

At The Capitol

TALLAHASSEE, July 22.—Not much telling just what we may expect from now on. The Senate refuses to pass the House revenue bills, and the House refuses to pass Senate revenue bills, so there you are, and in the words of the old dandy, "who is you?"

The House passed some necessary legislation today, and made a great deal of headway on other bills needed before adjournment.

We passed the usual salary bill, and although it did not cut them as much as we had expected to cut, it still makes a large saving over those salaries being paid at the present time.

We have been on the appropriation bill all afternoon and it is now on third reading and ready for either passage or defeat.

The bill is unusual in several ways. First, it is different from any other appropriation bill that has ever been introduced, inasmuch as it does not contain any expenditures and salaries, etc, but merely gives a total amount for each department or office of the State to operate on, leaving it entirely up to the head of the department or office as the case may be to determine what purposes the appropriation is to be spent for. It is possible that this will work out well, but there is also a grave danger that the plan may not be better than the plan which has been in vogue for some time past, inasmuch as the heads of departments are much better qualified to regulate the amount of money their employees are to receive, especially when a limit is placed on their total expense, than the Legislature is, which does not come in close contact with these employees and cannot possibly know their worth to the State.

In short, our bill cuts State appropriations from the present figure of some \$9,000,000 down to \$8,950,000. This amount is also \$400,000 less than the Senate bill, and about \$1,000,000 less than was asked for by the budget commission.

There is some doubt as to whether the blanket appropriation will allow the expenditure for salary investigation to be carried on, as we had a conference with Senator Parrish this afternoon and asked that he clear this situation up, and insert definitely in that section that salary post investigation be included. It is possible that we can get this in the bill in the House Thursday.

So far, no new revenue bills have become laws, and it appears that none will, and if not, you can look for a heavy ad valorem millage as usual. I do not see how real and personal property can pay it, but maybe they can, although past performance certainly point to the contrary.

Death Claims Son Of Mr. And Mrs. W.C. Hall

Walter Clayton Hall, Jr., the seven-year-old son of Mr. and Mrs. W. C. Hall, Sr., of Dunedin, died yesterday afternoon at the Fernald-Langhorne Memorial Hospital where he had been taken after a few days illness at Dunedin.

Funeral services were held this afternoon at Dunedin at 5:00 o'clock, the arrangements being made by the Erickson Funeral Home of Sanford.

The boy is survived by his parents, Mr. and Mrs. W. C. Hall, Sr., and a sister, Miss Elizabeth Hall.

WORLD CHORUS PLANNED

WASHINGTON, July 22.—(A.P.)—A chorus, headed by Americans in distant lands and at home as the music is broadcast, will sing the national anthem at the celebration of the centennial of the signing of the Declaration of Independence at noon.

PLAN ADOPTED TO AID GERMAN MONEY CRISIS

Approval Granted To Renewal Of Short Term Credits That Fall Due Shortly

LONDON, July 22.—(A.P.)—Renewal of short term credits maturing in the next few weeks and measures to establish confidence in Germany so that eventual long term credits may be possible, were approved by the seven-power conference on Germany's situation at the conclusion of its work today.

The meeting adjourned with a round of speeches in which the heads of various delegations expressed appreciation of the spirit of friendliness which pervaded the conference. Later there was an official communiqué which said that the "governments are ready to cooperate so far as lies within their power to restore confidence."

There was, however, no disguising the gravity of the German representatives as they left the conference room. They said the conference only aided Germany over the immediate future and contingencies of the next few days may renew the crisis.

Successful conclusion today of the work of the London ministers' conference to afford financial relief to Germany was predicted last night by high administration authorities.

Late in the day, Secretary Stimson telephoned Acting Secretary Castle of the State Department in Washington that recommendations to be submitted to the conference today were satisfactory to the United States. The recommendations were adopted by the finance ministers attending the conference.

The secretary's message by telephone was the only report received from the day by the American government from its representatives. Contrary to the usual procedure in such conversations, the secretary talked with the Acting Secretary who remained in his office at the State Department. Most of the trans-Atlantic calls have been to the White House, with the President taking part.

Press dispatches outlining the recommendations showed they closely followed the proposal which Mr. Castle had said was made to the conference on behalf of the United States.

The first two points of the recommendations providing for an extension of the \$100,000,000 rental and world banks credit and maintenance of levels of private credits, coincided with the American suggestion made public here.

Crazed Man Kills 4 And Wounds Others

MERCER, Pa., July 22.—(A.P.)—Four persons were killed and five wounded, one probably fatally, today when a crazed man attacked members of his family and others in a small mining village near Leesburg. Marko Demofanti, who was pronounced insane by physicians yesterday, and was to have been removed to a sanitarium today, shot and killed his wife and her sister in his home with a revolver, then went to the street firing at random at other villagers.

LINDY, ANNE HOPE TO LEAVE ON HOP TO ORIENT SOON

Powerful Plane Being Prepared For Long Jump Over Pacific

NEW YORK, July 22.—(A.P.)—Col. Charles A. Lindbergh announced last night that he and his wife would take off next week on their flight to the Orient.

The remodeled Lockheed-Sirius low wing monoplane which Colonel and Mrs. Lindbergh will use is at a pontoon factory at College Point, L. I., undergoing final adjustments. It will be ready in two or three days.

It is equipped with wireless. Both Colonel and Mrs. Lindbergh recently passed regular examinations for commercial third class licenses to send and receive messages during the flight.

The Lindberghs' first stop will be Ottawa, Canada, where he has informed United States Minister Hartford MacNider they will spend the night.

Colonel Lindbergh has emphasized the flight is in the nature of a vacation and no definite schedule will be maintained.

After Ottawa, the Lindberghs will touch at Moose Factory on James Bay, Churchill, on the western side of Hudson Bay, Baker's Lake, Akivick, and Point Barrow and Nome, Alaska.

From Nome they will head for Eastern Siberia, stopping first at Kamaghat, then Petropavlovsk on the Kamchatka Peninsula, Nemuro, Japan, and Tokyo. At Tokyo refueling and other preparations will be made for the trip into China.

The principal overwater leg of the entire flight will be from Nome to Karginik, which is on an island on the extreme eastern coast.

SEVILLE UNDER MARTIAL LAW DUE TO RIOTS

17 Persons Have Been Killed In Fighting; Tenseness Of Situation Is Increasing

MADRID, July 22.—(A.P.)—With Seville under martial law as the result of disorders in which 17 persons were killed, the tenseness of Spain's political situation increased today as the nation looked forward to a change in the government next week. It is predicted that when the assembly formally constituted a cabinet it would immediately resign.

The forecasts were that parliament would choose Alcala Zamora as president. He now holds the post. The provisional government's movement against syndicalists continues and hundreds have been arrested. Troops have been ordered to use heavy artillery to destroy houses from which sniping is carried on.

Known fatalities in the syndicalist fighting with government forces rose to 17 yesterday with the killing of a soldier and three civilians in the suburbs of Triana.

Troops with machine guns fired on strikers in the suburb, wounding many, in a renewed outbreak of rioting in Seville and its suburbs.

Strikers fired on troops who were guarding alleged anarchist prisoners aboard a ship awaiting transportation to Cadix for deportation to Africa. The troops returned the shots. Some of the strikers were thought killed or wounded.

