WHO IS BOB'S SISTER?

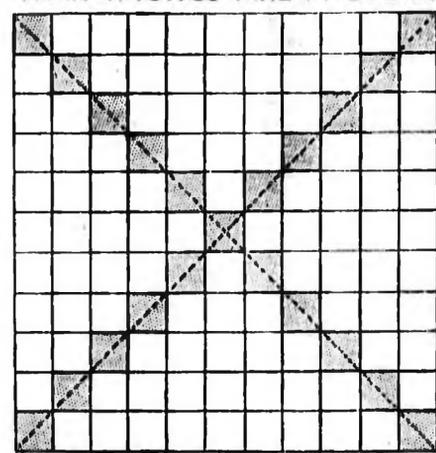

BOB and his sister, Alice, the only children their parents had, became separated in early childhood. Their parents were divorced, and Bob went abroad with his father. When his father died recently, Bob determined to locate his sister. Through a detective agency in New York he did so. Wishing to surprise her, he arrived in this country without notifying her, and immediately departed for the town where he knew Alice was attending school. Upon reaching the school, he was told he'd find Alice in the reception room. You see him entering it, to find a number of girls. He has no picture of Alice and she, of course, has no reason to recognize him.

Suppose you discover which of the girls is Alice, through these clues:

1. Many children born on March 17 are given the name Pat—?
2. "Give me liberty or give me death," said Pat—?
3. Famed as general in World War II was Pat—?

WAR TACTICS ARE A GAME

STRATEGY is the direction of armies or ships in the theatre of operations; tactics is their employment in the presence of the enemy. War tactics inspired a game played on a board like that above. Mount the P's and T's below the design on cardboard and cut them out to play the game.

Here's a typical problem in the game. The two diagonal lines represent intersecting roads. Ten tanks are captured the upper two forks and are holding them pending the arrival of the infantry, which has the two lower forks. The center square is unoccupied. The problem is to shift the tanks back to the lower forks and bring the infantry up. In making this transfer none of the pieces must leave the "roads," the diagonals. The tanks must always be moved backward and the infantry forward. A tank may jump over an infantry counter, or an infantry counter can be jumped over a tank, but pieces of the same kind cannot be jumped over each other.

A raspberry vine was planted in a certain year. Upon a subsequent birthday anniversary of the planting, the square of the vine's age, added to the square of the date of the anniversary, totalled the perfect square of two numbers, each of whose digits, when respectively added together, equalled respectively the date of the planting and the date of the anniversary.

New Flying Tiger Group Formed to Fight Reds General Chennault Again To Lead Air Volunteers

WASHINGTON—A new Flying Tiger Airforce is being formed to fight for the Chinese government against the Communists occupying the vast Asiatic country.

They will be under command of Gen. Claire Chennault who led the famed Flying Tigers outfit that harassed the Japanese during the Sino-Jap war.

The method of recruiting the American flyers, all of whom are World War II combat veterans, is not widely publicized but compares with that used in creating the original AVG (American Volunteer Group).

Most of that recruiting was done informally, in New York hotel lobbies. At that time the neutrality act prohibited official cognizance of such activity.

Food Competition

Brazilian agricultural and industrial leaders are reported to be worried about possible competition of Africa in the production of foods which Brazil now exports.

The Brazilian concern is in strange contrast with that of international scientific groups. The latter have been prophesying starvation for the world unless it is found to grow more food.

Such being the case, there is something wrong when the development of a new food producing area gives rise to fears of market competition.

Seasick

"We're never seasick out on the ocean; We don't object to feeling the motion." So ran the words of a popular song a few years ago.

While it is a never-failing topic of comedy, seasickness is no laughing matter, but a severe and body-wracking illness.

For all these there is at last a ray of hope. Two physicians of Johns Hopkins Hospital in Baltimore report discovery of a drug which is 98 per cent effective in preventing seasickness if taken in advance.

The Escorial, that sixteenth century Spanish palace which houses many notable manuscripts and paintings, is still standing and intact; but the imperial house of Austria, and all, has been gone ever since World War I, probably never will be revived.

Nasrallah said the agents called at police headquarters to meet a detective who had agreed to go with them to close up a bookmaking operation at a southwest section bar.

They were told the detective had been called out on another assignment. Nasrallah said he was told the detective was called away to investigate "some robberies."

He said he would consult with state director Loris Schott before making a statement.

No other detective, assigned to the southwest section under the district system, was available, agents said they were told.

Nasrallah said he put 11 men into the field yesterday to check bookmaking operations.

Meanwhile, Detective Pat Pardue arrested five men at Miami Beach. All were charged with possession of bookmaking equipment and released on \$500 bonds each.

Two men and a woman listed as first offenders drew fines of \$250 each from Miami City Judge Cecil C. Curry. They were charged with bookmaking.

THE WORLD TODAY

By DEWITT MACKENZIE AP Foreign Affairs Analyst

Norway's decision to pin her security to the projected North Atlantic Alliance carries a great moral.

The moral is the old adage that in unit lies strength, and that for lack of unity our "United Nations" would now be providing global security.

Because of the tragic circumstance that humanity is sharply divided into bitterly hostile ideologies, the world seeks security in the formation of powerful alliances.

These alliances depend on their military strength to keep the other fellow quiet. Vast striking power is the order of the day.

Norwegian Foreign Minister Lange in announcing his government's decision (still to be ratified by parliament), made an interesting disclosure.

Lange says he got turned down for two reasons. First, the defensive strength of such a union wouldn't be great enough to prevent aggression.

The foreign minister reports that these answers made Norway realize she couldn't isolate herself. Thus we find her preparing to join in a pact which would bring together at least America, Canada, Britain, France, Belgium, Holland and Luxembourg, and perhaps other countries.

