Welfare Department

With a good attendance and Mrs. B. W. Herndon presiding, the Welfare department held a most interesting meeting at the Woman's Club, Wednesday afternoon.

A pleasing program with the topic "The Teacher's Salary" made the meeting one of real pleasure. A very fine paper was given by Mrs. E. F. Housholder on the topic, who in a splendid manner developed important points and excellent reasons why our teachers should be paid better salaries.

During the business session it was voted that the Welfare Department take the initiative and give \$200.00 of the Carnival receipts to form the nucleus of the teachers salary fund.

The following officers were elected for the ensuing year. Vice Chairman—Mrs. E. D. Brownlee; Secretary-Treasurer—Mrs. H. B. Lewis; Chairman of Finance—Mrs. T. W. Jones; Membership Committee—Mrs. Herbert McCaslin; Program—Mrs. E. M. Galloway.

A detailed report of the Carnival receipts and expenditures will be given later.

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days... I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go... I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me. One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle. I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. E 78

spent Sunday with friends at Maitland

Mr. Engerzol had the misfortune of losing his horse last week. O. B. Olson was a Saturday visitor to Sanford. Mrs. H. D. Durant and daughter spent Sunday at Winter Park the guests of Mrs. W. W. Tanner.

Rev. G. V. Albertson of DeLand is expected here for Sunday and will deliver a 11 o'clock sermon. Mr. and Mrs. Ingersol have recently sold their Melvin place to D. L. Thrasher of Sanford.

Mr. Ira Jones made a business trip to New Smyrna and Daytona last week. Mrs. Harris and little girl of Orlando was the guest of her sister in law Mrs. W. P. Monroe here a couple of days last week.

EAST SANFORD

Mrs. Susie Squire went to Jacksonville on Wednesday for a week's visit with her son Byron and family. Mr and Mrs A. H. Stone of Cameron Ave are enjoying a fine player piano recently purchased. Mr and Mrs Ed Ward of Cameron Ave are driving a beautiful new French model automobile.

I. D. Hart is having a weeks vacation visiting relatives over the other side of the State.

Ed Cameron was at home from Boston over Sunday. The whole community sympathize with Mr and Mrs T. W. Hyden in the death of their infant daughter.

Prof and Mrs George L. Maris left here on Tuesday of last week for Philadelphia Pa., to visit their son Herbert and family and finally Mr and Mrs Maris have been residents of Sanford for 20 years or more and have left a large circle of friends who will regret their departure. Since the burning of their home some weeks ago, they have been Mrs. F. F. Dutton's guests.

Mr and Mrs I. D. Martin have sold their attractive home on Lake Golden and are taking apartments in town and will move shortly. Mr and Mrs W. W. Dresser have bought the Martin home and will take possession in a short time. The Dresser farm house and barn in Cameron City is for sale.

Graham Hunter has bought the 10 acres of improved land adjoining his place on Beardall ave.

The so called overall clubs looks and sounds silly to us farmers. We wear overalls the year round and never thought of being clubby except now when we need new ones to pay several prices for a pair just some one's fool fad as the price is bound to soar with the big demand at present.

Ross Long and a force of painters are in Winter Park at work on the beautiful new home recently purchased by Mr and Mrs Roy Symes who we understand are to tie up their residence there soon.

Mr and Mrs Charles Braddy have returned to their home near Atlanta, Ga., after the winter in Cameron City.

GENEVA

Miss Annie Peters of Daytona is spending her vacation here with her father Mr T. D. Peters.

Mr and Mrs L. P. Daniels and small daughter are visiting their parents, Mr and Mrs J. W. Daniel.

Mrs. Endor Curlett and Miss Emma Eichnor are the guests of their sister Mrs. Charles Brumley at St. Augustine.

Miss Edith McLeland is with her aunt Mrs. Eugene Matthews at Eau Gallie and will spend the summer there.

The missionary meeting of the Baptist church was held at the home of Mrs. T. D. Peters last Tuesday afternoon.