Official estimates placed arrests at 300.

Two guards were patrolling the main street of Triana when snipers on housetops fired on them. The guards replied with shots, which brought a barrage of pistol fire from surrounding roofs. A machine gun squad arrived and splattered walls and windows with bullets. One of the dead was a 16-year-old boy.

Final Rites Are Paid To Silas F. Leavitt

Funeral services for Silas Franklin Leavitt, 43, who died suddenly yesterday afternoon after an illness of only one day, were held this afternoon at 4:00 o'clock from the Erickson Funeral Home. The Rev. Wm. P. Brooks, Jr., of the First Baptist Church, officiated, and burial was in Evergreen Cemetery. The Erickson Funeral Home had charge of the arrangements.

Slayer Of Two Dry Agents Is Captured

FT. WAYNE, Ind., July 22.—(A.P.)—Four hours after he shot and killed two federal prohibition agents to escape a trap they had laid for him, George Adams, reputed bootlegger and former convict, was captured today. Cornered on a road with a load of liquor the agents ordered Adams to stop. He shot and killed John Wilson and Walter Gilbert from the Indianapolis prohibition bureau. He escaped, but later was captured when he drove to the home of Frank Kenierski.

WITHDRAWAL OF GOLD CONTINUES TO HIT ENGLAND

LONDON, Eng., July 22.—There was a record run of gold withdrawals from the Bank of England yesterday of more than 3,472,000 pounds sterling (\$10,871,920). This makes a total of 105,000,000 pounds sterling (\$316,500,000) since the French started their drive last week.

It is believed that these withdrawals are a renewal of the French attempt to intimidate London, which British bankers already have made plans to confront.

Last Wednesday, when the French were making heavy withdrawals, hoping, perhaps, to see the bank rate on Thursday, the bank rate was held down. At the same time, Montagu Norman, governor of the Bank of England, held a conference of six or seven leading bankers of London who were holding German bills backed in the ordinary course of business amounting to some 100,000,000 pounds sterling (\$316,500,000).

The British are quite prepared to face heavy gold withdrawals, as the Bank of England gold reserve is the best it has been in sterling (\$719,200,000).

It is understood that German Chancellor Heinrich Brüning has asked the international banking experts, O. M. W. Sprague, American adviser to the Bank of England; Wallender, eminent Swedish financier, and Sir Robert Kinsley, a director of the Bank of England, to come to Berlin after the conclusion of the present London conference to observe whether the measures decided upon here are sufficient to restore German finances and, if not, to propose other means—possibly a loan—to Berlin.

It is also understood that Prime Minister Ramsay MacDonald and Foreign Minister Arthur Henderson are favorably considering Dr. Brüning's invitation for a return "courtesy" visit to Berlin.

COCOA—Highway beautification through city underway.

COLLUSION IS CHARGE MADE AGAINST BOARD

Accusation Is Result Of Probe Into Purchase Of Equipment For State Highways

TALLAHASSEE, July 22.—(A.P.)—A report that members of the state road department suggested and encouraged collusion among bidders on selling equipment to the department was laid before the House yesterday by a special committee named to investigate charges of irregularities in operation of the department.

Three of the five members on the committee signed the report. They were Chairman Parker, Leary, Matthews, Duval, and Harrell, Hamilton. A minority report, signed by Representatives Lewis, Palm Beach, and Larson, Clay, said the charges were not substantiated by testimony before the committee.

Charges that members of the department violated laws of competitive bidding and also the anti-trust laws were contained in the majority findings. The minority report said the charges against the department and members of the Legislature who received awards to supply equipment "are without foundation and we affirm our complete confidence in them."

Further investigation was recommended by the majority, while the minority asked that the committee, having completed its duties, be discharged.

The majority report said the price of sand sold to the state road department increased 100 percent since January, when the report said, the firm of Strands & Baker, Jacksonville, became sole.

Two Women Faint In Crowd To Catch Glimpse Of Vallee

NEW YORK, July 22.—(A.P.)—Two women fainted in a crush of persons who yesterday struggled to see Rudy Vallee crowned "King" in a newspaper contest.

While scores of police, foot and mounted, tried to keep the crowds back, Major James J. Walker strove to make himself heard above the din, and radio announcers fought to save their microphones from demolition.

Finally 100 firemen, who had escorted Kate Smith, singer, to the City Hall where the ceremonies were held, took a hand and quelled the disturbance. Minor injuries were suffered by several of the hundreds of women in the throng, anxious to catch a glimpse of the recently married crooner and orchestra leader.

Miners Are Hurt In Explosion In Garage

PITTSBURGH, July 22.—(A.P.)—An explosion damaged a garage in which six non-union miners were sleeping and injured several men, one seriously, at the mine near here early today. The mine was the scene of rioting between striking miners and deputies in which one man was recently killed. Fearing a repetition of Tuesday's attack when they were fired on from ambush 300 miners refused to return to the pit.

NEW PLAN WILL BE WORKED NEXT YEAR AT ROLLINS

Curriculum Is Aimed To Grant Students Utmost Of Freedom

WINTER PARK, July 22.—The goal of President Hamilton Holt, to create at Rollins College the "ideal and most beautiful small college of liberal arts in America," demands that the utmost freedom be given each student so that he may develop, unencumbered, the maximum of self-reliance, independence of thought and action, and a deep sense of personal responsibility.

The new curriculum plan to be effected this fall has such an objective, it is stated. The Rollins two-hour conference plan of study, perfected six years ago, with its close personal relationship between faculty and students, was designed to initiate this new educational freedom.

Realizing, however, that the spiritual and moral problems of character development are the foundations of the art of living full, happy and useful lives, this year Rollins will have four deans charged with direct supervision of the individual personal and group problems of the students.

Winlow S. Anderson, dean of the college, has relinquished his duties as dean of men to concentrate on the correlation of all the deanships and his duties as administrative dean.

As announced by President Holt at commencement, Arthur D. Enyart, former dean of the college and later head of the economics department, became the new dean of men. The life of the fraternities houses and the men's dormitories, group activities of college men on the campus, and the personal problems of the individual men will be his work.

Paralleling his work will be that done among the girls by Mrs. Vivian Hazard Hingham, dean of women, whose work will be broadened and more effectively organized under the new plan. Life of the sororities and girls' dormitories and of individual women students are in Dean Hingham's care.

In the realm of spiritual, religious and moral supervision, an important part will be played by Dr. Charles Atwood Campbell, professor of biblical literature, who has been appointed dean of the new Knowles Memorial Chapel. Through conferences and personal contacts and friendships with all the students as much as through the services in the chapel, Dr. Campbell will add his personal supervision to the problems of individual students and to groups of students.

EFFORT TO GET TAX HARMONY FAILS IN HOUSE

Proposed Compromise Settlement Of Reported Deadlock Is Without Success

TALLAHASSEE, July 22.—(A.P.)—The House passed two bills today ratifying real, personal, and public improvement assessments in Sanford and on confirming the Sanford city limits.

TALLAHASSEE, July 23.—(A.P.)—An effort toward a compromise settlement of the reported Senate and House deadlock with the adoption of the cigarette tax and a bill setting an added cent to the gasoline tax failed in the House today. The House set as a committee of a whole to hear Speaker Lewis plead for a compromise but adjourned without taking action.

