

Colorado's Dust Bowl May Become Cattle Domain

Abandoned Farms To Be Turned Into Domain For Cattle

BRIGGSDALE, Colo., Aug. 25.—(AP)—Cowboys are being

searched wheat lands here. And with a little more time, the dust experts say, north-east Colorado's dust bowl may be converted into a grass-covered domain for cattle.

Already, the fences and the land have been uprooted from more than a quarter million acres. A barbed wire fence in the north and the wheat fields have been removed.

Eventually, the government hopes to turn more than a mil-

lion of the region's unirrigated acres into a pasture so gigantic that it will bring back the old-fashioned round-up.

Before the droughts of recent years began to wither crops and bring dust storms, the families were trying to make a living on the quarter-million-acre domain by raising a occasional bumper wheat or bean crop.

When disaster struck, the government offered to resettle some of the families and to buy the worst of the farms. About 100 families sold to the government.

CLASS had German navy membership, Harold Wessel (named for a Nazi hero), as she left home port, Kiel, for training cruise to West Indies. "Harold Wessel" is also the name of the famous Nazi marching song.

Chesterfield Begins New Schedule Of Ads

With an appeal to "smoke Chesterfields for more pleasure," the Liggett & Myers Tobacco Co. will launch next week its fall advertising campaign with a series of ads, which will show Chesterfield smokers in lively, human situations. The ads will appear in daily newspapers throughout the country, including The Sanford Herald.

Announcing their new advertising schedule, officials of Liggett & Myers Tobacco Co. declared Chesterfield advertising has been "readily popular with the public and tobacco retailers because it advertises Chesterfield cigarettes for the smoking pleasure they give." The "pleasure" illustrations are backed up with interesting copy which shows that "the Chesterfield way to real tobacco smoking pleasure is to age, blend and manufacture choice tobaccos in the way that makes a cigarette better tasting, mild and completely pure."

LEWIS FIGHTS

WASHINGTON.—(AP)—John L. Lewis, striving doggedly to avert a permanent split in the United Automobile Workers Union, advanced a series of peace proposals yesterday to the battled factions warring over leadership of this once fastest-growing CIO affiliate.

During those first few years, Casper recalls, there were good crops. Then the crops became smaller. When the drought came, the country started to "blow away."

"We never should have tried farming," he concludes. "We lost money at it and managed to keep alive off the livestock profits."

Because of the drought, the native grass hasn't recovered itself since 1931. "It may take 50 years to get it back like it was in 1900," says Project Manager Hyde. "Meanwhile, we are planting a hardy grass of different type."

Less than half of the 250,000 acres was planted to crops during the "dry land" era. Hyde estimates the remainder was in native grass that had been badly overgrazed.

"The government's only concern," he says, "is to see that the tract does not become overgrazed and abused again. Administration of the common grazing tract will be placed with a livestock association organized by the people in the area."

Four cowpunchers hired by the association are now "riding fence" to see that no one tries to steal grazing rights in the area.

SAVE the Dollars

Rot Gnaws Away

The Florida Public Service Company is glad to offer to Central Floridians a by product of its Sanford Gas Plant. Tar is a truly useful substance adaptable as a roofing material preservative and insecticide. It is another service offered by this Company to its customers.

Tar is inexpensively obtainable at all the major ice plants and storerooms of the Florida Public Service Company. Bring your own container to the nearest point of supply. Up to 50 gallons the price is 15c per gallon. In quantity from 50 to 1,000 gallons at 12c per gallon and all over 1,000 gallons at 10c per gallon. Here is an opportunity for you to waterproof that old shed or rid your hen-yard of chicken mites at low cost. Now, you can "save the dollars rot gnaws away!"

TAR kills weeds

TAR is a fine insecticide

TAR is an ideal roofing material

TAR helps to prevent rot and decay

TAR waterproofs lumber, brick, stone

U.S. Makes Emphatic Objection To Japan's Attack On Airliner

Ambassador Grew Presents Secretary Hull's Protest To Tokyo Government

Intense Fighting Rages In China

220 Killed, 70 Hurt In New Bomb Explosion In Holy Land

WASHINGTON, Aug. 26. — (AP)— The United States expressed to Japan its "emphatic objection" to the attack of Japanese war planes on a Chinese commercial airliner Wednesday with the reported loss of 14 lives.

On instructions from Secretary Hull, Ambassador Joseph G. Grew, Tokyo, presented the Japanese government with a note which declared:

"My government desires to express its emphatic objection to the jeopardizing in this way of the lives of Americans as well as other non-combatant occupants of unarmed civilian planes engaged in clearly recognized and established commercial services over a regularly scheduled air route."

Hull told the Japanese "the attack upon the plane has aroused public feeling in the United States."

The pilot of the plane was an American, Hugh L. Wood, Winfield, Kan., who was one of the three survivors.

Hostilities continued in the wars in Spain and China and in the racial strife between Jews and Arabs in Palestine.

Spanish Government dispatches reported insurgent troops were attacking in force north and south of Gandesa in an attempt to flatten the wedge. Government troops drove a month ago in a sudden offensive across the Ebro river.

Bulletins acknowledge Government lines were giving slightly on the southern Catalan front but asserted the offensive on the Extremadura front in the northwest was staving off the insurgent drive on the rich Almaden mercury mines.

Intense fighting raged on the west shore of Poyang Lake in central China where Japanese were driving toward the Nanchang air base, strategic point in the outer defenses of Hankow, provisional Chinese capital. Both sides suffered heavy losses.

At least 20 Arabs were killed and 70 others wounded by a terrific bomb explosion in a crowded Jaffa market place which touched off furious Holy Land rioting.

Four bodies were recovered from the wreckage of the Chicago down and machine gunned near American owned airplane Wednesday by a Japanese air squadron near Canton, China.

Townsend Speaker

James G. Sharon, county judge, is expected to be elected as speaker of the Townsend Club.

Sharon Selected As Speaker For Townsend Clubs

Local Attorney Given Credentials For Work In Movement

James G. Sharon, county judge and for a long time prominently identified with the political life of Sanford, has been selected as an authorized Townsend speaker, according to information received from national headquarters as disclosed at the Sanford Townsend Club meeting Thursday night in the Welaka Building.

In commenting on Mr. Sharon's selection, Arthur E. Kirshoff, secretary of the local club, told The Herald Friday morning that the "national headquarters" is very particular in the selection of speakers. He said this was so because "it is absolutely necessary to keep out false propaganda."

