> TELERY growing isn't child's play. It requires real skill and lots of it, to make a successful crop.

The celery-grower knows that the real money is made in a big crop running three, four and six dozen to the crate. And the earlier to market the better the price.

That is receively why the right fertilizer is important. Bradley's "AA QUALITY" Fertilizers range capid and continuous growth.

These ferilizers supply the necessary plant food for each stage in the growth of the crop. They give every row an even stand of tender, fresh-grown sprouts.

Made to measure for the Celery-grower's requirements, to assure the necessary balanced growth. Use Bradley's "AA QUAL-ITY" Fertilizer this year. Not only for Celery but for all other truck crops.

Bradley's "AA QUALITY" Fertilizers produce outstanding results because they are specially made for Florida cropsthere is a grade for every soil condition.

Backed by over 60 years' experience in fertilizer manufacture. Made in a great modern plant in Jacksonville, from the choicest plant food materials, specially prepared under scientific control.

All materials are mixed, aged and remilled so that every particle of plant food