The basic idea of such an alliance is to create enough strength so that no aggressive-minded nation or group of nations would dare attack. In other words the hope is that the alliance never will be compelled to use its strength to defend itself.

In that sense the North Atlantic agreement would be serving the purpose for which the United Nations and before that the League of Nations was established.

So the purpose of the North Atlantic Alliance is to provide enough military strength to act as a deterrent to aggression. However, after much debate an official source in Washington has said that while the military clause of the pact won't commit America automatically to war, it will carry assurances so strong that nobody will misunderstand Uncle Sam's intention.

Thus in effect regional pacts are being called into being to do the work for which the U. N. was created.

It's a poor substitute for an airtight United Nations—but half a U. N. is better than none. For the present we shall have to follow the advice of President Theodore Roosevelt: "Speak softly and carry a big stick."

Nation's Business

Continued from page one... vices prepare a plan for rearming Europe with American materials of war, for presentation to Congress in a month or so, the head of the Red army orders Red soldiers to "maintain constant combat preparedness on a high level" against American "aggression."

The Russians probably didn't intend to help President Truman get his arm-Europe plan across, but such talks as the Red Army leader's will undoubtedly do it.

The re-arming of Europe proposal comes just at the time our own economy is leveling off. In many ways the situation today is like that of a year ago. Then, too, we had a sharp break in commodity prices. Some of the goods industries were having their own private recessions.

There are many points of difference this February from the conditions last year, however. More consumer pipelines are filled—although a vigorous program of rearming both Europe and the United States could quickly change that picture this year, in many and above what Marshall Plan aid fields, especially those using our exports.

Businessmen are wondering, therefore, if re-arming can repeat last spring's job-giving American industry and business the spring tonic it needs to get it out of the winter letdown.

Red Paper Says U. S. Gets High Income From Prostitution

BUCHAREST, Romania, Feb. 23.—(AP)—The newspaper Universal said today "monopolist capital" in the United States, is drawing its income from prostitution.

The newspaper, commenting generally on venereal diseases, said: "in the United States and in other imperialist countries prostitution has become the source of monopolist capital to such an extent as to give right to a special term, called 'commercial prostitution.'"

This situation has become possible, the paper said, through unequal wages, serfdom of women, ignorance of hygiene and unemployment. It also is encouraged by prevailing police regimes, the paper added.

Universal said that in capitalist countries venereal diseases are rampant, owing to lack of medical assistance, while in Russia medical care, social medicine and equal wages for women plus special privileges are liquidating this problem.

Dr. Ray V. Sowers Talks In Sanford

The Seminole County Teachers' Club met at the Junior High School on Monday with Dr. Ray V. Sowers of Stetson University as its guest speaker. Dr. Sowers is in charge of in-service teachers who are attending Stetson. He commented on the progress which has been made in public education in Florida in the last few years and stated that Florida's progress along these lines has been greater than any other state's. Dr. Sowers used the Preamble to the Constitution as a basis for his talk and enlarged on each phase, commenting on the foresight of those who wrote it.

During the business session a letter was read from Mrs. Marguerite Morse thanking the club for the \$10 contributed to the Over-Seas Teachers Relief Fund. T. W. Lawton, superintendent of Public Instruction, thanked the principals, teachers and students of Seminole County for the dedication of a room to him at the Fernald Loughton Memorial Hospital.

Rev. and Mrs. Leonard Mason who will be presented with their Swiss Bell Ringers on Saturday night at the First Methodist Church program will begin at 8:00 P. M. and will include hymns and gospel songs on many instruments.

Swiss Bell Ringers To Be In Sanford

The Mason Swiss Bell Ringers led by Rev. and Mrs. Leonard Mason of Los Angeles, Calif., will present a sacred concert at the First Methodist Church at 8:00 P. M. on Saturday. The program will consist of familiar hymns and songs played on a large array of musical instruments rarely heard on any entertainment platform.

Some of the instruments to be used are Swiss Band bells, golden glasses, singing saw, glockenspiel, the world's largest set of triple octave chimes, and the instrument of mystery, the Victor Bourmin. The latter instrument has no key board, strings reeds or pipes and responds to the motions of the player's hands waving over it in space without being touched.

The Mason Swiss Bell Ringers have presented their concert in almost every state in the Union during the past 16 years. They have performed in thousands of schools and churches and over many radio stations and have become nationally famous for their interpretation of sacred music on many novel instruments. A free will offering will be taken during the evening.

PLANT PROPAGATION

The latter part of February and throughout the month of March is an excellent time to increase many flowering bulbs by cutting. It is described herewith as some detail with the thought that you might like to employ it as a part of your spring gardening operations. For the most part Florida bulbs are propagated "true to name" by separating the slabs or offsets at digging time. These small bulbets are reset and usually bloom in two or three years. Today there is a definite trend to grow Crinum, Hippeastrum, and other bulbs by name as is done with roses. As many improved bulbs of hybrid origin do not form offsets readily, cutting has proved a boon to bulb specialists. As this is a method of cloning or vegetative propagation, all of the bulbets are identical in color, foliage and flowers with the original bulb from which the cuttings were made.

Most of our true bulbs are complete plants in that they are made up of roots, stems, and buds and generally produce blossoms annually. However, they are greatly modified so that they may successfully go through annual periods of dormancy. The stem is shortened and becomes merely a fleshy cone or disc within the enclosing scales, which are really leaves. The vegetative growing point is

usually terminal in position, while the blossoms bud are usually axillary, that is they emerge between the scales (leaves) from the basal axils. In cutting, the technique is to slice mature flowering bulbs longitudinally into pointed segments, similar to pie cuts. It is essential that each segment contain a piece of stem tissue as well as several strongly attached leaf segments.