Those from Geneva attending the quarterly meeting of the M. E. church at Oviedo last Saturday were Mr and Mrs J. W. Daniels and Mr and Mrs H. H. Pattisall. Geneva people are wishing the "news items" would come out in

the weekly Herald instead of the daily. Last Friday evening the last meeting of the parents-teachers association, for the season, was held at the school house with a larger number present. The teachers and pupils deserve a great deal of credit for the programme rendered. All the ladies were dressed in oriental costumes and under the soft lights of Japanese lanterns they looked as though they might have just stepped over from Japan. After the program, home made cake and fruit punch were served and a social hour enjoyed.

LABOR BO'RD FIRM IN STAND TOWARD MEN WHO WALKED OUT

Men Who Quit Jobs Before Will Not Get Hearing

OUTLAWS ARE OUT

AND BOARD WILL ONLY TREAT WITH DULY AUTHORIZED LABOR MEN.

Washington April 09.—The railroad labor board announced today it would not receive complaints from striking railroad men.

The board's statement said it would not "receive, entertain or consider" any application or complaint from any parties who were not complying with the transportation act, or who were not adopting every means to avoid interruption of the operation of the roads growing out of any dispute.

Immediately after the statement was made public, spokesmen from striking railroad men in New York, New Jersey, New England and the middle west were received by the board. They were accompanied by Reps. Egan and McGlennon of New Jersey.

The board's statement follows: "It is decided and ordered by the board, as one of the rules governing its procedure, that as the law under which the board was created and organized makes it the duty of both carriers and their employers and subordinate officials having differences and disputes to have and hold conferences between representatives of the different parties and interests to consider and, if possible, to decide such disputes in conference, and where such disputes are not decided in such a conference to refer it to this board and decide.

"And it is further contemplated and provided by the law that pending such conferences; reference to and hearing by this board, it shall be the duty of all carriers, their officers, employees and agents to exert every reasonable effort and adopt every available means to avoid and interruption to the operation of any carrier growing out of any such disputes; therefore this board will not receive, entertain or consider any application or complaint from or by any party, parties or their representatives who have not complied with or who are not complying with the provisions of the law or who are not exerting every reasonable effort and adopting every available means to avoid any interruption to the operation of any carrier growing out of any dispute between the carrier and employer."

Request for an immediate hearing by the representatives of the strikers was denied.

Chairman Barton said that under the rules adopted by the board, written complaints must be first be filed with the secretary showing by express statement and facts set out that the dispute was one which the board was authorized to consider.

Night Club Fever Sets in as Gay Life Is Resumed.

ENGLISH LEARN TO DANCE

Shortage of Eligible Young Men Puts Crimp in Dancing Aspirations of Many English Girls--Recort to "Paid Escort."

London.—"Making a night of it" became almost a lost art in England during the late war. The owl and the Briton were scarcely on speaking terms. In the first place, it wasn't patriotic to "stay out at night." Then there was the absence of lights, the shortage of taxis, the ban on dancing and—the Goshes. So nights were spent in bed, and the only time a Londoner saw the sun rise was when he got up early to work in his allotment.

London, once the myriad of cities, became a silent tomb of somber grays and deep shadows after nine o'clock at night. I can remember when it was actually a penal offense to strike a match in the street. But those who only saw it in wartime wouldn't know the old place now! The grays are purples now and the lights are bright and red, and in Piccadilly Circus they have four electric signs that flash on and off. London has acquired the night club

How the Night Is Spent.

"Are you dancing tonight?" no longer means are you going to spend the hours between dinner time and midnight at a ball or club. It means are you going to Rector's, to the Grafton galleries or to Brett's, picking up your party somewhere about midnight and never thinking of going home until the milkman's horse has got his second wind and the pink flush of a London dawn colors the cold night mist. Then, and not till then, does one turn homeward in a private car, if one has one, or a taxi, if one can get one, with perhaps a brief halt at the nearest coffee stall for a cup of muddy fluid which tastes like nectar at that hour, but which, taken six hours later, would spoil one's whole day. But such is night life in a big city!