"Before national headquarters issues credentials to any person to speak on the Townsend Plan, great care is exercised to ascertain the fitness of the candidate. Mr. Sharon has come up to all the required standards. He has been a conscientious worker in the National Recovery Plan, and of sterling character," Mr. Kirshoff stated.

In accepting his new position, Mr. Sharon thanked the club for the honor and declared: "The Paul of old, I am ready at all times to go and do all the good that I can and go wherever I am sent."

Members of the club feel that the appointment of Mr. Sharon will assist in bringing prominence to Sanford nationally in the Townsend cause.

FUGITIVES CAPTURED

PANRACOLA. — (AP)— Henry Rogers and Sims Campbell, remaining two fugitives of the 11 convicts who made a break from the Atmore, Ala., State prison farm Monday were captured at Cantonment near here yesterday.

City News Briefs

Partly cloudy tonight and Saturday, possibly light showers near southwest coast and in extreme northeast portion.

Luke Williams, charged with intoxication, was sentenced Thursday by County Judge R. W. Ware to pay \$5 and costs or spend 90 days in jail. Tom Van Hore, charged with illegal use of dogs in a game refuge, was sentenced to pay \$25, and costs or spend 90 days in jail.

Luke Williams, charged with intoxication, was sentenced Thursday by County Judge R. W. Ware to pay \$5 and costs or spend 90 days in jail. Tom Van Hore, charged with illegal use of dogs in a game refuge, was sentenced to pay \$25, and costs or spend 90 days in jail.

Property Owners May Register For Bond Referendum

Books To Be Open Until 10 Days Prior To Election Date

Sanford county property owners whose names are not recorded in the Registration Books for a general election, or who are registered but are not listed as freeholders, will have an opportunity to qualify for the referendum on the bond issue for a County owned hospital which will be held on Sept. 27. County Attorney E. F. Housholder said today.

Pointing out that only freeholders who are qualified electors in this county are eligible to vote in the special election, Mr. Housholder stated that the registration books in the office of Supervisor of Registration W. J. Thigpen in the Humble-Puleston building will be open daily, except Sundays, until 10 days before the referendum so that all who are not duly registered will have an opportunity to do so. Only those who are already registered in the books as freeholders did not have to re-register. He stated that the law provides that any person shall be deemed a freeholder who has an interest, legal or equitable, in the title to land.

It was further pointed out that the election will be held at the polling places in the several precincts of the County which were used in the recent voting. The Commissioners set the date for the special election of their meeting on August 15. Their action followed the presentation earlier in the year of a petition signed by 300 freeholders requesting the election on the bond issue.

At the polls the voters will decide whether or not a majority of the County's freeholders approve a bond issue of \$70,000 which will be used in conjunction with federal funds for construction of a hospital and also on a levy not to exceed two mills over a period of 20 years to repay the bonds and maintain the hospital.

Supervised Games For Children Held Daily

Each morning from Monday to Friday, supervised play for children is being conducted at the playground at the Sanford Grammar School from 9:00 until 12:00 o'clock, according to Mrs. Ollie Bryan, Seminole County supervisor of recreation for the WPA Division of Recreation.

In addition to the games, conducted at the Grammar School, the boys basketball teams are utilizing the diamond at the park on Ninth Street and French Avenue. The teams are under the supervision of Wilson Smith.

Mrs. Bryan pointed out that all children above six years are invited to participate in the games, and added that children will be well supervised while on the playgrounds.

In addition to the games, handicraft classes are being conducted for girls in the Chamber of Commerce building every Tuesday and Friday. These classes are limited to girls from 6 to 14 years of age, Mr. Bryan said.

DEMAND EMPLOYMENT

WASHINGTON. — (AP)— The United Federal Workers of America, a CIO organization of government employees, wrote Secretary Perkins yesterday that an employee of the Labor Department's constitution service had been discharged for union activity. The union said the discharged employee was Mrs. Rhonda Singer, and it demanded her reinstatement.

President And Farley Agree In Conference

Postmaster-General Reported To Have Urged FDR To Campaign In Maryland

HYDE PARK, N. Y., Aug. 26. — President Roosevelt said today he and Postmaster-General James A. Farley "were in complete agreement as usual" during a political conference here. The President made the direct statement in answer to questions at a press conference.

He and Farley were understood to have gone over the political situation in every state in which the New Deal is a political issue. Farley reportedly urged the President to go personally into Maryland in an effort to defeat Senator Millard T. Ewing, Administration opponent of making a nomination.

The President did not comment on this, saying he had no personal biases, but already announced for Paoli, Pa., N. Y. and Chattanooga, Tenn.

HYDE PARK, Aug. 26. — President Roosevelt today appointed Donald Wakefield Smith of Pennsylvania as a member of the National Labor Relations Board. Smith's term will be five years. His old term expires tomorrow.

Survey Reveals Small Increase In Foodstuff Prices

WASHINGTON, Aug. 26. — (AP)— The price of the nation's foodstuffs, except slowly upward in early summer months, but still relatively well below the average for the corresponding period of 1937.

Statistics compiled by Bureau of Labor Statistics show 20.2 cents bought as much food in June as could be obtained with 86.3 cents in the same month of 1937—the same amount 100 cents purchased in 1937. But the same quantity of food purchased with the 80 and a fraction cents in June could have been bought for 79.1 cents in May.

The increase of 1.3 percent of the food index was attributed by the bureau to jumps in the price of fresh fruits and vegetables.

The department based its figures on a study of food prices in 51 cities.

Figures for individual districts and cities included: South Atlantic, 77.6 percent in June, 77.5 percent in May, and 85.3 percent in June, 1937; Atlanta, 72.5, 72.9 and 83.5; Jacksonville, 76.8, 76.3 and 82.3.

Townsend Club Has Its Regular Meeting

New impetus to the Merchants Co-operative Plan, whereby 2 percent of the amount purchased by Townsend members is contributed to the club, was reported at the meeting held Thursday night in the Welaka Building.

Arthur E. Kirshoff, secretary of the club, was instructed to write to the Florida State Chamber of Commerce that Sanford will endorse the resolution to have the 1938 Townsend convention held in Florida. It was pointed out again that Florida is the first and only state to elect all senators and representatives on the Townsend Plan.

The Sanford Herald was mentioned for favorable publicity given the club.

COURSE TO BE REBUILT

DUNEDIN. — (AP)— The Dunedin Golf Course, one of the best layouts in the state during the boom period but abandoned for the past several years, is to be rehabilitated through a WPA project sponsored by the city commission.