These wedges are inserted, just under the surface, in flats or boxes that contain sand or a mixture of sand and peat. A half inch or so of the leaf tips may stick out of the medium without the least harm. In fact, those tips will turn green and function as leaves after a short while. Water must be applied sparingly as bulb medium becomes water logged. Until new roots are active and growth is started, one good soaking every ten days should suffice. In a warm humid atmosphere small bulbets will soon begin to form between the scales, and usually will be large enough to pot off after one growing season.

A similar method, closely akin, involves the making of several longitudinal cuts upward through the center of the bulb, about three-fourths of the way to the neck (8 to 15) vertical cuts running lengthwise, is planted in a box of

Hollywood

HOLLYWOOD, Feb. 22—(AP)—It's awards time again, so let's take nominations for the best movie performance of all time.

Professional and amateur spectators are now trying to predict the Academy Awards which will be named a month from now. Let's go beyond that and consider the best acting jobs in movie history. Our experts are people who should know—the movie stars themselves.

"Gone With the Wind." It was a pleasure to see her on the screen, as well as work with her."

Kirk Douglas: "Van Heflin in 'Johnny Eager.' He had a role with many pitfalls and he came through it on a straight course."

Maureen O'Hara: "Charles Laughton as Captain Bligh in 'Mutiny on the Bounty.' It's rare when an actor completely loses his identity in a role, as Laughton did."

Dennis O'Keefe: "Charles Chaplin in 'The Kid' and 'City Lights.' His scenes with the men from the orphan asylum and with the blind girl are tops in my memory."

Margaret Brent, heir and executrix of Governor Leonard Calvert of Maryland, is believed to have been the first tax-paying woman in America to ask for political representation in 1647.

The women's club movement in the United States dates from 1868 when the Sorosis Club in New York and the New England Woman's Club, under the leadership of Julia Ward Howe, started at about the same time.

Mickey Rooney, Betty Garrett, Janet Leigh and Tom Drake form the romantic quartet of "Words and Music." M-G-M Technicolor musical based on the lives and music of Richard Rodgers and Lorenz Hart. The spectacular film opening tonight at the Prairie Lake Drive-In Theatre, also stars June Allyson, Perry Como, Judy Garland, Lena Horne, Gene Kelly and Ann Sothern, with Cyd Charisse, Marshall Thompson, Mel Torme and Vera-Ellen.

Seminole County Youths Invited To Enter Dogs In Mutt-Dog Derby

LONGWOOD, Feb. 23 (Special)—Every kid in Sanford and Seminole County with a dog is invited to compete in Florida's first annual Mutt-Dog Derby at the Sanford-Orlando Kennel Club on Mar. 13. It was announced here today.

The kids' Mutt Derby, born as the result of an argument between two boys over the merits of their respective dogs, is free and strictly for the kids and their dogs. Walter C. Anderson, owner of the Kennel Club, announced.

A group of citizens got together after hearing two kids argue over whose dog could run fastest and the Derby is the result," Anderson said.

The idea has already attracted nationwide attention with five national newsmen and three television companies scheduled to take motion pictures of the event, according to Anderson.

Prizes will include a \$100 credit certificate offered as first prize by Sears Roebuck in Orlando; a special Derby trophy nearly two feet high decorated with three miniature dogs given to the winning dog owner by the Orlando Sentinel and Star newspapers; and special prizes for second and third place winners donated by Mr. Anderson.

Entries can be made by letter to the Sanford-Orlando Kennel Club, and can be obtained at The Herald office. Each entry, Anderson warned, should give the name and age of the dog owner and weight of the dog. Every entrant must be accompanied by an adult. The races are scheduled to start at 2 P. M. on Mar. 13 but contestants must be at the track by 1:30 P. M., race officials said.

The grandstand will be open to spectators. The kids, Anderson declared, will be treated to all the colorful ceremonies of the regular greyhound races with attendants leading the dogs in a parade around the track before each race. All dogs will be furnished muzzles but every dog owner must provide a leash. It was announced.

Johnny Palmer Is Predicted To Be Top Golf Winner

HALLINGEN, Tex., Feb. 23—(AP)—Johnny Palmer may be arriving a year late as golf's leading money-winner.

It was in February of 1948, during the first annual Rio Grande Valley Open here, that George Schneider, chairman of the PGA tournament committee, predicted the Baden, N. C., star would be the No. 1 earner of 1948.

Palmer didn't make it. But he returns to the Rio Grande Valley Open, starting tomorrow, amid general forecasts that he will turn the trick in 1949. "Most of the players think this will be Johnny's year," Schneider said.

Palmer joined the touring professionals Jan. 27 at Phoenix, Ariz., and has participated in four tournaments this year, winning \$2,915.33. Included were third place and first money of \$2,000 last week end in the Houston Open.

The chunky North Carolina crackshot has moved into the third spot among the money winners although not participating in as many tournaments as Lloyd Mangrum of Niles, Ill., the No. 1 man; Jimmy Demaret of Ojai, Calif., who ranks No. 2, and most of the other touring pros. Mangrum has won \$6,170 and Demaret \$5,862.50.

A total of 219 players entered the tournament but after withdrawals and a qualifying round for amateurs, not on the exempt list, the field was cut to 140 that will move into the first 18 holes tomorrow. After Friday's play the 60 low scores and ties will go into the final 36 holes. The tournament ends Sunday.

HERE'S WHAT TO DO - Six year old Bobby Speer of Pinecastle is giving his dog "Stubby" the inside on dog racing—and Stubby needs it because he's entered in the first annual Mutt-Dog Derby at the Sanford-Orlando Kennel Club on Mar. 13. Celery Feds Drop 80 To 50 Contest To Orlando Tigers

ORLANDO, Feb. 23 (Special)—Coach Fred Ganas' Seminole High School Celery Fed quintet was overpowered by the Orlando High School Tigers in an 80 to 50 contest here last night.

