--- JUST LIKE ANY OTHER BABY!

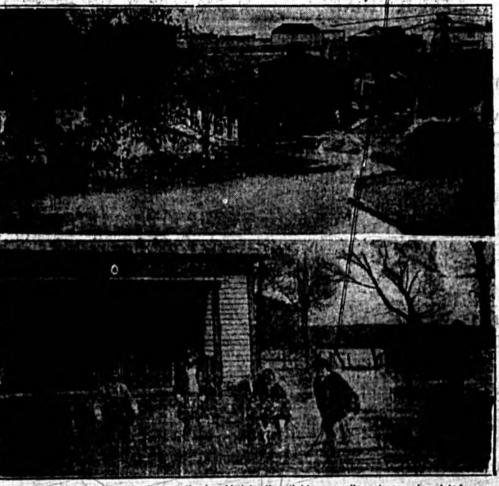

Count Lance Haugwitz von Reventiow, Infant son of the former Barbara Hutton, is one of the richest youngsters in the world. But with all of that, his "conduct" is about like that of all other bables the world over. Seen during an airing in a London park, the sandid camera shows him to be a fine young fellow who frets (upper left) when he's tired of lying on one side. Then he kicks a time or two and feels better (upper right). Ho fium! He's sleepy (lower (left), and finally he drops off for a snooze, (Associated Press)

ASHES TO ASHES!-AND SO ENDS STORY OF BRUNO

But an Associated Press photographer naw them carrying the coffin—and this exclusive picture resulted. (Associated Press Photo)

FLOODS FOLLOW TORNADO IN SOUTHERN STATES

The ternado-wracked South had floods added to its plight as swollen streams inundated many sections. The Congares river swept ever sandbags and invaded the Broad River Power company building (top) at Columbia, S. C., necessitating removal of machinery. The boys shown below didn't have to go to the river to fish at Columbia. The river came to their porch, so they waded out with fish nets. (Associated Press Photos)

Another Boom?

"How's business over in Daytone?"; almost anyone might wak. "Oh, we're having a boom over there," would be the reply from almost anyone living in the beach city.

And that is the sort of answer one receives no matter which city in Florida he happens to be asking about. In Miami, Palm Beach, Fort Myers, Sarasota, Tampa, St. Potersburg, Orlando, Jacksonville, Palatka, Ocala, Leesburg, the answer is aways the same. "Oh, wa're having a

And building, permits last year were \$729,391 better than during the previous year.

The state is just finishing another one of its best tourist seasons. And this one is the best ever. Tourist travel to Florida last year was estimated at 1,750,000. But

During the nine-month period of the present fiscal year, collections at Florida's ports totaled \$2,036,820 as compared with \$1,482,424 for the same period last year and only \$1,942,928 in 1934.

At the same time incomes of both Individuals and corcorations have increased as indicated by a rise of \$360,000 in federal income taxes during the month of March of this year over the month of March last year.

What is even more spectacular is the revelation that the number of recoile in this state has increased over 200 .-PAO since the denression began. The 1920 census showed Florida had 1.468,470 neonle living in it; the 1935 census gave this state a population of 1,603,842.

And so we hear from all over Florida, "A boom is getting under way!"