PREPARE FOR PTA MEET

SARASOTA. — (AP)— Parent-Teachers Associations throughout Florida are preparing exhibits for the annual state P-T-A convention to be held here Nov. 2-4.

IN DEFENSE OF CHICAGO

Masked infantrymen, shown advancing on attacking gunners, are seen in the National Guard's defense of Chicago. The city is being defended against attacks.

Garden Club Plans To Begin Beautification Work Soon

Beautification work on the Garden Club's grounds is planned to begin soon, according to Mrs. L. J. Williams, president of the club. The work will include planting trees and shrubs, and the installation of a fountain.

The Garden Club is planning to beautify the grounds around the city hall, and the work will be completed by the end of the year.

The Garden Club is also planning to beautify the grounds around the city hall, and the work will be completed by the end of the year.

FRIDAY, AUG. 26, 1938

BIBLE VERSE FOR TODAY

PEACE IN DARKENMENT To give light to them that sit in darkness and in the shadow of death, to guide our feet into the way of peace.—Luke 1:9

One would think that Hungary had seen enough of German alliances in the last war.

President Roosevelt says it was the Republicans who defeated Senator Pope. Well, it was the Democrats who elected Hoover.

Hitler has promised not to invade Hungary as evidence of the friendly and cooperative which has existed between the Germans and Hungarians for centuries. Or as the apter one said in the fly, "Want you come into my parlor?"

IF SEMINOLE County had been growing tobacco this winter, it might have picked up three or four million dollars, as Almaten Mr. Holland Dean in The Sanford Herald. He suggests farmers try something besides cotton. Well, any crop producing almost half a million dollars a year would be worth a try. People have been known to do without cotton, but have you ever tried living without tobacco?—Orlando Sentinel.

While the State is \$1,000,000 behind in the payment of its bills and apparently does not know where its next payroll is coming from, the Miami News reports that the present cash balance in the State Treasury is not more than \$3,000,000 as many had supposed, but actually some \$10,000,000. Over \$5,000,000, it says, is in special funds created by the legislature; \$4,000,000 is in the Board of Administration treasury; and \$4,000,000 is held in trust for special purposes; all of which belongs to the State.

A visitor in our office yesterday was Harry Papworth who for years has been worried and working in behalf of local farmers and citrus growers who had been crop destroyed during the winter. Papworth's Fly came upon nearly ten years ago. Later he flew in the continent, according to Mr. Papworth, is the demand of the special House committee investigating claims that elaborate questionnaires be filled out by the individual farmers answering questions whose answers were forgotten with the summer of the glacial period. Papworth has undertaken the task of unraveling this additional red tape and asks the farmers who have claims to come and see him.

While the special act of the legislature authorizing a bond issue in Seminole County for the construction of a hospital with the aid of PWA funds, does not specifically prohibit the County Commissioners from using the \$70,000 worth of bonds which may be authorized in the referendum to build a hospital without federal aid in the event the PWA turns the project down, there is no reason whatever to believe that the County Commissioners would do this. The free-lance are being asked to see the PWA for a hospital for the government would pay 45 percent of the cost. Any County Commission that would want ahead and build a hospital without federal aid would be placing a burden on itself which would be something to be avoided. And we don't see how they can get out of them are going

Not Seeing Eye To Eye

The reason there is so much confused thinking throughout the country today regarding the merits and demerits of the New Deal is because arguments most frequently heard on both sides seek mainly to inflame the prejudices of the people and make very little, if any, appeal to reason. Thus, Senator George is roundly accused of being controlled by the Republicans and the utility interests, and President Roosevelt in turn is charged with being a communist.

The New Deal, both in Georgia, and throughout the rest of the country, should be tested solely on its merits and the issues should not be clouded with a lot of silly charges which no one attempts to prove and which are entirely unfounded. As to the wisdom of New Deal policies, it seems to us that there is plenty of room for substantial difference of opinion even among honest well-meaning Democrats.

It has been the custom among apologists for the New Deal to charge, the minute any policy of the Administration is questioned, that the questioner is a Republican, a Lord Macaulay, an economic realist, a money-changer, and so on. It is not that, as if his opinion therefore was not worth the paper it was written on. If Senator George doubts the wisdom of enlarging the Supreme Court, he is immediately branded as a reactionary, selfishly conniving at the destruction of the people's rights.

It seems to us that Senator George should be able to disagree with some of the New Deal policies, and still be a good citizen, a loyal Democrat, an honest and upright man, even a champion of the people's interests. It might be that a man like Senator George could disagree with certain New Deal policies and still be just as eager to benefit the working man, to eliminate poverty and unemployment, to aid the suffering and the sick, and to bring about a better standard of living for the average citizen as President Roosevelt is.

It may be that Senator George sees in the New Deal policy of constantly raising taxes higher and higher, and of putting the little fellow in so doing, as well as the big fellow, something which is detrimental to the poor man's interests. I may be that he sees in the constantly mounting government debt, the flotation of bond issues upon bond issues, an unprecedented heath, a burden that will have to be borne by the poor man, and the poor man's children for generations to come.

More than that Senator George may think that there is something wrong with a governmental program which finds one federal agency paying farmers huge subsidies and to produce, and another federal agency spending huge sums of money to teach them how to produce more, while a third federal agency builds dams, irrigates deserts, and drains swamps so as to provide more land for more farmers. And he may think that tariff walls which let foreign farm products in our country and restrict our farmers' sales abroad are also wrong.

We don't know exactly how Senator George feels about all these things. It may be that he thinks they are all right. We do know that he voted for all the various relief bills, just as he voted for the Tennessee Valley Authority, much against the power companies' wishes, but we do believe that he might disagree with some New Deal policies and still be an honest man, devoted to the public's good, and anxious to better the lot of the average man.

He might see eye to eye with the President in his desire to improve the standard of living and still doubt if the New Deal policies will accomplish their purpose.

Summer Tourist Business

For several years Florida residents have noticed an increasing number of visitors in this state during the summer months. Particularly this summer does there appear to be an unusually large crop of summer visitors from neighboring states. The automobile license plates of Georgia, South Carolina, and Alabama, not to mention an occasional state farther north, are fairly conspicuous.

What many Florida citizens may not know is that several Florida cities, and a number of larger business organizations, have deliberately sought to increase summer tourist business, have spent large sums of money this summer advertising the charms of Florida as a summer playground. The results of their campaign have proved again that advertising pays.

"More Florida communities and organizations have spent more money in advertising Florida this summer than in any year in the past," says the Griffith Advertising Agency, with the result that "During the present summer Florida has had an unprecedented number of summer visitors. Throughout the state there have been more foreign-license cars than in any previous summer since the 'boom days'."