Sanford was hopelessly outclassed in the contest, and Coach Charles Hirshey turned his Tigers loose to claw the Feds unmercifully. Every man on the Orlando team entered the contest.

Earl Baker tallied 18 points to pace the Tiger offensive, while Charlie and Willie Thomas bucketed 12 points each for the invaders. Floyd Cooper was second high man for the Feds with 11 points.

Pro Wrestling Makes Poor Garden Rake

NEW YORK, Feb. 23—(AP)—Professional wrestling made a disappointing return to Madison Square Garden last night. A show featuring Gorgeous George drew 4,197 customers and a gate of around \$14,000.

Promoters, who brought the sport back under the Garden roof after a 12-year layoff, had predicted a crowd of more than 10,000. Rain probably discouraged many patrons.

George, the marcelled Hollywood showman, won the feature attraction. He tossed Hinkle Dusek of Omaha, Neb., in 29 minutes and 57 seconds. It was a one-fall affair.

NEW CHAMP HERNANDO, Miss., Feb. 23—(AP)—The new champion of the United States field trial club's annual derby is Dr. Clyde's Black, a two-year-old pointer owned by George Colman of Laverne, Ala.

Lebanon Patsy, owned by Lebanon Kennels at Union Springs, Ala., placed second in yesterday's final. Third place was taken by Warhoop Jake, the property of Herbert Ingram of Coleman, Ga.

Underdog Princeton Five Upsets Yale Basketeers In 47 To 45 Tilt

NEW YORK, Feb. 23—(AP)—Never underestimate a Princeton athletic team. In much the same manner that an underdog Princeton eleven upset Pennsylvania on the gridiron several years ago, the Tigers' basketball quintet ended Yale's 12-game winning streak last night.

Not only that, but Princeton's 47 to 45 triumph knocked the Eli out of first place in the eastern intercollegiate "Ivy" League. Columbia, defending champs, now perch on top.

YOU CAN ENJOY
GOOD HEALTH
STOMACH AILMENTS, WEAK KIDNEYS,
RHEUMATIC PAINS, ARTHRITIS, NEURITIS
and such complaints as Headaches, Stomach Ailments,
Lack of Vitality, Nervousness, Fatigue, Headaches,
Dizziness, etc.
NO MATTER how long you have
been suffering from stomach, kid-
ney and rheumatic ailments, and
what drugs you have tried before,
you can, now, hope for relief if you
take the "GEO MINERAL" with your
eyes. SEE the results seven days af-
ter you start taking it.
DRUGGISTS, Chemists cannot
make "GEO MINERAL". It comes
from the earth - Nature's labora-
tory. Contains NO drugs. NO alcohol.
NO oil. ONLY Nature's minerals.
the oldest, most reliable remedy for
rheumatism, arthritis, kidney and
stomach ailments.
Wonder Minerals
FOR THOUSANDS of years after
others, an advice of doctors, go to
mineral springs to get cure or relief.
The late President Roosevelt used
to go to Mineral Springs in Georgia.
He was helped or cured. If not have
gone there twice a year.
WE HAVE all heard of the miracu-
lous springs of Lourdes, France,
and famous Thrasos in ancient
Greece, where, according to legend,
Hercules, the god of eternal strength
and youth, drank its waters and
bathed in its waters.
IF YOU ARE a sufferer, and can
not go to the mineral springs, try
GEO-MINERAL, which contains a
blend of the same minerals that can
be found at the world's best springs.
The minerals in it may work
miracles.
Amazing Results
WATCH your rheumatism from
your bowels two or three days after
you start using GEO-MINERAL.
The waste, black as coal, will break
away and you will feel better. Ex-
amine your urine. You may see
impurities - poisonous waste - con-
taining out of your kidneys, and feel the
relief. Be sure to watch for all this
to realize its priceless value.
MEDICAL records show 65% of
men and women were 15 suffer from
nutritional mineral-deficient stomach.
When you feel nervous, dull, tired,
lazy, have dizziness, spells, an ambition
to work or play a game, appetite
when your eyes lack that bright
spark and your mind brilliance
when headaches get the best of you
and you feel old before your time
and it seems not worth living
with worry wearing you down. It
may be simply lack of minerals in
your blood. GEO-MINERAL is the remedy
you need.
TRY it today! It may do wonders
for you and be the best investment
for your health. Make you feel, eat,
sleep, work and enjoy life better.
It may be simply lack of minerals in
your blood. GEO-MINERAL is the remedy
you need.
100% Guaranteed!
WE GUARANTEE you to get relief.
GEO-MINERAL. If not, we will
refund your money.
REGARDLESS of how long you
have been suffering, and how many
medicines you have tried before,

My New York

By MEL HEIMER

NEW YORK—Every now and then, prompted by (1) the knowledge that people in America, Ga., or Pockskill N. Y., want to be brought up on the night club situation to complete their well-rounded picture of New York, and (2) the knowledge that I can get free drinks, I cover the saloon front here.

I am not much of a man for saloons of any kind, although I prefer the lower-class kind to the higher-class kind. But it is a topic on which it is very hard to be indifferent in the big town, because there are more bars, grills, night clubs and deadfalls here than there are wild cards in a poker game containing women. You can like or dislike them but it is next to impossible to ignore them.

My favorite is the Copacabana and I have been trying to figure out why. Winchell's favorite, for example, is the Birk club and I suspect this is so because he can get a shave upstairs. Danton Walker, a member of the dilettanti, leans toward the smaller, elegant joints, doubtless because they can prepare frogs' legs better.

