain. He could but bring it to her sooner, and far more mercifully than the cancer was doing. He pondered.

In France 40,000 people die each year from cancer, he learned. Almost half of them kill themselves to end their pain. Should not the state through pity put an end to the suffering of those incurable who ask it of us?" he asked himself. Of course, human life is invaluable. Yet the state executes criminals. And of course religion forbids good intentioned murder as well as offensive murder and suicide. But religion is a personal matter. Step by step he puzzled out the logic of his ethical problem: thus the state, for reasons which are at bottom religious, the right to refuse to incurable the pity which they demand? Has not the individual the right to his liberty? So long as the law is not amended the law throws on to individuals the responsibility of the solution of the problem?

"Richard Corbett assumed the responsibility. He gave his suffering mother a narcotic. Then he shot her through the head. Next he shot himself, but lived. Last week he was in the hospital at Hyères, reluctantly alive and detachedly wondering what state and social judgment would be on his malice. He wrote a long letter to Le Matin, our handiwork Paris daily, explaining his deed, admitting his "guilt," urging that, come what might to him, the law be changed. "I regret nothing," he said."

## PEACE OR POISON

THE NATION

Overtones of doom reverberate from which escape would be impossible from Cleveland. This is no ordinary disaster, to be dismissed with a

genuine pity and sympathy for the bereaved. We learn that the perfection of its deadliness goes on daily throughout the world, and we hope that includes every man and woman in these United States. A deep impression, for it holds a threat of personal danger that cannot be despised. Not

many years ago thousands of men on the battlefields of Europe were dying of poison gas, as scores died in the Cleveland clinic. Heretofore

only those who survived attacks during the war had had any conception of the horror of poison gas. These survivors were not numerous and their ranks have thinned since then. Just as in Cleveland, many who thought they had escaped have died or have been stricken with incurable disease traceable to the effects of gas. The Cleveland disaster brings home to the civilian with terrible force the significance of the "next war," for which every war department in the civilized world is feverishly preparing.

A half dozen airplanes or, for example, a few Zeppelins loaded not with cheerful and friendly passengers but with gas bombs that could wipe out in a few hours not merely scores but hundreds of thousands of lives with the silent yellow death that invaded Cleveland. Those who escape would perish in the pestilence of unburied dead. Every center of population would be a death-house.

Arthur Brisbane, in the Hearst press, takes the disaster as his text for a typical militarist sermon demanding more and more preparedness. Such propaganda is as insane as criminal, as it is self. Preparedness against poison gas is a delusion. There is but one choice to be made and it must be made quickly. The people of the world must decide whether they will have peace — or poison.

## THE SENATE'S SECRET SESSION

BRUNSWICK NEWS

The latest quarrel in the United States senate has arisen over the vote taken in the confirmation of Irvine L. Lenroot as a member of the court of customs appeal, and because a correspondent of the United States Press secured the result of the vote, which was taken in executive session as all such votes are taken, and published it, the senate at once had the offending press agency barred from the floor of the senate. And a few days following this section it extended to bar to all new agencies, something that had not been done for more than twenty years.

It is true that the genetic has been in the habit of taking confirmation votes in secret. It is also true that all the senators have been under oath not to divulge

true that the news agencies had been granted the privilege of one representative each on the floor of the senate as a matter of courtesy and that these correspondents are under obligation, as a matter of fact, not to divulge privately or publicly anything that may occur in the senate when it is in executive session.

It is a well known fact that the news gathering agencies have religiously refrained from violating the ethics of the profession as well as the confidence imposed upon them by the senate, to the extent that only once or twice during a long period of years has complaint been made of deviation.

However, in the present case, there seems to be something much deeper for the senate to investigate than the violation of its ethics by a newspaper correspondent.

The vote as taken on the confirmation of Lenroot was known only to these senators present at the time, and consequently some one of them must have divulged to the newspaper correspondent how the vote was cast. The correspondent was under no obligation not to publish the list as he received it. The senator who gave it to him was under oath not to give out the list, either orally or in writing.

But the senate is a peculiar mixture, and when it becomes necessary to investigate itself, it seems to forget how to go about it. On the other hand, if it is possible to make some outsider assume the role of "notary," the senate is delighted to handle the matter in that way. So it looks that the present rumpus will be settled in some such manner. Surely it cannot be expected that the senate

will go to the trouble to determine

who of its august body was careless enough of his oath to practically openly violate it.