Outsiders among those who have contributed to this summer advertising campaign are Jacksonville, Daytona Beach, Miami, Miami Beach, St. Petersburg, Clearwater, Pensacola, Silver Springs, the Florida West Coast Association, the railroads, bus lines, steamship lines, and several others, the agency reports.

These advertisers have spent large sums of money in the newspapers and radios established in certain centers of population in neighboring states as well as in some northern areas. The campaign has been conducted in the north as well as in the South, with the result that more and more summer vacationists who are unable to get away during the busy winter months are finding that Florida can be a delightful place to spend a few weeks even in summer.

The fact that this summer advertising has met with such outstanding success affords every indication that the campaigns which are always carried on in the winter months will prove more successful than ever and that as the regular tourist season approaches Florida will find an ever increasing number of visitors coming into this state.

SANFORD TWENTY YEARS AGO

The Home Guards, who went from here were Messrs. C. W. Entzinger, J. A. Blaine, D. H. Hooker, W. A. Lewis, J. T. McGaughey, Lieut. and Mrs. Wilkinson left today for Gainesville. Lieut. Wilkinson is on his way back to Camp Gordon. Hollis Lought who has spent the summer here at the home of his aunt, Mrs. I. E. Estridge has now gone to Wauchula to visit before beginning school in Kissimmee. Miss Emma School has been the guest of friends in DeLand for a week. Mrs. F. F. Dutton and daughter, Frances are expected home the 15th. Mrs. Dutton has been in Brighton, Me., and Hackensack, N. J., and Miss Frances in camp

STRANGE AS IT SEEMS—By JOHN HIX

For further proof address the author, inclosing a stamped envelope for reply. Reg. U. S. Pat. Off.

Illustrations for 'STRANGE AS IT SEEMS' by John Hix. Includes: 'GOLIATH MESSIAH--New York, Ran 3 Miles Backwards on His 72nd Birthday! -1938-', 'THE SLATE-PENCIL SEA URCHIN, of the Great Barrier Reef, Australia, IS COVERED WITH BLUNT, HARD SPINES MOUNTED IN BALL-AND-SOCKET JOINTS', 'A BAND OF 100 CHEYENNES TRIED TO STOP A KANSAS PACIFIC LOCOMOTIVE WITH A RAWHIDE ROPE STRETCHED ACROSS THE TRACK! -Near Ft. Wallace, Kans.-', 'THE CITY ON ICE! YAKUTSK, RUSSIA, IS BUILT ON FROZEN GROUND WHICH HAS NOT THAWED IN 5000 YEARS!', and 'INDIANS VS. TRAIN'.

CITY BUILT ON ICE... Coldest spot in the Northern Hemisphere is the Russian village of Yakutsk, administrative center of the Yakutsk. A. S. B. U., a 100,000 square-mile republic nearly as large as Europe... Temperatures colder than 90 deg below zero F. have been regularly recorded there... Not realizing the great power of the puffing giant, the Indians cunningly strung a braided rawhide rope across the tracks. Fifty Indians took hold of each end. They squatted in wait, hiding behind clusters of tall grasses. As the train approached the Indians sprang up, braced themselves to receive the shock of the train. To their disappointment, they were yanked flying into the air, killing or injuring about a dozen. Tomorrow: What state once had five capitals at the same time?

J. J. Taylor Is Named To Food Standards Group

TALLAHASSEE, Aug. 26.—(AP)—J. J. Taylor, Florida State chemist, will serve as a consultant on the Food Standards Committee appointed by Henry A. Wallace, secretary of agriculture. Taylor received notice of his appointment from W. G. Campbell in Washington. The committee will function under provisions of the new Food and Drug Act passed by Congress.

In addition to Taylor, members of the committee are C. D. Howard of New Hampshire, Guy C. Frary of South Dakota, Mrs. F. C. Dugan of Kentucky, W. B. White and W. S. Friable of Washington.

Taylor's new duties will not interfere, he said, with his work as Florida State chemist. Duties of the committee will be to formulate definitions and standards of identity and quality. When the recommendations are approved and promulgated by the Secretary of Agriculture they will have the same force and effect as law. The committee will meet at intervals at Washington.

DAY CAPES OF FUR

PARIS.—(AP)—New furs include shawl-like day capes, pointed in back and finished in front in long stole-shaped ends. Heim shows one in skunk. Max is also showing a fitch design in white ermine for a black satin evening gown. Ermine tails fringe the (fitch) and trim the accompanying small, melon-shaped muff.

EARLY WINNERS

LEXINGTON.—(AP)—Hajon's early stud career has been remarkable. This young horse had only five foals in his first crop, now 2-year-olds and three have won. Among them is Sweet Patrice, winner of seven races.

When Mr. and Mrs. George Gibson of Boston, England, celebrated their golden wedding anniversary they noticed that five grandchildren who married in the last 100 years

Financial Crisis Faced By State In 1842, Records Show

TALLAHASSEE, Aug. 26.—(AP)—Public officials seeking to weather a financial crisis in State affairs in getting aid from Washington found a close parallel in 1842 records buried deep in Capitol vaults. When Florida was a territory, T. Baltzell, Tallahassee commissioner, wrote Gov. Richard Keith Call that there was not enough money to complete a roof to the first state capitol building. In his fine penmanship, Baltzell reported: "The hope is indulged that Congress will make an appropriation rather than allow the expenditure already made to be defeated."

On January 3, 1842, Baltzell wrote the Governor: "The building is still unfinished, the walls erected but without a roof over the greater portion of them and they are suffering from exposure to the weather. The means of providing a roof are not within the reach of the commissioners, having no funds on hand, and no prospect of realizing from the sale of land belonging to the fund or of

collecting debts due to it." Baltzell said the "importance of again urging this matter upon the delegate and congress is respectfully suggested. Attention has already been drawn to it by that indefatigable public officer, and it is to be hoped that his exertions may be seconded by the local authorities."

Already about \$10,000 had been paid to various contractors listed in the now yellowed records. Baltzell said, however, he had delayed digging a well in the public square, as directed, because he thought all available money should be applied to the capitol construction.

Present-day public officials have a new wing to the capitol, but the upstairs was left unfinished. It is roofed, but quarters designed for the house of representatives were left unseated. The present cabinet also is seeking additional help from Washington for erection of a new power house at the state hospital in Chattahoochee and for other projects threatened by lack of finance.

"If the Japanese government really entertains peaceful intentions, as the Japanese ambassador stated on Aug. 4, it must give clear and definite guarantees of renouncing all claims of territory that attacks on Soviet territory will not be repeated."