The Senate refused to accept the House amendment to the Senate bill providing for a general reduction of state salaries. The Senate bill specified reductions from 10 to 20 percent but the House objected virtually a new bill as an amendment providing a general 10 percent reduction.

The reading of a lengthy committee report on reported irregularities in the road department was started but was not concluded in the House before adjournment. The House refused to take up the appropriations bill out of the regular order and adopted the rules committee resolution which prevented the introduction of further bills before the end of the session and prevented consideration of any House bill after one o'clock tomorrow. The resolution also provided that no Senate bill will be considered by the House after tomorrow.

The provision is viewed by House members as important because of efforts thus far to bring the Senate approved two-cent added gasoline tax bill before the House have been failed.

New alignments formed yesterday as the opposing House factions jockeyed for positions in the battle that is expected to be continued on page seven.

Exhibition Is Given By Texas Rangers Of Shooting Skill

DENISON, Texas, July 22.—(A.P.)—Texas Rangers engaged in an exhibition of pistol, rifle and machine gun shooting yesterday on the banks of the Red River, where they guard a Texas barrier to the Denison free bridge which Gov. A. M. Murray of Oklahoma is seeking to throw open to interstate travel.

The display of marksmanship apparently was the Rangers' reply to "Alfalfa Bill's" remark that "All the rangers can do is ease and shoot traps," and his threat to proceed against them.

Ranger Guss opened the show by splitting a playing card at 20 yards while firing his pistol upside down.

Roy Harrison Makes His Way Into Tennis Finals By Defeating DuBose

After staging a great comeback yesterday to nose out D. L. Harper, Roy Harrison made his way into the finals this morning when he vanquished Frank DuBose by scores of 6-3, 6-4.

Harrison's play against the far more experienced Harper was a revelation to many spectators who had gathered to witness some of the last matches preparatory to final play for the city tennis championship. Harper took the first set 11-9 only after he had exhausted his reservoir of plays. Harrison's defense cracked long enough in that first set for Harper to take the lead.

However, the next two matches were Harrison's all the way. He won them 6-3 and 6-2, apparently outlasting the endurance of Harper, who has not played tennis for some weeks.

Probe Into Tampa Red Activity Leads To Arrest Of One

TAMPA, July 22.—(A.P.)—Investigation by federal grand jury authorities of communistic activities in this vicinity led today to the detention of at least one person and the confiscation of much literature.

Detective E. K. Lippard, of St. Petersburg, reported the detention of T. E. Carlsdon, mechanic. Lippard said Carlsdon has been urging St. Petersburg negroes to join a movement to gain control of the government and industries.

Detective C. W. Nichols said he has completed an investigation of reported communistic activities among Latin cigar workers here but refused to disclose the result of his inquiry. Lippard said communistic literature was confiscated in St. Petersburg, Ft. Lauderdale, Miami and other Florida cities.

HOOPER IS OPTIMISTIC OVER LONDON PARLEY

WASHINGTON, July 22.—(A.P.)—President Hoover said today that the London conference has "laid sound foundations for the establishment of stability in Germany. The program adopted by the conference, he said, supplements the suspension of intelligence debts already in effect. "The combined effect," he added, "should enable the German people with their resources, industry, and courage to overcome the temporary difficulties and restore their credit."

DELRAY BEACH—E. B. Nichols unleased interest in barber shop formerly owned by Joe Hambrick.

OH YEAH?

By PETER SCHAAL

Mickey Walker to win over Sharkey tonight. The Pods to beat Dayton tomorrow. Winter Park to stop DeLand there tomorrow. Coosa to whip St. Augustine in the latter city tomorrow. And Joe Jinks to stop all comers, any time, any place.

The much arguing, continued from one day to another, proved to be costly to the New York Giants, the McGrawless Giants if you please. Yesterday they lost the final game of their series with the Cards by an 8 to 3 score. The game was fast, furious, and full of funning, with pitcher Fitzsimmons, and aging manager Bancroft being ordered from the field for using abusive language at his amps. Fitzsimmons was knocked from the box in the fourth when five runs came over. In that same inning he protested against a ball called on Frankie Frisch, who later scored. The Giants lost three of their four games.

While these two leaders were having it out, the Hobins were making hay, with the help of Lefty O'Dell's bludgeon. They beat the Cubs 4 to 2, and all the honors go to Lefty, whose two doubles figured in the wins. His second double scored the winning marker. The win ended the series, but the Hobins and one half game ahead of the Giants and two games ahead of the Cubs.

No other National League games were played because of rain. In the American League Wally Hoyt won his fourth straight game since being a member of the Athletics staff, when he held the White Sox to nine hits, and won a 10 to 5 decision. The Mackmen hit plenty of balls off Frazier, McKain and Wehde, with Hoyt himself leading the parade with three hits in three tries.

A ninth inning rally saved the day for the Tigers who defeated the Senators 4 to 3. Owens' single saved the day for the Tigers who got 16 hits, twice as many as the Senators. Swirell had no trouble after a three run third inning rally had made things appear shaky. He mates fared ahead a run at a time, and victory came just when it was most needed, giving the fans plenty of excitement.

The Red Sox made it three out of four from the Indians when they stopped them 3 to 2 in 10 innings. Lee Farrell was the unlucky hurler for the Indians, weakening in the 10th and walking two men, one of whom later scored. He had given up nine hits, well scattered until that time. Every Sox got a hit, with

Retrath getting three for five.

Here's how the Central Florida League athletes are measuring up to second half play, including games played Sunday:

Player and Club	g	a	b	r	n	e	v
Roberson, DeLand	3	12	2	6	500		
Martin, Sanford	3	13	1	6	462		
Culbreth, Coosa	3	9	2	4	445		
Hill, Coosa	3	9	0	4	445		
O'Brien, Daytona	3	14	2	6	431		
Shannon, DeLand	3	13	0	5	385		
Headley, Coosa	3	11	2	4	363		
Powers, W. P.	3	11	2	4	363		
Gulford, Daytona	3	12	3	4	333		
Weaver, Daytona	3	12	2	4	333		
Wilkes, DeLand	3	12	2	4	333		
Hernandez, Saints	3	12	1	4	333		
Rogers, Sanford	3	12	0	4	333		
Cole, Saints	3	9	3	3	323		
Murdoch, Coosa	3	9	1	3	323		

And here's how the Big Twelve standings read for the entire season, including Sunday's games. Only players who have appeared in 12 or more of the 23 games played so far are eligible for Big Twelve honors:

Mobley, Daytona	23	87	32	37	425
Busey, Saints	15	57	16	24	421
Martin, Sanford	12	46	5	19	397
Culbreth, Coosa	23	93	13	39	387
Hutto, Daytona	22	73	23	28	384
C. Cole, Saints	16	42	10	16	381
Roberson, Del.	23	94	23	34	362
Small, Saints	18	79	7	28	355
Shannon, Del.	23	100	22	35	350
Minor, W. P.	14	57	16	19	323
Rogers, Sanford	13	42	7	14	323
McGowan, Del.	12	49	12	10	327

Chase Boys Defeat Y. M. C. A. On Local Field 13 To Eight

By E. H. CULLUM.

At the finish of the diamond ball game Tuesday night the score stood Chase 13, Y. M. C. A. 8.

