50 per cent of MIAMI SHORES

NOW WITHIN The Greater City - but no special assessments to the Miami Shores Investors

Have you ever stopped to consider just how significant the above statement is to you, as a potential Greater Miami Investor?

Judging from the continuous growth of Greater Miami, it goes without saying that before long the remaining balance of Miami Shores properties will be absorbed by Miami, and Shoreland Company will not oppose such action any more than they opposed the recent election, which absorbed approximately 50% of the entire property.

True—it costs Shoreland Company—as a company—considerable money to have one-half the properties taken into the City of Miami this time and by reason of the fact that Shoreland Company, having promised all city improvements, will fulfill that promise—install complete city improvements such as streets, paving, sidewalks, curbing, water, electric lights—delivering completely improved properties to the buyer and fully paid by Shoreland Company.

AND WHAT A SAVING THIS MEANS TO THE INVESTOR OF WORRY AND MONEY

It means the elimination—for the life of the improvements—of all special assessments—it means immediate improvements—it means the very best improvements—it means 75 and 100-foot boulevards rather than ordinary streets—it means the carrying out of a most unselfish and artistic city plan such as one would not expect a city to incorporate in its plan.

And it means that these improvements shall be installed and paid for by Shoreland Company, according definite specifications known to the purchaser when he selects his property, hence the elimination of all special assessments.

Over and above all this, MIAMI SHORES is thoroughly and properly zoned as to restrictions. It is little wonder, then, that all these advantages, plus the Shoreland Company's sales and publicity service, ways at the command of Shoreland investors in the matter of resales.

Miami Shores Remains Supreme