And it may be that the withdrawal of the ban on newspapers being represented on the floor of the senate, for it will come very soon, there will be a changing of the rule concerning votes on confirmations so that they may be taken in public.

Such matters belong to the public, and should be handled without secrecy. But it will not be an easy matter to convince the United States senate that it is a part of the body politic.

## POETS OF TODAY

AS RIDGE

You shall have lived that wild,

wet Saturday

I skinned the road that ribbons

our lush valley

Between stark sullen hills and

busting bay.

The sun, with gray retreat and

golden rally,

Made war on roving cloud banks in

the sky.

And wayside puddles mirrored

the high battle.

Shaded rabbits bounded out as I

sped by;

Gray gulls cut vague arcs in the

air, and cattle

Stood numbly huddled in the chill

green fields.

I drove up to the ridge above

the ocean.

Where fog forever clings, and

nothing shields

Life from the wind's unending

noise and motion.

You have bailed the men and

women bent

To gather artichokes on slopes

together,

While fat-launched horses, drawing

heavy loads, went

Behind, their heads bowed to

the blowing weather.

As I went past the last steep

little farm,

The soft mist thickened to

a hazy drizzle.

The wild rose in a note of wailed

alarm.

And mountains leaped bleak

Beauty through the mizzle,

I thought you ride, then thrilling

By my side,

You would have loved that day

of sun-and-shower.

Or singing living, when I took the

run,

From town to cover your cold

grave with flowers.

By Lori Pettit

Twelve-year-old DeVane Griffin, of S. L. Griffin, who lives about four miles south of Wauchula on the Dixie highway, landed a 16-pound catfish Peace river Wednesday night. The monster was on display yesterday and attracted quite a bit of attention and comment. The young lad was fishing in the boat and when he hooked the big fish, caught him in the gills, and lifted him in. — Wauchula Advocate.

Preparation is being made clear out main and lateral canals, repair dikes and otherwise improve the Everglades experiment station four miles east of Belle Glade. George E. Tedford, in charge of the experiment station, looks forward to the day when those facilities are perfected to the point when field tests and experiments may be carried on without interruption by flooding. — Canal Point News.

## CONTEMPORARY COMMENTS

The Van Ness hotel, corner of Ocean drive and Sixth street, being built by the Continental Construction Company for the Ness brothers, of Miami Beach and Yonkers, N. Y., at a cost of approximately \$150,000, will be completed by July 15. The hotel is a three-story structure, facing the ocean, and will have 100 rooms, each with bath, and a roomy porch overlooking the ocean. The Van Ness hotel, corner of Ocean drive and Sixth street, being built by the Continental Construction Company for the Ness brothers, of Miami Beach and Yonkers, N. Y., at a cost of approximately \$150,000, will be completed by July

## Social And Personal Activities

Office Telephone 148.

Residence Telephone 413.

### Social Calendar

**FRIDAY**  
Called meeting of the Seminole High P. T. A. at 8 o'clock in the school auditorium to settle unfinished business.

Seminole Rebekah Lodge will hold its regular meeting at 8 o'clock at the A. O. O. F. Hall.

**MONDAY**

Circle Number One of the First Baptist Church will meet with Mrs. W. A. Hayes, 310 West Third Street at 3 o'clock.

Circle Number Seven of the First Baptist Church, Mrs. I. E. Estridge, chairman, will meet at 3:30 o'clock with Mrs. L. Beard, 1220 Avocado Avenue.

Circle Number Four of the First Baptist Church will meet at 3:30 o'clock with Mrs. Clifford Walker, 312 West Thirteenth Street.

Circle Number Three of the First Baptist Church will meet at 3:30 o'clock with Mrs. W. H. Hand at her home, 317 West Second Street.

**Mesdames Knox And Jernigan Entertain**

Mrs. A. W. Knox and Mrs. C. S. Jernigan entertained a large number of friends with a bridge party on Wednesday afternoon at the home of the former, 217 West Nineteenth Street, honoring Miss Helen Stinson, of Waverly Hall, Ga., who is the house guest of her sister, Mrs. C. S. Jernigan. Miss Stinson wore a dress of blue flowered chiffon made with a tight fitting waist and long, uneven hem line. She received dusting powder as a gift from the hostesses.