The Chase team practically put the game on ice in the first inning, putting over eight counters in this frame. After the first inning Kinlaw, pitching for the Y boys, lightened up, and, with superb support behind him, did not allow Chase another run until the fifth, when five runs came across. In this inning, Weaver, first man up for Chase, drew a base on balls; Correll struck out; Hender tripped, scoring Weaver; Buddy Lake hit a home run, bringing in Hender ahead of him; Spencer and Hodges singled; Hodges' single scoring Spencer; Kinship was safe on a fielder's choice; Mach was safe on an error; Hodge scoring; and Havenel was thrown out at first to end the inning.

Johnny Hodge was on the mound for Chase, and, as usual, did a good job of it, yielding up only eight hits for as many runs.

Knight was called out in the second for leaving his base too in the third for the same offense. In the 4th for the same offense.

B. Smith was the heavy hitter for the Y. M. C. A. boys, getting two out of three, a home run and a double. Spencer drew the hitting honors for Chase, getting two singles out of three trips to the plate.

We are glad to see the steady increase in attendance at these games, and it tends to show the people are appreciative of the boys' efforts to give them good clean entertainment.

The two girl teams, recently organized, will meet in their first game Thursday night.

SHARKEY RULES FAVORITE TO WIN BATTLE TONIGHT

Advantage In Weight And Skill Seen As Ex-Gob's Big Forte

NEW YORK, July 22.—(A.P.)—Jack Sharkey, the heavyweight, and Mickey Walker, the upstart middleweight, shape up as follows for their 15-round match in Ebbets field tonight:

Sharkey	Walker
5 ft. 11 in.	5 ft. 6 in.
185	160
29	30
18 1/2	16
32	33
9 1/2	9
23	21
8	8
16	16
73	67
14	14
13 1/2	12
44	41
48	44

By EDWARD J. NEH.

NEW YORK, July 22.—(A.P.)—Eight years of gloved warfare, success, failure and disappointments, converge tonight for Jack Sharkey in the same ring in Ebbets field where he jumped into fame over night in 1920.

And if by any chance he should fall to whip Mickey Walker, the middleweight who aspires to be a giant killer, he will be back where he was before he conquered Harry Wills, five years ago.

The main difference, of course, is that Sharkey, before he humbled the negro Jack Dempsey was supposed to have feared, was a rough and tumble youngster, his whole career ahead of him. Tonight he faces Walker at the crossroads, his conquests of Wills, Maloney, McTigue, Godfrey, Stribling, Loughran, behind him. Defeat will tumble him from the front rank he has held for years and ruin any chance the sailor has of another opportunity to win the heavy-weight championship from Max Schmeling, the man he fouled into the title over a year ago.

The fight experts, however, can see little reason why Walker should win the 15-round duel for the benefit of the New York milk fund. Mickey is 30 years old, a year older than Sharkey, a 170-pounder and a former champion of both the welterweight and middleweight divisions. But he is handicapped physically, appearing a fallover of Sharkey's size, speed and punching power.

Sharkey will have about 30 pounds advantage over Walker. He has a longer reach, and more strength, skill on his side. Mickey hits hard with a left hook to the body—for a middleweight. He still has remarkable powers of endurance despite a dozen years of lousy warfare. The betting is light but what there is favors Sharkey at 2 1/2 to 1. The match will not be broadcast.

Despite the wide difference in the size of the athletes, both in perfect physical condition, the battle of the big fellow and the little one has caught on with the faithful. The advance sale today was around the \$100,000 mark and the last day's rush for cheaper seats today may shove the receipts up above the \$200,000 mark. The attendance may reach 25,000.

Giants Leave For Cincinnati After St. Louis Debacle

ST. LOUIS, July 22.—(A.P.)—Treated roughly by both the Cardinals and the umpires during their four-day stay here, the New York Giants left town last night for Cincinnati, where today their leader, John J. McGraw, returns to the baseball wars after a three day suspension.

The Giants, defeated in three games out of four by the Cards, fared even worse in their arguments with the umpires, not winning a single one of importance. The umpire also suffered one casualty during the series. Bob Clarke, who banished McGraw Saturday for what President John A. Heydler, of the National league called "abusive language," was suffering from tonsillitis today and unable to work in the series final.

Umpire Higler continued where Clarke left off and yesterday banished Fred Fitzsimmons and Coach Dave Bancroft of the Giants, who was setting manager during McGraw's absence. Bancroft was ordered from the field in the fourth inning when he protested a base on balls Fitz-

FIXED PROGRAM IN NAVY BUILDING URGED BY ADAMS

Plan Is Advocated As Means Of Avoiding Structural Flaws

WASHINGTON, July 22.—(A.P.)—Naval construction under a fixed program covering a period of years was advocated yesterday by Secretary Adams as a means of avoiding such structural defects as have appeared in eight new cruisers all built at approximately the same time.

Five of the ships were found to have defective stern posts and all developed a tendency to roll so sharply as to interfere with effective gunnery in rough weather. Alterations designed to rectify these conditions have been ordered.

The secretary was asked whether such difficulties could be prevented by a long-term construction program under which lessons learned in trials of the earlier ships could be applied in the construction of those that follow.

He replied: "The way to build the navy is to build ships in a steady construction program, rather than in bunches." The eight cruisers in connection with which difficulties have been encountered were built under the 1924 program. Seven cruisers now under construction were authorized in 1929 and naval designers believe they will be free from the faults noted in their predecessors.

Secretary Adams pointed out that the 1924 cruisers were designed with a low center of gravity to improve their stability if damaged. Ship designs represent a compromise, he added. "If you put the center of gravity too low the ships roll sharply," he said. "If it is too high the ships are more likely to turn over and sink when hit in battle."

"In the case of the new cruisers it is now believed the center was placed too low. It is felt, however, that this can be remedied without much expense."

The secretary declined to estimate the cost pending completion of installation of anti-rolling tanks and larger bilge keels on two of the ships, the Northampton and Pensacola, in order to lessen the rolling tendency. Aluminums issued to Frisch, the hurler going to the clubhouse while Bancroft continued the argument.

The Giant-Cardinal series was featured by a bitter verbal exchange Sunday between McGraw and Heydler. McGraw, notified in the morning of his suspension, learned Heydler was in St. Louis and waited for him at Sportsman's Park, berating him for "protecting incompetent umpires." Witnesses said the argument was not entirely one-sided. Heydler said later McGraw was not entitled to privileges with umpires "just because he is vice president as well as manager of the New York club."

E. S. Rockey Tells About Contest Of Goodyear Company

"It's difficult to get a correct idea of the size and detail of the navy airship U. S. S. Akron from pictures," today declared E. S. Rockey of the Rocky Tire Shop. "That's why I'm out to make my quota in Goodyear dealers' third annual zeppelin sales race because the dealers who make the highest percent of sales to quota win a trip to Akron, and a chance to see this leviathan of the air at the Goodyear-Zeppelin dock where it is being built. The zeppelin sales contest ends in August about the time the U. S. S. Akron is expected to be making its trial flight."

"Few of the thousands of spectators who will see the Akron on its test flights, will realize the number of special features of the ship's construction. For example, the gas cells. The tailoring of those cells is much more exact than in any human garment, and few will stop to think that the fabric used is measured in acres rather than in square yards."