Currently the Copa is offering Mitz Green, with whom I have conducted a chase—and rather one-sided. I guess—love affair ever since she sang *The Lady Is a Tramp in Babes in Arms*.

Last night, after she had finished doing her dinner-show turn—a remarkable collection of impersonations, ballads, vignettes of Brooklyn, laughter and tears—and had had time to change into a trim plaid suit, we had our first rendezvous, in a little cocktail lounge next door to the Copa, on East 60th street.

It was all I had dreamed it would be—you know, our glances meeting electrically, our eyes holding untold love dreams for each other and all that there, like in the Betty Grable movies—except for one thing. Her husband was there.

MR. MITZI GREEN is a talented young actor named Pevey, who did a fine job of acting as John Garfield's pal and manager in *Body and Soul* and who gradually is reaching the point of life where he no longer is known in lay circles as Mitz's husband. Joe had just blown in from California with the two little Peveys—whose appearance on this earth, surprisingly enough, has had no effect on Miss Green's magnificent aloneness. I asked them if either one ever felt jealous because the other might be getting more famous.

"Nah," Pevey said. "Mitz's always been much more well known than I, and it never bothers me." Mitz protested. "All the 17-year-olds know you, from the movies," she said, scornfully. "Who knows me? A lot of old guys with a million dollars who go to saloons at night."

There must be a thousand kids in show business whose personalities and lives were warped and ruined by overzealous parents, but Mitz seems the exception. Old souls among you will remember her as the wonderful little brat in the movies who used to run around screaming hysterically. "I know a secret! I know a secret! Yaahh!" She has been in show business all her life, as her parents were before her—and yet she doesn't look back on her childhood darkly, the way some grown-up prodigies do. "I had a good time and my mother brought me up right, I guess," she said. "I worked hard. It's true, but she never lost track of the fact I was still a kid. She sent me to camp and she let me horse around with other kids all I wanted, and as far as show business would permit, I was a pretty normal child."

She reminisced about a young performer with whom she once had appeared and for whom we both had a professional admiration. "His mother never left him for an instant," Mitz said, "and she was so intent on him being brilliant that she made him work for hours and hours on end. She made him watch his weight and she brooded over him like a mother hen. The result? When she died, a few years ago, he had come to depend on her so much that he was all at sea. He couldn't do anything for himself, and he gradually drifted out of show business. I'm not sure where he is now."

THE INTERVIEW WITH MITZI would have been a Grade-A, full-fledged one, except that sitting with us was Bill Vecek, the president of the Cleveland Indians and unofficial president of the Mitz Green fan club. Mr. Vecek, after announcing that one of the reasons for his love of New York was the fact that here he could relax, promptly and in a pleasantly frantic manner, took over the interview. First he had the waiter bring me five red highballs at once and then he dared me to drink them. Then he turned to a girl at an adjacent table and, after asking my impersonal opinion about some feathers in her hair, obtained a pair of scissors from a waiter and cut them off, while she blinked uncertainly. After that, he psychanalyzed the girl for free. He got into an argument with Mitz's mother about the old Chicago White Sox. It was when he began waving the scissors vaguely and eyeing my necktie (the, of course, wears none), that I got up politely and left. Next time, I will get that Green girl off by herself, and I should have some lively reading for you.

AFTER EXTENSIVE traveling through Caribbean countries, William Buckner (left) is brought back to New York and booked at a police station on charges growing out of his participation in a Park Avenue charity gambling party. The cafe society playboy who was captured in Puerto Rico after a chase gave his occupation as "salesman." (International)

Wallace Speech

Continued From Page One
Wallace repeated slowly: "If Russia did move in determinedly with troops and border skirmishes, I think it would be very hard for me to oppose that kind of war. But I'm also convinced that Russia has too much sense for that sort of thing."

Chairman Bloom (D-N.Y.) inquired of Wallace would "venture a professional opinion" either for living under capitalism or Communism.

Wallace laughed.

"I'm living in the United States. I like it here. I'm not trying to overthrow the government."

The Senate Labor Committee meanwhile was holding its last scheduled day of open hearings on a proposed new labor relations law to replace the Taft-Hartley Act of 1947. The big problem was how to avoid lengthy strikes involving whole industries and affecting the entire nation's economy.

Joseph E. Moody, president of the Southern Coal Producers Association, recommended that Congress retain the Taft-Hartley provision which lets the government get 80-day injunctions against critical strikes. Organized labor, in general, oppose all such injunctions.

Moody told the Senators that a coal miners strike lasting 30 to 60 days could put the country in a "very serious situation." And there may be another crippling coal strike, he said, unless the injunction provision is retained.

The mine owners' present contract with the United Mine Workers expires June 30.

The Administration wants to replace the Taft-Hartley Act with a modified version of the old Wagner Act, minus any injunction clause. In several sessions the House Armed Services Committee approved a husband-hill bill which allows the central intelligence agency to

force accounting procedures subject to the approval of the comptroller general.

That promptly provoked two dissents—one that the majority would encroach too far on Warren's present activities and the other that they wouldn't encroach far enough.

Senator McClellan (D-Ark) and former Rep. Carter Mannsen (D-Ala.) called to Warren's side in one of the dissents. Warren had forewarned he first got wind of the nature of the report was taking.

James K. Pollock, University of Michigan professor, and James H. Rowe, Jr., former administrative aide to President Roosevelt, went the other way with Pollock aiming such shafts at Warren personally as well as at the report.

"In spite of the fact that the public has been led to believe that the comptroller general is 'the watchdog of the treasury,' this official is not always blameless in the decisions he makes. The comptroller general's judgment is not infallible, and the institution is the his decision may on occasion be influenced by partisan considerations."