The tallies on which scores were kept were distributed by Mrs. Peter Ifield, of Orlando. When scores were added, high score prize, a shoulder scarf was awarded to Mrs. E. B. Lawrence, while Mrs. F. E. Rounillat, who had second high score, was presented with a linen handkerchief of bag and handkerchief. Mrs. Endor Curlett cut high and was given an amber glass candy jar, while Mrs. C. A. Adams was the recipient of a hat stand for having low score.

The rooms of Mrs. Knox's home were opened ensuite for the occasion and were adorned with quantities of roses, zinnias and mar-golds. Variegated tallies were used, while bridge pencils, score pads and other accessories were in shades of lavender and yellow.

At the tea hour a salad course was served by the hostesses, assisted by Mrs. W. C. Hill, Mrs. B. D. Caswell, Mrs. B. B. Baggett, Mrs. E. Compton and Mrs. W. E. White.

Those invited to be with Miss Stinson were: Mrs. F. E. Rounillat, Mrs. R. S. Read, Mrs. Endor Curlett, Mrs. E. Compton, Mrs. S. D. Highleyman, Mrs. John W. Sneed, Mrs. W. T. Laird, Mrs. E. H. Laney, Mrs. W. C. Hill, Mrs. B. D. Caswell, Mrs. B. B. Baggett, Mrs. L. F. Boyle, Mrs. Calvin Teague, Mrs. R. E. Stevens, Mrs. C. A. Adams, Miss Nonie Williams, Mrs. W. E. White, Mrs. H. W. Rucker, Mrs. C. E. Rawson, Mrs. J. C. Mitchell.

Also Mrs. E. J. Trotter, Mrs. A. J. Peterson, Mrs. E. B. Lawrence, Mrs. E. I. Hoy, Mrs. Joe Chittenden, Mrs. Byron Stevens, Mrs. C. M. Boyd, Mrs. W. A. Lester, Mrs. W. R. Dyson, Mrs. A. C. McPherson, and Mrs. Peter Lytle of Orlando.

**SURVIVORS TOURNEY**  
In British Open ETAIN SANDWICH, Eng., June 13—(INS)—Johnny Dawson, of Chicago, became the only American remaining in the British amateur championship today by defeating J. L. McKinlay, two up and one to play, while Cyril Tolley, famous British amateur, was eliminating the only other American left in the tournament.

### Dance Sponsored At Hotel Forrest Lake

### Personals

Mr. and Mrs. A. P. Connell moved to Orlando Wednesday where they spent the day.

Mr. and Mrs. W. S. Thornton attended Wednesday night a motor dance of interest in south Florida.

George Steinoff left Tuesday for New York City where he has accepted a position for the summer months.

Mrs. Frank Bradley and two children left last Sunday for Raleigh, N. C., where they expect to join Mr. Bradley.

Mr. and Mrs. Paul R. Forbes left Tuesday for Virginia Beach, Va., where they expect to spend the summer.

Mr. and Mrs. J. D. Woodruff, who are spending the summer at Coronado Beach, were here Tuesday and Wednesday.

Mrs. M. E. McArthur who has been spending the winter at the Hotel Forrest Lake left Thursday for her home in Maplewood, N. J.

James Lynch of Quebec, La. is spending the summer here with his uncle and aunt, Mr. and Mrs. Clarence Barefoot, at their home on East Twentieth Street.

Mrs. R. M. Mason Jr. returned Thursday afternoon from Quinton, Ga., where she has been spending 10 days with her parents, Mr. and Mrs. T. J. Garrett.

C. D. McInroy and son Edward, of Miami, returned yesterday to their home after spending several days here with the former's sister, Miss J. N. Tolar, 207 East Tenth Street.

Mr. and Mrs. R. W. Allingham and the latter's father, F. H. Treat, left Thursday afternoon for Michigan City and South Bend, Ind., and Jackson, Mich., where they expect to spend the summer.

Miss Georgia Molloy expects to leave Friday for Tampa where she will spend a short time before going to Eufala, Ala., where she will be the guest of Miss Edith Wilkinson. From there Miss Molloy expects to go to Biloxi, Miss., to attend the Kappa Delta convention.

Miss Margaret L. Cox left Wednesday for Boston, Mass., where she expects to meet Miss Eleanor of Wilkes-Barre, Pa. They will attend a reunion of the class of 1928 and commencement exercises at Wheaton College at Norton, Mass., after which they expect to leave on the S. S. Aquitania from New York on June 17 for Europe.