"The 6,500,000 cubic feet of non-inflammable helium gas which will provide the lift for the Akron will be contained in 12 separate cells which will require 60,000 square yards or more than 12 acres of fabric. The largest of these cells will contain almost 1,000,000 cubic feet; the smallest will have a 100,000 cubic foot capacity."

 BIBLE VERSE FOR TODAY

THE REWARD OF OVERCOMING—He that hath an ear, let him hear what the Spirit saith unto the churches; to him that overcometh will I give to eat of the tree of life, which is in the midst of the paradise of God.—Rev. 2:7.
PRAYER—“Help, O Lord, my weak endeavor. This dull soul to rapture raise!”

A man can have a frank open face and still keep his mouth shut.
 There's no use of marking stop streets. Any well built truck will stop you anyway.

President Von Hindenburg now knows something of how Floridians feel who have been trying to refinance their mortgages.

“Sell Florida to Floridians!” has been the cry for the past several years. By the time the Legislature gets through with it, there won't be anything left to buy.

Indications now are that work on the new lake-front boulevard won't begin until next year. Someone in the road department must have been kidding.

Fire is ravaging the Everglades, dispatches from the southern part of the state indicate. Residents from Belle Glade and Pahokee, perhaps, would prefer another hurricane!

Dry forces in New York have organized with the end in view of publishing a militant dry newspaper. Well, if the dries can raise as much for the newspaper as the wets do for their 'shine, the newspaper may survive.

The House and Senate have been unable to get together on any of the proposed revenue bills. May be the House and Senate know that additional revenue is not needed.

As far as we can make out from these various Legislative investigations everyone connected with the state administration is a crook, and everyone in the Legislature is a liar.

And the staid old Times-Union suggests that the only reason they are building new highways is to furnish new sites for hot dog stands and filling stations. Yes, but the gasoline tax is liable to close up the filling stations.

The liquidation of ten banks and one trust company in and near Orlando is being done under direction of one man (W. H. Tunnicliffe) proven efficient and trustworthy to his employer, the state comptroller. He is stopped by law from receiving an aggregate salary of more than \$5,000 a year. His payroll shows that the institutions formerly operated with a total of hundreds of employees, are now making money with an average of little more than one worker to a bank. Published reports have shown not a loss, but a net profit in operation of about \$48,000 in 18 months. After paying all expenses, taxes and depreciation from gross receipts of \$108,000, leaving a net profit of 36 per cent of gross. This does not represent the amount of property liquidated, but the actual increase in cash assets from management. In fact a total almost reaching a million dollars has been liquidated while the net profit was being made from operation.—Orlando Sentinel.

Fishing continues to run from July 1 to October 1 have been accepted by John A. Mendenhall as part of the summer program of the Chamber of Commerce. The Chamber is to institute this from the date of the fish season in the county of Broward County, Florida. The fish season will be from the date of the fish season in the county of Broward County, Florida. The fish season will be from the date of the fish season in the county of Broward County, Florida.

To The Benefit Of The Smaller Cities

The general trend of new industries is toward the smaller cities, says the Manufacturers Record, which reveals that during the exceedingly dull year of 1930, a total of 150 new manufacturing enterprises were established in twenty-six states of the union. Most of these new concerns were located in the smaller cities, closer to the source of supply, where workmen find living conditions more economical.

“A brighter side to the present-day dull business picture is presented by the new industries that are being established and the plans being made for expansion of others,” the Record explains. “One of the great public utility organizations recently announced that in the 26 states in which it operates, 150 new manufacturing enterprises were established and 268 expansions of existing plants were made during 1930. No complete figures are available for the first six months of 1931, but indications are that the development has been in about the same proportion as last year.

“A considerable proportion of the new plants were built for manufacturing concerns removing from metropolitan centers to smaller cities and towns. This is in line with the trend of the past several years, when factories oftentimes have found that cheaper rent can be obtained by moving to a smaller community, and if a plant is to be built, less initial investment is required. It has been possible, also, to find better labor conditions with cheap power and to be nearer to the source of raw materials.

“Many of the larger industries of the country are awaiting a suitable opportunity to establish branch plants in smaller communities. New industries being formed in other sections are seeking desirable locations. The South has all the necessary advantages to attract such enterprises.”

A Racetrack Election

With the passage of the pari-mutuel racetrack bill, various counties throughout the state are beginning to lay their plans for holding referendum elections, as now provided by law, to determine whether racing in the respective counties is desired by the citizens of those counties. One of the campaigns now getting under way, and one of particular interest, since it affects the center of the tourist business, is found on the lower East Coast in Dade county. The Miami Daily News tells of the efforts being made to carry the election, as follows:

Ben Shepherd, who in his day has had the leg upon more than his fair share of also rans in Dade county politics, is confident today that he has a horse that is in the money and will be lengths out in front when the judges of the county-wide referendum on horse racing run up the winning numbers the night of the election.

He is now jaying the ground work for the intensive campaign that will be launched as soon as the date for referendum is set. Such a campaign requires much money, super political sagacity and much work on the part of those directing it if success is to crown their efforts.

Shepherd has another seasoned campaigner as his chief lieutenant, Louis E. Snedigar, known to hundreds throughout Dade county as “Red.” After two terms as mayor of Miami Beach, “Red” retired to his private law practice. Now he has abandoned that for the time being to accept employment in the referendum campaign.

There are other able lieutenants aiding Shepherd. Skilled politicians and financiers, but they are keeping in the background, content to let others have the limelight while they labor in darker but not less glorious surroundings.

No effort or expense will be spared to insure the success of the referendum. There is plenty of money available, according to well informed sources, and if the sum now on hand isn't enough there will be plenty more forthcoming. It costs a great deal of money to conduct such a campaign. Even now, before the drive has assumed any great proportion, the money is rolling out.

Some dissatisfaction is heard among disgruntled job seekers about the city. They point to the fact that house-to-house canvassers are being paid \$5 a day for comparatively easy work, while the men who are doing manual labor at the track are receiving a minimum wage of \$3 a day, and until recently \$2 a day was being paid some of the workers.

Asked if he had been swamped by job seekers when the news of the solicitor's job got abroad, Mr. Shepherd drew a wary hand across his brow and said: “Was I? Every chiseler in town was in here looking for a job. Every one of them had a dozen votes in his vest pocket or the palm of his hand that he could deliver without the least bit of trouble. They are still coming and all of them can put the referendum over single handed. But those are the men we meet up with every time a political campaign of any nature gets under way.”

The law of averages is bound to come to his aid this time, he believes. He has the ingredients for success. Plenty of money and a large organization.

An old adage has it that “money makes the mare go.”

In this instance it's apt to make an entire race track go.

It can be seen from this story that no stone will be left unturned in the efforts of the racing interests to swing the election, and at the same time, it can be seen that even in Dade county they are not overly confident of winning.

PAYING THE RACING COMMISSION
ST. PETERSBURG INDEPENDENT

As was anticipated, the legislature who put the pari-mutuel racing bill through are now attempting to get through an order authorizing an appropriation of \$25,000 to pay the salaries and expenses of the racing commission, with corresponding business a paying business in Florida. The “Emergency Fund” in the book of House Member Campbell, of Dade County.
 Any such act of the Legislature would be in violation of its own law, for the pari-mutuel racing bill explicitly states that the state treasurer, not out of state funds, but “wholly out of funds deposited with the treasurer, under the provisions of this act, and it is hereby expressly declared that the state of Florida, or any fund belonging thereto, shall not at any time or under any circumstances be or become liable to any person, firm or corporation for any expense incurred or paid by the commission, or any member, agent, servant or employee of the commission.”
 As an act of violation, the commission is liable to the state.