A Norman ancestor of George Washington in 1183 became lord of the manor and village of Westington, or Westington and took the name of the estate for his family name.

The committee room was cleared of spectators and newsmen while the measure was discussed. Said Chairman Vinson (D-Ga.): "There are a lot of things in this bill that we cannot discuss here."

Mrs. W. E. Hollyhead, chairman of the Milk Bank, reported a total of \$41.31 spent last month for milk for needy persons. This constituted 210 quarts of fresh milk and one case of canned milk, she said.

Mrs. Hollyhead stressed the need for fresh milk, especially for children throughout the county. The Pilot Club guarantees the amount spent each month, but solicits funds from other organizations to carry out this worthwhile project.

Mrs. Hunt thanked members for their assistance at the card party sponsored by the club last Friday evening and announced that the net proceeds will amount to approximately \$75.

A letter was read from International Relations Committee stating that the \$3 sent by the club each month to be spent for nursing books in foreign countries had been used to help tuberculosis patients in Paris, France, and asking the club permission to continue this work, to which the club agreed. A Pilot Club was recently organized in Paris and Mrs. Joie Roberts of Houston, Tex., International president, will leave the United States in the near future to present their charter in March, Mrs. Mitchell said.

The Seminole County Federation of Women's Clubs invited Pilot members to attend the next meeting of the federation which will be held in Ocala in April. Miss Annie Ramsey reported on a letter received recently from Greece thanking her for a Christmas box sent in 1947 through the club. There were 23 members present including a new member, Mrs. George Stine.

for May.

Walden was caught after a month's freedom by Sheriff J. R. Cooksey, Jr., of Jefferson County, Fla. Cooksey identified him as an escaped convict through a radio program; description and claimed the \$1,000 reward offered by the sponsor.

Walden, who boasted he was "the best safe ripper in his section of the country," was "kinda drunk" when he was found after allegedly robbing a store at Lloyd, Fla., said Sheriff Cooksey. He apparently had taken a drink or two too many from whiskey found in the store, Cooksey explained.

Walden was quoted by Florida officers as saying that he had been aided in his escape from the Brunswick jail by "Head" Revel of Phenix City, Ala.

Whether chemical analysis of the liquid by its American captors yielded the secret, Graham didn't know.

Graham had charge of disposing of the spray, named Tabun after the name of its two inventors. He disclosed some of the details in a chamber of commerce speech at San Juan, Graham now lives in Mountain View.

Hidden stocks of Tabun—125,000 tons of it—were found by American intelligence officers in Havarian caves. Engineers built huge fires in pits to destroy the liquid. They poured it over coals. Tabun didn't burn, but the heat broke it down and rendered it harmless.

The State Department's announcement of the action was made by Press Officer Michele J. McDermott. He noted that Article 2 of the peace treaty states that Bulgaria shall respect human rights of all people under its jurisdiction, including freedom of religious worship.

Road Department To Slash Personnel

GAINESVILLE, Feb. 23—(AP)—J. Glover Taylor, Jacksonville, member of the State Road Board, told Alachua County district trustees and county officials last night that the Road Department would lay off approximately 25 per cent of their employees next month.

Speaking at a dinner meeting here the Commissioner said there would be over 1,100 "minor employees" laid off because of the reduced budget.

He said much of the Department's available funds were already earmarked because of commitments by the previous administration.

Cabinet Okays \$206 Million State Budget

Commission Requests \$53 Million More Than Is In Sight For Next 2 Years

TALLAHASSEE, Feb. 24.—(AP)—A \$206,201,482 general fund budget recommendation calling for \$53,000,000 more than is in sight for the next two years was sent to the Legislature today by the Florida Cabinet.

The board, sitting as the Budget Commission, completed work on the record estimate of necessary expenditures today without changing any item that appeared in its preliminary draft.

After a long closed session, though, Governor Warren led the board through a series of motions that changed the labels on college budgets without altering the figures. Main effect of the action was to prevent the Cabinet's recommendations as budget increases of 33 to 40 percent over the present appropriations, instead of 33 percent cuts below what the universities wanted.

No other agencies or institutions were allowed budgets with as great a percentage increase over current funds, he said. "Actually we discriminated in favor of the colleges. The University of Florida was allowed a budget of \$9,854,916 from the general fund, which is \$2,509,799 more than the Legislature appropriated in 1937 for the current biennium, but \$5,000,000 less than the institution wanted for the next two years."

Florida A. and M. College for Negroes received Cabinet approval for a \$3,496,601 proposed appropriation for \$1,729,350 above the current appropriation. It has asked for \$3,763,378.

Secretary of State R. A. Gray voted for each motion to leave the amounts stand as previously recommended with a comment that "my suggestion in conference that we should try to do a little better for the universities didn't seem to work out."

He offered, and the Cabinet quickly adopted, a motion to write into the budget this footnote to each college item:

The board "would be glad to include in the recommended budget for this institution a substantially larger amount if the commission felt there was a reasonable prospect of sufficient new revenues being provided, and if the Legislature in its wisdom provides for."

Talmadge Signs New State Governor Law

ATLANTA, Feb. 24.—(AP)—Governor Herman Talmadge today signed into law two bills which would pave the way for him to run for re-election in 1950 without a court test of his eligibility to succeed himself.

Under Georgia's constitution a governor is not eligible for re-election until four years following the completion of his term. One of the bills provides that the executive committee shall be the sole and final judge of any candidate's eligibility while the other makes the general assembly the sole judge as to the election of a governor if there is a controversy.

City Offices To Close At Noon On Saturday

All offices and departments at the City Hall will close at 1:00 o'clock Saturday and on Saturday thereafter, City Manager Clifford McKibbin announced this morning.

