Notebook Scribblings

Always appreciate receiving notes from the fans. (Ah, for those of you using the word . . . it's spelled jerk. No need to capitalize it, either, thank you.) Those letters from the Game And Fresh Water Fish Commission are enjoyed the most . . . on occasion, that is. This past week --- a completely blank piece of paper!!!

(Just didn't have the nerve to write it, ch?) I just can't believe it! I understand that a certain local athletic coach is going to use his own power mower to cut the grass at a certain ball field in order for his boys to be able to practice. That ought to look good, in say an eight column picture, huh?

Got a postal card from the Unger family in Anchorage, Alaska. Thelms pens us that husband "Dutch" and son, Ralph, were out hunting for Alaskan White Dall Sheep. A beautiful mantle-piece with those long flowing horns. Keep that kind of communications up and I might join the Navy, too, and ask to get shipped up north . . . AND I DO MEAN NORTH IN THIS CASE.

Was out watching Owen McCarron leading his enthusiasts on the Seminole JV Varsity and they're shaping up nicely. The popular McCarron says that they'll probably be using the Single Wing this season and is most pleased with the total And since we're on the subject of Seminole, a great big salute to Head Couch Ralph Stumpf and his assistant, Grey

Ho, Ho, Ho!!!

GREY BOYLES

You guys just gotta be kidding. I mean those "experts" who are already predicting who's gonna be playing in the Super Bowl. Geez, I still haven't gotten around to ribbing those clowns who picked the Baltimore By THE ASSOCIATED PRESS and two away. Orioles and Pittsburgh Pirates to be run-aways in their respective baseball leagues.

(How can I ever forget that infamous Nebraska over Ala- title. bama debacle of last season?) But really, isn't it silly for these fellahs to write about the Packers defeating the Kansas City Chiefs in the Sooper-Dooper Bowl?

That's like saying Steve Spurrier is going to be the Rookie-of-the-Year. You probably saw how the Packers handled Sterling Steve in the All Star game. It takes a lot of time and seasoning to mature into stardom. (That's why I'm going to wait and wait and wait . . . but, one of these days I'll be right and predict that Bear Bryant's crew will get stomped. Of course I may be 80 years old by then. . . .)

Smart Aleck Punks, That's All!

I don't know how they ever got into American Legion Baseball Uniforms in the first place, much less that poor imitation of a coach that they had. But I'm sure glad they rapped their knuckles . . . BUT Let me tell you about it.

Last week down in Miami, Bradenton's Post 24 American Legion baseball team was suspended for one year and its manager, coach and four players banished indefinitely for what was called "disgraceful" conduct in the state playoffs. The umpire-in-chief stopped the game in the top of the ninth and forfeited it to Tampa for "unsportamanlike conduct, profanity and complete disregard of the American Legion Creed of Sportsmanship" by the Bradenton team. Can you imagine these kids lining-up with baseball bats as "weapons" (better watch it or someone will start to write a bat-carrying-law, huh?), another carying a pellet gun . . .

all gunning for the umpires? This was the accord time in less than a week in which this unruly group displayed this disregard for the rules. My only objection is that the powers to be waited just one time,

JOHN BISHOP Eckerd's Opens Photo Lab At Winter Park

John L. Bishop, manager the Orlando division of Eckerd Drugs of Florida, Inc., has announced the installation of a new photographic processing lab ic his division. The lab, located in Winter Park, will handle the photo processing for the 31 stores in the Eckerd Orlando division. It is scheduled to be in operation around the first

of September. "At the present time, the pro cessing facilities in our Clearwater lab are operating at full capacity." stated Bishop. "The rapid increase in new stores, especially in the Orlando area. plus our two-for-one film po toy, has made another photo lab very necessary." All Eckerd Drug stores have complete camera-photo departments. The new Orlando lab will pro cess black-and-white, color film and prints, as well as enlargements. It is capable of handling the processing of some 75,000 prints a day. The newest and most modern equipment b PACO and Eastman Kodak i being installed in the lab. David Gleason, formerly with the Eastman Kodak Company will head operations at the Or lando photo lab.

Successful Year is Reported B North Orlando

By RAYMOND E. WARE North Orlando had a successful year, according to reports presented at the August council meeting by Charles McIntosh, commissioner of finance. who showed revenue and expenses of the village for the past three years. Exhibit one was a chart

which showed the revenue that comes from permits and licenses, the police department, cigarette tax, utility taxes, fran-chises, and miscellaneous. This totaled to \$9,553.74 for the year 1965, \$8,645.39 for 1966, and \$10,-868.38 for 1967. In 1967 approximately 50 per cent of the revenue was from utility taxes. Exhibit two, which followed, listed expenses. It cost the village \$5,769.19 to operate in 1965. \$8,962.35 in 1966 and \$9,337.85 in 1967. The five most outstanding

expenses were wages, the police department, utilities, insurance, and legal and accounting, in that order. In 1965, \$3,783.55 was left after expenses and in 1966 the village went \$316.96 in the red as a result of this and the fact that operating revenue was down \$907.35 from the preceeding year while expenses were up \$3,193.16. Utility taxes were in-

creased in July, 1966. Expenses for operating the village have increased 4.2 per cent over 1966 and 62 per cent over 1965. The revenue has increased 62 per cent over 1966 and 13.6 per cent over 1965. In 1967, 85 cents out of every dollar was spent.

At the end of the fiscal year, June 30, 1967, the revenue minus expenses was \$1,531.03. Balance sheet of that date shows a total unappropriated surplus of \$27.-023.64 and a total liabilities of \$2,445.19. Assets to liabilities ratio is 11.05 to 1.

McIntosh said references for the finance report were village records, including reports, journals, and ledgers of the village kept by Robert L. Kramer, accountant, Orlando.