REDUCE THE WAISTLINE

Lindy, Anne Hope To Leave On Hop To Orient Soon

(Continued From Page One)
 of Siberia. The distance of this hop is about 1000 miles.

Part of the journey from Petrozavlovsk will be over water, but on part of this flight to Nemuro the Lindberghs will have an island studded chain beneath them.

Col. Charles A. Lindbergh's announcement to the Associated Press last night that he and Mrs. Lindbergh would begin next week their flight to the Orient signalled the last phase of a long and methodical campaign of preparation which the young aviator imposed upon himself before attempting the adventure which he chooses to call his vacation.

With an eye first to the scientific benefits to be derived, Colonel Lindbergh laid down his plans for the long flight with the care which has marked his entire flying life from early days when he began to prepare for the memorable hop to Paris in 1927.

While other fliers contented themselves with charting a single course, planting their fuel supplies and consulting the weatherman, Colonel Lindbergh has delved deeply into every phase of his projected flight. At least four possible courses have been plotted and considered by the Lindberghs.

No element that could impair the value of his flight; impede the progress of his swift low-wing monoplane or cause the slightest undue peril to his wife or himself has been overlooked.

Should some mishap force the Lindberghs to come down on water they will swim the surface to find already floating a bundle containing means of sustenance, transportation and even communication with the outside world.

The outer wrapping of the bundle, which automatically is released from a tail compartment when the plane submerges, is a collapsible rubber boat designed for inflation by a bottle of compressed air.

The emergency set will have a range of 500 miles in the daytime and 3000 miles at night. The main set inside the plane has a 3000 to 7000 mile range.

Mrs. Lindbergh has drilled herself as a pilot and navigator, improving the technique which first brought her to the front pages after their speed flight from the Pacific Coast to New York. Both the colonel and Mrs. Lindbergh passed examinations as radio operators.

Their machine, a big, low-winged Lockheed Sirius, developing 510 horsepower, is in perfect condition and all that remains is final adjustment of the new pointers which the colonel almost a year ago decided to use instead of the special retractable landing gear with which he previously had it equipped.

PLAN ADOPTED TO AID GERMAN MONEY CRISIS

(Continued From Page One)
 decided with the American suggestion that such a committee be selected by the Bank for International Settlements or other authority.

The fourth recommendation noting with satisfaction the action of German industrialists in creating a reserve of approximately \$125,000,000 on the German gold discount bank was not directly referred to in the American proposal made public here, except that the latter spoke of internal measures in Germany to strengthen the financial situation.

LONDON, July 23.—(A.P.)—The committee of finance ministers of the seven-power conference announced last night it had decided upon a plan for economic and financial aid to Germany, and that the plan would be presented today to what was believed here, may be the final plenary session of the conference.

The plan, it was understood, would include measures intended to give Germany at least a 90-day “reprieve” in her struggle against financial and economic difficulties.

The conference has been in session only 48 hours. The proposed plan, it was said, is based largely on President Hoover's views as communicated to Secretaries Stimson and Mellon at Paris a few days ago, but they have been woven into the general fabric of a European plan for stemming the tide of German calamity.

If present plans are carried through the conference will end about noon today. Each nation represented here has had a share in the plan, it was said, but nobody could forecast whether the measures which probably will be taken will be sufficient to satisfy Germany's requirements.

Plan Is Announced For Refunding Of Municipal Bonds

CORAL GABLES.—(A.P.)—A plan providing for refunding the entire \$9,000,000 bonded and floating debt of the city of Coral Gables by issuing \$4,000,000 new class A bonds bearing 6 per cent interest and \$5,000,000 contingent class B bonds, has been announced by Mayor Vincent D. Wyman following an agreement between the city commission and a bondholders' protective committee.

The plan is conditioned upon its acceptance by the bondholders as well as creditors holding other city obligations, and is also subject to a referendum vote of Coral Gables freeholders, Mayor Wyman said.

Under the terms of the plan the interest charges will be reduced from approximately \$540,000 to \$240,000 annually, the mayor said. The class A bonds will mature in 40 years; the contingent class B bonds are without maturity and the latter will be secured by certain tax sale certificates, special assessments liens and other city owned property.

A ratio of division for tax receipts between the city for operating expenses and the bondholders for debt service will be established on a basis of \$220,000 for city operating expense and \$240,000 for debt service on class A bonds, Mayor Wyman asserted.

County Relief Fund Ordered In Sarasota

SARASOTA.—The setting up of a “county relief fund,” as provided for in a law passed by the Legislature and approved May 22, 1931, was ordered by the board of county commissioners at its session recently.

The fund created is to be used for any relief measure that may arise within the county. It was explained. Money for the fund are derived from the collection of delinquent personal property taxes. The sum of \$486.42 was deposited in the fund ordered set up yesterday, representing delinquent personal property tax collections made by Special Agent J. I. Walden.

Social And Personal Activities

MISS MARGARET PETERS, Society Editor

Office Telephone 148.

Personals

Mrs. J. J. Cates went to Daytona Beach for a month's vacation.

R. W. Blackbear was in Jacksonville last Monday on business.

Roland Wiygul of Winter Garden spent the day here on business.

Mr. and Mrs. Papworth are spending a few days at Daytona Beach.

Dr. and Mrs. A. W. Epps are spending a few days at Daytona Beach.

Julius Zelmanovitz left Wednesday night for his home in Brunswick, Ga.

Mr. and Mrs. T. L. O'Connor spent the day in St. Cloud on business.

Fred Dyson and Haywood Walker returned to Jacksonville on business yesterday.

Mrs. Ed Carraway left Monday for Daytona Beach where she will remain for the next month.

Miss Theo Vickery has left for Boone, N. C., where she will resume her studies at A. S. T. C.

Mrs. Ralph Wight, who is spending the summer at Daytona Beach, will be home for the day.

Miss Lois Shaller, who has been visiting in Orlando for the past two weeks, returned home Wednesday night.

Mrs. F. B. Dyson, and daughter, Anna Bell, have left for Waycross to visit the former's brother, S. E. Patter and family.

Forming a party which spent yesterday at Daytona Beach with Mrs. L. F. Hagen were Mrs. Howard Long, Mrs. Henry Purden, Mrs. George Geiger, of Atlanta, Ga.; Miss Ellen Mahoney, and Miss Georgianna Hart.

Circle Number One Of Church Has Meet

Circle Number One of the First Baptist Church met Monday afternoon at the home of Mrs. Fred Myers, with 11 members and two visitors present. The chairman, Mrs. George Huff, opened the meeting and Mrs. Myers led the devotional. Mrs. Stiles conducted the Bible study after which there was a business discussion and the meeting then adjourned for the social hour. Delicious refreshments were served by the hostess to the following members: Mrs. Howard Cummings, Mrs. E. W. Stiles, Mrs. M. F. Collins, Mrs. J. A. Cunningham, Mrs. L. B. Bragg, Mrs. H. H. David, Mrs. George Huff, Mrs. W. A. Hopkins, Mrs. W. H. Hand, Mrs. Fred Myers, Miss Mary Gordon, and the visitors, Mrs. H. A. Steiner, and Mrs. E. B. Larrimore.