The night clubs of London are a peace product. They range from the ultra-exclusive ones of Bond street to the frankly democratic and even more so ones of Leicester square and Chancery Lane. Cross road—clubs to suit the taste and deplete the pocketbook of every one.

Closing Hours Ten O'Clock.

London has its closing hour, and that is ten o'clock. At none of the clubs or dance halls is any form of intoxicating liquor sold openly. Ostensibly, one does it on pink lemonade and elder cup—unless one has a large hip pocket or knows the proprietor.

Every place in London which dispenses jazz music and French pastry during the wee wee hours is a "club." In most of them membership consists merely of filling in a form at the door. Many, however, are sure enough clubs, where only members and their guests may dance. Of the former class, Rector's, on Tottenham court road, is unquestionably the most popular. Needless to say, it has an American orchestra; all the dance clubs have bands that are either American or good imitations of American musicians.

Rector's draws the theatrical crowd, folks from behind the footlights as well as those who have been to a "show" and are out to make a night of it. It charges \$5 a ticket, or \$7.50 for a couple, which includes a light, very light, "buffet supper."

London is jazz mad; they are learning to dance over here, and when an Englishman dances he likes to get plenty of exercise. Woe to the slow or tender of foot when the band strikes up a fast one-step.

The shortage of eligible young men has, of course, put a severe crimp in the dancing aspirations of many English girls. This has led to the "paid escort," usually an amiable youth with enchanted feet and suave ballroom manners and a rented dress suit.

Tasmania Mutton.
Tasmania is a far outpost of the British empire, and is not yet great in industry and trade, but none the less it has nearly 2,000,000 sheep and is about to begin the business of exporting frozen meat. It is estimated that with its present stocks it can send out yearly about 100,000 carcasses of lamb and mutton.

Mother's Expressive Eyes

Ella started to lift the baby from its crib, but caught her mother's eye, and desisted. Afterward, she was overheard telling her playmate that she knew when her mother didn't want her to do anything. "She doesn't have to tell me," Ella added, "she just thinks stop, and I can see her think."

Valuable Spanish Products.

Spain is an important producer of a number of essential oils, including spike, rosemary, thyme, sage, pennyroyal, and geranium. The plants grow wild and distillation is carried on by large steam distilleries as well as by many small direct-fire stills.—Exchange.

Popular Alabama Statesman.

In very recent years Alabama was represented in the senate by two Confederate generals, John T. Morgan and Edmund W. Pettus. Morgan's great reputation as an orator and statesman had long eclipsed his reputation as a soldier. Pettus was one of the most original and delightful patriarchy who ever sat in the senate. He had fought in the Mexican war as well as in the Civil war, and didn't come to Washington until he was seventy-six years old. Pugh, his predecessor, had refused to endorse him for appointment as a federal judge, on the ground that he was "too old." "If I'm too old to be a judge," said Pettus, "I'm not too old to be a senator." So he made a campaign for Pugh's seat and won it.—New York Tribune.

Called Himself an American.

The blood in my veins is mingled, English, Scotch and Irish. With a somewhat similar ancestry, some years ago, Baron Speck von Sternburg, who was ambassador of Germany to the United States prior to the recent war, boasted himself an American. I was present at a banquet in Berlin one night when, responding to a personal toast, he rose and said: "My father was German, my mother was Scotch and I was born in England; that makes me an American."

The baron's conclusion was received with more enthusiasm at that moment than it would be today.—Melville B. Stone in Caller's Weekly.

Getting Acquainted.

While traveling recently I beguiled the hours by trying to win the confidence of a winning but shy child. My efforts were in vain, so I took refuge in my book. Soon after a soft little hand crept into mine slowly, and a tiny voice said: "I am used to you than I used to be."—Chicago Tribune.

To Remove Varnish Stain.