This will enable employees to have a half holiday, he stated, and pointed out that a check of activities during recent Saturday afternoons revealed so few calls that it was decided to close for the half holiday. Persons seeking vital information on Saturday afternoons may obtain same by telephoning the Police Station, he said.

Egypt And Israel Sign Armistice, Eliminating Future Conflicts

RHODES, Feb. 24.—(AP)—Egypt and Israel signed today an historic armistice, hailed by the United States mediator as an epochal event foreshadowing the early return of peace to the Middle East.

The Mediator, Dr. Ralph J. Bunche, said the agreement "virtually eliminates the possibility of a future armed conflict" between Egypt and Israel. He called it "a significant contribution to world peace."

Now, said Bunche, "the concentration will be on peaceful settlement of all outstanding questions, political, territorial and economic, between Israel and her Arab neighbors." The U. N. Palestine Conciliation Commission already has started to work for this.

Egypt and Israel, by their agreement, blazed the path for the other Arab states. Iraq already has decided to approve whatever agreement, blazed the path for the other neighbors of Palestine who nine months ago had vowed to destroy the dynamic Jewish state. Talks with Trans-Jordan, the most for-

midable of Israel's foes, begin Monday.

The Israeli-Egyptian armistice leaves Israel in possession of nearly all the southern Negev Desert, which she hopes to colonize, including Beerseba, another city of the Arab race. It outlines broad demilitarization zones, binds Egypt to surrender all territory she holds in Palestine except Gaza and its five-mile-wide coastal strip, and to withdraw to a defensive line 17 to 30 miles inside her own frontier.

The armistice is clearly described in its preamble as a prelude to a final settlement.

Col. Harold H. Bachman, University of Florida Band leader and former supervisor of music with the Special Services Section of the Army in the South Pacific theater of war will be the leading judge of contests when members of 17 high school bands compete at Seminole High School tomorrow.

Col. Bachman To Be Chief Judge At Band Contest

Col. Harold H. Bachman, recently appointed as associate professor of music and director of bands at the University of Florida, will be the chief judge at the fourth district contest at Seminole High School tomorrow in which 1,000 student musicians representing 17 high schools will compete to bring home trophies to their respective bands.

"Mr. Bachman," said H. E. Black, director of the Seminole High School Band, "is one of the outstanding band directors in the United States today. His professional band experience and his ability as a teacher have caused him to be in constant demand as guest conductor of music festivals and judge of contests all over the country."

After serving in World War I as leader of the 10th Engineer Band of the 41st Division, Col. Bachman organized and conducted a professional concert band which became widely known as Bachman's Million Dollar Band and played during winters in Florida and during summers on Chautauque.

WARREN ASKED TO PROTECT SMALL FISH
JACKSONVILLE, Feb. 24.—(AP)—Sports fishermen here today asked Governor Warren to take a hand in protecting small shrimp and fish from seine nets in the St. Johns River and tributary waters.

"This scandalous condition has been going on in broad daylight and under the very noses of our Conservation Department officers whom I employ to enforce the law," said a petition addressed to the Governor.

'Big Shot' In Tampa Bolita Is Arrested

Paul Giglia Is Captured By Deputies After Short Chase; Gambling Tightens

TAMPA, Feb. 24.—(AP)—A man described as one of the "big shots" in Tampa bolita gambling was arrested today.

Sheriff Hugh Culbreth said "if we have any big shots here they are Paul Giglia and his one."

Giglia was charged with possession of bolita, reckless driving and carrying a concealed weapon. Deputies arrested him after a brief chase.

Deputy K. C. Myers said three bolita pads dated Feb. 22 were found in Giglia's truck. Giglia contends the pads were "planted" in the vehicle.

Myers said Giglia admitted living in the house visited by Jimmy Velasco, Tampa gambler-politician on the night of Dec. 12 when he was slain.

Culbreth said as far as gambling goes "it's tighter in Tampa and Hillsborough County than it has been in a long time. They (gamblers) have gone to their holes."

He said "concentrated efforts by the press and law enforcement officers" were putting the damper on gambling.

Sherriff Culbreth's current drive against gambling has netted 13 persons. Governor Warren has sent two undercover men to help the sheriff nab gamblers.

It was Velasco's murder which set off the current talk and action on gambling here. Ed A. Garner, Governor Warren's special investigator, said Velasco was killed as the outgrowth of a feud over rival gambling interests.

Housing Bill Is Passed By Senate Group

Bricker's Proposal To Bar Segregation In Projects Rejected In 10 To 2 Vote

WASHINGTON, Feb. 21.—(AP)—The government announced today that it will again approve shipments of steel for the construction across Arab lands. Such shipments have been halted for 10 months because of the shortage.

WASHINGTON, Feb. 24.—(AP)—The Senate Banking Committee today approved a broad multi-billion federal housing bill, 9 to 3. It is to be introduced in the Senate tomorrow as a bipartisan measure.

The action was announced by Chairman Maybank (D-SC) following a closed door meeting of the committee. He said Senators Bricker (R-Ohio), Cain (R-Wash.) and Robertson (D-Va.) voted against the bill.

The committee also smacked down, 10 to 2, an amendment by Bricker to require that there be no segregation or discrimination in the public housing projects which the bill authorizes.

For moment, at least, that action headed off a threat that the measure might log down in a "friendly" fight.

Maybank told reporters that Bricker intended to bring the amendment up on the floor, however, and that he had asked for a "second vote" in committee so that there would be no misunderstanding as to how Senators had voted.

Senator Sparkman (D-Ala.) said the bill is "substantially" the same as approved yesterday by his subcommittee. Sparkman had told reporters earlier that such a proposal as Bricker's could kill the whole bill.