SECURITY advertisement featuring an illustration of a man in a suit and a woman in a dress. Text: 'A small amount each week invested in our Retirement Plan will enable you to obtain a regular income per week at the age of 60 or 65. See our local agent or write...'

More White Boys Than Negroes Are Sent To Prison

TALLAHASSEE, Aug. 26.—(AP)—White boys under 20 years of age outnumber negroes among prisoners committed to the State prison in the first six months of 1938. Breaking and entering and robbery outrank other crimes charged against them. The State Prison Bureau showed the figures in a six-months report compiled for Nathan Mayo, commissioner of agriculture who is in charge of the prison farm.

In the age group 15 to 21 years, there were 72 white boys, five of them with previous records, and 37 negroes, five with previous records.

Between 21 and 26, there were 81 whites and 80 negroes; 115 negroes; 34 to 50 years, 64 whites and 59 negroes; and over 50 years, 21 whites and 12 negroes. The total for white men was 325 and for negroes 321.

There were seven white women and 17 negro women committed in the same period.

Mayo said the number of boys under 20 committed indicated the need for a separate prison to house them, where they could be taught trades to follow when

they complete their sentences. "There is a growing tendency," he said, "in favor of taking convicts off the roads, and if that is done, there must be provision for housing them. I believe there should be a separate prison for the younger men and the first offenders."

Mayo established a "first offenders" prison camp at the state hospital about two years ago. He said its operation "has been successfully carried out."

Florida law requires the State Road Department to work all able-bodied convicts on the public roads. About 1,500 men, white and negro, are quartered in road department prison camps scattered about the state. The road department uses its own funds to feed, guard and maintain these prisoners.

Lime growers from 14 Florida counties have appealed to Governor Fred Cone requesting that he proclaim a "Lime Week" to help popularize this delightful summer beverage fruit. Chain stores and other retail outlets will be requested to help.

Simplest Rules Of Etiquette Are Most Troublesome

By JOAN DURHAM

What etiquette problems bother most of the people much the time?

Top of the listers include:

Who should be introduced to whom? Answer: A younger person is presented to an older, gentleman to a lady, a less distinguished to a more distinguished individual.

May a woman be addressed by her first name and her husband last? Only on a legal document when she uses that name professionally. Widows retain the husband's name. Divorcees usually resume their maiden name or use a combination of the own and their former husband's names.

Where should the bride stand at a wedding? At the bridegroom's left. The maid of honor stands to the right of the bride. The bride's family is seated on the left side of the church.

What initials should be used in marking a bride? Initials at the end of the name. The initials of her maiden name. Frequently used are the husband's first and last name in the bride's name.

How much should a tip be given? Ten percent of the bill is good average. Don't leave if there is a time in restaurants which the tables are covered with cloths.

May a man let a woman wear the coat? Not under any circumstances. If the coat is covered with refuse, it is a sample, and the outside had been cleaned, then, of course, it would let her walk in the clean air.

Who gets on and off a bus? A street car first, the man woman. The woman gets first, off last. The same holds true in a private auto.

Social Calendar

TUESDAY

The Sanford District of the Senoile Association of the W. M. U. will hold its annual rally in Geneva at the Baptist Church at 10:00 A. M. A covered luncheon will be served. Girls Scouts will meet at 3:45 o'clock at the Little House. Final plans for the encampment next week will be made.

WEDNESDAY

The Order of Easter Star will hold its annual Robert Morris Memorial luncheon at Sanlando Springs at 1:00 o'clock. Families are invited. THURSDAY The regular meeting of Senoile Chapter Number 2 of the Order of Eastern Star will be held at the Masonic Hall at 7:30 P. M.

Meeting Is Held By Workers Council

The Workers Council of the First Christian Church Sunday School met last Thursday at the home of Mrs. George Townsend on St. Paul Avenue. The chairman, Miss Bertie Hughes, presided over the meeting.

The scripture reading was read by Mrs. Townsend and Mr. J. Durkin led in prayer. Plans were discussed and committees were appointed for the promotion day program. An interesting talk on the needs of the Sunday School was given by the Reverend Robert Scott.

After the business meeting a social hour was enjoyed and refreshments were served.

Those present were: Mr. and Mrs. J. L. Niblack, Mrs. W. H. Young, Mrs. D. D. Landress, Mrs. H. J. Claus, Mr. Durkin, Mrs. B. T. Pearson, Mrs. James Horton, Miss Hughes, Mr. Goodale and Dr. Robert Scott.

ANNOUNCEMENT

Mr. and Mrs. George D. Bishop announce the engagement of their daughter, Martha Coleman, to Mr. Henry Nicholson Ashby of Durham, N. C.

The wedding will take place in the Fall.

The smallest Bible in the world, a New Testament, the size of a baby's thumb nail, will be exhibited in the library of Colleen Moore's doll house which will be on exhibition at Mass Brothers in Tampa, Sept. 8 through the 16. The amazing volume can be read easily by the use of a powerful magnifying glass.

The cut in wheat acreage under the Agricultural Adjustment Administration is drawing the attention of growers to the use of winter barley on part of the land withdrawn from wheat.

Ingenious Tests Designed To Find Mental Disorders

BLOOMINGTON, Ind. — One cause of mental illness in all grades of mind, from weakness to genius, is a change in mental habit of living, says a new mental test devised by a university.

The test is a drawing temporarily furnished to persons of all ages, from an old level and is given to the workings of the mind in a new mental test.

It indicates abnormal reactions and is given to many one of the most important tests of the mind.

"RED" LIGHTBOWN

UNIVERSITY OF FLORIDA expects outstanding guard play this fall from Frank Kocis, alternate captain of the 1938 Gators, shown at top; from Gordon Gardner, center, and Red Lightbown, below. This trio should give Florida first-class power at the guard slot, and then there's that rampaging sophomore, Mush Battista, to be figured in.

IT WAS HER SWEET SECRET, and so well did "Splashy," female seal at New York's Central park zoo, keep it that not even zoo attendants knew a blessed event was on the way. That is, until the little one's arrival. The father is "Flappy."

NEIGHBORS though Poland and Lithuania are, geographically, their political enmity was only recently healed and an exchange of ambassadors arranged. Lithuanian envoy to Poland is Col. K. Skirpa (above).

'ARE YOUR EYES OK?' is important query with Pennsylvania highway patrol of which Commissioner Perry W. Poole, a former U. S. admiral, is the head. Above, an officer takes the night driving test; at right, "spread-of-vision" test for drivers is illustrated.