### Miss Nell Messenger Weds Frank Thomas

A marriage of much interest here was that of Wednesday morning when Miss Nell Almira messenger, daughter of Mrs. Mary Messenger, was married to Frank Watson Thomas at the home of his mother, 1620 Myrtle Avenue. The Rev. E. D. Brownlee performed the ceremony in the presence of the immediate family.

The bride wore an ensemble of beige georgette with hat, shoes and other accessories in harmonizing colors.

Mrs. Thomas was born and reared in Sanford where she graduated from the Sanford High School in 1922. For the past six years she has been connected with the C. W. Zaring and Co., where she held an important position.

Mr. Thomas is a native of Alabama but came to Sanford seven years ago where he has been connected with the Seminole Creamery.

Immediately after the ceremony the couple left in their car for Tybee Beach, Augusta, and Atlanta, Ga., where they will spend a short time before going to Bonz, Ala., where they will make their home.

Miss Nellie Ray returned Wednesday to her home in Jacksonville after spending a week here with her aunt, Mrs. John Schrader.

Mrs. H. B. Lewis returned Wednesday afternoon from Union Mills, Ind., where she has been spending a month. While away Mrs. Lewis also visited her son and daughter-in-law, Mr. and Mrs. Harry B. Lewis, at Pittsburgh, Pa.

Miss Georgia Molloy expects to leave Friday for Tampa where she will spend a short time before going to Eufala, Ala., where she will be the guest of Miss Edith Wilkinson. From there Miss Molloy expects to go to Biloxi, Miss., to attend the Kappa Delta convention.

Miss Margaret L. Cox left Wednesday for Boston, Mass., where she expects to meet Miss Eleanor of Wilkes-Barre, Pa. They will attend a reunion of the class of 1928 and commencement exercises at Wheaton College at Norton, Mass., after which they expect to leave on the S. S. Aquitania from New York on June 17 for Europe.

### Miss Carter Honored With Swimming Party

Miss Ruby Carter, who is the house guest of Miss Carolyn Gashburn, was honored with a swimming and bridge party on Tuesday night at her home in Franklin Avenue, Lakewood Park, Hargrave, Houston, Texas. Early in the evening the group of guests, numbered in the dozens, gathered in the garden of Miss Gashburn's home, where swimming and a picnic lunch were enjoyed.

In the evening bridge and

bingo were participated in. The bride wore an ensemble of beige georgette with hat, shoes and other accessories in harmonizing colors.

They will attend a reunion of the class of 1928 and commencement exercises at Wheaton College at Norton, Mass., after which they expect to leave on the S. S. Aquitania from New York on June 17 for Europe.

### APPOINTMENT SOUGHT

WASHINGTON, June 13.—(INS)—President Hoover was asked today by a delegation of Virginia Republicans to appoint R. Willis Nicholson, a member of the state board of agriculture, to one of the new regional farm boards which are to be formed as soon as Congress finally enacts the measure. In the delegation were George Garber and Frankford, Va., and George Stump.

New Orleans has the world's largest mahogany distributing plant.

### Malicious Propaganda

No amount of malicious propaganda, an insult to public intelligence and good faith, can sway public belief in this fact: Lucky Strike is a blend of choice tobaccos whose toasting flavor thrills the taste, whose toasting process eliminates impurities, and, as physicians testify, makes Luckies less irritating. Toasting elevates Luckies to a plane of quality which no other cigarette can approach. The constant care of experts

## Yankees Will Have Tough Time Getting Any Trades In American League Clubs

By Davis J. Walsh  
International News Service  
Sports Editor

**NEW YORK, June 18.**—In three days, they will know the whistler on Major League trades for the rest of the 1929 season, in view of which it is interesting to note that the Yankees have bid \$1,000,000 at the Philadelphia store, for the current champion of the world. The American League apparently has turned thumbs down on the New York Yankees.

There evidently isn't to be much last minute trading in either league, and some overnight transfers are possible consequences. There probably will be none from the Yankees, unless I have been misinformed. This once great in reputation, winner of three straight pennants and successive world series in a minimum number of eight games, is in the toughest spot it has known since 1925 when it had to be led out behind the old barn and mercifully shot. I think the rest of the league pined to learn of this. Didn't make me laugh; I'm on my way in a funeral.