To remove varnish stains on cloth, first wet the spots with alcohol two or three times, then rub with a clean cloth. If the color is injured, sponge afterward with chloroform to restore it, unless the color is blue, in which case kumgar should be used instead.

Gregorian Calendar.

The Gregorian or reformed calendar, called "new style," was promulgated on March 1, 1582, and adopted by most of the Roman Catholic countries of Europe before the end of that century. It was adopted by Great Britain in September, 1751. At that time the United States were British possessions, and the new calendar was accepted by them.

Nature's Color Schema.

Imagine the cross of the field and the leaves of the forest created blue, or magenta, or scarlet, instead of green! Some speculative scientists think the foliage of the planet Mars is red, and that the people there are feeling red continually. It would not be difficult to believe that keeping the peace on this good green earth is not as hard as it would be had our planet been painted red in the beginning.—Minneapolis Journal.

Camels Failed to Thrive Here.

Camels and their near relatives, the dromedaries, have been introduced in this country from the old world at various times. Some were brought to Virginia in 1701. But, owing to lack of knowledge of their habits and of proper methods of caring for them, these attempts have proved failures.

Cut Clothing Prices
New York April 22.—One of New York's large ready-to-wear clothing houses, in advertising today reductions to \$37.50 in the prices of suits and overcoats ranging as high as \$75 announced the drop as a "deliberate cutting of our own profit for the purpose of helping the movement to force down the high cost of clothing."

Thousands of New Yorkers reading the announcement contemplated what the profits at original prices must have been.

The advertisement is headed: "Why wear overalls?" It explained the reduction was "the firm's contribution to the national drive to cut the high cost of clothing."

The price-cutting movement by department stores, which started in Brooklyn, spread to Manhattan today with an announcement by W. Riley, head of the department squad of profiteering hunters, that two big stores have volunteered to cut clothing and shoe prices. He said one was a large Fifth avenue department store. Mr. Riley said his agents had collected evidence against several new stores of profiteering and that arrests would follow soon, and unless there were more voluntary cuts, in prices.

D. A. R. Card Party
The Woman's Club was most attractively decorated on Monday night when Sallie Harrison Chapter D. A. R. gave a bridge party for the benefit of Campbell-Lossing Post of the American Legion. Oleanders, bamboo and roses mingled in graceful arrangement, while on the piano was placed the beautiful American flag presented to Sallie Harrison Chapter by the State Regent, Mrs. Gilkes, adding its brilliant beauty to the charming scene. Eleven tables of players enjoyed the fascinating game and guests were loth to leave long after the prizes were won and refreshments served. All of the prizes were donated, a pair of white silk hose, by the Sanford Shoe & Clothing Co. was won by Dr. Puleston. The cutting prize for the gentlemen was a handsome deck of cards, donated by Mrs. Geo. D. Bishop and cut by Mr. Bishop. Dr. R. C. Bower gave a lovely bathing cap that was presented Miss Katherine Wilkie on high score. Mrs. W. J. Thigpen won the cutting prize donated by Mrs. W. E. Watson, a lovely Turkish towel. Much credit is due Mrs. G. I. Loucks and her committees for one of the most delightfully, informal and enjoyable games of the early spring. The use of the Club House was donated by the Woman's Club, a courtesy much appreciated by Sallie Harrison Chapter.

St. Agnes Guild
An enjoyable meeting of St. Agnes Guild was held Monday with Mrs. Leonard hostess. A profusion of lovely pink roses were used artistically in several of the rooms with lilies and nasturtiums in the hall. Refreshments were deftly served on plates adorned with pansies. The social hour was delightful and a chicken salad course was served. The next meeting will be held with Mrs. Lloyd.

Pipe Organ Club
The regular meeting of the Pipe Organ Club was held at the home of Mrs. Stewart Telford Monday afternoon with a good attendance and an interesting business session at which time a committee was appointed to purchase the Pipe Organ. This committee will be Mrs. A. M. Phelps and Mrs. Sabelle Malnes to act in conjunction with Dr. Hyman. At the close of the business period refreshments were served.