HE'S NOT SORE, though determined contestant in Auckland, New Zealand, woodchopping contest looks that way.

SHRINERS' parade ending their Los Angeles convention included one float with Lois Ward adding this decorative note.

FROM CAB TO ALTAR, Raymond Heints (above) of Pittsburgh traveled, driving a taxicab for 17 years while studying in theological seminary. His fellow cab drivers in Pittsburgh gave him this chalice, for use after ordination as a priest.

PIETY didn't keep this young Hungarian lad in Budapest for recent Eucharistic congress, from keeping eye on camera. He and other boys wore national costume.

NO JOLT FROM MILLION VOLTS being displayed by Tesla coil did Donald Herr receive at University of Pennsylvania engineering show. Picture is a double exposure.

CALIFORNIA CALLER in New York, Mrs. George Cameron (left), whose husband publishes the San Francisco Chronicle, was a dinner guest of Mrs. Maxwell (right) at the Waldorf-Astoria. Mrs. Maxwell is formerly of California. Mrs. Cameron, as Women's Committee head, is only woman on executive board of the Golden Gate International exposition.

BALLS IN THE BLOOD for Jane Travis, 44, who has had a heart attack, is shown here. Her husband, Harry Travis, is shown in the background.

LILY-LOVER Anna Shook, 32, is shown here. She is a devotee of the lily and has a large collection of them.

AT 82, Sigmund Freud (above), the father of psychoanalysis, has arrived in England—a refuge from Nazi-occupied Vienna—and has been granted citizenship.

SUCCESS is the key to the success of the Golden Gate International exposition.

Lookouts Stage Hitting Spree To Defeat G-Men 8 - 2

Locals Pounce On Three Hurlers For 16 Safeties

Pitman, Davis And Contreras Pole Out Doubles While Jeter Limits Opponents To Seven Safeties

After dropping the ball all over the infield, the Sanford Lookouts won the first game of the series from the G-Men at the Sanford Municipal Stadium on the 25th. The Lookouts won 8-2, with Pitman, Davis and Contreras pole outing doubles while Jeter limited the G-Men to seven safeties.

The G-Men, who returned to Sanford for the second game of the series, were defeated 8-2. The Lookouts, who were led by Pitman, Davis and Contreras, won the game in the fourth inning. Pitman, Davis and Contreras each hit a double, while Jeter limited the G-Men to seven safeties.

The game was a close one, with the G-Men leading 2-0 in the first inning. However, the Lookouts scored three runs in the fourth inning, which proved to be the winning run. The Lookouts' pitching was excellent, with Pitman, Davis and Contreras each pitching a scoreless inning.

The Lookouts' offense was also strong, with Pitman, Davis and Contreras each hitting a double. The G-Men' offense was limited to seven safeties, which was not enough to overcome the Lookouts' lead.

The game was a well-fought one, with both teams showing good pitching and hitting. The Lookouts' victory was a well-deserved one, and they will be looking forward to the next game in the series.

Lookouts, G-Men Clash On Local Diamond Tonight

Diamond Tonight

The Sanford Lookouts and the G-Men will clash on the local diamond tonight. The game is expected to be a close one, with both teams showing good pitching and hitting. The Lookouts will be looking to continue their winning streak, while the G-Men will be looking to get back on track.

The game will be played at the Sanford Municipal Stadium. The Lookouts will be led by Pitman, Davis and Contreras, while the G-Men will be led by Jeter. The game is expected to start at 7:30 p.m.

The Lookouts' pitching is expected to be excellent, with Pitman, Davis and Contreras each pitching a scoreless inning. The G-Men's pitching is expected to be good, but they may have trouble containing the Lookouts' offense.

The game is expected to be a well-fought one, with both teams showing good pitching and hitting. The Lookouts' victory in the first game was a well-deserved one, and they will be looking forward to the next game in the series.

Marie Antionette Termed Session's Best Production

Norma Shearer Turns Best Performance In \$2,500,000 Film

By ROBBIN COON HOLLYWOOD—I've been whelmed by bigness. I've been blinded by glitter. I haven't strained to sneer at approximately \$2,500,000 worth of movie...

I doubt if anything bigger or longer has ever come out of Hollywood. Running 2 hours and 30 minutes, it isn't likely to bump into double feature trouble...

But to turn to the picture's subject: "Marie Antionette" is, on the whole, a brilliant chronicle of the life, loves, and death of one of history's most tragic queens.

Dated with some fidelity on Stefan Zweig's sympathetic biography of the Austrian princess whose great misfortune it was to become Queen of France...

The picture opens with Marie a giddy child, being informed by her mother, the Empress Maria Theresa, of her betrothal for reasons of state to the Dauphin of France...

Eventually, egged on by DuBarry's taunts, by her loneliness, and by the urgings of the conspiring Duc d'Orleans (Joseph Schildkraut)...

Although the queen now becomes a dutiful wife and mother, her road to the guillotine is already clearly marked.

The fabulous incident of the necklace—Zweig and the movie acquit Marie of her blame—is made the firebrand of revolt.

"Marie Antionette" is as rich in incident as it is in physical trappings. Its costumes and its settings are lavish and the attention to technical accuracy is detailed.

Miss Shearer's "Marie" is her most ambitious performance, and she approaches it with admirable, often telling, sincerity.

The excellent cast includes Gladys George, Anita Louise, Henry Stephenson, Cora Witherspoon, Henry Daniell, and Leonard Penn.

IN MAILS 9 YEARS

MARLIN, Tex.—(AP)—During 1935 national airmail week there were 1,820 pieces of mail dispatched from here but 1,000 of them had been in the mails nine years. They were sent to Marlin in 1926 to be dispatched on the "first airmail plane to leave your city."

SICKLE SIRE CHAMPION

LEXINGTON, (AP)—Sickle now holds a lead of approximately \$90,000 over Inco, his nearest competitor for leading sire honors of 1935. Sickle was American champion sire two years ago.

The conference of market of Omaha, which was tentatively announced for the 15th of September, has been definitely set at September 8-9. Meetings will be held at the Mayflower Hotel...

The office of the Florida Exchange will be moved to the former Standard Company building on Florida in Tampa, purchased by the Exchange for \$200,000.

ROBBERS CRICKET FANS

MELOURNE—(AP)—Dua probably to radio interest in the first Australia-England cricket match, few robberies were reported here. Police said they had their quietest week-end in many months.