Both he and Maybank said they expected a number of Republicans to join with the Democrats in preventing an agreed measure to the Senate tomorrow.

Meanwhile thirty House Republicans discussed the Chinese situation with Secretary of State Acheson and got the idea this government plans no action until "the dust settles a bit."

Many of those attending the conference told reporters they learned little of value. Acheson himself had nothing to say.

MORE COLD WEATHER HITS WESTERN STATES
By ASSOCIATED PRESS
The edge of a Canadian cold wave ended a brief spell of spring-like weather for the North Central states today and brought an ice storm to the Duluth, Minn., area.

Hundreds of power failures were reported in the vicinity of Duluth and Superior as power lines snapped under the weight of inch-thick ice coatings.

The glazing was caused by rain, freezing as it fell. Much of Duluth's east section was plunged into darkness early today by the failure of two 13,000-volt lines, and the North Western Bell Telephone Company said service was interrupted on 75 toll circuits in the area.

Marshall Plan Aid Should Continue In Europe, Truman Says

Gainesville Is Named Site For Medical School Hour Proposals

1949 Legislature To Be Asked To Appro-
pate Needed Funds

TALLAHASSEE, Feb. 24.—(AP)—The State Medical School Survey Committee has recommended the campus of the University of Florida as the location for the proposed state medical school in a report made public today.

The surveyors recommended that the 1949 Legislature appropriate money to pay for architectural work on the school.

Approval of funds for actual construction would be on off until the 1951 legislative session. A tentative time table included in the report calls for graduation of Florida's first class of medical students in 1959.

The recommendations will be submitted to the Legislature when it meets in April. The 1947 House and Senate asked separate resolutions for a survey which would determine whether Florida needs a medical school, how much it would cost and where it should be located.

The surveyors, under the direction of former Dean Vernon W. Lippard of the Louisiana State University School of Medicine, suggested development of a Florida medical school over a 10-year period.

They recommended an initial appropriation of \$5,000,000 for employment of architects to design a medical center and construction of a \$5,000,000 medical school building. The total 10-year construction cost was estimated at \$12,214,000. That would include a \$10,000,000 hospital and \$2,000,000 worth of furnishings.

Funds necessary for completion of the project should be appropriated at the following session of the Legislature after more exact estimates of building costs and availability of funds from other sources have been determined, the surveyors said.

Tampa, Jacksonville and Miami all attempted during the last legislative session to have the medical school established within their borders. Later bids from the institution were made by Gainesville, Tallahassee, Orlando, St. Petersburg, Sanford and other cities.

The surveyors recommended Gainesville as the medical school site because it is near the state center of population and because such an institution "can be developed most effectively as an integral unit of a well organized state university with which it should be associated, administratively and physically, as intimately as possible."

FLORIDA SHIPS FRUIT TO TEXAS MARKETS
WAVERLY, Feb. 24.—(AP)—Florida is shipping some of its grapefruit to Texas, a rival producing state.

That unusual slant on Florida citrus was disclosed today by Norman W. Laird, general manager of the Waverly Growers Cooperative.

Texas is Florida's big rival in the grapefruit market. That state's crop was badly damaged by a recent freeze.

Writing in a weekly newsletter distributed by the cooperative, Laird says "we are now shipping to Dallas."

He said other shippers were sending grapefruit to such points normally in the Texas market as Tulsa, Okla. He said one shipper "reported" added to his trickery. He insisted the voices of former sheriffs, now dead.

President Indicates Plan For Compulsory Health Insurance To Be Pushed

WASHINGTON, Feb. 24.—(AP)—President Truman declared today that the Marshall plan should be pushed forward until European recovery assured the full four years if necessary, but with due recognition that it may take less time.

He expressed pleasure over the Israel-Egypt armistice. And he indicated at a news conference that he isn't taking back a word in a letter of his denunciation of some of his official family.

When reporters asked what impression had been received to his Tuesday night speech declaring that "S. O. B." was going to roll him whom to lure in the government Mr. Truman summed up:

"The impression, he said, were very satisfactory to him."

Truman's columnar and columnar columnar, had criticized Mr. Truman's Army and Air, Maj. General Robert H. Vaughan, for accepting a nomination from President Truman to the United States.

The Marshall Plan committee was also in Tallahassee today. It was a two-day conference from a British spokesman in the United States to the effect that Britain (Continued on Page 131b)

KKK Principles Are Outlined In Carolina Meeting

WEST COLUMBIA, S. C., Feb. 24.—(AP)—Hearings, threatened by local on a KKK Klan here last night, the "diplomatic" bomb was thrown.

The faculty identified themselves as a University of South Carolina. Faculty members included: Robert Klamm and Klamm finally got them to leave the field where Grand Dragon Samuel Green of Atlanta was speaking to a crowd of about 2,000.

The students said a Klan man pulled a knife on one of their group. They reported that West Columbia police were "pro-Klan."

Green came to Jarrett, new Klan here and at Swanton, both in Lexington County. He estimated that approximately 1,000 members of the Klan and headed a gathering in the large circle around the white southern battle cross.

Green told why the Klan wants jobs and money and horns crosses. "Every fraternal organization and every organization with any money has some distinctive kind of a costume," he explained. "Ours is a robe and hood for wearing masks, he added, so that some members might lose their jobs if 'prejudiced' employers learned they were in the Klan."

He said the cross "symbolizes our faith in Christianity." They are turned crosses "all through the bible you will find that God used fire for purification."

The Grand Dragon emphasized the Klan's "chief and cardinal principle" white supremacy.

"We of the Klan will fight to the last drop of blood to protect the white supremacy of the South and states' rights," he promised. "They can bring the Yankee bayonets here, but they can't make the Southern white man take the negro as his equal."