Mrs. Anna Mae Purdis, and daughter, Winona, of Cameron City, have gone to Tampa to spend two weeks with relatives and friends.

Mrs. Horace Walker and daughter, Nancy Mae, of Richmond, Va., arrived this morning for a short visit with Mrs. Walker's parents, Mr. and Mrs. R. J. Holly.

Mr. and Mrs. Delbert Steiss and son, Albert, of Orlando, and Mr. and Mrs. J. Z. Eckels of Ocoee, were the guests of Mr. and Mrs. H. F. Calhoun at their home, 3412 Palmetto Avenue.

Miss Georgia Mobley returned home last night from Eufaula, Ala., where she has been visiting Miss Edith Wilkins. She also visited in Birmingham, Gadsden, and Columbus.

Mrs. W. B. Roche left for her home in Paducah, Ky., where she will meet her husband on a trip to the Pacific Coast. Mrs. Roche was the guest of her parents, Mr. and Mrs. R. O. Long.

Social Calendar

FRIDAY.
The regular meeting of the Seminola Rebekah Lodge will be held at the Odd Fellow Building, Geneva and Sanford Avenues.

MONDAY.
The Sunbeam Band of the First Baptist Church, fostered by Circle Number Five, will meet at the church at 8:30.
Women's Missionary Society of the First Baptist Church will have a prayer service at 8:00 o'clock with Circle Number Three in charge, and a program meeting at 8:30 o'clock with Circle Number Six in charge.

Sims Home Is Scene Of Co-ed Class Meet

The Co-ed Class of the First Methodist Church had its regular business and social meeting at the home of Mr. and Mrs. George Sims on South Cameron Avenue Tuesday evening.

The meeting was called to order by the president, Lewis Rietze. After the old and new business was discussed, games were played. Then delicious ice-cold watermelon was served to the guests who gathered on the lawn. The hostesses were Mr. and Mrs. George Sims and Mr. and Mrs. Rodney Cappell.

Among those present were Mr. and Mrs. Lewis Rietze, Mr. and Mrs. George Sims, Mr. and Mrs. Rodney Cappell, Mrs. Paul Redford, Mrs. Milton Reel, Mrs. Carl Williams, Mrs. Porter Lansing, Mrs. Malcolm Cameron, Misses Rebecca Clark, Lillian Thornley, Elizabeth Clark, Kathryn Tillis, Ella Bolton, Alice McKim, Emily Priest, Kelly Pope, and Randal Priest.

Ladies Council Of Church Has Meeting

The Ladies Council of the First Christian Church met recently at Daytona Beach, with Mrs. J. J. Cates, and Mrs. H. E. Weekly, as hostesses. After a social hour, the members of the Council enjoyed a covered dish luncheon. At the business meeting which began about 2:30 o'clock, each circle gave interesting reports.

After the meeting was over the remainder of the afternoon was enjoyed by the members on the beach and in swimming. Those present were: Mrs. C. E. Niblack, Mrs. J. T. Ellis, Mrs. Frank Lamson, Mrs. E. M. Galloway, Mrs. George Shipp, Mrs. W. A. Patrick, Mrs. Elmer Cordell, Mrs. A. H. Ayre, Mrs. B. Newsome, Mrs. C. W. Selamy, Mrs. D. R. Johnson, Mrs. J. C. Bram, Mrs. Z. A. James, Mrs. Shadala, Mrs. A. M. Walker, Mrs. Johnston, Mrs. Ed Carraway, Mrs. H. J. Clause, Mrs. H. E. Weekly, Mrs. J. J. Cates, Mrs. J. K. Liles, and the Misses Hattie Doanley, Dorothy Clause, Mildred Clause, Nellie Mae Newsome, Doris Newsome, Lou Varne Newsome, Beale Adkins, Whitma Newsome, Evelyn Cates, Louise Johnston, Jean Ellis, Jessie M. Durden, and Vernon Newsome, Don Lamson, Jimmie Cates, Joe Johnston, J. C. Newsome, and Cecil Jones.

Matinee Party Given By Two Girls Monday

The Misses Dorothy Vial and Doris Walker honored the "Girl's Movie Fan Club" with a matinee party at the Milane Theater, Monday afternoon.

After the movies the party went to the home of Miss Doris Walker, 508 Palmetto Avenue for refreshments of lemonade and cake. Those present were the Misses Margaret Bennett, Louise Purdon, Margaret Reitz, Annie Bell Brown, Laura Mae Brown, Doris Ryker, Esta Benjamin, Eunice Tolley, Dorothy Vial, and Doris Walker.

SEVILLE UNDER MARTIAL LAW DUE TO RIOTS

(Continued from Page One)

A year-old girl, struck within her home. The fighting began yesterday morning with an unsuccessful attack on the governor's residence. Police who dispersed a group attempting to burn the telephone building were fired on, while at Puerto de Triana, where another group was resisting arrest, shooting caused a panic in a city broadside.

MADRID, Spain, July 23.—(A.P.)—A cabinet crisis seemed likely today after the assembly had denied last night the government's right to enforce Minister of Interior Maura's decree suppressing syndicalist disorders without the assembly's sanction. Minority leaders joined forces and blocked a motion for a vote of confidence for the government.

As a result, cabinet members were disgruntled and it was understood the socialist, at least, may resign. Finance Minister Prieto said, "perhaps I shall be a minister only a few more minutes."

Reports were current that republican forces were rallying under Foreign Minister Alejandro Lebrun for the purpose of forming a new government.

The minority group of the assembly insisted that the government explain the reasons for extraordinary measures taken.

Minister Maura was optimistic present were the Misses Margaret Bennett, Louise Purdon, Margaret Reitz, Annie Bell Brown, Laura Mae Brown, Doris Ryker, Esta Benjamin, Eunice Tolley, Dorothy Vial, and Doris Walker.

SEVILLE UNDER MARTIAL LAW DUE TO RIOTS

(Continued from Page One)

that the cabinet difficulties would be solved. He said the government of President Alcalá Zamora holds the assembly's confidence and does not need the assembly's approval a great deal in the present situation. Ramon Franco, aviator and assembly member, declared the provisional cabinet must understand "the real aims of the republican revolution have not been completed."

He predicted if the cabinet refused to take stock of this, "a new violent revolution will surge from beneath." Fighting and fatalities continued in Seville, with minor strikes in many other cities.

In Madrid, Director of Safety Galazra announced that bombs had been found in syndicalist quarters similar to those exploded in the streets Tuesday night.

Forty-four persons were arrested. Director Galazra said various letters from the international anarchist federation were found on them.

Citrus Estimates See Small Crop In Sarasota County

SARASOTA—Ralph Campbell, of Palmetto, has commenced the work of estimating the citrus crop for the season of 1931-32 in Sarasota and Manatee counties.

Results so far in the estimate being made in Manatee county indicate that both oranges and grapefruit will fall below last season's total, but until the survey is completed it will be impossible to arrive at the percentage of shortage.

As soon as this estimate is completed, which will be by the mid-

Writ Is Served On Bond Trustees Of Ocean Boulevard

DAYTONA BEACH—A writ of mandamus which may bring the whole Ocean Shore boulevard complication into the supreme court has been served on the members of the board of bond trustees.