Plan To Aid Delinquents Given Okey

Commissioners Adopt Ordinance Permitting Taxpayers To Pay Installments

Nearly \$2,000,000 Is Owed To City

Annual Payments Allowed To Pay Delinquent Assessments

To offer relief to tax-burdened property holders in Sanford, who are not able to pay in cash the delinquent taxes and tax certificates held by the City, the City Commission at a special meeting yesterday passed an ordinance permitting the City's claims to be paid in seven installments. City Clerk Frank Lamson said today.

The new set up is a plan of the Commission to convert delinquent taxes into cash for the City's coffers and give property holders an opportunity to redeem their property through gradual liquidation of the claims, thereby eliminating any undue hardship on the owners who have been through a period of adverse business conditions.

This plan supplements the adjustment of delinquent claims by the Commission which was authorized to act as a Delinquent Tax Adjustment Board by a special act of the last session of the Legislature. Under this law, the Commission is allowed to make adjustments on taxes and special assessments which were delinquent in 1933 or prior and according to the terms of the ordinance, the property owner may now pay this adjusted claim in seven installments over a period of seven years.

Property owners whose delinquencies do not date back to 1933, while not allowed an adjustment, are to be paid in full.

(Continued on page six)

Interest Evinc'd In Holding Rate Hearing In City

The Chamber of Commerce received a letter yesterday from the Florida Railroad Commission evincing interest in an invitation to the commission to hold its next hearing in Sanford.

Thanks for the invitation were expressed and information on hotel facilities and rates were asked.

The letter which Secretary Ralph F. Bagwell previously wrote to the commission said: "We have just learned of the hearing which the Commission will hold with regard to the proposed increase in freight rates on fertilizer and fertilizer materials; and, on behalf of the City of Sanford and all of Seminole County, we would like to extend you a most cordial invitation to hold this hearing in Sanford."

"It would be a distinct honor to have the Commission meet with us in this central city of Central Florida. Too, Sanford has not had the pleasure of entertaining members of the Commission for quite a while."

IN "KNEE-DEEP"

Former president Herbert Hoover is shown knee-deep, not in politics, but in a trout-infested New Jersey stream. Angling with the former Chief Executive in the Pequest River near Hackensack is George C. Warren, head of the New Jersey fish and game commission.

New Record Of 345.49 MPH Is Set By Eyston

Speedster Roars Over Salt Flats To Far Exceed Old Mark, Cobb Runs Monday

BONNEVILLE, SALT FLATS, Utah, Aug. 27. (AP) — George E. Eyston smashed the world's automobile speed record to shreds here today, boosting his own mark to 345.49 miles per hour. Roaring through the measured mile in two directions within one hour, the retired British army captain far exceeded his own world land speed record of 311.42 chalked up here last November.

Eyston's mighty "Thunderbolt" painted black to overcome the glaring sun which robbed him of a new record last Wednesday, hit 347.49 miles per hour on the outward trip and 343.51 on the return.

Among the first to congratulate him was John Cobb, London fur broker, who expects to go after the record Monday.

Asked if he would run against any record that Cobb might make, Eyston replied: "I'll be around for a few days. The Thunderbolt was by no means at full throttle on either run," he said.

A REMINDER TO DOUGHBOYS

The American doughboys who saw action over the world's longest and widest defense wall, erected by the United States in the Shantung tract will recall the long years of the World War days.

Britain Asks Less Tension In Czech State

Statement Regarded Evidence Government Greatly Fears Events At Prague

Nazis Warned By John Simon

Loyalist Destroyer Loses Battle With 4 Rebel Warships

Great Britain appealed to "all great powers" today to lessen tension in Czechoslovakia as the world, with deadly strife in Spain, China and Palestine, anxiously watched the deepening rivalries in Central Europe.

The British statement was regarded generally as evidence that Britain was becoming increasingly worried over events at Prague. It was issued shortly before the London summit conference of the cabinet, served notice that Great Britain might have to fight if Germany started war in Central Europe.

In an unmistakable plea to Adolf Hitler, he compared the beginning of the conflict to the beginning of fire in a high wind.

The British government made what is called "a concession" to its belated German ally, behind whose demands for autonomy Germany stands as the self-styled "protector."

Spain's German leadership, undecided what attitude to take over the new arbitration proposals, looks to Berlin for a possible helping hand.

The Spanish government destroyer, *Libanero*, on Jose Luis Diaz, fought a dramatic, losing battle with four foreign warships in the Strait of Gibraltar. Twenty-six of the destroyer's crew were killed and 14 wounded. The battered destroyer labored into Gibraltar in danger of sinking.

Spanish government advisers said its forces were holding their own on the Ebro River front in Southern Catalonia and were pushing an attack on the Estremadura front aimed at eradicating the Francoist threat against the rich Almaden mercury mines.

Chinese and Japanese artillery pounded each other in a terrific Yangtze valley battle.

Foreign observers said Japanese aircraft, warships and infantry combined forces in the biggest offensive of the war.

Eleven Arabs were killed and scores of others wounded in a night battle with British troops in Palestine and two British planes were forced down.

Daniel says he has lost 65 relatives at the hands of the Turks, including three brothers. He claims that out of a one-time population of 500,000 Assyrians only 40,000 have survived the persecution inflicted upon the race because it would not surrender Christ and become Moslems.

Daniel has spoken in many churches in the South and his message is said to be not only informative but spiritual, showing the faith of a people in Christ. The Rev. Brooks stated that he is highly recommended by Dr. Spright Dowell, president of Mercer University.

LOCAL WEATHER

Partly cloudy, possibly scattered showers near southwest and extreme south coast tonight and Sunday and in extreme northeast portion Sunday.

Ex-Convict Is Nailed To Cross By Former Pals

Collins Is Crucified After Insisting Upon Going Straight

RENO, Nev., Aug. 27. (AP) — Ed. Collins, 27, ex-convict, was stripped, nailed to a cross and left to die with his clothes burning at his feet because, he told officers today, "I know too much."

Rescued, he told officers before going to sleep this morning under the influence of an anesthetic, that he was nailed to a cross last night by two former "pals" involved in a San Diego, Calif., payroll holdup for which he was sent to San Quentin prison.

When he refused to join them in a robbery and insisted upon going straight, Collins said they told him "all right, if you want to be a little Jesus Christ, we'll make one out of you."

Collins screams and the fire which seared his feet attracted Earl Dabney, negro, who summoned police.

Collins was spread-eagled on the rude cross, with ten-penny nails driven through his hands and feet.