The rest of the league seems to be looking out the window in a very pointed manner as Miller Huggins attempts to convince P. that it is important that he get another pitcher. He, of course, is very foolish to attempt this; the league was convinced of the fact so long ago as last April.

Huggins thought he had Miller from the Washington club, Griffith was hit after Beischel, the outfielder, and might have gone for the business under more encouraging auspices. There were only three things against the trade from Griffith's standpoint first, he picked up Ira Blodgett second, Hallyday Japan to third; he feared the city of Washington might become tired, the city of Washington being very undesirable about things like that if you give it a chance.

Huggins has abandoned all hopes of chelying the Red Sox out of Ed Morris. From the Boston club, which used to boast some of the best help until Huggins need them, no longer will do busi-

ness with the Yankees. The White Sox might; also the Indians. However, Huggins has tried to do business in both towns during recent years without getting anywhere or anything. The Athletics did no business and you can do and bet on it. The only buyout we can be transacted at Shibe Park is with the man who prints the world series tickets. I don't think either the Browns or the Tigers would be more than slightly interested in a proposal on either, although the latter need a topnotch worse than a head needs the average neck.

Therefore, it looks very much as though the American League has decided that the Yankees must live off their own fat or die of their own blood.

There has been some talk of the Dodgers sending McWeeney and Honing to the Reds for Donahue, Kolp and Zitzman but, as far as I know, they are still talking. The Giants also are on the run for a second baseman and, a few days ago, one of their Boswells received the Fred Thompson trade with the Phillips. This night have been possible last year when the Phillips weren't where they are now.

McGraw is smart about things like that. He knows he can win no pennants with the players he might have had last year.

### Jinx-Trails Wardens Of Illinois' Prisons

**CHICAGO, June 18.**—(INS)—A strange series of mischances pursued practically every man who has undertaken administration of the Cook County Jail within recent years.

John L. Whitman, later warden of Joliet Prison, died of a broken heart following his dismissal from the state service.

Peter Lawrence, warden at the time of Tommy O'Connor's sensational escape, was ruined politi-

cally by the break.

Wesley Westbrook, former police official, was sent to a federal jail for permitting Druggan and Lake, two well-known gangsters, to leave the jail without legal au-

thority.

## MALONE STRIKES OUT 12 PHILLIES AS CUBS WIN, 7-3

### Chicago Star Leads League With Fifty-five To His Credit

**NEW YORK, June 18.**—Babe Ruth the sizzling home-run monarch is not the only baseball king in danger of losing his crown. Dazzy Vance, champion strike-out artist of the National League, who like Ruth has been handicapped by illness, is running poor third in his specialty to Perce (Pat) Malone, the Cubs' fast-ball pitcher.

Vance, who was second only to Ruth last season with 165 strikeouts, is in even 200 for the Brooklyn mound ace, is leading the National League today with 55 for 11 games. He struck out 12 of the Phillips yesterday. Karl Hobbel of the Giants, runner-up in the race with a total of 41, lost ground when he was bumped off by the Pirates without fanning a single batter.

Vance has a total of only 31 but has won in only seven games. He will have a chance to draw closer to the leaders today, being scheduled to work against the Phillips.

Malone's 7 to 3 win over the Phils put the Cubs only 10 percentage points behind the second-place Cardinals, who were idle.

The league-leading Pirates gained half a game on the Cards by nipping out the Giants, 7 to 6. The McGrawmen apparently put the game on ice with a five-run rally in the sixth, when they knocked out Dutch Grimes, their ancient nemesis, but the Bucs won out in the ninth when Master Melvin Ott posed as a croquet wicket and let Grantham's hit roll through his legs.

Making seven hits and eight runs in the third inning, the Browns swamped the Yankees, 9 to 4, for their first triumph over the champions in seven starts this season. Myles Thomas, making his first start for New York in nearly two years, finished in 2 1/3 innings.

The Athletics, rolling along faster than old man river himself polished off the White Sox for the third game in succession,

### How They Stand

#### SOUTHEASTERN LEAGUE

	W.	L.	Pct.
Montgomery	33	21	.625
Tampa	33	25	.563
Selma	34	26	.567
Jacksonville	27	29	.482
Columbus	22	34	.393
Pensacola	21	37	.360

#### AMERICAN LEAGUE

	W.	L.	Pct.
Philadelphia	27	34	.438