Girls Basket Ball Team Give Banquet
The Girls Basket Ball Team of Sanford High gave a banquet at Hotel Valdez Friday night which was a notable event in the closing days of school. The banquet was served in the

dining room, with covers laid for twenty-four, the High School faculty, and the young men invited Leap Year fashion, being included in the guests. Mr. Beck of the University of Florida acted as toast master. Flowers centered the table and cunning little cards in basket ball design marked the places.

In the course of the evening the girls were presented the much coveted and well earned emblems of a successful season.

To Cora Lee Tillis and Ethel Henry were presented the Stars. The block letter "S" was given Julia Zachary, Rese Gallagher, Esther Miller, Anna Mason, Sara Warren Easterly and Adele Rinea; Ruth Gillen was given the program. The team have made a splendid record again this season and ranks with the best in the state and all Sanford is proud of them.

beauty that formed a brilliant setting for the daintily gowned women who graced the occasion. The card tables were placed in the Sun Room, whose central adornment was a stand which held a huge vase of stately calla lilies surrounded with spengeri plumosa falling in graceful profusion. The windows were banked with masses of varicolored phlox and larkspur and garden flowers held in baskets and vases completed the attractive arrangement. A pretty scheme of decoration was used in the dining room where refreshments were served.

The prizes carried out the charming spirit of a May Day party, lovely baskets of cut flowers being presented the winners. The favors were also flowers a combination of fern violets and Dorothy Perkins' roses. Receiving with the hostesses was Miss Jean Haskett and otherwise assisting were Mrs. Harry Ward, Mrs. F. F. Dutton and Mrs. S. J. Carnes. Sweet and winsome in their pretty frocks and ribbons Camilla Puleston and Ruth Henry distributed the tally cards and favors. During the refreshment hour the Orlando orchestra rendered a program of fine selections. Out of town guests were Mrs. F. J. Gonzalez of Miami, Mrs. Thomas A. Neal Mrs. Cecil Butt, Mrs. (Continued on page 8)

Cathedral Resembles Grass Hill.
Of the world's cathedrals, probably the most curious is that which crowns a hill in Uganda. In appearance it resembles nothing so much as a mountain of grass, although on closer inspection one is able to see that mud and wood have been extensively employed. The structure can accommodate 4,000 people.

"DAD" ROYALE'S LUCKY DAY

Old Man Had Reason to Be Thankful That His Pig Developed Quality of Enterprise.

One of the most important applications of geological science is the pointing out of places likely to yield stores of mineral wealth. And yet, where copper is concerned, the really great discoveries in this country have been made by pure luck.

It was Old Man Royale's pig that located, according to the story, the richest copper mine in the world—the famous Calumet lode.

Old Man Royale was not interested in mining; he kept a boarding house. But his pig was gifted with the valuable quality of enterprise. Grabbing in the back yard, it "snouted up" a prehistoric Indian cache.

The cache contained a large quantity of copper, a fortune in itself. But examination of the rock beneath disclosed veins of the metal, and mining operations thereupon undertaken developed the Calumet lode, which has since paid \$145,000,000 in dividends and \$500,000,000 in wages.

"Native" copper was used to a considerable extent by the Indians in pre-Columbian days, for ornamental purposes chiefly. Ancient aboriginal skeletons have been dug up wearing copper masks. In Michigan they got copper out of rocks by building fires against them; and huge nuggets of "mass" copper weighing hundreds of pounds have been found in the Lake

superior region which showed signs of unsuccessful attack. The Indians had no tools with which to cut up such great lumps, and they could not carry them away bodily.

Copper is the American metal par excellence, and of all the metals is the most useful to mankind, iron alone excepted.

Plan to Irrigate Egypt.

For many years projects, have been under consideration for obtaining such a complete control of the waters of the upper Nile as will enable Egypt to develop its agricultural resources to the utmost and to secure the country against the dangers of excessive floods, while permitting the Sudan also to develop to some extent its own vast resources.