The writ points towards action which would result in the levying of a tax against the property owners of the Ocean Shore district estimated as high as 70 mills.

Issued on request of J. W. Gillespie, L. F. Rodgers and James G. Martin—understood to be bondholders and represented by James E. Vocelle, Jacksonville attorney—the writ is alternative and returnable in Tallahassee July 28.

It commands that the board, composed of B. S. Johnson, chairman; C. M. Bingham, John H. Pierce, W. H. Courtney, and L. O. Upson meet and estimate the sum necessary to pay principal and interest of delinquent bonds as well as the principal and interest of bonds which will become due during the fiscal year to begin Oct. 1. This estimate, the writ orders, must be reported to the Volusia county board of commissioners or cause shown why it shouldn't be.

Whether the county board will then levy the heavy tax necessary to pay the bonds or choose to wait until it is mandated to do so, County Attorney William J. Gardiner did not know yesterday afternoon.

The estimate that it would require about 70 mills to meet the bonds was made by James Doyle of the county clerk's office.

Excursionist Wounded By Bullet As Patrol Boat Chases Runner

DETROIT, July 23.—(A.P.)—An excursion steamer, with 1000 members of a church young people's society aboard, became the center of a brush between liquor runners and United States customs patrolmen on the Detroit River late last night and one of the shots fired wounded an excursionist in the arm.

The fugitive speedboat and crew of two escaped into Canadian waters after dumping part of their cargo. Witnesses believed the shot which wounded Arthur Gajek on the steamer St. Claire probably ricocheted from the hull of the rum boat as it sped past the steamer. The St. Claire's rail was lined with merrymakers who deserted the dance floor to watch the chase.

PLANT CITY—24 cars of peppers shipped from this place during three-day period.

WHITE HOUSE DOG HAS BEEN EXILED TO ARMY STATION

Pet That Bit Marine Will Try Existence At Fort Meyer Post

WASHINGTON, July 22.—(A.P.)—Shamrock, the White House dog that couldn't get along with the marines, has been exiled to Fort Meyer to see if he likes it better with the army.

Shamrock is an Irish wolf-hound. In a fit of temper one weekend recently he bit one of the "hall-keepers" who guard President Hoover's camp on the Rapidan.

The disgraced Shamrock was packed off to a nearby fort to learn a little discipline with the cavalry.

Now, supposedly, he associates with the army dogs that are more or less locked after by Sergeant Frank Smith, although the sergeant refuses to have anything to say about Shamrock.

Does seem to like army life, say soldiers at the fort. More than one Virginia dog has followed some soldiers to the post and refused to return to its master.

"Shamrock may find he likes it, too. Perhaps he will become a regular cavalry dog and learn to ride horseback like 'Boogie,' Sergeant Smith's Chesapeake Bay spaniel.

Being an exile, however, Shamrock may follow in the footsteps of "Pittsburgh," the guard house dog, who would associate only with soldiers held in distance vile for some offense.

"Pittsburgh" liked to pe with the guard house prisoners on fatigue duty in their blue dungarees, and by preference slept every night locked in a guard house cell.

He learned to distinguish officers by their shiny boots and soldiers in good standing by their hat cords and would growl when they came his way.

If Shamrock stays on at the fort, and doesn't sink his teeth in the canvas leggings of some soldier, he may be buried when he dies in the "Arlington of dogdom."

It is a little dog cemetery, adjoining the green slopes of Arlington cemetery, where small wooden slabs mark the last resting places of 20 or more army dogs.

When "Pittsburgh" died recently, he was buried there with honors, and the post band and police guard were contingent marched in his funeral procession.

With such honors in prospect, Shamrock may get along better with the army than he did with the marines.

EFFORT TO GET TAX HARMONY FAILS IN HOUSE

(Continued from Page One)

gin today when the House takes up Senate messages. The two cents extra gas tax was included in the batch of bills sent over from the Senate yesterday morning but the House couldn't get to it yesterday because the calendar required debate on the railway bill and adjustment yesterday afternoon found the House sometimes taking up their appropriations bill.

Proponents of the gas tax will have a trouble introducing the bill if it is a revenue measure, coming within the purview of the governor's call for his second session. They will hit their first obstacle in putting the bill on the special calendar and they will be continuing order. They will be a waiter of revenue, a majority vote and the first test roll call.

Members of the House were taken during the day, each showing signs of the administration bill-suspension, the gas tax increase. From of the bill, however, or, pointed to the action of the House, voting 52 to 26, in killing the bill adding one cent to the present tax, as the basis for belief that they would be able to hold a majority in House.

Representatives were deluged with telegrams from merchants throughout the state urging them to get through the gas tax bill as quickly as possible. These telegrams indicated the effect of the threat that in a week or two both the state and federal gas taxes would be increased.

eral court if a two-cent increase is voted. Representatives of the Florida Motor Lines and the Blue Bus company maintain the bill would boost the total tax beyond the limit of the constitution, that an eight-cent tax would be held confiscatory by the court and that such a decision would force a third extra session, which Governor Carlton says can be avoided if the bill is passed.

"We will try to knock out the entire gas tax structure if this bill goes through," a bus company official told a correspondent yesterday. "The bus transportation companies have been willing to pay a six-cent tax although it has cost us many thousands of dollars. But two cents more will force us to take the matter into federal court because we feel that an eight-cent tax on a product costing as low as six cents is beyond all reason."

The battle in the House will be led by Speaker Lewis of Gulf, Representative Tomasello of Oklawaha, and others of the administration bloc and by Representatives Mathews of Duval, Robinson of Dade, Horne of Madison and their allies, who have thus far blocked any increase in the gasoline tax and are insisting upon diversion of at least one and possibly two cents of the road department's gasoline money to satisfy the deficit in the state budget.

Tomasello was confident his crowd would get sufficient votes last night and today to pass the bill. But Mathews and his colleagues were equally confident the bill would be defeated.

"The issue is perfectly clear," Tomasello said. "We must raise approximately \$4,500,000 to operate the state department and institutions and keep the schools open. Thus far, the Legislature has passed tax bills, which coupled with existing levies, fall that much short of paying these bills. The integrity of the state is at stake, and if the revenue is not provided at this session, another session is inevitable."

"The Legislature has considered various tax bills—a tax on electricity, another on gas, a tax on liquor, cigarettes and even a general sales tax. Each bill has been rejected because of the pressure of public opinion or through the maneuvers of well organized lobbies. Now it is a question of adding two cents to the tax on gas or resuming consideration of bills previously beaten in committee or on the floor."

Mathews maintains, on the other hand, that sufficient revenue can be provided by diverting one cent of the road department's tax income into the general fund and by cutting the 15 percent reductions in government overhead.

"As far as myself and my colleagues are concerned," Mathews said, "we are willing to stay here the rest of the year, if necessary, to beat this bill. What Florida needs in its state government is more economy, less waste and curbing of income to satisfy obligations that have been reduced in conformity with the trend of the times."

Members of the House were taken during the day, each showing signs of the administration bill-suspension, the gas tax increase. From of the bill, however, or, pointed to the action of the House, voting 52 to 26, in killing the bill adding one cent to the present tax, as the basis for belief that they would be able to hold a majority in House.