Hurricane Will Strike Northeast Coast Of Mexico

Texas Coast Is Also In Path Of Gales Moving Northwest

NEW ORLEANS, Aug. 27. (AP) — The tropical hurricane out of the Caribbean Sea was holding true to its west-northwestward course today and is headed for the northeast coast of Mexico south of Brownsville, Tex., the United States Weather Bureau said in its morning advisory.

Forecasters said the storm probably would reach the coast late this afternoon, causing at least gale force winds at Brownsville and a considerable tide at the mouth of the Rio Grande and on the extreme northeastern Mexican coast.

Pleasure and fishing craft were advised to remain in port. The center was located at 7:30 A. M. EST about 250 miles southeast of Brownsville, moving west-northwestward at 15 to 10 miles per hour attended by hurricane winds near center and gales over a considerable area.

The midday squall under a severe heat wave carrying temperatures up to 101 degrees.

J. W. Hall Reports Optimism On His Return From Trip

W. Hall, local manager of the Sanford Gas Co., was impressed with optimistic signs during his two weeks vacation in eleven states, he declared Saturday morning following his return Friday.

Mr. Hall, who was accompanied by his wife and their three children, Durla, John, Jr., and Harold, visited with friends in West Virginia, Ohio, Illinois, and Kentucky. Wherever he inquired he heard nothing of pessimism and he noted a first quality of crops and much building along the route of his travels. "In almost every town," he said, "was some sort of construction under way."

During Mr. Hall's absence, the gas company's office was under the direction of H. C. Hunter of Orlando, who answered an emergency call when W. D. Sedwick, regular cashier and office manager, was taken ill shortly after Mr. Hall had departed on his vacation. Mr. Sedwick is still confined to his bed at his home at 918 Park Ave.

4,500 Children In County To Start To School Soon

Just a few more days vacation will be ended for approximately 4,500 children in Seminole County and the daily trek to the school will begin in an other week.

Sanford schools and some of the rural districts will begin classes on Sept. 12 but the opening date for a number of the rural districts has been set for Sept. 6, just two weeks away, according to Superintendent J. P. Public Instruction J. W. Lawton.

Mr. Lawton stated that he expected little or no increase in enrollment for the County this year. On the basis approximately 2,600 white children and 2,000 negro children will attend the county's school system. Negro schools, Mr. Lawton pointed out will open on the same date as the white schools in the various districts.

In schools opening on Sept. 12, the teachers will be at their posts on Sept. 1 while in the schools opening on Sept. 12 teachers will begin their duties on Sept. 8, Mr. Lawton said.

Schools that will open on Sept. 12 are as follows: Seminole High School, Vocational School, Junior High School, Grammar School, Sanford Primary Schools, Kindergarten, Geneva School, Occola School, Lake Monroe School, and Wilson School.

Schools which will begin their 1938-39 session on Sept. 6 are: Lyman School, Lake Mary School, Ovidio School and the Chulavita School.

Although the substitutes or teachers which faculty members will teach this year have not yet definitely decided upon, Mr. Lawton stated that the following had been selected by the School Board to date:

Seminole High School: G. E. McKay, principal, Alex R. Johnson, L. L. McLucas, W. R. McCracken, W. W. Riser, W. H. Stempert, Miss Phyllis Smith, Miss Ethel Riser, Miss Marjorie Tillis, Mrs. Mae Fort, Mrs. Gladys Smith, Miss Lillian Dunlap, Miss Nellie Williams, Mrs. Ruth Hand, Mrs. Helen Wellman, Miss Sara Mikell, Miss Edith Chatterton, Miss Rebecca Stevens, Miss M. Harrison, Mrs. Mary K. Kinton, Mrs. Catherine Takacs, Mrs. Margaret Long, and Mrs. Louise McCracken.

Road Department Will Begin Work On Bridge Soon

L. K. Cannon Replies To Query By Secretary Of Trade Body

L. K. Cannon of the State Road Department informed Seminole County Chamber of Commerce officials yesterday by telegram that arrangements have been completed for repair work on the bridge across the Ebro backwater creek.

The telegram was in answer to a query from Secretary Ralph F. Bagwell asking when the repair work would be begun.

Several months ago Superintendent of Public Instruction J. W. Lawton informed the State Road Department that the bridge would have to be repaired before the county schools opened their 1938-39 terms as, in the condition it was in, a menace to the lives of children who would have to be transported across the bridge in schoolbuses.

The department replied, saying that work would begin immediately, however, no action was taken and Mr. Lawton again sent word to the department requesting immediate action upon the matter.

The Chamber of Commerce has followed Mr. Lawton's efforts to get the bridge repaired and, on several occasions has communicated with the department on behalf of the project.

Mr. Lawton has frequently pointed out that the school children who ride the buses must be given every protection possible. As a result of this interest, Seminole County possesses many fine schoolbuses and drivers who come highly recommended. Consequently, there have been no serious bus accidents.

Pepper Advanced As Vice-President Timber

LAKE WORTH, Aug. 27. (AP) — Senator Claude Pepper was advanced as vice-presidential timber by A. Pat Cannon, fourth district Congressional nominee, in an address to Townsend Club members here.

Cannon predicted the next president would be elected on a Townsend plan platform and that "Claude Pepper will be his running mate."

He termed Pepper "the greatest Democrat of his time" and said "his power in government affairs is greater than any other five senators."

SMUGGLED IN

TAMPA — (P) — Nicholas Michael Fakakis, 28-year-old Greek-Italian sponge diver of Tarpon Springs, was held in county jail here yesterday pending final deportation orders after admitting he paid \$120 to be smuggled across the Canadian border last December, said W. A. Kelly, head of the Tampa office of the Immigration and Naturalization Service.

Lion Cubs On Public Display At City Zoo

The lion cubs at the zoo are now on public display. Superintendent of Parks James Moughton said the cubs were now strong enough so that they could be displayed publicly.

A heavy wire partition has been placed in the cage to separate the cubs from the watering trough for fear that they might fall in and drown. A space has been left so Queenie can cross the partition to get to the water.

Since early morning when the partition was finished, crowds have gathered around eager to see the young lions gamboling and playing.

WAR ON BIRDS

BUFFALO, N. Y. — (P) — Roman candles and skyrocketz ripped thru trees in the Dewey residential section yesterday as sleepy householders declared "war" on thousands of starlings, purple martins and robins. Tail feathers singed, the bird army retreated.

SCHOOLHOUSE FOR SALE

STARKE. — (P) — Want to buy a schoolhouse? The Bradford County School Board has one for sale, a 80 by 40 foot structure. It was put on the market when freeholders voted to consolidate the school with another in a nearby district.