The works contemplated will extend over a generation and involve the expenditures of tens of millions of dollars, affecting the entire future of irrigation throughout the Nile basin.

The commission, it is reported, will consist of three members: An irrigation engineer nominated by the government of India as president and a British physicist nominated by the University of Cambridge, while to draw on the wide experience available in America on questions of irrigation and water supply, and still further to strengthen the independence of the commission, an irrigation engineer nominated by the government of the United States will constitute the third member.

Aerial Game Laws.

Modern inventions beget new manners and new laws to govern the changed customs. The man who nets fish wholesale seems about to be outclassed by the airplane operator who gathers in wild birds by means of a net. So, apparently, think the sportsmen in one locality of Canada. As a consequence, an association of them are sponsoring a request to the government to prohibit the flights of airplanes over marsh lands, and the use of flying machines in pursuit, shooting, or netting of wild fowl. When warned of anything approaching these birds do not seek cover, but rise immediately into the air and obviously become open at once to the ingenious contrivances of airplanists. Rapid-firing guns, and nettings attached beneath the body of the machines, would seem to be an easy means of possible extermination of the birds, and this it is sought to avoid.

Had to Look the Part.

A perpetually unshaven fellow who runs a news stand near the winter garden was haled into court the other day for some trival charge. He pleaded his own case and was dismissed. The magistrate was interested in his excellent address and his knowledge of the law. He explained that he had been admitted to the bar and was a graduate of a big eastern college. "I could only make \$1,000 a year with my law," he said, "and I make about \$12,000 a year selling newspapers. It may surprise you to see how unkept I am, but it is business psychology.

If I dressed in good clothes people would not purchase from me."—New York Times.

Taking the Sting Out.

"It seems to me," said the old-fashioned man, "that \$75 is a lot of money to pay for a ready-made suit of clothes."

"Perhaps it is," replied the purchaser, "but the salesman made the transaction as painless for me as possible."

"How so?"
"He told me the same suit would probably cost \$100 next year."—Birmingham Age-Herald.

Sense of Delicacy.

"Are you not aware," said the heartless friend, "that a presidential boom will not be of the slightest practical service to you?"

"Yes," replied Senator Sorghum. "Then why do you insist on cultivating one?"

"As a matter of courtesy. I don't want to seem to be trying to court publicity by being different from everybody else."

Slay Man-Eating Beasts.

F. S. Little, noted scholar and traveler, will head a party of sportsmen early in the spring in an expedition into the district to the southwest of Kuling, China, where an effort is to be made to rid the country of a number of man-eating animals, said by the natives to be tigers. Reports are that twenty Chinese, besides a large number of cattle, sheep and other animals, have been killed and devoured in the district that the hunters will visit. The country, which is about 1,000 feet above the plains along the upper foothills, has been in a state of terror since last summer. Inhabitants have abandoned their homes and farmers their fields, and Chinese report that at least five different tigers have been seen.—Brooklyn Eagle.

Euclid by Film.

It will be good news to all school-children to know that the terrors of Euclid and his accompanying demons, like "isosceles," "primeter," "obtuse" and "rhomboid," will be greatly mitigated by a film which is now being produced and which will demonstrate by easy pictorial examples some knotty points in measurement. The film will start with simple ideas about straight lines and triangles, the latter being folded up or taken to pieces to show the problem in hand. Important details about the properties of squares are shown with models which can be built up—to illustrate, for example, how many small squares of a given size a large one will contain.—London Daily Mail.

Shrew's Triumph.

"Now that woman is on the verge of attaining political power, the shrew has more than ever come into her own," says the Inapareln (Madrid) "and the curious fact is apparent that every man knows how to manage a shrew but the man who has her."

Brainy!

The youngest colonel in the English army recently advertised in London newspapers for a job. Five years of war and much travel he gave as experience and "brains enough to be a colonel," as his qualification.
